as she goes commander Soyka I captain

25  
00:02:47,389 --> 00:02:51,559  
watch out for those mini black holes I

26  
00:02:49,549 --> 00:02:53,900  
haven't seen any yet I mean black

27  
00:02:51,560 --> 00:02:56,870  
against black not really easy to see is

28  
00:02:53,900 --> 00:02:59,090  
it and mini how small as many are we

29

00:02:56,870 --> 00:03:02,000  
talking tiny mini or really big many

30  
00:02:59,090 --> 00:03:04,640  
many as in larger than a planet but not

31  
00:03:02,000 --> 00:03:06,500  
as large as a star okay so are we

32  
00:03:04,639 --> 00:03:08,750  
talking about a small planet and a large

33  
00:03:06,500 --> 00:03:09,689  
star or do you mean a large planet and a

34  
00:03:08,750 --> 00:03:11,849  
really

35  
00:03:09,689 --> 00:03:13,650  
little star like a brown dwarf or how

36  
00:03:11,849 --> 00:03:16,049  
about its emergency hotline from Star

37  
00:03:13,650 --> 00:03:20,310  
Command instantly stopping can you get

38  
00:03:16,050 --> 00:03:23,640  
that please aye captain hello oh hello

39  
00:03:20,310 --> 00:03:26,460  
my darling how are you sure I can do

40  
00:03:23,639 --> 00:03:28,259  
that I don't like a commander every time

41  
00:03:26,460 --> 00:03:30,750  
Star Command contact us that always

42  
00:03:28,259 --> 00:03:34,590  
means a new and dangerous mission you

43  
00:03:30,750 --> 00:03:37,259

mean a plot you well luckiest oh I'll

44

00:03:34,590 --> 00:03:39,300

tell him captain it's Admiral Roy from

45

00:03:37,259 --> 00:03:41,969

Earth and he's calling us collect

46

00:03:39,300 --> 00:03:44,340

collect enson out here why don't we just

47

00:03:41,969 --> 00:03:46,620

use the interstellar net and connect

48

00:03:44,340 --> 00:03:48,780

through hyper subspace it's not working

49

00:03:46,620 --> 00:03:50,490

captain I even turned the modem on and

50

00:03:48,780 --> 00:03:52,560

off at the wall and everything ah

51

00:03:50,490 --> 00:03:55,830

captain I might know something about

52

00:03:52,560 --> 00:03:58,439

that yes commander yeah I mean to tell

53

00:03:55,830 --> 00:04:00,780

you we saw to win over our 15 Giga

54

00:03:58,439 --> 00:04:02,579

wiggity ribeiro flop Bob download limit

55

00:04:00,780 --> 00:04:05,460

you see there's a new movie out called

56

00:04:02,580 --> 00:04:08,850

storm force with George Rab directed by

57

00:04:05,460 --> 00:04:11,460

Derek Colin dunno and in mega HD 3d with

58  
00:04:08,849 --> 00:04:14,039  
true seen smells and touchy-feely direct

59  
00:04:11,460 --> 00:04:17,879  
mind stimulation and a crew member who

60  
00:04:14,039 --> 00:04:21,449  
will go unnamed sort of will downloaded

61  
00:04:17,879 --> 00:04:24,930  
it twice so we're on dial-up speed for

62  
00:04:21,449 --> 00:04:28,139  
the next month I see was the movie any

63  
00:04:24,930 --> 00:04:31,110  
good no it's seen it before right but

64  
00:04:28,139 --> 00:04:33,930  
the Admiral on speaker Captain Saunders

65  
00:04:31,110 --> 00:04:35,250  
here Saunders Admiral Roy from Star

66  
00:04:33,930 --> 00:04:37,680  
Command it looks like we have a

67  
00:04:35,250 --> 00:04:39,779  
situation I see what is it Admiral

68  
00:04:37,680 --> 00:04:42,449  
intelligence from our undercover agents

69  
00:04:39,779 --> 00:04:44,209  
Wow who woulda thought aday I mean

70  
00:04:42,449 --> 00:04:47,490  
normally those guys are really stupid

71  
00:04:44,209 --> 00:04:51,299  
yes yes they are so what did the

72  
00:04:47,490 --> 00:04:54,120  
undercover agents uncover cars the

73  
00:04:51,300 --> 00:04:56,430  
undercover agents uncovered covers yes

74  
00:04:54,120 --> 00:04:59,430  
Saunders their undercover agents what

75  
00:04:56,430 --> 00:05:00,689  
did you expect them to uncover yes can

76  
00:04:59,430 --> 00:05:03,759  
you tell me anything more about these

77  
00:05:00,689 --> 00:05:05,410  
covers the covers were just a cover to

78  
00:05:03,759 --> 00:05:08,319  
cover the recovered secret plans

79  
00:05:05,410 --> 00:05:10,720  
covering the uncovering of a new and

80  
00:05:08,319 --> 00:05:13,060  
powerful power supply that could change

81  
00:05:10,720 --> 00:05:16,450  
the balance of power in the universe and

82  
00:05:13,060 --> 00:05:18,610  
beyond what could you repeat that not in

83  
00:05:16,449 --> 00:05:20,680  
a million years Saunders this is serious

84  
00:05:18,610 --> 00:05:22,480  
those secret plans have disappeared from

85  
00:05:20,680 --> 00:05:25,060  
under lock and key and we need them back

86

00:05:22,480 --> 00:05:27,280  
I want you to set a course find the

87  
00:05:25,060 --> 00:05:29,290  
plans and bring them back to earth but

88  
00:05:27,279 --> 00:05:31,359  
be warned we suspect whoever the

89  
00:05:29,290 --> 00:05:34,629  
mastermind is behind this will stop at

90  
00:05:31,360 --> 00:05:36,910  
nothing yes sir where are you sending us

91  
00:05:34,629 --> 00:05:38,920  
what's the hitting dammit Saunders

92  
00:05:36,910 --> 00:05:41,230  
you're the captain set your own heading

93  
00:05:38,920 --> 00:05:43,180  
you can be replaced you know here's a

94  
00:05:41,230 --> 00:05:46,180  
report back to me when you've got those

95  
00:05:43,180 --> 00:05:49,240  
plans don't fail Saunders Admiral Roy

96  
00:05:46,180 --> 00:05:51,840  
out captain I think we should set a

97  
00:05:49,240 --> 00:05:57,189  
heading for the pleasure planet of oh

98  
00:05:51,839 --> 00:05:59,349  
yeah mmm three you know the one with the

99  
00:05:57,189 --> 00:06:01,810  
crystal swimming pools and aliens with

100  
00:05:59,350 --> 00:06:05,320

six hands that can massage six parts of

101

00:06:01,810 --> 00:06:07,209

your body at once hmm do you think the

102

00:06:05,319 --> 00:06:10,769

secret plans are there I have no idea

103

00:06:07,209 --> 00:06:14,620

but it's a fun place to start looking

104

00:06:10,769 --> 00:06:17,829

mr. psycho what's this strange object on

105

00:06:14,620 --> 00:06:19,149

