

1  
00:00:01,070 --> 00:00:06,629  
the motion picture you're about to see

2  
00:00:03,779 --> 00:00:09,000  
was filmed by four teams of cameraman

3  
00:00:06,628 --> 00:00:14,609  
and more than 120 locations around the

4  
00:00:09,000 --> 00:00:16,890  
world scientists representing more than

5  
00:00:14,609 --> 00:00:19,500  
40 museums and research centers took

6  
00:00:16,890 --> 00:00:22,170  
part in the explorations there are no

7  
00:00:19,500 --> 00:00:25,109  
actors in the film every location is

8  
00:00:22,170 --> 00:00:28,590  
real the fact that will be presented are

9  
00:00:25,109 --> 00:00:32,750  
true this may be the most startling and

10  
00:00:28,589 --> 00:00:32,750  
controversial film you will ever see

11  
00:01:39,670 --> 00:01:47,320  
they have been to earth and left their

12  
00:01:42,799 --> 00:01:47,319  
mark in many ways in many places

13  
00:01:52,900 --> 00:01:59,469  
figures edged on the plane of Nazca tell

14  
00:01:56,750 --> 00:02:02,920  
a story of explorers from outer space

15  
00:01:59,469 --> 00:02:07,368  
the secret of the story has been learned

16  
00:02:02,920 --> 00:02:09,649  
the visitors have been here they have

17  
00:02:07,368 --> 00:02:12,020  
been described in many ways by many men

18  
00:02:09,649 --> 00:02:14,870  
from primitive drawings to detailed

19  
00:02:12,020 --> 00:02:20,209  
history since the beginning of man's day

20  
00:02:14,870 --> 00:02:22,519  
on earth until this day in the andean

21  
00:02:20,209 --> 00:02:25,099  
mountains of South America on the

22  
00:02:22,519 --> 00:02:28,700  
deserts of Egypt in the temples of India

23  
00:02:25,099 --> 00:02:41,539  
an island in the Caribbean the evidence

24  
00:02:28,699 --> 00:02:45,199  
is clear the record of visit States back

25  
00:02:41,539 --> 00:02:48,818  
more than 500 centuries the observations

26  
00:02:45,199 --> 00:02:48,818  
of the planet continue even today

27  
00:02:55,180 --> 00:02:59,180  
monuments to the visitors that were

28  
00:02:57,169 --> 00:03:02,059  
created thousands of years ago have been

29

00:02:59,180 --> 00:03:05,290  
fun they are tributes to the gifts

30  
00:03:02,060 --> 00:03:05,289  
brought from over space

31  
00:03:28,009 --> 00:03:33,689  
what has been unexplainable can now be

32  
00:03:31,019 --> 00:03:35,640  
explained the brief glimpses of visitors

33  
00:03:33,689 --> 00:03:47,729  
provide a clue to their purpose in the

34  
00:03:35,639 --> 00:03:49,919  
reason for their coming every law of

35  
00:03:47,729 --> 00:03:54,359  
probability proves that other life

36  
00:03:49,919 --> 00:03:56,399  
exists in the universe it is now

37  
00:03:54,360 --> 00:03:58,260  
possible to understand how life could

38  
00:03:56,400 --> 00:04:01,140  
have been transported of Earth from some

39  
00:03:58,259 --> 00:04:03,359  
distant planet it is now possible to

40  
00:04:01,139 --> 00:04:05,479  
understand how we are connected to outer

41  
00:04:03,360 --> 00:04:05,480  
space

42  
00:04:31,240 --> 00:04:41,319  
a remarkable profit the etched in stone

43  
00:04:38,639 --> 00:04:44,310

predicts the year and the day on which

44

00:04:41,319 --> 00:04:47,379

the visitors will return to stay

45

00:04:44,310 --> 00:04:49,949

will we be prepared for the moment that

46

00:04:47,379 --> 00:04:49,949

is soon to come

47

00:05:04,350 --> 00:05:09,450

to travel successfully in deep space man

48

00:05:07,829 --> 00:05:13,639

would have to hold the secret of his

49

00:05:09,449 --> 00:05:13,639

most precious dream immortality

50

00:05:14,579 --> 00:05:19,599

distances are so fast that the spark of

51

00:05:17,259 --> 00:05:21,849

life must burn for eons to assure the

52

00:05:19,600 --> 00:05:24,689

successful transport of life from one

53

00:05:21,850 --> 00:05:24,689

galaxy to another

54

00:05:27,139 --> 00:05:32,569

in ancient crypts it is possible to find

55

00:05:30,269 --> 00:05:35,430

suggestions that the secret was known

56

00:05:32,569 --> 00:05:38,449

that a process of sustaining life was

57

00:05:35,430 --> 00:05:38,449

what's available on earth

58  
00:05:40,379 --> 00:05:45,519  
x-rays of mummies thousands of years old

59  
00:05:43,199 --> 00:05:48,519  
indicate that they were encased at very

60  
00:05:45,519 --> 00:05:51,000  
young ages most were no more than twenty

61  
00:05:48,519 --> 00:05:51,000  
years old

62  
00:05:53,920 --> 00:05:59,060  
strangely the hand of one mummy still

63  
00:05:56,870 --> 00:06:01,670  
shows the traces of a fire that burns

64  
00:05:59,060 --> 00:06:04,389  
brightly in all living things the

65  
00:06:01,670 --> 00:06:04,390  
Kirlian aura

66  
00:06:19,709 --> 00:06:25,000  
you were witnessing the strange as yet

67  
00:06:22,629 --> 00:06:27,729  
unexplained event called the Karelian

68  
00:06:25,000 --> 00:06:28,569  
effect its presence has been suspected

69  
00:06:27,728 --> 00:06:31,089  
for years

70  
00:06:28,569 --> 00:06:33,629  
only recently could the living spark be

71  
00:06:31,089 --> 00:06:33,628  
photographed

72  
00:06:41,430 --> 00:06:46,509  
fingertips and all living things

73  
00:06:43,680 --> 00:06:48,939  
generated dynamic constantly changing

74  
00:06:46,509 --> 00:06:51,849  
hora that sometimes sparks and leaps

75  
00:06:48,939 --> 00:06:58,660  
like a flame how it works is something

76  
00:06:51,850 --> 00:07:01,390  
we simply do not know at UCLA dr. Thelma

77  
00:06:58,660 --> 00:07:04,780  
Mars explores the strange world cruelly

78  
00:07:01,389 --> 00:07:06,039  
in photography let's say that there are

79  
00:07:04,779 --> 00:07:08,409  
about six different words that we can

80  
00:07:06,040 --> 00:07:10,090  
describe for this effect depending on

81  
00:07:08,410 --> 00:07:12,010  
who you are if you are a conventional

82  
00:07:10,089 --> 00:07:14,560  
physicist you will call it a Corona

83  
00:07:12,009 --> 00:07:17,349  
discharge and that means it's an

84  
00:07:14,560 --> 00:07:19,240  
electrical emanation caused by the

85  
00:07:17,350 --> 00:07:23,590  
current and the voltage going through

86

00:07:19,240 --> 00:07:25,660  
the object recently at the bottom of the

87  
00:07:23,589 --> 00:07:27,969  
earth an international team of

88  
00:07:25,660 --> 00:07:29,470  
scientists plunged their drills deep

89  
00:07:27,970 --> 00:07:30,910  
beneath the surface of the Antarctic

90  
00:07:29,470 --> 00:07:33,730  
continent

91  
00:07:30,910 --> 00:07:36,810  
the goal was to probe the geologic

92  
00:07:33,730 --> 00:07:36,810  
history of Antarctica

93  
00:07:41,430 --> 00:07:47,110  
420 feet beneath the surface of McMurdo

94  
00:07:44,470 --> 00:07:50,069  
Station dr. Roy Cameron touched

95  
00:07:47,110 --> 00:07:50,069  
immortality

96  
00:07:52,790 --> 00:07:57,470  
in a pinch of Earth from the Antarctic

97  
00:07:54,740 --> 00:07:59,960  
depths dr. cameron has found what is

98  
00:07:57,470 --> 00:08:03,520  
unquestionably the oldest living thing

99  
00:07:59,959 --> 00:08:03,519  
everyone habbit the earth

100  
00:08:14,300 --> 00:08:19,829

after spending millennia freeze-dried in

101

00:08:17,519 --> 00:08:22,289

the cooled rocks of Antarctica the

102

00:08:19,829 --> 00:08:25,370

colony of bacteria reawakened in the

103

00:08:22,290 --> 00:08:25,370

warmth of the laboratory

104

00:08:28,389 --> 00:08:33,299

the rocks from which they have come may

105

00:08:30,788 --> 00:08:36,278

be as much as 1 million years old

106

00:08:33,299 --> 00:08:38,769

the ancient bacteria never before seen

107

00:08:36,278 --> 00:08:41,740

by men are once again growing and

108

00:08:38,769 --> 00:08:43,649

reproducing a million years after they

109

00:08:41,740 --> 00:08:47,639

first came into existence

110

00:08:43,649 --> 00:08:47,639

immortality is possible

111

00:08:50,519 --> 00:08:55,090

immortality or something resembling it

112

00:08:52,750 --> 00:08:57,279

it's necessary when we consider the vast

113

00:08:55,090 --> 00:09:01,620

distances of space that must be crossed

114

00:08:57,279 --> 00:09:01,620

to plant life elsewhere in the cosmos

115  
00:09:03,820 --> 00:09:10,040  
somewhere in space there is life but

116  
00:09:06,950 --> 00:09:12,500  
we're a man counting a number every

117  
00:09:10,039 --> 00:09:14,389  
second of every working day would need a

118  
00:09:12,500 --> 00:09:17,328  
lifetime merely to reach the number one

119  
00:09:14,389 --> 00:09:19,278  
billion a figure which falls 100 times

120  
00:09:17,328 --> 00:09:21,819  
short of the number of stars in our

121  
00:09:19,278 --> 00:09:21,820  
galaxy alone

122  
00:09:23,470 --> 00:09:28,649  
somewhere in space there is a solar

123  
00:09:25,960 --> 00:09:30,970  
system like ours where life exists

124  
00:09:28,649 --> 00:09:33,519  
perhaps it is in the constellation

125  
00:09:30,970 --> 00:09:37,379  
epsilon bubble days where his son is

126  
00:09:33,519 --> 00:09:37,379  
dying burning itself out

127  
00:09:38,940 --> 00:09:44,260  
eons ago the dying Sun would have

128  
00:09:42,190 --> 00:09:46,960  
threatened all life on the second planet

129  
00:09:44,259 --> 00:09:48,759  
of the solar system some scientists

130  
00:09:46,960 --> 00:09:49,389  
believe that a space probe was sent from

131  
00:09:48,759 --> 00:09:52,240  
that planet

132  
00:09:49,389 --> 00:10:06,309  
20 earth they believe the probe sent

133  
00:09:52,240 --> 00:10:08,620  
these signals in 1927 Duncan Lunan of

134  
00:10:06,309 --> 00:10:10,509  
the British interplanetary society has

135  
00:10:08,620 --> 00:10:13,029  
interpreted the signals as a message

136  
00:10:10,509 --> 00:10:16,450  
from the space probe a message from a

137  
00:10:13,029 --> 00:10:21,629  
dying planet in epsilon booties duncan

138  
00:10:16,450 --> 00:10:24,340  
luden what occurred to me was that the

139  
00:10:21,629 --> 00:10:25,990  
Stars the Stars was based at random in

140  
00:10:24,340 --> 00:10:29,200  
the sky therefore the coordinates of a

141  
00:10:25,990 --> 00:10:31,539  
star map expressed numerically would be

142  
00:10:29,200 --> 00:10:35,800  
a random series of numbers there are

143

00:10:31,539 --> 00:10:38,469  
seven dots in Netanya and there are six

144  
00:10:35,799 --> 00:10:39,609  
dots on the right hand side here and

145  
00:10:38,470 --> 00:10:41,800  
they have quite a marked resemblance

146  
00:10:39,610 --> 00:10:43,899  
very much indeed to the the

147  
00:10:41,799 --> 00:10:48,789  
constellation figure of 40 is the

148  
00:10:43,899 --> 00:10:53,079  
helmsman these sharp lines of intense

149  
00:10:48,789 --> 00:10:55,240  
rapidly repeated echoes appeared to be

150  
00:10:53,080 --> 00:10:57,160  
of the nature of Klum's that worked an

151  
00:10:55,240 --> 00:10:58,810  
interpretation of the of the panel it's

152  
00:10:57,159 --> 00:11:00,370  
like these sort of children's puzzles

153  
00:10:58,809 --> 00:11:03,399  
when you join up the dots and you make a

154  
00:11:00,370 --> 00:11:06,340  
sheet so that you can sort of ticket

155  
00:11:03,399 --> 00:11:09,189  
like this it starts here we come from

156  
00:11:06,340 --> 00:11:12,399  
excellent borders which is a double star

157  
00:11:09,190 --> 00:11:14,530

and then we have this interesting sort

158

00:11:12,399 --> 00:11:17,860

of swallowing shape here and it says

159

00:11:14,529 --> 00:11:20,110

therefore seems to say we live on the

160

00:11:17,860 --> 00:11:21,669

sixth planet of seven no two signals

161

00:11:20,110 --> 00:11:24,610

later we get an absolutely explicit

162

00:11:21,669 --> 00:11:27,549

statement and another skill figure that

163

00:11:24,610 --> 00:11:28,870

that they came from the second planet to

164

00:11:27,549 --> 00:11:30,729

the six that got a great arrow

165

00:11:28,870 --> 00:11:32,919

pointing from the second planet to the

166

00:11:30,730 --> 00:11:35,440

sixth with a Sun dot at the

167

00:11:32,919 --> 00:11:37,299

the front end a bit the Sun but in other

168

00:11:35,440 --> 00:11:39,280

words have says the person who pushed us

169

00:11:37,299 --> 00:11:40,990

from the second planet to the sixth and

170

00:11:39,279 --> 00:11:42,459

and just in case we haven't got the

171

00:11:40,990 --> 00:11:46,029

point it's repeated in exactly the same

172  
00:11:42,460 --> 00:11:48,940  
way two signals later the signals are

173  
00:11:46,029 --> 00:11:51,519  
the only known message from space in the

174  
00:11:48,940 --> 00:11:54,040  
sequence of sounds Duncan Lunan has

175  
00:11:51,519 --> 00:11:55,870  
found a specific message of a population

176  
00:11:54,039 --> 00:11:58,929  
moving from the second planet to the

177  
00:11:55,870 --> 00:12:01,149  
sixth in epsilon bharata's and then

178  
00:11:58,929 --> 00:12:05,909  
where perhaps to earth

179  
00:12:01,149 --> 00:12:05,909  
the signals are an SOS to the universe

180  
00:12:07,080 --> 00:12:11,830  
in this situation the inhabitants of the

181  
00:12:10,539 --> 00:12:13,329  
planetary system would find themselves

182  
00:12:11,830 --> 00:12:16,420  
in real danger

183  
00:12:13,330 --> 00:12:18,070  
the their own planet would get hotter

184  
00:12:16,419 --> 00:12:20,589  
than time all the planets we kept very

185  
00:12:18,070 --> 00:12:21,879  
hot they were they would have in other

186  
00:12:20,590 --> 00:12:23,500  
words to perfect the first

187  
00:12:21,879 --> 00:12:26,639  
interplanetary have been interstellar

188  
00:12:23,500 --> 00:12:31,480  
travel in order to get away from the Sun

189  
00:12:26,639 --> 00:12:33,100  
so the probe then came to the earth and

190  
00:12:31,480 --> 00:12:34,480  
came to the solar system it located the

191  
00:12:33,100 --> 00:12:39,100  
earth it came into orbit from the

192  
00:12:34,480 --> 00:12:41,560  
afternoon began looking for signals read

193  
00:12:39,100 --> 00:12:42,490  
it intelligent signals from Earth that

194  
00:12:41,559 --> 00:12:45,039  
would indicate the presence of

195  
00:12:42,490 --> 00:12:47,230  
intelligent if Duncan Lunan z'

