A young girl & her Mother saw the dumbbell lights at 9.15 the same night & watched them for some time. Mrs John Blackwell 249 Sumner Rd Tenafly

The most skeptical of my friends saw on the nights of May 7th & 8th, other phenomena of a different type. All of these were moonlight lights & the aerial phenomena were all seen near the moon in all cases. By this I do not mean far away in the sky for they were undoubtedly in our atmosphere, but as we all saw them they appeared in that part of the sky where the moon was. Mr. Demuth Mae Heuze 15 Wright Pl. Tenafly

The description of the recent Florida affair, sounds much like what I saw, only the dumbbell balls of fire went south in the sky, at a terrific rate of speed.

Marguerite M. Jackson
