

1
00:00:17,609 --> 00:00:24,118
welcome to shattered reality with their

2
00:00:20,920 --> 00:00:26,919
hosts Kate Valentine and faroush ah

3
00:00:24,118 --> 00:00:30,570
prepare to have your paradigms shifted

4
00:00:26,919 --> 00:00:34,689
in the truths questioned and now

5
00:00:30,570 --> 00:00:37,000
shattered reality hi welcome to the

6
00:00:34,689 --> 00:00:40,269
first attempt it are shattering your

7
00:00:37,000 --> 00:00:43,060
reality this is Kate and Ferruccio

8
00:00:40,270 --> 00:00:45,970
coming your way on air and up in the

9
00:00:43,060 --> 00:00:49,540
clouds tonight we're honored to have as

10
00:00:45,969 --> 00:00:52,390
our guest mr. Don Ecker his background

11
00:00:49,539 --> 00:00:54,039
in bhau's military law enforcement but

12
00:00:52,390 --> 00:00:54,850
most importantly along with his wife

13
00:00:54,039 --> 00:00:58,539
Vicky

14
00:00:54,850 --> 00:01:01,390
he established UFO magazine he is an

15
00:00:58,539 --> 00:01:03,070
intrepid UFO investigator very well

16
00:01:01,390 --> 00:01:06,340
known very well respected in the field

17
00:01:03,070 --> 00:01:08,709
and tonight he is here with us to

18
00:01:06,340 --> 00:01:12,280
discuss our very mysterious satellite

19
00:01:08,709 --> 00:01:15,639
the moon fittingly just yesterday

20
00:01:12,280 --> 00:01:17,859
morning we experienced the Blood Moon so

21
00:01:15,640 --> 00:01:21,460
done thank you so much for being patient

22
00:01:17,859 --> 00:01:24,280
for being with us and welcome to

23
00:01:21,459 --> 00:01:26,799
shattered reality well thank you so much

24
00:01:24,280 --> 00:01:31,090
and it's quite an honor to be your very

25
00:01:26,799 --> 00:01:35,799
first guest it's all yes we're very

26
00:01:31,090 --> 00:01:37,570
honored and I I have had a great

27
00:01:35,799 --> 00:01:41,200
interest this is Russia here I've had a

28
00:01:37,569 --> 00:01:44,559
great interest in moon anomalies for a

29

00:01:41,200 --> 00:01:48,219
good long time now and the one thing

30
00:01:44,560 --> 00:01:50,140
that has always struck me is something

31
00:01:48,219 --> 00:01:53,349
that I've heard you mention and I've

32
00:01:50,140 --> 00:01:55,150
mentioned it on blogs and so forth it

33
00:01:53,349 --> 00:01:57,939
has to do with the photographic

34
00:01:55,150 --> 00:02:00,670
collections that we are allowed to see

35
00:01:57,939 --> 00:02:04,959
of the moon the stuff NASA puts up for

36
00:02:00,670 --> 00:02:07,180
us and it's it's so far away and fuzzy

37
00:02:04,959 --> 00:02:11,739
and and you and I know that they send

38
00:02:07,180 --> 00:02:13,540
these us these probes up there and they

39
00:02:11,739 --> 00:02:14,840
have cameras on them and the cameras are

40
00:02:13,539 --> 00:02:17,539
great

41
00:02:14,840 --> 00:02:19,580
and with the things down here you can

42
00:02:17,539 --> 00:02:23,479
see a pimple on somebody's butt who's

43
00:02:19,580 --> 00:02:25,819

you know sunbathing on a on a rooftop in

44

00:02:23,479 --> 00:02:28,719

Manhattan so what's up with that Don

45

00:02:25,818 --> 00:02:30,439

what do you think well it's it's quite

46

00:02:28,719 --> 00:02:36,439

simple actually

47

00:02:30,439 --> 00:02:39,620

Purusha it's basically degrading of the

48

00:02:36,439 --> 00:02:44,659

of the photographs that have been it's

49

00:02:39,620 --> 00:02:48,789

been an intentional act by either NASA

50

00:02:44,659 --> 00:02:54,189

or the powers that be that they degrade

51

00:02:48,789 --> 00:02:59,689

these photographs down the extremely low

52

00:02:54,189 --> 00:03:02,060

resolution for anybody's guess now if I

53

00:02:59,689 --> 00:03:05,989

had to for example go into a court of

54

00:03:02,060 --> 00:03:10,810

law and swear to tell the truth raise my

55

00:03:05,989 --> 00:03:14,150

hand to testify I could not absolutely

56

00:03:10,810 --> 00:03:17,180

swear because I haven't yet seen the

57

00:03:14,150 --> 00:03:21,439

proof howsoever what I have done over

58
00:03:17,180 --> 00:03:25,370
the years I have interviewed not only as

59
00:03:21,439 --> 00:03:28,909
a radio broadcaster myself but I have

60
00:03:25,370 --> 00:03:31,909
interviewed lots of people from various

61
00:03:28,909 --> 00:03:35,750
walks of life that have been involved

62
00:03:31,909 --> 00:03:41,389
and interested in these types of items

63
00:03:35,750 --> 00:03:46,098
and including a number of people that

64
00:03:41,389 --> 00:03:50,079
have seen the unedited lunar photographs

65
00:03:46,098 --> 00:03:54,738
yeah that are that are available

66
00:03:50,079 --> 00:03:57,590
providing you have a need to know that

67
00:03:54,739 --> 00:04:01,000
that's a very telling phrase that

68
00:03:57,590 --> 00:04:04,759
anybody that's been in intelligence

69
00:04:01,000 --> 00:04:09,318
operations or military operations will

70
00:04:04,759 --> 00:04:12,500
recognize for example back in 1995 I

71
00:04:09,318 --> 00:04:14,958
interviewed one of the most amazing

72
00:04:12,500 --> 00:04:17,660
people that I've ever interviewed in

73
00:04:14,959 --> 00:04:21,228
almost twenty four years of broadcasting

74
00:04:17,660 --> 00:04:24,770
a guy by the name of Vito Sakaki who was

75
00:04:21,228 --> 00:04:28,189
a petrochemical engineer and during that

76
00:04:24,769 --> 00:04:33,289
show we discussed his almost three

77
00:04:28,189 --> 00:04:38,829
week odyssey back in 1979 trying to get

78
00:04:33,290 --> 00:04:42,850
into Houston NASA with one of his

79
00:04:38,829 --> 00:04:47,389
company clients who had come up from

80
00:04:42,850 --> 00:04:51,520
Venezuela that worked for a Venezuelan

81
00:04:47,389 --> 00:04:55,399
oil company that had a fascination with

82
00:04:51,519 --> 00:04:58,519
not only our Apollo missions to the moon

83
00:04:55,399 --> 00:05:01,310
but a book that had been written by a

84
00:04:58,519 --> 00:05:04,430
science writer by the name of George

85
00:05:01,310 --> 00:05:09,399
Leonard called somebody else is on the

86

00:05:04,430 --> 00:05:11,870
moon now after three weeks of some

87
00:05:09,399 --> 00:05:14,929
honorable mention ations

88
00:05:11,870 --> 00:05:18,490
that these two guys went through they

89
00:05:14,930 --> 00:05:23,019
finally were allowed to see actual

90
00:05:18,490 --> 00:05:29,480
unedited NASA photographs and they were

91
00:05:23,019 --> 00:05:33,259
astounded now the company that was

92
00:05:29,480 --> 00:05:36,500
working in connection with vetos company

93
00:05:33,259 --> 00:05:39,889
okay this engineer wanted to purchase

94
00:05:36,500 --> 00:05:43,189
some of these photographs so vetos

95
00:05:39,889 --> 00:05:46,849
company purchased them for them probably

96
00:05:43,189 --> 00:05:49,850
six weeks later they were sent and they

97
00:05:46,850 --> 00:05:52,280
were all horribly horribly degraded

98
00:05:49,850 --> 00:05:56,300
helpful I mean let's face it we can

99
00:05:52,279 --> 00:06:00,199
shoot literally somebody's license plate

100
00:05:56,300 --> 00:06:04,129

on their car from thousands of miles in

101

00:06:00,199 --> 00:06:07,579

outer space that is how how

102

00:06:04,129 --> 00:06:12,980

sophisticated our satellite technology

103

00:06:07,579 --> 00:06:16,490

is and the thought or the idea that the

104

00:06:12,980 --> 00:06:18,939

government NASA the military or anybody

105

00:06:16,490 --> 00:06:21,980

would ever put up with this lower

106

00:06:18,939 --> 00:06:25,009

resolution stuff is beyond the pale so

107

00:06:21,980 --> 00:06:28,580

they deliberately do it now I speculate

108

00:06:25,009 --> 00:06:32,539

that the reason they do that is so in

109

00:06:28,579 --> 00:06:35,629

fact people will not be able to see some

110

00:06:32,540 --> 00:06:38,830

of these amazing lunar artifacts that

111

00:06:35,629 --> 00:06:42,040

are apparently sitting up there yes yes

112

00:06:38,829 --> 00:06:46,609

well why do you think they would

113

00:06:42,040 --> 00:06:50,960

keep that to themselves well for

114

00:06:46,610 --> 00:06:55,490

actually the the same reason that the

115
00:06:50,959 --> 00:07:01,219
UFO topic has been kept under wraps for

116
00:06:55,490 --> 00:07:04,699
at least seventy years now they don't

117
00:07:01,220 --> 00:07:07,610
want this information out because if

118
00:07:04,699 --> 00:07:10,639
this information became publicly known

119
00:07:07,610 --> 00:07:14,590
Oh once again I'm speculate mmm-hmm this

120
00:07:10,639 --> 00:07:20,180
would absolutely turn our world

121
00:07:14,589 --> 00:07:23,560
topsy-turvy if suddenly the population

122
00:07:20,180 --> 00:07:25,550
of the planet earth were aware that we

123
00:07:23,560 --> 00:07:29,870
the human race

124
00:07:25,550 --> 00:07:33,290
are not alone now imagine how that news

125
00:07:29,870 --> 00:07:36,110
would be received in many many nations

126
00:07:33,290 --> 00:07:39,770
around the world but it would be

127
00:07:36,110 --> 00:07:42,199
frightening Don suppose we're not just

128
00:07:39,769 --> 00:07:46,129
not alone but we're not on top of the

129
00:07:42,199 --> 00:07:48,229
food chain well you know that's funny

130
00:07:46,129 --> 00:07:51,409
that you should mention that

131
00:07:48,230 --> 00:07:55,330
because for several months I've been

132
00:07:51,410 --> 00:07:59,450
working on a paper it's not done yet but

133
00:07:55,329 --> 00:08:03,620
it's involved with something called the

134
00:07:59,449 --> 00:08:07,670
Harrison scenario now basically what

135
00:08:03,620 --> 00:08:11,689
that is back in nineteen fifty-eight

136
00:08:07,670 --> 00:08:15,910
fifty-nine the first SETI search by

137
00:08:11,689 --> 00:08:20,930
Professor Frank Drake was begun okay

138
00:08:15,910 --> 00:08:24,490
with zero incidentally zero results and

139
00:08:20,930 --> 00:08:28,129
but that was the launching point of our

140
00:08:24,490 --> 00:08:31,310
attempt to discover radio signals

141
00:08:28,129 --> 00:08:35,389
intelligence signals throughout our

142
00:08:31,310 --> 00:08:38,899
known universe primarily our galaxy the

143

00:08:35,389 --> 00:08:43,009
Milky Way and except for only a couple

144
00:08:38,899 --> 00:08:46,000
of anomalous signals that have been

145
00:08:43,009 --> 00:08:50,659
received but they've never been repeated

146
00:08:46,000 --> 00:08:52,639
okay we have heard nothing out there

147
00:08:50,659 --> 00:08:55,819
it's kind of like walking through a

148
00:08:52,639 --> 00:08:58,850
cemetery just nothing but science

149
00:08:55,820 --> 00:08:59,840
well there could be a couple of reasons

150
00:08:58,850 --> 00:09:03,800
for that

151
00:08:59,840 --> 00:09:06,860
ladies number one nobody's out there but

152
00:09:03,799 --> 00:09:09,969
I don't think anybody truly believes

153
00:09:06,860 --> 00:09:13,210
that now number two they have other

154
00:09:09,970 --> 00:09:16,820
technology other than radio signals that

155
00:09:13,210 --> 00:09:21,139
we haven't yet discovered how to tap

156
00:09:16,820 --> 00:09:24,220
into or there's another possibility that

157
00:09:21,139 --> 00:09:28,370

they are out there but they're not

158

00:09:24,220 --> 00:09:29,690

broadcasting because they know something

159

00:09:28,370 --> 00:09:33,440

