Never mind. It doesn't matter. It's about RVing data Kit can NOT verify. Like RVing UFOs.

Uri and Ingo have done that.

@OldVetSymposium @AlienProtocols @ChaseHoward97 @FullStackLogan OK. The right side MAY have been you accessing the target. I'm a tough judge.

With CRV, you go through different stages and get A LOT of data. Visuals aren't always present. I'm not sure what methodology someone like @remoteviewed or Dick Allgire use but they get a TON of data.

Melinda gets it.

If multiple folks (Davis, Oke, etc.) say Wilson met w/Davis or that Oke set it up, Wilson's denials will crumble, piece by piece, as every witness under oath tells the truth. And hopefully, Wilson does what he can to help us get access to the USAPs.

4 TW to EWD on Oke:

Oke said EWD's, "professional/personal references very excellent."

In response to Oke trying to get TW and EWD together in 1999, Wilson said to Oke that it was a bad time to speak with EWD bc he (TW) was too busy.

successive waves of visitations from space. We are dealing with a control system.
The thermostats that regulate your house temperature summer and winter are an example of a control system. In summer, a thermostat allows the air to get warmer until a certain limit is reached, and then the cooling system is triggered. But in winter, when the outside atmosphere turns cold and the temperature drops below another limit, a different mechanism, the heater, comes into play and warms the house. A naive observer might try to explain all this by assuming that warm is "good" and cold is "bad." He or she would be right half the time. Another naive observer of the opposite school might take a reversed view and decide that warm is "evil." He or she would also be right half the time. To understand the whole phenomenon one needs a grasp of the control concept, and one must be ready to understand that it needs two opposite principles for its function.

I know someone who had a reading w/a psychic in New Orleans many years ago & the psychic insisted on turning their back and doing all the talking. THAT is the kind of psychic u want. Do your best so that the psychic can't read your body language or anything that gives them clues.

2022-05-31T09:14:34+00:00

https://twitter.com/_/status/1531564784184791040

Not sure I worded that properly. Once the psychic or medium is ready to go and has their back turned to you and you're sure they can't see you, let them do all the talking. You don't say make a peep until after they're done with the reading. And then, ask any questions you have.

Intentional cover is supported by two mechanisms, inherent in the structure of unacknowledged SAPs, that result in the dissemination of plausible but false data, or disinformation. Confronted with the unauthorized use of a program name or a specific question, an 'accessed' individual may deny all knowledge of a program – as he should, because its existence is a core secret, and a mere "no comment" is tantamount to confirmation. The questioner – who may not be aware that an Accessed individual must respond with a denial - will believe that denial and spread it further.

Also, people may honestly believe that there are no black programs in their area of responsibility. For example, Gen. George Sylvester, commander of Aeronautical Systems Division in 1977, was not 'accessed' into the ASD-managed Have Blue stealth program, even though he was nominally responsible for all USAF aircraft programs. Had he been asked whether Have Blue existed, he could have candidly and honestly denied it. Presented with a wall of denial, and with no way to tell the difference between deliberate and fortuitous disinformation, most of the media has abandoned any serious attempts to investigate classified programs.

@MHuntington7 @Go_Kick_Rocks88 @GarryPNolan Like when Nolan talks mediums such as @tyhenrymedium. There's more than enough evidence showing some mediums acquire info. via something other than the 5 senses. But we don't know the mechanism for how that works. That's not surrendering to anything, its following the evidence.

@CloserToTruth1 But that's a separate issue than if he did anything wrong releasing parts of the IG complaint that we all want to see.

@Go_Kick_Rocks88 Yes, whether it's illegal or just a civil liability issue, I'm not sure why Tim is bringing it up without knowing what deal Greenstreet had in place. If Greenstreet did something wrong? We may hear about it. If not, then this was brought up for what reason?

As far as Greenstreet? I don't know what agreement he had for releasing part of that IG report with names included. So, I have no opinion on it.

@Rogjoles56 @ericalukesuap @SithDubh Davis wasn't trying to get Wilson into anything. In 1997, Wilson allegedly had a face to face meeting with the program manager, head of security and corporate attorney for the CR USAP. Davis interviewed Wilson to get the details of that meeting. The notes contain those details.

Anybody who reads W/D knows why that meeting happened the way that it did & why Wilson chose Davis to unload on. Oke Shannon, baby. We're gonna learn something soon, I think. As long as Congress brings in the right folks & gets them under oath.

Wilson, EWD, Miller, Oke, & more! https://t.co/z1reZe96Au

2022-05-27T05:43:23+00:00

2 Wilson was allegedly told about that USAP from program manager. I think that puts him in a different position than Davis, who heard it informally in a car. But I don't know that works so we'll have to wait for more from @RepGallagher or whoever takes this up. Gotta love MG.

2022-05-27T05:43:23+00:00

https://twitter.com/_/status/1530062085740064769

1 If Wilson wasn't so adamant about lying, probably 2 protect himself, I think Davis would talk openly about that interview like he did about CR program. Read up on how someone is supposed 2 respond if they have knowledge of a USAP. If true, it explains Wilson. Truth coming soon? https://twitter.com/ericalukesuap/status/1530035482330923008

11 It would not surprise me if Miller is called to testify. I thought he was going to make it into NYT CR article but for whatever reason, it didn't happen. I'm fortunate that I "met" & became friends w/Miller in 2000 & in March 2018, argued w/Eric Davis & became friends w/him.

2022-05-27T05:35:42+00:00

https://twitter.com/_/status/1530060155164844032

10 Miller did me a HUGE favor by answering most of the questions I put to him. And like I said, his confidential notes that Kean (and possibly one other person) has a copy of, WILL make their way out one day. Those include the details of the briefing with Wilson in April 1997.

2022-05-27T05:35:42+00:00

https://twitter.com/_/status/1530060154246311938

9 Why is Miller so different than the other folks who have spent their careers working in intel and/or DoD programs? When I was @ his house in 2007, he told me that he was a hippie & a pacifist. Not your typical former Navy Commander. I think he wants ALL of this out in the open.

Dr. Hal Puthoff on Wilson/Davis in February 2020.

This is an excerpt from my W/D MegaBlog.

#ufos #wilsonmemo

https://ufojoe.net/wilsondavis2 http://pbs.twimg.com/media/FTsyhYCUUAEvR6c.png

---

Like I said, that seems like a confirmation the meeting took place. Huge news! But Dr. Puthoff later explained to Dolan that, due to bad audio in the room, he was repeating all the questions and he did not intend to confirm anything. You be the judge. I think one of three things happened:

1) He may have slipped up and confirmed the documents

2) He knew what he was doing and purposely confirmed the document but denied it when Dolan asked

3) He was just repeating the question

I'll take Dr. Puthoff at his word as he's my second favorite scientists in the world. But either way, it definitely got the attention of a lot of folks, including me.

http://pbs.twimg.com/media/FTsyhYCUUAEvR6c.png

However, during the Q&A portion of a lecture he gave on February 8th of this year in West Virginia, Dr. Puthoff seemed to confirm Dr. Davis did indeed interview Wilson.

> **Q**: Richard Dolan calls the Wilson Documents…the Wilson document leak, the leak of the century. Can I get a comment on the Wilson Documents?
>
> **HP**: This is a question about the Wilson Documents that apparently got leaked on the internet. Admiral Wilson, who was one of the Joint Chiefs of Staff interviewed by my senior scientist colleague, Eric Davis. Since it discusses potentially, ongoing programs, I have no comment.

2022-05-26T08:39:47+00:00

https://twitter.com/_/status/1529744093428928513

@jason_jarnagin Don't disagree, but without AAWSAP, there's no AATIP. And without AATIP, Mellon is probably still giving interviews (like he did with Kean) telling everybody that there is no program in the USG that studies UFOs and the crash retrieval idea is far fetched.

https://twitter.com/_/status/1529742981397237760

@MusicAndTruth @AdamGoldsack @jason_jarnagin Never said to focus on it. But explain that it was the program that started everything and was what received the $22 million and produced all of those reports to DIA. Let's be accurate.

2022-05-26T08:35:06+00:00

https://twitter.com/_/status/1529742912556134400

@jason_jarnagin @AdamGoldsack AAWSAP wasn't about ghosts & werewolves and Lue had 50 minutes. Megyn Kelly needs to be educated. I'm not talking about Congress but it WILL need to be addressed eventually. Higher ups in DHS apparently were briefed ALL of the AAWSAP evidence, including the hard-to-believe stuff.

2022-05-26T08:31:49+00:00

https://twitter.com/_/status/1529742085909139456

@AdamGoldsack @jason_jarnagin My 2nd tweet referenced how we handle this with Congress. But IMO, that will change "soon." With the general public? Different for everyone. I've discussed UFOs with new people and they immediately jump into poltergeists. Others keep it very simple.

2022-05-26T08:29:45+00:00

https://twitter.com/_/status/1529741567602266113

@jason_jarnagin Yeah, disagree a bit. Mellon has taken the time to diminish AAWSAP. Why even say anything? And Lue could have explained (to MK) that AAWSAP is the program that received the $22 million, not AATIP. Kean, Blumenthal and Cooper have yet to acknowledge AAWSAP, which is amazing.

2022-05-26T04:54:09+00:00

If they had said they really didn't know but would wait for more evidence, that would be one thing. But to throw out theories about movie scripts, an imposter Admiral Wilson and/or Davis is LARPing everybody? Ludicrous and foolish. #ufos #wilsonmemo https://t.co/6jq0bTAq6b

deal of his time to the Reception Committee. Upon graduation John hopes to be headed to Supply Corps school. In whatever career he chooses we are sure he will give a fine account of himself.

