from 1969 to 1972 we had you know a
total of six moon landings 12 humans

walked on the surface of the Moon

we have elevated the human condition we

have improved human lives we have raised

the standard of living for every person

on earth because of space exploration

we're going to go back to the moon and

we're going to take what we learned

there and we're going to go to Mars