we don't

160

00:09:29,690 --> 00:09:36,440

and what that something maybe is that

161

00:09:33,440 --> 00:09:41,530

top of the food chain predator that

162

00:09:36,440 --> 00:09:46,660

you're alluding to in other words a

163

00:09:41,529 --> 00:09:50,299

civilization of some type that maybe so

164

00:09:46,659 --> 00:09:53,569

xenophobic that when they discover an

165

00:09:50,299 --> 00:09:56,389

emerging civilization perhaps they're

166

00:09:53,570 --> 00:09:59,570

looking down the road and saying oh boy

167

00:09:56,389 --> 00:10:01,939

a possible competitor and they wipe them

168

00:09:59,570 --> 00:10:05,150

out that's and that's one of the

169

00:10:01,940 --> 00:10:08,810

scariest of all the possibilities of why

170

00:10:05,149 --> 00:10:11,389

we haven't heard anything Wow so you

171

00:10:08,809 --> 00:10:14,209

think there's been an actual threat made

172
00:10:11,389 --> 00:10:16,720
at high levels of government and they

173
00:10:14,210 --> 00:10:19,460
think that resident panic people

174
00:10:16,720 --> 00:10:21,500
although I don't think the threats could

175
00:10:19,460 --> 00:10:24,200
get a lot more serious and the real

176
00:10:21,500 --> 00:10:26,480
threats are today I mean we have enough

177
00:10:24,200 --> 00:10:29,330
problems without having you know killer

178
00:10:26,480 --> 00:10:32,389
aliens well no I'm not I'm not

179
00:10:29,330 --> 00:10:37,340
necessarily suggesting that that that's

180
00:10:32,389 --> 00:10:42,289
what it is but okay just take this for a

181
00:10:37,340 --> 00:10:47,440
second I can't consider it what if we

182
00:10:42,289 --> 00:10:52,250
suddenly were confronted with a 100%

183
00:10:47,440 --> 00:10:55,490
totally clean energy source that we

184
00:10:52,250 --> 00:10:59,480
could reproduce mm-hmm here on planet

185
00:10:55,490 --> 00:11:03,740
Earth what would that do to the global

186
00:10:59,480 --> 00:11:05,570
community see you wouldn't energy well

187
00:11:03,740 --> 00:11:08,690
it could be anything it doesn't matter

188
00:11:05,570 --> 00:11:11,180
or even it we big wind

189
00:11:08,690 --> 00:11:14,900
well yeah but but it's not available is

190
00:11:11,179 --> 00:11:17,529
it no not JP Morgan killed that one what

191
00:11:14,899 --> 00:11:20,659
would happen to the global oil

192
00:11:17,529 --> 00:11:22,819
conglomerates that basically surround

193
00:11:20,659 --> 00:11:25,189
the globe right now they would be out of

194
00:11:22,820 --> 00:11:27,650
business overnight you don't for one

195
00:11:25,190 --> 00:11:32,060
second think that anybody would let that

196
00:11:27,649 --> 00:11:37,610
happen to you no no I don't which brings

197
00:11:32,059 --> 00:11:39,079
us to another question if about why we

198
00:11:37,610 --> 00:11:42,019
didn't go back to the moon and what

199
00:11:39,080 --> 00:11:44,690
happened to the Chinese lunar probe the

200

00:11:42,019 --> 00:11:46,850
the little Jade rabbit and why didn't

201
00:11:44,690 --> 00:11:49,280
the Russians get up there after we went

202
00:11:46,850 --> 00:11:52,909
why the heck didn't we go back after we

203
00:11:49,279 --> 00:11:55,279
spent all that money the millions and

204
00:11:52,909 --> 00:11:57,439
millions of dollars training those brave

205
00:11:55,279 --> 00:11:59,779
men and women to be astronauts and the

206
00:11:57,440 --> 00:12:03,580
millions of tax dollars that went on

207
00:11:59,779 --> 00:12:06,799
those those rocket launchers and the the

208
00:12:03,580 --> 00:12:08,750
capsules and the rover is the lunar

209
00:12:06,799 --> 00:12:10,759
Rovers for the the fellas to ride around

210
00:12:08,750 --> 00:12:14,090
in what you know what's your thought on

211
00:12:10,759 --> 00:12:16,129
that okay well you asked you asked a lot

212
00:12:14,090 --> 00:12:17,990
of questions there and not only this

213
00:12:16,129 --> 00:12:21,500
hour but I could talk to you for the

214
00:12:17,990 --> 00:12:25,870

next three hours about that that'd be

215

00:12:21,500 --> 00:12:28,580

fabulous but I guess sure I understand

216

00:12:25,870 --> 00:12:31,820

this is something that I've been

217

00:12:28,580 --> 00:12:33,470

researching and studying since the early

218

00:12:31,820 --> 00:12:37,879

1990s

219

00:12:33,470 --> 00:12:41,840

and we didn't spend millions Cape and

220

00:12:37,879 --> 00:12:47,289

Persia we spent billions and the

221

00:12:41,840 --> 00:12:50,600

Russians spent billions and we both had

222

00:12:47,289 --> 00:12:54,409

casualties in that crazy race to the

223

00:12:50,600 --> 00:12:57,740

moon and you know number one we got to

224

00:12:54,409 --> 00:13:00,289

ask ourselves first what in the world

225

00:12:57,740 --> 00:13:04,370

were we trying to get there so quickly

226

00:13:00,289 --> 00:13:08,449

for now that's question that I have

227

00:13:04,370 --> 00:13:12,889

never heard anybody answer we started

228

00:13:08,450 --> 00:13:15,129

the space race about 1962 with President

229
00:13:12,889 --> 00:13:19,850
Kennedy when he challenged the nation

230
00:13:15,129 --> 00:13:22,499
not only to beat the Soviet Union who

231
00:13:19,850 --> 00:13:25,469
remember what the first

232
00:13:22,499 --> 00:13:28,339
satellite in orbit they put the first

233
00:13:25,469 --> 00:13:32,189
human being in space

234
00:13:28,339 --> 00:13:35,429
okay the Russians did it and we were

235
00:13:32,188 --> 00:13:38,668
left in the dust and a lot of people

236
00:13:35,428 --> 00:13:41,428
were totally freaked out about that did

237
00:13:38,668 --> 00:13:44,158
we lose our technological edge well we

238
00:13:41,428 --> 00:13:46,408
showed that once we got rolling we were

239
00:13:44,158 --> 00:13:48,178
truly a force to be reckoned with but

240
00:13:46,408 --> 00:13:52,859
why did we have to get up there so

241
00:13:48,178 --> 00:13:58,798
quickly well here's what some of my

242
00:13:52,859 --> 00:14:03,349
research has discovered number one for

243
00:13:58,798 --> 00:14:05,389
over 400 years

244
00:14:03,349 --> 00:14:09,539
astronomers that I'm talking about

245
00:14:05,389 --> 00:14:13,558
world-class astronomers were observing

246
00:14:09,538 --> 00:14:17,598
the moon and they were seeing sights on

247
00:14:13,558 --> 00:14:22,558
the moon that were inexplicable and

248
00:14:17,599 --> 00:14:26,158
amazing okay they were seeing okay this

249
00:14:22,558 --> 00:14:30,649
is not only with telescopes but also

250
00:14:26,158 --> 00:14:34,708
with naked eyes going back to the Year

251
00:14:30,649 --> 00:14:39,349
1541 okay now how do I know know that

252
00:14:34,708 --> 00:14:44,818
well NASA contracted out to an academic

253
00:14:39,349 --> 00:14:50,819
group during the Apollo race okay to do

254
00:14:44,818 --> 00:14:58,098
a study of lunar transient phenomena

255
00:14:50,818 --> 00:15:01,228
called NASA technical report TR our 277

256
00:14:58,099 --> 00:15:04,470
which I incidentally have a copy of you

257

00:15:01,229 --> 00:15:07,769
can also see that online it's also

258
00:15:04,470 --> 00:15:10,139
available online but at any rate they

259
00:15:07,769 --> 00:15:13,828
had been observing everything from

260
00:15:10,139 --> 00:15:17,729
lights in craters they had been

261
00:15:13,828 --> 00:15:21,348
observing lights moving across the moon

262
00:15:17,729 --> 00:15:24,419
they had observed what they called a

263
00:15:21,349 --> 00:15:28,739
clouding effect happening over many

264
00:15:24,418 --> 00:15:33,389
craters some of the craters continuously

265
00:15:28,739 --> 00:15:35,540
off and on for years if not decades and

266
00:15:33,389 --> 00:15:41,539
the British Royal Astronomical

267
00:15:35,539 --> 00:15:45,889
comical society in the early 1870s had

268
00:15:41,539 --> 00:15:49,429
seen so many sights on the moon and some

269
00:15:45,889 --> 00:15:52,159
of these sites they claimed at the time

270
00:15:49,429 --> 00:15:55,969
appeared like they were looking through

271
00:15:52,159 --> 00:15:58,939

their telescopes at a city from the sky

272

00:15:55,970 --> 00:16:03,199

Wow with the lights and everything they

273

00:15:58,940 --> 00:16:05,769

observed that for over three years okay

274

00:16:03,198 --> 00:16:09,979

the British Royal Astronomical Society

275

00:16:05,769 --> 00:16:12,500

amazing NASA NASA had to know that there

276

00:16:09,980 --> 00:16:15,409

were a lot of questions about that and

277

00:16:12,500 --> 00:16:18,919

thus the race was started now I'm

278

00:16:15,409 --> 00:16:23,059

presuming both you ladies were around in

279

00:16:18,919 --> 00:16:27,349

the 1960s yes you will you will recall

280

00:16:23,059 --> 00:16:32,299

all the promises that were being made

281

00:16:27,350 --> 00:16:34,730

both implicit and explicitly promises of

282

00:16:32,299 --> 00:16:38,629

putting colonies on the moon

283

00:16:34,730 --> 00:16:43,190

putting manufacturing sites on the moon

284

00:16:38,629 --> 00:16:46,669

doing a lot of things well we finally

285

00:16:43,190 --> 00:16:51,560

get up there in July of 1969

286
00:16:46,669 --> 00:16:54,469
now that was almost immediately when low

287
00:16:51,559 --> 00:16:58,969
key rumors started about what was

288
00:16:54,470 --> 00:17:03,560
actually discovered up there and years

289
00:16:58,970 --> 00:17:07,519
later years later after that after the

290
00:17:03,559 --> 00:17:13,639
Apollo operation was totally shut down

291
00:17:07,519 --> 00:17:18,439
in December of 1972 with other missions

292
00:17:13,640 --> 00:17:21,079
scheduled to be launched rockets already

293
00:17:18,439 --> 00:17:24,500
built the astronauts already trained

294
00:17:21,078 --> 00:17:28,129
everything was paid for NASA pulled the

295
00:17:24,500 --> 00:17:31,579
plug now here's here's something else

296
00:17:28,130 --> 00:17:35,049
that you may or may not be aware of when

297
00:17:31,579 --> 00:17:38,000
the first missions went to the moon and

298
00:17:35,048 --> 00:17:40,429
believe me when I first made this

299
00:17:38,000 --> 00:17:43,130
announcement about 20 years ago after I

300
00:17:40,429 --> 00:17:46,850
discovered it and I ended up calling up

301
00:17:43,130 --> 00:17:48,840
NASA from UFO magazine to make sure that

302
00:17:46,849 --> 00:17:52,048
I wasn't full of it

303
00:17:48,839 --> 00:17:55,109
and they basically said well yeah you're

304
00:17:52,048 --> 00:17:57,750
right the first astronauts that went up

305
00:17:55,109 --> 00:18:02,399
there were armed they carried weapons

306
00:17:57,750 --> 00:18:04,409
with them yes yes I do recall reading

307
00:18:02,400 --> 00:18:11,130
that what kind of weapon so I mean what

308
00:18:04,409 --> 00:18:13,559
would you use the no no no the usage

309
00:18:11,130 --> 00:18:16,679
they carried 45 caliber automatic

310
00:18:13,558 --> 00:18:20,579
pistols and the fact of the matter is

311
00:18:16,679 --> 00:18:24,120
yes that will shoot an event it will oh

312
00:18:20,579 --> 00:18:26,189
sure yeah it's not oxygen that fuels it

313
00:18:24,119 --> 00:18:30,000
it's the propellant in the cartridge

314

00:18:26,190 --> 00:18:32,159
which is a gas okay because I thought it

315
