

1  
00:00:09,558 --> 00:00:14,518  
this is a very interesting little model

2  
00:00:12,660 --> 00:00:16,379  
it's a box you can use it to put little

3  
00:00:14,519 --> 00:00:19,199  
things in little toys or trinkets or

4  
00:00:16,379 --> 00:00:20,669  
lollies or anything you like a little

5  
00:00:19,199 --> 00:00:23,789  
box with handles let's see if we can

6  
00:00:20,670 --> 00:00:27,390  
make it so we'll start with a square

7  
00:00:23,789 --> 00:00:38,570  
piece of paper fold the bottom point

8  
00:00:27,390 --> 00:00:42,210  
here up to the top like that now unfold

9  
00:00:38,570 --> 00:00:51,120  
this time fold this side here this point

10  
00:00:42,210 --> 00:00:54,149  
over to the other side folding it in

11  
00:00:51,119 --> 00:00:59,189  
half and unfold again now we'll turn the

12  
00:00:54,149 --> 00:01:02,340  
model over now once you've turned the

13  
00:00:59,189 --> 00:01:05,370  
model over sort of swivel it around a

14  
00:01:02,340 --> 00:01:14,969  
little bit fold the bottom edge up to

15  
00:01:05,370 --> 00:01:24,780  
the top like that unfold now fold this

16  
00:01:14,969 --> 00:01:27,989  
side over to that side and once more

17  
00:01:24,780 --> 00:01:30,989  
unfold gives us a nice sort of star

18  
00:01:27,989 --> 00:01:39,919  
shape of the creases now fold each of

19  
00:01:30,989 --> 00:01:39,919  
the corners into the center that one

20  
00:01:40,400 --> 00:01:43,640  
that one

21  
00:01:44,359 --> 00:01:54,689  
that one and finally the last one so

22  
00:01:52,920 --> 00:01:56,159  
your model should look like that now

23  
00:01:54,689 --> 00:01:59,579  
what we're going to do is just pick it

24  
00:01:56,159 --> 00:02:03,420  
up a little bit fold it in half along

25  
00:01:59,579 --> 00:02:05,310  
the ridges at the top like that swivel

26  
00:02:03,420 --> 00:02:08,759  
it around do the same thing here

27  
00:02:05,310 --> 00:02:12,979  
pinching those ridges and then very

28  
00:02:08,759 --> 00:02:12,979  
carefully push the whole thing together

29

00:02:17,569 --> 00:02:21,959  
which will give us an interesting little

30  
00:02:19,949 --> 00:02:25,259  
shape back to a sort of a square shape

31  
00:02:21,960 --> 00:02:27,060  
again now what I want you to do is if

32  
00:02:25,259 --> 00:02:29,009  
you look carefully you've sort of made a

33  
00:02:27,060 --> 00:02:30,569  
little pocket there right on the top of

34  
00:02:29,009 --> 00:02:34,229  
the model itself you can actually open

35  
00:02:30,569 --> 00:02:39,930  
that up at the same time bringing the

36  
00:02:34,229 --> 00:02:43,109  
top point down or any open that pocket

37  
00:02:39,930 --> 00:02:49,830  
and both sides right out like that press

38  
00:02:43,110 --> 00:02:52,590  
the whole section flat just like that

39  
00:02:49,830 --> 00:02:55,440  
I'll show you again on the other side so

40  
00:02:52,590 --> 00:02:57,120  
we'll turn the model over put your

41  
00:02:55,439 --> 00:03:00,539  
fingers in this little pocket here that

42  
00:02:57,120 --> 00:03:04,560  
side and the other side and just bring

43  
00:03:00,539 --> 00:03:10,649

the whole point squashing it down like

44

00:03:04,560 --> 00:03:13,379

that not too difficult if you give it a

45

00:03:10,650 --> 00:03:18,289

few goes okay what I want you to do now

46

00:03:13,379 --> 00:03:21,930

is fold this side here across like that

47

00:03:18,289 --> 00:03:26,099

turn the model over and do exactly the

48

00:03:21,930 --> 00:03:29,280

same thing for this side across like

49

00:03:26,099 --> 00:03:32,879

that now it might help in fact if you

50

00:03:29,280 --> 00:03:34,530

turn the whole model around like this so

51

00:03:32,879 --> 00:03:38,099

the pointy end is sort of facing away

52

00:03:34,530 --> 00:03:40,860

from you alright get the edge here on

53

00:03:38,099 --> 00:03:46,840

the top flap only and fold it right into

54

00:03:40,860 --> 00:03:49,220

the center line trust like that

55

00:03:46,840 --> 00:03:54,050

same thing on the other side of the top

56

00:03:49,219 --> 00:04:00,949

flap only folding the edge into the

57

00:03:54,050 --> 00:04:04,550

center just like that turn the model

58  
00:04:00,949 --> 00:04:08,349  
around and do exactly the same thing

59  
00:04:04,550 --> 00:04:11,120  
again fold this edge into the center and

60  
00:04:08,349 --> 00:04:18,350  
finally this edge here also into the

61  
00:04:11,120 --> 00:04:21,350  
center nearly finished your box if you

62  
00:04:18,350 --> 00:04:23,689  
get the top point here the top flap only

63  
00:04:21,350 --> 00:04:30,290  
in the top point and fold it straight

64  
00:04:23,689 --> 00:04:33,050  
down along this line here like this turn

65  
00:04:30,290 --> 00:04:39,290  
the model over do exactly the same thing

66  
00:04:33,050 --> 00:04:42,379  
on the other side like this box is

67  
00:04:39,290 --> 00:04:45,290  
nearly finished simply grab the last two

68  
00:04:42,379 --> 00:04:48,379  
folds who did pull it apart slightly put

69  
00:04:45,290 --> 00:04:52,610  
your fingers inside like this open the

70  
00:04:48,379 --> 00:04:57,920  
model out pressing it as you go you'll

71  
00:04:52,610 --> 00:05:00,759  
find it makes a lovely little box very

72

00:04:57,920 --> 00:05:02,819  
nice box and very easy to make

73

00:05:00,759 --> 00:05:02,819  
you