JAMES OKEY SHANNON *Belfry, Kentucky*

Born and raised in the beautiful mountains around Belfry, Kentucky, Oke made his mark in high school as his class vice-president. He obtained varsity letters in football, basketball, and track. Upon entering the Academy, he was captured right away by Navy Crew and he rowed with the Plebes to the 1963 I.R.A. National Championships. In addition to varsity crew, Oke's schedule is double-overloaded for a major in Political Science. After graduation, Oke plans to get his N.A.O. wings at Pensacola and later to pursue a masters degree in International Relations at Post-Graduate School. Oke sets rather high goals for himself but his persistence and efforts always seem to pay great dividends in the long run. Since leadership is entirely a quality of example, Oke can be certain to expect and obtain high standards from those he will lead.

ROBERT T. SIMMONS *Long Beach, California*

Hailing from the sunny state of California, Bob arrived at USNA ready for the challenges of plebe year. Academics came easy to Bob and this helped ease the tensions of his first year. Continuing into his upperclass years, he branched off into two majors with great hopes for a career in the Silent Service. Four years in the Drum and Bugle Corps gave him further opportunities for his musical talents. Enjoying all sports, he was an active member of the Battalion and Company teams. Well liked by his classmates he could always be counted on whenever a willing hand was needed. Bob will certainly prove to be an asset to the Navy upon graduation.

BUFORD FREDRICK HOWELL RALPH MELVIN MITCHELL JR. DONALD PATRICK ROWE JOHN DENNIS SAVAGE JAMES OKEY SHANNON

came Fred eager to show the Navy a new way of doing things. Fred was constantly waging a war against the Executive Department, and weekends often times found him on the losing end—restricting. A desire for excellence typifies Fred's attitude toward everything he attempted—from books to athletics to editorship of the Trident calendar. In the afternoons he was found as a mainstay on the company sports teams or fighting that ever present midshipman nemesis—his bed. Academics came easy for Fred, and he was always an aid during study hour—that is when study hour was observed. He will certainly be a credit to the Navy, whether it be air, subs, line, or supply. A fine man.

RALPH MELVIN MITCHELL JR. *Washington, New Jersey*

"Mitch" set out from a rural town in New Jersey, Washington by name, and headed for the United States Naval Academy. There was no problem of adjustment to the big city of Annapolis; and Academy routine was, in turn, taken in stride. Time was always found for drag-

this field if the Navy allows him the time.

In sports, Don was out for Company cross-country every fall and lent his stocky build to the parades around the Hospital Point course. Fieldball in the winter and Battalion track in the spring were his other sports through every year. He was always counted on to give his best effort to these sports each season.

Judging from his ease of adapting to situations, his spirited personality, and his friendly nature, Don will be an asset to the Naval field he chooses upon graduation.

JOHN DENNIS SAVAGE *McAllen, Texas*

Coming to USNA by way of McAllen, Texas, and NAPS, John was not one to let the rigors of plebe year bother him. Although one of the most easy going persons in our class, he was, nevertheless, respected as one of its finer leaders. Four years of academics left him standing in the top half of the class. A true believer in sleep teaching, he could usually be found in bed. On the athletic field, a desire to win coupled with a burst of

GN touches VERY briefly on his own "remarkable" attempt at RVing w/Ed May, who spoke at the Archives of the Unknown several months ago.

How do the RVing visuals arrive at our inner viewer?

Q: Richard Doty has stated publicly that he worked for you. Can you describe the kind of work he did for you?

HP: This is a question about…Richard Doty has stated on the internet – a very controversial figure as many of you would know – and he stated that he had worked for us for, I guess, over a decade or whatever. That was a period in which we were really investigating all kinds of aspects of the phenomena that I talked about today. And so we had all kinds of consultants. And Richard Doty was one of them. And so, he gathered up information that he could gather up and thought we'd be interested in. But he was like, one of *many*. And so, even though he's a very controversial figure out there, we're not sure if the data he provided…what was the percentage that we could really count on. But hey, we didn't want to leave any stone unturned, anything that might be hiding under a rock.

Tao Te Ching, 17

Stephen Mitchell's translation:

When the Master governs, the people
are hardly aware that he exists.
Next best is a leader who is loved.
next, one who is feared.
The worst is one who is despised.

If you don't trust the people,

One member of Congress is interested & entered it into the record. BB has (understandably) downplayed that.

IMHO, they need 2B able 2 speak & violate their security clearance w/o fear of prosecution. And then, if anything illegal was done, they need 2B able to speak w/o fear of the same. And apparently, there are limits to immunity being granted.

Wilson was given a bogus story by the program manager about reverse engineering #UFOs in order to hide a super-secret USAP that dealt with advanced human technology & extreme national security.

We need the folks in the programs to be able to testify.

These words from Dr. @GarryPNolan are extremely encouraging. If they can work out a deal for immunity, look out below!!! #ufos #immunity #wilsonmemo #wusaps

(I edited (mostly punctuation) lightly for clarity. ~Joe)

http://pbs.twimg.com/media/FTKX0QMUUAAAXhX.jpg

@TheUfoJoe: Wilson/Davis is just the start. Bringing in Wilson to testify is great but that's not the end game. Mellon said Davis gave the intel committees enough to check out crash retrieval claims. If they find those programs, you get amnesty for the folks who worked/work in them & go from there.

@GarryPNolan: Use the term immunity, not amnesty. Amnesty is post-conviction. Immunity is to prevent indictment or arrest.

@MrLawBro: I think the term for post-conviction is actually a pardon. Amnesty is immunity for an entire group.

@GarryPNolan: Amnesty, also in some definitions (I just read about a dozen of them), carries an implicit assumption of guilt. Immunity means we won't even look at what you might have done, just start talking. **Even immunity will have boundaries** [and] conditions. Amnesty can be post a conviction/retroactive pardon…or giving them a time frame to own up to an offense. Because it has many meanings, you want a tighter definition. Immunity, as someone noted, is something Congress can grant upfront, indicating there will be no charges. **Bottom line…people are working on the necessary language**. It won't be a single magic word.

@MrMosis: Are they really working on it? Like, that would be awesome and so encouraging if you would just respond 'yes' 🙏🙏🙏

@GarryPNolan: **Yes.**

@Area1s: What [do you] mean by necessary language?

@GarryPNolan: The legal language that defines what is included in the deal, excluded, etc. Rarely is it simple.

Davis did not give me a head's up on the NYT article. I (and a few others) heard that from some other folks. And then Ralph Blumenthal went live (by mistake) on FB in a fact-finding mission on Wilson/Davis. Whoops! https://twitter.com/velo340/status/1527343446159405056

W/D is just the start. Bringing in Wilson 2 testify is great but that's not the end game. Mellon said Davis gave the intel committees enough to check out crash retrieval claims. If they find those programs, u get amnesty for the folks who worked/work in them & go from there. #ufo https://t.co/Uj2tKkS7JU

3 Also important: I had become pretty good friends with Eric Davis as I was writing my 23,000+ word MegaBlog and he knew I was working on it. I'm confident, if the notes were bogus, he would have figured out a way to tell me to stop wasting my time. That never happened.

2 Same thing happened when @OmniTalkRadio & I talked about it over & over & over. Giuliano, look @ Wilson's denial. It's REALLY strong & believable! But as time went on, we realized the notes were legitimate, Wilson was lying, & we had not wasted our valuable time on our efforts.

RT @TheUfoJoe: 1 Astrophysicist Bernard Haisch on AATIP (AATIB is a typo) vs other programs...
http://pbs.twimg.com/media/EuktVlZVgAUD46D.png

DR. BERNARD HAISCH: The following is conjecture. Sources tell me that this is merely the tip of the iceberg. A group of four related but separate unacknowledged SCI programs tracing back to a 1947 Truman memorandum still exist and were housed as of the 1990s in major aerospace companies such as for example Lockheed, TRW, Raytheon, Aerospace Corp. etc. These would be expensive programs since the cost of secrecy can be several times higher than the research. The AATIB program has no relation to these four much better funded deep black ones. Indeed, the black programs collectively have budgets in the $10B range and up. Topics apparently include both reverse engineering and extraterrestrial biology. The AATIP did find the UFO crash retrieval program via official channels, but was denied access to it because the AATIP itself is not a SAP. Sen. Harry Reid petitioned the DoD to confer SAP status to the AATIP, but the DoD denied his request.

Eric Davis: “Lazar isn’t worth a documentary film.”

Joe Murgia: “Well, you might want to see the documentary first before making such a judgment, Eric. Unless maybe you’ve seen a rough cut of the film? George Knapp has spoken about how some witnesses he tried to speak to about Lazar were harassed and in some cases, threatened. That in itself tells me Bob had something to say that certain people didn’t want corroborated.

“This (transcript of an excerpt from C2C) alone makes me want to see a doc about Bob. Back when ‘C2C was a must listen. Now that’s only when GK hosts.”

#ufos - When judging credibility, always look back on what folks said in the past & if they were right or wrong. In spring 2021, I had 4 or 5 sources telling me NYT, RB & LK were working on a â□□substantialâ□□ story about CRs. In response, this is what @alejandrotrojas was saying. http://pbs.twimg.com/media/FTDOj8vUsAAUTLw.jpg

For what it is worth, Leslie Kean and Ralph Blumenthal have told Martin Willis of @PodcastUFO they are unaware of a new NYT UFO article in the works.

I don't think Davis would be in deep shit. If anything, it would be Admiral Wilson who would be chastised or be in hot water. He's the one who shared the info. Thus, the need for him to lie. “Against my better judgement, I am climbing down into the morass to address yet another mis-characterization based on cherry picking of information. I have always maintained I was only tangentially involved in AAWSAP and my focus was on standing up a CI and Security capability for AATIP. In 2010, when asked to take over AATIP, the AAWSAP portfolio came with it (even though I had no problematic or operational involvement in AAWSAP) within 24 hours, my Deputy and myself decided we would only focus on the AATIP portion of the effort which is precisely what happened. In the future, I encourage folks to be cognizant of individuals with agendas. This is a complex issue. People who were not there or part of the effort at the time, simply don't know. Fortunately, the DoD IG is aware of the relevant details and as I have maintained, the truth will be proven in the end. Be cautious of people baring false witness. My involvement in AAWSAP was only in name as a matter of pro forma because it was the broader effort initially. Remember, just because you work on the Corvette assembly line doesn't mean you are involved in all Chevy products.”

