Dear Sir:

Re: - C/O Possible U.F.O.
L.G.D. of Mountain, Manitoba 92-03-31

On 92-04-03, of Pine River, Manitoba reported a sighting of an object to Ethelbert R.C.M.P. advised that on 92-03-31 while proceeding west on P.R. # 271 approximately 8 miles east of Pine River at 22:30 hours, he had viewed the object in question. In attendance with was his son, , and , both of Pine River. stated that previous to viewing the same, dust was kicked up on the road as if something had flown or passed just over it moving south. Immediately after, he noted a brilliant flash southwest of his location. The flash was described as similar in nature to a fluorescent light, but very harsh to view. could not detail the distance involved but considered the object to be large in size. He did believe that there would be remains or markings on the ground where this happened. is adamant that the flash he observed was a result of the object in question exploding.

On 92-04-04, was flown over the area in question with police, but no indications of the object were present. Approximately, one and one half hours of air time was afforded, but to no avail.

is believable in what he has related in this instance. His reluctance in bringing the story forward in this instance lends to his credibility.

If you require any further information, please do not hesitate to contact Cst. D.A. KOSIANCIC at (204) 742-3371 or at the undernoted address.

Yours truly,

(D.M. BIRD)Cst.
T.i/c Ethelbert Detachment.