00:18:30,000 --> 00:18:34,890
almost like an explosive I don't I don't

316
00:18:32,159 --> 00:18:38,909
really know much about guns as a matter

317
00:18:34,890 --> 00:18:41,929
of fact I don't know Wow why would they

318
00:18:38,909 --> 00:18:43,559
yeah III think that I think that

319
00:18:41,929 --> 00:18:45,630
what's-his-name told me that the

320
00:18:43,558 --> 00:18:47,428
astronaut Edgar Mitchell nation' that

321
00:18:45,630 --> 00:18:48,960
yes go ahead I'm sorry

322
00:18:47,429 --> 00:18:55,080
yeah we don't mean to interrupt you real

323
00:18:48,960 --> 00:18:57,808
easy yeah it's well it's it's it's true

324
00:18:55,079 --> 00:19:00,058
and now when I called up NASA mmm-hmm

325
00:18:57,808 --> 00:19:03,720
and I talked to the public spokesperson

326
00:19:00,058 --> 00:19:06,960
I asked him I said why in the name of

327
00:19:03,720 --> 00:19:09,839
all that's holy what those guys have

328
00:19:06,960 --> 00:19:12,840

been carrying a weapon and he said well

329

00:19:09,839 --> 00:19:15,298

you know we were afraid now this

330

00:19:12,839 --> 00:19:17,369

incidentally and let me tell you this

331

00:19:15,298 --> 00:19:20,038

right up front I didn't believe this guy

332

00:19:17,369 --> 00:19:22,500

for a second although he may have

333

00:19:20,038 --> 00:19:24,419

believed it he may have been told that

334

00:19:22,500 --> 00:19:27,630

he believed that I didn't believe the

335

00:19:24,419 --> 00:19:29,700

story that when they went up there in

336

00:19:27,630 --> 00:19:33,450

case something happened when they were

337

00:19:29,700 --> 00:19:36,149

coming back and and their landing got

338

00:19:33,450 --> 00:19:39,630

screwed up and they landed in a jungle

339

00:19:36,148 --> 00:19:42,239

oh they they wouldn't be unarmed well

340

00:19:39,630 --> 00:19:46,710

here was the thing uh-huh planet Earth

341

00:19:42,240 --> 00:19:50,399

is 75% water well you remember if you

342

00:19:46,710 --> 00:19:52,769

remember when they were the moon shots

343
00:19:50,398 --> 00:19:56,369
were coming back where did they land

344
00:19:52,769 --> 00:19:59,190
they all landed in the ocean okay so

345
00:19:56,369 --> 00:20:03,539
that's why I thought this guy was

346
00:19:59,190 --> 00:20:06,600
trying to sell me a story but here's why

347
00:20:03,539 --> 00:20:08,700
I think once again I got to tell you I'm

348
00:20:06,599 --> 00:20:12,449
speculating that when they went up there

349
00:20:08,700 --> 00:20:18,500
quite honestly they did not know what

350
00:20:12,450 --> 00:20:18,500
they might find that's believable yes

351
00:20:23,390 --> 00:20:31,530
that's just what they would have had to

352
00:20:26,309 --> 00:20:33,899
have expected a target I mean there's no

353
00:20:31,529 --> 00:20:37,349
point in having a gun just to shoot it

354
00:20:33,900 --> 00:20:40,470
off I mean so and they would have

355
00:20:37,349 --> 00:20:42,750
expected a target that a gun would be

356
00:20:40,470 --> 00:20:46,980
effective against or are they just

357
00:20:42,750 --> 00:20:49,160
guessing I'm just guessing god only

358
00:20:46,980 --> 00:20:49,160
knows

359
00:20:50,000 --> 00:20:57,990
don't but but here's the other thing now

360
00:20:55,109 --> 00:21:01,139
in in my years of research on lunar

361
00:20:57,990 --> 00:21:04,970
phenomena mm-hmm I found a number of

362
00:21:01,140 --> 00:21:12,060
photographs that were to my eyes

363
00:21:04,970 --> 00:21:15,750
shocking yeah they definitely show what

364
00:21:12,059 --> 00:21:19,679
I believed them to be artificial

365
00:21:15,750 --> 00:21:22,380
artifacts on the moon now if if I'm

366
00:21:19,680 --> 00:21:25,799
correct and if those photographs which

367
00:21:22,380 --> 00:21:30,020
incidentally were all from NASA these

368
00:21:25,799 --> 00:21:33,619
were all NASA photographs if I'm correct

369
00:21:30,019 --> 00:21:37,319
that these showed an artificial

370
00:21:33,619 --> 00:21:40,259
construct well we certainly to my

371

00:21:37,319 --> 00:21:42,509
knowledge didn't have the capability to

372
00:21:40,259 --> 00:21:45,059
put some of the things up there that

373
00:21:42,509 --> 00:21:48,809
appear to be there so what does that

374
00:21:45,059 --> 00:21:50,220
leave us with number one here's one

375
00:21:48,809 --> 00:21:53,129
possibility

376
00:21:50,220 --> 00:21:55,710
you know this planet has been around for

377
00:21:53,130 --> 00:22:00,390
four-and-a-half billion years

378
00:21:55,710 --> 00:22:03,509
wait and the human race is in I believe

379
00:22:00,390 --> 00:22:08,250
it to be much older than its given

380
00:22:03,509 --> 00:22:13,528
credit for but hey look we cannot even

381
00:22:08,250 --> 00:22:17,069
agree on who killed president can

382
00:22:13,528 --> 00:22:19,710
which now is 50 years ago right mm-hmm

383
00:22:17,069 --> 00:22:22,069
we don't know I mean there's still a lot

384
00:22:19,710 --> 00:22:27,509
of controversy about that

385
00:22:22,069 --> 00:22:31,168

freshman yeah so here's here's something

386

00:22:27,509 --> 00:22:36,319

to think about our history our written

387

00:22:31,169 --> 00:22:43,380

history as we know it goes back to about

388

00:22:36,319 --> 00:22:46,109

3500 BC okay just a Titch under 6000

389

00:22:43,380 --> 00:22:49,380

years great that was the world's first

390

00:22:46,109 --> 00:22:53,939

civilization that we recognized which

391

00:22:49,380 --> 00:22:57,830

was in Sumer okay the land of between

392

00:22:53,940 --> 00:23:02,610

the Euphrates and the in what is today

393

00:22:57,829 --> 00:23:06,148

Iraq okay but do we really believe that

394

00:23:02,609 --> 00:23:09,240

that is the earliest civilization I do

395

00:23:06,148 --> 00:23:11,729

not well they found the stuff in Turkey

396

00:23:09,240 --> 00:23:13,919

you know that ten thousand twelve

397

00:23:11,730 --> 00:23:15,480

thousand year old civilization and

398

00:23:13,919 --> 00:23:19,380

teriyaki gold Becky

399

00:23:15,480 --> 00:23:23,220

Eppley boy yes yes yes that is correct

400
00:23:19,380 --> 00:23:25,559
but what about civilizations before that

401
00:23:23,220 --> 00:23:30,409
and that incidentally was about the time

402
00:23:25,558 --> 00:23:35,879
of the cessation of the last ice age now

403
00:23:30,409 --> 00:23:38,610
since that time our world's oceans have

404
00:23:35,880 --> 00:23:42,559
risen in some places up to several

405
00:23:38,609 --> 00:23:46,619
hundred feet higher than what they were

406
00:23:42,558 --> 00:23:50,759
15,000 years ago who knows what was

407
00:23:46,619 --> 00:23:52,500
submerged by that great deluge now is it

408
00:23:50,759 --> 00:23:56,069
possible that there might have been an

409
00:23:52,500 --> 00:23:59,099
early human civilization that was very

410
00:23:56,069 --> 00:24:01,528
highly advanced that went to the moon in

411
00:23:59,099 --> 00:24:05,490
other words ancient human artifacts

412
00:24:01,528 --> 00:24:07,500
that's one possibility now India bears

413
00:24:05,490 --> 00:24:12,000
that out a little bit you know the the

414
00:24:07,500 --> 00:24:14,579
Indian literature talks about another

415
00:24:12,000 --> 00:24:16,640
civilization and there's some indication

416
00:24:14,579 --> 00:24:20,639
that there were nuclear weapons in that

417
00:24:16,640 --> 00:24:25,350
prehistoric Indian civilization exactly

418
00:24:20,640 --> 00:24:30,809
exactly you are absolutely correct now

419
00:24:25,349 --> 00:24:34,308
what if there was another boy let me I'm

420
00:24:30,808 --> 00:24:34,308
sorry that's my cellphone

421
00:24:34,490 --> 00:24:45,298
what what if at some point in our past

422
00:24:40,460 --> 00:24:48,329
something on another civilization from

423
00:24:45,298 --> 00:24:51,750
outside of our solar system came here

424
00:24:48,329 --> 00:24:55,798
found earth and let's face it this

425
00:24:51,750 --> 00:24:59,339
planet is hospitable to life and for

426
00:24:55,798 --> 00:25:04,609
whatever reason set up an observing base

427
00:24:59,339 --> 00:25:08,720
on the moon that is no longer active or

428

00:25:04,609 --> 00:25:13,339
what if this is another possibility

429
00:25:08,720 --> 00:25:14,669
there are still ongoing activities there

430
00:25:13,339 --> 00:25:17,158
hmm

431
00:25:14,669 --> 00:25:19,559
well and that's in fact what was

432
00:25:17,159 --> 00:25:22,020
discovered by our Apollo mission now

433
00:25:19,558 --> 00:25:23,879
here's something that that kind of play

434
00:25:22,019 --> 00:25:27,690
into that that I have always found

435
00:25:23,880 --> 00:25:32,100
curious there Russians back during that

436
00:25:27,690 --> 00:25:35,190
period of time were prideful if nothing

437
00:25:32,099 --> 00:25:40,428
else and the fact that we got to the

438
00:25:35,190 --> 00:25:43,679
moon and they didn't never struck me as

439
00:25:40,429 --> 00:25:46,559
quite right I would have thought that

440
00:25:43,679 --> 00:25:50,038
the Russians would have gone there just

441
00:25:46,558 --> 00:25:52,558
to prove that they could do it but they

442
00:25:50,038 --> 00:25:57,058

never did they never did

443

00:25:52,558 --> 00:25:59,908

now what the possibility may be although

444

00:25:57,058 --> 00:26:05,460

you'd never get anybody to admit this is

445

00:25:59,909 --> 00:26:08,610

that NASA was warned off the moon and

446

00:26:05,460 --> 00:26:12,329

the warning was such that they relayed

447

00:26:08,609 --> 00:26:14,548

it to the Soviet Union and the Russians

448

00:26:12,329 --> 00:26:16,710

knew better then didn't try to go up

449

00:26:14,548 --> 00:26:18,599

there at that period of time it

450

00:26:16,710 --> 00:26:20,880

certainly doesn't make any sense Don

451

00:26:18,599 --> 00:26:24,000

that they did not want to at least

452

00:26:20,880 --> 00:26:27,179

duplicate our feet and do something more

453

00:26:24,000 --> 00:26:30,480

there there is a rumor which I think is

454

00:26:27,179 --> 00:26:33,720

not true fallacious as it were that Yuri

455

00:26:30,480 --> 00:26:34,409

Gagarin got to the moon I don't think

456

00:26:33,720 --> 00:26:37,230

that's true

457
00:26:34,409 --> 00:26:38,540
but there's a circulating rumor to that

458
00:26:37,230 --> 00:26:41,339
effect

459
00:26:38,539 --> 00:26:44,819
and you do know that the Chinese had

460
00:26:41,339 --> 00:26:47,730
just recently put on that you that lunar

461
00:26:44,819 --> 00:26:51,720
probe which was called Jade rabbit right

462
00:26:47,730 --> 00:26:53,730
and it broke down yeah mm-hmm saw some

463
00:26:51,720 --> 00:26:56,250
strange things and they they got really

464
00:26:53,730 --> 00:26:57,930
embarrassed about it but now we haven't

465
00:26:56,250 --> 00:27:01,500
heard a word that they're they're going

466
00:26:57,930 --> 00:27:04,860
back no no sign of a rerun there yeah

467
00:27:01,500 --> 00:27:07,079
that does sound likely either you know

468
00:27:04,859 --> 00:27:08,159
because obviously once you establish

469
00:27:07,079 --> 00:27:11,039
those programs

470
00:27:08,160 --> 00:27:13,800
it's an enormous expense but then to

471
00:27:11,039 --> 00:27:16,019
keep them going it's not that great an

472
