

1
00:00:04,910 --> 00:00:12,089
hey what's up fellow believers a minute

2
00:00:07,859 --> 00:00:15,330
I'm Joe and we are the UFO rose and we

3
00:00:12,089 --> 00:00:18,448
are chatting with you live tonight from

4
00:00:15,330 --> 00:00:21,539
the compound the facility of cell a and

5
00:00:18,449 --> 00:00:24,029
we are indeed being patrolled again

6
00:00:21,539 --> 00:00:27,000
you'll hear the trucks drive by

7
00:00:24,028 --> 00:00:29,879
periodically so we do apologize we only

8
00:00:27,000 --> 00:00:32,189
get about what about half an hour play a

9
00:00:29,879 --> 00:00:34,619
night so we get to be up for a half an

10
00:00:32,189 --> 00:00:36,808
hour so thank God Spreker has a free

11
00:00:34,619 --> 00:00:40,530
trial but unfortunately the only little

12
00:00:36,808 --> 00:00:43,890
testify if we can't get everything in we

13
00:00:40,530 --> 00:00:45,329
might just have to do two episodes and

14
00:00:43,890 --> 00:00:51,120
that's okay because there's a lot to

15
00:00:45,329 --> 00:00:52,350
talk about tonight Joe um Bob Lazar you

16
00:00:51,119 --> 00:00:54,538
know what made me think of talking about

17
00:00:52,350 --> 00:00:56,969
Bob Lazar today what article tonight is

18
00:00:54,539 --> 00:00:59,189
in the last podcast you couldn't

19
00:00:56,969 --> 00:01:02,010
distinguish the difference between Bob

20
00:00:59,189 --> 00:01:05,719
Lazar and I Steve just even career yeah

21
00:01:02,009 --> 00:01:08,489
and so I thought hey you know what let's

22
00:01:05,719 --> 00:01:11,459
enlighten our listeners and followers as

23
00:01:08,489 --> 00:01:12,509
well as you my brother Joe maybe it's

24
00:01:11,459 --> 00:01:20,000
time for you to learn a little bit about

25
00:01:12,510 --> 00:01:22,140
Bob Lazar so Bob Lazar is Lazar yes

26
00:01:20,000 --> 00:01:23,609
we're gonna kind of try to keep this as

27
00:01:22,140 --> 00:01:24,750
short as possible about Bob Lazar

28
00:01:23,609 --> 00:01:26,840
because I also do want to talk about

29

00:01:24,750 --> 00:01:28,228
element 115 which is gonna have a bigger

30
00:01:26,840 --> 00:01:30,478
bombshell

31
00:01:28,228 --> 00:01:34,438
I think in the ufology kind of circles

32
00:01:30,478 --> 00:01:38,099
so Bob Lazar is essentially a nuclear

33
00:01:34,438 --> 00:01:39,929
physicist of sorts his background and

34
00:01:38,099 --> 00:01:40,469
credentials are questionable which is

35
00:01:39,930 --> 00:01:42,299
why

36
00:01:40,469 --> 00:01:45,179
Stanton Freeman I guess has some

37
00:01:42,299 --> 00:01:49,020
friction about Bob Lazar story but

38
00:01:45,180 --> 00:01:53,340
nonetheless he was recruited in a

39
00:01:49,019 --> 00:01:56,310
special program which funny enough dr.