the long-range scanner scope hmm wow I

106

00:06:17,829 --> 00:06:22,120

haven't seen anything like that before

107

00:06:19,149 --> 00:06:24,069

could it be another ship maybe Captain

108

00:06:22,120 --> 00:06:26,399

Steve novella has made it to this sector

109

00:06:24,069 --> 00:06:29,230

I hear he has a guide to the universe

110

00:06:26,399 --> 00:06:31,329

another ship oh no I thought you made

111

00:06:29,230 --> 00:06:34,509

the long-range scanner scope no never

112

00:06:31,329 --> 00:06:37,180

seen that before what does it do didn't

113

00:06:34,509 --> 00:06:39,279

you get any training mr. Soyka yes

114

00:06:37,180 --> 00:06:41,769

captain I attended the Australian space

115  
00:06:39,279 --> 00:06:45,759  
service night school for 10 years I see

116  
00:06:41,769 --> 00:06:48,189  
what did you study sleep mr. Sokha you

117  
00:06:45,759 --> 00:06:50,769  
would have to be the most uninformed

118  
00:06:48,189 --> 00:06:54,850  
person on this ship really i didn't know

119  
00:06:50,769 --> 00:06:56,740  
that right you know mmm instant forced

120  
00:06:54,850 --> 00:06:59,680  
up and over there says she's part

121  
00:06:56,740 --> 00:07:02,439  
psychic maybe she can help us part

122  
00:06:59,680 --> 00:07:03,408  
psychic yeah Vincent fish Dobbin aye

123  
00:07:02,439 --> 00:07:06,228  
captain

124  
00:07:03,408 --> 00:07:09,978  
nansen your file says you are part

125  
00:07:06,228 --> 00:07:12,889  
psychic also part cyborg and part time

126  
00:07:09,978 --> 00:07:21,800  
hmm can you tell me what I'm thinking

127  
00:07:12,889 --> 00:07:23,329  
now well oh oh yes I'm very good hmm we

128  
00:07:21,800 --> 00:07:27,319  
need to see if you can use your psychic

129  
00:07:23,329 --> 00:07:29,808  
abilities what can you sense about the

130  
00:07:27,319 --> 00:07:39,249  
strange object on the long-range scanner

131  
00:07:29,809 --> 00:07:43,459  
scope I'm getting I'm getting an image

132  
00:07:39,249 --> 00:07:46,579  
it's not clear wait I'm getting it now

133  
00:07:43,459 --> 00:07:52,009  
it's round it could be something

134  
00:07:46,579 --> 00:07:56,778  
starting with a tea or maybe could be an

135  
00:07:52,009 --> 00:08:08,479  
S or a dar sound does that mean anything

136  
00:07:56,778 --> 00:08:13,428  
to you um no no but go on okay yes who

137  
00:08:08,478 --> 00:08:18,468  
is robert or robbie something to do with

138  
00:08:13,428 --> 00:08:20,928  
a mountain or maybe a valley wait who

139  
00:08:18,468 --> 00:08:23,838  
was at that like ice cream had a blue

140  
00:08:20,928 --> 00:08:28,758  
car maybe it could be something to do

141  
00:08:23,838 --> 00:08:31,129  
with water well hey my brother's

142  
00:08:28,759 --> 00:08:33,528  
goldfish is called Reggie and he lives

143

00:08:31,129 --> 00:08:36,620  
in water I mean this is too close to be

144  
00:08:33,528 --> 00:08:38,088  
a coincidence yes hmm thank you answer

145  
00:08:36,620 --> 00:08:42,418  
first up and we'll get back to you on

146  
00:08:38,089 --> 00:08:44,490  
that I lost the ship's computer computer

147  
00:08:42,418 --> 00:08:46,588  
you're listening to the ship's computer

148  
00:08:44,490 --> 00:08:48,899  
computer what can you tell me about the

149  
00:08:46,589 --> 00:08:50,519  
blip on the long-range scanner scope

150  
00:08:48,899 --> 00:08:52,559  
today we're going to take a closer look

151  
00:08:50,519 --> 00:08:54,929  
at the strange blip currently on the

152  
00:08:52,559 --> 00:08:57,569  
long-range scanner scope and examine the

153  
00:08:54,929 --> 00:09:00,838  
bizarre phenomenon known as W class

154  
00:08:57,570 --> 00:09:03,329  
planets computer what is a w class

155  
00:09:00,839 --> 00:09:06,870  
planet I only got as far as p class in

156  
00:09:03,328 --> 00:09:10,679  
my studies you know p for planet class

157  
00:09:06,870 --> 00:09:12,778

planet the W stands for Wu class a class

158

00:09:10,679 --> 00:09:15,000

of planet were the laws of science logic

159

00:09:12,778 --> 00:09:17,159

and common sense as we know them have

160

00:09:15,000 --> 00:09:19,799

broken down into a sort of rainbow of

161

00:09:17,159 --> 00:09:22,649

nice colors wishful thinking with bunny

162

00:09:19,799 --> 00:09:25,649

rabbits unicorns and magical vibrations

163

00:09:22,649 --> 00:09:28,350

strange energy fields made from strange

164

00:09:25,649 --> 00:09:30,570

energy unknown to science float around

165

00:09:28,350 --> 00:09:32,579

the planet with those who encounter them

166

00:09:30,570 --> 00:09:35,879

reporting they feel balanced and healed

167

00:09:32,578 --> 00:09:37,979

ah sounds lovely the object of a

168

00:09:35,879 --> 00:09:40,948

long-range scanner scope does indeed

169

00:09:37,980 --> 00:09:43,289

seem to be a w class pride however it

170

00:09:40,948 --> 00:09:47,399

does not show up on any star charts or

171

00:09:43,289 --> 00:09:50,159

on the GPS we are still too far far far

172  
00:09:47,399 --> 00:09:52,980  
away to tell if there's any geologic

173  
00:09:50,159 --> 00:09:55,519  
activity that must be where the secret

174  
00:09:52,980 --> 00:09:57,810  
plans are really yeah sure why not

175  
00:09:55,519 --> 00:10:00,509  
computer how long will it take us to

176  
00:09:57,809 --> 00:10:03,719  
reach this planet back to pills entirely

177  
00:10:00,509 --> 00:10:07,169  
on how fast you want to go really really

178  
00:10:03,720 --> 00:10:09,600  
fast really really fast equates to dirt

179  
00:10:07,169 --> 00:10:14,519  
5 at that speed it would take us two

180  
00:10:09,600 --> 00:10:17,850  
days 10 hours 37 minutes right hello

181  
00:10:14,519 --> 00:10:20,250  
engineering Chad here captain ah chief

182  
00:10:17,850 --> 00:10:23,070  
Chen a penny for your thoughts we need

183  
00:10:20,250 --> 00:10:25,139  
to get the ship to reach derp 5 now can

184  
00:10:23,070 --> 00:10:27,320  
we do it but captain were already going

185  
00:10:25,139 --> 00:10:30,649  
