Feedback on 9009 (part 3) JT5-007-90

018: 071250 EDT May 90 25%
-Contraband is a light brownish resin-like powder, packed in small packets inside tubes or pipes, stacked in large, plastic-covered bundle on a dock.
-Located on a dock in a small port town surrounded by near, high rugged hills in the NW US. English spoken here.
SG1A -Destination not addressed because the question was too vague.
-[redacted] is not involved in drug transport with this operation at this time.
SG1A [redacted] is not involved with this shipment at this time.

095: 071330 EDT MAy 90 20%
-Contraband is in large rectangular-shaped box(es)/crate(s)/container(s) in a warehouse. Warehouse is a block construction and is one of many in a crowded area of close rows of warehouses within a mile of the harbor.
-Contraband is inside colorful (bright blue, red and white) boxes which are within boxes, which are within boxes (i.e. several outer layers of boxes/packages).
-Warehouse is in Anchorage, Alaska. The name MCKENNA is associated either with the warehouse or its location/address.
-The drugs will be transported by a freighter with black hull and white trim to San Francisco, CA there they will be taken to
SG1A Chinatown. Vessel will depart Alaska around 9 May 90.
[redacted] is not involved.
[redacted] been involved in the past.

079: 071430 EDT May 90 15%
