LE: George, I'm gonna share something with you, and frankly, the rest of America, I've never shared before. I'm not going to go into specifics. But not too long ago, I was brought up into a meeting on the Hill and some individuals, and I won't say who I was speaking with, but, I sat in a room and there was an older gentleman sitting in the corner, and he didn't introduce himself. And I certainly wasn't gonna ask who he was because I was being invited by some individuals to have a conversation at the classified level. So, I answered their questions. And then the individual came up and he introduced himself to me and he said, "Look, I had your job." And I said, "Oh, really? From what perspective?" Because I had a lot of jobs in the government [and] I wasn't quite sure what he meant. He said, "No, I had your job, and I had your job with a particular service." I'm not going to mention what service it was. And he said, "And I had your job back in the 80s."

And that struck me. At that point, and he said it in front of other people, and those individuals somehow recognized or acknowledged and knew that...I mean, this guy was obviously very legitimate. He was having a classified discussion right now with myself and many other people and they knew who he was. I didn't know who he was. So, that tells me that there is at least *some*

Very recent FB posts from my friend... http://pbs.twimg.com/media/Eu0bXFSUUAk9ivI.png

---

I truly appreciate all the prayers and love sent my way.

I go Tuesday for my CT scan. Without insurance and covid cutting my production work to nothing, I can’t afford all the tests at one time.

The EKG looked good, my blood pressure went from 190/100 to 120/78. I’ve lost my appetite, when I do eat, I violently vomit it back up.

I’m exhausted 24-7, but can’t sleep. Now I’m getting migraines, debilitating migraines. I’m completely falling apart and it’s terrifying.

I took a test for a bacterial infection on Friday. Haven’t received the results. I’m at a loss.

I can’t thank you all enough for taking time to think of me.

I wasn’t sure I wanted to make this public. I need the prayers and positive energy from everyone.

I don’t know what to do anymore. Sitting here alone, scared and feeling like complete garbage.

Thanks again everyone.

http://pbs.twimg.com/media/Eu0bXFSUUAk9ivI.png

At 9:00 am today I’m going back to the doctors.

Since contracting Covid in July, I haven’t been the same. My lung capacity has been reduced to nothing.

I went to the doctors a couple weeks ago. Without getting into the details, the doctor found something alarming.

I’m a believer in the power of prayer and strength in numbers.

Please find the time to say a little prayer for me today.

Have a good day everyone.

7 Saying, "I'm just asking questions" doesn't cut it.

If you want the truth & latest info. about these programs & details related to the phenomenon, going forward & don't want to deal with unfounded insinuations, listen to what @g_knapp, @LueElizondo & the others have to say.

2021-02-22T03:14:55+00:00

https://twitter.com/_/status/1363688694499008518

6 And to be even clearer! :-) Greenewald was able to get important responses & docs from folks in our gov't. Good for him. That's needed. But that doesn't excuse JG insinuating the various folks (Lue, Reid, Davis...) were lying. And yes,, he did that. And that's not okay. Ever.

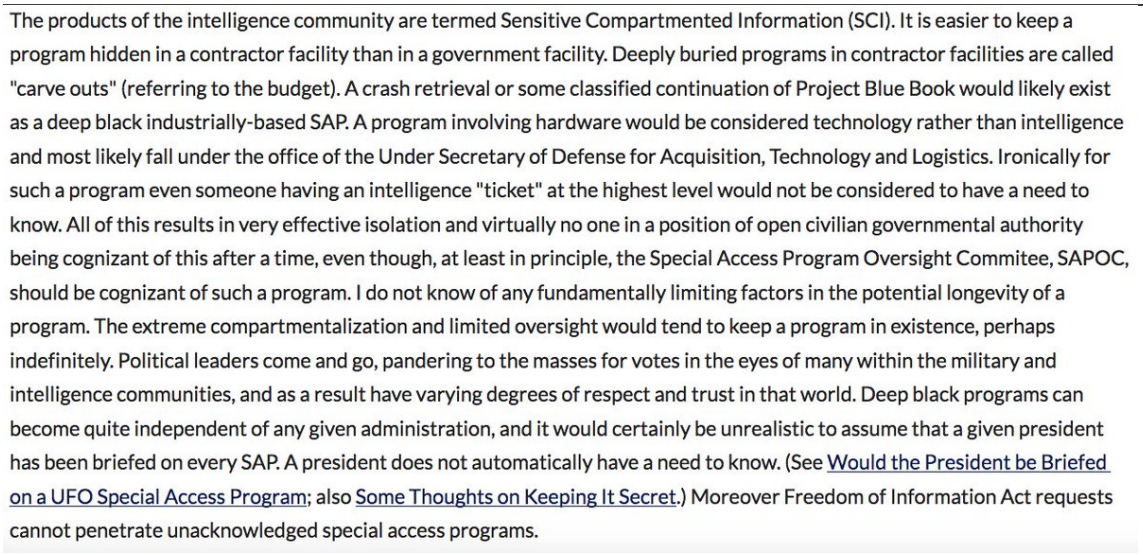
2 More from Haisch... http://pbs.twimg.com/media/EukuE8ZVoAA38RI.jpg



The products of the intelligence community are termed Sensitive Compartmented Information (SCI). It is easier to keep a program hidden in a contractor facility than in a government facility. Deeply buried programs in contractor facilities are called "carve outs" (referring to the budget). A crash retrieval or some classified continuation of Project Blue Book would likely exist as a deep black industrially-based SAP. A program involving hardware would be considered technology rather than intelligence and most likely fall under the office of the Under Secretary of Defense for Acquisition, Technology and Logistics. Ironically for such a program even someone having an intelligence "ticket" at the highest level would not be considered to have a need to know. All of this results in very effective isolation and virtually no one in a position of open civilian governmental authority being cognizant of this after a time, even though, at least in principle, the Special Access Program Oversight Commitee, SAPOC, should be cognizant of such a program. I do not know of any fundamentally limiting factors in the potential longevity of a program. The extreme compartmentalization and limited oversight would tend to keep a program in existence, perhaps indefinitely. Political leaders come and go, pandering to the masses for votes in the eyes of many within the military and intelligence communities, and as a result have varying degrees of respect and trust in that world. Deep black programs can become quite independent of any given administration, and it would certainly be unrealistic to assume that a given president has been briefed on every SAP. A president does not automatically have a need to know. (See Would the President be Briefed on a UFO Special Access Program; also Some Thoughts on Keeping It Secret.) Moreover Freedom of Information Act requests cannot penetrate unacknowledged special access programs.

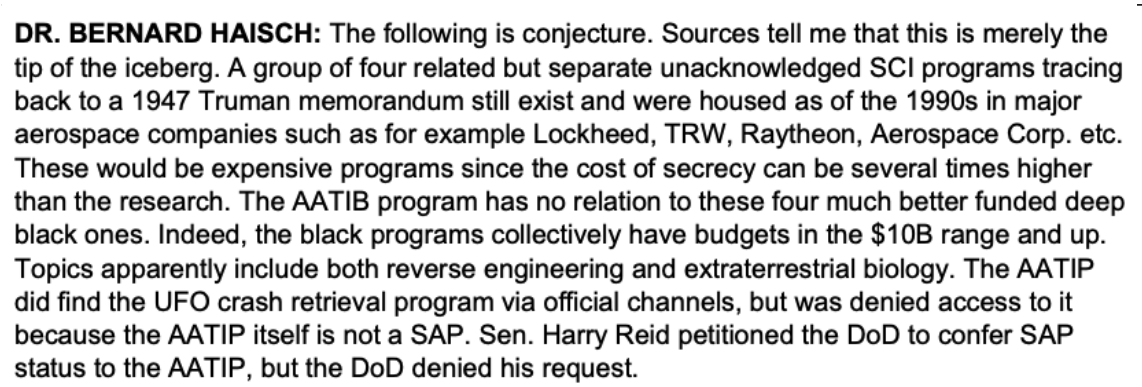
1 Astrophysicist Bernard Haisch on AATIP (AATIB is a typo) vs other programs...

http://pbs.twimg.com/media/EuktVlZVgAUD46D.png



DR. BERNARD HAISCH: The following is conjecture. Sources tell me that this is merely the tip of the iceberg. A group of four related but separate unacknowledged SCI programs tracing back to a 1947 Truman memorandum still exist and were housed as of the 1990s in major aerospace companies such as for example Lockheed, TRW, Raytheon, Aerospace Corp. etc. These would be expensive programs since the cost of secrecy can be several times higher than the research. The AATIB program has no relation to these four much better funded deep black ones. Indeed, the black programs collectively have budgets in the $10B range and up. Topics apparently include both reverse engineering and extraterrestrial biology. The AATIP did find the UFO crash retrieval program via official channels, but was denied access to it because the AATIP itself is not a SAP. Sen. Harry Reid petitioned the DoD to confer SAP status to the AATIP, but the DoD denied his request.

@Pawn37 @MrHustleMCR The UFO back-engineering hypothesis is more than just an assumption. Some very smart people have told us that's what's happening. True? We'll see one day.

using standard spherical coordinates, where c is the speed of light, $\alpha,\beta \equiv (0 = t, 1 = r, 2 = \theta, 3 = \varphi)$ are the time and space coordinate indices ($-\infty < t < \infty$; r: $2\pi r$ = circumference; $0 \le \theta \le \pi$; $0 \le \varphi \le 2\pi$), $d\Omega^2 = d\theta^2 + sin^2\theta d\varphi^2$, $\phi(r)$ is the freely specifiable redshift function that defines the proper time lapse through the wormhole throat, and $b(r)$ is the freely specifiable shape function that defines the wormhole throat's spatial (hypersurface) geometry. Such spacetimes are asymptotically flat. The Einstein field equation requires that a localized source of matter-energy be specified in order to determine the geometry that the source induces on the local spacetime. We can also work the Einstein equation backwards by specifying the local geometry in advance and then calculate the matter-energy source required to induce the desired geometry. The Einstein field equation thus relates the spacetime geometry terms comprised of the components of the metric tensor and their derivatives (a.k.a. the Einstein tensor) to the local matter-energy source terms comprised of the energy and stress-tension densities (a.k.a. the stress-energy tensor). The flat-face wormhole or stargate is derived in the following section.

This study would not have been possible without the very generous support of Dr. Frank Mead, Senior Scientist at the Advanced Concepts Office of the U.S. Air Force Research Laboratory (AFRL) Propulsion Directorate at Edwards AFB, CA. Dr. Mead's collegial collaboration, ready assistance, and constant encouragement were invaluable to me. Dr. Mead's professionalism and excellent rapport with "out-of-the-box" thinkers excites and motivates serious exploration into advanced concepts that push the envelope of knowledge and discovery. The author owes a very large debt of gratitude and appreciation to both Dr. David Campbell, Program Manager, ERC, Inc. at AFRL, Edwards AFB, CA, and the ERC, Inc. staff, for supporting the project contract and for making all the paperwork fuss totally painless. Dr. Campbell and his staff provided timely assistance when the author needed it, which helped make this contract project run smoothly.

There are two colleagues who provided important contributions to this study that I wish to acknowledge. First, I would like to express my sincere thanks and deepest appreciation to my first longtime mentor and role model, the late Dr. Robert L. Forward. Bob Forward was the first to influence my interests in interstellar flight and advanced breakthrough physics concepts (i.e., "Future Magic") when I first met him at an AIAA Joint Propulsion Conference in Las Vegas while I was in high school (ca. 1978). The direction I took in life from that point forward followed the trail of exploration and discovery that was blazed by Bob. I will miss him, but I will never forget him. Second, I would like to express my sincere thanks and appreciation to my longtime friend, colleague and present mentor, Dr. Hal Puthoff, Institute for Advanced Studies-Austin, for our many discussions on applying his Polarizable Vacuum-General Relativity model to a quasi-classical teleportation concept. Hal taught me to expand my mind, and he encourages me to think outside the box. He also gave me a great deal of valuable insight and personal knowledge about the Remote Viewing Program. Last, I would like to offer my debt of gratitude and thanks to my business manager (and spouse), Lindsay K. Davis, for all the hard work she does to make the business end of Warp Drive Metrics run smoothly.