at derp 7 we are

186  
00:10:27,320 --> 00:10:33,080  
right commander Soyka emergency stop all

187  
00:10:30,649 --> 00:10:35,480  
engines full reverse but captain an

188  
00:10:33,080 --> 00:10:37,460  
emergency stop at derb seven could tear

189  
00:10:35,480 --> 00:10:43,220  
the ship apart that is an order

190  
00:10:37,460 --> 00:10:45,680  
commander aye sir All Hands and all feet

191  
00:10:43,220 --> 00:10:48,850  
brace for an emergency stop hang on to

192  
00:10:45,679 --> 00:10:48,849  
something or someone

193  
00:10:58,240 --> 00:11:07,399  
all stop captain right chief Chen I need

194  
00:11:02,419 --> 00:11:09,229  
dirt five now can we do it captain that

195  
00:11:07,399 --> 00:11:11,329  
emergency stop burnt out the antimatter

196  
00:11:09,230 --> 00:11:13,670  
exchange the relay couplings the

197  
00:11:11,330 --> 00:11:17,629  
microwave soup reheater and my hair

198  
00:11:13,669 --> 00:11:24,019  
dryer chief we need dirt five hair dryer

199  
00:11:17,629 --> 00:11:25,789  
or not hi captain chat out mr. Soyka we

200

00:11:24,019 --> 00:11:28,090  
should arrive at this planet in two days

201  
00:11:25,789 --> 00:11:30,949  
if the derb engines come back online I

202  
00:11:28,090 --> 00:11:33,860  
want you to put together a really far

203  
00:11:30,950 --> 00:11:37,220  
away team and will scream down once

204  
00:11:33,860 --> 00:11:38,899  
we're in orbit scream down yes well the

205  
00:11:37,220 --> 00:11:43,210  
teleporter isn't working and we have to

206  
00:11:38,899 --> 00:11:46,629  
jump and it's a really long way down

207  
00:11:43,210 --> 00:11:49,670  
sick bay to branch yes dr. AG report

208  
00:11:46,629 --> 00:11:53,570  
captain a critical situation we are

209  
00:11:49,669 --> 00:11:56,620  
running low on noms no one on what noms

210  
00:11:53,570 --> 00:12:00,860  
captain noms nutritional organic micro

211  
00:11:56,620 --> 00:12:03,350  
supplements huh food you know no not

212  
00:12:00,860 --> 00:12:05,690  
let's see well I think you're in luck

213  
00:12:03,350 --> 00:12:08,300  
we're heading for a planet that may have

214  
00:12:05,690 --> 00:12:10,850

what you need we are what can you tell

215

00:12:08,299 --> 00:12:14,329

me about it not very much I'm afraid w

216

00:12:10,850 --> 00:12:17,149

class might have a landmass maybe some

217

00:12:14,330 --> 00:12:19,160

breathable atmosphere or it might be a

218

00:12:17,149 --> 00:12:21,500

gas planet with a poison atmosphere and

219

00:12:19,159 --> 00:12:23,689

no land mass that's it that's all you

220

00:12:21,500 --> 00:12:25,909

know and you make some bold statement

221

00:12:23,690 --> 00:12:30,590

that it might have a supply of noms yeah

222

00:12:25,909 --> 00:12:33,919

in mind what was that dr. Reggie nothing

223

00:12:30,590 --> 00:12:35,330

sickbay out mr. Soyka join me in

224

00:12:33,919 --> 00:12:38,779

engineering and we'll see if we can give

225

00:12:35,330 --> 00:12:42,250

a chief chan a hand and bring your hair

226

00:12:38,779 --> 00:12:42,250

dryer aye captain

227

00:12:47,889 --> 00:12:53,239

the derp engines were finally repaired

228

00:12:51,110 --> 00:12:56,568

using the parts from three hair dryers

229

00:12:53,239 --> 00:12:59,619  
and some extra strong genetically

230

00:12:56,568 --> 00:13:04,338  
modified string known as super string

231

00:12:59,619 --> 00:13:06,920  
well in theory anyway once in orbit scan

232

00:13:04,339 --> 00:13:09,199  
showed that the mysterious w class

233

00:13:06,919 --> 00:13:11,838  
planet was about the same size as earth

234

00:13:09,198 --> 00:13:15,798  
with a breathable atmosphere liquid

235

00:13:11,839 --> 00:13:18,980  
water oceans a blue sky and no dangerous

236

00:13:15,798 --> 00:13:21,078  
radiation now come on really in the

237

00:13:18,980 --> 00:13:25,278  
vastness of space what are the odds of

238

00:13:21,078 --> 00:13:28,458  
that mean time the really part of a team

239

00:13:25,278 --> 00:13:36,828  
has gathered in the cargo hold and is

240

00:13:28,458 --> 00:13:38,568  
preparing to jump right now remember

241

00:13:36,828 --> 00:13:41,659  
everybody roll when you hit the ground

242

00:13:38,568 --> 00:13:44,838  
about jumping to the planets we might

243  
00:13:41,659 --> 00:13:46,808  
have a problem captain what what is it n

244  
00:13:44,839 --> 00:13:51,499  
santhush Dutton scared of heights no

245  
00:13:46,808 --> 00:13:53,928  
scared of no parachutes no parachutes we

246  
00:13:51,499 --> 00:13:56,540  
have a derb drive supersonic hairdryers

247  
00:13:53,928 --> 00:13:59,480  
more TV channels and there are stars in

248  
00:13:56,539 --> 00:14:01,998  
the known universe but no parachutes or

249  
00:13:59,480 --> 00:14:03,949  
not captain I think it might be better

250  
00:14:01,999 --> 00:14:06,980  
to use our shuttles to get to the planet

251  
00:14:03,948 --> 00:14:09,349  
you know Oh H&S and all that and we have

252  
00:14:06,980 --> 00:14:10,909  
a shuttle pilot who is very keen part of

253  
00:14:09,350 --> 00:14:12,459  
maine our third class I used to be

254  
00:14:10,909 --> 00:14:15,110  
second may not reporting captain

255  
00:14:12,458 --> 00:14:18,229  
misdemeanor good to see you again now

256  
00:14:15,110 --> 00:14:20,450  
this planet we need wit but

257

00:14:18,230 --> 00:14:23,029  
what on earth are you wearing those

258  
00:14:20,450 --> 00:14:24,530  
trousers are not standard issue no sir

259  
00:14:23,029 --> 00:14:29,299  
but they should be I designed them

260  
00:14:24,529 --> 00:14:30,980  
myself I call them solar flares hey wait

261  
00:14:29,299 --> 00:14:33,139  
wait haven't finished if you think my

262  
00:14:30,980 --> 00:14:39,440  
solar flares are good wait do you see my

263  
00:14:33,139 --> 00:14:40,970  
Van Allen belt yeah fine now can you get

264  
00:14:39,440 --> 00:14:43,490  
us down to the planet and how many

265  
00:14:40,970 --> 00:14:46,430  
pieces were you thinking kept as few as

