Instant [illegible] Smoldrch South, Delaware -- September 1[illegible]
October 1[illegible]
2 June 1947

[illegible] is [illegible] contains [illegible] material.

It is entirely possible [illegible] observed on these three separate dates were "[illegible] Loos," ramjet missiles, as fired from Fort Miles by the Applied Physics Laboratory of Johns Hopkins University. Since the hour of observation of the [illegible] and the exact day of the first two, is not given in material submitted to this investigator, positive identification cannot be made; but if these fuses were [illegible] at the above-mentioned laboratory (address: [illegible] Road, Silver Spring, Maryland) [illegible] definite identification.
