one minute - touchdown endeavour

landing gear will be locked down and place at 300 feet in altitude

thirty seconds to touchdown

the landing gear is down and locked

Doug Hurley now deploying the drag chute

and Commander Mark Polansky

rotating the nose gear down to the neck

nose gear touchdown

never rolling out on runway one-five at

the Kennedy Space Center wrapping up a

the Kennedy Space Center wrapping up a

6.5 million mile mission this is the

71st landing at the Kennedy Space Center

endeavour has completed its 23rd mission
in the 127 space shuttle mission it was

the 29th to the International Space

Station

roger wheelstop endeavour welcome home

congratulations on a superb mission from

beginning to end very well done

well thanks to you into the whole team

that's what it's all about and we're

happy to be home
