

1  
00:00:16,699 --> 00:00:24,750  
welcome to shattered reality with your

2  
00:00:20,160 --> 00:00:27,240  
hosts Kate Valentine and Persia prepare

3  
00:00:24,750 --> 00:00:31,800  
to have your paradigm shifted into

4  
00:00:27,239 --> 00:00:35,820  
truths questioned and now shattered

5  
00:00:31,800 --> 00:00:38,520  
reality hi welcome to another episode of

6  
00:00:35,820 --> 00:00:42,689  
shattered reality I am Kate Valentine

7  
00:00:38,520 --> 00:00:47,940  
and I am for Russia and today we have

8  
00:00:42,689 --> 00:00:51,269  
our 15th our 15th podcast and we are so

9  
00:00:47,939 --> 00:00:55,439  
pleased to welcome onto this podcast

10  
00:00:51,270 --> 00:00:58,440  
Paul H Smith who is a professional of

11  
00:00:55,439 --> 00:01:03,030  
remote viewer and a teacher of remote

12  
00:00:58,439 --> 00:01:06,000  
viewing he became a psychic spy in 1983

13  
00:01:03,030 --> 00:01:09,269  
when he was recruited for the Army's

14  
00:01:06,000 --> 00:01:12,269  
remote viewing psychic espionage program

15  
00:01:09,269 --> 00:01:14,250  
a program he never even knew existed

16  
00:01:12,269 --> 00:01:17,969  
up until the moment he was invited to

17  
00:01:14,250 --> 00:01:20,370  
join even though he was like living next

18  
00:01:17,969 --> 00:01:22,950  
door to skip Atwater

19  
00:01:20,370 --> 00:01:25,439  
he was one of the longest-serving remote

20  
00:01:22,950 --> 00:01:27,840  
viewers in the military program during

21  
00:01:25,439 --> 00:01:30,780  
his seven years in that program he

22  
00:01:27,840 --> 00:01:34,140  
studied under the legendary how put off

23  
00:01:30,780 --> 00:01:36,599  
and Ingo Swann he served as a first-line

24  
00:01:34,140 --> 00:01:38,489  
operational remote viewer doing

25  
00:01:36,599 --> 00:01:41,789  
thousands of trainings and live

26  
00:01:38,489 --> 00:01:44,219  
operational RV's sessions he wrote the

27  
00:01:41,790 --> 00:01:48,300  
official manual on controlled room you

28  
00:01:44,219 --> 00:01:51,060  
remote viewing and he taught crv to new

29

00:01:48,299 --> 00:01:53,158  
remote viewing candidates among his

30  
00:01:51,060 --> 00:01:57,030  
students are included the now famous

31  
00:01:53,159 --> 00:01:59,820  
remote viewers such as Lynn Buchanan Mel

32  
00:01:57,030 --> 00:02:04,170  
Reilly and David Morehouse I studied

33  
00:01:59,819 --> 00:02:06,599  
with David Morehouse briefly Paul has

34  
00:02:04,170 --> 00:02:08,489  
briefed and demonstrated remote viewing

35  
00:02:06,599 --> 00:02:11,250  
to senators and admirals and generals

36  
00:02:08,489 --> 00:02:14,968  
and other senior military and government

37  
00:02:11,250 --> 00:02:18,900  
officials a Desert Storm veteran Paul

38  
00:02:14,968 --> 00:02:19,799  
retired from the Army in 1996 at the

39  
00:02:18,900 --> 00:02:23,010  
rank of may

40  
00:02:19,800 --> 00:02:25,260  
from his final duty position chief of

41  
00:02:23,009 --> 00:02:28,679  
intelligence and security for the

42  
00:02:25,259 --> 00:02:30,539  
Military District of Washington for

43  
00:02:28,680 --> 00:02:33,750

three decades now he has immersed

44

00:02:30,539 --> 00:02:36,509

himself in consciousness-based skills he

45

00:02:33,750 --> 00:02:38,909

has dedicated his life to changing

46

00:02:36,509 --> 00:02:41,310

society's attitudes towards applied

47

00:02:38,909 --> 00:02:44,069

consciousness and we're all about

48

00:02:41,310 --> 00:02:46,379

consciousness year through the powerful

49

00:02:44,069 --> 00:02:48,750

leverage of teaching speaking and

50

00:02:46,379 --> 00:02:52,530

writing about and organizing around

51

00:02:48,750 --> 00:02:55,020

remote viewing since 1997 he has been

52

00:02:52,530 --> 00:02:57,300

president and chief instructor of his

53

00:02:55,020 --> 00:02:59,700

own commercial full-service remote

54

00:02:57,300 --> 00:03:02,189

viewing training company remote viewing

55

00:02:59,699 --> 00:03:05,839

Instructional Services Incorporated and

56

00:03:02,189 --> 00:03:08,550

is a founding director of the nonprofit

57

00:03:05,840 --> 00:03:11,640

international remote viewing Association

58  
00:03:08,550 --> 00:03:14,130  
which I Ferruccio belong to and of which

59  
00:03:11,639 --> 00:03:16,979  
he is past president he has chaired and

60  
00:03:14,129 --> 00:03:19,319  
organized seven of her VA's annual

61  
00:03:16,979 --> 00:03:22,919  
remote viewing conferences since the

62  
00:03:19,319 --> 00:03:25,859  
organization's founding in 1999 he has a

63  
00:03:22,919 --> 00:03:29,269  
wonderful book reading the enemy's mind

64  
00:03:25,860 --> 00:03:33,300  
inside stargate america's psychic

65  
00:03:29,270 --> 00:03:37,350  
espionage program which was published by

66  
00:03:33,300 --> 00:03:41,100  
tor forge in 2005 and was a Reader's

67  
00:03:37,349 --> 00:03:45,389  
Digest Book bonus feature an editor's

68  
00:03:41,099 --> 00:03:47,219  
choice selection Paul's new book I want

69  
00:03:45,389 --> 00:03:49,949  
a copy of this book even though it's not

70  
00:03:47,219 --> 00:03:52,349  
out yet the essential guide to remote

71  
00:03:49,949 --> 00:03:55,169  
viewing will be released this summer

72  
00:03:52,349 --> 00:03:59,340  
he is also co-producer of the acclaimed

73  
00:03:55,169 --> 00:04:02,339  
DVD based learn dowsing training program

74  
00:03:59,340 --> 00:04:05,039  
and of the forthcoming remote perception

75  
00:04:02,340 --> 00:04:07,590  
basic operational training course to be

76  
00:04:05,039 --> 00:04:09,469  
published July 14 2015

77  
00:04:07,590 --> 00:04:11,670  
that's only a few days from now Paul

78  
00:04:09,469 --> 00:04:15,030  
that's right

79  
00:04:11,669 --> 00:04:17,399  
just to finish up here he has a BA from

80  
00:04:15,030 --> 00:04:20,730  
Brigham Young University an MS from the

81  
00:04:17,399 --> 00:04:23,668  
national intelligence university both in

82  
00:04:20,730 --> 00:04:25,980  
Middle Eastern Studies and a PhD in

83  
00:04:23,668 --> 00:04:27,680  
philosophy from the University of Texas

84  
00:04:25,980 --> 00:04:33,660  
at Austin

85  
00:04:27,680 --> 00:04:36,420  
so dr. Paul we're gonna leave it at that

86

00:04:33,660 --> 00:04:39,810  
we could go on forever with with Wow

87  
00:04:36,420 --> 00:04:42,439  
very wonderful potential I'm afraid if

88  
00:04:39,810 --> 00:04:47,009  
we did I'd get bored pretty quick

89  
00:04:42,439 --> 00:04:50,759  
okay so just get our viewers up to speed

90  
00:04:47,009 --> 00:04:54,029  
I had the pleasure of going down to New

91  
00:04:50,759 --> 00:04:57,959  
Orleans Louisiana about ten days ago

92  
00:04:54,029 --> 00:04:59,969  
where I attended of the eartha

93  
00:04:57,959 --> 00:05:02,909  
convention the International remote

94  
00:04:59,970 --> 00:05:05,550  
viewers Association convention and I had

95  
00:05:02,910 --> 00:05:08,550  
the pleasure of meeting you and there

96  
00:05:05,550 --> 00:05:11,240  
were a lot of really interesting remote

97  
00:05:08,550 --> 00:05:14,579  
viewers there but what drew me to

98  
00:05:11,240 --> 00:05:16,590  
speaking to you particularly today other

99  
00:05:14,579 --> 00:05:19,409  
than the fact that I won your new book

100  
00:05:16,589 --> 00:05:21,389

which I'm thrilled about what what

101

00:05:19,410 --> 00:05:25,200

brought me to want to speak to you was

102

00:05:21,389 --> 00:05:28,709

the fact that I got your targets the

103

00:05:25,199 --> 00:05:32,670

targets for the ideograms and the target

104

00:05:28,709 --> 00:05:35,399

that you you that you put up for us that

105

00:05:32,670 --> 00:05:37,290

you were tasking us with there I got

106

00:05:35,399 --> 00:05:39,269

hits on all of them whereas you know

107

00:05:37,290 --> 00:05:42,870

sometimes I'm lost in the woods and it's

108

00:05:39,269 --> 00:05:45,120

my idea that when you have a good

109

00:05:42,870 --> 00:05:48,209

relationship to your tasker when you

110

00:05:45,120 --> 00:05:49,769

have a an easy and easy time of it

111

00:05:48,209 --> 00:05:52,229

that's that's a person you should work

112

00:05:49,769 --> 00:05:56,599

with sounds good to me

113

00:05:52,230 --> 00:06:00,210

okay so I you know just before the show

114

00:05:56,600 --> 00:06:02,370

Purusha and I were speaking and remote

115  
00:06:00,209 --> 00:06:05,549  
viewing is really not anything I'm

116  
00:06:02,370 --> 00:06:08,720  
totally familiar with and although a lot

117  
00:06:05,550 --> 00:06:11,550  
of our audience would have heard of it I

118  
00:06:08,720 --> 00:06:14,040  
was surprised I said to her well can you

119  
00:06:11,550 --> 00:06:16,259  
just sit there and think of something

120  
00:06:14,040 --> 00:06:18,450  
and view it like for example Lake George

121  
00:06:16,259 --> 00:06:20,519  
is a very pretty place could I just sit

122  
00:06:18,449 --> 00:06:22,500  
there and I think about it and she said

123  
00:06:20,519 --> 00:06:26,459  
now that's that's not remote viewing

124  
00:06:22,500 --> 00:06:28,410  
that sort of clairvoyance so from she

125  
00:06:26,459 --> 00:06:31,168  
made it very clear to me that it's sort

126  
00:06:28,410 --> 00:06:33,689  
of a targeted viewing and I didn't I

127  
00:06:31,168 --> 00:06:35,939  
didn't get that before so your purpose

128  
00:06:33,689 --> 00:06:38,459  
would be to enhance people's abilities

129  
00:06:35,939 --> 00:06:41,160  
to do that and in their training in your

130  
00:06:38,459 --> 00:06:42,439  
books is is that correct yes that's

131  
00:06:41,160 --> 00:06:45,510  
exactly right

132  
00:06:42,439 --> 00:06:46,800  
the interesting thing is I like to think

133  
00:06:45,509 --> 00:06:49,019  
of remote viewing is the most

134  
00:06:46,800 --> 00:06:51,780  
mechanic of all psychic skills okay

135  
00:06:49,019 --> 00:06:54,418  
because the research basically shows

136  
00:06:51,779 --> 00:06:56,939  
that everybody can do it to one degree

137  
00:06:54,418 --> 00:06:58,198  
or another it's not you know you're used

138  
00:06:56,939 --> 00:06:59,189  
to this thing where it's like you can

139  
00:06:58,199 --> 00:07:01,110  
say well you have to have this gift

140  
00:06:59,189 --> 00:07:03,478  
before you can be psychic right right

141  
00:07:01,110 --> 00:07:04,800  
well it turns out at least from the

142  
00:07:03,478 --> 00:07:07,199  
evidence from what Jung shows it's not

143

00:07:04,800 --> 00:07:10,139  
true it turns out this is a native

144  
00:07:07,199 --> 00:07:13,379  
normal human skill it just doesn't get

145  
00:07:10,139 --> 00:07:16,439  
exercised because nobody knows they can

146  
00:07:13,379 --> 00:07:20,819  
do it right so when when it was

147  
00:07:16,439 --> 00:07:22,439  
developed and and researched essentially

148  
00:07:20,819 --> 00:07:23,729  
invented by Ingo Swann and then

149  
00:07:22,439 --> 00:07:26,339  
researched at Stanford Research

150  
00:07:23,728 --> 00:07:29,699  
Institute which ultimately came SR I

151  
00:07:26,339 --> 00:07:33,619  
international their findings were that

152  
00:07:29,699 --> 00:07:37,439  
just about everybody has the capacity so

153  
00:07:33,620 --> 00:07:39,930  
it's it is a form of clairvoyance it's

154  
00:07:37,439 --> 00:07:42,569  
actually clairvoyance wrapped up in a in

155  
00:07:39,930 --> 00:07:45,300  
that kind of a scientific package you

156  
00:07:42,569 --> 00:07:46,939  
can think of it as as a discipline form

157  
00:07:45,300 --> 00:07:49,259

of clairvoyance because there's some

158

00:07:46,939 --> 00:07:51,598

there's certain protocols you follow and

159

00:07:49,259 --> 00:07:55,288

then then there are certain methods that

160

00:07:51,598 --> 00:07:57,569

can be applied so unlike clairvoyance a

161

00:07:55,288 --> 00:08:01,560

remote viewer will start out not knowing

162

00:07:57,569 --> 00:08:03,569

what the target is mm-hmm so and in fact

163

00:08:01,560 --> 00:08:06,300

that's that's actually helps the process

164

00:08:03,569 --> 00:08:08,610

because you know when you know what what

165

00:08:06,300 --> 00:08:12,418

the thing is you're supposed to be clear

166