196  
00:12:45,039 --> 00:12:49,779  
interpretation of the signals is correct

197  
00:12:47,230 --> 00:12:53,139  
a space probe is now traveling in our

198  
00:12:49,779 --> 00:12:55,000  
solar system monitoring life on Earth it

199  
00:12:53,139 --> 00:13:14,699  
may already have been seen by American

00:12:55,000 --> 00:13:17,950

aircraft but a bogey in space is almost

209  
00:13:40,529 --> 00:13:44,839  
beyond belief or is it

210  
00:13:56,409 --> 00:14:00,689  
during peak hours the skies over the

211  
00:13:58,659 --> 00:14:04,110  
United States are filled with as many as

100,000 aircraft

213  
00:14:05,980 --> 00:14:11,110

225

00:14:53,039 --> 00:14:57,088

indication that the earth is being

226

unknown territory that must be charted

that the problems of acceleration and

234

deceleration in space had been overcome

235  
00:15:28,528 --> 00:15:34,708  
a probe would then enter the solar

system it must be on the third planet

263  
00:17:38,119 --> 00:17:49,879  
the blue world called Earth the moon is

264  
00:17:48,019 --> 00:17:53,269  
a perfect vantage point from which to

265  
00:17:49,880 --> 00:17:54,470  
study the earth only a quarter of a

266

million miles away

267  
00:17:54,470 --> 00:18:02,390  
the Explorers could keep a close watch

268  
00:17:56,419 --> 00:18:05,030  
on the blue planet the moon is now

269  
00:18:02,390 --> 00:18:07,640  
familiar terra-tory after six successful

270  
00:18:05,029 --> 00:18:09,668  
man landings but our detailed knowledge

271  
00:18:07,640 --> 00:18:12,650

is limited to six specific locations

272

00:18:09,669 --> 00:18:16,549

each has told us something new something

273

00:18:12,650 --> 00:18:18,769

we did not know before the mood is

274

00:18:16,548 --> 00:18:21,230

different from the earth and clearly was

275

00:18:18,769 --> 00:18:28,759

not torn from it as many scientists once

276

00:18:21,230 --> 00:18:31,130

thought we have found minerals in

277

00:18:28,759 --> 00:18:33,379

abundance on the moon minerals that are

278

00:18:31,130 --> 00:18:36,770

extremely rare on earth yet they are

279

00:18:33,380 --> 00:18:38,780

vital to successful space voyages plans

280

00:18:36,769 --> 00:18:42,048

to Myton them have already been drawn by

281

00:18:38,779 --> 00:18:44,119

NASA and private industry one theory

282

00:18:42,048 --> 00:18:46,700

holds that explorers from outer space

283

00:18:44,119 --> 00:18:49,399

have already mined them one pulling from

284

00:18:46,700 --> 00:18:52,900

it such minerals is titanium a metal is

285

00:18:49,400 --> 00:18:52,900

essential to space technology

286  
00:18:53,450 --> 00:18:59,210  
it is unfortunate that we can no longer

287  
00:18:55,730 --> 00:19:01,880  
afford to explore the lunar surface for

288  
00:18:59,210 --> 00:19:04,308  
it is just barely possible somewhere on

289  
00:19:01,880 --> 00:19:07,000  
the moon are the traces of previous

290  
00:19:04,308 --> 00:19:07,000  
explorers

291  
00:19:17,369 --> 00:19:22,599  
if travelers from outer space were

292  
00:19:20,410 --> 00:19:25,269  
seeking an exploitable planet in our

293  
00:19:22,599 --> 00:19:27,659  
solar system the moon would become the

294  
00:19:25,269 --> 00:19:29,740  
jumping-off point for their explorations

295  
00:19:27,660 --> 00:19:34,810  
there are those who believe it has

296  
00:19:29,740 --> 00:19:38,890  
already happened Duncan Lunan possible

297  
00:19:34,809 --> 00:19:41,619  
that in the course of our history and in

298  
00:19:38,890 --> 00:19:43,630  
the last fifteen thousand years that

299  
00:19:41,619 --> 00:19:46,059  
their ships tramonto and bought us have

300  
00:19:43,630 --> 00:19:49,180  
come here alpha conducted survey

301  
00:19:46,059 --> 00:19:50,710  
missions possibly even had some small

302  
00:19:49,180 --> 00:19:53,799  
settlements established here for a time

303  
00:19:50,710 --> 00:19:55,840  
until load again we have evidence that a

304  
00:19:53,799 --> 00:19:58,750  
landing was made in the nd a neural a

305  
00:19:55,839 --> 00:20:01,569  
quantity caca from the shore the outline

306  
00:19:58,750 --> 00:20:03,519  
of Titicaca has no pattern only when

307  
00:20:01,569 --> 00:20:07,409  
viewed from space does it take on the

308  
00:20:03,519 --> 00:20:07,410  
shape of a Jaguar about the Ponce

309  
00:20:08,700 --> 00:20:14,819  
in the ancient language of the region

310  
00:20:11,190 --> 00:20:19,159  
titicaca means stone of the Jaguar was

311  
00:20:14,819 --> 00:20:19,158  
it named by arriving space colonists

312  
00:20:22,769 --> 00:20:28,920  
an arid Mesa called the Altiplano

313  
00:20:25,410 --> 00:20:32,610  
fringes Lake Titicaca on the barren

314

00:20:28,920 --> 00:20:35,630  
windswept plain the air is thin and corn

315  
00:20:32,609 --> 00:20:38,399  
does not grow it is a harsh environment

316  
00:20:35,630 --> 00:20:43,940  
yet there is reason to believe that here

317  
00:20:38,400 --> 00:20:43,940  
long ago earth base 1 was established

318  
00:20:46,000 --> 00:20:51,640  
earth-based one a starting point in a

319  
00:20:49,180 --> 00:20:53,890  
new world a place to practice such

320  
00:20:51,640 --> 00:20:57,759  
advanced technologies as planetary and

321  
00:20:53,890 --> 00:20:59,530  
biological engineering most of the

322  
00:20:57,759 --> 00:21:02,559  
traces of earth-based one have been

323  
00:20:59,529 --> 00:21:04,480  
obliterated the Inca who dominated this

324  
00:21:02,559 --> 00:21:06,909  
part of the world erased the histories

325  
00:21:04,480 --> 00:21:09,490  
of the regions they conquered but in the

326  
00:21:06,910 --> 00:21:12,190  
moans rubble and broken walls of an

327  
00:21:09,490 --> 00:21:16,059  
andean plain lie the ruins of a once

328  
00:21:12,190 --> 00:21:18,960

great city called Tiahuanaco

329

00:21:16,059 --> 00:21:22,509

it stands mysterious and unexpected at

330

00:21:18,960 --> 00:21:23,710

13,000 feet above sea level it might

331

00:21:22,509 --> 00:21:26,910

have housed the most advanced

332

00:21:23,710 --> 00:21:30,640

civilization of ancient times

333

00:21:26,910 --> 00:21:33,120

long before the Inca rival Tiahuanaco

334

00:21:30,640 --> 00:21:36,160

was a reality and the question arises

335

00:21:33,119 --> 00:21:40,299

how much did the Inca take away in

336

00:21:36,160 --> 00:21:42,400

plunder and how much in technology the

337

00:21:40,299 --> 00:21:44,950

Inca did not build Tiahuanaco

338

00:21:42,400 --> 00:21:48,810

nor did the ancestors of Indians who now

339

00:21:44,950 --> 00:21:48,809

live on this desolate mountain plane

340

00:21:50,930 --> 00:21:56,180

despite years of study and analysis

341

00:21:53,710 --> 00:21:59,509

scientists are still unable to date

342

00:21:56,180 --> 00:22:02,210

these ruins estimates of its age range

343  
00:21:59,509 --> 00:22:06,170  
from twelve hundred to fifteen thousand

344  
00:22:02,210 --> 00:22:09,200  
years old but 15 thousand years ago man

345  
00:22:06,170 --> 00:22:15,019  
was still using flint tools and had not

346  
00:22:09,200 --> 00:22:18,680  
yet developed agriculture the monolith

347  
00:22:15,019 --> 00:22:21,799  
tells its own story of earth base one in

348  
00:22:18,680 --> 00:22:23,600  
1927 the carvings were interpreted as an

349  
00:22:21,799 --> 00:22:26,569  
account of the Earth's original capture

350  
00:22:23,599 --> 00:22:29,209  
of the moon the theory was dismissed as

351  
00:22:26,569 --> 00:22:31,609  
nonsense but at the close of the Apollo

352  
00:22:29,210 --> 00:22:33,289  
program there is emerged a similar

353  
00:22:31,609 --> 00:22:35,539  
theory that the moon has wandered

354  
00:22:33,289 --> 00:22:38,440  
through our solar system only to be

355  
00:22:35,539 --> 00:22:38,440  
captured by the earth

356  
00:22:43,950 --> 00:22:50,049  
of all the mysteries at Tiahuanaco none

357  
00:22:47,920 --> 00:22:54,000  
looms quite as large as a monolithic

358  
00:22:50,049 --> 00:22:54,000  
archway called the gate of his son

359  
00:22:54,200 --> 00:22:59,630  
cut from a single block of andesite it

360  
00:22:57,019 --> 00:23:02,390  
weighs at least ten tons

361  
00:22:59,630 --> 00:23:04,250  
no one knows how it was transported or

362  
00:23:02,390 --> 00:23:06,170  
what tools were used to carve the

363  
00:23:04,250 --> 00:23:12,440  
mysterious figures that run across its

364  
00:23:06,170 --> 00:23:14,570  
face for the carefully chiseled Lions to

365  
00:23:12,440 --> 00:23:17,509  
pick birds that never flew in the skies

366  
00:23:14,569 --> 00:23:20,179  
above the earth a record and stone that

367  
00:23:17,509 --> 00:23:23,299  
we cannot read except for one intriguing

368  
00:23:20,180 --> 00:23:26,000  
feature the Clay's which form a part of

369  
00:23:23,299 --> 00:23:27,980  
still another creature figures barely

370  
00:23:26,000 --> 00:23:32,329  
discernible but nonetheless familiar to

371

00:23:27,980 --> 00:23:34,670  
us as space helmet and astronauts no

372  
00:23:32,329 --> 00:23:37,970  
less mysterious had he eyes if the gada

373  
00:23:34,670 --> 00:23:41,240  
topped the arch two tiers are deeply

374  
00:23:37,970 --> 00:23:45,130  
etched into his cheeks and no one can

375  
00:23:41,240 --> 00:23:49,490  
say why the sun-god of Tiahuanaco weeps

376  
00:23:45,130 --> 00:23:53,650  
and so it stands a brooding mysterious

377  
00:23:49,490 --> 00:23:57,740  
woman atop a desolate mountain plateau

378  
00:23:53,650 --> 00:23:59,660  
13,000 feet in the air was it built by

379  
00:23:57,740 --> 00:24:02,200  
those who came to make a new home of

380  
00:23:59,660 --> 00:24:02,200  
planet Earth

381  
00:24:02,710 --> 00:24:11,749  
300 miles away on another plane lie the

382  
00:24:07,009 --> 00:24:14,179  
strange lines of Nazca from ground level

383  
00:24:11,749 --> 00:24:16,700  
the lines are very shallow scratches

384  