40
00:01:53,340 --> 00:01:59,368
Steven Greer calls them you know usaps

41
00:01:56,310 --> 00:02:00,960
which are unacknowledged special access

42
00:01:59,368 --> 00:02:05,519
programs so it was basically a situation

43
00:02:00,959 --> 00:02:08,159

where he was brought in briefed on the

44

00:02:05,519 --> 00:02:11,159

fact that we are not alone

45

00:02:08,159 --> 00:02:13,139

short briefing funny enough Bob I guess

46

00:02:11,159 --> 00:02:17,159

wasn't really that affected by the

47

00:02:13,139 --> 00:02:19,469

briefing he was wondering kind of what

48

00:02:17,159 --> 00:02:21,539

this whole deal was about but they were

49

00:02:19,469 --> 00:02:26,789

really interested in his knowledge about

50

00:02:21,539 --> 00:02:27,870

engines and propulsion and physics so as

51

00:02:26,789 --> 00:02:33,739

he's kind of getting into this facility

52

00:02:27,870 --> 00:02:36,090

he's learning by observation that these

53

00:02:33,740 --> 00:02:43,760

that he's that he's in a situation that

54

00:02:36,090 --> 00:02:46,530

is very very deep and secretive he is oh

55

00:02:43,759 --> 00:02:48,929

by the way guys we're on snapchat he's

56

00:02:46,530 --> 00:02:50,669

started be up topic here that's Joe is

57

00:02:48,930 --> 00:02:52,890

snapping me right now so I've got a

58
00:02:50,669 --> 00:02:55,469
little bit lost but coming back to bob

59
00:02:52,889 --> 00:02:57,539
lazar who there he goes

60
00:02:55,469 --> 00:03:03,740
yep I got my finger up yep check us out

61
00:02:57,539 --> 00:03:07,159
on snapchat at UFO Bros TV so DJ Joe

62
00:03:03,740 --> 00:03:07,159
Donald Joe

63
00:03:12,598 --> 00:03:23,199
so Joe here he is in this briefing room

64
00:03:19,079 --> 00:03:26,099
documents we file folders I guess

65
00:03:23,199 --> 00:03:30,188
probably about a hundred or so that

66
00:03:26,098 --> 00:03:33,310
explain these beings where they come

67
00:03:30,188 --> 00:03:36,250
from which is the Zeta Reticuli star

68
00:03:33,310 --> 00:03:42,938
system this is according to bob lazar

69
00:03:36,250 --> 00:03:46,810
testimony and that this disc that he

70
00:03:42,938 --> 00:03:49,299
will later on see is gonna be from

71
00:03:46,810 --> 00:03:55,389
apparently technology from this star

72
00:03:49,299 --> 00:03:58,000
system so they show him what he later

73
00:03:55,389 --> 00:03:59,919
calls the sport model this beautiful UFO

74
00:03:58,000 --> 00:04:04,299
what we would call a UFO but it's a

75
00:03:59,919 --> 00:04:06,430
flying saucer and his job is to back

76
00:04:04,299 --> 00:04:10,209
engineer the flight and propulsion

77
00:04:06,430 --> 00:04:12,250
systems of this UFO or at this flying

78
00:04:10,209 --> 00:04:13,780
saucer so he's basically going in and

79
00:04:12,250 --> 00:04:16,870
taking it apart that second every piece

80
00:04:13,780 --> 00:04:18,759
his job was his job was to work on an

81
00:04:16,870 --> 00:04:23,379
exotic propulsion system into

82
00:04:18,759 --> 00:04:25,509
back-engineered essentially and so here

83
00:04:23,379 --> 00:04:31,930
he is seeing this flying saucer this

84
00:04:25,509 --> 00:04:34,569
giant disc and not knowing essentially

85
00:04:31,930 --> 00:04:37,598
where it was from until he went inside

86

00:04:34,569 --> 00:04:40,029
of it it wasn't until he stepped inside

87
00:04:37,598 --> 00:04:42,459
or I guess crawled inside more the less

88
00:04:40,029 --> 00:04:44,500
this is flying discs that he realized

89
00:04:42,459 --> 00:04:49,598
that it wasn't from his planet and the

90
00:04:44,500 --> 00:04:53,259
reason being is I guess inside the all

91
00:04:49,598 --> 00:04:56,469
of the interior including the seats the

92
00:04:53,259 --> 00:04:59,860
control panels the walls were all very

93
00:04:56,470 --> 00:05:01,990
seamless there were no seams he said it

94
00:04:59,860 --> 00:05:04,389
was almost like it was why was it a news

95
00:05:01,990 --> 00:05:08,228
P in a piece of metal base yeah just

96
00:05:04,389 --> 00:05:11,470
like one giant mold essentially there

97
00:05:08,228 --> 00:05:13,478
was no like beginning or end it was very

98
00:05:11,470 --> 00:05:16,000
much like it was injected objection