266  
00:14:43,490 --> 00:14:48,169  
possible well I can try okay everybody

267  
00:14:46,429 --> 00:14:50,269  
follow me into the shuttle bay watch

268  
00:14:48,169 --> 00:14:52,969  
your heads and bring some sick bags Oh

269  
00:14:50,269 --> 00:14:55,340  
today's in-flight movie is storm force

270  
00:14:52,970 --> 00:14:57,910  
with George rub no one knows I

271  
00:14:55,340 --> 00:14:57,910

downloaded it

272

00:15:09,580 --> 00:15:14,470

attention crew guests and any huge

273

00:15:12,190 --> 00:15:17,140

hikers the next shuttle will be leaving

274

00:15:14,470 --> 00:15:20,560

from shuttle bay 86 in five minutes

275

00:15:17,139 --> 00:15:27,460

stopping at the w class plant shuttle

276

00:15:20,559 --> 00:15:30,429

insurance is recommended right everyone

277

00:15:27,460 --> 00:15:32,050

buckle up back there yes dad right all I

278

00:15:30,429 --> 00:15:33,819

have to do is enter the starting code

279

00:15:32,049 --> 00:15:36,370

into the computer within the next 60

280

00:15:33,820 --> 00:15:38,530

seconds or the automatic safety system

281

00:15:36,370 --> 00:15:41,200

kicks in and we're going nowhere I take

282

00:15:38,529 --> 00:15:43,870

it you know the code know the code know

283

00:15:41,200 --> 00:15:46,780

the code captain this code is vital to

284

00:15:43,870 --> 00:15:49,269

my job I haven't seen into my brain and

285

00:15:46,779 --> 00:15:51,059

written across my heart there's no way I

286

00:15:49,269 --> 00:15:55,929

could ever forget it that's good to know

287

00:15:51,059 --> 00:16:07,869

what is the code anyway um ask there's a

288

00:15:55,929 --> 00:16:12,729

G in there g gu trying to steal the

289

00:16:07,870 --> 00:16:14,500

shuttle oh darling please respond within

290

00:16:12,730 --> 00:16:25,480

10 seconds or the shuttle will be

291

00:16:14,500 --> 00:16:35,629

disabled hello computer i think it has a

292

00:16:25,480 --> 00:16:40,340

G in it yes oh yeah t 0

293

00:16:35,629 --> 00:16:48,409

why oops backspace okay t um I think

294

00:16:40,340 --> 00:16:53,870

there was an ass okay okay backspace ah

295

00:16:48,409 --> 00:16:58,429

there it is yes it's not my fault this

296

00:16:53,870 --> 00:17:03,049

keyboard has a spooky action thanks

297

00:16:58,429 --> 00:17:09,318

computer I owe you one now to start the

298

00:17:03,049 --> 00:17:10,549

engine come on baby come on come on Suze

299

00:17:09,318 --> 00:17:15,109

is a carburetor and this is something

300  
00:17:10,549 --> 00:17:17,709  
gone baby hey that's not what he said

301  
00:17:15,109 --> 00:17:17,708  
last time

302  
00:17:18,199 --> 00:17:22,419  
hey Matt Matt yeah

303  
00:17:23,439 --> 00:17:27,919  
hey commander Yes Doctor I've never been

304  
00:17:26,480 --> 00:17:30,019  
in a shuttle with a mirror ball and

305  
00:17:27,919 --> 00:17:31,640  
carpet on ceiling before yes they match

306  
00:17:30,019 --> 00:17:34,400  
the fuzzy dice hanging from the rearview

307  
00:17:31,640 --> 00:17:39,340  
scope and the plastic dancing hula girl

308  
00:17:34,400 --> 00:17:39,340  
on the dash ah and look here a minibar

309  
00:17:41,079 --> 00:17:48,740  
cheers everyone ah the only way to fly

310  
00:17:45,980 --> 00:17:52,750  
hey how about some mood music computer

311  
00:17:48,740 --> 00:17:52,750  
play me some funky tunes

312  
00:18:01,970 --> 00:18:07,370  
under the universe I'll look comes cross

313  
00:18:04,490 --> 00:18:09,799  
your face you try to battle distances of

314

00:18:07,369 --> 00:18:11,989  
all the stuff in space but you can't

315  
00:18:09,799 --> 00:18:14,539  
wrap the makin of your mind around the

316  
00:18:11,990 --> 00:18:18,230  
beacon of all the terms required to

317  
00:18:14,539 --> 00:18:20,589  
describe how big is big so let me get

318  
00:18:18,230 --> 00:18:24,329  
specific

319  
00:18:20,589 --> 00:18:28,889  
and use word scientific

320  
00:18:24,329 --> 00:18:31,519  
go without your thesaurus for this

321  
00:18:28,890 --> 00:18:31,519  
exacting

322  
00:18:32,069 --> 00:18:37,579  
stop this farce

323  
00:18:34,558 --> 00:18:37,579  
custom is far more

324  
00:18:38,400 --> 00:18:43,830  
you there by Carla today and some

325  
00:18:41,380 --> 00:18:45,620  
see former to sponsor

326  
00:18:43,829 --> 00:18:49,299  
it's more

327  
00:18:45,619 --> 00:18:49,299  
there's some doubts to a shower

328  
00:18:52,028 --> 00:18:57,359

is four stars

329

00:18:54,900 --> 00:19:00,150

I sense all the explosions going off

330

00:18:57,359 --> 00:19:03,419

inside your brain is your mind is blown

331

00:19:00,150 --> 00:19:06,780

by what I just did explain sorry if my

332

00:19:03,420 --> 00:19:08,759

words my drive you all insane but that's

333

00:19:06,779 --> 00:19:13,849

what happens when precision is your

334

00:19:08,759 --> 00:19:17,440

middle name so in that exacting vector

335

00:19:13,849 --> 00:19:17,439

like some cycling tour

336

00:19:17,798 --> 00:19:25,660

using details quite Samantha

337

00:19:20,680 --> 00:19:25,660

I'll show how huge is this gigantic

338

00:19:25,890 --> 00:19:31,429

we stopped the spa

339

00:19:28,200 --> 00:19:31,429

far far away

340

00:19:31,940 --> 00:19:40,429

hang in there by carnal way super

341

00:19:35,940 --> 00:19:40,429

quasar as it stars out yet or harm

342

00:19:44,419 --> 00:19:50,080

he concise way

343  
00:19:47,058 --> 00:19:50,079  
if I just

344  
00:20:01,329 --> 00:20:07,399  
then I have offered up some ecosystems

345  
00:20:04,539 --> 00:20:10,099  
and having caused your ticker too much

346  
00:20:07,400 --> 00:20:13,610  
ventricle resistance she have got to

347  
00:20:10,099 --> 00:20:18,279  
listen and trust my insistence I am very

348  
00:20:13,609 --> 00:20:18,279  
accurately describing the distance

349  
00:20:19,869 --> 00:20:24,709  
stop the spa

350  
00:20:21,630 --> 00:20:24,710  
the smaller more

351  
00:20:29,009 --> 00:20:32,809  
just false are three stars and star

352  