00:08:08,610 --> 00:08:14,580

voice that's a word okay trying to be

167

00:08:12,418 --> 00:08:16,378

clear voice up front right then

168

00:08:14,579 --> 00:08:18,778

everything you already know about it and

169

00:08:16,379 --> 00:08:20,189

everything you can imagine or conjecture

170

00:08:18,778 --> 00:08:22,560

about it is going to be right there in

171

00:08:20,189 --> 00:08:27,478

your head and trying to sort out what

172  
00:08:22,560 --> 00:08:31,589  
you're guessing and I hope you guys are

173  
00:08:27,478 --> 00:08:35,309  
still ready yeah you did drop out no

174  
00:08:31,589 --> 00:08:36,569  
this is this is great because I you

175  
00:08:35,309 --> 00:08:42,088  
surprised me when you said that

176  
00:08:36,570 --> 00:08:44,159  
everybody has the ability but so and you

177  
00:08:42,089 --> 00:08:47,220  
can sort of bring this out in people by

178  
00:08:44,158 --> 00:08:49,649  
with these instructions uh-huh yep you

179  
00:08:47,220 --> 00:08:52,139  
you basically you know people come from

180  
00:08:49,649 --> 00:08:54,720  
all over the world to my classes in fact

181  
00:08:52,139 --> 00:08:57,720  
I have an Australian coming next week so

182  
00:08:54,720 --> 00:09:00,629  
that'll be interesting but the and I had

183  
00:08:57,720 --> 00:09:10,750  
a German let in my last class

184  
00:09:00,629 --> 00:09:12,789  
in the sea college yeah a dog sorry yeah

185  
00:09:10,750 --> 00:09:14,830  
anytime I get a chance to speak German I

186  
00:09:12,789 --> 00:09:17,019  
like to practice so I will try and avoid

187  
00:09:14,830 --> 00:09:20,470  
debt for your audience's benefit okay

188  
00:09:17,019 --> 00:09:22,840  
but yeah but yeah they're coming and I

189  
00:09:20,470 --> 00:09:25,840  
teach them you know what what we learned

190  
00:09:22,840 --> 00:09:28,870  
from Ingo and inhale and and from the

191  
00:09:25,840 --> 00:09:31,780  
other folks including skip out water at

192  
00:09:28,870 --> 00:09:34,029  
Fort Meade in the military program so

193  
00:09:31,779 --> 00:09:37,149  
these these people just sort of stumbled

194  
00:09:34,029 --> 00:09:39,669  
upon this ability because I from what

195  
00:09:37,149 --> 00:09:43,569  
ferocious told me Ingo Swann was really

196  
00:09:39,669 --> 00:09:45,399  
a natural at it and and then he realized

197  
00:09:43,570 --> 00:09:48,310  
how the people had the ability as well

198  
00:09:45,399 --> 00:09:49,689  
and started to bring them along I kind

199  
00:09:48,309 --> 00:09:53,019  
of think that the first thing that

200

00:09:49,690 --> 00:09:55,060  
you've got to do in being clairvoyant or

201  
00:09:53,019 --> 00:09:57,490  
doing remote viewing is you've got to

202  
00:09:55,059 --> 00:09:59,409  
believe it's possible because I've said

203  
00:09:57,490 --> 00:10:02,649  
that before on the show but I have to

204  
00:09:59,409 --> 00:10:04,929  
reiterate that right now okay well that

205  
00:10:02,649 --> 00:10:07,389  
helps but you know what they were

206  
00:10:04,929 --> 00:10:08,739  
actually able to get psych skeptics to

207  
00:10:07,389 --> 00:10:11,740  
do it as long as they weren't too

208  
00:10:08,740 --> 00:10:13,090  
absolutely convinced against it you just

209  
00:10:11,740 --> 00:10:15,519  
have to be willing to be open-minded

210  
00:10:13,090 --> 00:10:19,060  
that seems to be the the main ingredient

211  
00:10:15,519 --> 00:10:22,620  
here well you know obviously I can

212  
00:10:19,059 --> 00:10:26,859  
understand why military uses would be

213  
00:10:22,620 --> 00:10:29,440  
important but is there any do they use

214  
00:10:26,860 --> 00:10:35,019

it for other purposes I mean do you try

215

00:10:29,440 --> 00:10:37,930

to locate I don't know oil wells or lost

216

00:10:35,019 --> 00:10:42,610

people or something of that nature you

217

00:10:37,929 --> 00:10:44,079

know the plane crash goes down I I don't

218

00:10:42,610 --> 00:10:46,120

know I really don't know I was just

219

00:10:44,080 --> 00:10:48,639

wondering what you are able to target

220

00:10:46,120 --> 00:10:52,899

well in the military we actually did

221

00:10:48,639 --> 00:10:55,090

locate crashed planes Wow and and

222

00:10:52,899 --> 00:10:57,250

missing people we were many of our

223

00:10:55,090 --> 00:10:58,750

taskings were against hostages in the

224

00:10:57,250 --> 00:11:01,509

Middle East oh you know Western

225

00:10:58,750 --> 00:11:04,570

listeners and you got captured and a few

226

00:11:01,509 --> 00:11:06,689

times we were successful at that most of

227

00:11:04,570 --> 00:11:09,370

the time not and the reason is of course

228

00:11:06,690 --> 00:11:11,470

remote viewing actually isn't people

229

00:11:09,370 --> 00:11:13,659

think it's it's it's a tool for finding

230

00:11:11,470 --> 00:11:16,090

things and it isn't to a finding thing

231

00:11:13,659 --> 00:11:18,909

just doesn't locate them very well so I

232

00:11:16,090 --> 00:11:21,519

like to tell a story back before Osama

233

00:11:18,909 --> 00:11:23,409

bin Laden had been found let's say

234

00:11:21,519 --> 00:11:25,960

somebody asked the remote viewer to view

235

00:11:23,409 --> 00:11:28,120

where Osama bin Laden is and and what

236

00:11:25,960 --> 00:11:29,769

would happen something like this or what

237

00:11:28,120 --> 00:11:31,509

you would say oh yeah there's this guy

238

00:11:29,769 --> 00:11:33,759

with a beard and he's in this really

239

00:11:31,509 --> 00:11:35,169

weird room it's long but it's narrow and

240

00:11:33,759 --> 00:11:37,210

the walls are rocking there's carpeted

241

00:11:35,169 --> 00:11:38,919

floor there's guys with guns that if you

242

00:11:37,210 --> 00:11:40,180

go a long ways down you come out into

243  
00:11:38,919 --> 00:11:42,490  
the light and you're a bunch of barren

244  
00:11:40,179 --> 00:11:44,649  
mountains right so the analyst is gonna

245  
00:11:42,490 --> 00:11:47,350  
say oh yeah that's exactly right that's

246  
00:11:44,649 --> 00:11:49,419  
exactly right now where is he and the

247  
00:11:47,350 --> 00:11:51,009  
remote you're gonna say you idiot I just

248  
00:11:49,419 --> 00:11:53,469  
told you where he was he's in this long

249  
00:11:51,009 --> 00:11:54,700  
rocky we'll hold room right so the

250  
00:11:53,470 --> 00:11:58,029  
remote viewers found him but hasn't

251  
00:11:54,700 --> 00:12:00,100  
located him locational thinks you can do

252  
00:11:58,029 --> 00:12:02,620  
it with remote viewing but it basically

253  
00:12:00,100 --> 00:12:06,190  
depends on you describing a setting and

254  
00:12:02,620 --> 00:12:08,799  
someone I didn't recognizing it right we

255  
00:12:06,190 --> 00:12:12,640  
do do dowsing we did do dowsing as well

256  
00:12:08,799 --> 00:12:14,500  
and that has a little bit more use in

257

00:12:12,639 --> 00:12:17,970  
terms of finding things that are missing

258  
00:12:14,500 --> 00:12:21,850  
what remote viewing is good for

259  
00:12:17,970 --> 00:12:23,500  
partially it's good for predicting

260  
00:12:21,850 --> 00:12:24,279  
future events which I'll talk about in a

261  
00:12:23,500 --> 00:12:26,169  
minute really

262  
00:12:24,279 --> 00:12:28,329  
but mostly it's good for finding out

263  
00:12:26,169 --> 00:12:30,610  
things that exist right now or in the

264  
00:12:28,330 --> 00:12:32,170  
past that you don't have enough

265  
00:12:30,610 --> 00:12:36,370  
information about and that's what we use

266  
00:12:32,169 --> 00:12:39,039  
it for a lot so yeah so it's intriguing

267  
00:12:36,370 --> 00:12:41,169  
people do use it practically today they

268  
00:12:39,039 --> 00:12:44,439  
do help out police with it we recently

269  
00:12:41,169 --> 00:12:46,509  
had a case where one of my actually a

270  
00:12:44,440 --> 00:12:49,140  
former sister-in-law of mine and now is

271  
00:12:46,509 --> 00:12:51,340

still Protege Angela Thompson Smith

272

00:12:49,139 --> 00:12:53,049  
provided information that was actually

273

00:12:51,340 --> 00:12:55,300  
instrumental in solving a murder case

274

00:12:53,049 --> 00:12:57,609  
and the information was used in court

275

00:12:55,299 --> 00:12:59,259  
and the murderer was convicted the

276

00:12:57,610 --> 00:13:01,000  
remote viewing the detective that was

277

00:12:59,259 --> 00:13:02,710  
involved the remote viewing was directly

278

00:13:01,000 --> 00:13:04,809  
responsible for the guy being caught

279

00:13:02,710 --> 00:13:06,940  
that that is excellent we did have

280

00:13:04,809 --> 00:13:09,819  
Angela on about two months ago I think

281

00:13:06,940 --> 00:13:13,330  
and she was a wonderful guest as well

282

00:13:09,820 --> 00:13:15,430  
and now I must say that part of the

283

00:13:13,330 --> 00:13:19,180  
mystery of why there are so many Smith's

284

00:13:15,429 --> 00:13:21,399  
at remote viewing it's Nancy Smith and

285

00:13:19,179 --> 00:13:23,769  
you and Angela Thompson Smith and I

286  
00:13:21,399 --> 00:13:26,500  
begin to think that everybody's name was

287  
00:13:23,769 --> 00:13:27,610  
going to be Smith well my dad used to

288  
00:13:26,500 --> 00:13:29,320  
say that everyone

289  
00:13:27,610 --> 00:13:32,350  
named Smith totally did something wrong

290  
00:13:29,320 --> 00:13:37,600  
oh well that makes me wonder what

291  
00:13:32,350 --> 00:13:39,759  
Ferruccio did wrong Wow the other

292  
00:13:37,600 --> 00:13:41,830  
question I asked you know obviously

293  
00:13:39,759 --> 00:13:45,460  
you're seeing something but could you do

294  
00:13:41,830 --> 00:13:47,860  
you ever hear anything is it also you do

295  
00:13:45,460 --> 00:13:50,050  
that's yes we're remote viewing is

296  
00:13:47,860 --> 00:13:51,669  
different than clairvoyance and really

297  
00:13:50,049 --> 00:13:52,750  
shouldn't ought to be called remote

298  
00:13:51,669 --> 00:13:56,409  
viewing it should have been called

299  
00:13:52,750 --> 00:13:58,210  
remote perception which is why this DVD

300  
00:13:56,409 --> 00:14:00,250  
home training program that I

301  
00:13:58,210 --> 00:14:02,680  
collaborated on it's called remote

302  
00:14:00,250 --> 00:14:04,779  
perception because that's what it should

303  
00:14:02,679 --> 00:14:08,229  
have been called Ingo Swann is the one

304  
00:14:04,779 --> 00:14:09,819  
that named it way back in 1971 long for

305  
00:14:08,230 --> 00:14:11,170  
you know well at least a year or more

306  
00:14:09,820 --> 00:14:14,290  
before the government got involved but

307  
00:14:11,169 --> 00:14:15,759  
he he he relied on the visual aspect of

308  
00:14:14,289 --> 00:14:18,250  
it mostly and so he called it our more

309  
00:14:15,759 --> 00:14:20,080  
viewing but in fact you get all of the

310  
00:14:18,250 --> 00:14:23,559  
five senses involved in fact even some

311  
00:14:20,080 --> 00:14:26,200  
of the other subliminal senses as well

312  
00:14:23,559 --> 00:14:29,759  
get getting involved in this process and

313  
00:14:26,200 --> 00:14:33,879  
so you can hear smell taste touch and

314

00:14:29,759 --> 00:14:37,330  
see things as well sometimes it's

315  
00:14:33,879 --> 00:14:38,980  
actually quite vivid not it's never of

316  
00:14:37,330 --> 00:14:40,780  
course quite the same as actually seeing

317  
00:14:38,980 --> 00:14:43,060  
it or hearing it or smelling it in

318  
00:14:40,779 --> 00:14:44,679  
person right but sometimes it's quite

319  
00:14:43,059 --> 00:14:46,539  
pronounced although other times it can

320  
00:14:44,679 --> 00:14:48,759  
be very subtle and part of the trick is

321  
00:14:46,539 --> 00:14:52,509  
to learn how to recognize the subtle

322  
00:14:48,759 --> 00:14:56,049  
input as much as the I I have a question

323  
00:14:52,509 --> 00:15:03,120  
about that it seems that I often get

324  
00:14:56,049 --> 00:15:06,219  
songs while I'm remote viewing well it's

325  
00:15:03,120 --> 00:15:10,450  
it's it's completely crazy even me when

326  
00:15:06,220 --> 00:15:12,279  
you did the talk you did about idea

327  
00:15:10,450 --> 00:15:14,710  
grams which we don't have to get into

328  
00:15:12,279 --> 00:15:16,899