00:27:13,799 --> 00:27:18,119
expense that most of the groundwork has

473
00:27:16,019 --> 00:27:21,119
been done it's just the sign I'm it's

474
00:27:18,119 --> 00:27:22,289
not yeah it's not inexpensive but you

475
00:27:21,119 --> 00:27:23,489
would think that they would have

476
00:27:22,289 --> 00:27:25,619
followed that up

477
00:27:23,490 --> 00:27:28,140
and then there was the other thing that

478
00:27:25,619 --> 00:27:31,009
Purusha was telling me about that time

479
00:27:28,140 --> 00:27:34,230
we what fired rockets into the moon yes

480
00:27:31,009 --> 00:27:38,250
Frankie Bell yes I was very upset by

481
00:27:34,230 --> 00:27:42,120
that at the time was at 2009 we had a

482
00:27:38,250 --> 00:27:44,730
probe going around the moon and they

483
00:27:42,119 --> 00:27:46,559
decided to detonate a rocket towards I

484
00:27:44,730 --> 00:27:49,289
believe it was the South Pole of the

485

00:27:46,559 --> 00:27:52,589
moon they were looking for water so they

486
00:27:49,289 --> 00:27:54,119
said but I can't see bombing something

487
00:27:52,589 --> 00:27:56,639
when you really aren't clear about

488
00:27:54,119 --> 00:27:59,250
what's there you know if what we're

489
00:27:56,640 --> 00:28:01,230
giving to believe is you know we don't

490
00:27:59,250 --> 00:28:03,180
know quite what's there and I think that

491
00:28:01,230 --> 00:28:05,640
that is like why would you bomb

492
00:28:03,180 --> 00:28:06,990
something just to bomb it or to see if

493
00:28:05,640 --> 00:28:09,120
isn't there a better way to see if

494
00:28:06,990 --> 00:28:10,650
there's water didn't the Indians go up

495
00:28:09,119 --> 00:28:12,299
there and discover that there was a

496
00:28:10,650 --> 00:28:14,519
little more water than we thought they

497
00:28:12,299 --> 00:28:16,710
didn't bomb the moon so I was like

498
00:28:14,519 --> 00:28:19,410
really kind of upset by that and

499
00:28:16,710 --> 00:28:21,360

I don't want to go into my experience or

500

00:28:19,410 --> 00:28:24,990

involving that which was a sort of a

501

00:28:21,359 --> 00:28:27,679

remote viewing experience but since I

502

00:28:24,990 --> 00:28:31,529

did mention the remote viewing mm-hmm

503

00:28:27,680 --> 00:28:34,049

you had mentioned to me that you had a

504

00:28:31,529 --> 00:28:36,599

meeting with Ingo Swann where he talked

505

00:28:34,049 --> 00:28:40,349

about his remote viewing experience was

506

00:28:36,599 --> 00:28:41,939

far more extensive than mine and I just

507

00:28:40,349 --> 00:28:47,439

wondered if you had anything to tell us

508

00:28:41,940 --> 00:28:51,308

about that yeah I met Ingo Swann

509

00:28:47,440 --> 00:28:54,879

oh geez I guess it's been 15 or more

510

00:28:51,308 --> 00:28:58,569

years ago when I was asked to give a

511

00:28:54,878 --> 00:29:01,298

talk back in Bordentown New Jersey by

512

00:28:58,569 --> 00:29:07,418

mr. Pat Market tell y'all god bless him

513

00:29:01,298 --> 00:29:11,710

yes and you know I course knew then who

514
00:29:07,419 --> 00:29:15,250
ingo was but I was really surprised when

515
00:29:11,710 --> 00:29:20,440
he traveled down from New York City to

516
00:29:15,250 --> 00:29:23,230
hear my lecture and afterwards we all a

517
00:29:20,440 --> 00:29:26,919
number of people there got together and

518
00:29:23,230 --> 00:29:28,899
we were all talking and exchanging you

519
00:29:26,919 --> 00:29:33,879
know contact information on what have

520
00:29:28,898 --> 00:29:36,398
you and angle and I became very well at

521
00:29:33,878 --> 00:29:40,000
the time we became very friendly

522
00:29:36,398 --> 00:29:44,739
now after Vicki and I got back out here

523
00:29:40,000 --> 00:29:48,659
to the west coast about a year or two

524
00:29:44,740 --> 00:29:52,000
years later Indo who had family out here

525
00:29:48,659 --> 00:29:54,490
was coming out for a visit and one of

526
00:29:52,000 --> 00:29:57,159
our mutual friends

527
00:29:54,490 --> 00:29:59,649
Ingo asked this person if he would

528
00:29:57,159 --> 00:30:03,278
contact Vicki and I because he wanted to

529
00:29:59,648 --> 00:30:07,109
get together for dinner out here and we

530
00:30:03,278 --> 00:30:11,349
said sure absolutely so he came out here

531
00:30:07,109 --> 00:30:16,719
and we all met at an Italian restaurant

532
00:30:11,349 --> 00:30:18,638
in burbank lovely little cafe and we had

533
00:30:16,720 --> 00:30:23,950
about a four and a half almost a five

534
00:30:18,638 --> 00:30:27,069
hour dinner party and we got a chance to

535
00:30:23,950 --> 00:30:30,159
really get some in-depth talking done

536
00:30:27,069 --> 00:30:32,109
Ingo really quizzed me on some of the

537
00:30:30,159 --> 00:30:35,049
things that I had been discovering in my

538
00:30:32,109 --> 00:30:38,408
lunar research and I of course had a

539
00:30:35,048 --> 00:30:42,038
copy of his book penetration had read it

540
00:30:38,409 --> 00:30:45,610
about three times and I was dying to

541
00:30:42,038 --> 00:30:49,509
talk to him about his remote viewing

542

00:30:45,609 --> 00:30:52,449
experiment now I'm sure for oh sure you

543
00:30:49,509 --> 00:30:55,690
had both you ladies read penetration I

544
00:30:52,450 --> 00:30:57,920
have not I have certainly yes I have a

545
00:30:55,690 --> 00:31:01,269
copy of it right on my

546
00:30:57,920 --> 00:31:03,130
my little laptop and I keep it there

547
00:31:01,269 --> 00:31:07,549
yeah

548
00:31:03,130 --> 00:31:10,400
well but perhaps some of the listeners

549
00:31:07,549 --> 00:31:12,169
really are it's hard to believe but

550
00:31:10,400 --> 00:31:16,790
maybe they're not familiar with Ingo

551
00:31:12,170 --> 00:31:18,980
Swann so just that he is and it just not

552
00:31:16,789 --> 00:31:21,680
only he's sort of the remote viewers

553
00:31:18,980 --> 00:31:24,890
remote viewer he was one of the people

554
00:31:21,680 --> 00:31:27,259
who started the remote viewing program

555
00:31:24,890 --> 00:31:32,350
out in Stanford Stanford research

556
00:31:27,259 --> 00:31:35,930

industry with Russell Targ and

557

00:31:32,349 --> 00:31:37,730

the other fellows name is God no no but

558

00:31:35,930 --> 00:31:40,730

uh how put us that's it

559

00:31:37,730 --> 00:31:45,610

how put off and Russell Targ Ingo Swann

560

00:31:40,730 --> 00:31:49,190

and well Ingo was the person that

561

00:31:45,609 --> 00:31:53,719

developed the protocols for the

562

00:31:49,190 --> 00:31:57,350

government's secret for 20 years remote

563

00:31:53,720 --> 00:32:00,710

viewing process Stargate we've all heard

564

00:31:57,349 --> 00:32:03,169

about Stargate absolutely and dark eight

565

00:32:00,710 --> 00:32:06,400

was was basically was put together by

566

00:32:03,170 --> 00:32:10,880

Swann he was one of the most gifted

567

00:32:06,400 --> 00:32:15,590

psychics in the world okay as a matter

568

00:32:10,880 --> 00:32:18,290

of fact he could be almost scary could

569

00:32:15,589 --> 00:32:20,509

be he could be almost scary and what I

570

00:32:18,289 --> 00:32:24,529

really wanted to find out from him

571
00:32:20,509 --> 00:32:26,869
during that dinner party and and this

572
00:32:24,529 --> 00:32:29,450
was after a couple of bottles of red

573
00:32:26,869 --> 00:32:32,899
wine okay he that we were all enjoying

574
00:32:29,450 --> 00:32:36,170
and I asked him now the person he

575
00:32:32,900 --> 00:32:41,330
identified in the book as mr. Axelrod

576
00:32:36,170 --> 00:32:45,830
right mr. Axelrod was and this is what

577
00:32:41,329 --> 00:32:49,809
Ingo told me he was either in one of the

578
00:32:45,829 --> 00:32:53,539
deepest blackest intelligence

579
00:32:49,809 --> 00:32:56,450
organizations ever and he didn't know

580
00:32:53,539 --> 00:33:01,190
whether it was American Russian Chinese

581
00:32:56,450 --> 00:33:05,029
god only knew okay what what was behind

582
00:33:01,190 --> 00:33:08,690
him or and when he told me this he kind

583
00:33:05,029 --> 00:33:12,428
of shocked me he said or for all I knew

584
00:33:08,690 --> 00:33:15,230
they could have been an et outfit

585
00:33:12,429 --> 00:33:18,910
so I mean take it for what it's worth

586
00:33:15,230 --> 00:33:23,538
but basically what these guys did is

587
00:33:18,910 --> 00:33:26,509
they asked him if he would conduct some

588
00:33:23,538 --> 00:33:29,000
remote viewing experiments they wanted

589
00:33:26,509 --> 00:33:34,210
to hire him for a thousand dollars a day

590
00:33:29,000 --> 00:33:36,950
and Ingo smoked cigars okay mm-hmm and

591
00:33:34,210 --> 00:33:40,519
they promised him all the cigars he

592
00:33:36,950 --> 00:33:42,830
needed at this so they picked him up

593
00:33:40,519 --> 00:33:45,349
they put a hood over his head they took

594
00:33:42,829 --> 00:33:47,750
him to God knows where to this what

595
00:33:45,349 --> 00:33:50,779
appeared to be according to England

596
00:33:47,750 --> 00:33:54,440
underground facility they put him up for

597
00:33:50,779 --> 00:33:57,678
several days and they went in conducted

598
00:33:54,440 --> 00:33:59,929
the remote viewing protocols and engel

599

00:33:57,679 --> 00:34:03,590
started remote viewing now at the time

600
00:33:59,929 --> 00:34:08,599
he had no idea what he was remotely

601
00:34:03,589 --> 00:34:12,139
viewing but as he proceeded he said it

602
00:34:08,599 --> 00:34:15,618
suddenly became clear that wherever he

603
00:34:12,139 --> 00:34:18,200
was it wasn't on planet Earth

604
00:34:15,619 --> 00:34:23,419
finally figured out that he was remotely

605
00:34:18,199 --> 00:34:27,589
viewing a spot on our moon and what

606
00:34:23,418 --> 00:34:32,029
shocked him was that he was remotely

607
00:34:27,590 --> 00:34:35,329
viewing what looked like an area that

608
00:34:32,030 --> 00:34:40,070
was covered by some type of either

609
00:34:35,329 --> 00:34:43,989
shield or forcefield or something along

610
00:34:40,070 --> 00:34:48,379
those lines with banks of light in there

611
00:34:43,989 --> 00:34:52,299
with a very pronounced greenish hue and

612
00:34:48,378 --> 00:34:56,628
he saw people that were almost semi

613
00:34:52,300 --> 00:35:00,710

naked working in the lunar dust doing

614

00:34:56,628 --> 00:35:04,009

god only knows what that part was great

615

00:35:00,710 --> 00:35:09,139

that what freaked him out and I mean

616

00:35:04,010 --> 00:35:11,869

really he almost had a meltdown was when

617

00:35:09,139 --> 00:35:14,569

they suddenly realized that he was

618

00:35:11,869 --> 00:35:18,890

looking at them and they turned around

619

00:35:14,570 --> 00:35:21,890

and looked at him back yeah that blew

620

00:35:18,889 --> 00:35:25,019

him literally out of that remote viewing

621

00:35:21,889 --> 00:35:28,859

session mm-hmm and for some time after

622

00:35:25,019 --> 00:35:31,889

that he was truly terrified that they

623

00:35:28,860 --> 00:35:35,190

were going to come somehow psychically I

624

00:35:31,889 --> 00:35:39,569

suppose and scramble his mind he was

625

00:35:35,190 --> 00:35:42,150

terrified of that damn I want to make

626

00:35:39,570 --> 00:35:44,730

one point here you know as a person who

627

00:35:42,150 --> 00:35:47,460

