A combination of elements of hard rock, industrial, and metal infused with lead guitar melodies inspired by violin melodies of Baroque classical composers J. S. Bach and Antonio Vivaldi. Kevin has always had a passion for UFO's, Extra-terrestrials. He spent over 20 years researching to understand why they are here. Kevin wanted to combine his passion of music with raising consciousness and awareness of the UFO and Extraterrestrial presence. He felt it was always his purpose in life. This calling was affirmed on August 21, 2014, when he had contact with an inter-dimensional craft of unearthly origin. Since then Kevin began experiencing many other related incidents like incredible synchronicities, music downloads, symbol downloads through dreams (Neck Illusions DNA Double Helix design on his guitar), and increased Telepathy. His musical downloads are discussed in UFO Researcher Grant Cameron's book "Tuned In: The Paranormal World of Music." Many of Kevin's personal CE5 encounters are discussed in "Inviting ET" by Su Walker. Kevin has become very involved with Sandia Wisdom on Twitter, Extraterrestrials using Twitter, who reside in a complex under the Sandia Mountains of Albuquerque NM. He works very closely with the Sandia ETs. Sandia has given Kevin several 'upgrades' and downloads and has visits from them on a weekly basis. Kevin has been a featured guest on over 40 UFO radio talk shows. Kevin is also the host of Pyramids on Mars UFO Radio on the ArtistFirst network, interviewing Experiencers, Secret Space Program participants, and ET/human Hybrids. Open discussion panel 1994 With: Jacques Vallee Budd Hopkins Professor John Edward Mack Terence McKenna A very interesting discussion for anyone with a serious interest in the UFO Phenomenon. ----- Jacques Fabrice Vallée (born September 24, 1939) is a computer scientist, venture capitalist, author, ufologist and astronomer currently residing in San Francisco, California. In mainstream science, he began his professional life as an astronomer at the Paris Observatory. Vallée co-developed the first computerized map of Mars for NASA in 1963. He later worked on the network information center for the ARPANET, a precursor to the modern Internet, as a staff engineer of SRI International's Augmentation Research Center under Douglas Engelbart. Vallée is also an important figure in the study of unidentified flying objects (UFOs), first noted for a defense of the scientific legitimacy of the extraterrestrial hypothesis and later for promoting the interdimensional hypothesis. ----- Budd Hopkins (June 15, 1931 – August 21, 2011 Manhattan) was an American painter, sculptor, and prominent figure in alien abduction phenomena and related UFO research. Hopkins is often credited with popularizing the idea of alien abductions as genetic experimentation through the publication of his book Intruders. He has been dubbed "father of the abduction movement" by some. Hopkins, along with Dr. Elizabeth Slater who conducted psychological tests of abductees, specifically for the purpose of human reproductive capabilities. In fact, Hopkins was inclined to dismiss his clients' conscious memory of abuse for more alien explanations. He was an alarmist, rather than a spiritualist, in his approach to the alien visitations, believing the visitations to be apocalyptic and that no good could come of these encounters. He described victims' experiences as severe and nightmarish. ----- Professor John Edward Mack M.D. (October 4, 1929 – September 27, 2004) was an American psychiatrist, writer, and professor and department head at Harvard Medical School. In 1976, Mack won the Pulitzer Prize for his book A Prince of Our Disorder on T.E. Lawrence. As the head of psychiatry at Harvard Medical School, Mack's clinical expertise was in child psychology, adolescent psychology, and the psychology of religion. He was also known as a leading researcher on the psychology of teenagers, and he later became a researcher in the psychology of alien abduction experiences. In the early 1990s, Mack commenced a decade plus</p>

Arguably the most popular and known conspiracy theory of Phil Schneider is the Alien Agenda. The engineer conspired that the US government knew about the Alien Agenda in 1933. According to the conspiracy theory, Aliens are supposed to take over the world in 2029. In his notes, Schneider indicates that 16 UFO crashes took place between 1947 and 1952. From the crashes, the US government recovered 117 alien bodies, four of which were alive. The security of the extraterrestrial was handled by a special unit within the military. The unit was named Blue Berets and was part of the Project Pounce. Phil believed that there are seven benevolent alien species currently living on Earth and four evil species. The theory further suggests that the US Government has signed four treaties with the Aliens in 1944, 1954, 1962 and 1979. The treaty in 1954 was signed between the Government and species of Grey Aliens. Schneider believed that the goal of secret military bodies was to protect the Earth from a likely alien invasion. He locates the home of alien bodies in Nebraska and claimed the US Government has piles of wrecked UFOs. Phil went a step further, claiming in some private conversations that he was present at one meeting between high level officials from the United Nations and an alien. The meeting took place in a facility with expensive meeting rooms. Other conspiracy theories Aside from the Alien Agenda, Phil Schneider's material can be broken down into five other conspiracy realities: the black budget, the Dulce Wars, deep underground military bases or DUMB's, Advanced aircraft and the New World Order. From those, the New World Order, that is becoming more and more obvious for an increasing number of people, represents a diabolical plan of the satanic elite. According to his theory, power elites from all around the world will take over and enslave humanity into a dictatorship. The idea is that the New World Order will bring a One Government that will rule over everything. In such world, citizens from all around the world would hand over their freedom and liberties in exchange for protection against terrorist threats. Phil stated there are 107,200 prison boxcars built and they can store more than 15 million individuals who refuse the cause. The Dulce Wars takes place in 1979, when Phil Schneider is part of a drilling operation at Dulce NM. After four shafts have sink, Schneider was appointed to travel down to determine the problem. He claims he discovered a cavern with aliens, and members of the FBI and the black berets were forced to intervene. The remaining three realities: the black budget, deep</p>

