AF Reg 200-5 (FLYOBRPT)

SUMMARY: (Enter concise summary of report. Give significance or main idea in one short paragraph. Use continuation if more room. Begin text of report on AF Form 112-A, Part II)

On Wednesday, 7 May 1952, four Air Force personnel saw bright metallic objects near Kessler Air Force Base, Mississippi. The objects were traveling at a considerably greater speed than jet aircraft and were followed by a trail. Although no more than one object was seen at a time, a total of ten (10) were estimated to be in the sky. Due to the distance, the size and shape were not known, but to one observer they seemed to be cylindrical in appearance.

APPROVED:

WILLIAM J. KORMOS
2nd Lt. USAF
Asst Wg Intell Off
