hi i'm mary j blige hi I'm NASA

astronaut Leland Melvin and I'm thrilled to be here with Mary today for a new collaboration between NASA and the foundation for the advancement of women now I'm excited that my foundation fund has the opportunity to work with NASA in support of our mission to inspire girls through programs that foster education career development self-esteem and personal world and I'm glad to work with Mary to develop exciting new activities as part of NASA's summer of innovation project in support of the president's
educate to innovate campaign imagine it

evening exploring doing who knows what you'll

discover you