Dave Marler told me, “I am not as enthusiastic about the 2018 photo of the "cube" so much as the purported 2019 photo of an equilateral triangle with three large lights at each point. The latter depicts the quintessential image of these triangular UFOs that I have investigated. Despite variations in the reports, the vast majority over decades have been those with three large lights. Coupled with that is the description of the triangle in 2019 exiting the ocean and displaying trans-medium flight (i.e., sea-to-air). I am told through sources that this photo will most likely be officially released in due course.”

No evidence but Hoagland (Mr. Conspiracy) has talked about it. In 1993, right b4 it was to enter orbit around the red planet, contact was lost with Mars Observer. Hoagland believes it was't lost & kept collecting data. I believe it was the 1st mission 2 Mars since Viking in 1976.

5 he hasn't mentioned it or followed up. As far as Wilson/Davis? I know Blumenthal gathered facts & from what I heard, it was going 2B part of their article but DC-based editor quashed it. I'm not 100% on that.

BTW, Davis is far from only one who believes there's a CR program.

Yeah Mellon is the first to say this effort has been small beans. I've come to suspect that the UFO stigma extends deep into national security agencies. Few want any part of it. It's likely why we know so little. They don't know very much and it is scattered.

Clueless #5.

As I've said in recent weeks, AATIP was small and is not the UFO program we're looking for. But

I think the data they collected is important. Especially the videos Elizondo (and Hoffman) says were shown to various members of Congress.

Speaking of JG...even after Lue granted him an interview, JG is still skeptical of what AAWSAP/AATIP investigated and if Lue ran the latter. If it's not in a FOIA, it MUST be questioned!

And for Twisted Sister, a Long Island band my sister used to see all the time in the LI clubs, it was their "Stay Hungry" tour. Can't compare the 2 bands but we loved TS, too.

For the masses to take this seriously, the videos (or parts of them, showing these maneuvers) that Lue & Hoffman have referenced need to be declassified. That's not unreasonable. And then we need to have open hearings so we can hear from the pilots, WSOs, radar ops. and so forth. https://twitter.com/dsmethurst66/status/1360402978772037635

2021-02-13T01:38:37+00:00

@lucio_linae I'd venture to guess that if anybody got any details wrong, it was Wilson. It was five years after he went to the SAP so his memory may have been a little foggy. Davis wrote these notes as he sat in the car or right after. Or, recorded it.

Yes. There's ZERO chance Davis was fooled by an imposter Wilson. After looking over everything & hearing things behind the scenes, I believe 1000% Wilson/Davis is legit. In other words, what's in those notes r what Wilson told Davis. Was Wilson lied to? Maybe but I don't think so https://twitter.com/SeaReever/status/1360337314258501634

WORLD VIEW

SEAN ELLARD

Top US Fighter ace offers a calm, rational view of UAP phenomenon

Sean Ellard continues his look at the growing debate over the presence in our skies – or not – of UAPs/UFOs

Some of today's aircraft are easily mistaken for unusual objects, like this X-47B unmanned aerial drone at Edwards Air Force Base, California
Photo: US Air Force

Distance is one of those things that can bring immense comfort or incredible unease depending on the situation and the individual.

When fighter pilots engage with a target, being able to close the gap quickly or manoeuvre away faster is an essential element to helping maintain the upper hand.

But fighter pilots have to be comfortable in all the spaces in-between, whether as close or as far as possible.

Another day at the office

Former US F/A-18F pilot and member of the famed strike fighter squadron, The Red Rippers, Lt. Ryan Graves is a noted military tactician, artificial intelligence, quantum mechanics and autonomous drone specialist. He also happens to be one of a handful people, out of billions on earth, who has had dozens of first-hand encounters with strange objects in the sky. Armed with skills of observation and assessment, the Pentagon spent a fortune refining and training him to apply those skills in high-stress situations while engaged in mental synchronicity with some of the most advanced technology fighter planes carry. So, when he says there are strange objects in the sky that demand a massive, co-ordinated, public fact-finding mission to understand what is happening, there is probably a good reason.

A decade ago, when Graves says he first began encountering these objects, they initially appeared as singles and doubles. They would turn up while flying his missions and exercises, mainly out of Virginia, off the US Atlantic Coast – where the bulk of its Eastern Navy fleet is based.

According to Graves, the objects he saw were always cubes in transparent spheres – about ten feet or so in diameter – the four corners of which seemed to touch the inner lining of the bubble. They moved incredibly fast, had amazing maneuverability, and seemed to behave in ways that implied intelligence. But there was never any direct communication with the objects.

Looking back, the former pilot says he wished he took a more inquisitive approach to the objects, instead of his broader assumption it was likely a covert military project. Over time, he came to realize that was likely far from reality – at least any reality he understood.

Common concern

It wasn't until he spent time flying off the coast of Florida that he discovered pilots there were constantly encountering 'Gimbal' shaped Unidentified Aerial Phenomena (UAPs) while flying in that area. According to Graves, the cubes in spheres and the Gimbal shape were the only two crafts seen regularly by military pilots off the Atlantic coast – while pilots on the Pacific coast were encountering different shaped objects, like the Tic Tac. Graves was unable to account for the difference in shapes and regional differences or speculate why. Regardless of the shape, it was the changing behaviours that really grabbed his attention – and continues to hold it firmly in its grasp.

For Graves, the craft went from appearing as singles and doubles – to much larger groups in recent years, flying in formation, performing synchronised movements. No more lone flyers – they were making a much larger presence known – for unknown reasons. Actions that are still being witnessed by pilots – it hasn't stopped. But there are also more of them in the skies than before.

The expert in military technology says many of the objects were not observable with the naked eye until the systems they were using in the fighter jets and others were upgraded – revealing things that they hadn't noticed before. But once they started to see them, the flood gates opened. Almost as if some objects may be able to allow themselves to be seen by humans at will.

Mindful of the situation

When I asked him to speak about the reported negative health effects some of these encounters seem to have had on pilots – including potentially himself – Graves was cautious, only to admit pilots don't like to talk about their health – mental or otherwise. He did acknowledge more research, funding and support infrastructure is needed to help pilots deal with the psychological impact of these encounters – and the job in general – something he felt was long overdue and will only grow in necessity over time.

When it came to speculation about foreign governments or private corporations as the true source of these strange objects, he was happy to concede that is likely a part of the equation. But there is far too much evidence, both hard and anecdotal, plus a lot of common sense, that shows it is not the whole answer.

Hiding in plain sight

You can only hide so much for so long. If there is a giant manufacturing infrastructure producing crafts out of the rarest, hardest to find materials on earth – for 80 years or more – including some materials with reported atomic structures that don't originate in our part of the Milky Way – someone is going to eventually notice the food truck outside the factory. Graves admits it would be nearly impossible to hide that kind of mass military manufacturing for that long with so many high-level groups and individuals out of the loop. Everything leaves crumbs. That kind of operation would leave a trail of bags of flour behind. Particularly given the high number seen around the world in different countries over history, possibly as far back as thousands of years. It doesn't fit together as a really plausible explanation.

You can only hide so much for so long. If there is a giant manufacturing infrastructure producing crafts out of the rarest, hardest to find materials on earth, someone is going to notice the food truck outside the factory. Everything leaves crumbs. That kind of operation would leave a trail of bags of flour behind...

Come together right now

Graves also claimed to have no knowledge of the many reported sightings of extremely large UAPs, some the size of football stadiums or bigger, sometimes allegedly seen discharging smaller, moving objects. Graves is very much a 'facts first' person who leaves the speculation to others. For him, there is just too much hard data about observable concerns already front-and-centre to bother going down rabbit holes reaching after other speculative stories. Take the bird in the hand. That is why he is helping spearhead efforts with his leader role with the Unidentified Aerospace Phenomena Community of Interest to help gather and promote a public data source of useful information about this issue to help bring as many minds together to work on this for the greater public good.

Graves admits that what he has seen, along with his buddies who still are flying, remains beyond the scope and scale of their equipment, knowledge and experience to give a clear understanding of these things or where they are coming from. When you've had the kind of storied military career as he's had, becoming one of the most important people in the sky defending the United States, he is literally in a small class of exceptional pilots. But if what he saw tells him that this is something we are not properly dealing with as a society, which other important voices should we be listening to that are saying otherwise?

Where they are coming from and why, the former Naval Aviator doesn't know. But he says this is likely not a singular issue or phenomenon, just something that is as complex and multi-faceted as the modern weapons of war he used to fly. He also adds, like so many others, that it could be from something that is already among us here on earth – not travelling from the far away distance of another world.

That's an idea that is much easier to digest by the pubic masses as whole, when the idea of a possible other-worldly threat has to come from far, far away – rather than the very unnerving idea that distance between us and something else is much closer than we think – which should be enough to push all of us to want to close this vast knowledge gap – even faster.

@SeaReever @MusicAndTruth I do NOT think Greenewald would be a target. Lue was a public person at that point and they'd have to prove that the person saying false things knew it was false when they were saying/tweeting/writing it. Very high bar,

Brandon D. Fugal Yes I actually agree with you there. I think it was only personalized in that he was the only one who happened to see it. To me the geometry... even if it reminded him of something later on... is the key. I think it's the properties of the geometry (which aren't personalized) suggest 4th dimensional perceptions. Still could be communication OR could be a slip up. Either way, if it's possible to ID the exact shapes being seen (or close to) there may be much to learn... intentional on the part of that particular phenomenon or not. PM'd you for details.

@LisaRob23467689 That's why I've never told anybody to break their security oath. And that's not what this discussion is about. Will Miller, who was part of several SAPs, gave his opinion on whether or not a security oath would hold up if someone spoke out about an illegal (no oversight) program.

What stuck w/me from Bigelow/GK was his brutal honesty that his wife's passing affected him more than death of his dad, son & grandson. Those were unexpected but his wife had been sick & he was prepared 4 it. Or so he thought. I went thru similar w/my mom but spouse must be tough

@MusicAndTruth No, I get the skepticism but nothing else Bigelow said in that interview was outlandish except when he discussed "they walk among us" and (apparently) the work of Jacobs. But there are other sources for the "they walk among us" claims.

3 I'm watching "Strange Angel" now. A little slow but I like it. Book is probably better and based on more facts. In the CBS series, an important character is Parson's next door neighbor, Earnest, who is fictional. Hate when they do that.

Guess what? Kit Green has colleagues who disagree with his opinion that black budget tech MAY have caused the injuries at the ranch. But you probably knew that already, right?

Has nothing to do with my opinion.

@_Desmoden @adminnathan @PhenomenonMovie Roswell is a big deal to many folks. Especially if we have pieces of the craft and bodies of the occupants, locked away in some freezer.

On a FB group, @ericalukesuap has continued to harp on her belief that military personnel were exposed to non-lethal weapons testing at #skinwalkerranch w/o their consent. And she wants @g_knapp to admit it. She thinks it's plain to see for most logical folks. My thoughts...

31 Over...

BTW, most of us don't put Lue on a pedestal or see him as a God. But he's important to our goal of disclosure and when people make up shit about him, we're not going to react well to that. And THAT is why so many of us had a problem with Jimmy.

