Hola!

This is Lola from Plaza Sésamo, and Lola's so happy because she loves to have adventures with her amigas. Diana, y Sandra. And guess what?

They are real-life NASA engineers, and they work on Mars!

Hahaha!

Well Lola, we don't work on Mars ourselves.

You don't?

But we do have robots at Mars like Curiosity and MAVEN.

Wow!

Where can Lola learn more?

Lola, right here on NASA TV.

Right here right now?

Yes Lola, you are on TV. Say hi, go ahead and say hello!
Hello everyone. You are watching NASA TV!

Hahaha!