00:24:14,179 --> 00:24:18,970  
burly four inches deep yet they have

385  
00:24:16,700 --> 00:24:23,028

remained intact for thousands of years

386

00:24:18,970 --> 00:24:26,360

no wind blows across the plane no rain

387

00:24:23,028 --> 00:24:29,628

washes away the marks whoever drew the

388

00:24:26,359 --> 00:24:32,028

lines knew they would remain the plane

389

00:24:29,628 --> 00:24:36,980

is in effect a giant permanent black boy

390

00:24:32,028 --> 00:24:40,159

readable only from the air above it was

391

00:24:36,980 --> 00:24:43,749

designed for incoming alien explorers it

392

00:24:40,159 --> 00:24:43,749

may still serve the same function

393

00:24:49,099 --> 00:24:56,240

April 15 1966 a television cameraman

394

00:24:53,660 --> 00:24:58,460

filming a commercial in a helicopter saw

395

00:24:56,240 --> 00:25:19,460

and filmed something that has still not

396

00:24:58,460 --> 00:25:24,829

been explained there have been other

397

00:25:19,460 --> 00:25:27,110

sightings April 2nd 1966 a Melbourne

398

00:25:24,829 --> 00:25:41,119

Australia businessman photographed an

399

00:25:27,109 --> 00:25:43,819

object April 18th 1965 a small metallic

400  
00:25:41,119 --> 00:25:46,779  
object buzzed the ground saw the velvet

401  
00:25:43,819 --> 00:25:46,779  
groupie New Mexico

402  
00:26:19,470 --> 00:26:25,450  
the lines at Nazca are only four inches

403  
00:26:22,599 --> 00:26:30,609  
deep and yet they remain unblurred by

404  
00:26:25,450 --> 00:26:32,650  
the passage of 2200 years Nazca serves

405  
00:26:30,609 --> 00:26:34,089  
as a critical link between earth and

406  
00:26:32,650 --> 00:26:36,370  
outer space

407  
00:26:34,089 --> 00:26:40,649  
the lines are a movement map pinpointing

408  
00:26:36,369 --> 00:26:40,649  
sites of mystery all over the world

409  
00:26:40,970 --> 00:26:46,370  
one line pointing East leads to a

410  
00:26:43,640 --> 00:26:55,040  
remarkable unexplained artifact 300

411  
00:26:46,369 --> 00:26:59,679  
miles away someone built socks a whole

412  
00:26:55,039 --> 00:27:13,759  
woman a megalithic fortress in the Andes

413  
00:26:59,680 --> 00:27:17,380  
when why is a mystery at one point the

414  
00:27:13,759 --> 00:27:20,750  
Inca USAC say a woman is a base

415  
00:27:17,380 --> 00:27:22,940  
according to legend Inca Kings thrust

416  
00:27:20,750 --> 00:27:25,579  
their fists into the depths of his snake

417  
00:27:22,940 --> 00:27:28,340  
chiseled into the stone from it they

418  
00:27:25,579 --> 00:27:30,439  
received a special power a compass

419  
00:27:28,339 --> 00:27:33,559  
needle thrust into that same snake head

420  
00:27:30,440 --> 00:27:39,049  
will spin wildly for the stone is

421  
00:27:33,559 --> 00:27:40,700  
heavily magnetized how did the Inca who

422  
00:27:39,049 --> 00:27:43,579  
knew nothing of the forces of

423  
00:27:40,700 --> 00:27:45,470  
electromagnetism select this one stone

424  
00:27:43,579 --> 00:27:47,720  
of all the thousands of others that

425  
00:27:45,470 --> 00:27:51,230  
compose their fortress as the magic

426  
00:27:47,720 --> 00:27:54,230  
stone of a snake we do not know but one

427  
00:27:51,230 --> 00:27:56,779  
thing is certain with that special power

428

00:27:54,230 --> 00:28:00,670  
their empires spread from the Pacific

429  
00:27:56,779 --> 00:28:00,670  
coast to the Amazon jungle

430  
00:28:04,138 --> 00:28:09,968  
the Inka knew nothing of the wheel and

431  
00:28:07,028 --> 00:28:12,429  
yet their roads are still in use today

432  
00:28:09,969 --> 00:28:14,139  
they had no alphabet yet we are asked to

433  
00:28:12,429 --> 00:28:16,359  
believe they developed an engineering

434  
00:28:14,138 --> 00:28:20,468  
technology that built structures such as

435  
00:28:16,358 --> 00:28:22,678  
this or did they were they creators or

436  
00:28:20,469 --> 00:28:24,849  
inheritors of a civilization

437  
00:28:22,679 --> 00:28:27,028  
transplanted to the Andes from somewhere

438  
00:28:24,848 --> 00:28:27,028  
else

439  
00:28:30,579 --> 00:28:35,509  
saqsaywaman is build of enormous blocks

440  
00:28:32,960 --> 00:28:39,410  
of stone cut and beveled to fit together

441  
00:28:35,509 --> 00:28:41,900  
with micrometer accuracy no one is even

442  
00:28:39,410 --> 00:28:44,390

a clue as to how these blocks some

443

00:28:41,900 --> 00:28:47,870

weighing more than 100 tons were

444

00:28:44,390 --> 00:28:50,170

quarried shaped transported and sat in a

445

00:28:47,869 --> 00:28:50,169

place

446

00:28:55,419 --> 00:29:01,269

35 feet underwater and 1,000 yards off

447

00:28:59,499 --> 00:29:02,798

the northern shore of the island of

448

00:29:01,269 --> 00:29:06,028

Bimini in the Caribbean

449

00:29:02,798 --> 00:29:06,028

there was another wall

450

00:29:08,999 --> 00:29:13,979

there is absolutely no indication of who

451

00:29:11,578 --> 00:29:15,749

might have billed it but the huge blocks

452

00:29:13,979 --> 00:29:19,769

bear a striking resemblance to the

453

00:29:15,749 --> 00:29:22,139

masonry of the Incas some scientists

454

00:29:19,769 --> 00:29:25,259

claim it is a natural formation and not

455

00:29:22,138 --> 00:29:28,288

a wall at all but if ocean currents cut

456

00:29:25,259 --> 00:29:30,449

the stones in the sea bottom did they

457  
00:29:28,288 --> 00:29:32,749  
also cut them at right angles to each

458  
00:29:30,449 --> 00:29:32,749  
other

459  
00:29:32,900 --> 00:29:37,400  
the bimini wall is but one of many

460  
00:29:35,299 --> 00:29:41,119  
mysteries in the Caribbean region known

461  
00:29:37,400 --> 00:29:43,400  
as the Bermuda Triangle here ships and

462  
00:29:41,119 --> 00:29:47,349  
planes vanish under circumstances that

463  
00:29:43,400 --> 00:29:47,350  
defy our logical explanation

464  
00:29:52,230 --> 00:29:59,370  
just after the close of World War two in

465  
00:29:55,319 --> 00:30:00,928  
December 1945 five navy fighter planes

466  
00:29:59,369 --> 00:30:02,428  
vanished without a trace

467  
00:30:00,929 --> 00:30:05,940  
leaving a mystery that remains

468  
00:30:02,429 --> 00:30:07,559  
unanswered today their disappearance has

469  
00:30:05,940 --> 00:30:09,900  
been the subject of a 25 year

470  
00:30:07,558 --> 00:30:11,379  
investigation by magazine reporter art

471  
00:30:09,900 --> 00:30:15,370  
fort

472  
00:30:11,380 --> 00:30:17,710  
well a routine Naval Air Patrol tada

473  
00:30:15,369 --> 00:30:22,629  
from the Fort Lauderdale Naval Air

474  
00:30:17,710 --> 00:30:25,808  
Station five planes 14 crewmembers five

475  
00:30:22,630 --> 00:30:27,690  
different radios after the planes were

476  
00:30:25,808 --> 00:30:31,000  
in the air a few hours they vanished

477  
00:30:27,690 --> 00:30:33,279  
five radios did not give a coherent

478  
00:30:31,000 --> 00:30:34,599  
reason why they vanished the men were

479  
00:30:33,279 --> 00:30:37,769  
never seen again

480  
00:30:34,599 --> 00:30:40,779  
no wreckage of the planes was ever found

481  
00:30:37,769 --> 00:30:43,480  
there was no radio contact after they

482  
00:30:40,779 --> 00:30:45,879  
were lost a search plane went up after

483  
00:30:43,480 --> 00:30:48,370  
them with 13 men aboard every bit of

484  
00:30:45,880 --> 00:30:51,480  
equipment necessary to find them it

485

00:30:48,369 --> 00:30:54,579  
vanished within seven minutes

486  
00:30:51,480 --> 00:30:58,179  
particularly significant in the case of

487  
00:30:54,579 --> 00:31:01,509  
missing planes was the radio

488  
00:30:58,179 --> 00:31:04,140  
transmission report that remains in the

489  
00:31:01,509 --> 00:31:07,690  
record in the archives in Washington

490  
00:31:04,140 --> 00:31:11,700  
lieutenant Robert F Cox was flying out

491  
00:31:07,690 --> 00:31:14,679  
to try to find 5:19 he said on the radio

492  
00:31:11,700 --> 00:31:17,230  
what is your present altitude I will fly

493  
00:31:14,679 --> 00:31:19,990  
south to meet you and Taylor who

494  
00:31:17,230 --> 00:31:21,480  
commanded flight 19 replied don't come

495  
00:31:19,990 --> 00:31:24,929  
after me

496  
00:31:21,480 --> 00:31:26,460  
he was warning his fellow fliers who are

497  
00:31:24,929 --> 00:31:29,610  
trying to rescue the plane which they

498  
00:31:26,460 --> 00:31:31,529  
thought was lost and he said they look

499  
00:31:29,609 --> 00:31:34,189

like they're from outer space don't come

500

00:31:31,529 --> 00:31:34,190  
after

501

00:31:47,039 --> 00:31:56,399  
on March 5th 1918 the USS Cyclops

502

00:31:51,059 --> 00:31:58,669  
entered the Bermuda Triangle a coal

503

00:31:56,400 --> 00:32:02,490  
carrying cargo ship she had a crew of

504

00:31:58,670 --> 00:32:03,990  
309 officers and Men the British liner

505

00:32:02,490 --> 00:32:06,539  
Vespers reported that she'd heard a

506

00:32:03,990 --> 00:32:09,859  
radio signal from the Cyclops indicating

507

00:32:06,539 --> 00:32:09,859  
whether fair and clear

508

00:32:12,700 --> 00:32:19,080  
the Cyclops was never seen or heard from

509

00:32:15,429 --> 00:32:23,559  
again no trace was ever found

510

00:32:19,079 --> 00:32:28,108  
ten years later in 1928 the light of

511

00:32:23,558 --> 00:32:28,108  
estrus also disappeared without a trace

512

00:32:30,220 --> 00:32:34,720  
proteus the sistership of cyclops

513

00:32:32,759 --> 00:32:37,480  
disappeared in the Bermuda Triangle

514  
00:32:34,720 --> 00:32:42,600  
between November 23rd and December 10th

515  
00:32:37,480 --> 00:32:48,058  
1941 she was carrying a cargo box I'd

516  
00:32:42,599 --> 00:32:48,058  
like Cyclops no trace was ever found

517  
00:32:50,999 --> 00:32:59,850  
January 8 1962 an Air Force KB 50 air

518  
00:32:55,960 --> 00:32:59,850  
tanker disappeared in clear weather

519  
00:33:03,630 --> 00:33:12,600  
no trace of the plane or its eight

520  
00:33:05,970 --> 00:33:14,910  
crewmembers has ever been found more than a