has extensively studied remote viewing

628
00:35:44,730 --> 00:35:51,090
myself and there is something that

629
00:35:47,460 --> 00:35:53,490
happens when you get into a deep remote

630
00:35:51,090 --> 00:35:55,470
view if you're if it's going really well

631
00:35:53,489 --> 00:35:57,359
it can go to the point where it's no

632
00:35:55,469 --> 00:36:00,119
longer a remote view it becomes an

633
00:35:57,360 --> 00:36:02,519
astral projection and when it becomes an

634
00:36:00,119 --> 00:36:04,469
astral projection you actually put in

635
00:36:02,519 --> 00:36:08,460
part of yourself there rather than

636
00:36:04,469 --> 00:36:12,629
viewing something and strangely when I

637
00:36:08,460 --> 00:36:14,369
you know it was when I viewed the moon I

638
00:36:12,630 --> 00:36:18,539
wasn't trying to view the moon I was

639
00:36:14,369 --> 00:36:21,329
doing it I was doing a meditation and I

640
00:36:18,539 --> 00:36:22,829
went to the moon and something rather

641
00:36:21,329 --> 00:36:27,210
similar but a lot less traumatic

642
00:36:22,829 --> 00:36:30,119
happened to me and it can happen in a

643
00:36:27,210 --> 00:36:31,050
remote view when you if you put yourself

644
00:36:30,119 --> 00:36:34,380
too much into it

645
00:36:31,050 --> 00:36:36,420
it becomes you know what for lack of a

646
00:36:34,380 --> 00:36:41,400
better term would be an astral

647
00:36:36,420 --> 00:36:44,159
projection well I got to tell you I

648
00:36:41,400 --> 00:36:48,840
found that I found that rendition he

649
00:36:44,159 --> 00:36:55,679
gave me to be so fascinating but wait

650
00:36:48,840 --> 00:36:57,720
there's more oh no why go ahead I'm

651
00:36:55,679 --> 00:37:00,059
sorry no no I was just as a white piece

652
00:36:57,719 --> 00:37:01,980
why would why did he feel so threatened

653
00:37:00,059 --> 00:37:06,809
what was there about the glance just

654
00:37:01,980 --> 00:37:09,240
that it was a different being and it was

655
00:37:06,809 --> 00:37:11,670
sort of like a xenophobia or was it was

656

00:37:09,239 --> 00:37:15,149
there an actual threat that he sort of

657
00:37:11,670 --> 00:37:18,750
psychically felt yeah according to him

658
00:37:15,150 --> 00:37:21,570
there was it wasn't converter so he

659
00:37:18,750 --> 00:37:23,969
wasn't rooting okay so it wasn't just

660
00:37:21,570 --> 00:37:25,769
that they happened to see him back I

661
00:37:23,969 --> 00:37:30,419
mean there was an actual feeling of

662
00:37:25,769 --> 00:37:32,690
threat yeah he detected according to

663
00:37:30,420 --> 00:37:37,500
what he what he told me he detected

664
00:37:32,690 --> 00:37:42,150
first surprise and then anger

665
00:37:37,500 --> 00:37:44,369
oh but he was one no I want to make one

666
00:37:42,150 --> 00:37:47,910
other point here just as an experience

667
00:37:44,369 --> 00:37:50,519
or that in when you're having this sort

668
00:37:47,909 --> 00:37:53,730
of an experience not as necessarily as a

669
00:37:50,519 --> 00:37:56,070
remote viewer but in in the face of some

670
00:37:53,730 --> 00:37:59,820

form of alien intelligence for lack of a

671

00:37:56,070 --> 00:38:03,900

better term what what transpires is some

672

00:37:59,820 --> 00:38:06,240

form of raw biologic terror that is

673

00:38:03,900 --> 00:38:08,849

within your body it's not like being

674

00:38:06,239 --> 00:38:11,909

afraid that if you know that you'll fall

675

00:38:08,849 --> 00:38:14,670

off the cliff or you came near to a car

676

00:38:11,909 --> 00:38:16,348

accident you have fear the kind of thing

677

00:38:14,670 --> 00:38:18,539

that happens and has happened to me and

678

00:38:16,349 --> 00:38:21,480

I've spoken to other experiences there

679

00:38:18,539 --> 00:38:24,719

is a kind of raw terror that nothing

680

00:38:21,480 --> 00:38:26,460

else duplicates so I'll leave that and

681

00:38:24,719 --> 00:38:29,399

please go on I'm so sorry to interrupt

682

00:38:26,460 --> 00:38:33,809

but I did want to say that no that's

683

00:38:29,400 --> 00:38:35,730

fine I and really Ingo Swan did not seem

684

00:38:33,809 --> 00:38:38,460

like a man to be intimidated either

685
00:38:35,730 --> 00:38:40,619
which is why it always intrigued me that

686
00:38:38,460 --> 00:38:43,650
he felt so threatened but I'm sorry I am

687
00:38:40,619 --> 00:38:47,640
interrupted to know when we left you you

688
00:38:43,650 --> 00:38:49,800
were saying wait there's more so more so

689
00:38:47,639 --> 00:38:55,588
what more is there I mean that's all

690
00:38:49,800 --> 00:38:59,880
good right there so on one of INGOs

691
00:38:55,588 --> 00:39:03,570
trips out here to the west coast he was

692
00:38:59,880 --> 00:39:06,390
going to have now he was a gourmet cook

693
00:39:03,570 --> 00:39:11,039
all right and he was going to have

694
00:39:06,389 --> 00:39:14,429
dinner with some friends down in Santa

695
00:39:11,039 --> 00:39:19,289
Monica and so he was going out to do

696
00:39:14,429 --> 00:39:21,960
some shopping for the ingredients that

697
00:39:19,289 --> 00:39:25,769
he needed hmm and he went to this

698
00:39:21,960 --> 00:39:29,460
supermarket now one one thing in order

699
00:39:25,769 --> 00:39:33,420
for me to for everybody to get the the

700
00:39:29,460 --> 00:39:37,500
sense of what was transpiring I got a

701
00:39:33,420 --> 00:39:42,030
mention that that man mr. Axelrod this

702
00:39:37,500 --> 00:39:45,329
mysterious apparently intelligence

703
00:39:42,030 --> 00:39:50,130
official okay that Ingo had contact with

704
00:39:45,329 --> 00:39:51,298
a number of times had a couple of guys

705
00:39:50,130 --> 00:39:54,599
that

706
00:39:51,298 --> 00:39:57,449
for him and for sure you'll recall this

707
00:39:54,599 --> 00:40:00,679
from the book yet Engel referred to as

708
00:39:57,449 --> 00:40:05,009
the twins yes now these were two guys

709
00:40:00,679 --> 00:40:09,179
who were probably not brothers but they

710
00:40:05,009 --> 00:40:10,829
were very similar in manner physique

711
00:40:09,179 --> 00:40:12,809
could build what-have-you

712
00:40:10,829 --> 00:40:16,589
in other words they were a couple of

713

00:40:12,809 --> 00:40:20,579
bruises according to angle or could be

714
00:40:16,588 --> 00:40:23,278
if the situation called wart but he went

715
00:40:20,579 --> 00:40:27,209
to the supermarket and as he's walking

716
00:40:23,278 --> 00:40:29,548
in he recounted this story he was

717
00:40:27,208 --> 00:40:35,879
walking down to the vegetable section

718
00:40:29,548 --> 00:40:39,768
and suddenly he was confronted with one

719
00:40:35,880 --> 00:40:44,519
of the most breathtakingly sexual women

720
00:40:39,768 --> 00:40:47,838
he ever saw in his life and he described

721
00:40:44,518 --> 00:40:52,858
her in the book as wearing a pair of

722
00:40:47,838 --> 00:40:56,639
really skin tight short shorts over her

723
00:40:52,858 --> 00:41:00,869
ample bosom she had a from what I recall

724
00:40:56,639 --> 00:41:04,289
a scarf wrapped around that was not an

725
00:41:00,869 --> 00:41:08,939
actual halter top was wearing these

726
00:41:04,289 --> 00:41:12,869
outlandish purple sunglasses had a mane

727
00:41:08,938 --> 00:41:15,268

of hair that I guess you know if you're

728

00:41:12,869 --> 00:41:19,798

a heterosexual guy you want to run your

729

00:41:15,268 --> 00:41:24,288

fingers through it and he was literally

730

00:41:19,798 --> 00:41:27,659

knocked back on his heels by this woman

731

00:41:24,289 --> 00:41:30,719

and he was so taken with her that he

732

00:41:27,659 --> 00:41:36,719

handed walked down to get closer to her

733

00:41:30,719 --> 00:41:40,588

and as he's walking down the hair on the

734

00:41:36,719 --> 00:41:43,858

back of his neck started to tingle now

735

00:41:40,588 --> 00:41:49,199

like I said angle was one of the most

736

00:41:43,858 --> 00:41:53,608

gifted psychics around anywhere for many

737

00:41:49,199 --> 00:41:55,469

many years and it suddenly hit him this

738

00:41:53,608 --> 00:41:57,298

is what and this is what he said in the

739

00:41:55,469 --> 00:42:01,559

book and this is what he told me

740

00:41:57,298 --> 00:42:04,989

personally he said I suddenly realized

741

00:42:01,559 --> 00:42:09,070

that that woman was not a human being

742
00:42:04,989 --> 00:42:13,839
mm-hmm she was an 80mm but then he had a

743
00:42:09,070 --> 00:42:18,490
bigger shock as he as he stopped himself

744
00:42:13,840 --> 00:42:21,820
and he realized that this woman who he

745
00:42:18,489 --> 00:42:25,389
now was convinced was not human might

746
00:42:21,820 --> 00:42:29,050
detect him he's looking around for an

747
00:42:25,389 --> 00:42:33,190
escape to get out of there and he sees

748
00:42:29,050 --> 00:42:35,769
one of these two guys from mr. Axelrod

749
00:42:33,190 --> 00:42:37,990
hmm and he's not going to go that way so

750
00:42:35,769 --> 00:42:41,320
he starts to go another way and there's

751
00:42:37,989 --> 00:42:44,349
the other guy and they both apparently

752
00:42:41,320 --> 00:42:47,200
have this woman there they're observing

753
00:42:44,349 --> 00:42:48,089
her they must have been following her or

754
00:42:47,199 --> 00:42:51,939
something

755
00:42:48,090 --> 00:42:54,970
well that shook him up so bad he just

756
00:42:51,940 --> 00:42:56,920
got the heck out of there okay jumped in

757
00:42:54,969 --> 00:43:00,339
his car and went somewhere else well a

758
00:42:56,920 --> 00:43:04,510
few days later he gets one of these

759
00:43:00,340 --> 00:43:07,780
mysterious phone calls that he has to go

760
00:43:04,510 --> 00:43:10,630
he I let's see I believe he had his his

761
00:43:07,780 --> 00:43:12,940
apartment parotia you may know this

762
00:43:10,630 --> 00:43:14,680
better than I in Greenwich Village is

763
00:43:12,940 --> 00:43:17,139
that correct in the West Village I

764
00:43:14,679 --> 00:43:20,079
believe it was on lower 7th Avenue 7th

765
00:43:17,139 --> 00:43:24,429
Avenue South but I couldn't attest to

766
00:43:20,079 --> 00:43:28,029
that absolutely but it wasn't in in in

767
00:43:24,429 --> 00:43:31,299
the West Village yes well he had a code

768
00:43:28,030 --> 00:43:33,670
set up whenever mr. Axelrod wanted to

769
00:43:31,300 --> 00:43:36,730
get in touch with him he would either

770

00:43:33,670 --> 00:43:39,490
get a note or would get a quick phone

771
00:43:36,730 --> 00:43:42,820
call go to so-and-so and he would go

772
00:43:39,489 --> 00:43:45,608
down to a payphone and then stand there

773
00:43:42,820 --> 00:43:47,970
and wait for the phone to ring well he

774
00:43:45,608 --> 00:43:50,679
got one of those notes or however they

775
00:43:47,969 --> 00:43:52,959
contacted him but he knew he had to get

776
00:43:50,679 --> 00:43:55,358
out to a payphone that had been

777
00:43:52,960 --> 00:43:58,000
pre-selected he went to this payphone

778
00:43:55,358 --> 00:44:00,369
and sure enough the phone rang he

779
00:43:58,000 --> 00:44:02,170
answered it there was a woman on the

780
00:44:00,369 --> 00:44:02,470
other end and said hold for a moment

781
00:44:02,170 --> 00:44:05,920
please

782
00:44:02,469 --> 00:44:08,799
and the next voice he heard was mr.