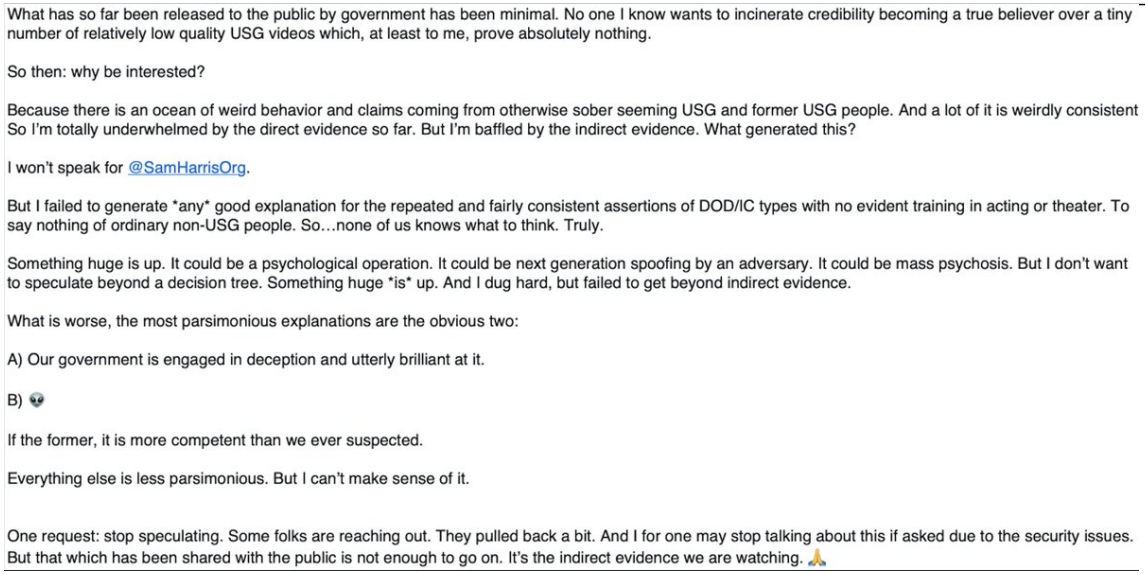
11 All of EW's tweet thread. http://pbs.twimg.com/media/FSkwm0dVEAoh6VO.jpg



What has so far been released to the public by government has been minimal. No one I know wants to incinerate credibility becoming a true believer over a tiny number of relatively low quality USG videos which, at least to me, prove absolutely nothing.

So then: why be interested?

Because there is an ocean of weird behavior and claims coming from otherwise sober seeming USG and former USG people. And a lot of it is weirdly consistent So I'm totally underwhelmed by the direct evidence so far. But I'm baffled by the indirect evidence. What generated this?

I won't speak for @SamHarrisOrg.

But I failed to generate *any* good explanation for the repeated and fairly consistent assertions of DOD/IC types with no evident training in acting or theater. To say nothing of ordinary non-USG people. So…none of us knows what to think. Truly.

Something huge is up. It could be a psychological operation. It could be next generation spoofing by an adversary. It could be mass psychosis. But I don't want to speculate beyond a decision tree. Something huge *is* up. And I dug hard, but failed to get beyond indirect evidence.

What is worse, the most parsimonious explanations are the obvious two:

A) Our government is engaged in deception and utterly brilliant at it.

B) 👽

If the former, it is more competent than we ever suspected.

Everything else is less parsimonious. But I can't make sense of it.

One request: stop speculating. Some folks are reaching out. They pulled back a bit. And I for one may stop talking about this if asked due to the security issues. But that which has been shared with the public is not enough to go on. It's the indirect evidence we are watching. 🙏

Dokoupol (finally): “I mean, there’s military video of aviators who’ve seen things that cannot be explained, right. And there’s an active investigation. I think the worry is not that it’s little green men but that it’s another country with technology that we’ve not seen before.* So, from where you sit, are UFOs a real issue?”

Kendall: “Um, to be quite honest, not for me.” *Because people like you never ask me about it.* “I have real threats that I worry about every day, and they’re severe threats.” *Not like the shit that flies circles around anything we can put in the air.* “And I’m aware of – I don’t have direct responsibility for investigating these phenomena.” *Not my problem — get it?* “Uh, I’ve looked at the reports, I’ve seen what’s been there, there are things we haven’t been able to explain.” *And you can howl at the moon for those reports.* “But I think the important thing for us to do is do some real technical investigation of what they are and try to resolve these.” *Maybe farm it out to NASA or the Navy.*

Then Gayle King swoops in to rescue the Air Force Secretary from Dokoupol’s rude provocations. “I’m curious,” she says, “about what you really *do* worry about?”

Kendall snatches the life preserver and goes off on “China, China, China.”

So we had several people, and he was one, who consulted with us. And he told us about various sightings and certain aspects of government programs and so on. So, what he says is true and it would be too long to try to go into the data he provided us with. Some if it we evaluated and could verify and some of it we couldn't verify. Some of it we were pretty sure it might not exactly be the case. But he was a counter-intelligence officer, so that would be okay. because that would be his job (audience laughs). So anyway, we interacted with *all* levels of people, in and out of the government. So, it's not surprising that, you know, if we were doing all of this and trying to find out everything we could find out, *why* would we leave out of our tool kit, somebody who's making these big claims and was clearly part of a program? So yeah, we worked with him. I happened to like him as an individual, actually. He's a nice guy.

So, it's not surprising that, you know, if we were doing all of this and trying to find out everything we could find out, *why* would we leave out of our tool kit, somebody who's making these big claims and was clearly part of a program? So yeah, we worked with him. I happened to like him as an individual, actually. He's a nice guy.

http://pbs.twimg.com/media/FctQxemagAAnkkI.png

Q: Richard Doty has stated publicly that he worked for you. Can you describe the kind of work he did for you?

HP: This is a question about…Richard Doty has stated on the internet – a very controversial figure as many of you would know – and he stated that he had worked for us for, I guess, over a decade or whatever. That was a period in which we were really investigating all kinds of aspects of the phenomena that I talked about today. And so we had all kinds of consultants. And Richard Doty was one of them. And so, he gathered up information that he could gather up and thought we'd be interested in. But he was like, one of *many*. And so, even though he's a very controversial figure out there, we're not sure if the data he provided…what was the percentage that we could really count on. But hey, we didn't want to leave any stone unturned, anything that might be hiding under a rock.

What this means for the Lazar story is unclear at this time. At least to me. #ufo

The technology is NOT certain. Read Keel. It may appear to be advanced tech but it may actually be something complete different. Electromagnetic in nature. If we truly have crashed/landed vehicles, are they something that can be reversed engineered or are they just for show? https://twitter.com/SamMensing/status/1524789993859866624

I've heard it from multiple sources (besides what we've heard publicly from Lue, Eric Davis, Hal and on and on): The religious/evangelical folks in our gov't will do whatever they can to stop us from studying #ufos & it's still a massive problem. Not just with the Air Force.

Hmm...

I'll reserve judgment until I see it. Production quality is decent for a low-budget film & I like some of the references (Maybe #UFOs aren't what we think they are, & AATIP), but not sure this is going to be the hit TTS needs to fund other projects they want to engage in.

There's ZERO comparison between Mark Sims & Greer except they're high on CE-5. When I was at UFO MegaCon a few years ago, Sims and I were at the same table and he explained what he felt was going on, via the being (Tezjbar) he channeled. Interesting, but true? No clue. -A. A. Milne

In 2021, Skyfort was founded with the intent to raise awareness and bring dignity to the topic of Unidentified Aerial Phenomena in the halls of academia and government, encouraging an open and public discourse.

A year later, we see worldwide publications, top network news anchors, well-known science educators and thought leaders picking up the torch. To a great extent, the stigma surrounding the general study of the phenomenon has been defeated.

Congressional leaders from both sides of the aisle speak boldly and openly on the subject, bravely representing their constituents and demanding answers to questions that have been ignored for decades. Because of this extraordinary shift, we chose to dissolve Skyfort, LLC, in April of 2022.

Skyfort's founders never had an objective to monetize, generate a brand, or maintain relevance; we were goal-oriented, to unite and empower talented individuals to change the conversation. We saw an opportunity to help folks in need, all the while with a destination in mind. We believe the point has been reached that the topic of UAP has the momentum it needs to endure as an accepted, serious and dignified area of valid and important study.

With the announcement of the first scheduled open congressional hearing on UAP in over fifty years, this mysterious subject is now squarely in the people's hands for the first time in modern history.

We hope that we inspired and educated people to treat UAP as something more than myth, entertainment, or monetized bandwagoning. We hope that others who may follow in our footsteps share the idea that truth, knowledge, and science should be free to all, without a paywall, firewall, or hoarding.

To those who continue to work tirelessly for a better understanding of our world, you have our sincere thanks. We are all standing on the precipice of an extraordinary future. Without you, this would not have been possible.

"Great is the art of beginning, but greater is the art of ending."
-Henry Wadsworth Longfellow

Sincerely,

The Skyfort Founders

@B_Radzy92 @BryanDBender @LueElizondo I guess it's possible that it's all a lie to trick Russia and China but beside that, I see no reason to lie about crash retrievals and why that kind of language made it into the Gillibrand amendment.

New to #ufotwitter?

We argue like every other group but this subject has the potential to change the planet & how we view...ourselves as humans & our place in the Universe. So, disagreements can get intense @ times.