521  
00:33:12,599 --> 00:33:17,669  
hundred ships and airplanes have been

522  
00:33:14,910 --> 00:33:20,880  
lost in the Bermuda Triangle taking with

523  
00:33:17,670 --> 00:33:22,920  
them 1,000 lives there is no explanation

524  
00:33:20,880 --> 00:33:26,490  
for the disappearances that have taken

525  
00:33:22,920 --> 00:33:30,180  
place in clear weather and calm seas is

526  
00:33:26,490 --> 00:33:32,430  
this the corridor to outer space did the

527  
00:33:30,180 --> 00:33:35,420  
first colonists plant a homing device a

528  
00:33:32,430 --> 00:33:38,580  
navigational aid under these waters a

529  
00:33:35,420 --> 00:33:40,320  
beacon for spacecraft a home in on that

530  
00:33:38,579 --> 00:33:43,399  
somehow interferes with our own

531  
00:33:40,319 --> 00:33:43,399  
navigational devices

532  
00:33:44,599 --> 00:33:51,599  
January 16th 1958 an air force officer

533  
00:33:48,839 --> 00:33:54,869  
aboard the Brazilian ship Almirante Sal

534  
00:33:51,599 --> 00:33:57,029  
Dona sighted a flying disc that hovered

535  
00:33:54,869 --> 00:33:59,419  
over the water for 30 seconds and then

536  
00:33:57,029 --> 00:33:59,420  
sped off

537  
00:34:27,690 --> 00:34:34,450  
January 13th 1967 a UFO was photographed

538  
00:34:32,679 --> 00:34:37,259  
as a dove and climbed above the

539  
00:34:34,449 --> 00:34:37,259  
Louisiana bayous

540  
00:34:53,559 --> 00:35:01,130  
were these and other UFOs homing in on

541  
00:34:56,900 --> 00:35:02,809  
the triangle beacon is this a marker

542

00:35:01,130 --> 00:35:05,590  
signaling a rival of the mysterious

543  
00:35:02,809 --> 00:35:08,289  
Tropic of Cancer

544  
00:35:05,590 --> 00:35:11,210  
it is a line that circles the globe

545  
00:35:08,289 --> 00:35:12,920  
touching in turn all of the places where

546  
00:35:11,210 --> 00:35:21,159  
a colony planted on earth might have

547  
00:35:12,920 --> 00:35:27,590  
taken root India Egypt

548  
00:35:21,159 --> 00:35:31,420  
the Canary Islands the Bermuda Triangle

549  
00:35:27,590 --> 00:35:31,420  
and finally the Yucatan Peninsula

550  
00:35:35,010 --> 00:35:40,840  
the deep jungles of Central America make

551  
00:35:38,349 --> 00:35:42,159  
an ideal hiding place for a colony cut

552  
00:35:40,840 --> 00:35:44,860  
off from its home planet

553  
00:35:42,159 --> 00:35:47,379  
to this day the steaming malaria-ridden

554  
00:35:44,860 --> 00:35:51,460  
lowlands of the Yucatan Peninsula remain

555  
00:35:47,380 --> 00:35:54,420  
largely unexplored yet this is the home

556  
00:35:51,460 --> 00:36:03,519

of the most mysterious people on earth

557

00:35:54,420 --> 00:36:06,430

the Mayans we are asked to believe that

558

00:36:03,519 --> 00:36:08,590

the Mayans were simple farmers but no

559

00:36:06,429 --> 00:36:10,419

logical reason exists for them to have

560

00:36:08,590 --> 00:36:12,900

planted crops on the most difficult of

561

00:36:10,420 --> 00:36:12,900

all land

562

00:36:19,818 --> 00:36:29,429

no the Mayans camera not to farm but to

563

00:36:23,639 --> 00:36:31,858

hide no records tell where they come

564

00:36:29,429 --> 00:36:35,009

from no evidence explains where they

565

00:36:31,858 --> 00:36:37,078

have gone only citadels like Ishmael

566

00:36:35,009 --> 00:36:39,650

stand to remind us of a people markedly

567

00:36:37,079 --> 00:36:41,969

different from any other race on earth a

568

00:36:39,650 --> 00:36:45,209

brilliant civilization grew and

569

00:36:41,969 --> 00:36:47,400

flourished an absolute isolation seeming

570

00:36:45,208 --> 00:36:53,938

fearful of contact with other people on

571  
00:36:47,400 --> 00:36:57,479  
earth priests were the repository of all

572  
00:36:53,938 --> 00:36:59,639  
Mayan knowledge they alone possessed a

573  
00:36:57,478 --> 00:37:02,009  
secret language distinct from that used

574  
00:36:59,639 --> 00:37:03,748  
by the rest of the people a language

575  
00:37:02,009 --> 00:37:08,009  
they brought from somewhere else and

576  
00:37:03,748 --> 00:37:09,718  
jealously preserved there are many other

577  
00:37:08,009 --> 00:37:13,829  
indications that they are none of the

578  
00:37:09,719 --> 00:37:16,780  
earth we know of their advancements they

579  
00:37:13,829 --> 00:37:20,550  
developed mathematics to a high art

580  
00:37:16,780 --> 00:37:20,550  
they invented the figure zero

581  
00:37:25,000 --> 00:37:29,710  
they developed a calendars so exact our

582  
00:37:27,909 --> 00:37:32,980  
modern astronomical devices have

583  
00:37:29,710 --> 00:37:35,740  
improved upon it by only 17 seconds out

584  
00:37:32,980 --> 00:37:38,679  
of an entire year they also had a

585  
00:37:35,739 --> 00:37:41,849  
calendar which accurately measured a 260

586  
00:37:38,679 --> 00:37:44,440  
day year obviously not a year on earth

587  
00:37:41,849 --> 00:37:49,839  
perhaps it is a year on the planet from

588  
00:37:44,440 --> 00:37:52,000  
which they came Mayan pyramids may have

589  
00:37:49,840 --> 00:37:54,670  
been the first in the world the models

590  
00:37:52,000 --> 00:37:57,670  
for all the great pyramids and here too

591  
00:37:54,670 --> 00:38:00,369  
we find connection to outer space the

592  
00:37:57,670 --> 00:38:02,800  
very shape of the pyramid gives a clue

593  
00:38:00,369 --> 00:38:04,900  
to the secret of immortality an

594  
00:38:02,800 --> 00:38:07,269  
enterprising young physicist dr. Patrick

595  
00:38:04,900 --> 00:38:09,220  
Flanagan interprets the linked strange

596  
00:38:07,269 --> 00:38:11,590  
things that happen inside the pyramid

597  
00:38:09,219 --> 00:38:14,199  
but no one was able to pinpoint what

598  
00:38:11,590 --> 00:38:15,970  
these forces were and my research for

599

00:38:14,199 --> 00:38:18,579  
the last three years has been on

600  
00:38:15,969 --> 00:38:21,219  
pinpointing these forces and discovering

601  
00:38:18,579 --> 00:38:23,949  
what the effect is I've discovered that

602  
00:38:21,219 --> 00:38:28,500  
the pyramid is sort of a cosmic

603  
00:38:23,949 --> 00:38:31,689  
greenhouse by this we know that the

604  
00:38:28,500 --> 00:38:34,239  
pyramid shape is designed to intercept

605  
00:38:31,690 --> 00:38:36,539  
certain cosmic energies from cosmic

606  
00:38:34,239 --> 00:38:39,849  
particles in the same way that a

607  
00:38:36,539 --> 00:38:42,699  
greenhouse is designed so that the sun's

608  
00:38:39,849 --> 00:38:46,179  
rays will will enter the greenhouse at a

609  
00:38:42,699 --> 00:38:48,129  
right angle in order to affect maximum

610  
00:38:46,179 --> 00:38:50,469  
transfer of infrared energy into the

611  
00:38:48,130 --> 00:38:52,470  
interior of the greenhouse the walls of

612  
00:38:50,469 --> 00:38:55,719  
the pyramid are designed for maximum

613  
00:38:52,469 --> 00:38:58,419

transfer of this energy bioplasmic

614

00:38:55,719 --> 00:39:00,429

energy or bio cosmic energy whatever you

615

00:38:58,420 --> 00:39:03,490

want to call it and certain phenomena

616

00:39:00,429 --> 00:39:05,859

incur in the pyramid grains of wheat

617

00:39:03,489 --> 00:39:10,929

found inside the Great Pyramid in

618

00:39:05,860 --> 00:39:12,210

containers or in the floor five thousand

619

00:39:10,929 --> 00:39:15,819

years old

620

00:39:12,210 --> 00:39:18,400

sprouted immediately also my own

621

00:39:15,820 --> 00:39:20,860

research indicates that for instance

622

00:39:18,400 --> 00:39:23,170

plants such as mung bean sprouts

623

00:39:20,860 --> 00:39:25,329

mummified in the pyramid are capable of

624

00:39:23,170 --> 00:39:27,700

growing after they have been dehydrated

625

00:39:25,329 --> 00:39:31,059

so this indicates that the pyramid

626

00:39:27,699 --> 00:39:34,059

energy phenomena maintains the actual

627

00:39:31,059 --> 00:39:36,519

life forces within the

628  
00:39:34,059 --> 00:39:39,070  
within the organism beyond the

629  
00:39:36,519 --> 00:39:41,710  
possibility of immortality inherent in

630  
00:39:39,070 --> 00:39:43,030  
the pyramids of the Maya it is possible

631  
00:39:41,710 --> 00:39:44,980  
that they inspired the sudden

632  
00:39:43,030 --> 00:39:47,470  
unexplainable leaps made by other

633  
00:39:44,980 --> 00:39:48,940  
ancient civilizations they may have

634  
00:39:47,469 --> 00:39:51,549  
shared their highly advanced knowledge

635  
00:39:48,940 --> 00:39:54,909  
of astronomy with others for example the

636  
00:39:51,550 --> 00:39:56,650  
Babylonians we have found Kanaya formed

637  
00:39:54,909 --> 00:39:59,559  
tablets that mark the phases of Venus

638  
00:39:56,650 --> 00:40:02,500  
the four moons of Jupiter and the

639  
00:39:59,559 --> 00:40:04,929  
satellites of Saturn none of these

640  
00:40:02,500 --> 00:40:07,269  
bodies or events can be seen without a

641  
00:40:04,929 --> 00:40:09,219  
telescope a device invented three

642  
00:40:07,269 --> 00:40:12,309  
thousand years after the tablets were

643  
00:40:09,219 --> 00:40:22,299  
carved the knowledge must have come from

644  
00:40:12,309 --> 00:40:24,639  
outer space throughout the world there

645  
00:40:22,300 --> 00:40:27,250  
are references to interplanetary travel

646  
00:40:24,639 --> 00:40:30,129  
to some scholars the world's oldest

647  
00:40:27,250 --> 00:40:32,559  
source of wisdom is in India this chant

648  
00:40:30,130 --> 00:40:36,160  
is part of a spoken encyclopedia called

649  
00:40:32,559 --> 00:40:38,739  
the Veda it is at least 5,000 years old

650  
00:40:36,159 --> 00:40:41,739  
and may represent the oldest body of

651  
00:40:38,739 --> 00:40:43,750  
technical knowledge known to man the

652  
00:40:41,739 --> 00:40:46,149  
references to space travel a direct

653  
00:40:43,750 --> 00:40:48,010  
clear descriptions are given of the

654  
00:40:46,150 --> 00:40:51,250  
craft that was used and the method of

655  
00:40:48,010 --> 00:40:54,400  
propulsion the Veda committed to paper

656

00:40:51,250 --> 00:40:56,469  
400 years ago is still the target of

657  
00:40:54,400 --> 00:40:59,800  
intensive research by scholars such as

658  
00:40:56,469 --> 00:41:03,579  
Padma Sri Sri Rama Murthy the director

659  
00:40:59,800 --> 00:41:07,420  
of the National Museum of India in

660  
00:41:03,579 --> 00:41:13,539  
ancient India as all over the world they

661  
00:41:07,420 --> 00:41:17,349  
had it is there to travel in the sky we

662  
00:41:13,539 --> 00:41:20,579  
have the aerial car of the god of light

663  
00:41:17,349 --> 00:41:24,099  
Surya mentioned in the Rig Veda itself

664  
00:41:20,579 --> 00:41:27,789  
we have also the pushpaka vimana a

665  
00:41:24,099 --> 00:41:32,000  
wonderful aeroplane that could carry any

666  
00:41:27,789 --> 00:41:35,570  
number mentioned in the Ramayana we

667  
00:41:32,000 --> 00:41:39,349  
the aerial car panicked by an engine the

668  
00:41:35,570 --> 00:41:42,230  
rishis could transport themselves to any

669  
00:41:39,349 --> 00:41:46,219  
planet that they wanted because of their

670  
00:41:42,230 --> 00:41:48,340

Sydney a force known as Sidley might

671

00:41:46,219 --> 00:41:50,899

also have been called pyramid energy

672

00:41:48,340 --> 00:41:52,880

using this force the ancients could

673

