APPROVED 1 JUNE 1948

AIR INTELLIGENCE INFORMATION REPORT

FROM (Agency)	REPORT NO.	PAGE 2 OF 4 PAGES
Det 1, 6004th AISS, APO 970	52-110	

REPORT OF UNIDENTIFIED FLYING OBJECT

1. Time sighted: Approximately 0400 hours local time
   Length of time sighted: Approximately thirty (30) minutes.
   Date of sighting: 7 June 1952.

2. A brief description of sighted object or objects:
   Shape: Similar to a star.
   Size: Slightly larger than star of the first magnitude.
   Color: Object appeared to change color from time to time. When first observed, was red in color, then changed to blue, orange, yellow and white in no determined order. The light remained the same color for about one (1) second prior to changing color. Light intensity remained the same during each color change. When the color the light did not blink but remained constant. No glow or halo effect was noted about the light, it did not shed any illuminations on the hills below. Stars were visible at time of sighting, however, object appeared to be definitely between stars and observer.
   Number of objects: One.
   Trail or exhaust: Negative.
   Propulsion: Negative.
   Estimated speed: Unable to estimate.
   Aerodynamic feature: None observed.
   Manner of approach: First observed at approximately one thousand (1000) feet altitude and at 38° standing still. Then slowly (fifteen seconds) rose to approximately two thousand (2000) feet. Then descended slowly (fifteen seconds) to one thousand (1000) feet altitude, remained there for approximately one (1) minute then ascended rapidly on a vertical climb to approximately two thousand (2000) feet. Object then hovered up and down rapidly for approximately one (1) minute, then descended to one thousand (1000) feet, remained for three (3) to four (4) minutes, then started to rise to approximately two thousand (2000) feet, at this point it began to move toward the east on a straight and level flight path. Observer then broke off his observation in order to talk to his post commander and was lost from his sight. This was the last time any of them saw it.
   Disappearance: Did not observe.
   Formation if more than one: Negative.

3. Manner of observation:
   Visual or electronic: Visual.
   From air or surface: Surface.
   Course: Not observed.
   Any type of optical or electronic equipment used; describe: Negative.
   If radar, the type: Negative.
   Location of observer during the sighting: Post #13, Fifth Air Force Compound, Seoul, Korea, elevation approximately seven hundred (700) feet above sea level.
   Location of object relative to observer giving distance: Undetermined.
   Attitude: Approximately one thousand (1000) to twelve thousand (1200) feet.
   Identifying information on observer, estimate of reliability and experience and any factors bearing on the estimated reliability of sighting: Airman C. Frederick, AF14423660, Fifth Air Police Squadron, 18 years of age. Twenty (20) by twenty (20) vision, one (1) year service, three (3) months in Korean theater. High school graduate. Student in civilian life. Hobby: hunting, fishing. Good sense of direction. Weather and visibility at time of sighting: Clear, no wind, no clouds, stars visible, temperature 45°F.

NOTE: THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT, 50 U.S.C. 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. IT MAY NOT BE REPRODUCED IN WHOLE OR IN PART, BY ANY PRIVATE PERSON OR AGENCY, OUTSIDE THE FOUR FOREIGN AGENCIES, EXCEPT BY PERMISSION OF THE DIRECTOR OF INTELLIGENCE, USAF.