00:20:33,180 --> 00:20:37,400  
some Mouse poo showers toughest part

353  
00:20:41,009 --> 00:20:44,059  
pretty far

354  
00:20:51,470 --> 00:20:57,298  
entering atmosphere now and coming some

355  
00:20:54,630 --> 00:20:59,400  
purple haze or rough hide might get

356  
00:20:57,298 --> 00:21:01,470  
bumpy do I pay back there tighten up

357  
00:20:59,400 --> 00:21:03,269  
those belts rumba quick quack front and

358  
00:21:01,470 --> 00:21:05,870  
back especially front you seen the way I

359  
00:21:03,269 --> 00:21:05,869  
fly this thing

360  
00:21:10,839 --> 00:21:16,569  
a shuttle computer needs a sick bag

361  
00:21:17,660 --> 00:21:23,960  
scanning for landing site

362  
00:21:20,839 --> 00:21:26,480  
there I see it clearing in that swamp

363  
00:21:23,960 --> 00:21:28,490  
set it down there mr. Manor in a swamp

364  
00:21:26,480 --> 00:21:31,720  
oh well it worked for Luke Skywalker

365  
00:21:28,490 --> 00:21:31,720  
okay hang on everybody

366  
00:21:40,278 --> 00:21:45,509  
saunders and main hard first served

367  
00:21:42,778 --> 00:21:48,419  
together 12 years earlier on the British

368  
00:21:45,509 --> 00:21:51,329  
space battle cruiser slack under the

369  
00:21:48,419 --> 00:21:53,250  
command of captain Michael Marshall in

370  
00:21:51,329 --> 00:21:56,599  
those days Saunders was an up-and-coming

371

00:21:53,250 --> 00:22:00,000  
officer than Maynard was a trainee cook

372  
00:21:56,599 --> 00:22:01,490  
but then came the bad times the attack

373  
00:22:00,000 --> 00:22:05,190  
on the settlement of new Sydney

374  
00:22:01,490 --> 00:22:07,798  
throughout the long battle Saunders kept

375  
00:22:05,190 --> 00:22:11,580  
his nerve while Maynard saved his bacon

376  
00:22:07,798 --> 00:22:14,308  
and eggs and chocolate pudding when all

377  
00:22:11,579 --> 00:22:18,750  
was lost Saunders and manor heart with a

378  
00:22:14,308 --> 00:22:21,509  
first to the escape pod imagine that it

379  
00:22:18,750 --> 00:22:26,359  
was then that may not discovered that he

380  
00:22:21,509 --> 00:22:26,359  
was a far better cook but he was a pilot

381  
00:22:33,548 --> 00:22:35,609  
you

382  
00:22:42,919 --> 00:22:50,340  
are we all that we all that okay mr.

383  
00:22:47,638 --> 00:22:53,008  
Maynard that is the first time I've seen

384  
00:22:50,339 --> 00:22:56,788  
somebody reverse Parker shuttle nice

385  
00:22:53,009 --> 00:22:59,429

work Thank You captain captain I'm

386

00:22:56,788 --> 00:23:01,798

picking up a strange energy signature it

387

00:22:59,429 --> 00:23:04,979

is not showing up on my field sensor is

388

00:23:01,798 --> 00:23:08,098

it north wait a minute mr. Soyka wait

389

00:23:04,979 --> 00:23:10,528

you have no idea what a long-range

390

00:23:08,098 --> 00:23:13,168

scanner scope is but this field sensor

391

00:23:10,528 --> 00:23:15,088

is no problem for you yeah I got this

392

00:23:13,169 --> 00:23:17,489

for my service provider and it came with

393

00:23:15,088 --> 00:23:20,398

this great app that not only scans but

394

00:23:17,489 --> 00:23:22,319

also has a free Wi-Fi cooler and this

395

00:23:20,398 --> 00:23:24,778

button lets you order a pizza and in

396

00:23:22,319 --> 00:23:27,118

this button lets all right all right now

397

00:23:24,778 --> 00:23:31,259

what were you saying about this strange

398

00:23:27,118 --> 00:23:33,808

energy it's not here see nothing is

399

00:23:31,259 --> 00:23:36,058

showing up on a sensor at all so you're

400  
00:23:33,808 --> 00:23:39,749  
telling us that there's a strange energy

401  
00:23:36,058 --> 00:23:43,168  
that you cannot detect yep so how do you

402  
00:23:39,749 --> 00:23:45,960  
know it's there I can I can just sort of

403  
00:23:43,169 --> 00:23:48,419  
feel it just because this sensor with

404  
00:23:45,960 --> 00:23:51,179  
its so-called technology cannot detect

405  
00:23:48,419 --> 00:23:53,429  
it doesn't mean it's not there science

406  
00:23:51,179 --> 00:23:55,919  
doesn't know everything you know I mean

407  
00:23:53,429 --> 00:24:00,359  
how can you measure love you can't oh

408  
00:23:55,919 --> 00:24:03,028  
I've never thought so balanced shark was

409  
00:24:00,358 --> 00:24:04,439  
a real you know mr. Soyka I think you

410  
00:24:03,028 --> 00:24:07,138  
might be succumbing to the effects of

411  
00:24:04,440 --> 00:24:09,058  
being on this whoo class planet don't

412  
00:24:07,138 --> 00:24:12,028  
lose your grip on reality everybody

413  
00:24:09,058 --> 00:24:14,940  
remember think rationally and keep your

414  
00:24:12,028 --> 00:24:19,409  
wits about you whips yeah I always keep

415  
00:24:14,940 --> 00:24:22,140  
mine handy wits mr. Maynard weeks put

416  
00:24:19,409 --> 00:24:24,060  
that away sorry

417  
00:24:22,140 --> 00:24:26,820  
captain I'm getting another unknown

418  
00:24:24,059 --> 00:24:31,740  
energy reading we may experience time

419  
00:24:26,819 --> 00:24:34,169  
distortion it's very localized Wow hey I

420  
00:24:31,740 --> 00:24:37,049  
can feel it wow it's either absorbance

421  
00:24:34,170 --> 00:24:38,490  
torsional last night's dinner Nina I

422  
00:24:37,049 --> 00:24:40,799  
don't think you have ever sounded better

423  
00:24:38,490 --> 00:24:43,440  
hair for lice gesture has nuclear

424  
00:24:40,799 --> 00:24:45,450  
business how he hits the wall through

425  
00:24:43,440 --> 00:24:47,220  
its new captain else because he's no

426  
00:24:45,450 --> 00:24:49,769  
bleep you know my I couldn't have put it

427  
00:24:47,220 --> 00:24:51,539  
any better myself commander captain we

428

00:24:49,769 --> 00:24:53,609  
need to take action fast these time

429  
00:24:51,539 --> 00:24:55,170  
distortions could drive us insane I have

430  
00:24:53,609 --> 00:24:56,729  
brought some whoo's vaccination shots so

431  
00:24:55,170 --> 00:25:06,509  
now line up everybody and I'll inoculate

432  
00:24:56,730 --> 00:25:08,339  
you now that's better thank you dr.