00:41:50,900 --> 00:41:55,670

transport themselves anywhere on earth

674

00:41:52,880 --> 00:41:56,390

into the skies and finally to other

675

00:41:55,670 --> 00:41:58,789

planets

676

00:41:56,389 --> 00:42:01,239

and did the Mayans use it to link

677

00:41:58,789 --> 00:42:04,369

together their cities

678

00:42:01,239 --> 00:42:06,529

if the tales and images of space travel

679

00:42:04,369 --> 00:42:08,690

were limited to India they could be

680

00:42:06,530 --> 00:42:10,940

dismissed as the product of overworked

681

00:42:08,690 --> 00:42:13,099

imaginations

682

00:42:10,940 --> 00:42:15,289

but how then could we account for

683

00:42:13,099 --> 00:42:18,099

primitive drawings in the rocks of India

684

00:42:15,289 --> 00:42:18,099

County California

685  
00:42:21,010 --> 00:42:27,170  
in the twentieth century we accept the

686  
00:42:23,869 --> 00:42:29,420  
existence of spacecraft what event could

687  
00:42:27,170 --> 00:42:31,490  
possibly have inspired this fourteen

688  
00:42:29,420 --> 00:42:37,130  
thousand year old drawing of a spaceship

689  
00:42:31,489 --> 00:42:40,189  
landing in the earth on a rocky plane in

690  
00:42:37,130 --> 00:42:44,170  
the Andes called toro muerto hundreds of

691  
00:42:40,190 --> 00:42:44,170  
petroglyphs depict the same scene

692  
00:42:58,050 --> 00:43:03,820  
we find evidence of past visits from

693  
00:43:01,059 --> 00:43:05,500  
space in many parts of the world the

694  
00:43:03,820 --> 00:43:07,630  
twenty-two hundred year old Dead Sea

695  
00:43:05,500 --> 00:43:09,909  
Scrolls found in the caves of Qumran

696  
00:43:07,630 --> 00:43:12,670  
bring us closer to the original Bible

697  
00:43:09,909 --> 00:43:15,129  
than any other source and contained

698  
00:43:12,670 --> 00:43:20,680  
clear references to the Holy Ones

699  
00:43:15,130 --> 00:43:23,079  
descending from the heavens while

700  
00:43:20,679 --> 00:43:25,329  
biblical scholars study the scrolls for

701  
00:43:23,079 --> 00:43:27,279  
their theological implications other

702  
00:43:25,329 --> 00:43:31,650  
scientists have looked at the Bible for

703  
00:43:27,280 --> 00:43:34,480  
evidence of extraterrestrial visits an

704  
00:43:31,650 --> 00:43:37,599  
aerospace engineer at NASA's Marshall

705  
00:43:34,480 --> 00:43:39,670  
Space Flight Center joseph blumrich has

706  
00:43:37,599 --> 00:43:44,199  
found in the visions of ezekiel a

707  
00:43:39,670 --> 00:43:47,820  
technical description of a spaceship the

708  
00:43:44,199 --> 00:43:49,659  
prophet isaiah describes four encounters

709  
00:43:47,820 --> 00:43:54,789  
where spaceships

710  
00:43:49,659 --> 00:43:57,039  
at first he saw clouds fire and he heard

711  
00:43:54,789 --> 00:44:00,940  
noise coming out from the sky out of the

712  
00:43:57,039 --> 00:44:04,500  
north and as they approached apparently

713

00:44:00,940 --> 00:44:07,480  
it came rather quiet in his direction he

714  
00:44:04,500 --> 00:44:10,030  
observed what he calls living creatures

715  
00:44:07,480 --> 00:44:12,219  
what is a key card to living creatures

716  
00:44:10,030 --> 00:44:14,230  
had straight lakes and round teeth

717  
00:44:12,219 --> 00:44:16,989  
perhaps feet sometimes they're called

718  
00:44:14,230 --> 00:44:21,429  
and it was the description of these

719  
00:44:16,989 --> 00:44:23,649  
landing Lakes that made me take the Book

720  
00:44:21,429 --> 00:44:27,309  
of Ezekiel serious from an engineering

721  
00:44:23,650 --> 00:44:30,639  
point of view I have had the opportunity

722  
00:44:27,309 --> 00:44:35,079  
about 10 years ago to work with my group

723  
00:44:30,639 --> 00:44:37,779  
my office in the further development of

724  
00:44:35,079 --> 00:44:41,469  
such landing gear for an unmanned lunar

725  
00:44:37,780 --> 00:44:43,660  
landing station for that hypothetical

726  
00:44:41,469 --> 00:44:47,199  
vehicle B develop the landing gear and

727  
00:44:43,659 --> 00:44:51,269

but we called the foot pan and what

728

00:44:47,199 --> 00:44:51,269  
Ezekiel would call the round feet

729

00:44:54,659 --> 00:44:59,980  
translating Ezekiel into engineering

730

00:44:57,039 --> 00:45:01,929  
terms mr. bloom Ridge had these artist

731

00:44:59,980 --> 00:45:05,019  
sketches made of a landing vehicle

732

00:45:01,929 --> 00:45:07,869  
supported by four helicopter units one

733

00:45:05,019 --> 00:45:10,690  
of the interesting examples of Ezekiel's

734

00:45:07,869 --> 00:45:13,420  
ability to observe and to describe are

735

00:45:10,690 --> 00:45:16,030  
the faces he sees on these living

736

00:45:13,420 --> 00:45:18,490  
creatures what they actually are is

737

00:45:16,030 --> 00:45:20,830  
quite interesting some helicopters in

738

00:45:18,489 --> 00:45:24,459  
particular in this case this one needs

739

00:45:20,829 --> 00:45:26,679  
protection system would Iran to protect

740

00:45:24,460 --> 00:45:29,679  
them against dust or weather and so on

741

00:45:26,679 --> 00:45:36,969  
they may have the distinct appearance of

742  
00:45:29,679 --> 00:45:39,159  
faces the faces found in a metalwork of

743  
00:45:36,969 --> 00:45:42,159  
spacecraft may have been the figures

744  
00:45:39,159 --> 00:45:47,739  
reported by Ezekiel the biblical tale is

745  
00:45:42,159 --> 00:45:50,319  
hardly an isolated example our ancient

746  
00:45:47,739 --> 00:45:54,479  
figures with spacesuit like costumes the

747  
00:45:50,320 --> 00:45:54,480  
record of beings actually encountered

748  
00:45:54,690 --> 00:45:59,130  
and where do the Indians of Colombia

749  
00:45:56,909 --> 00:46:01,649  
find models for these golden helmet and

750  
00:45:59,130 --> 00:46:03,980  
figures sculpted more than 1000 years

751  
00:46:01,650 --> 00:46:03,980  
ago

752  
00:46:08,650 --> 00:46:13,610  
the same people molded these golden

753  
00:46:11,630 --> 00:46:21,440  
objects which looks startlingly like a

754  
00:46:13,610 --> 00:46:23,150  
modern DeltaWing jet fighter plane could

755  
00:46:21,440 --> 00:46:25,220  
flight have played a role in the

756  
00:46:23,150 --> 00:46:27,920  
construction of this rocky fortress in

757  
00:46:25,219 --> 00:46:29,569  
Peru called alliant a tumble

758  
00:46:27,920 --> 00:46:31,280  
it's pans have passed through the

759  
00:46:29,570 --> 00:46:35,120  
mountains that linked the jungle with

760  
00:46:31,280 --> 00:46:37,160  
the sea the Inca builders were

761  
00:46:35,119 --> 00:46:41,900  
accomplished stonemasons who built a

762  
00:46:37,159 --> 00:46:44,119  
chain of fortresses across the Andes but

763  
00:46:41,900 --> 00:46:46,579  
nowhere is there an explanation for the

764  
00:46:44,119 --> 00:46:50,269  
technology used to carry enormous pink

765  
00:46:46,579 --> 00:46:51,739  
slabs each one more than 60 tons from

766  
00:46:50,269 --> 00:46:54,590  
this mountain where they were quarried

767  
00:46:51,739 --> 00:46:57,500  
and then 10,000 feet up the face of

768  
00:46:54,590 --> 00:46:59,570  
Audion take tumble what else but flight

769  
00:46:57,500 --> 00:47:02,050  
could have God for raising the stones to

770

00:46:59,570 --> 00:47:02,050  
the mountaintop

771  
00:47:10,610 --> 00:47:18,440  
an iron color was forged 1700 years ago

772  
00:47:15,739 --> 00:47:21,169  
in India it confounds the laws of

773  
00:47:18,440 --> 00:47:23,179  
metallurgy too large to have been forged

774  
00:47:21,170 --> 00:47:28,570  
in one piece or long ago

775  
00:47:23,179 --> 00:47:28,569  
it is rust-free after 1700 years

776  
00:47:28,900 --> 00:47:35,829  
the bead is turquoise another extremely

777  
00:47:31,869 --> 00:47:38,079  
hard gemstone it is 1700 years old and

778  
00:47:35,829 --> 00:47:45,160  
was probably part of a necklace or

779  
00:47:38,079 --> 00:47:48,818  
bracelet the hole in each bead has a

780  
00:47:45,159 --> 00:47:52,920  
diameter of 0.19 millimeters even today

781  
00:47:48,818 --> 00:47:52,920  
we can barely drill holes that's more

782  
00:47:54,050 --> 00:47:59,840  
the strangely knotted strings are called

783  
00:47:56,480 --> 00:48:01,610  
kipu but when do they can read them but

784  
00:47:59,840 --> 00:48:04,250

when the spaniards first came to Peru

785

00:48:01,610 --> 00:48:06,349

the Inca Kings would call upon their

786

00:48:04,250 --> 00:48:09,230

rememberers who would consult the khipu

787

00:48:06,349 --> 00:48:14,150

and account for every kernel of corn and

788

00:48:09,230 --> 00:48:16,219

man woman and child in the Empire but

789

00:48:14,150 --> 00:48:18,380

the khipu were more than a numerical

790

00:48:16,219 --> 00:48:20,329

accounting system for with it an

791

00:48:18,380 --> 00:48:24,820

accomplished rememberer could call forth

792

00:48:20,329 --> 00:48:24,819

epic poems historical dates and events

793

00:48:25,179 --> 00:48:31,009

but not sure how the decimal system was

794

00:48:28,070 --> 00:48:33,200

used in the khipu but added to them were

795

00:48:31,010 --> 00:48:35,360

coloured threads that offered subtle

796

00:48:33,199 --> 00:48:39,859

nuances and shades of meaning that are

797

00:48:35,360 --> 00:48:41,720

forever lost to us so sophisticated was

798

00:48:39,860 --> 00:48:43,550

the khipu however that some

799  
00:48:41,719 --> 00:48:47,289  
investigators believe it was the inca

800  
00:48:43,550 --> 00:48:47,289  
version of a computer punch card

801  
00:48:50,380 --> 00:48:56,829  
an enormous crystal was placed in a more

802  
00:48:53,170 --> 00:48:59,619  
chica grave more than 1500 years ago it

803  
00:48:56,829 --> 00:49:00,400  
is among the hardest of all minerals yet

804  
00:48:59,619 --> 00:49:02,559  
it was good

805  
00:49:00,400 --> 00:49:04,539  
polished and shaped by a technology that

806  
00:49:02,559 --> 00:49:06,719  
theoretically could not have existed at

807  
00:49:04,539 --> 00:49:06,719  
that time

808  
00:49:10,550 --> 00:49:15,650  
other hands carved this skull the

809  
00:49:13,579 --> 00:49:18,860  
British Museum calls it 15th century

810  
00:49:15,650 --> 00:49:21,500  
Aztec but why would the Aztecs who never

811  
00:49:18,860 --> 00:49:24,910  
created naturalistic I'd suddenly render

812  
00:49:21,500 --> 00:49:24,909  
in Crystal a skull

813  
00:49:26,210 --> 00:49:30,440  
it is possible at the Mayan jungles

814  
00:49:28,608 --> 00:49:32,719  
strongholds provided the knowledge that

815  
00:49:30,440 --> 00:49:35,030  
advanced the civilization of all of the

816  
00:49:32,719 --> 00:49:39,159  
people on earth no matter where we look

817  
00:49:35,030 --> 00:49:39,160  
we find evidence of their influence

818  
00:49:41,619 --> 00:49:47,799  
how else can we explain a 700 year old

819  
00:49:45,050 --> 00:49:51,289  
transplant of a rust-free iron tooth

820  
00:49:47,800 --> 00:49:53,180  
found a Napoleon grave it seemingly is

821  
00:49:51,289 --> 00:49:56,389  
as functional as any modern dental

822  
00:49:53,179 --> 00:49:57,919  
prosthesis other graves yield a

823  
00:49:56,389 --> 00:50:01,480  
suggestion that the ancient Peruvians

824  
00:49:57,920 --> 00:50:06,050  
were accomplished neurosurgeons

825  
00:50:01,480 --> 00:50:07,969  
at the Cusco Archaeological Museum dr.