If anybody tells you they KNOW what UFOs represent, run away.

@BryanDBender @LueElizondo I never said there is proof of anything. But u seem to have already made up your mind. I haven't. I lean heavily towards the US (and other countries) having craft of unknown origin in their possession, but I need to see it. Time will tell. I don't understand your need for a LOL.

Which one?

Who have YOU spoken to from any #UFO-related SAPs to inform u about Roswell? What classified docs related to Roswell have u seen?

AOIMSG Collection Lead

Joint Duty Number: OUSDI-22-0024U
Agency: OUSDI
Grade: GG/GS-15
Location: Virginia-Alexandria, Arlington & Falls Church
Start Date: 4/26/2022

Duty Description

The AOIMSG Collection Lead synchronizes intelligence requirements and collection on behalf of the Director of the Airborne Object Identification and Management Synchronization Group (AOIMSG). The AOIMSG synchronizes DoD efforts to detect, identify and attribute objects of interest in Special Use Airspace and assesses and mitigates any associated threats to safety of flight and national security. The Collection Lead:
- Synchronizes AOIMSG collection requirements with key members of the Department of Defense (DoD), the Defense Intelligence Enterprise (DIE) and the Intelligence Community (IC) to include: the Defense Intelligence Agency (DIA), the National Geospatial Intelligence Agency (NGA), the National Security Agency (NSA), the Office of the Director of National Intelligence (ODNI) and other U.S. Government (USG) departments and agencies, as necessary, and ensures coordination across these agencies with regard to Unidentified Aerial Phenomena (UAP) intelligence collection;
- Manages intelligence collection workflow to, and through, DIA and across the DoD and other USG departments and agencies;
- Establishes processes and procedures to ensure that intelligence collection and collection requirement support further analysis of reported anomalous objects;
- Ensures intelligence collection systems are appropriately tailored to enable collection on UAP and that collection meets the needs of the DIE;
- Oversees the inclusion of intelligence collection processes and metrics into regular AOIMSG reporting, in conjunction with the AOIMSG Director, ODNI and the AOIMSG Reporting Lead.

Senator Kirsten Gillibrand, who spearheaded the bipartisan measure and sits on both committees briefed, is reportedly among some of the lawmakers who are upset with the national security agencies responsible for the newly created office and the progress being made in recommitting to studying UFOs in a more rigorous manner, as the winter legislation had outlined.

"Senator Gillibrand believes that the DoD needs to take this issue much more seriously and get in motion," said one of the Democratic senator's aides in an interview with *Politico*. "They have had ample time to implement these important provisions, and they need to show us that they are prepared to address this issue in the long-term," the aide added, who requested to remain anonymous in order to speak more candidly.

SCHOLARS of the Impossible

Learned Foote

After growing up in an evangelical homeschooling family, I wanted to better understand how religion works around the world. The Department of Religion at Rice has been an amazing place to do that research. While I have had the chance to study many religions, I have focused in depth on Tibetan Buddhism.

I am writing my dissertation as a study of the biographies of the lama Adzom Drukpa (1842–1924). These Tibetan-language texts have never before been translated into English. My graduate work has included studying classical and colloquial Tibetan, so I can ask expert lamas, monks and nuns about the meaning of the text in their own language.

The Archives of the Impossible has been an important part of my studies. The Tibetan Buddhist texts I study are filled with a host of phenomena that have seemed "impossible" to some, including reincarnation, magical powers, prophetic dreams and omens, and interactions with spirits and nonhuman entities. Studying at Rice has helped me explore how these phenomena fit into the history of religions. I have been able to study the visions of a Catholic abbess, witch trials in 17th-century Scotland, the dynamics of new religious movements in the U.S., dozens of letters written by UFO witnesses, queer theory in the context of religious studies and the complex place of miracles in Buddhist philosophy. The impossible seems each day stranger — yet more familiar.

As a Ph.D. candidate at Rice, I have taught undergraduate classes that give introductions to Buddhism and Tibetan language, as well as more advanced seminars on Buddhist art and literature. I have relished this opportunity to read and translate Tibetan texts, learn from Tibetan teachers and study religion with the support of Rice's incredible faculty.

Find attached the ONLY (at this point) document released OFFICIALLY UNDER THE FOIA. All others are leaked or fake. That said, despite NY TIMES reference which had "Aerospace" -- this Intellipedia author (Top Secret clearance) changed it to "aviation." Why? I assume accuracy.

The full release: **http://documents.theblackvault.com/documents/intellipedia/intellipedia-ufos-Sept2018.pdf**

NSA FOIA Case #103173.

The Wikipedia change was justified with a letter from Harry Reid, but regardless of a Senator's letter, that is not official. I do not claim the Intellipedia reference is official either, but you need to note that the author felt the need to change it despite the NY TIMES "source" referenced. The author has a "Top Secret" clearance, as noted on the full document above, since I was able to get this declassified from the TOP SECRET version of Intellipedia.

This FOIA release is on top of the, IN WRITING, response I received from the Pentagon citing the name as "Aviation" and NOT "Aerospace."

In short, I feel the name issue is not settled.

3 Greenewald has insinuated all of this from Day 1 & it continues. It's no wonder Lue hasn't been on his show in a while. Only so much Lue can put up with on what I see as an accusation of lies, hidden behind, "I'm only asking questions!"

2 Maybe their (including Lue) intent is to frustrate us & keep us chasing our tails! Maybe Lue is lying about the 23-minute video! Maybe this whole effort is bs! Nothing seems 2 match up!

IMO, & in my judgment, if u really believe that, u should reevaluate how u look at things.

In addition, it was claimed it went with Mr. Elizondo because he was the "signatory" - yet, I received the actual CRADA agreement.

The signatory was Kari DeLonge, an officer with TTSA, Inc.

Mr. Elizondo was only listed as the preferred contact, but never signed anything.

This entire subject is a rabbit hole of confusion and obfuscation. Still there's a 'there' there and that ultimate truth may be far scarier than any of us could ever imagine.

1

John Greenewald, Jr. @blackvaultcom · 21h

Absolutely... more broadly speaking.

But I say again, many are left chasing their tails with these "breadcrumbs" and when claims are fact checked, nothing seems to match up.

Why do you think that is?

Dear UFO Folks

â□□For some unknown reason, James Semivan is using DSL for his internet connection. And on weekends, he resorts 2 dial up. It creates havoc when UfoJoe attempts 2 transcribe his interviews.

â□□Letâ□□s put an end 2 this travesty by chipping in 4 fiber!â□□

Our question now? did the phenomenon show up just because we were there and ready to record? .. if not, then our team most certainly had some luck on our side!? My own thoughts? these 'things', whatever it is, somehow knows our intentions .. just like in 2004 when the 'bogey' that FAST EAGLE intercepted ended up at their assigned combat air patrol (CAP) station .. a lesson 'they' left then so what we might understand .. now?

Garry Reid is in the process of being jettisoned from the USG. He was temporarily placed at the DIA and when everything is complete (donâ□□t know when), heâ□□ll be living as a civilian.

Yes. There is no evidence Lue Elizondo was the director of an official Pentagon UFO program called AATIP. There is also no evidence an official Pentagon UFO program called AATIP even ever existed.

I love Semivan's interviews. Love the passion and love that he's knowledgeable about the history. And like me (and so many others), he loves Keel.

I love that Alexander touches on the Bengston Healing Method in his latest book. "Reality Denied."

This is what I was talking about. There was another interview where Sheehan was VERY passionate and VERY negative towards Semivan. Where did he come up with this claim? And did he ever back it up with evidence? As Mike asked: Is there such a position? #ufo

Listen to Semivan's interviews now. An overt threat? Doesn't appear to be the case but we can't know for sure. Dangerous to humans? Sometimes. Do they care about us? For the most part, it doesn't seem like it. Are they f**king w/us? Jim seems to think so & so did John Keel. #ufo

@McDegenGrill He doesn't do many lectures (if any?) on UFOs and doesn't do press conferences except the Oct. 2017 presser (with no press present!) in Seattle with TTSA. So this was nice to see.

@McDegenGrill Mellon is the former Deputy Assistant Secretary of Defense for Intelligence. He did that for Bill Clinton & GW. Bush administrations. He has a strong "following" but that's irrelevant. He doesn't need "publicity," He needs the masses to realize this is a serious topic.

No. Mellon wasn't "associated" w/Maussan. He was interviewed by him. If I was advising him, I would've said: "Don't do that interview." But it won't affect anything Congress is doing, & right now, that's what matters. Red herring. @ChrisUKSharp @HackTheSim @SKEPTICLBELIEVR AATIP was the nickname. AAWSAP was the program AND contract in 2008.

The program (portfolio) AATIP was not 2008. Lacatski says it started in 2012 and Lue says 2010. I'm hoping Lue's book clears that up but that's not why I'm looking forward to Lue's book.

2 RVing protocol demands that ur blind to the target. If that's not true, then ur not remote viewing. Of course, these can be some front loading & u can remain relatively blind to the target. Example: "Here's the picture of woman. Describe her location & her current health."

2022-04-22T00:29:49+00:00

1 U say protocols but I think u mean methodologies.

Mediums need 2B blind to the target or they're going 2 be accused of cheating/cold reading, etc.

Some mediums (George Anderson) draw/scribble during reading. Kind of a way to distract themselves. I see that as a methodology.

72 virgins in Islam.

72 names of God in the Kabbalah.

Plenty more. Sumerian stories have these numbers throughout.

IMO, it's about long term timekeeping. Cycles. Maybe cyclical disasters? 25,920 & The Great Year?