433  
00:25:06,509 --> 00:25:20,339  
ricci now make sure you vaccinate

434  
00:25:08,339 --> 00:25:24,539  
everybody oh look look up in the sky

435  
00:25:20,339 --> 00:25:26,789  
what the hell are those oh no flying

436  
00:25:24,539 --> 00:25:28,470  
monkeys from the Bangalow dimension they

437  
00:25:26,789 --> 00:25:31,230  
come screaming out of nowhere as soon as

438  
00:25:28,470 --> 00:25:37,049  
anyone mentions vaccinations kuthaa

439  
00:25:31,230 --> 00:25:39,210  
lasers on anything but stun you i miss

440  
00:25:37,049 --> 00:25:41,789  
captain as soon as they hit they come

441  
00:25:39,210 --> 00:25:43,860  
right back it's almost as if you're too

442  
00:25:41,789 --> 00:25:45,779

stupid to even know they've been shot

443

00:25:43,859 --> 00:25:47,399

down in flames you have to run for it

444

00:25:45,779 --> 00:25:49,910

head for that menacing-looking cave

445

00:25:47,400 --> 00:25:49,910

everybody

446

00:25:57,019 --> 00:26:03,299

flying monkeys were once a plague in

447

00:26:00,150 --> 00:26:05,820

almost every civilized society in this

448

00:26:03,299 --> 00:26:08,430

part of the galaxy they are fiercely

449

00:26:05,819 --> 00:26:11,220

opposed to science and reason and rely

450

00:26:08,430 --> 00:26:13,850

heavily on fear and superstition in

451

00:26:11,220 --> 00:26:17,009

order to survive and recruit new members

452

00:26:13,849 --> 00:26:20,339

in all the universe they are the only

453

00:26:17,009 --> 00:26:22,529

species ever known to actually shoot

454

00:26:20,339 --> 00:26:24,959

themselves in the foot while their foot

455

00:26:22,529 --> 00:26:27,599

was in their mouth after being laughed

456

00:26:24,960 --> 00:26:31,079

off planet after planet they finally

457  
00:26:27,599 --> 00:26:34,889  
found their true home and now infest woo

458  
00:26:31,079 --> 00:26:37,859  
class planets but our fearless crew who

459  
00:26:34,890 --> 00:26:39,900  
are all really quite scared aren't about

460  
00:26:37,859 --> 00:26:43,079  
to underestimate the danger to their

461  
00:26:39,900 --> 00:26:45,560  
sanity and run deep into the cave to

462  
00:26:43,079 --> 00:26:45,559  
escape

463  
00:26:53,430 --> 00:26:59,920  
right that's far enough I think I think

464  
00:26:57,220 --> 00:27:02,380  
we're safe for the moment mr. Maynard

465  
00:26:59,920 --> 00:27:04,750  
break out the emergency lights from your

466  
00:27:02,380 --> 00:27:16,840  
kid would you radio I think you're gonna

467  
00:27:04,750 --> 00:27:18,400  
like this disco lights yeah each color

468  
00:27:16,839 --> 00:27:20,829  
scans a different wavelength of the

469  
00:27:18,400 --> 00:27:24,759  
visible spectrum the perfect union of

470  
00:27:20,829 --> 00:27:26,500  
science and love careful everyone the

471  
00:27:24,759 --> 00:27:30,970  
walls are covered with poisonous moss

472  
00:27:26,500 --> 00:27:35,769  
poisonous moss I don't like in it who's

473  
00:27:30,970 --> 00:27:40,839  
doing that look over there some shadows

474  
00:27:35,769 --> 00:27:44,680  
showing up on the wall and my scanner

475  
00:27:40,839 --> 00:27:51,490  
now detects two humanoid life-forms look

476  
00:27:44,680 --> 00:27:54,940  
you can see them now captain my psychic

477  
00:27:51,490 --> 00:27:59,470  
powers tell me that um yeah they tell me

478  
00:27:54,940 --> 00:28:02,529  
we're not alone yes thank you instant

479  
00:27:59,470 --> 00:28:06,039  
first open again your powers just amaze

480  
00:28:02,529 --> 00:28:10,119  
me right everyone lasers on super kill

481  
00:28:06,039 --> 00:28:12,609  
come out whoever you are yoshi's captain

482  
00:28:10,119 --> 00:28:16,109  
I know those voices it's undercover

483  
00:28:12,609 --> 00:28:19,209  
agents Ben amoo and suggest your AG ah

484  
00:28:16,109 --> 00:28:21,339  
Thank Jareth we've been stranded on this

485

00:28:19,210 --> 00:28:23,170  
planet for days we were on a secret

486  
00:28:21,339 --> 00:28:25,179  
mission to find the homeopathic molecule

487  
00:28:23,170 --> 00:28:27,490  
well they say there's one in every

488  
00:28:25,180 --> 00:28:30,160  
galaxy but we were attacked by a spambot

489  
00:28:27,490 --> 00:28:31,839  
just near asteroid Watson a shuttle

490  
00:28:30,160 --> 00:28:33,700  
crash-landed into the swamp and we were

491  
00:28:31,839 --> 00:28:36,189  
chased into this cave by weird flying

492  
00:28:33,700 --> 00:28:38,110  
monkeys we tried reasoning with him but

493  
00:28:36,190 --> 00:28:41,259  
he'd only made the matter and we ran out

494  
00:28:38,109 --> 00:28:43,959  
of food reality bites but we haven't do

495  
00:28:41,259 --> 00:28:47,859  
you really not know we thought you might

496  
00:28:43,960 --> 00:28:50,110  
have some enough with these norms ha yes

497  
00:28:47,859 --> 00:28:51,779  
talk captain we have found the

498  
00:28:50,109 --> 00:28:54,159  
undercover covers with the secret plans

499  
00:28:51,779 --> 00:28:55,629

after decoding the plans we discovered

500

00:28:54,160 --> 00:28:57,460

the covers are covered with details on

501

00:28:55,630 --> 00:28:59,770

how to construct a new and even more

502

00:28:57,460 --> 00:29:02,319

powerful power band band with extra

503

00:28:59,769 --> 00:29:03,079

power strength and flexibility here's

504

00:29:02,319 --> 00:29:05,359

one I made early

505

00:29:03,079 --> 00:29:13,129

but please take it with a grain of salt

506

00:29:05,359 --> 00:29:14,329

ooh let me try it on yeah looks nice but

507

00:29:13,130 --> 00:29:16,399

I thought we'd see the end of these

508

00:29:14,329 --> 00:29:18,710

power bands guess they like the flying

509

00:29:16,398 --> 00:29:21,018

monkeys they just keep coming back we

510

00:29:18,710 --> 00:29:24,169

also found out this band sells for 160

511

00:29:21,019 --> 00:29:25,880

Randy's which converts to 343 growth is

512

00:29:24,169 --> 00:29:28,788

around nine hundred and forty-seven

513

00:29:25,880 --> 00:29:32,960

point force weepies ah oh how much is

514  
00:29:28,788 --> 00:29:38,648  
that in quibble it's let me see that's

515  
00:29:32,960 --> 00:29:43,519  
about twenty eight new quibbling sword

516  
00:29:38,648 --> 00:29:46,428  
12900 47.8 six in old couples well I

517  
00:29:43,519 --> 00:29:50,210  
think that converts to about 484 goblets

518  