here as you know because that's going

329

00:15:14,710 --> 00:15:20,019

into it a little probably too much depth

330

00:15:16,899 --> 00:15:22,360

down of the weeds too much yeah when it

331

00:15:20,019 --> 00:15:24,009

you know it was the sailing when it was

332

00:15:22,360 --> 00:15:26,850

the picture of the great lake or

333

00:15:24,009 --> 00:15:30,029

something like that that came up on the

334

00:15:26,850 --> 00:15:33,550

on the screen when when it was revealed

335

00:15:30,029 --> 00:15:36,039

you know I had been singing the song

336

00:15:33,549 --> 00:15:38,019

sailing in my mind sailing away it's

337

00:15:36,039 --> 00:15:40,329

like a you know a soft rock song

338

00:15:38,019 --> 00:15:42,490

I don't sing so

339

00:15:40,330 --> 00:15:48,340

I'm not going to regale you with the

340

00:15:42,490 --> 00:15:51,279

sound buddy but also when I had

341

00:15:48,340 --> 00:15:55,600

remote-view day an earthquake some years

342

00:15:51,279 --> 00:15:59,769

ago I kept getting the the Johnny Cash

343  
00:15:55,600 --> 00:16:02,110  
song the Ring of Fire and and it's

344  
00:15:59,769 --> 00:16:04,750  
always the songs that I get and I'm not

345  
00:16:02,110 --> 00:16:08,560  
a musical person the songs that I get

346  
00:16:04,750 --> 00:16:12,309  
are generally really accurate and and I

347  
00:16:08,559 --> 00:16:15,849  
wondered if anybody else had that well

348  
00:16:12,309 --> 00:16:17,469  
um I you know I can't say who all me we

349  
00:16:15,850 --> 00:16:19,779  
had that kind of experience but it kind

350  
00:16:17,470 --> 00:16:21,490  
of makes sense in that you're not

351  
00:16:19,779 --> 00:16:25,029  
consciously paying attention at the time

352  
00:16:21,490 --> 00:16:26,529  
to the signal right grant alright and so

353  
00:16:25,029 --> 00:16:28,209  
your subconscious is trying to figure

354  
00:16:26,529 --> 00:16:30,279  
out a way to convey that to you and so

355  
00:16:28,210 --> 00:16:32,170  
it says I know I'm gonna have them sing

356  
00:16:30,279 --> 00:16:34,419  
Johanna ever singing Johnny Cash and

357  
00:16:32,169 --> 00:16:39,279  
maybe she'll get the hint you know it's

358  
00:16:34,419 --> 00:16:41,799  
interesting because that almost gives

359  
00:16:39,279 --> 00:16:43,539  
you like okay expressed it's like two

360  
00:16:41,799 --> 00:16:45,219  
brains like you know your conscious

361  
00:16:43,539 --> 00:16:47,799  
driving and they're going to work

362  
00:16:45,220 --> 00:16:49,690  
whatever and then your subconscious is

363  
00:16:47,799 --> 00:16:51,339  
rolling along striding to wake you up

364  
00:16:49,690 --> 00:16:53,770  
and saying you know there's gonna be an

365  
00:16:51,340 --> 00:16:56,769  
earthquake and right let's sing Ring of

366  
00:16:53,769 --> 00:16:59,710  
Fire maybe that'll give her an idea oh

367  
00:16:56,769 --> 00:17:01,960  
that's really fascinating Paul so you

368  
00:16:59,710 --> 00:17:04,450  
think that the underlying consciousness

369  
00:17:01,960 --> 00:17:07,180  
really can sort of burble up to the

370  
00:17:04,450 --> 00:17:08,890  
surface a bit sure I mean it does it all

371

00:17:07,180 --> 00:17:10,690  
the time in just everyday life

372  
00:17:08,890 --> 00:17:13,390  
uh-huh I mean that that's half of what

373  
00:17:10,690 --> 00:17:15,730  
Freud talked about was the fact that the

374  
00:17:13,390 --> 00:17:16,990  
until call it the unconscious I don't

375  
00:17:15,730 --> 00:17:19,079  
know that there's a distinction really

376  
00:17:16,990 --> 00:17:22,690  
between subconscious and unconscious but

377  
00:17:19,079 --> 00:17:24,490  
because the unconscious actually caused

378  
00:17:22,690 --> 00:17:27,789  
us to think and do all kinds of things

379  
00:17:24,490 --> 00:17:29,680  
in in our waking life that we thought we

380  
00:17:27,789 --> 00:17:31,599  
were just thinking of right then but it

381  
00:17:29,680 --> 00:17:33,970  
actually is traceable to the unconscious

382  
00:17:31,599 --> 00:17:37,779  
and trauma in the past and all that kind

383  
00:17:33,970 --> 00:17:39,970  
of Freudian stuff so and in fact a lot

384  
00:17:37,779 --> 00:17:41,170  
of the psychology research and with what

385  
00:17:39,970 --> 00:17:44,319

used to be called subliminal perception

386

00:17:41,170 --> 00:17:46,990

is now called priming and perception

387

00:17:44,319 --> 00:17:48,789

without awareness that kind of thing all

388

00:17:46,990 --> 00:17:50,319

that research really does suggest that

389

00:17:48,789 --> 00:17:54,099

there's a lot going on in subconscious

390

00:17:50,319 --> 00:17:57,089

level that we are almost bliss

391

00:17:54,099 --> 00:17:59,619

unaware of in our normal waking state so

392

00:17:57,089 --> 00:18:02,319

you know that's just a very interesting

393

00:17:59,619 --> 00:18:04,389

sort you know I guess I've been aware of

394

00:18:02,319 --> 00:18:07,480

the concept and I never had it put quite

395

00:18:04,390 --> 00:18:11,500

like that well we all I think we all

396

00:18:07,480 --> 00:18:13,808

basically do we meet somebody and we

397

00:18:11,500 --> 00:18:16,089

immediately like them we meet somebody

398

00:18:13,808 --> 00:18:18,910

and we say mmm I think I'm going to stay

399

00:18:16,089 --> 00:18:20,769

away from that person and even if

400  
00:18:18,910 --> 00:18:22,929  
there's no obvious thing like they're

401  
00:18:20,769 --> 00:18:33,970  
not carrying a dagger that's pointed at

402  
00:18:22,929 --> 00:18:36,519  
you in their hand yeah it is interesting

403  
00:18:33,970 --> 00:18:38,740  
somebody I don't know if it was you or

404  
00:18:36,519 --> 00:18:42,460  
not I must say my memory fails me but

405  
00:18:38,740 --> 00:18:44,798  
was talking about it at the that can the

406  
00:18:42,460 --> 00:18:45,370  
convention the conference down in New

407  
00:18:44,798 --> 00:18:51,519  
Orleans

408  
00:18:45,369 --> 00:18:53,109  
as right brain and left brain stop yeah

409  
00:18:51,519 --> 00:18:56,200  
in fact there's some discussion that

410  
00:18:53,109 --> 00:18:57,729  
maybe you sub slash unconscious is

411  
00:18:56,200 --> 00:19:00,509  
really just the right brain because the

412  
00:18:57,730 --> 00:19:02,529  
right brain isn't verbal particularly

413  
00:19:00,509 --> 00:19:06,179  
the left brain that's where all of our

414  
00:19:02,529 --> 00:19:08,349  
most of our verbal mechanism is and our

415  
00:19:06,179 --> 00:19:10,330  
discussion and our talking and all of

416  
00:19:08,349 --> 00:19:12,639  
that kind of thing and so there's some

417  
00:19:10,329 --> 00:19:15,609  
suspicion that maybe the the right brain

418  
00:19:12,640 --> 00:19:17,799  
is where the unconscious is and and all

419  
00:19:15,609 --> 00:19:20,579  
of this is going on over there all the

420  
00:19:17,798 --> 00:19:23,579  
stuff that we're not necessarily

421  
00:19:20,579 --> 00:19:23,579  
consciously

422  
00:19:24,809 --> 00:19:28,649  
and then it gets fed over through the

423  
00:19:26,970 --> 00:19:31,170  
corpus collosum into the left brain and

424  
00:19:28,650 --> 00:19:32,700  
then we you know we behave according to

425  
00:19:31,170 --> 00:19:34,200  
what we need to behave that are as a

426  
00:19:32,700 --> 00:19:37,230  
ripening dictates but that's one

427  
00:19:34,200 --> 00:19:40,650  
possible theory about it now if they

428

00:19:37,230 --> 00:19:42,539  
could if if someone in the audience is

429  
00:19:40,650 --> 00:19:45,290  
interested in mastering this then they

430  
00:19:42,539 --> 00:19:48,690  
can get your DVD that would help them

431  
00:19:45,289 --> 00:19:52,200  
once it comes out or start them down the

432  
00:19:48,690 --> 00:19:54,059  
road yeah it'll part on the 14th of July

433  
00:19:52,200 --> 00:19:56,430  
is when we're gonna go live with it

434  
00:19:54,059 --> 00:19:57,779  
fest you including the website and

435  
00:19:56,430 --> 00:20:00,019  
everything else so if people are

436  
00:19:57,779 --> 00:20:05,519  
interested they could go to the website

437  
00:20:00,019 --> 00:20:07,849  
free dowsing DVD calm right that's where

438  
00:20:05,519 --> 00:20:14,309  
that's that's a portal to the dowsing

439  
00:20:07,849 --> 00:20:16,859  
training propane in traduction to my

440  
00:20:14,309 --> 00:20:19,859  
training program and they can go there

441  
00:20:16,859 --> 00:20:22,589  
and get that they can order that and

442  
00:20:19,859 --> 00:20:26,039

then they'll get on the mailing list and

443

00:20:22,589 --> 00:20:27,359

as soon as the the remote perception

444

00:20:26,039 --> 00:20:29,839

course comes out then they'll be

445

00:20:27,359 --> 00:20:35,519

notified about it so why don't you know

446

00:20:29,839 --> 00:20:38,819

that address that web address it is the

447

00:20:35,519 --> 00:20:42,240

three WS of course www dot and then is

448

00:20:38,819 --> 00:20:45,809

literally the words strung together free

449

00:20:42,240 --> 00:20:50,339

dowsing DVD com

450

00:20:45,809 --> 00:20:54,149

so the word free fr EE thousand do W f

451

00:20:50,339 --> 00:20:56,669

ing DVD com

452

00:20:54,150 --> 00:20:58,620

now I always thought dowsing was just

453

00:20:56,670 --> 00:21:02,960

with water and a stick

454

00:20:58,619 --> 00:21:06,089

am I wrong I guess obviously I guess we

455

00:21:02,960 --> 00:21:08,210

missing we search for missing h-bombs we

456

00:21:06,089 --> 00:21:12,329

search for downed aircraft we search for

457  
00:21:08,210 --> 00:21:14,970  
hostages we search for for contraband

458  
00:21:12,329 --> 00:21:18,240  
narcotics on container ships we search

459  
00:21:14,970 --> 00:21:20,730  
for all kinds of things anything that

460  
00:21:18,240 --> 00:21:22,890  
that you we didn't know where it was but

461  
00:21:20,730 --> 00:21:24,390  
knew what it was that's that's a

462  
00:21:22,890 --> 00:21:26,730  
requirement in dowsing after know what

463  
00:21:24,390 --> 00:21:27,960  
it is you're looking for right anything

464  
00:21:26,730 --> 00:21:29,309  
we knew what it was but didn't know

465  
00:21:27,960 --> 00:21:31,200  
where it was we at one time or another

466  
00:21:29,309 --> 00:21:33,419  
we're probably asked to remote or well

467  
00:21:31,200 --> 00:21:35,460  
remove you and then dowels for using the

468  
00:21:33,420 --> 00:21:38,190  
dowsing as an adjunct to remote viewing

469  
00:21:35,460 --> 00:21:44,009  
and you use maps to do this you use

470  
00:21:38,190 --> 00:21:46,019  
dowsing okay maps diagrams globe so

471  
00:21:44,009 --> 00:21:48,240  
whatever whatever it took

472  
00:21:46,019 --> 00:21:50,220  
so the original water dowsers were

473  
00:21:48,240 --> 00:21:52,230  
probably just using this stick as a

474  
00:21:50,220 --> 00:21:54,960  
means to make them believe that they

475  
00:21:52,230 --> 00:21:57,960  
could do that you know just like an

476  
00:21:54,960 --> 00:22:01,048  
external talisman or whatever say yeah I

477  
00:21:57,960 --> 00:22:03,389  
can find water but uh but that's where

478  
00:22:01,048 --> 00:22:06,628  
the dowsing can so you find things with

479  
00:22:03,388 --> 00:22:08,519  
this that is just I really am very new

480  
00:22:06,628 --> 00:22:12,778  
to this so it's to me it's quite amazing

481  
00:22:08,519 --> 00:22:14,250  
yeah it and it works I mean in fact it

482  
00:22:12,778 --> 00:22:16,769  
dawns on me we could probably do a whole

483  
00:22:14,250 --> 00:22:18,329  
other show on dowsing and I have a lot

484  
00:22:16,769 --> 00:22:20,128  
to say about that I don't want to you

485

00:22:18,329 --> 00:22:23,158  
know take over have that take over the

486  
00:22:20,128 --> 00:22:28,168  
conversation but yeah a little bit about

487  
00:22:23,159 --> 00:22:30,149  
your new book well I noticed in

488  
00:22:28,169 --> 00:22:31,860  
surveying the literature the remote

489  
00:22:30,148 --> 00:22:35,518  
viewing field but there was a big gap

490  
00:22:31,859 --> 00:22:38,878  
that was missing and that gap was a

491  
00:22:35,519 --> 00:22:41,339  
basic beginners book that introduces