2021-02-03T05:43:05+00:00

https://twitter.com/_/status/1356840612000010242

30 JC: Lue has fans that put him on a pedestal and deify him. You aware of that?

Lue doesn't believe the hype. Remain grounded. When u reach top of mountain, always reach down and pull someone up. Leader will never tell you they're a leader.

2021-02-03T05:40:02+00:00

https://twitter.com/_/status/1356839846245920769

29 We need expertise of folks in government to help figure this out.

JC: Have u had anybody advise u on what u should or shouldn't say in interviews? He knows

what he can & can't say. But he DOES get calls/texts from time 2 time. Anybody who says they have answer? Not helpful.

2021-02-03T05:36:54+00:00

https://twitter.com/_/status/1356839057825828872

28 Lue: Still has friends/relationships inn DoD and U.S. gov't at large. Important they do it together. Wants to work with government, not be destructive and help them do the job they're supposed to do.

Sometimes enemies are bureaucrats and/or stove-pipes.

2021-02-03T05:34:24+00:00

https://twitter.com/_/status/1356838425668636673

27 We are now working on a permanent solution. What's the mean? Still pursuing their original goals. UAP TF is only temporary. Need something more permanent. TTSA didn't hold him back but they moved into areas where return on investment was important. Lue & Chris not doing that.

2021-02-03T05:31:38+00:00

https://twitter.com/_/status/1356837731578515457

26 When we DO test tech on ourselves, we coordinate.

It seems TTSA took foot off the gas. Did they or do they have things they're holding back.

Lue can't answer for TTSA.

2021-02-03T05:28:44+00:00

https://twitter.com/_/status/1356837002553905153

25 Why are these things interested on our tech? Coincidence? Interest in our nuclear tech on the water?

Is it possible Northrop or some other aerospace company is testing their tech on our military.

Lue: It's called Red Teaming. And his answer is...No.

2021-02-03T05:26:05+00:00

https://twitter.com/_/status/1356836332887134208

24 Tic Tac is not ours and it's not theirs. Theirs being an adversary. So, it's a true unknown, as far as origin.

Lue: If Lue and Church can have an amicable convo, why can't adversaries discuss UFOs? Put asides differences & come together as a species.

2021-02-03T05:22:38+00:00

https://twitter.com/_/status/1356835464020332547

23 There is so much we don't know about the Universe and so much we don't know about

ourselves. We look at the world through a very narrow band in the electromagnetic spectrum. Tic Tacs from Earth? I don't know. So many options. Universe is not binary. It operates in fractals.

2021-02-03T05:18:33+00:00

https://twitter.com/_/status/1356834437376270338

22 JC: is the Tic tac not of this Earth.

Lue: Wrong question. Right question: Is the Tic tTac manmade or U.S. or foreign tech? The answer is: No (has Lue ever said this?). But is it from this Earth? We don't know. Could be outer space, inner space or the space in between.

2021-02-03T05:16:50+00:00

https://twitter.com/_/status/1356834004801003520

21 The same observables that were seen in AATIP can be also be seen in the Middle Ages, Roman times and pre-recorded history. It compels him to push this topic forward.

2021-02-03T05:15:11+00:00

https://twitter.com/_/status/1356833591196483584

20 Lue talks about seeing a 2000 year old Roman scroll in Italy that featured a discussion (between a Roman soldier & general) where they described a flaming Roman shields in sky that followed them from battle space to battle space.

This is important.

2021-02-03T05:11:28+00:00

https://twitter.com/_/status/1356832654302171137

19 Lazar is brought up. Lue has never met him so he doesn't know much about him. Lue prepares for a question on Lazar and Church says, "No, that's drama."

WTF? Why not ask?

2021-02-03T05:10:28+00:00

https://twitter.com/_/status/1356832405005324288

18 Has Lue ever seen a UFO in person, with his own eyes...

Lue: I would prefer to defer. He told @ufouapam the same thing.

Lue is showing JC (why wasn't this on video, too?) Jimmy showing a chart with all the different aircraft the military folks are supposed to know.

2021-02-03T05:07:13+00:00

https://twitter.com/_/status/1356831585270525953

17 Lue: Didn't meet with Bledsoe before he joined AATIP. Folks in AAWSAP may have. Certain rules prevented them from going to private citizens (like the Bledsoes) to ask about their UFO experiences. But, that doesn't mean that what is occurring at the Bledsoe's is or isn't real.

2021-02-03T05:04:52+00:00

https://twitter.com/_/status/1356830993664024579

16 Lue: We are in the very early stages of disclosure. It's the beginning of the beginning. A lot of data has yet to be presented. Try to resist coming to any conclusions on sticking to any specific narratives.

2021-02-03T04:58:07+00:00

https://twitter.com/_/status/1356829296673787908

15 Mellon, who knew about all the SAPs did NOT know about AATIP.

(What other UFO programs did Mellon not know about? ~Joe)

2021-02-03T04:57:16+00:00

https://twitter.com/_/status/1356829080465731585

14 JC: What do you expect to be in the public side of the report?

Lue doesn't think public part of report will say, "Nothing to see here" and then classified version will tell a different story. Thinks they need more time to get this report together.

2021-02-03T04:54:33+00:00

https://twitter.com/_/status/1356828399998693376

13 "The Report" is due in 144 days.

Will they get an extension?

He repeats that he would not do what Snowden and Manning did.

2021-02-03T04:53:24+00:00

https://twitter.com/_/status/1356828107122962433

12 Lue: Snowden is a traitor.

Lue will not be a whistleblower.

We need to pressure Congress for them to tell us what they know about UFOs.

2021-02-03T04:51:35+00:00

https://twitter.com/_/status/1356827652657565701

11 JC asks if we have tech not of this Earth. Lue says to rephrase. I think he wants JC to ask him his opinion. Lue helps out & answers in his own way.

"It is my personal belief that we are in possession of tangible evidence, call it material, call it whatever you want."

Yep.

https://twitter.com/_/status/1356827156739809280
10 Church asks about Davis & crash retrievals.

Lue: I'd have to defer 2 my friend Eric Davis, he said what he said. If u know Eric, u know he can't lie. There are things he has done that he will never take credit 4. When he tells u he has done something, I'd take it to the bank.

9 Lue: Congress gets to see "data and information that is very classified and with a much greater degree with fidelity." Some of them come out of the room after a briefing and say, "This isn't ours."

Good question by JC that lead to that.

@MrHustleMCR @LyndaRVA_UAP @lucio_linae It can be a location, an object or a person. After training for a while, you can add in events, past and future. No limits to what it can be and where it can be. In the beginning, it's better to have high-impact targets. Detonation of the first atomic bomb is a good one.

Still dealing w/injured dog. Started early Jan. Been occupying my mind 24/7 & affecting Twitter/blog output a bit. I hired a highly recommended medical intuitive 2 do a session on him but 2 soon to know if she's right. Plus, traditional AND homeopathic vet & electro-acupuncture. http://pbs.twimg.com/media/EsyepGuU4AYRGLJ.jpg

@murnut @billeecox No.

I was impressed when I first saw it but as time went on, I lost interest. Didn't realize (or

remember) that Billy covered it.

Most likely a scam (balloon sent up by a friend?), although, from what I remember, nobody ever busted him. I could be wrong about that.

@tommaw3 @KenSobers @ufobelievers @BrandonFugal Doesn't mean Lazar wasn't at S-4 but it's also not something to ignore. Especially since Lazar & Jeremy spoke about on Rogan. Why not mention it was part of court? Maybe there's more to the story I'm missing? Fine. I don't mind being wrong & I'm not biased against Lazar at all.

@tommaw3 @KenSobers @ufobelievers @BrandonFugal Yeah, BL brought his disappearing birth certificate up 2 Rogan & connected it 2 all of his records (allegedly) disappearing, including his records from college. But Mahood looked & found Lazar's birth certificate was presented 2 court (by Lazar in 1990) as part of pandering case.

@jeff5647a @ArranGray9 Or, maybe intelligence behind crashed vehicles is trying 2 make entire world think they're ETs visiting us when in reality, they're interdimensionals who can sometimes take physical form, or ultraterrestrials who live here? Why deceive us like that? Not sure. Just another theory.

@tommyIzito Scorn him? Is that what I'm doing?

Have u read all of Mahood's writings on Lazar? I have. I've also watched Jeremy's doc & most of George's lectures on BL. Plus, I read Lazar's book. I am by no means an expert & don't know every detail, but I know enough 2 have some skepticism.

5 Mahood is not a debunker. He just doesn't believe Lazar. Maybe he, Eric Davis, John Alexander and the late, Stanton Friedman were right about Lazar? Maybe Jeremy & George are right? Read the end of Mahood's 2018 essay update on Bob.

http://pbs.twimg.com/media/EscGsjkVcAY6cLw.png

Some will certainly dismiss all the above and say that I'm just a debunker or even an agent of the government (my favorite!) out to get Lazar. Far from it, I just happen to place a premium on truth and folks that waste other's time annoy me. When I first heard Lazar's story, many years ago, it sounded plausible. Thus I do have some empathy and understanding of those that have watched his interviews and were taken in by his story. He's amazingly believable. It wasn't until I actually starting looking into the details of his claims that I began to think he might not be telling the truth. Fun fact, my very first investigatory act was to spend time going through Caltech yearbooks to find a passing mention of him, as I actually expected him to be there. Surprise! He wasn't there.

As for my beliefs, I happen to think that UFOs are a quite real phenomena. I'm not inclined to take any strong position on just precisely WHAT they are, but I've read too much and know too many well-connected individuals to dismiss them. And beyond that, I think it's highly likely we are in possession of some sort of "stuff" from this phenomena from "crash recoveries" or whatever. Finally, I'm sure there are at least a few very dark government programs dealing with this sort of thing, but Lazar never worked for any of them.

More from that interview with @Lee_Speigel, @g_knapp and @JeremyCorbell.

That's some very interesting information from Knapp. Wanna know more? Read and watch everything Knapp has to say about this subject. And if Lazar turns you off, ignore his story.

http://pbs.twimg.com/media/EsW2iK9UcAAS2f9.png

JC: And there were foreign nations monitoring what was going on during the time of NIDS and BAASS and whatnot. Maybe you could mention that.

GK: That's true. There were two other nations that were interested in it. One of them even proposed a deal, hey, let's do this together. And they were told...no. There was espionage involved that and hopefully, those details can be made public. But there were other folks, once the story got out, other governments, who were interested as well. But I don't think anybody has the answer, not about the ranch and not about the larger UFO question. And again, as I said before, I'm not sure we will *ever* know. It's always seems to be just tantalizingly out of our reach to figure it out and nail it down.

More on Skinwalker and hitchhikers from Knapp - April 2020.

---

You know, Mr. Bigelow has had some experiences that stem from Skinwalker Ranch, as have many people who have visited. It was an intelligence person assigned to a military outfit that was on the property, I think in 2010, who had an experience along with two other intelligence folks, and it followed them home. It followed all three of them home. It followed multiple people home. And it basically was an explosion of poltergeist trickster-type activity at their homes, thousands of miles away from the ranch. That phenomena was was dubbed hitchhikers. It sort of attaches itself to people who visit the property. Not everyone, but if you go there enough, it happens. It has happened to me. Now, I haven't seen anything of the ranch. I haven't seen anything at my house. But it spreads to loved ones. So my wife has experienced it. Bob Bigelow's wife, who just passed away a couple months ago, experienced it multiple times. Colm Kelleher's wife experienced it in the early days of NIDS. And these other people who were there during the BAASS era, same thing. It's scary. And it messes with you. And so I think Bob wanted it off his plate both for business reasons and to protect his family. He just didn't want to go there. Colm Kelleher probably won't go there again. I'm not sure I want to go there again. Because it's like you're rolling dice.