783
00:44:05,920 --> 00:44:10,780
Axelrod demanding to know what in the

784
00:44:08,800 --> 00:44:13,869

world he was doing in that store where

785

00:44:10,780 --> 00:44:17,170

that woman was and then he told him he

786

00:44:13,869 --> 00:44:18,289

said well just so you know if you ever

787

00:44:17,170 --> 00:44:21,318

run into her

788

00:44:18,289 --> 00:44:24,829

again stay away from her because she's

789

00:44:21,318 --> 00:44:26,808

as dangerous as you can imagine so that

790

00:44:24,829 --> 00:44:29,839

was just another one of these little

791

00:44:26,809 --> 00:44:33,519

weird you know these weird little

792

00:44:29,838 --> 00:44:39,918

antidotes that they keep this field so

793

00:44:33,518 --> 00:44:41,838

interesting yes indeed it is so but you

794

00:44:39,918 --> 00:44:46,368

know sort of to get back to the moon a

795

00:44:41,838 --> 00:44:48,168

little bit too so this fellow really did

796

00:44:46,369 --> 00:44:51,380

feel that there were bases on the moon

797

00:44:48,168 --> 00:44:54,379

in essence I mean some of the certainly

798

00:44:51,380 --> 00:44:57,140

the early astronauts felt the same thing

799

00:44:54,380 --> 00:44:59,959

Edgar Mitchell is very definite about

800

00:44:57,139 --> 00:45:01,900

saying that aliens don't exist which

801

00:44:59,958 --> 00:45:05,659

most of us would take for granted but

802

00:45:01,900 --> 00:45:10,309

actually are here and he's a man whose

803

00:45:05,659 --> 00:45:12,438

word I take so I you know again I mean

804

00:45:10,309 --> 00:45:14,059

it's yeah almost you know follow the

805

00:45:12,438 --> 00:45:16,328

money trail everything comes down to

806

00:45:14,059 --> 00:45:19,189

money and oil is certainly a huge

807

00:45:16,329 --> 00:45:22,068

producer of money but I can't believe

808

00:45:19,188 --> 00:45:23,748

that that's all that there is I mean I

809

00:45:22,068 --> 00:45:27,048

would like to think that there was

810

00:45:23,748 --> 00:45:32,498

something other than just strictly

811

00:45:27,048 --> 00:45:32,498

wealth that would be behind all this i

812

00:45:32,978 --> 00:45:39,168

well you know I I would go along with

813
00:45:37,248 --> 00:45:42,408
that would I agree with even more is

814
00:45:39,168 --> 00:45:46,248
that your a theory that they were much

815
00:45:42,409 --> 00:45:48,619
much earlier human development on this

816
00:45:46,248 --> 00:45:52,338
planet that probably destroyed

817
00:45:48,619 --> 00:45:55,849
themselves or or or met with a horrible

818
00:45:52,338 --> 00:45:57,858
fate and that the moon may just be left

819
00:45:55,849 --> 00:46:02,419
over from them or perhaps there are

820
00:45:57,858 --> 00:46:05,869
still some survivors out there but you

821
00:46:02,418 --> 00:46:08,418
know again everybody seems to feel that

822
00:46:05,869 --> 00:46:10,249
if suddenly the presence of aliens are

823
00:46:08,418 --> 00:46:12,768
known that everything's gonna fall apart

824
00:46:10,248 --> 00:46:15,228
and religious are going to come apart at

825
00:46:12,768 --> 00:46:17,298
the seams and governments are gonna run

826
00:46:15,228 --> 00:46:19,759
for the hills and I honestly don't think

827

00:46:17,298 --> 00:46:22,278
that's true I think you know maybe ala

828
00:46:19,759 --> 00:46:23,358
Spielberg we've been so prepared for so

829
00:46:22,278 --> 00:46:27,918
long now

830
00:46:23,358 --> 00:46:29,328
well we we're a first world country okay

831
00:46:27,918 --> 00:46:30,618
let's look at some of the other

832
00:46:29,329 --> 00:46:37,369
campaigns

833
00:46:30,619 --> 00:46:39,349
that's true and and there is the rub as

834
00:46:37,369 --> 00:46:42,079
say but you know there was something

835
00:46:39,349 --> 00:46:44,568
else about the Mon Tue that I wanted to

836
00:46:42,079 --> 00:46:46,969
mention when we were speaking about this

837
00:46:44,568 --> 00:46:53,650
tonight you know we stopped going to the

838
00:46:46,969 --> 00:46:56,900
moon in 1972 and a lot of people were

839
00:46:53,650 --> 00:47:03,039
curious about that I certainly was one

840
00:46:56,900 --> 00:47:08,259
of them and but what I found even more

841
00:47:03,039 --> 00:47:12,410

curious and they let me say it

842

00:47:08,259 --> 00:47:15,909

inexplicable was do you know that we

843

00:47:12,409 --> 00:47:20,868

went back to the moon in the early 90s

844

00:47:15,909 --> 00:47:24,518

no he did we went back to the moon and

845

00:47:20,869 --> 00:47:29,450

not only went back to the moon we

846

00:47:24,518 --> 00:47:33,558

completely totally rephotographed the

847

00:47:29,449 --> 00:47:37,699

entire moon with what was then

848

00:47:33,559 --> 00:47:41,479

cutting-edge technology the project was

849

00:47:37,699 --> 00:47:51,288

called Clementine right yes and it was

850

00:47:41,478 --> 00:47:56,139

not a NASA project and I had a has a

851

00:47:51,289 --> 00:47:56,140

very good friend dr. John Brandenburg

852

00:47:58,869 --> 00:48:07,369

dr. Brandenburg was the administrative

853

00:48:03,248 --> 00:48:10,968

assistant to the director of the

854

00:48:07,369 --> 00:48:13,880

Clementine project and John and I have

855

00:48:10,969 --> 00:48:17,088

talked about this many times both on the

856
00:48:13,880 --> 00:48:19,309
air as well as off the air and here's a

857
00:48:17,088 --> 00:48:23,420
little factoid that you may find

858
00:48:19,309 --> 00:48:27,559
absolutely astounding you know they took

859
00:48:23,420 --> 00:48:33,559
over 2 million photographs how many of

860
00:48:27,559 --> 00:48:37,390
those photos have you ever seen and even

861
00:48:33,559 --> 00:48:41,119
when they were coming back in real time

862
00:48:37,389 --> 00:48:44,480
during the Clementine mission even

863
00:48:41,119 --> 00:48:47,210
though they were coming back John

864
00:48:44,480 --> 00:48:50,809
the rest of the people in the support

865
00:48:47,210 --> 00:48:54,460
group saw practically none of them they

866
00:48:50,809 --> 00:48:57,829
had a contractor a DoD defense

867
00:48:54,460 --> 00:48:59,960
contractor in there that was getting all

868
00:48:57,829 --> 00:49:03,139
of those photographs and they were

869
00:48:59,960 --> 00:49:07,070
keeping them under wraps and I asked him

870
00:49:03,139 --> 00:49:09,259
about that and I said John I said what

871
00:49:07,070 --> 00:49:12,320
in the world were they doing he said

872
00:49:09,260 --> 00:49:14,960
well he said Don and and I mean he's

873
00:49:12,320 --> 00:49:17,390
he's gone on the record with this he

874
00:49:14,960 --> 00:49:20,150
said they were looking in he said I

875
00:49:17,389 --> 00:49:23,569
believe they were looking for changes up

876
00:49:20,150 --> 00:49:26,690
there and they were looking for specific

877
00:49:23,570 --> 00:49:30,230
things I said what kind of specific

878
00:49:26,690 --> 00:49:35,858
things he said well you know I use your

879
00:49:30,230 --> 00:49:38,480
imagination mm-hmm you know he also

880
00:49:35,858 --> 00:49:41,779
speculated that there was a nuclear war

881
00:49:38,480 --> 00:49:44,690
on Marvis which I found fascinating no a

882
00:49:41,780 --> 00:49:51,470
nuclear detonation not necessarily okay

883
00:49:44,690 --> 00:49:54,710
okay yeah he did he and that got buried

884

00:49:51,469 --> 00:49:57,019
I mean you would think that life and

885
00:49:54,710 --> 00:50:02,900
death on Mars the new Mars synthesis

886
00:49:57,019 --> 00:50:05,119
yeah absolutely and yet it doesn't get

887
00:50:02,900 --> 00:50:07,789
published in journals like science or

888
00:50:05,119 --> 00:50:10,640
nature and I mean certainly the manet

889
00:50:07,789 --> 00:50:11,989
academically is more than qualified for

890
00:50:10,639 --> 00:50:15,500
a peer review

891
00:50:11,989 --> 00:50:19,629
he backed up that so-called theory was

892
00:50:15,500 --> 00:50:23,349
absolute facts and it just gets buried

893
00:50:19,630 --> 00:50:27,858
who's the sensor through all this and

894
00:50:23,349 --> 00:50:30,799
another thing is that at NASA we have

895
00:50:27,858 --> 00:50:33,259
here a number of people from astronauts

896
00:50:30,800 --> 00:50:38,289
like Edgar Mitchell to this gentleman

897
00:50:33,260 --> 00:50:41,030
dr. Brandenburg to maurice chatelaine -

898
00:50:38,289 --> 00:50:44,269

Paul Hill who you know you've mentioned

899

00:50:41,030 --> 00:50:46,790

on your show quite a bit and and other

900

00:50:44,269 --> 00:50:48,619

individuals whose names

901

00:50:46,789 --> 00:50:51,349

unfortunately escaped me at this very

902

00:50:48,619 --> 00:50:55,460

second but there's got to be a dozen of

903

00:50:51,349 --> 00:50:57,259

them including astronauts and and ground

904

00:50:55,460 --> 00:50:57,949

control and people of that nature

905

00:50:57,260 --> 00:51:01,220

who

906

00:50:57,949 --> 00:51:03,469

have not exactly defected but you would

907

00:51:01,219 --> 00:51:06,858

say they have come clean and said a few

908

00:51:03,469 --> 00:51:08,838

things that give us to believe that you

909

00:51:06,858 --> 00:51:09,940

know what you see is not what you get up

910

00:51:08,838 --> 00:51:14,779

there

911

00:51:09,940 --> 00:51:20,358

well why yeah great question why in the

912

00:51:14,780 --> 00:51:25,640

world is is is it still such a secret

913
00:51:20,358 --> 00:51:29,630
why are nobody why is no-one up in arms

914
00:51:25,639 --> 00:51:31,969
about this I mean well good lord you had

915
00:51:29,630 --> 00:51:37,059
mentioned earlier look at the state of

916
00:51:31,969 --> 00:51:40,309
the of the world today we are in a

917
00:51:37,059 --> 00:51:43,460
genuine deeply and I might add a

918
00:51:40,309 --> 00:51:47,599
cesspool right now

919
00:51:43,460 --> 00:51:49,309
it is just you know it's just horrible

920
00:51:47,599 --> 00:51:53,930
and when I get up in the morning I

921
00:51:49,309 --> 00:51:58,039
almost hesitate to turn on the radio I

922
00:51:53,929 --> 00:52:01,368
have my verse death agape and there's so

923
00:51:58,039 --> 00:52:06,380
much bad news I mean recent this of

924
00:52:01,369 --> 00:52:10,519
bolas care that is going on and but you

925
00:52:06,380 --> 00:52:15,079
know you you got to ask yourself in the

926
00:52:10,519 --> 00:52:17,059
powers that be currently where do any of

927
00:52:15,079 --> 00:52:21,318
these items that we're talking about

928
00:52:17,059 --> 00:52:24,078
tonight fall on their scale of things to

929
00:52:21,318 --> 00:52:27,429
be addressed well it's got to be it's

930
00:52:24,079 --> 00:52:31,450
got to be beneath the floorboards UFOs

931
00:52:27,429 --> 00:52:35,389
things on the moon extraterrestrial

932
00:52:31,449 --> 00:52:39,500
intelligence and you know that's where

933
00:52:35,389 --> 00:52:44,480
it's gonna stay until such time as it

