I would say that Katherine Johnson's story, what I found was unfortunate was that it was one of the first times that I had heard her story, it's common not to hear a story that portrays black women or people of color, or it's almost like I hear pieces of the story, and over time, I've piecemealed it together, and I think I understand, and then something else comes up.

And I think what the book, Hidden Figures, is very well-named in that it emphasizes how important it is for women, for women of color, to see people that look like them doing amazing things.

And so if Katherine Johnson ever see this, then, thank you for your story!

I wish I heard about it a lot sooner, but I'm glad to hear it.

[Music] [Don't you know that we're able] [That alone makes us major] [We can all sit at the table]
