SUMMARY: (Enter concise summary of report. Use reverse side or final one-entente paragraph. List inclosures at lower left. Begin text of report on AF Form 112—Part II.)

A white object, shaped like a blimp except that it was larger on one end than the other, was observed, by three aerial gunners, over March Air Force Base at a high altitude on 13 June 1952. Maneuvers of the object were erratic. Evidence indicates a strong possibility that the object was a weather balloon.