826  
00:50:06,050 --> 00:50:09,830  
Fernando Cabezas professor of

827

00:50:07,969 --> 00:50:14,779  
Neurosurgery at the university of san

828  
00:50:09,829 --> 00:50:19,420  
marco demonstrates these skulls here are

829  
00:50:14,780 --> 00:50:22,130  
a just a very small sample of the

830  
00:50:19,420 --> 00:50:26,809  
tremendous amount of skulls that were

831  
00:50:22,130 --> 00:50:30,650  
found in the graves of the ancient

832  
00:50:26,809 --> 00:50:32,900  
Peruvians I think that all in all we

833  
00:50:30,650 --> 00:50:36,559  
have studied more than 10,000 skulls

834  
00:50:32,900 --> 00:50:38,349  
that have been on earth now these are

835  
00:50:36,559 --> 00:50:41,809  
some of the instruments that they used

836  
00:50:38,349 --> 00:50:47,199  
this is called the to me to me knife

837  
00:50:41,809 --> 00:50:53,889  
which was used this way just to open the

838  
00:50:47,199 --> 00:50:56,869  
scout this cannot be used in the bone

839  
00:50:53,889 --> 00:51:00,289  
they used to open the bone they use

840  
00:50:56,869 --> 00:51:04,519  
other bronze instruments like this just

841  
00:51:00,289 --> 00:51:06,650

to try up the bone like here prying up

842

00:51:04,519 --> 00:51:09,590

the bone there are some other art

843

00:51:06,650 --> 00:51:14,090

instruments like this just to to make

844

00:51:09,590 --> 00:51:17,360

these indentations and there are at

845

00:51:14,090 --> 00:51:20,210

least two different to thousand

846

00:51:17,360 --> 00:51:24,289

different other instruments that were

847

00:51:20,210 --> 00:51:27,559

used also this one here is a very

848

00:51:24,289 --> 00:51:30,949

interesting specimen it shows a very

849

00:51:27,559 --> 00:51:34,940

persistent surgeon you find here that

850

00:51:30,949 --> 00:51:38,149

this man suffered for operations

851

00:51:34,940 --> 00:51:42,280

and he survived every one of them either

852

00:51:38,150 --> 00:51:46,130

it was a very sick man a very persistent

853

00:51:42,280 --> 00:51:48,670

individual cooperated on them but he was

854

00:51:46,130 --> 00:51:52,150

a very good technician because after all

855

00:51:48,670 --> 00:51:55,750

these areas especially these two

856  
00:51:52,150 --> 00:52:00,349  
openings are right over very very

857  
00:51:55,750 --> 00:52:02,690  
dangerous sites that even right now with

858  
00:52:00,349 --> 00:52:05,720  
all the techniques that we use now we

859  
00:52:02,690 --> 00:52:08,150  
will just be very much afraid of

860  
00:52:05,719 --> 00:52:11,230  
operating in these sites and this man

861  
00:52:08,150 --> 00:52:16,220  
really survived these operations in

862  
00:52:11,230 --> 00:52:21,608  
Kalka near here near Cusco were about I

863  
00:52:16,219 --> 00:52:27,519  
would say 85% of the skulls show healed

864  
00:52:21,608 --> 00:52:30,759  
trifa nations 85% of survivals from

865  
00:52:27,519 --> 00:52:38,838  
skull operations is a pretty good an

866  
00:52:30,760 --> 00:52:41,420  
excellent result at the Yerkes regional

867  
00:52:38,838 --> 00:52:44,328  
primate center scientists implant

868  
00:52:41,420 --> 00:52:46,460  
monkeys with electrodes the experiment

869  
00:52:44,329 --> 00:52:53,210  
stimulates the brain with radio waves

870  
00:52:46,460 --> 00:52:54,769  
and thereby controls behavior our

871  
00:52:53,210 --> 00:52:57,470  
today's scientists seeking knowledge

872  
00:52:54,769 --> 00:53:00,670  
already gained by similar experiments

873  
00:52:57,469 --> 00:53:00,669  
performed centuries ago

874  
00:53:21,809 --> 00:53:29,590  
the monkey house in any zoo provides us

875  
00:53:25,239 --> 00:53:31,809  
with a great deal of fun but

876  
00:53:29,590 --> 00:53:35,410  
occasionally our laughter is accompanied

877  
00:53:31,809 --> 00:53:38,380  
by an uncomfortable feeling we're not

878  
00:53:35,409 --> 00:53:40,719  
too different from the Apes with them we

879  
00:53:38,380 --> 00:53:43,119  
shared common blood groups a similar

880  
00:53:40,719 --> 00:53:47,609  
Anatomy and perhaps a billion or more

881  
00:53:43,119 --> 00:53:47,610  
years ago a common ancestor

882  
00:54:19,250 --> 00:54:24,869  
sometime in the distant past the links

883  
00:54:22,320 --> 00:54:26,820  
between man and ape was snapped by an

884

00:54:24,869 --> 00:54:32,190  
event that forever changed the course of

885  
00:54:26,820 --> 00:54:47,430  
our evolution but no one knows exactly

886  
00:54:32,190 --> 00:54:49,409  
what took place for thousands of years

887  
00:54:47,429 --> 00:54:52,169  
Neanderthal was the most advanced

888  
00:54:49,409 --> 00:54:55,589  
primate on earth and a logical ancestor

889  
00:54:52,170 --> 00:54:59,010  
of men but Neanderthals suddenly

890  
00:54:55,590 --> 00:55:03,660  
disappeared 35,000 years ago and now a

891  
00:54:59,010 --> 00:55:06,040  
new creature appeared go magnet suddenly

892  
00:55:03,659 --> 00:55:08,500  
he began to walk deep earth

893  
00:55:06,039 --> 00:55:10,539  
we are his descendants and it is

894  
00:55:08,500 --> 00:55:12,929  
possible that he arrived from outer

895  
00:55:10,539 --> 00:55:12,929  
space

896  
00:55:22,449 --> 00:55:27,309  
could evidence of cro-magnons arrive

897  
00:55:25,030 --> 00:55:29,880  
will be found at Tiahuanaco at Earth

898  
00:55:27,309 --> 00:55:29,880

base one

899

00:55:31,909 --> 00:55:36,889

on the walls our heads giving to an

900

00:55:34,730 --> 00:55:40,509

ancient temple the same feeling as a

901

00:55:36,889 --> 00:55:40,509

modern day anthropological Museum

902

00:55:44,079 --> 00:55:48,940

the faces show of the wildering variety

903

00:55:46,510 --> 00:55:52,090

of shapes and expressions some are

904

00:55:48,940 --> 00:55:55,510

familiar others alien a range that

905

00:55:52,090 --> 00:56:00,510

covers the racial spectrum of men are

906

00:55:55,510 --> 00:56:00,510

these then experimental designs for men

907

00:56:07,960 --> 00:56:15,260

how could life have been transported to

908

00:56:10,760 --> 00:56:17,740

earth from outer space certainly in a

909

00:56:15,260 --> 00:56:20,330

universe thirteen billion years old

910

00:56:17,739 --> 00:56:24,489

there was time enough for uncounted

911

00:56:20,329 --> 00:56:27,039

species to rise create civilizations and

912

00:56:24,489 --> 00:56:29,569

scatter them across the universe

913  
00:56:27,039 --> 00:56:32,739  
reaching even the small out-of-the-way

914  
00:56:29,570 --> 00:56:32,740  
planet called Earth

915  
00:56:38,159 --> 00:56:44,139  
dr. Leslie Orgel is a biologist at the

916  
00:56:41,139 --> 00:56:46,359  
Salk Institute in California he and

917  
00:56:44,139 --> 00:56:48,489  
Nobel Prize winners her Francis Crick

918  
00:56:46,360 --> 00:56:51,309  
developed a theory of directed

919  
00:56:48,489 --> 00:56:53,669  
panspermia the idea that life on Earth

920  
00:56:51,309 --> 00:56:58,570  
was sent here by a superior civilization

921  
00:56:53,670 --> 00:57:01,059  
doctor or gal in the 19th century there

922  
00:56:58,570 --> 00:57:03,610  
were two theories about how life could

923  
00:57:01,059 --> 00:57:06,159  
have got to the earth from outside one

924  
00:57:03,610 --> 00:57:09,519  
theory which was due to Lord Kelvin in

925  
00:57:06,159 --> 00:57:12,639  
England said that life arrived as a spa

926  
00:57:09,519 --> 00:57:15,759  
carried on a meteorite and the other

927  
00:57:12,639 --> 00:57:19,359  
theory which was popularized by Aranea

928  
00:57:15,760 --> 00:57:21,250  
since Sweden suggested that a spore

929  
00:57:19,360 --> 00:57:23,140  
could have been blown directly from a

930  
00:57:21,250 --> 00:57:26,260  
planet on another solar system all the

931  
00:57:23,139 --> 00:57:28,809  
way to the earth in the last 10 or 20

932  
00:57:26,260 --> 00:57:31,810  
years it's been more and more clear that

933  
00:57:28,809 --> 00:57:34,480  
these theories just won't work but a spa

934  
00:57:31,809 --> 00:57:37,029  
coming from outer space would be

935  
00:57:34,480 --> 00:57:40,780  
destroyed by radiation long before it

936  
00:57:37,030 --> 00:57:42,630  
got here and a meteorite probably could

937  
00:57:40,780 --> 00:57:46,240  
never escape from another solar system

938  
00:57:42,630 --> 00:57:49,930  
without directed panspermia is a sort of

939  
00:57:46,239 --> 00:57:52,899  
last attempt to resurrect the theory

940  
00:57:49,929 --> 00:57:55,089  
that life could have come here from

941

00:57:52,900 --> 00:57:57,849  
elsewhere and the notion is that maybe

942  
00:57:55,090 --> 00:58:00,610  
life was deliberately sent here by a

943  
00:57:57,849 --> 00:58:04,710  
technological society on some of our

944  
00:58:00,610 --> 00:58:04,710  
planet probably in our own galaxy

945  
00:58:40,929 --> 00:58:45,789  
to reach earth base one spaceships would

946  
00:58:44,019 --> 00:58:49,030  
have to spend hundreds of years in

947  
00:58:45,789 --> 00:58:51,670  
flight to transport and sustain life

948  
00:58:49,030 --> 00:58:53,470  
over such an extended time space

949  
00:58:51,670 --> 00:58:56,050  
traveling civilization would have to

950  
00:58:53,469 --> 00:58:59,588  
ship an entire colony of men across a

951  
00:58:56,050 --> 00:59:02,230  
galaxy in suspended animation did it

952  
00:58:59,588 --> 00:59:05,349  
happen in the past was this the secret

953  
00:59:02,230 --> 00:59:08,250  
of early space travelers we now know how

954  
00:59:05,349 --> 00:59:08,250  
it might have been done

955  
00:59:11,000 --> 00:59:15,329

the method is called interspecies embryo

956

00:59:14,150 --> 00:59:17,309  
transplantation

957

00:59:15,329 --> 00:59:20,069  
it was developed here at the Worcester

958

00:59:17,309 --> 00:59:23,119  
foundation for Experimental Biology by

959

00:59:20,070 --> 00:59:23,119  
dr. MC Chang

960

00:59:24,969 --> 00:59:30,578  
in 1952 dr. Chang took a number of

961

00:59:28,659 --> 00:59:34,328  
fertilized eggs from the womb of a

962

00:59:30,579 --> 00:59:36,190  
rabbit and carried them to England there

963

00:59:34,329 --> 00:59:38,519  
the eggs were implanted in the womb of

964

00:59:36,190 --> 00:59:41,369  
another rabbit where they came to turn

965

00:59:38,519 --> 00:59:43,989  
the offspring in turn became pregnant

966

00:59:41,369 --> 00:59:46,000  
their fertilized eggs were then taken

967

00:59:43,989 --> 00:59:48,699  
from England and implanted in the

968

00:59:46,000 --> 00:59:50,800  
Wooster rabbits the Worcester Colony is

969

00:59:48,699 --> 00:59:56,500  
now composed of the descendants of that

970  
00:59:50,800 --> 00:59:59,200  
first embryo implantation like this then

971  
00:59:56,500 --> 01:00:02,170  
put him to the test tube so I pulled out

972  
00:59:59,199 --> 01:00:05,259  
a reputation through those tubes and put

973  
01:00:02,170 --> 01:00:07,780  
into a flask and bring back the

974  
01:00:05,260 --> 01:00:10,329  
transplant by reaching into the heart of

975  
01:00:07,780 --> 01:00:12,339  
this cell scientists are challenging our

976  
01:00:10,329 --> 01:00:14,829  
traditional concepts of life and

977  
01:00:12,338 --> 01:00:17,710  
morality yet faced with the threat of

978  
01:00:14,829 --> 01:00:19,539  
extinction a species capable of finding

979  
01:00:17,710 --> 01:00:22,599  
its salvation and an advanced

980  
01:00:19,539 --> 01:00:24,940  
biotechnology would truly seize the

981  
01:00:22,599 --> 01:00:27,818  
opportunity think it's a policy but all

982  
01:00:24,940 --> 01:00:33,838  
kinds part I human eggs from one plant

983  
01:00:27,818 --> 01:00:36,338  
one planet to another plan made our own

984  
01:00:33,838 --> 01:00:38,710  
biotechnology has made of the rabbit the

985  
01:00:36,338 --> 01:00:41,559  
container in which entire herds of

986  
01:00:38,710 --> 01:00:44,769  
cattle flocks of sheep and other animals

987  
01:00:41,559 --> 01:00:46,929  
are shipped around the world at the

988  
01:00:44,769 --> 01:00:50,349  
Wayne State Medical Center in Detroit

989  
01:00:46,929 --> 01:00:51,879  
dr. e se hafez has just received a

990  
01:00:50,349 --> 01:00:54,519  
rabbit from South America

991  
01:00:51,880 --> 01:00:57,990  
it carries embryonic additions to his

992  
01:00:54,519 --> 01:00:57,989  
colony of research monkeys

993  
01:01:12,489 --> 01:01:20,469  
the idea of embryo transfer is to obtain

994  
01:01:16,139 --> 01:01:23,889  
large number of embryos from one species

995  
01:01:20,469 --> 01:01:28,719  
and shipped them to another part of the

996  
01:01:23,889 --> 01:01:35,980  
world in the easy species like the

997  
01:01:28,719 --> 01:01:40,299  
rabbit now we have a rabbit here and we

998

01:01:35,980 --> 01:01:44,530  
have 200 embryos of monkeys in them in

999  
01:01:40,300 --> 01:01:51,030  
this one right the first step of this is

1000  
01:01:44,530 --> 01:01:51,030  
to how to collect the embryo

1001  
01:01:52,079 --> 01:01:56,670  
this is an acquire surgery

1002  
01:02:02,619 --> 01:02:09,389  
she's going in the lumen which is very

1003  
01:02:04,599 --> 01:02:09,389  
good it's very books toilet

1004  
01:02:11,639 --> 01:02:19,710  
then examination of the embryo under the

1005  
01:02:17,260 --> 01:02:19,710  
microscope

1006  
01:02:31,639 --> 01:02:38,808  