00:29:46,429 --> 00:29:52,309  
give or take a Glick or two Wow well I

519  
00:29:50,210 --> 00:29:54,500  
know what I'm saving up for good work

520  
00:29:52,308 --> 00:29:56,480  
agents now let's get back to the shuttle

521  
00:29:54,500 --> 00:29:59,028  
but what about those flying monkeys

522  
00:29:56,480 --> 00:30:00,649  
didn't you see those fangs it's all

523  
00:29:59,028 --> 00:30:02,720  
right commander on our way through the

524  
00:30:00,648 --> 00:30:04,879  
cave I used my new mega handheld

525  
00:30:02,720 --> 00:30:07,009  
interstellar web browser and wrote a

526  
00:30:04,880 --> 00:30:09,919  
livid blog about them and tweeted it and

527  
00:30:07,009 --> 00:30:11,509  
yes they are madly replying that will

528  
00:30:09,919 --> 00:30:13,460  
keep them busy for hours and should give

529  
00:30:11,509 --> 00:30:15,710  
us time to make it back to the shuttle a

530  
00:30:13,460 --> 00:30:19,340  
new mega handheld into still a web

531  
00:30:15,710 --> 00:30:21,590  
browser how did you afford that my check

532  
00:30:19,339 --> 00:30:24,908  
from Big Pharma can't throw it last all

533  
00:30:21,589 --> 00:30:24,908  
right let's get out of here

534  
00:30:34,960 --> 00:30:40,039  
right over their head for the shuttle

535  
00:30:37,730 --> 00:30:43,190  
mr. Maynard get it ready for flight

536  
00:30:40,039 --> 00:30:46,700  
right captain wait a minute look at the

537  
00:30:43,190 --> 00:30:50,360  
swamp grass oh you like it sucks be at

538  
00:30:46,700 --> 00:30:54,200  
least 51 shades of gray and it smells

539  
00:30:50,359 --> 00:30:57,079  
like Krabby legs like the ones I used to

540  
00:30:54,200 --> 00:31:00,019  
catch off the south point look at these

541  
00:30:57,079 --> 00:31:02,179  
readings AHA I knew it this swamp grass

542

00:31:00,019 --> 00:31:05,079  
is edible I'll just collect some you

543  
00:31:02,180 --> 00:31:10,820  
never know when it might come in handy

544  
00:31:05,079 --> 00:31:15,439  
and well nom is a non my suppose hmm

545  
00:31:10,819 --> 00:31:17,720  
could be worse Oh could be better grace

546  
00:31:15,440 --> 00:31:20,660  
swamp grass that smells like Krabby legs

547  
00:31:17,720 --> 00:31:23,839  
I think I'll stick to my buffer juice

548  
00:31:20,660 --> 00:31:26,660  
beetle balance 12 waffles all Ebola

549  
00:31:23,839 --> 00:31:29,709  
coffee Vicky Lynn barracks my chocolate

550  
00:31:26,660 --> 00:31:32,900  
lettuce and after soup n clickin della

551  
00:31:29,710 --> 00:31:34,940  
google it folks she's speaking in

552  
00:31:32,900 --> 00:31:39,250  
tongues again the shadows ready captain

553  
00:31:34,940 --> 00:31:39,250  
Tucker everybody time to go

554  
00:31:43,348 --> 00:31:48,158  
the return trip took longer than

555  
00:31:45,969 --> 00:31:50,830  
expected owing to the extra weight of

556  
00:31:48,159 --> 00:31:54,309

agents Ben amoo and say give and the

557

00:31:50,829 --> 00:31:57,308

bags of smelly grey swamp graphs to pass

558

00:31:54,308 --> 00:32:03,308

the time the krupal pegs on their noses

559

00:31:57,308 --> 00:32:07,269

and watch reruns of ancient aliens they

560

00:32:03,308 --> 00:32:10,719

laughed all the way back once onboard

561

00:32:07,269 --> 00:32:17,048

the solar flare Captain Saunders knew

562

00:32:10,719 --> 00:32:20,038

what he had to do right we need to get

563

00:32:17,048 --> 00:32:22,898

this power band back to Admiral Roy

564

00:32:20,038 --> 00:32:25,118

hello engineering chant hare captain

565

00:32:22,898 --> 00:32:30,008

chief chan we need to get back to earth

566

00:32:25,118 --> 00:32:32,558

I need up 36 now talk 36 that's

567

00:32:30,009 --> 00:32:36,489

impossible no starship can go that fast

568

00:32:32,558 --> 00:32:38,079

how about dub 35 not even 35 the only

569

00:32:36,489 --> 00:32:40,838

way to get to earth anytime soon is to

570

00:32:38,079 --> 00:32:42,999

dive forwards into a black hole but it's

571  
00:32:40,838 --> 00:32:45,989  
a big gamble we could end up anywhere or

572  
00:32:42,999 --> 00:32:48,848  
anyone or crushed into nothing chan out

573  
00:32:45,989 --> 00:32:51,848  
captain we could try flying backwards

574  
00:32:48,848 --> 00:32:55,678  
around a white bump commander white

575  
00:32:51,848 --> 00:32:55,678  
bumps haven't been discovered yet

576  
00:32:56,539 --> 00:33:03,500  
captain a a giant ship is disrobing 10

577  
00:33:00,859 --> 00:33:06,259  
kilometers off our port bow disrobing

578  
00:33:03,500 --> 00:33:09,589  
yeah well everyone says decloaking i

579  
00:33:06,259 --> 00:33:11,930  
like to be original let's see we need to

580  
00:33:09,589 --> 00:33:15,349  
make contact ring them up ring them up I

581  
00:33:11,930 --> 00:33:17,529  
like to be original okay connecting the

582  
00:33:15,349 --> 00:33:17,529  
call

583  
00:33:26,130 --> 00:33:33,520  
well hello well if it isn't my old enemy

584  
00:33:30,759 --> 00:33:35,769  
captain j novella scourge of the seven

585  
00:33:33,519 --> 00:33:38,319  
dimensions looter of peroxy I've

586  
00:33:35,769 --> 00:33:41,319  
mastermind behind the massacre at the

587  
00:33:38,319 --> 00:33:45,159  
settlement of new Sydney and wanted on

588  
00:33:41,319 --> 00:33:48,909  
23 planets for voiceover work nice to

589  
00:33:45,160 --> 00:33:51,759  
see you too Captain Saunders now I think

590  
00:33:48,910 --> 00:33:54,220  
you have something I want captain I bet

591  
00:33:51,759 --> 00:33:57,369  
he wants the secret power band plans you

592  
00:33:54,220 --> 00:34:00,339  
have secret power band plans that was

593  
00:33:57,369 --> 00:34:03,519  
only after your supply of noms but I'll

594  
00:34:00,339 --> 00:34:06,189  
tell you what hand over the plans or

595  
00:34:03,519 --> 00:34:08,980  
I'll blast your ship into a thousand

596  
00:34:06,190 --> 00:34:11,230  
pieces never if these plans fall into

597  
00:34:08,980 --> 00:34:13,148  
the wrong hands the universe could be

598  
00:34:11,230 --> 00:34:16,869  
awash with fake power bands that don't

599

00:34:13,148 --> 00:34:19,449  
even work ah the universe is already

600  
00:34:16,869 --> 00:34:24,039  
awash with fake power bands that don't

601  
00:34:19,449 --> 00:34:26,579  
even work you fool new year so one more

602  
00:34:24,039 --> 00:34:30,329  
won't hurt and I can make a fortune

