this year and every year it was a long time let's go kamen country's leaders in doing this thing so far it would be nice six subscribers do wanted yes Justice of Israel totally the fastest out I'm felicity geez Oh you know asano keep a special surprise ET
climbing I've not know if you see me

estoy aquí para sorry

venusian but IDK kinetic energy kajal 60

latasha cosmonaut ee gavazzi entrar

Cavazos novigrad car mr. Siefert I DT

partials what science experience will be

on board well I main goal right now is

to get on station then we will take the

handover from the other crew will be

spending almost four months over there

there are a lot of experiments planned

which are aimed for both at protecting

our wonderful mother earth and also

aimed at exploring further exploring
space we will have extra curricular activity we will support the docking of various cargo vehicles the russian
progress is the HDD Japanese the European ATV and also the US commercial vehicles dragon and another one teachers
already look what about the little birdie that your your daughter gave you well it's a little red bird the bird right now is in my personal things right now is undergoing the process of packaging with medics and with virologist to make sure that it is safe for spaceflight how is your mood how are
you feeling I'm feeling good we've been

44 00:07:02,908 --> 00:07:07,680 looking forward to this day for a long

45 00:07:04,288 --> 00:07:09,779 time we are ready to take off to

46 00:07:07,680 --> 00:07:12,379 Baikonur and then two weeks we'll be off

47 00:07:09,779 --> 00:07:12,379 to space

48 00:07:16,189 --> 00:07:19,339 thank you

49 00:09:16,889 --> 00:09:18,948 you