492  
00:22:38,878 --> 00:22:43,199  
people to the entire topic of remote

493  
00:22:41,339 --> 00:22:46,619  
viewing a kind of survey of the field

494  
00:22:43,200 --> 00:22:48,179  
and and I kind of owe it to my dad

495  
00:22:46,619 --> 00:22:49,739  
because he said well you shouldn't write

496  
00:22:48,179 --> 00:22:51,659  
a pamphlet just kind of an introductory

497  
00:22:49,740 --> 00:22:53,700  
thing and in publish it and he told give

498  
00:22:51,659 --> 00:22:56,759  
me that I did probably 15 years ago you

499  
00:22:53,700 --> 00:22:58,139

know and and I said oh yeah that's good

500

00:22:56,759 --> 00:23:01,110

idea I'll get around to it someday and I

501

00:22:58,138 --> 00:23:02,579

realized there was that huge gap it's

502

00:23:01,109 --> 00:23:06,058

still there people write their memoirs

503

00:23:02,579 --> 00:23:08,038

people write technical books on on the

504

00:23:06,058 --> 00:23:09,690

technical aspects of aspects of dowsing

505

00:23:08,038 --> 00:23:12,628

but nobody's ever written a really good

506

00:23:09,690 --> 00:23:14,190

introductory book and so the essential

507

00:23:12,628 --> 00:23:17,189

guide remote viewing that's the whole

508

00:23:14,190 --> 00:23:18,990

point of the book is to introduce people

509

00:23:17,190 --> 00:23:21,960

to dowsing it actually has three

510

00:23:18,990 --> 00:23:23,429

purposes one is if you just sort about

511

00:23:21,960 --> 00:23:24,569

remote viewing you don't really know

512

00:23:23,429 --> 00:23:26,610

what it is you know one spend a lot of

513

00:23:24,569 --> 00:23:28,259

time and money you can get this book and

514  
00:23:26,609 --> 00:23:29,609  
it will give you a very thorough

515  
00:23:28,259 --> 00:23:31,470  
introduction to it

516  
00:23:29,609 --> 00:23:33,469  
yeah all the different aspects of it and

517  
00:23:31,470 --> 00:23:36,240  
even teach you a little bit how to do it

518  
00:23:33,470 --> 00:23:38,490  
and you know and it gives you a starting

519  
00:23:36,240 --> 00:23:41,759  
point the other the other set of people

520  
00:23:38,490 --> 00:23:43,440  
who is important for it would be let's

521  
00:23:41,759 --> 00:23:44,669  
say you are into remote viewing and you

522  
00:23:43,440 --> 00:23:47,970  
have a bunch of family and friends who

523  
00:23:44,669 --> 00:23:52,050  
think you're crazy you're mining you

524  
00:23:47,970 --> 00:23:53,970  
what I hear my gender and you want

525  
00:23:52,049 --> 00:23:56,299  
something to introduce them to it that

526  
00:23:53,970 --> 00:23:58,350  
isn't going to get into all the UFOs and

527  
00:23:56,299 --> 00:24:00,419  
Bigfoot and all that stuff that a lot of

528  
00:23:58,349 --> 00:24:02,159  
people want to like to connect remote

529  
00:24:00,420 --> 00:24:03,840  
viewing to just give them a very

530  
00:24:02,160 --> 00:24:04,890  
sensible approach and then they can

531  
00:24:03,839 --> 00:24:07,769  
connect it to whatever they want

532  
00:24:04,890 --> 00:24:09,870  
afterwards right it tries to D

533  
00:24:07,769 --> 00:24:11,369  
sensationalize it while at the same time

534  
00:24:09,869 --> 00:24:13,349  
giving you responsible information and

535  
00:24:11,369 --> 00:24:15,029  
then there's one for the demographic it

536  
00:24:13,349 --> 00:24:15,569  
may appeal to those our folks have been

537  
00:24:15,029 --> 00:24:17,490  
in dowsing

538  
00:24:15,569 --> 00:24:21,210  
I'm sorry remote viewing a long time and

539  
00:24:17,490 --> 00:24:22,890  
just don't know maybe they know a lot

540  
00:24:21,210 --> 00:24:24,269  
about some parts of it in other parts of

541  
00:24:22,890 --> 00:24:26,850  
it they don't really know about and so

542

00:24:24,269 --> 00:24:30,240  
so it that pretty much covers I think

543  
00:24:26,849 --> 00:24:32,699  
the entire field of reasons why people

544  
00:24:30,240 --> 00:24:34,559  
might want to have a beginning a kind of

545  
00:24:32,700 --> 00:24:37,500  
an introductory book on remote viewing

546  
00:24:34,559 --> 00:24:39,450  
yeah I think it's important because you

547  
00:24:37,500 --> 00:24:41,250  
know when people mentioned remote

548  
00:24:39,450 --> 00:24:43,259  
viewing to me I think of you know the

549  
00:24:41,250 --> 00:24:46,349  
infamous men stare at goats and that's

550  
00:24:43,259 --> 00:24:48,089  
it so I think that's great that you

551  
00:24:46,349 --> 00:24:49,949  
wrote something like that I think you're

552  
00:24:48,089 --> 00:24:54,000  
quite right it is important for someone

553  
00:24:49,950 --> 00:24:57,690  
like my sister but I lost you there yeah

554  
00:24:54,000 --> 00:24:59,069  
are you there yes good you must have

555  
00:24:57,690 --> 00:25:12,630  
been on delay and started to say

556  
00:24:59,069 --> 00:25:15,359

something bad in any case so I'm going

557

00:25:12,630 --> 00:25:17,730

when I receive my want of the copy that

558

00:25:15,359 --> 00:25:19,439

I want in the raffle which I'm really

559

00:25:17,730 --> 00:25:22,319

looking for when is that coming out when

560

00:25:19,440 --> 00:25:25,710

am I gonna get my copy well hopefully

561

00:25:22,319 --> 00:25:29,279

hopefully hopefully August it's in the

562

00:25:25,710 --> 00:25:31,140

process of being types that right now is

563

00:25:29,279 --> 00:25:33,210

almost done went through a final proof

564

00:25:31,140 --> 00:25:36,300

of it and I should hopefully by the end

565

00:25:33,210 --> 00:25:38,430

of the week we'll have a a final types

566

00:25:36,299 --> 00:25:40,980

that were in which then we will you know

567

00:25:38,430 --> 00:25:42,269

send off to a proofreader and once the

568

00:25:40,980 --> 00:25:45,180

proofreader stand all the things I

569

00:25:42,269 --> 00:25:47,039

missed all right then it will just be a

570

00:25:45,180 --> 00:25:49,380

matter of having it printed in ships so

571  
00:25:47,039 --> 00:25:52,470  
well great great I'm looking forward to

572  
00:25:49,380 --> 00:25:55,470  
it and I'm going to lend it to miss Kate

573  
00:25:52,470 --> 00:25:57,150  
Valentine so she will understand what

574  
00:25:55,470 --> 00:25:58,769  
I'm talking about when I talk about

575  
00:25:57,150 --> 00:26:01,230  
remote viewing and I think she really

576  
00:25:58,769 --> 00:26:05,759  
has has the gist of it at this juncture

577  
00:26:01,230 --> 00:26:09,329  
so now

578  
00:26:05,759 --> 00:26:11,940  
I think one thing that people who are in

579  
00:26:09,329 --> 00:26:14,669  
our listening audience also don't

580  
00:26:11,940 --> 00:26:18,180  
understand is the different types of

581  
00:26:14,670 --> 00:26:20,670  
remote viewing and I've studied several

582  
00:26:18,180 --> 00:26:23,490  
different types and as I said to you

583  
00:26:20,670 --> 00:26:27,420  
before I really find that my success

584  
00:26:23,490 --> 00:26:31,589  
depends on my rapport with the the

585  
00:26:27,420 --> 00:26:34,680  
Tasker and not whether it's a RV or CRV

586  
00:26:31,589 --> 00:26:36,599  
but maybe you would like to explain some

587  
00:26:34,680 --> 00:26:38,670  
of the different types of remote viewing

588  
00:26:36,599 --> 00:26:41,819  
that are out there and and the reason

589  
00:26:38,670 --> 00:26:44,610  
for all of them including I've mentioned

590  
00:26:41,819 --> 00:26:46,980  
some sometimes on the air about how the

591  
00:26:44,609 --> 00:26:49,490  
Hawaiian remote the Hawaii remote

592  
00:26:46,980 --> 00:26:56,490  
viewers do it which is really very

593  
00:26:49,490 --> 00:26:58,380  
painstakingly protocol yep so and that's

594  
00:26:56,490 --> 00:26:59,609  
actually one of the virtues of the book

595  
00:26:58,380 --> 00:27:02,250  
we were just talking about is I have a

596  
00:26:59,609 --> 00:27:04,169  
whole chapter on methods I'd explain the

597  
00:27:02,250 --> 00:27:06,000  
different ways of doing things but but

598  
00:27:04,170 --> 00:27:12,240  
just for now since the book isn't

599

00:27:06,000 --> 00:27:13,859  
available yet so CRV instance for

600  
00:27:12,240 --> 00:27:16,440  
controlled remote viewing and it was a

601  
00:27:13,859 --> 00:27:18,329  
more disciplined approach to it that

602  
00:27:16,440 --> 00:27:20,730  
Ingo Swann and helped put off develop to

603  
00:27:18,329 --> 00:27:23,009  
help people well is actually developed

604  
00:27:20,730 --> 00:27:26,690  
so that they would have a a vehicle to

605  
00:27:23,009 --> 00:27:29,730  
transmit remote viewing capability to

606  
00:27:26,690 --> 00:27:31,950  
military personnel who might not have

607  
00:27:29,730 --> 00:27:35,339  
had a thought they had a side load on

608  
00:27:31,950 --> 00:27:37,259  
their bodies right and so that's why I

609  
00:27:35,339 --> 00:27:39,149  
learned it as they brought me in I had

610  
00:27:37,259 --> 00:27:41,670  
never had any kind of psychic experience

611  
00:27:39,150 --> 00:27:43,740  
whatsoever and they said well we have

612  
00:27:41,670 --> 00:27:45,570  
this contract with s RI and they're

613  
00:27:43,740 --> 00:27:50,880

going to teach you how to be a psychic I

614

00:27:45,569 --> 00:27:52,980

said okay that sounds good and and

615

00:27:50,880 --> 00:27:54,780

that's the point of CRV it's very it's

616

00:27:52,980 --> 00:27:57,539

quite structured and it's probably the

617

00:27:54,779 --> 00:27:59,519

grandfather of almost I would say

618

00:27:57,539 --> 00:28:01,859

probably 90% of the people doing remote

619

00:27:59,519 --> 00:28:04,740

viewing out there their methodology is

620

00:28:01,859 --> 00:28:08,579

either CRV or some some descendants of

621

00:28:04,740 --> 00:28:10,259

CRV arv actually interestingly enough

622

00:28:08,579 --> 00:28:14,849

that sensor associative remote viewing

623

00:28:10,259 --> 00:28:17,039

that doesn't actually involve a method

624

00:28:14,849 --> 00:28:19,409

of remote viewing itself what it has to

625

00:28:17,039 --> 00:28:23,430

do with is a way of applying

626

00:28:19,410 --> 00:28:25,620

viewing and it's designed to help help

627

00:28:23,430 --> 00:28:28,110

the you know remote viewing people

628  
00:28:25,619 --> 00:28:30,659  
working with him or her to be able to

629  
00:28:28,109 --> 00:28:32,909  
predict future events so you can take

630  
00:28:30,660 --> 00:28:35,160  
advantage of that advanced information

631  
00:28:32,910 --> 00:28:38,070  
it's a kind of precognitive remote

632  
00:28:35,160 --> 00:28:39,480  
viewing if you will and it's used to

633  
00:28:38,069 --> 00:28:41,789  
predict the outcome of sporting events

634  
00:28:39,480 --> 00:28:43,170  
or stock prices where they're going to

635  
00:28:41,789 --> 00:28:47,940  
close up or down and that kind of thing

636  
00:28:43,170 --> 00:28:50,250  
and in fact it's one of the more popular

637  
00:28:47,940 --> 00:28:52,680  
forms right now one more popular

638  
00:28:50,250 --> 00:28:54,119  
applications because people are making

639  
00:28:52,680 --> 00:28:55,560  
money at it you know that old saying

640  
00:28:54,119 --> 00:28:57,989  
we'll look your psychie quiet you're

641  
00:28:55,559 --> 00:28:59,519  
rich mm-hmm well there are people who

642  
00:28:57,990 --> 00:29:02,099  
are actually making quite a bit of money

643  
00:28:59,519 --> 00:29:05,430  
with remote viewing using this ARV

644  
00:29:02,099 --> 00:29:10,709  
associative remote viewing process in

645  
00:29:05,430 --> 00:29:13,799  
fact my son in college at University of

646  
00:29:10,710 --> 00:29:15,329  
Colorado the class he was in they

647  
00:29:13,799 --> 00:29:18,000  
decided as a class project they were

648  
00:29:15,329 --> 00:29:19,710  
going to run an ARV project and the

649  
00:29:18,000 --> 00:29:22,200  
stock market was going to be their

650  
00:29:19,710 --> 00:29:24,509  
target and they had that one of the

651  
00:29:22,200 --> 00:29:25,920  
course auditors kicked in he was a comm

652  
00:29:24,509 --> 00:29:28,769  
millionaire so he thought he'd play

653  
00:29:25,920 --> 00:29:30,570  
along and he he kicked in ten thousand

654  
00:29:28,769 --> 00:29:33,990  