934
00:52:39,500 --> 00:52:47,239
doesn't stay there now why is that well

935
00:52:44,480 --> 00:52:50,329
you know and this is something else that

936
00:52:47,239 --> 00:52:56,139
that I have looked at over the years go

937
00:52:50,329 --> 00:53:00,410
back to 1953 particularly January of

938
00:52:56,139 --> 00:53:04,879
1953 which was about six seven six

939
00:53:00,409 --> 00:53:08,059
months after the infamous Washington DC

940
00:53:04,880 --> 00:53:10,619
overflights that happened in three

941

00:53:08,059 --> 00:53:15,808
weekends in July and early

942
00:53:10,619 --> 00:53:19,079
yes of UFOs something unidentified

943
00:53:15,809 --> 00:53:23,420
objects that over flew the net the

944
00:53:19,079 --> 00:53:27,318
nation's capital with total impunity

945
00:53:23,420 --> 00:53:30,659
okay whatever whatever it was went in in

946
00:53:27,318 --> 00:53:34,170
airspace over the Capitol over the

947
00:53:30,659 --> 00:53:36,389
Pentagon over the White House jets were

948
00:53:34,170 --> 00:53:38,880
called in he couldn't catch him these

949
00:53:36,389 --> 00:53:44,129
things flew around as a matter of fact

950
00:53:38,880 --> 00:53:48,450
you mentioned Paul Hill at that time was

951
00:53:44,130 --> 00:53:54,420
a high-level employee of NACA

952
00:53:48,449 --> 00:53:58,858
which was the precursor to NASA okay

953
00:53:54,420 --> 00:54:01,200
mm-hmm ACA which was later what NASA

954
00:53:58,858 --> 00:54:04,288
became although at the time they weren't

955
00:54:01,199 --> 00:54:09,058

as they weren't as concerned with outer

956

00:54:04,289 --> 00:54:12,359

space but he had a tremendous sighting

957

00:54:09,059 --> 00:54:15,150

in Washington or on the outskirts of

958

00:54:12,358 --> 00:54:19,380

Washington during these overflights

959

00:54:15,150 --> 00:54:21,960

went back talked to his people at NACA

960

00:54:19,380 --> 00:54:25,528

and they told him that if he ever

961

00:54:21,960 --> 00:54:27,989

mentioned it publicly he'd be fired yeah

962

00:54:25,528 --> 00:54:30,509

so sure they knew something they knew

963

00:54:27,989 --> 00:54:33,179

something was going on but it had them

964

00:54:30,509 --> 00:54:35,759

scared to death well in January the

965

00:54:33,179 --> 00:54:37,949

government finally said okay look we got

966

00:54:35,759 --> 00:54:41,338

to figure out a way to handle this and

967

00:54:37,949 --> 00:54:44,578

that's where we got what became known as

968

00:54:41,338 --> 00:54:47,548

the Robertson panel they brought in some

969

00:54:44,579 --> 00:54:50,999

of the top scientific talent in the

970
00:54:47,548 --> 00:54:55,199
United States at that time for a week to

971
00:54:50,998 --> 00:54:57,988
discuss UFOs and not what are they where

972
00:54:55,199 --> 00:55:00,598
do they come from what do they want know

973
00:54:57,989 --> 00:55:03,690
that that isn't what they discussed it's

974
00:55:00,599 --> 00:55:06,420
how do we handle it and they decided

975
00:55:03,690 --> 00:55:09,318
upon and I'm just giving you the short

976
00:55:06,420 --> 00:55:12,989
version ridicule

977
00:55:09,318 --> 00:55:15,329
ridicule is the best way to do it and if

978
00:55:12,989 --> 00:55:18,239
you look at the history of the phenomena

979
00:55:15,329 --> 00:55:20,130
from that point forward that's exactly

980
00:55:18,239 --> 00:55:22,579
what the United States government and

981
00:55:20,130 --> 00:55:23,950
the military and the intelligence

982
00:55:22,579 --> 00:55:29,130
agencies

983
00:55:23,949 --> 00:55:33,368
have done for the next 60 years ridicule

984
00:55:29,130 --> 00:55:36,910
the giggle factor yes but you know Don -

985
00:55:33,369 --> 00:55:40,150
knowledge is power and I think a lot of

986
00:55:36,909 --> 00:55:42,818
these people in authoritative positions

987
00:55:40,150 --> 00:55:44,410
like having this knowledge to themselves

988
00:55:42,818 --> 00:55:46,389
it just makes them feel a little bit

989
00:55:44,409 --> 00:55:48,429
more important like you know we can

990
00:55:46,389 --> 00:55:51,989
handle this but you Schmucks can't and

991
00:55:48,429 --> 00:55:54,969
that's you know it's how it's gonna be I

992
00:55:51,989 --> 00:55:57,429
I think I have to agree with you I mean

993
00:55:54,969 --> 00:56:00,308
today's crises so outweigh any

994
00:55:57,429 --> 00:56:02,558
discussion of UFOs and I think you even

995
00:56:00,309 --> 00:56:05,559
see it like in the media and in talk

996
00:56:02,559 --> 00:56:07,480
shows such as this it it seems to have

997
00:56:05,559 --> 00:56:10,000
dropped off a little bit I think people

998

00:56:07,480 --> 00:56:13,949
are so concerned with just staying alive

999
00:56:10,000 --> 00:56:17,318
these days that something is you know

1000
00:56:13,949 --> 00:56:20,279
interesting but how would you say just

1001
00:56:17,318 --> 00:56:23,739
not really part of their daily life just

1002
00:56:20,280 --> 00:56:26,769
that as you say takes the backburner for

1003
00:56:23,739 --> 00:56:30,068
sure oh absolutely there's there's no

1004
00:56:26,769 --> 00:56:38,880
doubt about it and and let's face it in

1005
00:56:30,068 --> 00:56:42,759
the last 10 to 15 years the level of

1006
00:56:38,880 --> 00:56:46,680
research into this phenomenon and the

1007
00:56:42,760 --> 00:56:51,150
people that that are so-called

1008
00:56:46,679 --> 00:56:55,949
researchers the you know it has just

1009
00:56:51,150 --> 00:56:59,680
degraded into absolutely a mishmash of

1010
00:56:55,949 --> 00:57:03,429
garbage out there yes it has and 20

1011
00:56:59,679 --> 00:57:05,348
years ago we had we had people like well

1012
00:57:03,429 --> 00:57:08,399

at the time Bruce Maccabee Stanton

1013

00:57:05,349 --> 00:57:11,260

Friedman Kevin Randall Richard Owen

1014

00:57:08,400 --> 00:57:14,500

well don't know nobody even knew who

1015

00:57:11,260 --> 00:57:16,750

Dolan was that's true who's true okay

1016

00:57:14,500 --> 00:57:19,900

but then you had people like my wife

1017

00:57:16,750 --> 00:57:23,139

Vicki and I yes with the magazine I mean

1018

00:57:19,900 --> 00:57:25,710

we were concerned with doing actual

1019

00:57:23,139 --> 00:57:28,239

research getting out in the field

1020

00:57:25,710 --> 00:57:32,019

interviewing people going to places

1021

00:57:28,239 --> 00:57:33,669

where things have happened talking to

1022

00:57:32,019 --> 00:57:36,099

neighbors and you know what I'm saying

1023

00:57:33,670 --> 00:57:37,570

conducting an assessment and that

1024

00:57:36,099 --> 00:57:40,780

doesn't happen

1025

00:57:37,570 --> 00:57:43,090

the kid and a lot of them today are kids

1026

00:57:40,780 --> 00:57:45,040

if they have a laptop computer and

1027
00:57:43,090 --> 00:57:48,550
they're sitting down in mom's basement

1028
00:57:45,039 --> 00:57:51,279
with a an internet hookup

1029
00:57:48,550 --> 00:57:55,240
they can call themselves a UFO

1030
00:57:51,280 --> 00:57:57,519
researcher go on the web find a case and

1031
00:57:55,239 --> 00:57:59,919
then just start blabbing blabbering

1032
00:57:57,519 --> 00:58:03,969
about it yes and that's research today

1033
00:57:59,920 --> 00:58:06,280
well you know unfortunately MUFON hasn't

1034
00:58:03,969 --> 00:58:08,769
been you know totally transparent in

1035
00:58:06,280 --> 00:58:10,510
doing their job - some of the people are

1036
00:58:08,769 --> 00:58:12,400
wonderful people and they do their job

1037
00:58:10,510 --> 00:58:15,220
but they're not really releasing the

1038
00:58:12,400 --> 00:58:17,740
cases so people can see them and that's

1039
00:58:15,219 --> 00:58:20,769
an issue - another issue that was true

1040
00:58:17,739 --> 00:58:23,349
thirty years ago bringing it just

1041
00:58:20,769 --> 00:58:27,099
bringing it back to the moon for a last

1042
00:58:23,349 --> 00:58:31,679
question Don there was a discovery very

1043
00:58:27,099 --> 00:58:35,500
recently having to do with a huge

1044
00:58:31,679 --> 00:58:38,799
geologically huge I mean big is like a

1045
00:58:35,500 --> 00:58:41,889
half the moon square artifact that was

1046
00:58:38,800 --> 00:58:44,230
discovered and I know that you know that

1047
00:58:41,889 --> 00:58:46,900
some of the rocks on the moon are older

1048
00:58:44,230 --> 00:58:49,269
than the earth and the soil is older

1049
00:58:46,900 --> 00:58:52,599
than the earth soil so do you have any

1050
00:58:49,269 --> 00:58:54,429
opinion have you seen this research it's

1051
00:58:52,599 --> 00:58:56,409
really very new and no one would blame

1052
00:58:54,429 --> 00:58:59,349
you if you hadn't seen it but about this

1053
00:58:56,409 --> 00:59:02,589
square artifact that has been discovered

1054
00:58:59,349 --> 00:59:06,849
by scientists on the moon I hate to

1055

00:59:02,590 --> 00:59:09,250
admit this and but but I might try to be

1056
00:59:06,849 --> 00:59:12,009
an honest guy no I hadn't heard of it

1057
00:59:09,250 --> 00:59:13,329
well I'm gonna send you it on you know

1058
00:59:12,010 --> 00:59:15,670
on the internet I'll send you an email

1059
00:59:13,329 --> 00:59:18,340
with it but it's it's just this huge

1060
00:59:15,670 --> 00:59:20,650
geological thing that there's this big

1061
00:59:18,340 --> 00:59:23,410
square you know that is not like the

1062
00:59:20,650 --> 00:59:27,220
rest of the moon and it's a big huge

1063
00:59:23,409 --> 00:59:30,399
square that the astrogeologist I guess

1064
00:59:27,219 --> 00:59:31,809
they would call themselves and they have

1065
00:59:30,400 --> 00:59:34,119
discovered this and they are making

1066
00:59:31,809 --> 00:59:36,369
theories now as to what it might be of

1067
00:59:34,119 --> 00:59:38,829
course that the things that are coming

1068
00:59:36,369 --> 00:59:42,069
up with are purely speculative and they

1069
00:59:38,829 --> 00:59:44,110

really don't know but you know so much

1070

00:59:42,070 --> 00:59:47,170

about the moon you don't know like it

1071

00:59:44,110 --> 00:59:49,690

one astronomer said oh the moon no it

1072

00:59:47,170 --> 00:59:50,769

does not exist because it shouldn't

1073

00:59:49,690 --> 00:59:53,590

exist

1074

00:59:50,769 --> 00:59:57,909

the characteristics and so on the orbit

1075

00:59:53,590 --> 01:00:00,490

size the double planet thing the

1076

00:59:57,909 --> 01:00:03,879

rotation that matches this the fact it's

1077

01:00:00,489 --> 01:00:06,039

kept this planet's climate stable long

1078

01:00:03,880 --> 01:00:10,320

enough for life to develop I have so

1079

01:00:06,039 --> 01:00:12,880

many weird things so and they keep this

1080

01:00:10,320 --> 01:00:16,800

finding them the mass cons and all those

1081

01:00:12,880 --> 01:00:19,599

messes almost like a plan yeah I

1082

01:00:16,800 --> 01:00:21,610

honestly you know I think there are some