Below is a screen shot from @Graham__Hancock's "Underworld."
http://pbs.twimg.com/media/FQyyg2MVkAE5MQO.jpg

The ruling number in the sequence, Santillana and von Dechend suggest, is 72 – the round number of years required to observe one degree of the precession of the equinoxes.[57] This, they say, is why the tally of significant numbers in the myths includes 72 and multiples of 72 (e.g. 144, 720, 2160, 4320, etc.); 36 (half of 72) and multiples of 36; 24 (one-third of 72) and multiples of 24, etc. The system also uses other ways of combining these numbers – e.g., 72 + 36 = 108, a sacred number in many cultures, while half of 108 is 54, also a sacred number, as is 540 or 540,000, or 5,400,000, etc. and as are 108,000, 1,800,000, and so on.[58]

It may be that this powerful number system is *not* based on the observation of the precession of the equinoxes at all and that some explanation other than a lost civilization will ultimately be found for it. But what cannot be denied is the simple, well-evidenced fact that the system exists – whatever its source – and that it occurs in known texts of all the great archaic mythological and religious systems, amongst them ancient Sumer and Babylon, Vedic India, ancient Egypt, ancient Greece, ancient China, the Maya of Central America, the Old Testament Hebrews and many other cultures.[59]

3 Greenewald is claiming people slammed him for retweeting ur comment from a DoD spokesperson. Not true. People got on his case bc he assumed that just bc a DoD spokesperson said that, it must be true. It seems John immediately believed (STILL CURRENTLY) the DoD...again. http://pbs.twimg.com/media/FQsRIshVEAArElc.jpg

2 I read that as GR no longer has any responsibilities with the USG. As in, fired. Let go. Removed. And my source told me the same thing, based on THEIR info.

Is he gone?

As you wrote, why has nobody, besides Politico, covered this? And why won't DoD give a simple Y/N answer?

4 If the fear is Russia/China seeing craft we have in our possession & being able to back engineer it just by seeing said craft, that's a bullshit excuse. Let us see the craft & bodies & everything else, including photos or vids of craft going in/out of the ocean, if that exists.

Table 2. 2018 Text Messages between Mr. Reid, [redacted] Employee 1, and Employee 2

Date	Conversation Details
Jan. 5, 2018	Mr. Reid texts Employee 2, telling her, "Want you to know I am very PROUD of you for staying home today. I know how strongly you want to be here and you should also know we all love to work with you and watch you in action." Employee 2 responds," So thank you for not giving up on me, and most importantly, for caring so much. I'm so very lucky to have you in my life!! I really mean that."
Aug. 18, 2018	Employee 2 texts Mr. Reid and [redacted] "So I'm still amazed at all my awesome gifts!!! I really can't say thank you enough for today, you guys are so good to us. … You are both my angels … I honestly don't know how I'd have survived this past year without you both and your constant support and advice. I truly couldn't ask for kinder, sweeter, more amazing friends than the two of you!!! [redacted] and I are so very lucky to have you in our lives!! Mr. Reid responds "Of course really enjoyed the family time with you guys." [redacted] responds, "We had a great time celebrating your birthday!!!"
Nov. 17, 2018	Employee 2 texts Mr. Reid, "I feel like you and I need more bi-lat time … you have a strong bi-lat with [Employee 1] and I feel like our bi-lat has suffered … it's never just me and you." Mr. Reid responds that he would "make effort for more 1v1" with her. She responds, "Ok thank you, I really wasn't trying to be critical. It was more of a request I guess."
Nov. 22, 2018	Mr. Reid texts Employee 2, "Hope you are all set for a great holiday weekend with your beautiful family. I know they love you and think you're the best and [redacted] ever. … I really appreciate you and am very thankful for knowing you, learning from you, working with you, and for you allowing me to get to know you [and [redacted] Employee 2 responds, "Thank you for the very kind thanksgiving thoughts I appreciate you and [redacted] SO MUCH … your kindness and support and friendship has gotten me through [redacted] and I will never forget it!!"
Dec. 24, 2018	[redacted] initiates a conversation about the upcoming Christmas holiday and exchanges holiday pictures with Employee 2. Mr. Reid enters the conversation expressing to Employee 2, "Another little known fact - we love you guys and hope you have a very special day tomorrow." Employee 2 responds, "Awww thank you so much, I couldn't have made it through without you two!! My guardian angels!! … Love you guys!!!"

@PostDisclosure @TxUFOSightings This isn't about "no topics or names." Bara has a history that is very easy to find if Jane (or anybody else) took the time to look. That includes claims of alleged sexual harassment of women on various shows he's worked on. Plus the Q and Covid takes. And, he's just an ass.

@Altouiz @Lucybelle47 @LtTimMcMillan @MusicAndTruth @SicCoP1 @dave_beaty @Debriefmedia But just going by the IG report, they couldn't conclude that sexual harassment took place.

@Altouiz @Lucybelle47 @LtTimMcMillan @MusicAndTruth @SicCoP1 @dave_beaty @Debriefmedia The problem: E2 (& others) may have been afraid 2 speak up & tell the truth about what went on 4 fear of reprisal. Reid was a very powerful man/boss. She may have felt it was sexual harassment but didn't want 2 say it. If he was kissing her as she claims, THAT is harassment, IMO.

As he enjoyed his steak tartare, Elizondo regaled those around him with some war stories, including one hair-raising exploit about how his advanced intuition and remote viewing capabilities had saved his life and the life of his men while on a covert combat mission in war-torn Afghanistan. Lue was one of that rare breed, an astute, detail-oriented analyst with an open mind. After that dinner meeting and the briefing the following day, he kept in close touch with Jonathan Axelrod as the project progressed.

@Altouiz @SicCoP1 @LtTimMcMillan @MusicAndTruth @dave_beaty @Debriefmedia That happens w/victims of sexual assault. Trauma affects people in many different ways. Many won't report it and will pretend like it was consensual bc they can't accept the fact that they may have been raped. Obviously, this is far from a rape claim. But still keep that in mind.

3 Made me sick to my stomach. I got so involved in the case & developed a few sources, that the victim's lawyer wanted to know where I was getting my information from. I also had a district attorney share (after it was all said and done) info. about why charges were never filed.

2 The IG investigation reads a little like a court case w/witness statements & text messages as evidence. I enjoy court cases & it's the reason why I first started tweeting. It was about a rape case where the charges were never filed & I felt the person (NFL QB) got away w/rape.

1 If ur interested about the "sex" side of the article by @LtTimMcMillan on Garry Reid, I suggest u take the time to read the full report and see why the IG concluded what they did. IMO, there were a lot of important details that were not included in the article.

@LtTimMcMillan @Altouiz @SicCoP1 @MusicAndTruth @dave_beaty @Debriefmedia It doesn't matter. Moral issue. That's like the cops I dealt with back in Tampa who told me they wanted to bust strip clubs bc married men were going there, getting STDs and bringing them home to their wives. Is that the job of the cops? The moral police?

2022-04-15T06:56:10+00:00

https://twitter.com/_/status/1514860112535465987

@LtTimMcMillan @Altouiz @SicCoP1 @MusicAndTruth @dave_beaty @Debriefmedia To me, that's 100% sexual harassment. Problem is, most of the witnesses told a different story and the text messages (back and forth between Reid & E2) must have also played a role. And so, the IG said they couldn't find that sexual harassment took place with E2.

2022-04-15T06:51:58+00:00

https://twitter.com/_/status/1514859057965805568

@Altouiz @LtTimMcMillan @SicCoP1 @MusicAndTruth @dave_beaty @Debriefmedia Yeah, nowhere did either of us say we condoned his behavior. But it seems folks ignored what some of the witnesses said. Then we have Tim including a rumor of sex in a parking lot. A rumor.

2022-04-15T06:49:17+00:00

https://twitter.com/_/status/1514858382779301889

@tinyklaus @LtTimMcMillan @SicCoP1 @Altouiz @MusicAndTruth @dave_beaty @Debriefmedia You called him a sexual predator. Maybe he is. But the evidence didn't support that and the IG conclusion didn't come anywhere close to that.

2022-04-15T06:47:58+00:00

https://twitter.com/_/status/1514858050204491778

@Altouiz @LtTimMcMillan @SicCoP1 @MusicAndTruth @dave_beaty @Debriefmedia Ur not. Doesn't mean sexual harassment didn't take place. But the IG couldn't find enough evidence to back it up. Now, did he have an inappropriate & unethical relationship with #1. I think so. But they only found he helped foster the APPEARANCE of that. Bad example for others.

@AdamGoldsack @LtTimMcMillan @SicCoP1 @Altouiz @MusicAndTruth @dave_beaty @Debriefmedia Folks here are not trying to paint him as a saint. But some have called him a sexual predator. Or, serial harasser as Tim did when he gloated. Read the entire report. IMO, it's not so clear cut. He may be a slime ball but the full report gives details not included in the article.

2022-04-15T06:41:06+00:00

https://twitter.com/_/status/1514856321538875395

@LtTimMcMillan @SicCoP1 @Altouiz @MusicAndTruth @dave_beaty @Debriefmedia If that happened w/E2, that's pretty bad. Problem is, the witnesses tell a different story & IG's conclusion followed. The full report should be read by everybody who wants to know more about this case. Now, does this mean it didn't happen as E2 says? No. But witnesses DO matter. http://pbs.twimg.com/media/FQXZaMKVUAIhmDQ.png

Conclusion regarding Mr. Reid's Relationship with Employee 2

We did not find evidence to substantiate the anonymous allegation that Mr. Reid and Employee 2 engaged in a sexual affair and both denied the allegation. We also did not find sufficient evidence to determine that Mr. Reid's conduct toward Employee 2 constituted sexual harassment or some other form of misconduct.

http://pbs.twimg.com/media/FQXZaMKVUAIhmDQ.png

Other Observations of Mr. Reid and Employee 2's Relationship

Of the 20 witnesses we interviewed, 11 witnesses raised no concerns about Mr. Reid and Employee 2's relationship.[7] Two witnesses told us that they had few or no observations of Mr. Reid's interactions with Employee 2. Two other witnesses told us that Mr. Reid and Employee 2 had a challenged relationship, but one of them added that it was generally very cordial.