U should probably follow someone else. The interesting questions aren't: Are UFOs real? Is psychic functioning legitimate? Can humans heal mice of cancer? Can some mediums come up w/info. via a 6th sense? Answers r YES but bigger questions remain. What are they? How does it work? https://twitter.com/CKakadan/status/1352582477496397824

Remember, The Un-Amazing Randi also had a prize for anybody who could prove anything paranormal. A million dollars! That tops Bigelow's prize money. Oh, the shame!
Only problem was Randi's challenge was worded so that nobody could win it. Bigelow's prize money WILL be rewarded.

Nah. I'm sure @g_knapp can clear it up but I'd be surprised if he didn't mean NIDS investigated/researched. https://twitter.com/zcichy/status/1352502007798460416

I still hold the belief (based on SOLID sourcing) that W/D is what it appears 2B: Authentic/accurate notes (or transcription) of what was said in 02. But hey, most important is if a #UFO CR, & other Legacy programs, exist & Congress can get access.

The same questions have been asked for the last 4.75 years. Lue has done numerous interviews where all questions are allowed. Now we have have two years of NDAA/IAA #UFO language and one hearing under our belts, with more to come. @OceanUAP @OmniTalkRadio The only flack he's gonna get is including Linda Howe as the "best of the best." Back then, she was doing important work on mutilations so I understand him/NIDs wanting to work with her. But as time has gone on, she's been associated with some questionable cases and witnesses.

http://pbs.twimg.com/media/EsDNqcCXcAA2NCn.png

Wow. Do you think with those bits that didn't make it, do you think you might stitch those together some time for maybe a follow on?

Probably, probably, yeah

'Cause it's....

Yeah, sorry

Sorry. 'Cause, it feels to me like so much love and energy and time went into it, that it's such a shame to have wasted, when –

Yeah, well, I've got a lot of people telling me, give me advice right now. And I need to sort of step back and think about what's best for The Phenomenon. And, and, you know, I, I want to make the right decision and – You know, but I love the idea of having, like a YouTube channel, which I used to have actually, and just posting stuff for free on it. The stuff that ended up on the editing room floor. But, that takes lots of management and it could deter – it could take my focus away from critical projects that need to happen right now.

Yeah, yeah, I totally understand that.

I will tell. But I am dedicated to the phenomenon. And, you know, we're the flavour of the week right now. Which is great. But, you know, you have to capitalize and I don't mean that financially, but capitalize on on the spotlight. I feel like almost an obligation to keep the momentum going right now because look how how how much progress we've made in the last couple of years, right?

http://pbs.twimg.com/media/EsDNqcCXcAA2NCn.png

People don't want the sun to shine. You're pulling the curtain back a little bit. You know, some people want it, but there are other people that don't want it. And I actually got a call funnily enough, which I'll share with you. I don't think I've told? I don't think I've told anybody? Maybe I have? We got a call from a former CIA guy. And he said, hey, I just want to let you know that your film is making the rounds at the Pentagon and I said, wow! And he said, yes, some are bracing for the impact. I said, what do you mean? He said, well, some people, you know, are happy about it, but some people are not happy about it. Because, it's going to, you know, inform the public, and they're going to be, you know, having to answer some questions. That was kind of, that's kind of neat to know that, you know, that what we're doing is having is having an impact. And, you know, it's hard to – it's harder for the government – when I say the government, I don't even know who they are at this point. To give these ridiculous explanations of swamp gas, or weather balloon,

3 I believe Biden will be given same briefing as Trump. How will he handle it? No idea. The climate related to UFOs is totally different now than it was when Biden was in Senate or VP. So the fact that he didn't do anything about it during his time in office doesn't mean much.

As we enter this new phase, inevitable changes will come with it, including a change in personnel.

We are incredibly grateful for the founding team members who helped establish TTSA, including COO Steve Justice, Director of Special Programs Luis Elizondo and Advisor Chris Mellon, who are moving on to focus on other endeavors, as TTSA continues to develop the new chapter in its evolution.

"Between the end of Project Blue Book in 1970 and the launch of TTSA in 2017 there was no discernible progress on the UAP issue," said Chris Mellon. "However, in short order we succeeded in getting the issue on the front page of the *New York Times*, we facilitated official inquiries by Congress, and DoD was ultimately compelled to acknowledge the reality of the UAP phenomenon. Consequently, the entire conversation has changed. Now an official DoD investigation is underway and Congress has asked for a thorough unclassified report. We succeeded in my view primarily by enabling courageous military officers and enlisted men to have their voices heard in high places. I'm proud to have been a part of this success and I remain committed to doing whatever I can to help solve the UAP enigma in the months and years ahead."

"This change does not alter the relationship TTSA and I have established or our collective dedication to the mission," said Luis Elizondo. "We will continue to collaborate and strengthen our partnerships as we face new priorities and opportunities in the wake of COVID-19."

TTSA thanks Steve, Luis and Chris for their meaningful contribution to the establishment of TTSA and an extraordinary three years. We wish them all the best in their future undertakings.

Please stay tuned for updates as TTSA remains steadfast to its mission and shifts gears towards a successful future.

@steven_dor @AnnaWhitty2 Iâ□□m very skeptical that itâ□□s all being caused by disc disease. This is same vet that told us his limping a few years ago was arthritis. But it was a torn ACL or MCL. Our homeopathic vet helped us avoid 2 surgeries (it happened 2 both knees) & he was good as new in a few months!

Traditional vet said itâ□□s the discs.

@ToddRaymondL @Go_Kick_Rocks88 @anonymoushadoww According to Lue, they "tried to get his clearance taken away" after Lue refused to meet with Reid on the way out the door and after Reid found out he (Reid) was kept out of the loop on AATIP. AFOSI cleared Lue. He didn't take any videos. You're losing more credibility each day.

@Go_Kick_Rocks88 @mrjeffknox @1911Moose @Tomfortas It's not about something coming back, "ET"? It's more about what the Army can do with it.

And I already shared my thoughts on this when the CRADA deal was signed. Here's a hint: I wasn't happy. I didn't want it to go down like that. But lack of funds left TTSA with few options.

And so many people still lap it up.

Art Bell had to have known about the work of @UfoWatchdog but he didn't care. The listeners loved it. Ratings. I asked Reed a tough question at a MUFON mtg. in Florida and the crowd yelled at me to sit down. #ufo https://twitter.com/gravitywalker_/status/1559383477337866240

@MikeColangelo @UfoWatchdog I really couldn't care less about his backgrounds. Giving Reed a platform (read the article I shared) and getting 1000 live viewers when many of us struggle to get over a few thousand views total is really pathetic. Enter-fucking-tainment.

bad video & pictures. Claimed to be hiding from evil government agents"

2. The photographs, which were received on 10 Sept, are alleged to have been taken near the A9 road at Clavine, north of Pitlochrie on the evening of 4 August. They show a large stationary, diamond-shaped object past which, it appears, a small jet aircraft is flying. The negatives have been considered by the relevant staffs who have established that the jet aircraft is a Harrier (and also identified a barely visible second aircraft, again probably a Harrier) but have reached no definite conclusion regarding the large object. It has also been confirmed that there is no record of Harriers operating in the area at the time at which the photographs are alleged to have been taken. The negatives have now been returned to the Scottish Daily Record.

3. In consultation with DDPR(RAF) it has been agreed that the attached lines to take should be used in responding to the Scottish Daily Record. These are consistent with the position adopted in the replies to the many public and occasional parliamentary enquiries on the subject of UFOs.

PHOTOGRAPHS OF AN UNIDENTIFIED FLYING OBJECT - SCOTTISH DAILY RECORD

1. US of S(AF) may wish to be aware that the Scottish Daily Record may run a story regarding an alleged sighting of a UFO near Pitlochrie in early August. Such stories are not normally drawn to the attention of Ministers and the MoD press office invariably responds to questions along well-established lines emphasising our limited interest in the UFO phenomenon and explaining that we therefore do not have the resources to undertake any in-depth investigations into particular sightings. On this occasion however, the MoD has been provided with six photographic negatives of an alleged UFO by the Scottish Daily Record and has been asked for comments almost certainly for inclusion in a forthcoming story. For this reason it is felt that US of S(AF) should be made aware of the background and the line adopted by the DDPR(RAF) in responding to the newspaper.

An example of how NOT to promote something. Hype City.

Unless, of course, we get 2 hear from someone who worked in a Legacy #UFO program (preferably, the crash retrieval program), & they are NOT anonymous. THAT would shake things up. Anonymous would b interesting but not enough.

8 On W/D? If W/D is legit (it is), does anybody think ED would be stupid enough to discuss it in the open like that? Come on, folks! Bob was making a lot of assumptions there & I can tell u those assumptions were wrong. That's NOT what the group was discussing. But ED WAS upset.

The insinuation: ED was pissed JA denied CRs were legit & pissed JA put him on the W/D spot. On the first point? No.

Hi Joe,

First, I do occasionally communicate with Jon Davies as he often sends me interesting links and I sometimes comment on them, though "every day" would be an exaggeration.

I am encouraged by the legislative language & action, but we'll have to wait & see if the usual bureaucracy gets in the way. Fingers crossed.

Overall, I think the interview with Eric Weinstein was a plus despite the "condescension."

Meanwhile, attached is a new publication of mine.

Best regards,
Hal

1. This communication confirms the request of Major Clarke E. Johnston, AO 4ZPHV2, Intelligence Officer, 345th Bombardment Wing, Langley AFB, Va., to assemble data in accordance with paragraph 7d, AFR 200-2, dated 12 August 1954; because, Johnson did not have any other method of securing the data.

2. Synopsis: [redacted] all residing in Abingdon, Virginia, advised they cited a glowing object high in the sky above Abingdon on 6 November 1957. Object appeared somewhat differently to each viewer. All advised object observed for approximately five (5) minutes and traveled in a northwest direction.

3. Details: Special Agent W. D. Stone, Hq Region 6, CIC, U. S. Army, Richmond, Va., informed Special Agent Clifford C. Marz, Commander, Detachment 2102, 21st District OSI, Richmond, Va. that Special Agent William K. Little, CIC in Abingdon, Va., was informed by [redacted] Clerk Circuit Court, Abingdon, Va. that he [redacted] had observed at 1730 hours, 6 November 1957, an unidentified flying object traveling northeast of Abingdon at a speed less than that of a commercial airliner; shaped like a projectile; orange to red in color. This information was relayed to Marz 7 November 1957 and in turn relayed by him to this Headquarters and reported to Major Johnson, Intelligence Officer, 345th Bombardment Wing, Langley AFB, on 9 November 1957, at which time Major Johnson stated that he did not have any method or personnel with which to assemble additional data concerning the unidentified flying object. Major Johnson requested that this organization assemble the data as required by paragraph 7, AFR 200-2.

@GeologicalSETI @OSIRIS_UAP @dave_beaty @mrjeffknox Thing that stands out is when someone like @lesliekean sits with a medium like Stewart Alexander and says a human hand forms right in front of her face. I think that's a bit more than psi. But who knows? We have no idea how any of this works.

My first ex-wife is natural psychic.

https://twitter.com/_/status/1573112871340457984
@GeologicalSETI @OSIRIS_UAP @dave_beaty @mrjeffknox I've had psychics insist on contact. Hold my hand and such. Not needed, but if it works for the psychic, go for it.

https://twitter.com/_/status/1573112689311752194
@GeologicalSETI @OSIRIS_UAP @dave_beaty @mrjeffknox Nobody knows how any of that works, It may be the same exact ability/source between mediums, psychics and remove viewers. In fact, I'm confident psychics are using psi, just like RVers. But don't know for sure, of course.