1083

01:00:19,599 --> 01:00:23,949

artificial satellites

1084
01:00:21,610 --> 01:00:26,680
I think the moons one focus is another

1085
01:00:23,949 --> 01:00:29,500
probably when we get out to Jupiter and

1086
01:00:26,679 --> 01:00:32,589
Saturn and so on I think they have been

1087
01:00:29,500 --> 01:00:33,699
planted here and somebody knew what they

1088
01:00:32,590 --> 01:00:36,640
were doing and they knew how to

1089
01:00:33,699 --> 01:00:40,539
stabilize life-forms on various planets

1090
01:00:36,639 --> 01:00:43,599
and once it gets a massive rock in the

1091
01:00:40,539 --> 01:00:45,610
Goldilocks zone they go put another rock

1092
01:00:43,599 --> 01:00:47,019
out there everything will be peachy keen

1093
01:00:45,610 --> 01:00:49,870
before you know it they'll have an

1094
01:00:47,019 --> 01:00:52,269
atmosphere of rain oceans water

1095
01:00:49,869 --> 01:00:56,559
everything it sounds almost like to

1096
01:00:52,269 --> 01:00:59,889
kumbaya to be true yes yes indeed it's

1097
01:00:56,559 --> 01:01:01,630
that's really true Kate um I am

1098
01:00:59,889 --> 01:01:04,089
wondering whether we should give Don an

1099
01:01:01,630 --> 01:01:05,530
opportunity to you know talk himself up

1100
01:01:04,090 --> 01:01:09,250
and what he's doing and talk about

1101
01:01:05,530 --> 01:01:11,019
pleased I'm sorry my manners are showing

1102
01:01:09,250 --> 01:01:18,159
faroush is absolutely correct

1103
01:01:11,019 --> 01:01:21,190
please yeah I write now primarily what

1104
01:01:18,159 --> 01:01:26,079
what I'm up to is my radio program it's

1105
01:01:21,190 --> 01:01:30,309
called Dark Matters radio it's carried

1106
01:01:26,079 --> 01:01:34,690
on the cyber station USA Network out of

1107
01:01:30,309 --> 01:01:38,440
Boston Massachusetts believe it or not

1108
01:01:34,690 --> 01:01:42,159
now this has been although I haven't

1109
01:01:38,440 --> 01:01:45,909
been 10 years with cyber station this is

1110
01:01:42,159 --> 01:01:50,139
the 10th year of dark matters radio

1111
01:01:45,909 --> 01:01:54,279
Bravo congratulations thank you we we

1112

01:01:50,139 --> 01:01:57,460
run Monday through Friday starting at

1113
01:01:54,280 --> 01:02:00,550
10:00 p.m. Pacific Time that's 1:00 a.m.

1114
01:01:57,460 --> 01:02:04,250
on the East Coast so it's it's kind of

1115
01:02:00,550 --> 01:02:08,869
late for all you folks back east but

1116
01:02:04,250 --> 01:02:12,739
good news is is that all of those shows

1117
01:02:08,869 --> 01:02:18,289
are available for either streaming

1118
01:02:12,739 --> 01:02:22,789
online or a free download we do not

1119
01:02:18,289 --> 01:02:26,869
charge anybody for that and you know it

1120
01:02:22,789 --> 01:02:28,608
runs right Monday through Friday and you

1121
01:02:26,869 --> 01:02:30,470
know just have I've been having a heck

1122
01:02:28,608 --> 01:02:36,139
of a good time doing it for as long as I

1123
01:02:30,469 --> 01:02:37,339
have and I'm a fan thank you and crew

1124
01:02:36,139 --> 01:02:41,629
she was telling me you have a book

1125
01:02:37,340 --> 01:02:46,039
coming out is that so no I have a a

1126
01:02:41,630 --> 01:02:50,630

novel that was buried I'm working on a

1127

01:02:46,039 --> 01:02:55,309

sequel the novel is titled past sins hmm

1128

01:02:50,630 --> 01:02:57,260

it's a horror novel oh and boy I'll tell

1129

01:02:55,309 --> 01:02:59,509

you especially this time of the year is

1130

01:02:57,260 --> 01:03:03,770

a great time port you know Halloween is

1131

01:02:59,510 --> 01:03:05,570

coming up okay I heard you read part of

1132

01:03:03,769 --> 01:03:10,009

it on the air and it was very impressive

1133

01:03:05,570 --> 01:03:11,920

oh thank you that's been a while ago

1134

01:03:10,010 --> 01:03:18,770

good lord

1135

01:03:11,920 --> 01:03:23,659

but yeah passions is a it took care of

1136

01:03:18,769 --> 01:03:27,820

her I had a Jones Jones good horror and

1137

01:03:23,659 --> 01:03:31,549

I've always been especially fond of

1138

01:03:27,820 --> 01:03:35,780

vampire stories and that's what this

1139

01:03:31,550 --> 01:03:39,440

novel is about what if vampires were

1140

01:03:35,780 --> 01:03:42,530

real what if there were creatures called

1141
01:03:39,440 --> 01:04:01,220
vampires and the Central Intelligence

1142
01:03:42,530 --> 01:04:02,720
Agency got their hands on oh boy now

1143
01:04:01,219 --> 01:04:10,358
imagine what they could do with a real

1144
01:04:02,719 --> 01:04:13,459
vampire oh please anyway very scary so I

1145
01:04:10,358 --> 01:04:17,029
want to thank you so much for coming on

1146
01:04:13,460 --> 01:04:18,079
with us and we're gonna you know hope

1147
01:04:17,030 --> 01:04:21,530
they should come back we

1148
01:04:18,079 --> 01:04:23,659
hope that this this podcast that we're

1149
01:04:21,530 --> 01:04:25,880
working on here the shattered reality

1150
01:04:23,659 --> 01:04:28,309
we're hoping to get it going and that we

1151
01:04:25,880 --> 01:04:30,289
get a bunch of good people on and we

1152
01:04:28,309 --> 01:04:33,590
couldn't get anybody better than you Don

1153
01:04:30,289 --> 01:04:35,389
and although I have really you know you

1154
01:04:33,590 --> 01:04:37,190
were talking about remote viewers and

1155
01:04:35,389 --> 01:04:39,559
when I think of you I also think of the

1156
01:04:37,190 --> 01:04:42,380
other great remote viewer because I

1157
01:04:39,559 --> 01:04:44,480
think that you know I trust you in a way

1158
01:04:42,380 --> 01:04:47,869
because I think you've got that you know

1159
01:04:44,480 --> 01:04:51,469
that police ESP like Pat price had who

1160
01:04:47,869 --> 01:04:53,869
was the greatest remote viewer of our of

1161
01:04:51,469 --> 01:04:55,819
our time I think even better than then

1162
01:04:53,869 --> 01:04:58,400
ingo on a certain level and and

1163
01:04:55,820 --> 01:05:00,170
unfortunately he he was he was snuffed

1164
01:04:58,400 --> 01:05:03,380
by one of the governments we never know

1165
01:05:00,170 --> 01:05:05,450
mu but he was a wonderful police

1166
01:05:03,380 --> 01:05:07,460
detective and I really believe that you

1167
01:05:05,449 --> 01:05:09,649
fellas a lot of times you have that

1168
01:05:07,460 --> 01:05:12,230
little extra sense that lets you know

1169

01:05:09,650 --> 01:05:13,430
what to do and what not to do and you

1170
01:05:12,230 --> 01:05:15,559
know you see things that other people

1171
01:05:13,429 --> 01:05:17,000
don't see so I want to thank you very

1172
01:05:15,559 --> 01:05:20,210
much and we're going to end the

1173
01:05:17,000 --> 01:05:22,400
broadcast of this tonight with my

1174
01:05:20,210 --> 01:05:25,460
surmisings and we'll certainly let you

1175
01:05:22,400 --> 01:05:27,650
listen to it mice amaizing x' are things

1176
01:05:25,460 --> 01:05:30,380
that are they're not exactly predictions

1177
01:05:27,650 --> 01:05:33,800
they're things that just figure it to me

1178
01:05:30,380 --> 01:05:34,640
and and as as Russell Targ said about

1179
01:05:33,800 --> 01:05:37,670
UFOs

1180
01:05:34,639 --> 01:05:39,650
something like that is true so I'm going

1181
01:05:37,670 --> 01:05:43,639
to say something like what I'm going to

1182
01:05:39,650 --> 01:05:46,250
say is true and my surmising for this

1183
01:05:43,639 --> 01:05:48,019

evening is that some government maybe

1184

01:05:46,250 --> 01:05:50,119

the US government maybe the Chinese

1185

01:05:48,019 --> 01:05:53,210

government maybe some other government

1186

01:05:50,119 --> 01:05:56,900

is developing what is essentially a

1187

01:05:53,210 --> 01:05:59,150

suicide machine and you know we've all

1188

01:05:56,900 --> 01:06:02,030

heard in books like the men who stare at

1189

01:05:59,150 --> 01:06:05,269

goats we've all heard that there are

1190

01:06:02,030 --> 01:06:07,550

certain psyops things going on and i

1191

01:06:05,269 --> 01:06:10,280

think somewhere in somebody's deep black

1192

01:06:07,550 --> 01:06:13,280

program is a suicide machine that it

1193

01:06:10,280 --> 01:06:17,210

probably works through some form of

1194

01:06:13,280 --> 01:06:19,280

sound waves going out and taking it out

1195

01:06:17,210 --> 01:06:21,470

putting it somewhere where there is a

1196

01:06:19,280 --> 01:06:23,420

population where they don't want the

1197

01:06:21,469 --> 01:06:26,319

people to be there anymore and these

1198
01:06:23,420 --> 01:06:28,579
people will in fact commit suicide I

1199
01:06:26,320 --> 01:06:29,329
don't know when we're going to find out

1200
01:06:28,579 --> 01:06:31,219
about it I

1201
01:06:29,329 --> 01:06:33,619
don't know how it's going to happen but

1202
01:06:31,219 --> 01:06:34,999
that's my surmising for tonight and with

1203
01:06:33,619 --> 01:06:38,778
that Kate you want to say

1204
01:06:34,998 --> 01:06:42,108
yeah well that was criminal but I guess

1205
01:06:38,778 --> 01:06:44,900
we're all dying to find out anyway Todd

1206
01:06:42,108 --> 01:06:48,650
listen I've just really admired you from

1207
01:06:44,900 --> 01:06:51,019
afar for so long UFO magazine god when

1208
01:06:48,650 --> 01:06:53,630
that came out every issue I go yeah here

1209
01:06:51,018 --> 01:06:56,478
it is again and go from this beginning

1210
01:06:53,630 --> 01:06:58,818
right to the end and it's it's really

1211
01:06:56,478 --> 01:07:01,368
been a real pleasure to speak to you and

1212
01:06:58,818 --> 01:07:03,679
you are one of the Great's in the field

1213
01:07:01,369 --> 01:07:06,108
and I thank you so much for being with

1214
01:07:03,679 --> 01:07:09,108
us this evening well thank you so much

1215
01:07:06,108 --> 01:07:11,389
and it's been a pleasure and thank you

1216
01:07:09,108 --> 01:07:14,088
for the honor of being the first guest

1217
01:07:11,389 --> 01:07:17,478
on your your new radio program and hey

1218
01:07:14,088 --> 01:07:19,278
let me let me tell you and this is

1219
01:07:17,478 --> 01:07:22,748
something I don't talk about often but

1220
01:07:19,278 --> 01:07:27,318
you're right I do have a sixth sense

1221
01:07:22,748 --> 01:07:29,778
that works pretty good occasionally and

1222
01:07:27,318 --> 01:07:31,699
I got good feelings about where you

1223
01:07:29,778 --> 01:07:33,318
ladies are going to be heading with this

1224
01:07:31,699 --> 01:07:35,268
well Wow

1225
01:07:33,318 --> 01:07:38,329
thank you thank you thank you it's very

1226

01:07:35,268 --> 01:07:40,608
very encouraging and and I think we'll

1227
01:07:38,329 --> 01:07:42,680
let it go on that I know yeah on that

1228
01:07:40,608 --> 01:07:45,108
high note and it the honor is all ours

1229
01:07:42,679 --> 01:07:47,708
yeah absolutely done thank you again

1230
01:07:45,108 --> 01:07:47,708
thanks so much

1231
01:07:59,309 --> 01:08:01,369
you