99
00:05:13,478 --> 00:05:18,069
molded or something like that and he

100
00:05:16,000 --> 00:05:19,689

said he got like a really honest feeling

101

00:05:18,069 --> 00:05:23,149

in there like he's not supposed to be in

102

00:05:19,689 --> 00:05:26,300

there just he could feel like

103

00:05:23,149 --> 00:05:29,060

this is not for human beings this is for

104

00:05:26,300 --> 00:05:31,790

smaller creatures these are small seats

105

00:05:29,060 --> 00:05:34,579

maybe these are for children or maybe

106

00:05:31,790 --> 00:05:38,960

these are for you know aliens about 9

107

00:05:34,579 --> 00:05:41,930

feet tall so for about I think it's 4 to

108

00:05:38,959 --> 00:05:46,310

6 months he continues to make I guess

109

00:05:41,930 --> 00:05:48,800

progress on back engineering this crafts

110

00:05:46,310 --> 00:05:52,009

propulsion and find out that these

111

00:05:48,800 --> 00:05:54,110

crafts fly well I guess fly is probably

112

00:05:52,009 --> 00:05:57,759

a bad word but not a bad word but an

113

00:05:54,110 --> 00:06:02,980

incorrect term they use gravity and

114

00:05:57,759 --> 00:06:06,680

manipulate gravity they are able to

115
00:06:02,980 --> 00:06:10,430
essentially manipulate gravity waves to

116
00:06:06,680 --> 00:06:12,470
make the disk fly but it doesn't really

117
00:06:10,430 --> 00:06:16,400
fly it's hard to explain you guys if you

118
00:06:12,470 --> 00:06:18,710
get a minute on YouTube because I myself

119
00:06:16,399 --> 00:06:20,389
I am NOT a nuclear physicist nor am i a

120
00:06:18,709 --> 00:06:25,759
science teacher or anything like that so

121
00:06:20,389 --> 00:06:29,829
purple ray so get a chance go on YouTube

122
00:06:25,759 --> 00:06:32,810
check out what Bob Lazar it is very

123
00:06:29,829 --> 00:06:34,669
interesting yet scientific explanation

124
00:06:32,810 --> 00:06:37,819
of how the disks fly it's really super

125
00:06:34,670 --> 00:06:41,030
cool interesting stuff but the heart at

126
00:06:37,819 --> 00:06:44,659
the heart of it is element 115 so

127
00:06:41,029 --> 00:06:48,919
there's this reactor and inside it is a

128
00:06:44,660 --> 00:06:52,130
wedge of an element called 115 the funny

129
00:06:48,920 --> 00:06:54,560
thing is back in the 80s when Bob Lazar

130
00:06:52,129 --> 00:06:58,699
made his first testimony about working

131
00:06:54,560 --> 00:07:03,250
at area 51 about working at s4 by the

132
00:06:58,699 --> 00:07:05,689
way which is 15 miles south of area 51

133
00:07:03,250 --> 00:07:10,300
in Groom Lake there yeah that's where he

134
00:07:05,689 --> 00:07:13,850
actually technically work was s4 so

135
00:07:10,300 --> 00:07:14,900
where was I going with it I told you he

136
00:07:13,850 --> 00:07:23,150
showed me something totally

137
00:07:14,899 --> 00:07:25,579
inappropriate Joe what's your thoughts

138
00:07:23,149 --> 00:07:27,139
on this guy's testimony because I was

139
00:07:25,579 --> 00:07:33,589
telling you about it earlier do you have

140
00:07:27,139 --> 00:07:35,449
any feedback or no I have got cuz I know

141
00:07:33,589 --> 00:07:37,099
you said it sounds kind of like crazy

142
00:07:35,449 --> 00:07:40,339
but to be honest with you

143

00:07:37,100 --> 00:07:43,370
a story hasn't changed in like since the

144
00:07:40,339 --> 00:07:45,339
80s his story is very hot his story get

145
00:07:43,370 --> 00:07:49,009
out how was he no safe enough to say hey

146
00:07:45,339 --> 00:07:52,009
I'm gonna spill my beans and roll that

147
00:07:49,009 --> 00:07:55,610
beautiful bean footage well listening to

148
00:07:52,009 --> 00:08:00,469
some of his YouTube videos I've learned

149
00:07:55,610 --> 00:08:04,040
that he put the information out so that

150
00:08:00,470 --> 00:08:05,630
a in some ways he feel like the American

151
00:08:04,040 --> 00:08:09,890
public was being defrauded and lied to

152
00:08:05,629 --> 00:08:11,569
and that was totally true but also he

153
00:08:09,889 --> 00:08:14,419
knew that by putting that information

154
00:08:11,569 --> 00:08:17,839
out there it would also potentially save

155
00:08:14,420 --> 00:08:19,069
his life because if you know he puts the

156