bucks of seed money and by the time they

655  
00:29:30,569 --> 00:29:36,539  
were done in two weeks seven correct

656

00:29:33,990 --> 00:29:38,400  
trades and no misses they had turned

657  
00:29:36,539 --> 00:29:40,529  
that ten thousand into twenty six

658  
00:29:38,400 --> 00:29:48,750  
thousand five hundred dollars nice very

659  
00:29:40,529 --> 00:29:50,789  
nice there is you know according to

660  
00:29:48,750 --> 00:29:53,819  
Russell Targ at any rate there is

661  
00:29:50,789 --> 00:29:58,049  
fatigue that sets in after a point is

662  
00:29:53,819 --> 00:29:59,759  
there not yes and I presumably thing

663  
00:29:58,049 --> 00:30:01,079  
about it are you talking about Social

664  
00:29:59,759 --> 00:30:03,029  
Forum Oh being here or just remote

665  
00:30:01,079 --> 00:30:05,490  
viewing in general I'm talking about

666  
00:30:03,029 --> 00:30:08,549  
associative remote view for a stock

667  
00:30:05,490 --> 00:30:11,220  
market where you were like with Russell

668  
00:30:08,549 --> 00:30:14,369  
it was the silver the silver futures or

669  
00:30:11,220 --> 00:30:17,339  
something yeah that nature yeah I've

670  
00:30:14,369 --> 00:30:21,389

done a lot of ARV in my past and I found

671

00:30:17,339 --> 00:30:25,289

that I went up and down in terms of

672

00:30:21,390 --> 00:30:29,009

success partly based on I was getting

673

00:30:25,289 --> 00:30:32,159

bored right so you do have to kind of

674

00:30:29,009 --> 00:30:33,269

pace yourself and if you find yourself

675

00:30:32,160 --> 00:30:35,519

just kind of getting bored

676

00:30:33,269 --> 00:30:37,259

just tossing off a session or two you

677

00:30:35,519 --> 00:30:40,170

might want to stop and take a break at

678

00:30:37,259 --> 00:30:41,460

that point this in this case we're not

679

00:30:40,170 --> 00:30:43,890

talking about viewing we're talking

680

00:30:41,460 --> 00:30:46,100

psychology human psychology is such that

681

00:30:43,890 --> 00:30:48,990

anything it does over over time

682

00:30:46,099 --> 00:30:50,699

repetitively becomes tedious right and

683

00:30:48,990 --> 00:30:53,279

you start taking shortcuts you start

684

00:30:50,700 --> 00:30:58,080

getting lazy so yeah that does indeed

685  
00:30:53,279 --> 00:31:00,029  
happen um one one other thing extended

686  
00:30:58,079 --> 00:31:03,659  
remote viewing would you like to define

687  
00:31:00,029 --> 00:31:06,450  
that for our listening audience sure

688  
00:31:03,660 --> 00:31:08,430  
that was a kind of a proto remote

689  
00:31:06,450 --> 00:31:10,319  
viewing approach that skip that water

690  
00:31:08,430 --> 00:31:12,269  
developed at Fort Meade now I don't know

691  
00:31:10,319 --> 00:31:15,599  
how much your audience knows about skip

692  
00:31:12,269 --> 00:31:18,450  
that water of you I've mentioned him

693  
00:31:15,599 --> 00:31:20,339  
before and he in fact was one of my

694  
00:31:18,450 --> 00:31:23,400  
remote viewing instructors in an

695  
00:31:20,339 --> 00:31:27,750  
excellent one he was and a wonderful

696  
00:31:23,400 --> 00:31:30,450  
gentleman as well so you know I've

697  
00:31:27,750 --> 00:31:33,599  
mentioned him a lot but I have not

698  
00:31:30,450 --> 00:31:37,319  
delved into you know his entire history

699  
00:31:33,599 --> 00:31:39,959  
perhaps he will come on one day and we

700  
00:31:37,319 --> 00:31:43,079  
Gail us with some well let me give me a

701  
00:31:39,960 --> 00:31:44,940  
two-cent soundbite on him we knew him as

702  
00:31:43,079 --> 00:31:46,500  
Fred because his official name is Fred

703  
00:31:44,940 --> 00:31:48,390  
Holmes that water but he preferred the

704  
00:31:46,500 --> 00:31:52,019  
nickname skip after retired from the

705  
00:31:48,390 --> 00:31:54,240  
Army but he was the the officer that

706  
00:31:52,019 --> 00:31:57,509  
actually was tasked to create the army

707  
00:31:54,240 --> 00:32:00,089  
remote viewing program and he started it

708  
00:31:57,509 --> 00:32:03,299  
in 1977 and working with other officers

709  
00:32:00,089 --> 00:32:06,240  
as well and retired finally in 1987 but

710  
00:32:03,299 --> 00:32:07,950  
he created the army program and he was

711  
00:32:06,240 --> 00:32:10,349  
kind of a guiding light for those ten

712  
00:32:07,950 --> 00:32:11,850  
years and in the course of that he

713

00:32:10,349 --> 00:32:14,099  
developed this extended remote viewing

714  
00:32:11,849 --> 00:32:16,769  
approach which takes advantage of a

715  
00:32:14,099 --> 00:32:19,740  
hypnagogic state that is mind awake body

716  
00:32:16,769 --> 00:32:22,769  
asleep and and then extended remote

717  
00:32:19,740 --> 00:32:25,200  
viewing or as we called it ERV you

718  
00:32:22,769 --> 00:32:27,269  
weren't sitting at a table fairly alert

719  
00:32:25,200 --> 00:32:28,769  
like you are in cr-v and this one you'd

720  
00:32:27,269 --> 00:32:30,240  
be laying on a bed or a couch or

721  
00:32:28,769 --> 00:32:33,690  
something and you try and establish that

722  
00:32:30,240 --> 00:32:36,029  
that mental state that's just between

723  
00:32:33,690 --> 00:32:37,980  
awake and asleep the idea being that

724  
00:32:36,029 --> 00:32:40,529  
your subconscious can communicate with

725  
00:32:37,980 --> 00:32:43,170  
you better when you're in that state or

726  
00:32:40,529 --> 00:32:44,549  
condition and then a monitor would come

727  
00:32:43,170 --> 00:32:46,590

in and start asking you questions about

728

00:32:44,549 --> 00:32:47,069

a particular target they'd give you the

729

00:32:46,589 --> 00:32:49,379

coordinates

730

00:32:47,069 --> 00:32:51,808

say okay at this this specific latitude

731

00:32:49,380 --> 00:32:54,480

and longitude there is something we want

732

00:32:51,808 --> 00:32:55,829

you to describe and the viewer not

733

00:32:54,480 --> 00:32:58,679

knowing what that is goes out in the

734

00:32:55,829 --> 00:32:59,939

subconscious directs the viewer to go to

735

00:32:58,679 --> 00:33:03,538

the right spot and then it starts

736

00:32:59,940 --> 00:33:05,700

describing what's there and so that's

737

00:33:03,538 --> 00:33:07,319

that's what we call ERV is essentially

738

00:33:05,700 --> 00:33:10,798

its mind awake body asleep laying on a

739

00:33:07,319 --> 00:33:15,089

bed being interviewed by by the monitors

740

00:33:10,798 --> 00:33:18,569

of this with you okay well the other

741

00:33:15,089 --> 00:33:21,019

thing on that arv that if you can

742  
00:33:18,569 --> 00:33:23,609  
predict things like stock market or

743  
00:33:21,019 --> 00:33:25,710  
sporting events whatever that almost

744  
00:33:23,609 --> 00:33:29,548  
indicates that the future sort of fixed

745  
00:33:25,710 --> 00:33:32,100  
in a way well it does almost seem it

746  
00:33:29,548 --> 00:33:35,788  
almost seems that way but actually not

747  
00:33:32,099 --> 00:33:37,678  
at least the way I look at our V and I

748  
00:33:35,788 --> 00:33:41,099  
used it a lot and trained a lot of

749  
00:33:37,679 --> 00:33:43,110  
people how to do it so my view of the

750  
00:33:41,099 --> 00:33:44,819  
future and I think it's supported by a

751  
00:33:43,109 --> 00:33:47,849  
lot of the evidences the future hasn't

752  
00:33:44,819 --> 00:33:50,069  
happened yet right there are a lot of

753  
00:33:47,849 --> 00:33:51,599  
people who that sounds seems like well

754  
00:33:50,069 --> 00:33:52,798  
it's obvious does it future hasn't

755  
00:33:51,599 --> 00:33:54,449  
happened yet but there are a lot of

756  
00:33:52,798 --> 00:33:58,168  
philosophies in which the future already

757  
00:33:54,450 --> 00:34:01,259  
exists and if you could predict the

758  
00:33:58,169 --> 00:34:02,940  
future with high degree of accuracy no

759  
00:34:01,259 --> 00:34:05,579  
matter what then it would probably an

760  
00:34:02,940 --> 00:34:08,720  
indication it did but in fact when we

761  
00:34:05,579 --> 00:34:11,039  
start trying to remote viewing view

762  
00:34:08,719 --> 00:34:12,598  
events and what I call the open future

763  
00:34:11,039 --> 00:34:14,099  
like when will the next terrorist attack

764  
00:34:12,599 --> 00:34:21,269  
me or where will the next terrorist

765  
00:34:14,099 --> 00:34:23,550  
attack be or what you know will the just

766  
00:34:21,269 --> 00:34:25,108  
big question itself will so-and-so win

767  
00:34:23,550 --> 00:34:28,560  
the World Series you know in three

768  
00:34:25,108 --> 00:34:30,989  
months or whatever that doesn't turn out

769  
00:34:28,559 --> 00:34:32,549  
to be very accurate occasionally you get

770

00:34:30,989 --> 00:34:34,709  
an actual hit but most of the time

771  
00:34:32,550 --> 00:34:35,899  
you're wrong and in fact of course

772  
00:34:34,710 --> 00:34:38,068  
everybody associates

773  
00:34:35,898 --> 00:34:39,809  
you know foretelling the future with

774  
00:34:38,068 --> 00:34:42,210  
remote viewing was being psychic in

775  
00:34:39,809 --> 00:34:43,500  
general but in fact it's one of the

776  
00:34:42,210 --> 00:34:45,869  
things that being psychic is the heart

777  
00:34:43,500 --> 00:34:49,699  
it does the poorest at we just happen to

778  
00:34:45,869 --> 00:34:53,510  
remember those things that are hits okay

779  
00:34:49,699 --> 00:34:56,608  
so we think that but but remote

780  
00:34:53,510 --> 00:34:58,920  
assumption remote viewing actually is

781  
00:34:56,608 --> 00:35:00,119  
roughly the same accuracy level as if

782  
00:34:58,920 --> 00:35:00,630  
you were kind of trying to remote you

783  
00:35:00,119 --> 00:35:02,880  
the present

784  
00:35:00,630 --> 00:35:04,860

the past and so the question is well if

785

00:35:02,880 --> 00:35:06,300

remote viewing an open future event

786

00:35:04,860 --> 00:35:08,970

doesn't work very well why does this

787

00:35:06,300 --> 00:35:11,430

work so well and I think the answer is

788

00:35:08,969 --> 00:35:14,039

if you remote viewing event that is

789

00:35:11,429 --> 00:35:16,649

determined is deterministic that is is

790

00:35:14,039 --> 00:35:19,110

destined to happen by the facts of the

791

00:35:16,650 --> 00:35:20,940

physical facts at the moment and as they

792

00:35:19,110 --> 00:35:24,090

continue out you can do that pretty

793

00:35:20,940 --> 00:35:25,800

accurately what happens with associative

794

00:35:24,090 --> 00:35:28,680

remote viewing is you essentially

795

00:35:25,800 --> 00:35:31,410

collapse the future time stream in that

796

00:35:28,679 --> 00:35:33,899

narrow corner of the future into an

797

00:35:31,409 --> 00:35:35,339

almost deterministic event which allows

798

00:35:33,900 --> 00:35:37,410

you to actually be accurate about them

799

00:35:35,340 --> 00:35:39,660

so let me explain real quickly how this

800

00:35:37,409 --> 00:35:45,059

works okay so let's say you want to know

801

00:35:39,659 --> 00:35:47,789

if if the longhorns or texas A&M are

802

00:35:45,059 --> 00:35:49,320

gonna win the football game okay well if

803

00:35:47,789 --> 00:35:52,349

you ask her about your who's gonna win

804

00:35:49,320 --> 00:35:54,360

Longhorns or I am the remote viewer just

805

00:35:52,349 --> 00:35:56,219

consciously coming up with an answer is

806

00:35:54,360 --> 00:35:57,480

never going to do any better than chance

807

00:35:56,219 --> 00:35:59,939

in that environment

808

00:35:57,480 --> 00:36:01,260

okay because they're aware and alert and

809

00:35:59,940 --> 00:36:03,720

they're essentially guessing even though

810

00:36:01,260 --> 00:36:06,990

they're trying to Remote View but what

811

00:36:03,719 --> 00:36:08,789

you do is you essentially use a it's

812

00:36:06,989 --> 00:36:11,129

kind of like a symbol for flag one flag

813  
00:36:08,789 --> 00:36:12,539  
means am is going to win the other flag

814  
00:36:11,130 --> 00:36:15,000  
means that text is gonna win right so

815  
00:36:12,539 --> 00:36:17,489  
you pick a target let's say a pencil to

816  
00:36:15,000 --> 00:36:20,460  
mean that an M is going to win and you

817  
00:36:17,489 --> 00:36:23,250  
pick another target a hamburger that

818  
00:36:20,460 --> 00:36:25,349  