However, five witnesses described Mr. Reid's relationship with Employee 2 as something other than professional.

http://pbs.twimg.com/media/FQXZaMKVsAA4fBe.png

- Two witnesses told us that they perceived that their relationship was close but did not observe any conduct they thought was questionable. One of these witnesses also told us that Employee 2 would boast about her relationship with Mr. Reid, telling her staff about Mr. Reid coming to her house, and Mr. Reid and her commuting together.

- A third witness told us that he thought Mr. Reid and Employee 2 were "sort of affectionate towards each other, like in the way they spoke to each other," although he never witnessed any "kissing, touching," or "any of that stuff." The witness added that Employee 2 saw Mr. Reid for "counseling on a regular basis … so they definitely spent a lot of time together" and that Employee 2 was Mr. Reid's go-to person.

- A fourth witness told us that Employee 2 would actually brag about her relationship with Mr. Reid. He described the two as an old married couple in part because they were always arguing. He also told us that they had a love-hate relationship and that there was deferential treatment between Mr. Reid and Employee 2.

- A fifth witness told us that Employee 2 made a comment during a staff meeting that if anyone wanted to have a good relationship with Mr. Reid, "you need to spend time with him and he needs to get to know you personally."

@MusicAndTruth @SicCoP1 @Altouiz @dave_beaty @LtTimMcMillan @Debriefmedia But, taken in whole, we have to consider the possibility that #2 was trying to get back at Reid when she didn't get the promotion she expected. That's covered in the full report.

Table 2. 2018 Text Messages between Mr. Reid, [redacted] Employee 1, and Employee 2

Date	Conversation Details
Jan. 5, 2018	Mr. Reid texts Employee 2, telling her, "Want you to know I am very PROUD of you for staying home today. I know how strongly you want to be here and you should also know we all love to work with you and watch you in action." Employee 2 responds," So thank you for not giving up on me, and most importantly, for caring so much. I'm so very lucky to have you in my life!! I really mean that."
Aug. 18, 2018	Employee 2 texts Mr. Reid and [redacted] "So I'm still amazed at all my awesome gifts!!! I really can't say thank you enough for today, you guys are so good to us. … You are both my angels … I honestly don't know how I'd have survived this past year without you both and your constant support and advice. I truly couldn't ask for kinder, sweeter, more amazing friends than the two of you!!! [redacted] and I are so very lucky to have you in our lives!! Mr. Reid responds "Of course really enjoyed the family time with you guys." [redacted] responds, "We had a great time celebrating your birthday!!!"
Nov. 17, 2018	Employee 2 texts Mr. Reid, "I feel like you and I need more bi-lat time … you have a strong bi-lat with [Employee 1] and I feel like our bi-lat has suffered … it's never just me and you." Mr. Reid responds that he would "make effort for more 1v1" with her. She responds, "Ok thank you, I really wasn't trying to be critical. It was more of a request I guess."
Nov. 22, 2018	Mr. Reid texts Employee 2, "Hope you are all set for a great holiday weekend with your beautiful family. I know they love you and think you're the best and [redacted] ever. … I really appreciate you and am very thankful for knowing you, learning from you, working with you, and for you allowing me to get to know you [and [redacted] Employee 2 responds, "Thank you for the very kind thanksgiving thoughts I appreciate you and [redacted] SO MUCH … your kindness and support and friendship has gotten me through [redacted] and I will never forget it!!"
Dec. 24, 2018	[redacted] initiates a conversation about the upcoming Christmas holiday and exchanges holiday pictures with Employee 2. Mr. Reid enters the conversation expressing to Employee 2, "Another little known fact - we love you guys and hope you have a very special day tomorrow." Employee 2 responds, "Awww thank you so much, I couldn't have made it through without you two!! My guardian angels!! … Love you guys!!!"

@Altouiz @SicCoP1 @dave_beaty @LtTimMcMillan @Debriefmedia No, I get it. Iâ□□m at his text messages to/from #2. This entire report should have been made available when Tim published the article. Gives a fuller picture of Reid and the situation that went on. I think the â□□sex â□□ part is the weakest part of the story.

@Altouiz @SicCoP1 @dave_beaty @LtTimMcMillan @Debriefmedia Then again, the 20 witnesses all seemed to see his relationship with #2 differently. One witness said #2 would boast about her relationship w/Reid and their commuting together. No slam dunk at all.

Yesterday, @JackSarfatti took us to the edge: Is Slide 9 about a NHI controlling our minds & influencing decision makers? Are "they" the ones in control? That would be a massive threat!

Last year, we had Lue bringing us back down to Earth.

Hmmm...

@makoteko1 Thanks. Just bc we know what they look like, doesn't mean we know where they're from, what they are (ET? ID? TT?), or why they're here. I should have asked: Is there enough credible data or anecdotes where you can accurately describe what some of the occupants look like?

1 #ufo Reid (& others) knew where 2 look (more than one contractor) for such tech. Unfortunately, as "Skinwalkers" details, they weren't greeted w/warm smiles & hugs when they went searching. And Reid himself said his request 4 access 2 Lockheed was denied.

@elf_whatever Davis on C2C... http://pbs.twimg.com/media/FPjEZFnVIAIiw82.png

---

We know what they are not... They’re not made here, George, but we don't know where they come from. Hal (Puthoff) has a favorite hypothesis, he calls it the Ultraterrestrial Hypothesis. They could be advanced technology - aerospace technology that are produced by a group of evolved hominins that split off from the main human race and they might be that fourth unidentified hominin that was discovered and announced in the news over the last couple years, they are the fourth one after the Denisovans. So yeah, you have Homo Sapiens, Neanderthals, and you have the Denisovans, and there's the genetic evidence of a fourth hominin, and so maybe they split off and they became very advanced, they could be the basis or the foundation for the legend of Atlantis, for all we know. And they saw the human race arising, they didn't like our warlike nature and they probably went underground and shielded themselves with their advanced technology to protect themselves from us, and they're the ones who have the Tic Tacs and other UFOs. ...that’s a hypothesis.

DEFENSE INTELLIGENCE AGENCY

WASHINGTON, D.C. 20340-5100

FOIA-00144-2021
March 30, 2022

U-22-7102/IMO-2 (FOIA)

Marc Cecotti
[redacted]
France

Dear Mr. Cecotti,

This responds to your Freedom of Information Act (FOIA) request, dated April 27, 2020 that you submitted to the Defense Intelligence Agency (DIA) for information concerning: All records including (but not limited to) reports, correspondence, queries, documents, messages containing the following terms : -Unidentified Aerial Phenomenon -Unidentified Aerial Phenomena - the acronym UAP Date range for search : 2003 till today (April 27th 2020) I request that you include in your search for above-mentioned documents the records of the Directorate for Analysis / Defense Warning Office, Technology Warning Division (DWO-4) and Acquisition Threat Support and Acquisition Support Division (DWO-3) and records of the Defense Technology and Long-Range Analysis Office. If any records responsive to my request originated with another agency and require review or handling by that agency, I request that I be informed appropriately of the agency(ies) involved and actions in this regard. If my request is denied in whole or in part, I ask that you explain all deletions by reference to specific categories of exempted information, but as required by law, release any segregable portions that are left after the exempted material has been redacted. (Date Range for Record Search: From 1/1/2003 To 4/27/2023). I apologize for the delay in responding to your request as DIA continues its efforts to eliminate the large backlog of pending requests.

A search of DIA's systems of records located 52 documents (1574 pages) responsive to your request.

During the review, I have taken into consideration the foreseeable harm standard. Upon review, I have determined that some portions of 52 documents (1574 pages) must be withheld in part from disclosure pursuant to the FOIA while also taking into consideration of the foreseeable harm standard. The withheld portions are exempt from release pursuant to Exemptions 3, 4, and 6 of the FOIA, 5 U.S.C. § 552 (b)(3), (b)(4) and (b)(6). Exemption 3 applies to information specifically exempted by a statute establishing particular criteria for withholding. The applicable statutes are 10 U.S.C. § 424 and 26 U.S.C. § 6103. Statute 10 U.S.C. § 424 protects the identity of DIA employees, the organizational structure of the agency, and any function of DIA. Statute 26 U.S.C. § 6103 protects confidentiality and disclosure of returns and return information. Exemption 4 protects trade secrets and commercial or financial information obtained from a person [that is] privileged or confidential. Exemption 6 applies to information which if released

> “Various people within the United States government, in positions of oversight and who you would think had access to all UAP programs, did not find the UAP crash retrieval program when they looked because they never knew of its existence. I, and others in my circle, have discussed the topic with them of how one cannot find waived-unacknowledged SAPs that operate outside of Section 119 of Title 10. In fact, a DoD office can create a shell company and then transfer funds to it under an unremarkable commercial defense services contract. Then that shell company turns around and gives a subcontract to a third-party aerospace/defense firm that hosts a waived-unacknowledged SAP that operates outside of Sect. 119 of Title 10. This usually hides (making the audit trail terminate at the shell company) the flow of money going to the third party company that’s running a waived-unacknowledged SAP where a UAP crash retrieval program is hidden.

6 One day, (if some already haven't heard it), members of Congress will learn about related phenomena. For now, though, stick w/nuts & bolts for the briefings But, if they ask, tell them the truth. Especially if our fighter pilots are also experiencing the same. Difficult topic.