@dave_beaty @mrjeffknox @OSIRIS_UAP With Saddam, u want to know: State of Mind, any plans to invade x, y or z in the near future? They could target RVers on that.

Alleged example of RVing providing a location: Lyn Buchanan said he wrote down Raisin during a session trying to locate a hostage. They were in Rasan.:man_shrugging_light_skin_tone:

@dave_beaty @mrjeffknox @OSIRIS_UAP They DID it on human targets like Saddam. Or, when a person was missing, like a hostage: What's their current health & where r they? Dowsing would be used 2 help narrow location bc RV usually just describes the area. Can be very generic. Desert. :face_with_steam_from_nose:Sometimes, a word will pop up.

@dave_beaty Yeah, it's not really used 4 that. I guess it can be attempted but I've never heard of it quite like that. If Lue did a reading, on the spot, for McGowan, it wasn't RVing. As u know, RVing protocol means ur almost always blind to the target. SOMETIMES, there can be front loading.

If @tomdelonge decided to use investor $$$ to make a movie, so what? TTSA/TTS has always had an entertainment component. @vikingjedi23 I can't rule out some black program. However, if it really went from 80,000 feet, down to the deck in .78 seconds, and that was accurate and not spoofing, then I have no doubt it's a true unknown.

@Go_Kick_Rocks88 OK, let's go back.

Cambian is uninformed on W/D.

Greer's not responsible for the start of W/D notes. That would be Miller in 1995.

From what I learned, Greer's claim that NRO is what spurred Wilson to go look for CR is 100% wrong. Greenewald can say it 1000 x. Still not true.

@THP_22_22 @ToddRaymondL @FournierAiraud Yep. In 2006, according to Dolan, over the phone, Wilson told him his (Wilson's) memory was foggy when Dolan asked about meeting with Greer & Mitchell in 1997. He then admitted it.

This is Wilson/Davis 101. http://pbs.twimg.com/media/FZkGoi9UsAICxd4.jpg

As much as I believed the story to be true, there was no evidence to back it up. And if anybody could track him down, what would Wilson have to say about it? In October of 2006, not long after Greer's book came out, researcher Richard Dolan did just that. He picked up the phone, called him, and later made a post about it on the UFO Updates list.

At first, Dolan wrote, their conversation was cordial. When he asked Wilson about the alleged meeting in 1997 with Drs. Mitchell and Greer and if they discussed the subject of UFOs, Wilson claimed a foggy memory. But the fog quickly lifted once Dolan mentioned that Mitchell, the highly respected astronaut, had confirmed the meeting had indeed taken place. Wilson immediately changed his tune and said he "vaguely" recalled it. He perked up when Dolan told him about the mention in Greer's book and asked Dolan to read him the relevant passage. Dolan obliged.

> "At this point, Admiral Wilson's voice changed noticeably. Whereas he had been relaxed and low key when we started, his voice became high pitched. He seemed to be rather annoyed, maybe angry. He told me that, yes, he had met with Greer and Mitchell. That he only did so because he was 'curious' why someone of Dr. Mitchell's stature would be pursuing this matter. 'Everything else' Greer wrote about the meeting (whatever that means) was 'poppycock.' Wilson then told me he needed to go to a meeting and ended the conversation."

Current data isn't relevant bc when Bartel & others arrived on SWR, why would they be warned about injuries (Tom W., Taylor and others) that hadn't taken place yet? U see now? We're specifically talking about if Bartel & others should've been warned back then.

Point by @ChrisBartelSWR was: Why weren't we warned SWR may be dangerous? And I asked: What injuries occurred during NIDS years & b4 AAWSAP that would show reason 2B concerned?

@buffcommacu tweeted about bloody noses & headaches. Is that it?

FYI. If u read W/D notes, you'll see Wilson mentions Greer's NRO doc - ZERO times

Briefing was offered starting in 1995 w/Miller's letter to Wilson.

Greer claims NRO doc was a big part of the festivities. I later (after Mega-Blog) learned it played zero role in Wilson's search https://twitter.com/1911Moose/status/1555666932396969986

#ufo - U know what's funny? Some are finally realizing the Wilson/Davis notes are real & they're switching their argument to: Davis leaked classified information & shared the notes with other people!

Maybe u should direct ur ire 2 the folks who lied to us for decades about this.

@1911Moose @MrLawBro He may have made a decision that the program had no oversight and was possibly illegal and the info. was too important for the world to keep it to himself and Wilson. Speculation.

@1911Moose @MrLawBro OK. I don't know legalities of ED taking notes when TW (who was not read in) shared info. like that & ED (not read in & didn't have a clearance) then shared. Wilson knew what ED was going to do w/notes & didn't have a problem. If Davis faced any repercussions, he's fine now.

Allegedly. Wish we had a recording or transcript. You know anyone who does transcripts?

Do I believe Dolan shared an accurate representation of that phone call with Wilson? Yes, 100%. #ufo #wilsonmemo

https://twitter.com/THP_22_22/status/1555257458746163205
http://pbs.twimg.com/media/FZVl-Y-UUAALPDV.jpg

As much as I believed the story to be true, there was no evidence to back it up. And if anybody could track him down, what would Wilson have to say about it? In October of 2006, not long after Greer's book came out, researcher Richard Dolan did just that. He picked up the phone, called him, and later made a post about it on the UFO Updates list.

At first, Dolan wrote, their conversation was cordial. When he asked Wilson about the alleged meeting in 1997 with Drs. Mitchell and Greer and if they discussed the subject of UFOs, Wilson claimed a foggy memory. But the fog quickly lifted once Dolan mentioned that Mitchell, the highly respected astronaut, had confirmed the meeting had indeed taken place. Wilson immediately changed his tune and said he "vaguely" recalled it. He perked up when Dolan told him about the mention in Greer's book and asked Dolan to read him the relevant passage. Dolan obliged.

> "At this point, Admiral Wilson's voice changed noticeably. Whereas he had been relaxed and low key when we started, his voice became high pitched. He seemed to be rather annoyed, maybe angry. He told me that, yes, he had met with Greer and Mitchell. That he only did so because he was 'curious' why someone of Dr. Mitchell's stature would be pursuing this matter. 'Everything else' Greer wrote about the meeting (whatever that means) was 'poppycock.' Wilson then told me he needed to go to a meeting and ended the conversation."

Eric Davis & Nolan are VERY good friends. The FACT that Nolan briefed Gallagher on the W/D notes should tell everybody with an open mind that the notes are real. The legitimacy of a #UFO crash retrieval & reverse engineering program is a another issue.

ED didn't run back to NIDS. I believe he gave copy 2 Edgar M. (bc EM was part of 1997 Wilson briefing) & Puthoff (who ED was very close with). I don't believe Bigelow received a copy right away. Yes, ED was on his own in Oct 02 after he was laid off by NIDS earlier that year #ufo

A theory Nolan didn't (understandably) bring up that he mentioned on another show? Maybe one reason it's kept secret is bc the truth is so scary & features "them" farming us. A cow gives us milk/meat. Maybe we give "them" DNA, sperm, ova, etc. Masses not ready. #ufo

that says the same about the objects: Unidentified.

8) If R goes public & we can verify he is who he says he is, he won't get dragged thru the mud bc, AFAIK, unlike Moran Lerner, R didn't use 4 accounts to engage in what I feel was manipulation, for an undetermined reason.

7) If somebody told J that R gave them access (or told them where to look) to unclassified reports, that's something I think R would want to know. J just tweeted that. I agree. I'm glad R and this other person were willing to share w/us. On 2019 events, I have similar info.

3) That's not slander. Not even close. Especially since he's anonymous. But even if he wasn't, she shared a story she was (allegedly) told, & no apology needed

NASA gives PIs 18 months where data is sequestered so they can scrutinize and be meticulous about some damn speck of dust up a comets tail. We are dang near showing our data real time and this is a crazy wild illogical ensemble of indistinguishable seemingly uncorrelated phenomena. We aren't ready to publish because we have a lot of work to do still. Just...OMG at the debunkery

Pseudo science? We have brought more scientific equipment, SMEs, and collected more data than ever before due to the availability of modern technology.

Myself and the team are working our butts off and at times putting ourselves at risk to dig deeper into the problem. The biggest thing we've seemed to unearth this far is a certain element of so-called learned folks who instantly start name calling, debunking, and trying to discredit. I find that almost as interesting of a conspiracy of denial or something more sinister.

Anyway, we fake nothing, y'all see about 1% of filmed material, and I wouldn't be wasting my time for a fiction effort.

ALIENS, DJINN, AND UFOS

THE PHENOMENA OF UNIDENTIFIABLE OBJECTS seen in the sky have been with the human race since the dawn of history. Although most modern "investigators" are more interested in searching for alien spaceships from other star systems, the answer to at least part of the UFO mystery may not be as easy or apparent. The late Dr. J. Allen Hynek, who was considered to be the world's foremost authority on UFOs, once stated, "I would be disappointed if they (UFOs) all turned out to be someone else's spaceships from another planet. I believe the explanation to the total sum of the UFO experience to be more exotic."' Dr. Hynek spoke of visitors originating not from another planet or galaxy, but from a parallel reality. A parallel reality could also be interpreted as another dimension, and to us, this sounded like the home of the djinn.

This is not to say that all or even some UFO reports are not extraterrestrial in origin, but we must consider that a certain percentage of these encounters could be djinn manifestations. The UFO experience is quite inclusive in its material, and it is our opinion that some sightings and close encounters are more phantasmic than solid and physical in nature.

Many of the UFO "saucers" described by witnesses are characterized as being discs of light that change shape and have the ability to pop in and out of vision. Reports about UFOs such as these are more paranormal in nature and are often ignored by investigators because they fail to fit the alien "spaceship" theory.

There are many close encounter UFO cases that involve contact with some type of intelligence that will often identify itself as an extraterrestrial, angelic, or sometimes the devil. It is in experiences like this that we should suspect an interdimensional being that is trying to cover its true identity. Islamic scholars describe the djinn as glowing objects that can change their shape and at times take on a physical form. We have many "UFO" cases in our files that describe encounters like this; for years they were labeled as "High Strangeness."' However, when the idea of the djinn is placed into the equation, these bizarre cases seem to make more sense.

The Voice of Deceit

A Qur'an passage says evil djinn will try to persuade humans by whispering in their ear.' That "whispering voice" in the ear can be also interpreted as a form of telepathy. This phenomenon is common not only in cases involving UFO contactees and other para normal experiences, but also in religious or mystical visions. Priests and other Christian clerics of the late medieval period in Europe believed angels whispered in the ears of men and women with a familiar voice to influence or guide them. It seems obvious these heavenly visitors chose not to appear, but only to speak, so as not to cause panic or fear. However, we must ask ourselves: are angels really the ones communicating with these "special" people, or are they really djinn? It could be argued that because angels and djinn use the same methods, one can't be entirely sure.

