UNCLASSIFIED

1. ITEM NO.	2. [redacted]	3. DATE TRANSMITTED 27 May 1952
4. FROM: (NAME & SYMBOL) Lt E. J. Rappelt, ATIAA-2c	5. TO: (NAME & SYMBOL) Capt Fournet, AFOIN-2B3	

[redacted] Reference Pan American Flight 203 sighting on 8 May 1952 off East coast of U.S. Lt Rothstein talked to crew of aircraft. Pilot and co-pilot were only crew members to see objects. Co-pilot got the best view of the objects. They were on reciprocal heading to aircraft level and very close. There were three objects flying in line. They appeared to be about 10 times the size of an aircraft landing light only much whiter and much brighter. The first object was circular, and the last two objects were circular with orange-blue tails. Sighting happened at 0227 EDST at 31° 20'N 70° 00'W. No known missiles of aircraft were in the area. Request that you contact the Navy to determine whether or not they had any activity in the area and whether or not the Navy had any unidentified submarine reports within reasonable area of sighting. Col Sterling in I/I Study Group knows who in Navy can give you info on submarine sightings. We are checking further on the report.