stands for the Longhorns winning

819  
00:36:23,250 --> 00:36:27,570  
well the viewer doesn't know anything

820  
00:36:25,349 --> 00:36:30,000  
about what target you picked but you

821  
00:36:27,570 --> 00:36:31,590  
know that if a M is going to win you're

822  
00:36:30,000 --> 00:36:35,400  
going to show the viewer a pencil after

823  
00:36:31,590 --> 00:36:36,930  
the game and you know that if long one's

824  
00:36:35,400 --> 00:36:39,720  
when you're going to show the viewer a

825  
00:36:36,929 --> 00:36:41,159  
hamburger after the game right and so

826  
00:36:39,719 --> 00:36:43,230  
you ask the viewer I want you to

827

00:36:41,159 --> 00:36:46,619  
describe the object I'm going to hand

828  
00:36:43,230 --> 00:36:49,829  
you once this game is over and if the

829  
00:36:46,619 --> 00:36:51,779  
remote viewer says well it's big and

830  
00:36:49,829 --> 00:36:54,960  
round a brown and soft and squishy and

831  
00:36:51,780 --> 00:36:56,840  
smells like food well that means you're

832  
00:36:54,960 --> 00:36:59,820  
going to hand the viewer a hamburger

833  
00:36:56,840 --> 00:37:01,530  
implied well it means in theory it means

834  
00:36:59,820 --> 00:37:03,150  
you're going to hand him the am burgers

835  
00:37:01,530 --> 00:37:06,200  
to the viewer afterwards you know that

836  
00:37:03,150 --> 00:37:09,480  
the viewer doesn't and so you wait and

837  
00:37:06,199 --> 00:37:11,549  
assuming the Longhorns win then that

838  
00:37:09,480 --> 00:37:13,110  
tells you okay the Longhorns won I've

839  
00:37:11,550 --> 00:37:14,370  
got to give the viewer a hamburger now

840  
00:37:13,110 --> 00:37:15,630  
the game is over

841  
00:37:14,369 --> 00:37:17,069

that they're essentially spending

842

00:37:15,630 --> 00:37:20,430

themselves information back into the

843

00:37:17,070 --> 00:37:22,260

past ah so it's all it's also really

844

00:37:20,429 --> 00:37:24,659

important to follow through isn't it

845

00:37:22,260 --> 00:37:26,370

Paul yes absolutely well you know it's

846

00:37:24,659 --> 00:37:28,289

interesting what I would like to see if

847

00:37:26,369 --> 00:37:30,809

somebody do a research project where

848

00:37:28,289 --> 00:37:33,000

they they have a control group where

849

00:37:30,809 --> 00:37:34,590

they're giving them feedback in other

850

00:37:33,000 --> 00:37:35,280

words they do give them the hamburger in

851

00:37:34,590 --> 00:37:36,930

the future right

852

00:37:35,280 --> 00:37:40,230

and then another control group where

853

00:37:36,929 --> 00:37:42,089

they don't and just see what happens to

854

00:37:40,230 --> 00:37:43,679

see if the ones that get the feedback

855

00:37:42,090 --> 00:37:45,390

are more accurate than the ones who

856  
00:37:43,679 --> 00:37:47,099  
don't because there's one other

857  
00:37:45,389 --> 00:37:49,199  
possibility that subconscious knows

858  
00:37:47,099 --> 00:37:50,639  
what's going to be handed and and just

859  
00:37:49,199 --> 00:37:53,129  
tells me even if they don't ever get the

860  
00:37:50,639 --> 00:37:55,109  
feedback I think that that is not going

861  
00:37:53,130 --> 00:37:57,000  
to work very well but you would be

862  
00:37:55,110 --> 00:37:59,550  
addressing to test that condition and

863  
00:37:57,000 --> 00:38:02,519  
see what happens yeah and certainly what

864  
00:37:59,550 --> 00:38:04,860  
sure oh it's sort of an interesting way

865  
00:38:02,519 --> 00:38:07,650  
to view things there were there were

866  
00:38:04,860 --> 00:38:14,460  
some open-ended oh yeah I was going to

867  
00:38:07,650 --> 00:38:18,539  
say there were some people who were

868  
00:38:14,460 --> 00:38:21,929  
viewing for hedge funds by being sent to

869  
00:38:18,539 --> 00:38:25,139  
photos like one picture of a lemon and

870  
00:38:21,929 --> 00:38:27,179  
another picture of a baby crying so you

871  
00:38:25,139 --> 00:38:29,759  
know you wouldn't have any confusion

872  
00:38:27,179 --> 00:38:32,789  
between those and they would just pick

873  
00:38:29,760 --> 00:38:34,950  
one picture or another and that way and

874  
00:38:32,789 --> 00:38:38,190  
that then the hedge fund would go with

875  
00:38:34,949 --> 00:38:40,649  
what that picture was associated well we

876  
00:38:38,190 --> 00:38:42,480  
remember that remember what the it's

877  
00:38:40,650 --> 00:38:45,059  
actually the way around the picture goes

878  
00:38:42,480 --> 00:38:46,619  
with whatever the hedge fund does right

879  
00:38:45,059 --> 00:38:48,659  
right yeah

880  
00:38:46,619 --> 00:38:50,880  
yeah and that's actually what is used

881  
00:38:48,659 --> 00:38:52,710  
mostly these days as photos because it's

882  
00:38:50,880 --> 00:38:55,079  
really hard particularly a long distance

883  
00:38:52,710 --> 00:38:57,570  
to send the hamburger through the mail

884

00:38:55,079 --> 00:39:01,079  
for example you know to give the viewer

885  
00:38:57,570 --> 00:39:03,180  
feedback long distance so so usually we

886  
00:39:01,079 --> 00:39:05,880  
use photos these days but obviously as

887  
00:39:03,179 --> 00:39:08,009  
you've just just described you have to

888  
00:39:05,880 --> 00:39:09,869  
make sure the photos are so much

889  
00:39:08,010 --> 00:39:11,430  
different than me then each other that

890  
00:39:09,869 --> 00:39:12,809  
it's obvious which one the viewers

891  
00:39:11,429 --> 00:39:15,750  
described because you know it can be

892  
00:39:12,809 --> 00:39:18,989  
very vague sometimes mm-hmm well I know

893  
00:39:15,750 --> 00:39:23,849  
time is getting late for you but I

894  
00:39:18,989 --> 00:39:27,639  
wanted to ask you that the final well

895  
00:39:23,849 --> 00:39:31,059  
the second to final question which is

896  
00:39:27,639 --> 00:39:34,449  
and I are both experiencers and we're

897  
00:39:31,059 --> 00:39:41,769  
very interested in the subject of UFOs

898  
00:39:34,449 --> 00:39:46,179

and I have read accounts by Ingo Swann

899

00:39:41,769 --> 00:39:49,119

and by Joe mcmoneagle of INGOs viewing

900

00:39:46,179 --> 00:39:51,909

the moon and Joe's viewing Mars and

901

00:39:49,119 --> 00:39:54,759

while those accounts are you know

902

00:39:51,909 --> 00:39:56,469

extraordinarily interesting to me let me

903

00:39:54,760 --> 00:39:58,870

before you completely continue by the

904

00:39:56,469 --> 00:40:00,879

way I remote view the moon for dingo

905

00:39:58,869 --> 00:40:02,469

ditching us know sometimes we could talk

906

00:40:00,880 --> 00:40:05,349

about that maybe well I would love to

907

00:40:02,469 --> 00:40:09,489

talk about that because I also viewed

908

00:40:05,349 --> 00:40:17,079

the moon sort of accidentally but but

909

00:40:09,489 --> 00:40:20,559

the the remote viewing adventure that I

910

00:40:17,079 --> 00:40:23,559

found to be the most compelling in the

911

00:40:20,559 --> 00:40:27,130

reading of it was written down on a blog

912

00:40:23,559 --> 00:40:30,130

that skip Atwater once had I don't know

913  
00:40:27,130 --> 00:40:33,039  
if it's even up any longer and it had to

914  
00:40:30,130 --> 00:40:37,260  
do I believe he was the Tasker and

915  
00:40:33,039 --> 00:40:40,539  
tasked a number of viewers on a derelict

916  
00:40:37,260 --> 00:40:43,600  
argentinean I'm guessing a boat a

917  
00:40:40,539 --> 00:40:47,440  
military boat in the Argentinian waters

918  
00:40:43,599 --> 00:40:50,670  
and what do you know when I spoke to you

919  
00:40:47,440 --> 00:40:53,470  
about it you were one of the viewers so

920  
00:40:50,670 --> 00:41:00,880  
can you talk about that can you talk too

921  
00:40:53,469 --> 00:41:04,149  
bad yes so how this happened is that Hal

922  
00:41:00,880 --> 00:41:07,660  
put off had some there were some UFO

923  
00:41:04,150 --> 00:41:09,910  
events that he was curious about and he

924  
00:41:07,659 --> 00:41:13,059  
had some coordinates and such and some

925  
00:41:09,909 --> 00:41:16,989  
dates and all that and he passed a bunch

926  
00:41:13,059 --> 00:41:18,730  
of these on to skip now this

927  
00:41:16,989 --> 00:41:23,379  
particularly incident actually came from

928  
00:41:18,730 --> 00:41:24,730  
UFO researcher Jim McCampbell I talked

929  
00:41:23,380 --> 00:41:27,910  
to Hal about this because I was curious

930  
00:41:24,730 --> 00:41:30,070  
to know where what instigated this whole

931  
00:41:27,909 --> 00:41:32,829  
thing and he said that he had heard

932  
00:41:30,070 --> 00:41:35,890  
gotten some information from a Campbell

933  
00:41:32,829 --> 00:41:38,230  
about this and so he passed on the

934  
00:41:35,889 --> 00:41:40,179  
targeting information to skip out water

935  
00:41:38,230 --> 00:41:41,548  
and then over the course of a couple

936  
00:41:40,179 --> 00:41:43,659  
years

937  
00:41:41,548 --> 00:41:46,208  
skip well in nineteen eighty three

938  
00:41:43,659 --> 00:41:47,858  
eighty three skip brand to viewers on it

939  
00:41:46,208 --> 00:41:49,538  
and in nineteen eighty five Rand two

940  
00:41:47,858 --> 00:41:53,348  
more viewers on it

941

00:41:49,539 --> 00:41:56,829  
the first in 1983 was Joe mcmoneagle and

942  
00:41:53,349 --> 00:41:59,709  
also Tom McNair who are both viewers at

943  
00:41:56,829 --> 00:42:02,739  
the time in the program and both of them

944  
00:41:59,708 --> 00:42:05,558  
reported essentially that they have a

945  
00:42:02,739 --> 00:42:07,449  
perception of a ship and a cloud over

946  
00:42:05,559 --> 00:42:10,359  
the ship and the UFO doing something

947  
00:42:07,449 --> 00:42:14,559  
really bizarre and the crew panicking

948  
00:42:10,358 --> 00:42:16,389  
and and essentially disappearing I think

949  
00:42:14,559 --> 00:42:17,949  
Joe had them jumping off the back of the

950  
00:42:16,389 --> 00:42:22,420  
ship or jumping off the ship or

951  
00:42:17,949 --> 00:42:24,009  
something in terror and uh Tom let's see

952  
00:42:22,420 --> 00:42:26,170  
actually I have some of my notes here so

953  
00:42:24,009 --> 00:42:28,150  
let's see what Tom said I'll tell you

954  
00:42:26,170 --> 00:42:28,690  
real quick what's worth my cursor here

955  
00:42:28,150 --> 00:42:31,209

we go

956

00:42:28,690 --> 00:42:34,690  
and Tom talked about a strange build

957

00:42:31,208 --> 00:42:39,489  
billowy energy cloud that caused fear

958

00:42:34,690 --> 00:42:42,940  
and he felt should be avoided so then

959

00:42:39,489 --> 00:42:45,909  
two years later he skip works and bill

960

00:42:42,940 --> 00:42:48,759  
ray on it who's one of my protege and

961

00:42:45,909 --> 00:42:50,889  
companions or colleagues there bill

962

00:42:48,759 --> 00:42:52,900  
described the UFO was spreading a mist

963

00:42:50,889 --> 00:42:55,118  
of vapor and a steam around the naval

964

00:42:52,900 --> 00:42:57,670  
vessel and attacking it with energy that

965

00:42:55,119 --> 00:43:00,959  
made the crew insane with fear and which

966

00:42:57,670 --> 00:43:03,969  
left the ship empty of human life okay

967

00:43:00,958 --> 00:43:07,239  
and he described the UFOs occupants as

968

00:43:03,969 --> 00:43:10,088  
cold and unpleasant Wow

969

00:43:07,239 --> 00:43:12,489  
yeah so so that was interesting him I

970  
00:43:10,088 --> 00:43:14,828  
did it he cast me and unfortunately mine

971  
00:43:12,489 --> 00:43:19,358  
didn't turn out very well because what I

972  
00:43:14,829 --> 00:43:22,239  
said was well it was short went very

973  
00:43:19,358 --> 00:43:24,608  
informative I said that I thought what I

974  
00:43:22,239 --> 00:43:27,548  
thought was was mental noise called

975  
00:43:24,608 --> 00:43:30,278  
analytical overlay of a UFO an incident

976  
00:43:27,548 --> 00:43:31,900  
involving a ship in the cloud and I said

977  
00:43:30,278 --> 00:43:35,139  
I can't get this out of my head and so I

978  
00:43:31,900 --> 00:43:37,269  
ended my session oh my goodness well one

979  
00:43:35,139 --> 00:43:39,518  
thing we I think we've got to point out

980  
00:43:37,268 --> 00:43:42,189  
for our listeners and I I'm sorry to

981  
00:43:39,518 --> 00:43:44,618  
interrupt you here but to point out to