1 My passion is to share what I find about #UFOs & other interesting topics. As I have said (and @g_knapp has, too), we would prefer if poltergeists & Bigfoot weren't mixed in with UFOs. But they are. So should we ignore it? Thankfully, we have an award-winning reporter in Knapp, https://twitter.com/BryanDBender/status/1510344836389384194

I appreciate coverage @BryanDBender has given 2 the #ufo topic & always look forward 2 his articles on the subject. 3 Reporters covering UAPs should do their job: Report what people say they're experiencing. Especially when there's a pattern. Since when do reporters censor the story bc the details are too controversial for certain folks? Thank God we have folks like Knapp who don't do that.

Lyn Buchanan was one of the original remote viewers (and trainers) in the Army's program @ Ft. Meade from 1984-1992. I took his 3-day, Basic Controlled Remote Viewing (RVing) class in August of 1997 in San Francisco, w/my ex-wife, a natural psychic.

actually dropped this bombshell. So obviously, the first thing I did was get him to write up a summary of this Tic Tac case. He wrote up a summary, he even named a set of primary eyewitnesses, *all* of the pilots who had been involved in that. Many of the radar operators on the USS Princeton were also named. So, we got immediately in touch with Dr. Lacatski at Defense Intelligence Agency, relayed this conversation to him with the list of these primary observers, and then Jonathan Axelrod – we're calling him Jonathan Axelrod in the book – took the bit in his mouth and essentially, by July of 2009, had conducted the full scope research, had interrogated all of the pilots, interviewed all of the pilots, all of the people on the USS Princeton, who had been involved in the Tic Tac case. And actually, probably by September of 2009, a *full* report of the Tic Tac incident had been submitted to the Defense Intelligence Agency as one of about 105 different deliverables that were submitted to DIA. But sort of eight years before the New York Times got its hand on this story, Defense Intelligence Agency had a very thorough report of the Tic Tac incident.

5 to watch Marik's video in order to see what I mean.

And here's what Lue had to say about the Gimbal...

http://pbs.twimg.com/media/FPMt9TzVEBI9MNX.png

"I think, when you hear the pilots talking, you're talking about an object that is at 25,000 feet and it is orientating itself at a 90° angle, in 120 knot headwinds. Now, aircraft fly…they are a function of their design. An airplane flies in the atmosphere. It has a nose. It has a tail. It has an engine. And it has a definitive shape because it has to fly in the atmosphere. It has to have a leading edge. It has to have ailerons and all the things you would normally characterize and associate with an aircraft. In this particular case, you have something that has no exhaust, something that has no obvious wing surfaces And something that is orientating itself at a 90° angle without falling out of the sky! It doesn't lose altitude! And in fact is still doing it moving in a forwarded direction…Now, what makes it even more interesting is when you hear the audio... The individual say there's an entire fleet of them. I cannot go into detail why that's important. I hope at some point the details of that will come out but it will not come out from me. It isn't just one. And if you know the back story behind that incident - you're just looking at a very short video maybe 30, 35 seconds worth - but there's an entire story, weeks and weeks and weeks worth that go behind that video. And that is what's so compelling. And if those details should come out, I think that's gonna be the 'A Ha' moment, the epiphany, so to speak, where people are going to look and say, 'Holy smokes! That really IS an important video! That's not just some blurry thing on the screen.'"

4 But in Marik's video, I think he does an excellent job of showing that when you see SOME of the background rotating, it's due to glare from Gimbal rotating. Gimbal brightness is creating streaks that rotate. In other words, & once again, it's NOT the ATFLIR rotating. You need

2 stick out: The examples used by @MickWest & other debunkers to show that what we see in the video is glare from a distant jet, were NOT using jets with an ATFLIR pod. So, not valid. If an ATFLIR pod is used, u can see the rest of the jet. In Gimbal, that's not the case.

Never heard of it. One case I'm aware of (I'm sure there are many) where an orb went thru someone's shoulder was in "Skinwalkers." Near Bend, OR. A few orbs came into the car & one went thru biotechnologist's shoulder & he got cancer. Daughter (also in car) got hitchhiker effect. https://twitter.com/KrysDevine/status/1509573374271315983

Lue said the 23-minute video would end the debate. All this talk about not enough data is bs. I've also heard, 3rd hand, "If you only knew," in reference to what data has been collected.

Some of the highlights of Corbell's C2C appearance. Recordings of witnesses from the 2019 WC events. Not sure why this isn't being discussed more. And the reason ur not seeing that right now was explained by JC & explained by myself on here: Active Duty. Patience is needed. #ufo http://pbs.twimg.com/media/FPMHhkLUcAgdAc0.jpg

Jeremy Corbell: "There is more footage coming out. When I said I just barely started to release footage, that is true. Some of the things that *will* be coming out, is:

"You can imagine like a Phoenix Lights-type incident over a secure, military installation, on U.S. soil. Multiple angles of footage, & imagery. Nobody else has this, this is fresh information nobody's seen. There's strange, what they call, observational craft, & activity, over military zones...that they can't be tracked or targeted by our most advanced FLIR technology. They tend to submerge, in areas where they can. There's footage of *that*. There's tons footage over Iraq. Very interestingly, these war zones, like we're seeing right now. There *will* be footage coming out about that. Like, actual military filmed footage because we have cameras on every weapon we have. Very interestingly, and this is a little more sensitive because we were at one point, filming a Russian ship. And when we were filming that ship, there was a close-proximity, UFO event. And that footage exists and I hope it *can* get out to the American public. And there's also UFO swarms over the South China Sea. And all of this, is stuff that we can, eventually, I hope, get out, responsibly, to the public, and have them *dissect* it and understand it. So these are the types of things. There's one that has direct witnesses from the USS Russell, and other war ships that were involved in that 2019 event series."

I don't know. But I DO think the Davis briefings on Capitol Hill were about more than "just" metamaterials.

@spatoola @MeltdownWRIF My dad took me. I was probably 12 or so. I then took private lessons from a jazz drummer who was a Buddy Rich protege type. That was until his next door neighbor's German Shepherd strolled up to me and bit me on the ankle. I was too afraid to go back! Plus, I was in over my head.

2 As I've said, I know (as close as I can know without being there in 2002) the meeting between Davis and Wilson happened. And my (multiple) sourcing on that is excellent.

You have to remember that JG also said he doesn't believe Dr. Eric Davis briefed folks on Capitol Hill.

@arkansasustaaz What's to say it's not humans who have this inherent skill? I mean, I've thought of all possibilities, including the idea the phenomenon is somehow involved. But how would u prove that? For now, I'm gonna assume it's an ability we all have. Some suck at it and some are great.

@Mike___Kilo Now, how accurate is it? Depends on who you ask. But the military/government used other forms of intel and didn't just rely on RVing data bc it's not always accurate. Lots of things can cause shitty data. How does it work? No clue.

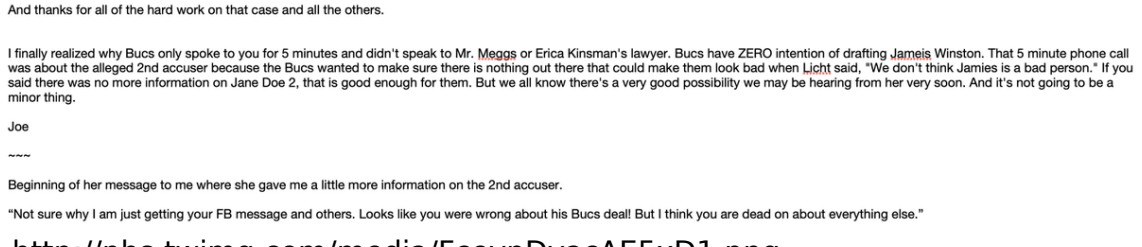
http://pbs.twimg.com/media/FcevnDvacAE5xD1.png



And thanks for all of the hard work on that case and all the others.

I finally realized why Bucs only spoke to you for 5 minutes and didn't speak to Mr. Meggs or Erica Kinsman's lawyer. Bucs have ZERO intention of drafting Jameis Winston. That 5 minute phone call was about the alleged 2nd accuser because the Bucs wanted to make sure there is nothing out there that could make them look bad when Licht said, "We don't think Jamies is a bad person." If you said there was no more information on Jane Doe 2, that is good enough for them. But we all know there's a very good possibility we may be hearing from her very soon. And it's not going to be a minor thing.

Joe

Hi Georgia,

Please forgive me for bothering you on your private Facebook but I couldn't find any other way to contact you.

I'm a huge Buccaneers fan and it looks like we may be drafting Jameis Winston. I work with a few FSU fans so I am very familiar with him and the team.

I have read almost everything there is to about this case because I really don't want to be rooting for a rapist (if Erica Kinsman's story is true) and really want to know the truth. I'm about to turn 50 and winning is just not that important to me. I want to win but not at the expense of cheering for a criminal, if that's what he is.

I know there are problems with her story. Especially the details related to how she left Potbelly's and how she got into the cab. I have an opinion on what may have happened. I'm sure you have thought of this...

I think she went with him and his friends willingly. I think she planned on fooling around with him. But at some point during it, (maybe after Casher kept peeking in?) she changed her mind and told him to stop. He didn't. Something he was doing/saying or something that was happening with Casher really made her change her mind and she told him to stop again. Once again, he didn't. And afterwards, she felt violated and felt she was raped.

The SANE nurse said she was acting (traumatized) like other rape victims she had encountered and her parents said she was vomiting and extremely upset when they arrived. Her friend testified she had never seen her like that. Kinsman was actually pre-med and now she is out of school and rarely leaves her house if you believe what her dad said. All a ruse? Highly doubtful in my opinion.

She thought if she told the truth, nobody would believe it and worst of all, people would call her a slut for sleeping around and cheating on her boyfriend. Of course, folks called her that (and worse) any way. So she made up a lie. In fact, a few lies. She didn't want anybody to know she actually wanted to go to Winston's place when this all started. So she made up a lie about being drugged. And once she realized the story was hard to believe, she changed some things around a couple of times.