603  
00:34:26,579 --> 00:34:30,329  
prepare to be boarded

604  
00:34:30,610 --> 00:34:38,050  
major alert fire old zappers zappers I

605  
00:34:35,019 --> 00:34:39,789  
mean really zappers well you try coming

606  
00:34:38,050 --> 00:34:42,700  
up with a new name for is sapping type

607  
00:34:39,789 --> 00:34:44,889  
shooting beam the sappers are offline

608  
00:34:42,699 --> 00:34:46,089  
we've forgot to plug in the charger last

609  
00:34:44,889 --> 00:34:47,769  
night you know you only get eight hours

610  
00:34:46,090 --> 00:34:49,059  
out on that most under you get that one

611  
00:34:47,769 --> 00:34:51,369  
bother it like we went to bed early

612  
00:34:49,059 --> 00:35:06,639  
great give me do whatever you can and

613  
00:34:51,369 --> 00:35:08,889

let's get the hell out of here for three

614

00:35:06,639 --> 00:35:10,869

days the solar flare plowed through

615

00:35:08,889 --> 00:35:12,849

space always just out of reach of

616

00:35:10,869 --> 00:35:16,539

captain Jane of Allah and His mighty

617

00:35:12,849 --> 00:35:19,000

starship the DeAngelis after exhausting

618

00:35:16,539 --> 00:35:21,909

every trick in Phil plates bad flying

619

00:35:19,000 --> 00:35:25,659

manual they finally gave novela the slip

620

00:35:21,909 --> 00:35:32,859

by flying backwards around a white bump

621

00:35:25,659 --> 00:35:36,009

no ha you see nice flying mr. Saiga that

622

00:35:32,860 --> 00:35:38,230

white bump has taken us within a hundred

623

00:35:36,010 --> 00:35:40,780

thousand kilometers of earth well I

624

00:35:38,230 --> 00:35:43,059

credit the powerband you know I haven't

625

00:35:40,780 --> 00:35:47,490

taken it off for days Oh it'll be nice

626

00:35:43,059 --> 00:35:47,489

to be home again I miss those earth noms

627

00:35:51,440 --> 00:35:56,760

captain we've been exact by the zapper

628  
00:35:55,050 --> 00:35:59,519  
damage reports are coming in from all

629  
00:35:56,760 --> 00:36:01,710  
decks damage reports and only just

630  
00:35:59,519 --> 00:36:03,780  
happened you telling me that on each

631  
00:36:01,710 --> 00:36:05,460  
deck some poor crew members made an

632  
00:36:03,780 --> 00:36:07,230  
assessment of the damage and found time

633  
00:36:05,460 --> 00:36:09,659  
to write a report about it within a few

634  
00:36:07,230 --> 00:36:13,010  
seconds yeah isn't the future wonderful

635  
00:36:09,659 --> 00:36:16,409  
call coming in captain don't speaker

636  
00:36:13,010 --> 00:36:18,330  
attention solar flare lower all defenses

637  
00:36:16,409 --> 00:36:21,089  
hand over the Power Man or the entire

638  
00:36:18,329 --> 00:36:23,250  
fleet will open fire Admiral Roy what

639  
00:36:21,090 --> 00:36:24,510  
don't be too surprised Saunders do you

640  
00:36:23,250 --> 00:36:27,869  
know how much they pay me to be an

641  
00:36:24,510 --> 00:36:29,580  
admiral do ya huh not bloody much I had

642  
00:36:27,869 --> 00:36:31,380  
a much better offer from Captain Janeway

643  
00:36:29,579 --> 00:36:32,819  
Vella the whole planet is going into

644  
00:36:31,380 --> 00:36:36,000  
business selling power bands to the

645  
00:36:32,820 --> 00:36:38,190  
galaxy hand it over nimah this is your

646  
00:36:36,000 --> 00:36:43,170  
last chance you've got 10 minutes

647  
00:36:38,190 --> 00:36:44,940  
Admiral Roy out ten minutes that gives

648  
00:36:43,170 --> 00:36:49,860  
us just enough time to come up with an

649  
00:36:44,940 --> 00:36:52,050  
escape plan hello engineering not you

650  
00:36:49,860 --> 00:36:54,240  
again how are the engines you mean

651  
00:36:52,050 --> 00:36:55,769  
what's left of them almost drained we

652  
00:36:54,239 --> 00:36:59,219  
need a new source of power we're dead in

653  
00:36:55,769 --> 00:37:01,079  
the water ah I'm far too stressed now

654  
00:36:59,219 --> 00:37:04,799  
I'm going to have a nice cup of tea and

655  
00:37:01,079 --> 00:37:08,009  
lay down chan out you know we could try

656

00:37:04,800 --> 00:37:09,930  
the power band the panel band you know

657  
00:37:08,010 --> 00:37:11,790  
they don't really have any power don't

658  
00:37:09,929 --> 00:37:13,739  
you it's worth a try captain I mean

659  
00:37:11,789 --> 00:37:16,230  
we've got nothing else have you all lost

660  
00:37:13,739 --> 00:37:17,969  
the plot call as a plot but what you

661  
00:37:16,230 --> 00:37:21,500  
don't know is that I have programmed

662  
00:37:17,969 --> 00:37:23,849  
this band myself with wait for it nano

663  
00:37:21,500 --> 00:37:26,670  
vibrational technology that uses a

664  
00:37:23,849 --> 00:37:29,759  
breakthrough in negative ions that taps

665  
00:37:26,670 --> 00:37:32,490  
into the Chi energy of the biofield of

666  
00:37:29,760 --> 00:37:35,400  
the universal prana spiritual energies

667  
00:37:32,489 --> 00:37:38,159  
that are unknown to science not enough

668  
00:37:35,400 --> 00:37:39,990  
commander not enough you are missing one

669  
00:37:38,159 --> 00:37:42,659  
more ingredient that will combine the

670  
00:37:39,989 --> 00:37:45,119

potential of all those things the most

671

00:37:42,659 --> 00:37:52,259

powerful force in the universe and that

672

00:37:45,119 --> 00:37:53,819

is nom noms yes the power of noms what

673

00:37:52,260 --> 00:37:55,550

do you think drives us to explore

674

00:37:53,820 --> 00:37:58,610

strange new worlds by

675

00:37:55,550 --> 00:38:01,670

untold danger chart the unknown nomming

676

00:37:58,610 --> 00:38:04,670

power dr. Ichi we don't have any noms

677

00:38:01,670 --> 00:38:08,450

you numpty of course we do don't you

678

00:38:04,670 --> 00:38:10,610

remember the swamp grass ah right ok you

679

00:38:08,449 --> 00:38:12,589

and Commander Soyka get those norms get

680

00:38:10,610 --> 00:38:15,849

that power band and head to engineering

681

00:38:12,590 --> 00:38:15,850

aye captain

682

00:38:19,500 --> 00:38:24,659

okay there's engineering is only right

683

00:38:22,119 --> 00:38:28,799

next door they should be there by now

684

00:38:24,659 --> 00:38:33,730

power levels are rising twenty percent

685  
00:38:28,800 --> 00:38:39,070  
forty percent sixty percent eighty

686  
00:38:33,730 --> 00:38:41,889  
percent 103 percent one hundred and

687  
00:38:39,070 --> 00:38:59,980  
fifty percent we have twenty-nine