Since 1983, Phil has investigated countless UFO sightings and claims of "alien" contact in New York's Hudson River Valley. These are documented in his book Night Siege: The Hudson Valley UFO Sightings. At the time, Phil did not know what to make of the related contact cases-they did not fit into the overall "UFO sighting" picture. They were labeled as "high strangeness" and filed away. After reviewing them twenty years later, it is obvious some of these cases were in fact dimensional rather than extraterrestrial encounters, and may have involved djinn. One must remember that when we speak of

CHAPTER TWELVE

The Evolution of Extraterrestrials

The Evolutionary Synthesis and Estimates of the Prevalence of Intelligence Beyond Earth

Douglas A. Vakoch

Introduction

The notion of extraterrestrial beings as bizarre yet somewhat humanoid life-forms existed well before science-fiction movies became popular. In Christiaan Huygens's *The Celestial Worlds Discover'd, Or, Conjectures Concerning the Inhabitants, Plants and Productions of the Worlds in the Planets*, we can see two poles of thought about life beyond Earth that are reflected in more recent works. That monograph, published posthumously in 1698, depicts possible denizens of other planets as very similar to humans in some respects yet radically distinct from us in others. After explaining why "Planetarians" would be upright beings with hands, feet, and eyes, Huygens claims that their form could still be quite alien:

> Nor does it follow from hence that they must be of the same shape with us. For there is such an infinite possible variety of Figures to be imagined, that both the Oeconomy of the whole Bodies, and every part of them, may be quite distinct and different from ours.[1]

Huygens was neither the first nor the last astronomer to speculate on extraterrestrial morphology. But his position *is* representative of his profession. For many astronomers, the progressive development of life has been seen as an ineluctable occurrence given proper environmental conditions on a planet. And even though Huygens and his scientific heirs did not expect

@Z00KY I comprehended it all, the entire time and had private convos with a few people about it. You don't know what you're talking about. I just needed proof before making an accusation. @bradjohansson21 provided that yesterday.

@MrHustleMCR How was he able 2 do this all day long & still pay bills?

He may have done nice things for people over the years, behind the scenes, but to me, that doesn't excuse deception.

Are there other people in this community who have engaged in deception? Yes. But IMO, this is unique.

3 I haven't even mentioned how we treat each other. As a species, we have issues. But once again, that doesn't mean we sit back & take whatever (if anything) is happening to us. Animals can't stop us from using them but we can at least try to stop whatever is being done to us.

2022-07-26T16:36:52+00:00

https://twitter.com/_/status/1551969815505428481

@VennieKocsis See my last tweet.

Agree. But we can/should still try to stop abductions, if they're occurring as we suspect. Humans can be evil. Aliens, or whatever is here, may not be evil (or maybe they are?) but it doesn't mean we have to accept what they're doing (if anything) to us.

2022-07-26T16:33:45+00:00

https://twitter.com/_/status/1551969027613872129

2 So, if physical abductions r occurring, I support every effort to stop them. But we don't have the moral high ground to say, "How dare they!" bc we don't think twice when we kill or manipulate lower lifeforms on this planet. It's just part of the natural world, the food chain.

https://twitter.com/_/status/1551969026389053440

1 #ufo If humans r physically getting abducted by a higher intelligence, many will say, "We never gave our consent!" That's right. But animals on this planet never gave their consent for us 2 eat them or be irresponsible to the point where we euthanize 900,000 cats & dogs yearly.

@BSquidding @ChrisBartel @g_knapp @joerogan @BrandonFugal Why didn't u bring up AAWSAP/SATP claims on the show about bloodwork & related medical tests? I don't think that is all made up & it is THE most important piece of data. Bigelow not releasing AAWSAP data is total bs. He can redact all names & do his best to comply w/HIPAA regs.

@BSquidding @ChrisBartel @g_knapp @joerogan @ChrisBartelSWR Were u not aware of that major detail Rather? If not, why not? U talk dinobeaver all the time on show. The fact that it was Kelleher & Witt and not a security guard who was supposedly embellishing stories to keep AAWSAP going is an important point. Have u ever pointed that out?

Major detail.

https://twitter.com/_/status/1550536379372691458

@BSquidding @ChrisBartel @g_knapp @joerogan Give me specific quotes between both.

There's no evidence (except bull incident) for the hard-to-believe claims from NIDS days except anecdotes. But w/AAWSAP, they had MDs who could do bloodwork & such & see if the person making the claim was affected. Really no contradiction.

I wish this was a true docu-series (w/o the standard reaction shots & music) with no time limit on how long they can cover a certain, alleged anomaly. More after I watch it all.

(I shot for a few docu-series & it's not ez)

#ufo - 24-tweet thread that I'm retweeting with Tweet 10. An example of Will Miller's letter (included in the W/D memo) to Eric Davis where he told Davis and Puthoff what he could offer them. Assuming the ARVs are legit, is that what Lazar saw? IF, Lazar is telling the truth.

@MikeColangelo @PostDisclosure @Condorman6 Possible we have a CR program, can't figure out how to get that craft (or multiple craft) to work, but then also have another program that was able to reverse engineer some other anomalous craft and crack gravity? We can't match Tic Tac but can do some amazing things. Maybe?

1 #ufo - Why didn't @LueElizondo, @ChrisKMellon, Justice & TTSA consider the possibility that Fravor, @DietrichVFA41 & others encountered a secret military test?! Or, maybe the X-43A (tested at 43,000-110,000 ft) unclassified test? Well, they did. Check out a young @BryanDBender.

@TheZignal If the information came from a non-human source, you give credit to the human for listening and carrying out the instructions. I wouldnâ□□t say thatâ□□s ingenious.

But credit for the information goes to the original source.

@TheZignal Disagree. :beaming_face_with_smiling_eyes:

But yeah, humans ARE ingenious. But we don't get credit for this IF the info. came from a non-human source. At best, you can say, "Humans are good listeners and decipherers of downloads!"

@Sierra87er We can disagree without saying, "grow up."

And yes, the racist angle has been around for a bit. Didn't agree with it then and don't agree with it now.

I'm not sure NHI is unlikely. We can't calculate those odds until we know more about the Universe and the world we live in. What goes on in the part of the electromagnetic spectrum

that we can't see? What data does "the government" have locked up in SAPs? X-43A? No way.

@fin365 @MikeColangelo I see that with a lot of the pseudo-skeptics but with others (who realize some of what we're dealing with is anomalous), I don't understand why they're open to theories that don't fit the evidence. I'm a bit baffled.

@fin365 @MikeColangelo I get the frustration of not knowing but at least suggest a theory that fits what was reported. I know there's a discrepancy on how long Fravor & Dietrich had eyes on it, but whatever it was, took off like a bullet out of a gun, after darting around like a ping ping ball.

#ufo IMO, even if all data were released, we're still not gonna solve it. Either black tech or UAP. New people are putting forth theories (X-43A or hypersonic missile test) that don't match what eyewitnesses (like @DietrichVFA41) reported, at all, & they get basic details wrong.

Back in 2018, on Twitter, we discussed the X43/Scramjet test & most of us quickly realized it doesn't come close to what @DietrichVFA41 & the others reported. And from what I remember, it was a fair distance away from the Tic Tac encounter.

From my source, which I included in my W/D Mega-Blog...

How are these programs hidden and why don't more USG folks know about them?

http://pbs.twimg.com/media/FXobsecVEAkuvUR.png

“Various people within the United States government, in positions of oversight and who you would think had access to all UAP programs, did not find the UAP crash retrieval program when they looked because they never knew of its existence. I, and others in my circle, have discussed the topic with them of how one cannot find waived-unacknowledged SAPs that operate outside of Section 119 of Title 10. In fact, a DoD office can create a shell company and then transfer funds to it under an unremarkable commercial defense services contract. Then that shell company turns around and gives a subcontract to a third-party aerospace/defense firm that hosts a waived-unacknowledged SAP that operates outside of Sect. 119 of Title 10. This usually hides (making the audit trail terminate at the shell company) the flow of money going to the third party company that’s running a waived-unacknowledged SAP where a UAP crash retrieval program is hidden.

2 I've shared this many times. This is how a USAP is improperly reported, documented & hidden, & thus, lacks proper oversight. I believe the @RepGallagher /@RubenGallego language is designed to purposely NOT protect SAPs like that with the "national security" excuse. #ufo http://pbs.twimg.com/media/FXlOg9VUYAA_ewD.png

“Various people within the United States government, in positions of oversight and who you would think had access to all UAP programs, did not find the UAP crash retrieval program when they looked because they never knew of its existence. I, and others in my circle, have discussed the topic with them of how one cannot find waived-unacknowledged SAPs that operate outside of Section 119 of Title 10. In fact, a DoD office can create a shell company and then transfer funds to it under an unremarkable commercial defense services contract. Then that shell company turns around and gives a subcontract to a third-party aerospace/defense firm that hosts a waived-unacknowledged SAP that operates outside of Sect. 119 of Title 10. This usually hides (making the audit trail terminate at the shell company) the flow of money going to the third party company that’s running a waived-unacknowledged SAP where a UAP crash retrieval program is hidden.

FYI for missile-theorists who think Fravor went against orders & flew below 10K feet & encountered a hypersonic missile test: It was Marine, D. Kurth, who was told to stay above 10K to avoid conflict w/Fravor & Co. who were below @ 500-5000 ft. & about to encounter Tic Tac #ufo https://twitter.com/PacoChierici/status/1547277353142734848

@PacoChierici Yep. That's what I said. Fravor and friends were below Kurth.

Someone who suggested they all saw a hypersonic missile test said Fravor was supposed to stay at 10,000 feet and disobeyed orders. But that's not true. It was Kurth who was told to stay above 10,000. Details matter.

https://twitter.com/_/status/1547274994815709189
5 Just to reiterate: As far as we know, nobody at BAASS (Bigelow & Kelleher, at the time) knew anything about Tic Tac incident when Kurth came in for that interview. And Kurth didn't share it until the latter part of the interview. It was a very important synchronicity.

6 I agree that demanding more transparency is a must. The best way to do that is call your representatives and support local and national politicians/candidates who are in favor of transparency, disclosure, immunity & the truth being shared with the world. It's time. LFG!

5 I'd much rather all of this be done outside of the government but first we need to do everything within our power to get them to release the historical data. There's decades of that stuff. Once that happens, I'd love an AAWSAP-style program funded by us. No more secrecy.

4 Progress is taking place but we still have a very long way to go. The next step is seeing what, if anything, the Senate does with immunity and hoping the language makes it into the 2023 NDAA. If that happens, it's huge! But we'll still have lots of hurdles to overcome.

3 We need 2 support the folks who want some or all of it out, hope they grow in numbers, & overwhelm the Collins Elite & other types who who are doing their best to keep us in the dark. The 3 vids were the beginning, but 4.5 years later, immunity language is already on the table.

2 collected is as good as @LueElizondo claims & as good as what I've been told, we need to figure out how to get that released to the public & I think we're heading in that direction.

Some folks on the inside are 100% against disclosure & transparency. Others, want it all out.

GALLAGHER-GALLEGO UAP NDAA AMENDMENT
CALL SCRIPT AND ADVOCACY GUIDE: MONDAY, JULY 11, 2022

WHAT TO EXPECT:
Your call will likely be answered by an intern or an entry-level Staff Assistant who is there to record your concerns and pass them up the chain to their boss. Typically, they will listen to your concern, tally the number of calls on a specific issue that week, and report to the Representative which issues are gaining traction among their constituents. The staffer should not quiz you or ask follow-up questions, except perhaps to verify that you are a constituent by requesting your zip code. They may ask for your contact information so the Representative can follow-up with a written response a few weeks or months later.

HOW TO CALL YOUR MEMBER OF CONGRESS:
Call the House of Representatives Switchboard at (202) 225-3121 and ask for assistance in being connected to your Member of Congress's office. Alternatively, you can look up your Member of Congress by visiting www.house.gov/representatives/find-your-representative. From there, feel free to use the script below. Keep in mind that the office fields many calls and will politely cut you off after a minute or two. It is best to keep your remarks short and to the point, but feel free to add your own thoughts.

Note: Since Reps. Gallagher and Gallego are proposing this Amendment for the House's version of the NDAA, there is no current need to call your Senators. We will monitor the Senate NDAA language closely and may issue a separate call for that as well. Later, the two versions of the bill will be consolidated/negotiated.