982  
00:43:42,190 --> 00:43:48,039  
our listeners here are four gentlemen I

983  
00:43:44,619 --> 00:43:49,778  
assume if the protocol was followed that

984  
00:43:48,039 --> 00:43:53,528  
none of you knew that you were supposed

985  
00:43:49,778 --> 00:43:55,230  
to be viewing a UFO or a ship no we did

986  
00:43:53,528 --> 00:43:58,929  
not know we got coordinates in a day

987  
00:43:55,230 --> 00:44:01,269  
just just a number and a date and you

988  
00:43:58,929 --> 00:44:04,118  
have no idea in time or space where this

989  
00:44:01,269 --> 00:44:08,230  
thing was and all four of you came up

990  
00:44:04,119 --> 00:44:10,450  
with something that was remarkable yep

991  
00:44:08,230 --> 00:44:12,460  
yes that's right the interesting thing

992  
00:44:10,449 --> 00:44:15,129  
is the ship was what instigated the

993  
00:44:12,460 --> 00:44:17,889  
whole thing was that this ship it was a

994  
00:44:15,130 --> 00:44:20,318  
it was an argentinian minesweeper old

995  
00:44:17,889 --> 00:44:22,750  
world war ii minesweeper as i understand

996  
00:44:20,318 --> 00:44:23,230  
it and it was found drifting in the gulf

997  
00:44:22,750 --> 00:44:25,989  
Oh

998

00:44:23,230 --> 00:44:29,500  
with nobody on board I mean and uh oh

999  
00:44:25,989 --> 00:44:31,598  
wow yeah I want to say the crew roughly

1000  
00:44:29,500 --> 00:44:32,829  
numbers on a minesweeper up around 70

1001  
00:44:31,599 --> 00:44:35,769  
maybe something like that

1002  
00:44:32,829 --> 00:44:39,430  
yeah there was nobody on board and there

1003  
00:44:35,769 --> 00:44:41,710  
was no clue as I remember what had

1004  
00:44:39,429 --> 00:44:43,919  
happened to them and so to have the

1005  
00:44:41,710 --> 00:44:46,780  
viewers come up with these kind of

1006  
00:44:43,920 --> 00:44:50,849  
results independently all blind to the

1007  
00:44:46,780 --> 00:44:53,109  
target years apart that's pretty

1008  
00:44:50,849 --> 00:44:55,030  
affirmative kind of stuff and it wasn't

1009  
00:44:53,108 --> 00:44:57,250  
like skip had some idea in his head

1010  
00:44:55,030 --> 00:44:59,589  
about what we'd find out or that hell

1011  
00:44:57,250 --> 00:45:01,239  
did they really didn't know they had no

1012  
00:44:59,588 --> 00:45:02,889

preconceived notions about it and so

1013

00:45:01,239 --> 00:45:04,479

when they task us on it it wasn't like

1014

00:45:02,889 --> 00:45:06,159

we picked it up from their minds

1015

00:45:04,480 --> 00:45:08,740

telepathic overlay which sometimes

1016

00:45:06,159 --> 00:45:10,389

happens it's like this stuff has kind of

1017

00:45:08,739 --> 00:45:12,759

came right out of the ether and so

1018

00:45:10,389 --> 00:45:15,900

that's just something very provocative

1019

00:45:12,760 --> 00:45:27,309

about it and they might in fact be true

1020

00:45:15,900 --> 00:45:29,920

what year was that oh very recently yeah

1021

00:45:27,309 --> 00:45:36,400

Wow well maybe not for some of your

1022

00:45:29,920 --> 00:45:38,588

listeners but for us I was thinking

1023

00:45:36,400 --> 00:45:41,349

along the lines of Bermuda Triangle and

1024

00:45:38,588 --> 00:45:46,929

then it's you know 1560 and 1700s and

1025

00:45:41,349 --> 00:45:48,430

who knows but ah well and we said that

1026

00:45:46,929 --> 00:45:50,500

wasn't like during the time of the

1027  
00:45:48,429 --> 00:45:53,889  
Falkland Islands was it I I don't

1028  
00:45:50,500 --> 00:45:56,710  
uh yeah let me think Falklands I was

1029  
00:45:53,889 --> 00:45:58,118  
actually with on a military exercise in

1030  
00:45:56,710 --> 00:46:00,909  
England when the Falklands thing

1031  
00:45:58,119 --> 00:46:04,059  
happened I think the Falklands were in

1032  
00:46:00,909 --> 00:46:05,739  
82 if I'm not mistaken huh so I could

1033  
00:46:04,059 --> 00:46:07,340  
have been associated with that as well

1034  
00:46:05,739 --> 00:46:11,329  
possibly

1035  
00:46:07,340 --> 00:46:14,450  
but this world my golf uh it wasn't oh

1036  
00:46:11,329 --> 00:46:16,460  
it wasn't off Argentina wasn't it yeah

1037  
00:46:14,449 --> 00:46:19,029  
was there was east of Argentina on the

1038  
00:46:16,460 --> 00:46:21,619  
eastern side of Argentina in the

1039  
00:46:19,030 --> 00:46:23,600  
government and Matias and and so we're

1040  
00:46:21,619 --> 00:46:25,250  
talking quite a ways away from the

1041  
00:46:23,599 --> 00:46:29,920  
Falklands but Lawson's work took place

1042  
00:46:25,250 --> 00:46:33,800  
out there right now uh in in the summer

1043  
00:46:29,920 --> 00:46:37,309  
the spring and summer of 1982 so this

1044  
00:46:33,800 --> 00:46:39,620  
was this is a while after this event

1045  
00:46:37,309 --> 00:46:42,259  
this event was let's see if I can find

1046  
00:46:39,619 --> 00:46:43,909  
out what the actual date was I know

1047  
00:46:42,260 --> 00:46:54,890  
where I can find out hang on a second

1048  
00:46:43,909 --> 00:46:59,989  
the test King was tell me it just says

1049  
00:46:54,889 --> 00:47:02,119  
no just as 1981 I'm not it just said

1050  
00:46:59,989 --> 00:47:04,519  
sometimes there's in the UFO field

1051  
00:47:02,119 --> 00:47:06,400  
sometimes they say that that they come

1052  
00:47:04,519 --> 00:47:10,280  
down and they interfere with human

1053  
00:47:06,400 --> 00:47:12,920  
governments and war and so on and maybe

1054  
00:47:10,280 --> 00:47:15,010  
they sent the wrong vessel and you know

1055

00:47:12,920 --> 00:47:20,659  
but I find that very interesting

1056  
00:47:15,010 --> 00:47:22,850  
I mean 70 people you you all remote

1057  
00:47:20,659 --> 00:47:23,629  
viewed this and I mean something must

1058  
00:47:22,849 --> 00:47:26,449  
have happened

1059  
00:47:23,630 --> 00:47:29,690  
and then you found a derelict ship I

1060  
00:47:26,449 --> 00:47:33,199  
find it fascinating that's amazing

1061  
00:47:29,690 --> 00:47:39,050  
it's to me that is the a very strong

1062  
00:47:33,199 --> 00:47:41,960  
proof of UFO being real you know being

1063  
00:47:39,050 --> 00:47:44,990  
real and interfering with human beings I

1064  
00:47:41,960 --> 00:47:47,000  
mean we all know about the the Brazilian

1065  
00:47:44,989 --> 00:47:50,000  
situation where the people all

1066  
00:47:47,000 --> 00:47:53,570  
irradiated on the island of coladas in

1067  
00:47:50,000 --> 00:47:56,659  
the Amazon the mouth of the Amazon and

1068  
00:47:53,570 --> 00:47:59,630  
how they can but that is a word of mouth

1069  
00:47:56,659 --> 00:48:02,269

kind of thing it wasn't remote viewed so

1070

00:47:59,630 --> 00:48:05,890

I'd be an interesting target foot to

1071

00:48:02,269 --> 00:48:09,800

remote view the Caloris incident yeah

1072

00:48:05,889 --> 00:48:12,230

well anyway I just want to thank you for

1073

00:48:09,800 --> 00:48:15,260

being a wonderful wonderful guest with

1074

00:48:12,230 --> 00:48:19,730

us we have one final question which I

1075

00:48:15,260 --> 00:48:20,869

would ask because some remote viewers

1076

00:48:19,730 --> 00:48:23,199

are

1077

00:48:20,869 --> 00:48:27,410

constantly seeing the end of the world

1078

00:48:23,199 --> 00:48:30,919

in various ways how do you come down on

1079

00:48:27,409 --> 00:48:37,608

that well for one thing the world is

1080

00:48:30,920 --> 00:48:39,950

going to end eventually I you know I a

1081

00:48:37,608 --> 00:48:42,199

lot of what you hear allegedly done by

1082

00:48:39,949 --> 00:48:44,598

remote viewing about apocalypse coming

1083

00:48:42,199 --> 00:48:46,730

is usually these folks are working

1084  
00:48:44,599 --> 00:48:48,769  
front-loaded which means all of their

1085  
00:48:46,730 --> 00:48:51,318  
preconceptions are right there the exam

1086  
00:48:48,768 --> 00:48:52,729  
and you know they oftentimes endorse

1087  
00:48:51,318 --> 00:48:55,429  
their favorite theory rather than

1088  
00:48:52,730 --> 00:48:58,068  
actually reporting remote viewing day so

1089  
00:48:55,429 --> 00:48:59,389  
so I find all that stuff not

1090  
00:48:58,068 --> 00:49:02,058  
particularly trustworthy I mean there's

1091  
00:48:59,389 --> 00:49:04,159  
one of my former colleagues is famous

1092  
00:49:02,059 --> 00:49:05,778  
for predicting from this the end of the

1093  
00:49:04,159 --> 00:49:08,659  
world he's been doing it actually since

1094  
00:49:05,778 --> 00:49:10,759  
the seventies the first my first

1095  
00:49:08,659 --> 00:49:12,798  
encounter with with the gentleman who is

1096  
00:49:10,759 --> 00:49:17,088  
an interesting guy there's no question

1097  
00:49:12,798 --> 00:49:18,409  
but it was in 1983 in 1984 he was

1098  
00:49:17,088 --> 00:49:19,338  
telling us all that the world is going

1099  
00:49:18,409 --> 00:49:22,909  
to come to an end or gonna have this

1100  
00:49:19,338 --> 00:49:26,150  
massive apocalypse thing in 1984-85 well

1101  
00:49:22,909 --> 00:49:28,909  
it didn't happen ever since then it's

1102  
00:49:26,150 --> 00:49:31,190  
been like that I mean it involves the

1103  
00:49:28,909 --> 00:49:33,798  
the of course popular thing is killshot

1104  
00:49:31,190 --> 00:49:35,619  
he talks about killed on yes he's been

1105  
00:49:33,798 --> 00:49:40,460  
talking about him predicting that

1106  
00:49:35,619 --> 00:49:42,920  
annually since 1997 so it's almost 20

1107  
00:49:40,460 --> 00:49:51,230  
years and it still hasn't happened he

1108  
00:49:42,920 --> 00:49:53,059  
who shall not be mentioned yeah a giant

1109  
00:49:51,230 --> 00:49:56,059  
solar flare that allegedly will wipe out

1110  
00:49:53,059 --> 00:49:58,099  
most of the life oh okay and then there

1111  
00:49:56,059 --> 00:50:00,259  
was one wasn't there one with a big

1112

00:49:58,099 --> 00:50:04,099  
meteor or two that was coming through

1113  
00:50:00,259 --> 00:50:06,469  
the carpet well I just had to ask you

1114  
00:50:04,099 --> 00:50:11,180  
your opinion on that because he does a

1115  
00:50:06,469 --> 00:50:14,538  
lot of publicity and probably some of

1116  
00:50:11,179 --> 00:50:17,629  
our viewers have heard about some of

1117  
00:50:14,539 --> 00:50:21,200  
that publicity so before let's not give

1118  
00:50:17,630 --> 00:50:23,599  
him any more publicity and I thank you

1119  
00:50:21,199 --> 00:50:23,838  
so much for being on it's really kind of

1120  
00:50:23,599 --> 00:50:27,829  
you

1121  
00:50:23,838 --> 00:50:30,288  
and we need to get the website yes we

1122  
00:50:27,829 --> 00:50:34,400  
want the books the website and the

1123  
00:50:30,289 --> 00:50:37,450  
courses lay them out for so

1124  
00:50:34,400 --> 00:50:40,190  
so the only two websites right now

1125  
00:50:37,449 --> 00:50:43,009  
because the others aren't live yet right

1126  
00:50:40,190 --> 00:50:47,240

the one is and I mentioned it the free

1127

00:50:43,010 --> 00:50:49,070

dowsing DVD calm and if anyone's

1128

00:50:47,239 --> 00:50:51,559

interested in dowsing they can get that

1129

00:50:49,070 --> 00:50:52,880

that introductory DVD and they'll get on

1130

00:50:51,559 --> 00:50:55,969

the mailing list for when the remote

1131

00:50:52,880 --> 00:50:57,740

perception course comes out the other

1132

00:50:55,969 --> 00:50:59,299

one which is actually all announced all

1133

00:50:57,739 --> 00:51:01,759

this stuff on this one as well is my

1134

00:50:59,300 --> 00:51:05,420

main website for my training and that's

1135

00:51:01,760 --> 00:51:09,590

our viewer comm so letter R the word

1136

00:51:05,420 --> 00:51:11,630

viewer calm and you know I post my

1137

00:51:09,590 --> 00:51:13,100

schedule for my courses and various

1138

00:51:11,630 --> 00:51:16,519

informations things on there is quite a

1139

00:51:13,099 --> 00:51:18,489

bit information on it so okay and the

1140

00:51:16,519 --> 00:51:21,259

names of the books Paul don't be shy

1141  
00:51:18,489 --> 00:51:24,289  
okay well there's reading reading the

1142  
00:51:21,260 --> 00:51:26,300  
enemy's mind which you can still get

1143  
00:51:24,289 --> 00:51:28,670  
used it's it's not a print except on

1144  
00:51:26,300 --> 00:51:30,800  
Kindle you can get on a Kindle you can