and then the transfer of the embryo into

1007  
01:02:35,239 --> 01:02:41,949  
another species and then we will go to

1008  
01:02:38,809 --> 01:02:44,239  
the monkey and Transplant the monkey

1009  
01:02:41,949 --> 01:02:47,949  
embryos that we're putting the rabbit

1010  
01:02:44,239 --> 01:02:47,949  
into this monkey

1011  
01:02:48,858 --> 01:02:54,400  
I don't like to put any air models

1012  
01:02:51,108 --> 01:02:54,400

inside at all so just

1013

01:02:58,579 --> 01:03:03,099

and I think this is ready to go to the

1014

01:03:00,739 --> 01:03:03,099

colony

1015

01:04:12,610 --> 01:04:18,250

a colony of cells lives in the bottle

1016

01:04:15,699 --> 01:04:21,219

the red fluid in which they float as

1017

01:04:18,250 --> 01:04:23,050

their food tissue cultures such as this

1018

01:04:21,219 --> 01:04:26,469

have supported colonies of the same

1019

01:04:23,050 --> 01:04:29,170

cells for more than 50 years in the same

1020

01:04:26,469 --> 01:04:32,019

manner a colony of fertilized human eggs

1021

01:04:29,170 --> 01:04:34,500

or embryos might be kept alive during a

1022

01:04:32,019 --> 01:04:36,849

long journey between the stars

1023

01:04:34,500 --> 01:04:39,340

periodically several embryos would be

1024

01:04:36,849 --> 01:04:42,069

implanted in a female crew members be

1025

01:04:39,340 --> 01:04:44,620

born grow and take their place in the

1026

01:04:42,070 --> 01:04:47,070

crew caring for the embryo colony that

1027  
01:04:44,619 --> 01:04:51,089  
would one day be planted on a new world

1028  
01:04:47,070 --> 01:04:51,090  
light-years from their own planet

1029  
01:04:51,130 --> 01:04:56,690  
in just such a fashion a rocket might

1030  
01:04:54,679 --> 01:04:59,419  
have crossed the reaches of open space

1031  
01:04:56,690 --> 01:05:03,670  
and brought to earth an embryonic colony

1032  
01:04:59,420 --> 01:05:03,670  
destined to become the ancestors of men

1033  
01:05:26,079 --> 01:05:32,199  
new ancient drawings commemorate the

1034  
01:05:28,969 --> 01:05:32,199  
arrival of life on Earth

1035  
01:05:33,909 --> 01:05:40,389  
all over the world men have cut shaped

1036  
01:05:37,568 --> 01:05:44,190  
and gouged the earth to create images

1037  
01:05:40,389 --> 01:05:44,190  
that could only be seen from the heavens

1038  
01:05:46,409 --> 01:05:50,940  
the more we understand the progress of

1039  
01:05:48,900 --> 01:05:52,769  
modern science the more we must

1040  
01:05:50,940 --> 01:05:55,070  
re-examine the accomplishments of the

1041  
01:05:52,769 --> 01:05:55,070  
past

1042  
01:06:02,889 --> 01:06:07,759  
the ancient Egyptians built an

1043  
01:06:05,389 --> 01:06:12,038  
incredible complex of temples that were

1044  
01:06:07,759 --> 01:06:12,039  
in reality astronomical observatories

1045  
01:06:13,469 --> 01:06:18,838  
the temple of Amun RA the Sun God and

1046  
01:06:16,559 --> 01:06:21,568  
creator is aligned so that its axis

1047  
01:06:18,838 --> 01:06:24,409  
points directly to the Sun at the moment

1048  
01:06:21,568 --> 01:06:24,409  
of the midwinter solstice

1049  
01:06:30,159 --> 01:06:36,348  
the temples of mud and Khonsu the

1050  
01:06:33,050 --> 01:06:38,960  
consort of raw form an axis that points

1051  
01:06:36,349 --> 01:06:42,130  
to the crescent moon that rises the day

1052  
01:06:38,960 --> 01:06:42,130  
after the summer solstice

1053  
01:06:43,849 --> 01:06:48,739  
Egyptian astronomy was both practical

1054  
01:06:46,579 --> 01:06:50,900  
and spiritual for it allowed them to

1055

01:06:48,739 --> 01:06:53,798  
predict the annual flooding of the Nile

1056  
01:06:50,900 --> 01:06:57,139  
and thus know when to plant their crops

1057  
01:06:53,798 --> 01:06:59,679  
but more important the temple lines

1058  
01:06:57,139 --> 01:07:03,728  
could be followed directly to the Sun

1059  
01:06:59,679 --> 01:07:03,728  
the source of immortality

1060  
01:07:04,659 --> 01:07:08,980  
to the ancient Egyptians death was but a

1061  
01:07:07,239 --> 01:07:12,969  
doorway that led from a life of

1062  
01:07:08,980 --> 01:07:14,769  
insignificance to eternal life and so

1063  
01:07:12,969 --> 01:07:15,639  
the Egyptian pharaohs crossed from

1064  
01:07:14,769 --> 01:07:17,619  
Karnak

1065  
01:07:15,639 --> 01:07:20,529  
on the east bank of the Nile where the

1066  
01:07:17,619 --> 01:07:23,789  
living dwelled to the West Bank where

1067  
01:07:20,530 --> 01:07:23,789  
they entered the city of the Dead

1068  
01:07:25,780 --> 01:07:30,190  
once within the city of the Dead the

1069  
01:07:28,360 --> 01:07:32,579

Pharaoh was prepared for a journey into

1070

01:07:30,190 --> 01:07:32,579  
space

1071

01:07:54,460 --> 01:07:59,050  
in the light of present-day knowledge

1072

01:07:56,800 --> 01:08:01,059  
the ancient Egyptian art of

1073

01:07:59,050 --> 01:08:05,369  
mummification seems an echo of

1074

01:08:01,059 --> 01:08:05,369  
modern-day preparations for space travel

1075

01:08:05,940 --> 01:08:12,210  
the Egyptians believed that two spirits

1076

01:08:08,639 --> 01:08:14,868  
remain with a man after death the second

1077

01:08:12,210 --> 01:08:17,730  
spirit the BA was the space traveler

1078

01:08:14,869 --> 01:08:19,920  
each night the BA left the body and

1079

01:08:17,729 --> 01:08:21,539  
traveled with the Sun through space

1080

01:08:19,920 --> 01:08:24,020  
until it returned to light the world

1081

01:08:21,539 --> 01:08:24,019  
again

1082

01:08:25,159 --> 01:08:30,809  
to the ancient Egyptians the car and the

1083

01:08:28,289 --> 01:08:33,750  
bond were not abstract disembodied

1084  
01:08:30,810 --> 01:08:35,548  
ghosts but real entities and they

1085  
01:08:33,750 --> 01:08:38,149  
required a place in which to dwell for

1086  
01:08:35,548 --> 01:08:38,149  
all eternity

1087  
01:08:41,599 --> 01:08:45,619  
the burial tombs of the pharaohs were

1088  
01:08:43,729 --> 01:08:48,019  
therefore far more elaborate and were

1089  
01:08:45,618 --> 01:08:51,309  
richly decorated in any of the palaces

1090  
01:08:48,020 --> 01:08:51,310  
in which they reign during life

1091  
01:08:53,569 --> 01:08:57,950  
the dust rights of the Egyptians may

1092  
01:08:56,060 --> 01:09:00,470  
well have been imitations of an event

1093  
01:08:57,949 --> 01:09:02,510  
they had been told over witnessed the

1094  
01:09:00,470 --> 01:09:04,869  
preparations for a real voyage into

1095  
01:09:02,510 --> 01:09:04,869  
space

1096  
01:09:09,960 --> 01:09:18,010  
the pyramids were more than mere tombs

1097  
01:09:12,789 --> 01:09:20,350  
for the dead the Great Pyramid of Cheops

1098  
01:09:18,010 --> 01:09:22,359  
is an almanac that measures the days of

1099  
01:09:20,350 --> 01:09:27,970  
the year the circumference of the earth

1100  
01:09:22,359 --> 01:09:29,859  
and the distance to the Sun the Egyptian

1101  
01:09:27,970 --> 01:09:32,380  
pyramids have been studied by many

1102  
01:09:29,859 --> 01:09:34,270  
scientists but the great breakthroughs

1103  
01:09:32,380 --> 01:09:36,789  
have been made by physicist Patrick

1104  
01:09:34,270 --> 01:09:39,700  
Flanagan his studies have shown that

1105  
01:09:36,789 --> 01:09:44,439  
peculiar function of the pyramid and its

1106  
01:09:39,699 --> 01:09:46,420  
relationship to him or tality it's very

1107  
01:09:44,439 --> 01:09:49,899  
possible that the Great Pyramid of Giza

1108  
01:09:46,420 --> 01:09:53,190  
was constructed by a race of scientist

1109  
01:09:49,899 --> 01:09:55,929  
having far superior knowledge to our own

1110  
01:09:53,189 --> 01:09:58,869  
the fact that the Great Pyramid is level

1111  
01:09:55,930 --> 01:10:00,970  
over an area of 14 acres within one half

1112

01:09:58,869 --> 01:10:03,309  
of an inch and is the world's most

1113  
01:10:00,970 --> 01:10:05,980  
accurately aligned building to true

1114  
01:10:03,310 --> 01:10:09,810  
north and the fact that it incorporates

1115  
01:10:05,979 --> 01:10:12,609  
higher mathematics in its very design

1116  
01:10:09,810 --> 01:10:16,120  
indicate that a superior race designed

1117  
01:10:12,609 --> 01:10:18,849  
the Great Pyramid now when we ask why is

1118  
01:10:16,119 --> 01:10:21,309  
there possibility for instance that the

1119  
01:10:18,850 --> 01:10:23,770  
Great Pyramid is some kind of space

1120  
01:10:21,310 --> 01:10:26,350  
beacon well this may be very possible

1121  
01:10:23,770 --> 01:10:31,120  
that the Great Pyramid is some kind of

1122  
01:10:26,350 --> 01:10:33,880  
beacon homing beacon for spaceships this

1123  
01:10:31,119 --> 01:10:36,460  
possibility exists due to the fact that

1124  
01:10:33,880 --> 01:10:38,859  
even with our most powerful radio

1125  
01:10:36,460 --> 01:10:41,109  
telescopes we've been unable to detect

1126  
01:10:38,859 --> 01:10:43,779

any kind of communications going on in

1127

01:10:41,109 --> 01:10:46,269

outer space and yet UFO sightings

1128

01:10:43,779 --> 01:10:49,599

indicate that there is activity in outer

1129

01:10:46,270 --> 01:10:52,150

space therefore the UFOs must be using

1130

01:10:49,600 --> 01:10:54,310

another form of energy to communicate by

1131

01:10:52,149 --> 01:10:56,859

and it's very possible that the energy

1132

01:10:54,310 --> 01:11:00,460

phenomena associated with the pyramid is

1133

01:10:56,859 --> 01:11:02,929

the energy used for communications by

1134

01:11:00,460 --> 01:11:05,689

UFOs

1135

01:11:02,930 --> 01:11:09,409

it's very possible that pyramid energy

1136

01:11:05,689 --> 01:11:11,149

could be used to preserve tissues over

1137

01:11:09,409 --> 01:11:15,349

extended period of time

1138

01:11:11,149 --> 01:11:18,489

such as on long space travel or for

1139

01:11:15,350 --> 01:11:22,610

preserving tissues for cloning purposes

1140

01:11:18,489 --> 01:11:25,760

for future cell regeneration the

1141  
01:11:22,609 --> 01:11:30,819  
pyramids phenomenal ability are the

1142  
01:11:25,760 --> 01:11:34,369  
pyramid energy ability to mummify food

1143  
01:11:30,819 --> 01:11:36,590  
so completely with no destruction of the

1144  
01:11:34,369 --> 01:11:40,119  
tissue in the case that it would be a

1145  
01:11:36,590 --> 01:11:43,699  
very viable natural source of

1146  
01:11:40,119 --> 01:11:46,640  
preservative energy or cloning purposes

1147  
01:11:43,699 --> 01:11:49,159  
or for for preserving anything any cell

1148  
01:11:46,640 --> 01:11:51,220  
structures for an extended period of

1149  
01:11:49,159 --> 01:11:51,220  
time

1150  
01:11:52,319 --> 01:11:58,289  
and so for thousands of years the

1151  
01:11:56,248 --> 01:12:01,260  
mummified body tissues of the Pharaohs

1152  
01:11:58,288 --> 01:12:04,518  
rested near the pyramids along with an

1153  
01:12:01,260 --> 01:12:09,229  
exact record of every day spent on earth

1154  
01:12:04,519 --> 01:12:09,229  
detailed Diaries why

1155  
01:12:10,100 --> 01:12:15,660  
at Egyptian priests been told that

1156  
01:12:13,079 --> 01:12:18,479  
reincarnation of a body was possible if

1157  
01:12:15,659 --> 01:12:20,699  
its cells were preserved the diary would

1158  
01:12:18,479 --> 01:12:24,419  
then serve as a coded memory for a new

1159  
01:12:20,699 --> 01:12:27,059  
body immortality would then depend on

1160  
01:12:24,420 --> 01:12:33,649  
the pyramid shape a form whose

1161  
01:12:27,060 --> 01:12:36,840  
beginnings are seen at earth base one at

1162  
01:12:33,649 --> 01:12:38,699  
tiahuanaco earth base one a mound of

1163  
01:12:36,840 --> 01:12:41,819  
dirt covers the foundation of an

1164  
01:12:38,699 --> 01:12:44,939  
enormous pyramid more than 15,000 years

1165  
01:12:41,819 --> 01:12:49,130  
old at virtually every site of ancient

1166  
01:12:44,939 --> 01:12:49,129  
mysteries a pyramid can be found

1167  
01:12:51,140 --> 01:12:58,619  
in Teotihuacan a Mayan stronghold there

1168  
01:12:55,619 --> 01:13:01,079  
stands another perfectly aligned pyramid

1169

01:12:58,619 --> 01:13:04,380  
more than a storehouse of mathematical

1170  
01:13:01,079 --> 01:13:06,899  
data it concentrates bio cosmic energy a

1171  
01:13:04,380 --> 01:13:11,369  
force that the Mayans may have used to

1172  
01:13:06,899 --> 01:13:13,649  
create infinite life today's science is

1173  
01:13:11,369 --> 01:13:16,250  
just beginning to understand how it can

1174  
01:13:13,649 --> 01:13:16,250  
be utilized

1175  
01:13:19,270 --> 01:13:24,110  
the hope of immortality is contained in

1176  
01:13:22,310 --> 01:13:27,950  
a genetic message stored in the nucleus

1177  
01:13:24,109 --> 01:13:30,349  
of the cell when the cell divides that

1178  
01:13:27,949 --> 01:13:32,869  
message coded in chemical units within

1179  
01:13:30,350 --> 01:13:35,810  
the genes is transmitted to each of the

1180  
01:13:32,869 --> 01:13:38,300  
new daughter cells so long as that

1181  
01:13:35,810 --> 01:13:40,970  
message is stored within the cell it

1182  
01:13:38,300 --> 01:13:44,350  
remains alive and so too does the

1183  
01:13:40,970 --> 01:13:44,350

possibility of immortality

1184

01:13:48,300 --> 01:13:53,550  
in the lifecycle of the axolotl a

1185

01:13:51,270 --> 01:13:56,240  
prehistoric seeming creature named for

1186

01:13:53,550 --> 01:13:58,409  