CALL SCRIPT:
Hello, my name is _____ and I'm calling to share my strong support for the Gallagher-Gallego (*GUY-YAY-GO*) NDAA amendment regarding Unidentified Aerial Phenomena reporting procedures. May I share my views with you to pass along to Representative _____?

PAUSE: At this time, the staffer on the line will likely ask if you are a constituent from their district and will verify this by asking your zip code.

As I'm sure you're aware, the Department of Defense recently acknowledged the presence of unexplained incursions into protected U.S. airspace, including around sensitive military installations. According to the Office of the Director of National Intelligence, UAPs represent both a national security concern and a risk to aviation safety. As such, I believe that federal employees and contractors must be provided with appropriate reporting avenues to share information on UAP encounters and programs.

These reporting avenues must be secure, data must be shared with the appropriate UAP offices, and the individuals providing reports must be protected under federal law. As my Representative, I strongly urge your office to support the Gallagher-Gallego (*GUY-YAY-GO*) UAP reporting NDAA amendment. I am following this issue closely and will be voting accordingly. Thank you.

AFTER THE CALL:
1. Record your call at https://bit.ly/gallagheramendment. This will help us to track our advocacy efforts.
2. Keep up the pressure! Put simply, elected officials pay attention to the issues their constituents pay attention to. Encourage a friend to make a call, consider writing an op-ed for your local paper about why this issue matters to you, or follow up via social media channels. A sample Tweet is included below:

Twitter: Just got off the phone with @(Insert Rep's handle) to express my strong support for the @RepGallagher/@RepRubenGallego NDAA #UAP reporting amendment. Secure and protected reporting avenues must be established to share information on UAP incidents and programs. Inaction is not an option!

2 Does anybody really think buying Skinwalker Ranch was a good business move by @BrandonFugal, a very successful real estate developer? I don't get the accusations lobbed at him, his team, the Shermans, NIDS team, Bigelow, AAWSAP folks. Let's figure out what the **** is going on.

Anomalous events have been reported in the basin, not just @ Skinwalker. There r similar spots all over the country (& world) but not enough scientists willing to study it bc of stigma & lack of funding. "Eric Davis can't lie" comment was light-hearted based on ED's personality. https://twitter.com/solarbreeze69/status/1546230204116246529

It depends on if immunity is passed before he speaks. With immunity, in a closed, classified session, he can tell all if it's about UFOs. In an open session, with immunity, IMHO, I think he can share the "sensitive" info. that's not classified that he has not shared before.

https://www.ufojoe.net/graves-transcript http://pbs.twimg.com/media/FXEHCoMVUAA6Zmm.jpg

---

(**Joe's Comment**: If these objects were on radar and FLIR for the ride out there, exactly when did they change altitude? Was any pilot or WSO ever looking at the radar or FLIR as they changed altitude? Did anybody ever see it change altitude, visually? When Graves/his colleagues merged (on radar) with an object but couldn't see it visually, could they still see it on their radar *and* FLIR? He says they'd almost never see them. I assume he means visually? I'd like him to define "almost never." And if some of his colleagues *did* see them visually, at a close range, what did they look like and what kind of maneuvers were they making? This is extremely important because right now, I'm giving consideration to the electronic warfare/radar spoofing theory as one *possible* explanation for *some* of these sightings. Even though I resisted it at first, my mind is open after reading numerous articles on "The Drive: The Warzone" which deal with technology that ***could*** explain ***some*** of these encounters. Or not. I just don't know at this point. Tyler Rogoway, of "The Drive," has tweeted that he's planning on writing an article spelling out what he thinks is going on. I look forward to that because I still don't understand all of this tech talk. But the fact that Graves says these guys weren't able to see these things with their eyes is a bit of a red flag to me. On the other side (as you'll see at the very end of this transcript), there supposedly exists evidence that, as far I know, cannot be explained by radar spoofing.)

14 ISS has to be at same level as the horizon. Now, by calculating the angle traversed by the object from point A to B a conclusion can be reached.

[End]

Nobody has a link to the original so we don't know if the video was manipulated. Get the original and go from there.

https://twitter.com/_/status/1544847923082452993

13 Also, the UFO might be travelling much closer or further!

Have a good day.

Note: There may be another way of calculating the distance from ISS to the tangent point on the horizon. Remember the sun is almost setting.

2022-07-07T00:57:01+00:00

https://twitter.com/_/status/1544847921828401152

12 Here are the figures:

Total distance travelled= approx. 470miles

Time taken to travel from 01:21 to 01:38= approx. 17sec

SPEED= 99,504 miles/h = 129mach

I'm not a physicist or a mathematician! These are just my own calculations. I MAY BE WRONG (Joe's emphasis).

https://twitter.com/_/status/1544847920889233408
11 By overlapping the globe map (to scale) on the video I was able to plot two coordinates at two specified points on the horizon (from 01:21 to 01:38). Using these coordinates I calculated the distance using the Haversine formula.

10 know how close the object is 2 the camera.

2) The speed of ISS is not taken into consideration as it is moving @ right angle 2 the object.

3) The sun is almost setting on ISS. So we can safely consider that the sun & ISS are at the same level on opposite sides of the horizon

@EricRWeinstein There are more details to the death dreams I just shared, plus other stories, but they're the ones that stand out. My ex-wife once woke up & told me, "OMG, I know somebody just died!" Within an hour or so, the phone call came & she found out her Aunt had died. Only happened once.

@MadScientistPod @SicCoP1 You're confused and mixing DoD programs (like AAWSAP, allegedly shut down by religious folks) with other alleged programs supposedly hidden within the system and that almost nobody in gov't knows about. And Lue and Mellon haven't dismissed these other programs at all. http://pbs.twimg.com/media/FW9LqMNUYAAq20J.png

---

“Various people within the United States government, in positions of oversight and who you would think had access to all UAP programs, did not find the UAP crash retrieval program when they looked because they never knew of its existence. I, and others in my circle, have discussed the topic with them of how one cannot find waived-unacknowledged SAPs that operate outside of Section 119 of Title 10. In fact, a DoD office can create a shell company and then transfer funds to it under an unremarkable commercial defense services contract. Then that shell company turns around and gives a subcontract to a third-party aerospace/defense firm that hosts a waived-unacknowledged SAP that operates outside of Sect. 119 of Title 10. This usually hides (making the audit trail terminate at the shell company) the flow of money going to the third party company that’s running a waived-unacknowledged SAP where a UAP crash retrieval program is hidden.

@vfxfisher @LtTimMcMillan @LuAngeles Bc if you can show their arguments hold no weight, or are biased, they block you. @Duke87242518 @t_witter_org Thanks but I don't need anybody to defend my "bad take." I think my take is fine. We need data that will attract the interest of the masses. This video, whatever it is, won't do that and it won't change a thing.

2 I was always willing to consider that theory by Tyler bc the Cube-In-Sphere appeared to be just standing still as two F/A-18s flew by it on each side.. Maybe it WAS a reflector. His article can be read here.

1 Fantastic read by @MvonRen, w/great info. from @uncertainvector.

Remember when @Aviation_Intel suggested Cube-In-A-Sphere was a radar reflector (Tweet 2), standing still, floating in the air like a balloon? This throws that theory into serious doubt.

@runpicknroll Out pilots can tell us the tech behaved like nothing we have in our inventory. That doesn't mean it was from another world. If it WAS black tech, those pilots most likely wouldn't have been read into that program. With Tic Tac, I lean heavily towards "other," whatever that is.

IMO, the ranch & basin have lots of activity I would deem anomalous. And maybe, some black tech mixed in.

5 Who's going to follow the evidence no matter where it leads? Bigelow & his team were willing to do that. Does Tom have an alternative way that we can study that apparent, troubling connection? Should we bury our heads in the sand, again, like we have for so many years on UFOs?

IMO, in a court of law, w/publicly available evidence, we can convince a jury that an aspect of the #UFO phenomenon is anomalous & not just black tech. I left the middle a long time ago but if u listen to my recent interview w/@ufouapam, you'll see I still leave the door open.

Lesson: Don't assume u know someone based some tweets. I disagree w/Jessica on some things but we both believe an aspect of #UFO mystery is anomalous & that's what we need 2 focus on & try 2 solve. Plus, hitchhiker effect, if real, is VERY problematic.

I need 2 disagree better. https://twitter.com/Go_Kick_Rocks88/status/1542945918546223105

#ufo - Tic Tac - Back in 2017/2018, there were some folks who tried to tell us the Scramjet test in 2004 was what Fravor and the others saw .This is worse than the hypersonic missile theory. Watch the video and you'll see why.

After looking @ all publicly-available information, I'm glad more folks have formed the opinion that Eric Davis interviewed Wilson in October of 2002. Others still can't quite grasp that. @RepGallagher isn't done with Wilson/Davis & the real story: What #UFO-related WUSAPs exist? https://twitter.com/moranlerner/status/1526587957754339328

I was told Moran is really smart. U can judge that claim by his comment below on Davis. Jim Church has said similar ("Davis is a bs artist") about Davis & everybody knows how I feel about JC.

Others familiar w/Moran's background before he created this new account can educate us.

USAFE 14 TT 1524 TOP SECRET 4 Nov 1948

From OI OB

For some time we have been concerned by the recurring reports on flying saucers. They periodically continue to cop up; during the last week, one was observed hovering over Neubiberg Air Base for about thirty minutes. They have been reported by so many sources and from such a variety of places that we are convinced that they cannot be disregarded and must be explained on some basis which is perhaps slightly beyond the scope of our present intelligence thinking.

When officers of this Directorate recently visited the Swedish Air Intelligence Service. This question was put to the Swedes. Their answer was that some reliable and fully technically qualified people have reached the conclusion that "these phenomena are obviously the result of a high technical skill which cannot be credited to any presently known culture on earth." They are therefore assuming that these objects originate from some previously unknown or unidentified technology, possibly outside the earth.

One of these objects was observed by a Swedish technical expert near his home on the edge of a lake. The object crashed or landed in the lake and he carefully noted its azimuth from his point of observation. Swedish intelligence was sufficiently confident in his observation that a naval salvage team was sent to the lake. Operations were underway during the visit of USAFE officers. Divers had discovered a previosuly uncharted crater on the floor of the lake. No further information is available, but we have been promised knowledge of the results. In their opinion, the observation was reliable, and they believe that the depression on the floor of the lake, which did not appear on current Hydrographic charts, was in fact caused by a flying saucer.

Although accepting this theory of the origin of these objects poses a whole new group of questions and puts much of our thinking in a changed light, we are inclined not to discredit entirely this somewhat spectacular theory, meantime keeping an open mind on the subject. What are your reactions?

@UAPstudy Why didn't you include any info. or quotes that suggest UFOs aren't all ball lightning? Skeptics have been saying UFOs are ball lightning for a long time. And bc Condon & Robertson suggest that as a possibility tells us nothing as we all know about both panels and their issues.

26 May 52
North Korea

Ground Radar, Air Radar, Air Visual Combined Sightings

1. North Korea - 26 May 1952

An F-94 flying a mission was told by ground radar that there was an unidentified object on its tail. The interceptor aircraft turned into the unknown and locked on with its radar at 7000 yds. and started to close. Both the pilot and the R.O. observed a brilliant white light straight ahead. The unidentified performed a steady climbing

turn and accelerated at a tremendous speed drawing away from the F-94 which now had cut in its after-burner. The pilot was unable to close and the R.O. lost the object at 2600 yds. after 15 seconds of contact.

The airborne radar was checked for malfunction before and after the mission and found to be in perfect condition. No exhaust patterns from the unknown were noticed. Pilot - Lt [redacted], Radar Operator - Lt B[redacted] Experience - 1 year.

Solution: Possible malfunction of airborne radar set.

