PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Session Procedures Report (S/NF/SK)

PROJECT NUMBER: 8715	SESSION NUMBER: 2
DATE OF SESSION: 24 SEPT 87	TARGET COUNTRY:
REFERENCE:	MISSION STATUS:
TECHNIQUE UTILIZED: CRV	SOURCE IDENTIFIER: 011

1. (S/NF/SK) Monitor Tasking: No change in tasking received prior to session.

2. (S/NF/SK) Source Tasking: Source was instructed to begin the session in Stage IV after placing the original 4-digit coordinates above (outside) the matrix. Monitor directed the Source to reacquire the structure, perceived in session number one, and to explore within for activities. The source was later instructed to acquire a "product" which may have its origin here, and then to follow the product, after it leaves the structure, to another place.

3. (S/NF/SK) Summary: Source's summary is attached.

4. (S/NF/SK) Comments: Although the Source had fairly good site contact, the nature of the data lends itself readily to AOL. The monitor is confident that this problem will be resolved in subsequent sessions; the Source is probably on the right track and we will attend carefully to structure in order to preclude derailment.
