George Diller/SDO Launch Commentator: Standing by, the Centaur is ready to deploy SDO.

Rob Gagnon/Launch Vehicle Telemetry Manager: And we have indication of spacecraft separation.

George Diller/SDO Launch Commentator: We have indications that the SDO spacecraft has separated from the Centaur stage of the Atlas V.

George Diller/SDO Launch Commentator: And momentarily the solar arrays should deploy.

We'll get confirmation of that when we talk with Omar Baez, our NASA Launch Director, today, and then we'll begin to monitor the spacecraft state of health through the SDO White Sands ground station.