The 2nd woman went to the FSU victim's advocate for therapy and also felt violated by whatever Winston did or said. But the difference with her is she didn't say no and just waited for it to be over so she could leave. I have to speculate on that because no details have emerged as of yet.

I know you probably can't speak about this but if you do, I would keep it to myself. I have tried to find out more details about what happened with the 2nd woman but no luck. Nobody in the media seems to care except the New York Times who mentioned it in their in-depth article about the case.

Are there other women that may come forward? Is the 2nd woman relevant enough that her testimony would be allowed in a civil trial?

I grew up in N.Y. but moved to Ft. Myers after college to shoot news at WINK-TV and then moved to Tampa from 1991 until 2001. I now live in Vegas and work as the main cameraman (Director of Photography) on Pawn Stars for The History Channel. I've been on the show since the beginning. If you and your family or friends are fans of the show and ever come to Vegas, let me know and I'll get you a VIP tour and you could meet a few of the Pawn Star guys.

Hope I didn't bother you with this and hope it reaches you.

Thanks for reading.

Lacatski used Congressional interest from bipartisan Senate leadership and the assistance of two DIA Directors to obtain multiple years of funding directed to the DIA Directorate of Analysis, specifically the Defense Warning Office (DWO).

Lacatski then developed the strategic guidance and architecture for a new contractor support effort, and with the concurrence of the DIA Directorate of Finance, wrote a small-business set-aside solicitation (HHM402-08-R-0211) using the then-new statement-of-objectives format. It was issued on August 18, 2008, on the Federal Business Opportunities (Fed Biz Opps) website, with a proposal due date of September 10, 2008. Twelve days later, a contract (HHM402-08-C-0072) was awarded to the sole bidder, Bigelow Aerospace Advanced Space Studies (BAASS), for an initial duration of two years.

This latest docs via FOIA are kind of dry reading. Go through them bc it won't take long. It gives an explanation why the Reid request (turn AAWSAP into a SAP) was turned down. Were there other reasons/forces at play?

http://pbs.twimg.com/media/FOvyEJIVIAEAdZn.png

- (U//FOUO) DIA Position: Based on the content of the delivered FY09 and expect FY10 technical reports, DIA can not find sufficient grounds under DoD regulations to establish a restricted SAP. However, the concerns that Senator Reid raises seem to suggest that the security and counterintelligence issues are in regard to future phases of this program, and not necessarily the current contract effort. If this assumption is correct, then Senator Reid is looking ahead to a research, development and acquisition (RDA) effort that lies outside the DoD Intelligence Community's purview. This in turn would argue that any future efforts beyond FY10, when the current contract ends, should be moved under the appropriate DoD entity.

- (U//FOUO) Potential Areas of Concern:
  - Senator Reid may insist upon keeping AATIP efforts at DIA during a time of considerable disruption to the [redacted] assets due to the BRAC move. The (b)(3):10 USC 424 [redacted] (b)(3):10 USC 424 These issues will make it very difficult for DIA to exercise proper program management.
  - If Senator Reid strongly desires the AATIP to be placed under a SAP, then doing so within the DoD IC would be difficult to justify. However, if the focus of the program were to become more RDA oriented, then a SAP would be easier to justify under the current DoD 5200.1-R

http://pbs.twimg.com/media/FOvyEJIVIAEAdZn.png

the request of USD(I) Special Programs, evaluated Senator Reid's letter and could not find any technical issues addressed in the reports that were sufficiently sensitive to require the extra protection associated with a restricted SAP. Senator Reid cites "the identification of several highly sensitive, unconventional aerospace-related findings" that will "require extraordinary protection." Senator Reid cites "the identification of

[redacted]

several highly sensitive, unconventional aerospace-related findings" that will "require extraordinary protection." Although most of the unclassified reports discuss unconventional aerospace technologies, DIA is unaware as to which ones the senator believes are sensitive.

is trying to get at is the complete picture, and this is what makes me feel optimistic, that they're not just looking at: What are these aircraft, and are they Chinese, or are they Russian? That's the silliest damn thing I've ever heard. Of course, they're not Chinese or Russian. They've been showing up for 70 years, you know, 70 years ago, the Soviet Union was barely dealing with a jet engine at the time, let alone these transmedium vehicles, so. So, in the end, I mean, you know, I think we have a good way forward. It depends on a lot of things, as everything in government does. The cat is out of the bag. I've said that before, publicly, on television and everything, too (indecipherable) that once these congressmen and senators got briefed on this, and more and more are getting briefed – all they have to do is ask – and they start seeing the classified data on this, which is just data that's more compelling than the three videos you saw when they came out with the New York Times, and some other things, too, and they started hearing some of the stuff that happened at Skinwalker to some of the people that were there. And to get about 80% of it, you can read the latest Skinwalker book, "Skinwalkers at the Pentagon." And I recommend that to anybody who wants to read it. It's a wonderful book, sort of sums it up. And boy, I'll tell you, there are a lot of questions that remain unanswered.

In 2008, Robert Bigelow formed a sister company to Bigelow Aerospace and responded to the DIA's solicitation. The name of the new company was Bigelow Aerospace Advanced Space Studies (BAASS). It is understood that no one else actually submitted a proposal to the solicitation. In September 2008, Robert Bigelow was notified that BAASS had won the AAWSAP contract, and that Jim Lacatski was designated as the Program Manager and Contracting Officer Representative (COR). Funding for the first year was approximately $10 million with the opportunity to renew the contract on an annual basis thereafter.

As always, Robert Bigelow moved fast once he had been awarded the contract. Within a few weeks Bigelow had allocated a building for the program and had begun the process of extensive renovations in anticipation of obtaining a Facility Security Clearance for the structure. In addition, he began reaching out to several of the old NIDS Science Advisory Board members in order to solicit advice and input on quickly building an organization.

AAWSAP Contract Award

In response to the BAASS proposal, DIA awarded a two-year AAWSAP contract (HHM402-08-C-0072) commencing on September 22, 2008. Approaches 1-4, 6, and 9 were accepted for a cost of $10 million for the 1st year. Those approaches comprised the operational functions of the AAWSAP contract, and the focus was never changed or modified during the life of the contract.

"This was a UFO program period. That was its perfect purpose from the start," says Lacatski. "And furthermore, this was about how UFOs might fit into the realm of what we might consider the paranormal." Lacatski believed then, as now, that a study focused solely on UFOs—on various unknown, nuts-and-bolts-type craft flitting around in the skies over military bases and facilities—would never get to the

@MusicAndTruth Yes. Lue was thinking like a human. But that's how the government/military folks were thinking back then so it makes sense. Is that the main reason they kept it secret? Don't know.

@MusicAndTruth Lue was just trying to see it through the national security eyes of folks back in the day when this first became an issue. Why would they keep it secret? Well, as he said, announcing it may cause whatever "they" are, to move up their plans of attack or whatever that plan was.

2022-03-18T18:13:44+00:00

https://twitter.com/_/status/1504883769651597313

@MusicAndTruth He wasn't referring 2 hitchhiker there. Just that some of our leaders may have feared that if "they" knew that we knew (our leaders announced the country/world that we're not alone), "they" would have to act bc the element of surprise was gone. Assuming they were going to attack.

2022-03-18T18:11:15+00:00

https://twitter.com/_/status/1504883143693676546

@MusicAndTruth There's no evidence that "being made aware" causes hitchhiker experiences. At least none that I know of.

But if a lot of folks have close encounters? And if some of what we're dealing with is parasitical in nature?

Fun times! :upside-down_face:

The most dramatic of Hynek's classifications, Close Encounters of the Third Kind, would, of course, become the title of a Steven Spielberg movie released in 1977. O'Connell reports that Hynek was paid $1,000 for the use of the title, another $1,000 for the rights to use stories from the book and $1,500 for three days of technical consulting—hardly a windfall by Hollywood standards. He also had a brief cameo in the film, playing an awestruck scientist when the alien craft comes into close view.

126 Lue: I was put on a terrorist naughty list some time ago. That's never fun. You never get off that list. You hope that somebody else becomes more important than you & you move to bottom of the list. But even now, I've had some people threaten me bc they don't like my message.

125 Lue: "for us being where we are today in the convo, Chris Mellon is definitely at the top of the list, for sure."

MW reads a Q: Is there a reason u moved to the middle of nowhere in Wyoming?

Lue: Yeah! I don't like people, man! A lot of it is for privacy. As I said,

(**In a recent episode of the TTSA Talks podcast. Luis Elizondo explained how Christopher Mellon made his way into AATIP. ~Joe**)

Luis Elizondo: I remember being at the Pentagon and someone saying, "Hey, a former very *senior* level DoD official is here to talk to you." And I remember you (Mellon) coming in and saying, "Hey listen. I would really would like to know (laughs) about this particular portfolio you guys are doing here called AATIP." And first of all, I was astonished that you even *knew* that we were a part of this effort. We weren't prepared to tell you anything. And, of course, I remember, very quickly, looking over my shoulder, kind of laughing at one of my guys there that's with me. And I looked at you and I said, "Okay, well if you want a briefing, that's fine, but you're gonna need *these* tickets." And it was long laundry list: A, B, C, D, E, F, G and so forth. And I remember you were diligently writing notes and you said, "Okay, no sweat." And I know from the inside, it takes over a *year*, sometimes, to even get *nominated* for some of these tickets. So as you left, I kind a looked back and snickered to my colleagues and said, "We'll never see him again, right? That problem is solved. We don't have to worry about that!" And I'll be *damned* if the very next week you came back to my office and they said, "Hey, he's out here again." And I said, "Well, what does he want? We can't let him in unless he's even got the tickets." And I remember one of my guys saying, "Mr. Elizondo, he's got the tickets." And I could not *believe* that within a week's time, you had somehow managed…and I verified and validated it. You did it! So, at that point, I realized, okay, this guy's for real and he's got the connections.