the Aztec god of death and resurrection

1187

01:13:56,239 --> 01:14:04,309  
scientists have found a form of

1188

01:13:58,409 --> 01:14:07,439  
immortality at the University of Indiana

1189

01:14:04,310 --> 01:14:10,140  
dr. Janice Brothers uses the cells of

1190

01:14:07,439 --> 01:14:11,789  
one axolotl to create others exact

1191

01:14:10,140 --> 01:14:15,600  
duplicates that are in every respect

1192

01:14:11,789 --> 01:14:17,609  
identical to the cell donors the process

1193

01:14:15,600 --> 01:14:19,410  
is called cloning and it makes

1194

01:14:17,609 --> 01:14:21,689  
theoretically possible the creation of

1195

01:14:19,409 --> 01:14:23,760  
an army of identical creatures with

1196

01:14:21,689 --> 01:14:28,619  
exactly the same physical and genetic

1197

01:14:23,760 --> 01:14:30,810  
features and capabilities eggs are

1198  
01:14:28,619 --> 01:14:32,430  
collected from a white X level if

1199  
01:14:30,810 --> 01:14:34,350  
fertilized normally the eggs would

1200  
01:14:32,430 --> 01:14:37,170  
divide into a number of new different

1201  
01:14:34,350 --> 01:14:42,090  
axolotls sharing is there one common

1202  
01:14:37,170 --> 01:14:43,859  
trait the white skin color but these

1203  
01:14:42,090 --> 01:14:46,860  
eggs are destined to serve only as

1204  
01:14:43,859 --> 01:14:48,809  
carriers mere biological party

1205  
01:14:46,859 --> 01:14:52,889  
containing no genetic message of their

1206  
01:14:48,810 --> 01:14:55,020  
own the egg nucleus is destroyed it can

1207  
01:14:52,890 --> 01:14:57,480  
no longer be fertilized and develop in a

1208  
01:14:55,020 --> 01:14:59,310  
normal manner it can no longer provide

1209  
01:14:57,479 --> 01:15:03,049  
any genetic instructions to the

1210  
01:14:59,310 --> 01:15:03,050  
individual that will develop from it

1211  
01:15:17,550 --> 01:15:23,060  
a spotted axolotl embryo becomes the

1212  
01:15:20,430 --> 01:15:23,060  
cell donor

1213  
01:15:30,408 --> 01:15:35,238  
carefully the nucleus of a single cell

1214  
01:15:32,988 --> 01:15:38,198  
that carries the genetic information is

1215  
01:15:35,238 --> 01:15:40,759  
teased free and pulled into the pipette

1216  
01:15:38,198 --> 01:15:44,619  
it'll provide all the instructions

1217  
01:15:40,760 --> 01:15:44,619  
needed to create a new individual

1218  
01:15:50,639 --> 01:15:56,460  
the nucleus is inserted into the

1219  
01:15:52,979 --> 01:15:58,678  
unfertilized egg one by one cells from

1220  
01:15:56,460 --> 01:16:02,730  
the same embryo can be implanted in host

1221  
01:15:58,679 --> 01:16:04,440  
eggs the results will be cloned a total

1222  
01:16:02,729 --> 01:16:07,459  
replica of that creature from which the

1223  
01:16:04,439 --> 01:16:07,460  
cell has been taken

1224  
01:16:17,729 --> 01:16:22,738  
each of the eggs carries the same

1225  
01:16:20,460 --> 01:16:24,329  
genetic instructions and will develop

1226

01:16:22,738 --> 01:16:29,029  
and do carbon copies of each other

1227  
01:16:24,329 --> 01:16:29,029  
clones of identical axons

1228  
01:17:04,279 --> 01:17:09,359  
the virgin births have brought forth

1229  
01:17:06,810 --> 01:17:14,060  
identical spot by spot copies of a

1230  
01:17:09,359 --> 01:17:14,059  
single parent a uniform set of clones

1231  
01:17:28,000 --> 01:17:33,350  
full-grown each axolotl looms like the

1232  
01:17:31,310 --> 01:17:35,500  
prehistoric monsters that roamed the

1233  
01:17:33,350 --> 01:17:38,090  
earth during the age of the dinosaurs

1234  
01:17:35,500 --> 01:17:40,869  
but these creatures are so far removed

1235  
01:17:38,090 --> 01:17:44,630  
from that time as to be of another world

1236  
01:17:40,869 --> 01:17:46,840  
for they are clones exact copies of each

1237  
01:17:44,630 --> 01:17:46,840  
other

1238  
01:18:04,920 --> 01:18:10,659  
scientists like dr. brothers are opposed

1239  
01:18:07,569 --> 01:18:12,670  
to cloning human beings for cloning

1240  
01:18:10,659 --> 01:18:15,789

creates a rigid mole that will stabilize

1241

01:18:12,670 --> 01:18:18,690

one form and that runs counter to the

1242

01:18:15,789 --> 01:18:22,269

design of human creation and evolution

1243

01:18:18,689 --> 01:18:24,279

for only in our genetic variety and we

1244

01:18:22,270 --> 01:18:26,290

gain the traits needed to survive the

1245

01:18:24,279 --> 01:18:28,659

changes in the earthly environment and

1246

01:18:26,289 --> 01:18:32,430

perhaps also those we shall find on the

1247

01:18:28,659 --> 01:18:32,430

alien unknown worlds of space

1248

01:18:35,698 --> 01:18:40,889

the clone is a biological wonder that

1249

01:18:38,429 --> 01:18:43,560

may one day enable us to reproduce exact

1250

01:18:40,890 --> 01:18:45,989

copies of animals and plants needed to

1251

01:18:43,560 --> 01:18:48,710

perform as yet unknown tasks in an

1252

01:18:45,988 --> 01:18:48,709

uncertain future

1253

01:19:06,390 --> 01:19:12,460

the evidence is sometimes dim often

1254

01:19:09,850 --> 01:19:15,550

subject to different interpretations but

1255  
01:19:12,460 --> 01:19:19,949  
somehow the idea persists the earth has

1256  
01:19:15,550 --> 01:19:19,949  
been visited before and where you get

1257  
01:19:21,720 --> 01:19:35,110  
the question remains how will we

1258  
01:19:24,909 --> 01:19:37,619  
communicate with the visitors at the

1259  
01:19:35,109 --> 01:19:39,549  
Yerkes primate Center in Atlanta Georgia

1260  
01:19:37,619 --> 01:19:50,590  
experiments are underway at this very

1261  
01:19:39,550 --> 01:19:53,350  
moment to answer that question this is

1262  
01:19:50,590 --> 01:19:55,920  
Lana she lives in a plastic cage with a

1263  
01:19:53,350 --> 01:19:55,920  
computer

1264  
01:20:02,340 --> 01:20:08,069  
lannigan teller concluded a provider

1265  
01:20:04,869 --> 01:20:08,069  
with food and drink

1266  
01:20:14,479 --> 01:20:20,879  
the symbols are abstract not pictures of

1267  
01:20:17,789 --> 01:20:23,100  
real objects and by using them Lana is

1268  
01:20:20,880 --> 01:20:26,760  
in reality using language as well as any

1269  
01:20:23,100 --> 01:20:28,680  
human being to get beyond the confines

1270  
01:20:26,760 --> 01:20:30,869  
of her plastic world world

1271  
01:20:28,680 --> 01:20:46,680  
Lana tells the computer to open the

1272  
01:20:30,869 --> 01:20:49,019  
window she orders the computer to

1273  
01:20:46,680 --> 01:20:52,560  
display motion pictures and slides for

1274  
01:20:49,020 --> 01:20:55,560  
her own amusement but more important

1275  
01:20:52,560 --> 01:20:58,890  
Lana can use the computer to talk to the

1276  
01:20:55,560 --> 01:21:00,990  
scientists and technicians at Yerkes one

1277  
01:20:58,890 --> 01:21:03,770  
of Lana's favorite conversation partners

1278  
01:21:00,989 --> 01:21:03,769  
is Tim Gill

1279  
01:21:07,000 --> 01:21:12,409  
tim has a computer panel just outside

1280  
01:21:09,920 --> 01:21:15,250  
Lana's room they talked to each other

1281  
01:21:12,409 --> 01:21:15,250  
through the computer

1282  
01:21:32,738 --> 01:21:37,750  
the language they share is not chimp

1283

01:21:35,109 --> 01:21:40,689  
chirping or English but a languages

1284  
01:21:37,750 --> 01:21:43,899  
symbol is called Turkish it was designed

1285  
01:21:40,689 --> 01:21:45,669  
by dr. ernst von Klaus or felt you have

1286  
01:21:43,899 --> 01:21:48,309  
a breakdown of it here

1287  
01:21:45,670 --> 01:21:53,079  
I brought a partial breakdown for all

1288  
01:21:48,310 --> 01:21:56,800  
the requests that Lana can use please is

1289  
01:21:53,079 --> 01:21:59,949  
a marker that tells that the what is

1290  
01:21:56,800 --> 01:22:03,010  
coming is going to be a request machine

1291  
01:21:59,949 --> 01:22:05,639  
and Tim are two active agents in the

1292  
01:22:03,010 --> 01:22:10,869  
case of machine there are two activities

1293  
01:22:05,640 --> 01:22:14,670  
giving and making giving has a number of

1294  
01:22:10,869 --> 01:22:19,680  
objects one of them would be piece of

1295  
01:22:14,670 --> 01:22:24,100  
Apple it could also be piece of banana

1296  
01:22:19,680 --> 01:22:26,710  
if the machine is making something it

1297  
01:22:24,100 --> 01:22:29,410

can't make a piece of Apple it can't

1298

01:22:26,710 --> 01:22:33,640

make a piece of banana or an M&M

1299

01:22:29,409 --> 01:22:41,649

it can only make a slide or it can make

1300

01:22:33,640 --> 01:22:43,360

the window open Lana forms perfect

1301

01:22:41,649 --> 01:22:46,960

sentences that communicate specific

1302

01:22:43,359 --> 01:22:50,049

ideas she has language in common with

1303

01:22:46,960 --> 01:22:50,649

Tim the experiment is not as sterile as

1304

01:22:50,050 --> 01:22:52,900

it looks

1305

01:22:50,649 --> 01:22:55,079

Tim and Lana have developed a close

1306

01:22:52,899 --> 01:22:55,079

relationship

1307

01:22:57,770 --> 01:23:02,480

can Tim visit Lana he asks

1308

01:23:05,229 --> 01:23:08,189

yes

1309

01:23:13,590 --> 01:23:19,090

much of timin lavas friendship is based

1310

01:23:16,420 --> 01:23:25,960

upon proper social behavior proper that

1311

01:23:19,090 --> 01:23:36,270

is in chimpanzee society and so Tim asks

1312  
01:23:25,960 --> 01:23:36,270  
can Tim groom Lana yes

1313  
01:23:57,899 --> 01:24:04,559  
they'll wanna groom Tim of course

1314  
01:24:18,149 --> 01:24:23,549  
it's not yet Planet of the Apes but Lana

1315  
01:24:21,359 --> 01:24:25,859  
has demonstrated the ability to utilize

1316  
01:24:23,550 --> 01:24:28,199  
man's most sophisticated tool the

1317  
01:24:25,859 --> 01:24:31,170  
computer and his most important

1318  
01:24:28,199 --> 01:24:32,939  
intellectual attainment language we can

1319  
01:24:31,170 --> 01:24:35,220  
learn a great deal from this experiment

1320  
01:24:32,939 --> 01:24:38,250  
for anyone reaching the Earth from the

1321  
01:24:35,220 --> 01:24:40,289  
deep recesses of space may occupy about

1322  
01:24:38,250 --> 01:24:42,750  
the same position on the intelligent

1323  
01:24:40,289 --> 01:24:46,170  
scale relative to us as we do in

1324  
01:24:42,750 --> 01:24:48,210  
relation to Lana but it also means that

1325  
01:24:46,170 --> 01:24:50,159  
we have found at least one means of

1326  
01:24:48,210 --> 01:24:52,699  
communicating with a totally alien

1327  
01:24:50,159 --> 01:24:52,699  
species

1328  
01:25:00,389 --> 01:25:07,050  
a language of symbols carved analysis of

1329  
01:25:03,359 --> 01:25:09,359  
years ago is still being deciphered we

1330  
01:25:07,050 --> 01:25:11,340  
know that Mayans left a calendar one

1331  
01:25:09,359 --> 01:25:14,339  
that stretches back more than 90 million

1332  
01:25:11,340 --> 01:25:17,159  
years long before civilized man roamed

1333  
01:25:14,340 --> 01:25:18,899  
the earth and forward in time to a day

1334  
01:25:17,158 --> 01:25:21,529  
that will mark the close of a crucial

1335  
01:25:18,899 --> 01:25:21,530  
cycle

1336  
01:25:26,479 --> 01:25:34,488  
an inscription tells us that the modern

1337  
01:25:29,090 --> 01:25:36,350  
period will end December 24th 2011 ad we

1338  
01:25:34,488 --> 01:25:38,719  
may presume that they were computing the

1339  
01:25:36,350 --> 01:25:45,260  
length of his space voyage and marking

1340

01:25:38,720 --> 01:25:47,960  
the exact date of return they may return

1341  
01:25:45,260 --> 01:25:50,390  
to seek the fate of the colony left-hand

1342  
01:25:47,960 --> 01:25:52,340  
berth perhaps at wish wall they will

1343  
01:25:50,390 --> 01:25:56,510  
find answers we have never been able to

1344  
01:25:52,340 --> 01:25:59,989  
define this was one of the last bastions

1345  
01:25:56,510 --> 01:26:02,650  
of Mayan society and here a carving is

1346  
01:25:59,988 --> 01:26:07,159  
found unlike any other in Mayan lore

1347  
01:26:02,649 --> 01:26:09,529  
clearly a skull and crossbones according

1348  
01:26:07,159 --> 01:26:12,229  
to legend it is the death house and

1349  
01:26:09,529 --> 01:26:13,670  
nearby is another structure marked by a

1350  
01:26:12,229 --> 01:26:17,769  
procession of Turtles

1351  
01:26:13,670 --> 01:26:17,770  
the Mayans simple for a long life

1352  
01:26:19,579 --> 01:26:24,559  
did the final experiments at cloning

1353  
01:26:22,100 --> 01:26:27,070  
take place here near the Great Pyramid

1354  
01:26:24,560 --> 01:26:27,070

of wish mom

1355

01:26:29,208 --> 01:26:36,889

December 24th Christmas Eve 2011 ad on

1356

01:26:34,880 --> 01:26:39,859

that day they may return to seek the

1357

01:26:36,889 --> 01:26:41,748

fate of the colony left on earth perhaps

1358

01:26:39,859 --> 01:26:44,569

they will settle in the jungle of wish

1359

01:26:41,748 --> 01:26:46,429

mama were according to legend Mayan

1360

01:26:44,569 --> 01:26:49,728

priests talked to their gods through a

1361

01:26:46,429 --> 01:26:52,760

black shiny glass-like rock an ancient

1362

01:26:49,729 --> 01:26:54,979

description of a television receiver we

1363

01:26:52,760 --> 01:26:56,958

know now how they transported a colony

1364

01:26:54,979 --> 01:27:00,650

to earth and what they might have left

1365

01:26:56,958 --> 01:27:03,219

behind we have only to learn why they

1366

01:27:00,649 --> 01:27:03,219

are coming back