00:08:17,839 --> 00:08:21,349
information out there and then

157
00:08:19,069 --> 00:08:24,079

disappears it essentially corroborates

158

00:08:21,350 --> 00:08:25,939

you know what he's saying so in a in

159

00:08:24,079 --> 00:08:27,699

some ways it's a way to save himself if

160

00:08:25,939 --> 00:08:30,980

you get what I'm saying

161

00:08:27,699 --> 00:08:32,990

so that is initially why he put this

162

00:08:30,980 --> 00:08:35,330

story out there but it's been the same

163

00:08:32,990 --> 00:08:37,159

story even up until recently he did an

164

00:08:35,330 --> 00:08:41,090

interview and nothing has changed it's

165

00:08:37,159 --> 00:08:44,870

he was hired his supervisor name was

166

00:08:41,090 --> 00:08:47,560

Dennis they worked on the the the

167

00:08:44,870 --> 00:08:51,669

reactor that was powered by element 115

168

00:08:47,559 --> 00:08:55,009

which at the time was not on the

169

00:08:51,669 --> 00:08:57,620

periodic table it wasn't on the periodic

170

00:08:55,009 --> 00:09:00,230

periodic table and Bob Lazar talked

171

00:08:57,620 --> 00:09:02,960

about how element 115 was crucial to the

172
00:09:00,230 --> 00:09:05,450
flight and the propulsion and the

173
00:09:02,960 --> 00:09:07,580
gravity amplification of the ship and it

174
00:09:05,450 --> 00:09:11,710
was a crucial they may actually mean an

175
00:09:07,580 --> 00:09:14,360
element well I guess this element is

176
00:09:11,710 --> 00:09:16,310
wherever they're from in the Zeta

177
00:09:14,360 --> 00:09:20,690
Reticuli star system it may be it's a

178
00:09:16,309 --> 00:09:24,889
natural element but for us we were able

179
00:09:20,690 --> 00:09:30,260
to recently I think it was in 2003 in

180
00:09:24,889 --> 00:09:32,720
Russia in a in a in a science lab they

181
00:09:30,259 --> 00:09:35,210
were able to create element 115 but it

182
00:09:32,720 --> 00:09:39,529
was only for like a smidge

183
00:09:35,210 --> 00:09:42,590
there's only for a split second what we

184
00:09:39,529 --> 00:09:45,970
were I guess that it still corroborates

185
00:09:42,590 --> 00:09:48,589
the fact that there is an element 115

186
00:09:45,970 --> 00:09:49,759
Bob Lazar his explanation as to why it

187
00:09:48,589 --> 00:09:52,249
just

188
00:09:49,759 --> 00:09:55,188
poofed rather than you know becoming

189
00:09:52,249 --> 00:09:58,519
some kind of millibar piece of metal or

190
00:09:55,188 --> 00:10:02,719
whatnot is there are different isotopes

191
00:09:58,519 --> 00:10:05,448
of elements and somewhere within these

192
00:10:02,720 --> 00:10:08,449
different isotopes of element 115 there

193
00:10:05,448 --> 00:10:11,659
is a stable place where the element is

194
00:10:08,448 --> 00:10:13,539
proposed to be solid so he believes that

195
00:10:11,659 --> 00:10:16,159
sometime in our pretty near future

196
00:10:13,539 --> 00:10:20,748
scientists will stumble upon that that

197
00:10:16,159 --> 00:10:23,509
that isotope of element 115 proving the

198
00:10:20,749 --> 00:10:25,819
fact that it is indeed real and that his

199
00:10:23,509 --> 00:10:28,039
story is real because I'll tell you any

200

00:10:25,818 --> 00:10:31,248
new science information that has come

201
00:10:28,039 --> 00:10:35,088
out has only validated his story he

202
00:10:31,249 --> 00:10:36,649
talks about gravity waves in the 80s

203
00:10:35,089 --> 00:10:40,579
they didn't even know if there was a

204
00:10:36,649 --> 00:10:44,798
gravity wave wave they also proposed

205
00:10:40,578 --> 00:10:47,238
that gravity was a Gravitron

206
00:10:44,798 --> 00:10:49,369
which I guess is nonsense because

207
00:10:47,239 --> 00:10:53,809
recently oh just a couple I think was

208
00:10:49,369 --> 00:10:56,480
last year Joe that they validated that

209
00:10:53,808 --> 00:10:58,999
gravity is indeed a wave they were able

210
00:10:56,480 --> 00:11:01,069
to measure it so that further again I

211
00:10:58,999 --> 00:11:04,389
just think for me corroborates bob lazar

212
00:11:01,068 --> 00:11:06,349
story the fact that in the 80s we were

213
00:11:04,389 --> 00:11:07,448
manipulating gravity waves by

214
00:11:06,350 --> 00:11:11,989

back-engineering

215