A ball of light appeared in their home . . . shortly after the flying saucer sighting, it first appeared in the older sister's bedroom, it went down the hall and appeared in my mother and dad's bedroom . . .

—Kim Arnold, daughter of Kenneth Arnold, relating the appearance of a ball of light/orb in the Arnold home shortly after her father's history-making sighting on June 24, 1947[5]

3 "The drone conclusion was reached after the UAP Task Force was done, and before the new UFO program â□□AIMSOGâ□□ even started. So, who did it?

"Dr. Taylor went into much greater detail about why the â□□droneâ□□ scenario falls far short of explaining the 2019 UFO encounters.

I'm not JUST relying on DJ's data. As I said, other researchers have similar. Clarke has cases where she doesn't rely on hypnosis, so how do u explain some of those folks having similar CONSCIOUS memories featuring abductions/pregnancies/hybridization? Have u checked her out?#ufo https://twitter.com/emmawoodsbooks/status/1571695056058449920

2 So, while Jacobs MAY lead his subjects under hypnosis, and receive data heavily focused on hybrids bc of that, the fact that other researchers, including Clarke, get similar data, tells me something is there. What, exactly? I don't know.

This was typical of the James I had come to know. To say he didn't suffer fools gladly would be an understatement. He eviscerated them, took them apart limb by limb with the sword of intellect. I had witnessed this on several occasions. The victims were always worthy opponents, such as other top scholars from universities like Princeton. I felt bad for them because James usually humiliated them beyond the point where he had won the argument, but I also understood his motivation. He and certain members of his extended family were lifelong experiencers. He interacted with the phenomenon on a personal and professional basis. He saw the best and he experienced the worst of it. His dismissal of and scorn toward those who didn't believe was personal. He was also protective of many others he knew who were actively and sometimes brutally victimized for their belief. Critically, his own belief was forged in the crucible of evidence. As much as I was intimidated by James's intelligence and passion, I saw him as a hero. He had the guts and the ability to take on anyone in the world who dismissed the reality of the phenomenon. He fought the good fight, for the right reason: because he believes—or as he would say, because he *knows*.

I'd like to focus on the intelligence behind UFOs & how many, if any, are human tech?

Is this the 23-minute video or something different?

http://pbs.twimg.com/media/FVy8SQFVEAIPXI2.jpg

Early 2014 – My office received a very compelling video in 2011, sent to us on JWICS that was collected by a sensitive U.S. platform operating in a denied area. The video was approximately 18 to 20 minutes in duration and appeared to show three UAPs flying in a distinct triangle formation. After vetting the video through several Intelligence Community experts, I decided to share it with Mr. Tipton in 2014 to see if he was aware of any Blue-Force technology that could explain what was being witnessed on the video. Mr. Tipton's response to me was that the video was "weird and compelling" and that he had no idea what the object was. **(details and specifics as to this information can be provided separately over a secure means)**

There are also times when results are crap. But the 8-martini sessions are enough to show there is a reality to psi. Unless you think it's all made up and it's one big scam. Folks who think that are not ones I spend any time debating with about psi. Waste of time. #Supernatural

Corbell tweets about a position for AOIMSG but Dean turns it into a Corbell/Knapp/Lazar rant. He can't help himself.

As I've pointed out many times, AOIMSG wouldn't necessarily have access to the alleged WUSAPs that deal w/crash retrievals & reverse engineering. So, no fraud.

Drones? That remains to be seen. Either way, they don't know where they took off from, where they landed or who was operating.

We now have Moment of Contact (deliverables) on a drive and ready for a FedEx delivery. Wow, what a ride it’s been...especially the last push! I couldn’t be prouder of all the hard work from Marco Leal and my decades long partner in crime Boris Zubov (many others too). This film will undoubtedly put significant pressure on U.S. Government to explain where the definitive evidence is today. More official announcements and the trailer coming soon.

4 There are folks who think I wouldn't admit to drones if that's what this turns out to be. Anybody who thinks that doesn't know me at all & doesn't know my history on Twitter that

began around 2015 and centered around an alleged rape of a college student by a future NFL star.

3 Do I know what the objects were from July 2019? No, I do not. Last year, I was told they were NOT foreign adversarial & were performing maneuvers we can't replicate with our technology. Is that true? I can only wait to see what other evidence comes out via JC/GK & elsewhere.

2 Ask some of those folks if they've ever tried to reach out, off Twitter, & contact either Knapp or Corbell in an attempt to get some clarification on this.

And BTW, folks who think Knapp has taken a step back on this and is leaving Corbell to fend for himself? You're wrong.

@AdamGoldsack @g_knapp @JeremyCorbell Oh please. I don't need a lecture on considering options and I certainly don't need a comparison to Mick West. Those objects may not turn out to be anomalous but your "Corbell was lied to" option just falls flat on its face and makes zero sense. You must see that, right?

“I think, when you hear the pilots talking, you’re talking about an object that is at 25,000 feet and it is orientating itself at a 90° angle, in 120 knot headwinds. Now, aircraft fly…they are a function of their design. An airplane flies in the atmosphere. It has a nose. It has a tail. It has an engine. And it has a definitive shape because it has to fly in the atmosphere. It has to have a leading edge. It has to have ailerons and all the things you would normally characterize and associate with an aircraft. In this particular case, you have something that has no exhaust, something that has no obvious wing surfaces And something that is orientating itself at a 90° angle without falling out of the sky! It doesn’t lose altitude! And in fact is still doing it moving in a forwarded direction…Now, what makes it even more interesting is when you hear the audio... The individual say there’s an entire fleet of them. I cannot go into detail why that’s important. I hope at some point the details of that will come out but it will not come out from me. It isn’t just one. And if you know the back story behind that incident - you’re just looking at a very short video maybe 30, 35 seconds worth - but there’s an entire story, weeks and weeks and weeks worth that go behind that video. And that is what’s so compelling. And if those details should come out, I think that’s gonna be the ‘A Ha’ moment, the epiphany, so to speak, where people are going to look and say, ‘Holy smokes! That really IS an important video! That’s not just some blurry thing on the screen.’”

RT @THP_22_22: "Russian military officials claim to "summon" UFOs"

http://outtherewithted.com/ufo/articles/russian-military-officials-claim-summon-ufos

http://pbs.twimg.com/media/FU_rGF_XoAYkJQn.png

In the early 1980s, an experiment to "summon" a UFO was staged at a military range in the Astrakhan Region. By then experts had realised that UFOs were frequently sighted in areas of "heightened tension," for instance during weapons tests or when there was a lot of military hardware gathered in one area.

"One could say that during that experiment we learnt how to summon a UFO. To achieve that, there would be a sharp increase in the number of flights performed by combat aircraft and a lot of movement of hardware. Then UFOs appeared with a probability of nearly 100 per cent," Yeremenko said. According to him, most of them looked like luminous spheres.

With time, all the participants in the experiment got so much used to these phenomena that they took them for granted. Some even tried to make contact with those objects. "It looked like this: a person on the ground would wave their arms, twice to the right and twice to the left. The ball in the sky would react to it by swinging twice to the right and then twice to the left. We had no idea how to explain that," Yeremenko continued.

@plain_fiction 2 Davis making it up was never an option bc Greer started telling same story in 2001. Davis wouldn't copy a story Greer put out. Plus, E. Mitchell was telling same story in various media outlets. Why would EM parrot a fictional story? Davis wouldn't hand EM a fake story as real.

1 Me to @plain_fiction after he said The Debrief just had a team meeting on Wilson/Davis, a memo/documents that leaked in 2019:

Me: "Did Tim [McMillan] suggest his preposterous, 'Davis may have been fooled by a Wilson imposter' theory again? Or has he dropped that?"

@buffcommacu #ufo What public interviews has ED given since Nov. of 2019, the date of Greenstreet's interview? None?

Only thing I can think of is NYT in July 2020 where retrievals FROM off-world vehicles & retrievals OF unexplained objects is mentioned. After that, his employer said, no mas.
http://pbs.twimg.com/media/FU5akGsUYAAkUu4.png

Mr. Davis, who now works for Aerospace Corporation, a defense contractor, said he gave a classified briefing to a Defense Department agency as recently as March about retrievals from “off-world vehicles not made on this earth.”

Mr. Davis said he also gave classified briefings on retrievals of unexplained objects to staff members of the Senate Armed Services Committee on Oct. 21, 2019, and to staff members of the Senate Intelligence Committee two days later.

“Various people within the United States government, in positions of oversight and who you would think had access to all UAP programs, did not find the UAP crash retrieval program when they looked because they never knew of its existence. I, and others in my circle, have discussed the topic with them of how one cannot find waived-unacknowledged SAPs that operate outside of Section 119 of Title 10. In fact, a DoD office can create a shell company and then transfer funds to it under an unremarkable commercial defense services contract. Then that shell company turns around and gives a subcontract to a third-party aerospace/defense firm that hosts a waived-unacknowledged SAP that operates outside of Sect. 119 of Title 10. This usually hides (making the audit trail terminate at the shell company) the flow of money going to the third party company that’s running a waived-unacknowledged SAP where a UAP crash retrieval program is hidden.

RT @SAUCERCO: Our statement on the 'Unidentified Aerial Phenomena' and 'UAP' Trademarks.

#UFOtwitter http://pbs.twimg.com/media/FUwMLVKUUAAIxLc.jpg

(1/2) SAUCER'S STATEMENT ON 'UNIDENTIFIED AERIAL PHENOMENA' AND 'UAP' TRADEMARKS:

We are not suing anyone. We are not asking for any monetary compensation from any 'UAP' or 'Unidentified Aerial Phenomena' t-shirts on drop shipping websites.

Our legal team recently reached out to several drop shipping companies and made them aware of our various registered trademarks since counterfeit SAUCER products have emerged in recent months. Our registered trademarks 'UAP' and 'Unidentified Aerial Phenomena' are registered solely for apparel. SAUCER is an apparel company. Since we started, we've focused on apparel and have met many great people as a result.

We understand the frustrations of those who may have been affected; however, we're not looking to sue or take anyone to court. As an apparel company focused on UFO-inspired products, obtaining registrations for 'UAP' and 'Unidentified Aerial Phenomena' was an idea we initiated years ago. According to various drop shipping platforms, several uses of the terms on apparel are considered infringements on our registered trademarks.

He said there were times when they were diverted from these missions to track UFOs off the east coast of Florida. His claim was they UFOs had a landing and takeoff spot in the ocean east of Miami, north of Bermuda. He also claimed there was a specific electronic signature (frequency) emanating from them when they were going into or coming out of the water, so they were easy to track. On several occasions they filmed the UFO as it transitioned from water to air or vice versa. One last item is he was occasionally assigned to fly in a USAF weather aircraft (WC-135) when they had a hurricane hunting mission over the usual UFO area, where his specific assignment was kept secret from the other crew members. He would always report back to a dedicated USAF intelligence officer on base when they returned from a mission. He did not know where the intel that he collected was sent for

The notes written by Eric Davis in October 2002 on his interview/discussion with Vice Admiral Thomas Wilson have been entered into the record of the May 17 Congressional Hearing on UAP by Rep. Michael Gallagher. Neither Mssrs. Moultrie or Bray had any comments to make about the Wilson memo but agreed to review it and the Malmstrom AFB 1967 missile shutdown incidents.

Undoubtedly, these topics will discussed in the next hearing. If the information contained in the Wilson memo is verified by DOD/IC, the following statements of fact should be clarified:

1. There has been a UFO secrets cabal operating in the USGOV.
2. There have been crashed UFOs retrieved
3. 'Alien reproduction vehicles' have been constructed and tested
4. There have been studies of levitation, teleportation and time travel.