1145  
00:51:28,670 --> 00:51:32,480  
get it used and I highly recommend it I

1146  
00:51:30,800 --> 00:51:33,950  
I'm not making any more money off of it

1147  
00:51:32,480 --> 00:51:36,619  
but that's okay because I think the book

1148  
00:51:33,949 --> 00:51:38,389  
is still worth reading the book I will

1149  
00:51:36,619 --> 00:51:41,539  
be bringing out is called the essential

1150  
00:51:38,389 --> 00:51:43,819  
guide to remote viewing and that's a

1151  
00:51:41,539 --> 00:51:46,340  
basic guide for people who are just

1152  
00:51:43,820 --> 00:51:47,360  
getting started or think they may want

1153  
00:51:46,340 --> 00:51:49,850  
to get started

1154  
00:51:47,360 --> 00:51:51,920  
excellent excellent okay well thank you

1155  
00:51:49,849 --> 00:51:56,480  
so much and have a wonderful afternoon

1156  
00:51:51,920 --> 00:51:57,380  
out in sunny Utah you bet I'm going to

1157  
00:51:56,480 --> 00:51:59,420  
enjoy it okay

1158  
00:51:57,380 --> 00:52:07,039  
okay I really thank you so much very

1159  
00:51:59,420 --> 00:52:10,159  
interesting really I now we have our we

1160  
00:52:07,039 --> 00:52:15,769  
have our little news report we have a

1161  
00:52:10,159 --> 00:52:20,690  
news report and the news report is about

1162  
00:52:15,769 --> 00:52:26,300  
alien life on the comet that the Phil a

1163  
00:52:20,690 --> 00:52:30,500  
lander from the rosetta craft rosetta

1164  
00:52:26,300 --> 00:52:32,539  
mission it's all about that comet which

1165  
00:52:30,500 --> 00:52:35,179  
has a long Russian name which I'm

1166  
00:52:32,539 --> 00:52:37,250  
probably going to murder but here here's

1167  
00:52:35,179 --> 00:52:43,489  
the news report and I am getting this

1168  
00:52:37,250 --> 00:52:46,849  
from Sky News okay evidence of alien

1169

00:52:43,489 --> 00:52:47,779  
life is unequivocal on the comet

1170  
00:52:46,849 --> 00:52:50,719  
carrying

1171  
00:52:47,780 --> 00:52:54,140  
fill a probe through space to leading

1172  
00:52:50,719 --> 00:52:56,929  
astronomers have said the experts say

1173  
00:52:54,139 --> 00:53:05,119  
the most likely explanation for certain

1174  
00:52:56,929 --> 00:53:08,929  
features of the 67p journey Univ Gerizim

1175  
00:53:05,119 --> 00:53:11,630  
a man Kimiko comet such as its organic

1176  
00:53:08,929 --> 00:53:15,429  
rich black crust is the presence of

1177  
00:53:11,630 --> 00:53:19,099  
living organisms beneath an icy surface

1178  
00:53:15,429 --> 00:53:22,250  
Rosetta the European spacecraft orbiting

1179  
00:53:19,099 --> 00:53:25,969  
the comet is also said to have picked up

1180  
00:53:22,250 --> 00:53:30,440  
strange clusters of organic material

1181  
00:53:25,969 --> 00:53:33,230  
that resemble viral particles but

1182  
00:53:30,440 --> 00:53:35,900  
neither Rosetta nor its lander probe are

1183  
00:53:33,230 --> 00:53:39,289

equipped to search for direct evidence

1184

00:53:35,900 --> 00:53:44,680

of life after a proposal to include this

1185

00:53:39,289 --> 00:53:44,679

in the mission was allegedly dismissed

1186

00:53:46,210 --> 00:53:53,750

astronomer and our astrobiologists

1187

00:53:49,550 --> 00:53:56,360

professor Chandra Wickramasinghe who was

1188

00:53:53,750 --> 00:53:59,780

involved in planning for the mission 15

1189

00:53:56,360 --> 00:54:02,840

years ago said I wanted to include at a

1190

00:53:59,780 --> 00:54:05,390

very inexpensive life detection

1191

00:54:02,840 --> 00:54:08,870

experiment at the time it was thought

1192

00:54:05,389 --> 00:54:11,539

that this was a bizarre proposition he

1193

00:54:08,869 --> 00:54:15,739

and colleague dr. max Wallace from the

1194

00:54:11,539 --> 00:54:18,559

University of Cardiff believe 67p and

1195

00:54:15,739 --> 00:54:21,699

other comets like it could provide homes

1196

00:54:18,559 --> 00:54:27,009

for living molecules similar to the

1197

00:54:21,699 --> 00:54:31,099

extremophiles that inhabit the most

1198  
00:54:27,010 --> 00:54:34,970  
inhospitable regions of the earth they

1199  
00:54:31,099 --> 00:54:37,730  
say comets may have helped to sow the

1200  
00:54:34,969 --> 00:54:41,719  
seeds of life on Earth and possibly

1201  
00:54:37,730 --> 00:54:45,769  
other planets such as Mars early in the

1202  
00:54:41,719 --> 00:54:47,449  
solar system's existence so I'm not

1203  
00:54:45,769 --> 00:54:52,280  
going to read this entire thing but you

1204  
00:54:47,449 --> 00:54:55,009  
get the gist of it and Kate was so

1205  
00:54:52,280 --> 00:55:01,460  
wonderful as to have dr. Chandra

1206  
00:54:55,010 --> 00:55:03,920  
Wickramasinghe on her previously on

1207  
00:55:01,460 --> 00:55:06,108  
previous program and I had the privilege

1208  
00:55:03,920 --> 00:55:09,079  
of asking that gentleman a question and

1209  
00:55:06,108 --> 00:55:15,289  
the callin and I wouldn't you like to

1210  
00:55:09,079 --> 00:55:17,509  
have him back on yeah I'm a big fan of

1211  
00:55:15,289 --> 00:55:19,909  
his you know what bothers me about him

1212  
00:55:17,510 --> 00:55:23,180  
is he's obviously a brilliant man he's a

1213  
00:55:19,909 --> 00:55:26,690  
good scientist he does good research and

1214  
00:55:23,179 --> 00:55:29,799  
because he verges to some very slight

1215  
00:55:26,690 --> 00:55:33,260  
extent into what used to be considered

1216  
00:55:29,800 --> 00:55:36,289  
paranormal feels like exobiology which

1217  
00:55:33,260 --> 00:55:38,089  
nASA has now christened as astrobiology

1218  
00:55:36,289 --> 00:55:40,789  
therefore making it acceptable

1219  
00:55:38,088 --> 00:55:46,190  
he was really discounted by other

1220  
00:55:40,789 --> 00:55:49,190  
scientists very unfairly I feel and this

1221  
00:55:46,190 --> 00:55:51,380  
sort of it's a warning to all young

1222  
00:55:49,190 --> 00:55:53,210  
people that are just starting into

1223  
00:55:51,380 --> 00:55:55,608  
research they look at this fellow and

1224  
00:55:53,210 --> 00:55:58,639  
they go oh he's a Nobel Prize material

1225  
00:55:55,608 --> 00:56:00,769  
and and he just got scouted off to the

1226

00:55:58,639 --> 00:56:02,598  
side because he got interested in

1227  
00:56:00,769 --> 00:56:03,619  
something that was unacceptable so they

1228  
00:56:02,599 --> 00:56:07,070  
stay away from it

1229  
00:56:03,619 --> 00:56:09,588  
and it's those frontier knowledge that

1230  
00:56:07,070 --> 00:56:11,750  
brings back the most interesting results

1231  
00:56:09,588 --> 00:56:13,909  
so it's a shame that it really gets

1232  
00:56:11,750 --> 00:56:16,070  
discounted like the guys with cold

1233  
00:56:13,909 --> 00:56:18,588  
fusion I mean they murdered them their

1234  
00:56:16,070 --> 00:56:20,599  
careers are totally destroyed that is

1235  
00:56:18,588 --> 00:56:22,549  
correct and now they're starting to say

1236  
00:56:20,599 --> 00:56:25,369  
oh yeah there is such a thing as cold

1237  
00:56:22,550 --> 00:56:28,190  
fusion you know but anyway but yes

1238  
00:56:25,369 --> 00:56:29,570  
Chandra was fabulous he's a true

1239  
00:56:28,190 --> 00:56:32,450  
gentleman as well as an excellent

1240  
00:56:29,570 --> 00:56:36,380

scientist and he was mm-hmm the

1241

00:56:32,449 --> 00:56:42,439  
associate of Fred said sir fred hoyle

1242

00:56:36,380 --> 00:56:44,510  
the Royal astronomer the guy that but he

1243

00:56:42,440 --> 00:56:47,510  
had to do with comets and comets bring

1244

00:56:44,510 --> 00:56:50,990  
water and fur Mia yes well you know

1245

00:56:47,510 --> 00:56:54,290  
really weather once you get DNA once

1246

00:56:50,989 --> 00:56:56,689  
that molecule is made it'll find a home

1247

00:56:54,289 --> 00:56:58,699  
anywhere and it will evolve into any

1248

00:56:56,690 --> 00:57:00,950  
life-form that fits that environment

1249

00:56:58,699 --> 00:57:04,129  
right but you do somewhere along the

1250

00:57:00,949 --> 00:57:07,639  
line and the gazillion galaxies are out

1251

00:57:04,130 --> 00:57:11,030  
there all that had to do is one time

1252

00:57:07,639 --> 00:57:12,829  
create that molecule and boom the rest

1253

00:57:11,030 --> 00:57:14,740  
will be written history because it'll

1254

00:57:12,829 --> 00:57:16,440  
spread it'll absolutely spread and

1255  
00:57:14,739 --> 00:57:20,559  
all the billions of planets out there

1256  
00:57:16,440 --> 00:57:24,420  
man and now some of our probes that are

1257  
00:57:20,559 --> 00:57:30,599  
up in space such as the space station

1258  
00:57:24,420 --> 00:57:33,550  
mm-hmm are said to have different

1259  
00:57:30,599 --> 00:57:36,190  
organic material on them that could not

1260  
00:57:33,550 --> 00:57:39,700  
have gotten there by bouncing off the

1261  
00:57:36,190 --> 00:57:44,139  
earth say it came from space sounds like

1262  
00:57:39,699 --> 00:57:45,789  
a horror movie right and you know like

1263  
00:57:44,139 --> 00:57:47,889  
when I was in grade school I reach what

1264  
00:57:45,789 --> 00:57:49,869  
there are no planets outside the solar

1265  
00:57:47,889 --> 00:57:53,219  
system there are no other solar systems

1266  
00:57:49,869 --> 00:57:56,230  
well that was malarkey no I know it I

1267  
00:57:53,219 --> 00:57:59,129  
didn't believe yeah so finally they

1268  
00:57:56,230 --> 00:58:02,650  
found Pegasus was at 251 or whatever

1269  
00:57:59,130 --> 00:58:04,930  
that man they did not destroy he had

1270  
00:58:02,650 --> 00:58:07,389  
concrete evidence that they could not

1271  
00:58:04,929 --> 00:58:08,949  
dispute it was sort of like Galileo when

1272  
00:58:07,389 --> 00:58:11,529  
he looked through the telescope and said

1273  
00:58:08,949 --> 00:58:13,629  
Jupiter has four moons and the

1274  
00:58:11,530 --> 00:58:15,610  
Inquisition said no it doesn't and he

1275  
00:58:13,630 --> 00:58:16,809  
said yes it does any good no it doesn't

1276  
00:58:15,610 --> 00:58:18,789  
you know it looks through the telescope

1277  
00:58:16,809 --> 00:58:24,699  
there's four moons no there aren't

1278  
00:58:18,789 --> 00:58:27,309  
yes there are same nonsense

1279  
00:58:24,699 --> 00:58:31,059  
yeah Chandra was is an outstanding I'm

1280  
00:58:27,309 --> 00:58:34,329  
sorry no no that's great so we're just

1281  
00:58:31,059 --> 00:58:39,279  
having this conversation and please like

1282  
00:58:34,329 --> 00:58:43,059  
us yeah on you know all the places we

1283

00:58:39,280 --> 00:58:47,170  
are Facebook my tanks we need like

1284  
00:58:43,059 --> 00:58:53,710  
Facebook iTunes and both of our websites

1285  
00:58:47,170 --> 00:58:56,500  
both shattered reality podcast calm and

1286  
00:58:53,710 --> 00:58:59,019  
shattered reality podcast dot

1287  
00:58:56,500 --> 00:59:01,840  
wordpress.com which is some years right

1288  
00:58:59,019 --> 00:59:05,909  
I'm getting her view of people like

1289  
00:59:01,840 --> 00:59:08,619  
liking us yeah Wow okay let's do it

1290  
00:59:05,909 --> 00:59:10,629  
well that's called remote influencing

1291  
00:59:08,619 --> 00:59:11,950  
and one of these guys that we get on I

1292  
00:59:10,630 --> 00:59:13,660  
don't know which one we could've brought

1293  
00:59:11,949 --> 00:59:17,079  
it up with mr. Smith he was certainly

1294  
00:59:13,659 --> 00:59:19,389  
very affable and friendly a person but

1295  
00:59:17,079 --> 00:59:21,819  
I've often thought about the the art of

1296  
00:59:19,389 --> 00:59:24,579  
remote influencing rather than remote

1297  
00:59:21,820 --> 00:59:27,519

viewing and the possibilities therein so

1298

00:59:24,579 --> 00:59:30,279

I am remote influencing you now

1299

00:59:27,519 --> 00:59:32,259

okay so you want to wrap it up go ahead

1300

00:59:30,280 --> 00:59:33,910

Kate I'll be fine oh thank you so much

1301

00:59:32,260 --> 00:59:35,470

for listening it's always been our

1302

00:59:33,909 --> 00:59:38,500

pleasure I hope you've learned something

1303

00:59:35,469 --> 00:59:39,099

from it I certainly did and I'll see you

1304

00:59:38,500 --> 00:59:43,019

next time

1305

00:59:39,099 --> 00:59:43,019

you got it bye for now

1306

01:00:03,599 --> 01:00:05,660

you