00:11:07,448 --> 00:11:14,358

alien technology hello dr. Greer talks

216

00:11:11,989 --> 00:11:16,699

about in the 50s we were able to have

217

00:11:14,359 --> 00:11:20,959

full total control over gravity that was

218

00:11:16,698 --> 00:11:25,368

in the 50s yeah and here we are in the

219

00:11:20,958 --> 00:11:28,038

80s back engineering gravity control

220

00:11:25,369 --> 00:11:32,809

devices it just goes to show how

221

00:11:28,038 --> 00:11:36,879

compartmentalized the black operations

222

00:11:32,808 --> 00:11:40,519

are the way they work they bring you in

223

00:11:36,879 --> 00:11:42,769

you work in such a micro limited scope

224

00:11:40,519 --> 00:11:44,688

you don't get a chance to really work

225

00:11:42,769 --> 00:11:46,639

with other people you don't share your

226

00:11:44,688 --> 00:11:48,738

knowledge it's just a few people

227

00:11:46,639 --> 00:11:52,759

literally working on a very specific

228

00:11:48,739 --> 00:11:55,879

sort of thing and nobody gets to share

229

00:11:52,759 --> 00:11:58,188
anything so this amazing exotic

230

00:11:55,879 --> 00:12:01,200
otherworldly technology isn't getting

231

00:11:58,188 --> 00:12:04,870
the type of scientific analysis it needs

232

00:12:01,200 --> 00:12:07,960
does that make sense yeah what do you

233

00:12:04,870 --> 00:12:09,879
guys think we're on patreon if you want

234

00:12:07,960 --> 00:12:11,560
to support us but we're also chatting on

235

00:12:09,879 --> 00:12:13,779
Spreaker right now so you can log into

236

00:12:11,559 --> 00:12:16,629
the app come chat with us we are on here

237

00:12:13,779 --> 00:12:20,949
say hello we're talking about bob lazar

238

00:12:16,629 --> 00:12:23,110
element 151 115 excuse me and other

239

00:12:20,950 --> 00:12:25,600
things related to that so like gravity

240

00:12:23,110 --> 00:12:27,159
waves for example blows my mind the fact

241

00:12:25,600 --> 00:12:29,800
that we were able to identify

242

00:12:27,159 --> 00:12:31,419
gravity waves back in the 80s back in

243
00:12:29,799 --> 00:12:33,459
the 90s we didn't know what it was now

244
00:12:31,419 --> 00:12:35,250
we know gravity is indeed away but the

245
00:12:33,460 --> 00:12:38,590
one thing too is that we'll be able

246
00:12:35,250 --> 00:12:42,070
technology you know here in the future

247
00:12:38,590 --> 00:12:42,430
we'll be able to easily dissect it you

248
00:12:42,070 --> 00:12:44,910
know

249
00:12:42,429 --> 00:12:46,779
the future because of all the technology

250
00:12:44,909 --> 00:12:48,909
advances and everything you know maybe

251
00:12:46,779 --> 00:12:52,000
make another 10 years might be easier to

252
00:12:48,909 --> 00:12:56,159
dissect that down into something that we

253
00:12:52,000 --> 00:12:57,789
can maybe well I'm waiting for them to

254
00:12:56,159 --> 00:13:00,009
look here's the thing

255
00:12:57,789 --> 00:13:03,849
that's where technology is already been

256
00:13:00,009 --> 00:13:08,080
dispersed among like the military

257

00:13:03,850 --> 00:13:10,480
industrial type complex now it needs to

258
00:13:08,080 --> 00:13:13,060
be distributed to the masses to the

259
00:13:10,480 --> 00:13:14,200
people that sort of technology and I

260
00:13:13,059 --> 00:13:15,669
think I was the thing that bugged Bob

261
00:13:14,200 --> 00:13:18,310
Lazar the most I think that was a thing

262
00:13:15,669 --> 00:13:21,159
that pushing to come out with george

263
00:13:18,309 --> 00:13:26,289
knapp back in the 80s say what he had to

264
00:13:21,159 --> 00:13:28,240
say on you know local news at first he

265
00:13:26,289 --> 00:13:30,089
did it like incognito but then he came

266
00:13:28,240 --> 00:13:32,950
out again and validated his story so

267
00:13:30,090 --> 00:13:35,769
thanks guys so much for listening to us

268
00:13:32,950 --> 00:13:37,030
tonight we're at like less than a minute

269
00:13:35,769 --> 00:13:39,789
and a half so we want to make sure that

270
00:13:37,029 --> 00:13:43,449
we wrap this up letting you know that we

271
00:13:39,789 --> 00:13:45,279

are only limited to 15 minutes so thanks

272

00:13:43,450 --> 00:13:48,720
for listening you can find us on

273