She was just 48. Since then, several other people involved in UFO investigation have also experienced threats followed by highly unusual cancers. Several of her case studies are now dead. Karla was widely respected in the UFO community for her research on alien abduction. A scholar and professional educator, she earned a Ph.D. in Old English studies and taught at the university level in Texas for more than ten years. But in 1988, she and her husband and son endured a shocking series of experiences and recollections that forced them to recognize that they were all abductees. Karla's response was to drop her professional university career and turn her full attention to abduction research. Her first book, Into the Fringe (Berkeley Books, 1992), told of her own experiences and those of her family. Her second book, Taken - Inside the Alien-Human Abduction Agenda (Kelt Works, 1994), profiled the abduction stories of eight women whose experiences included both "alien" and human intrusions, and both benign and negative elements, illustrating the profoundly complex nature of the abduction mystery. Her most recent book, Masquerade of Angels (Kelt Works, 1994), was co-written with psychic Ted Rice and recounts Ted's lifelong encounters with strange entities whose identity hovered in a shadowland between angelic and demonic. Karla was working on another book when she became ill in early 1995. UFO CHRONICLES is your source for UFO sightings and fringe sciences.....without the BS. NASA'S LOST TRANSMISSIONS This is a compilation of FAR-UV and INFRARED recordings from the space shuttle and the ISS. Some of this material is extremely rare and you may not have seen it before. The videos are made available by Martyn Stubbs. Without people like Martyn who spent hundreds of hours recording NASA live feed, we will still be in the dark about these matters. This is the kind of film material I consider as compelling evidence that earth is visited. You see UFO come and go. NASA zooms in on them, follows them and somehow this already looks like a routine job for the camera operator. NASA knows exactly when and how to aim cameras at certain positions on Earth as if they are expecting something to happen. On the other hand, so much happens that it is very difficult to miss something. An entire fleet of UFO is swarming around us. So why don't we see them on NASA TV? That is because NASA no longer transmits FAR-UV and IR camera feeds. NASA stopped right after the STS-75 tether incident, which almost exposed NASA. Unfortunately, neither science nor the (international) media showed any interest and bought NASA's absurd explanation that we saw ice-particles. It was THE TIME TO ACT as we caught NASA with their pants down but we did not do anything so they got away with it. Nowadays NASA only allows to view manipulated footage in the visible light spectrum. What is the manipulation you might ask Well, live-transmissions are not LIVE but integral transmissions with 20-30 seconds delay. The gamma and contrast levels have been reduced artificially so we cannot see any objects with faint light in the background. Cameras no longer point towards space but always towards earth and the bigger part of the screen is filled with 3/4 of space-station or equipment. This way the operator, who has a much wider view, does not caught by surprise. During a space-walk in total darkness, colours are re-adjusted and contrast and gamma increased so the UFO are not visible: a reverse - most effective strategy. Instead of beautiful night transmissions, NASA feeds us with hideous regular signal-loss screens. A source at Civil Aviation Authority (CAA) told ProPakistani that on January 18, PIA flight PK 536 took off from Karachi airport at 5:24 pm for Sukkur. After the aircraft was airborne at a distance of 4.7 nautical miles and an altitude 4,300 feet, the pilot spotted a flying object (FO) about 105 feet above the aircraft and reported this to Air Traffic Control (ATC) Karachi. "We saw a FO which was flying about 150 feet above our aircraft. The FO is dark brown or black in color and looks like a spaceship," he said to the ATC. After this, the pilot changed the flight path and continued flying to his destination. This report caused a panic in the aviation industry. Authorities suspected that the FO was a land operated drone. On this suspicion, the CAA reported the incident to the police and asked them to search the area. A police party in the command of SSP Malir Irfan Bahadur started searching the area. "If this was a land operated drone it could come from Super Highway area. Police started the search operation to identify any activity related to this drone." Irfan Bahadur told. It is worth mentioning here that the UFO was spotted in the same area where the laser beam incident was reported by the pilots. Is This a Weather Balloon? This UFO could be a weather balloon because Pakistan Meteorology (Met) Department launches balloons in the air to collect weather data. These balloons are sent in the air four times in 24 hours. In the evening, Met officers launched the balloon in the air at 5 PM. ProPakistani contacted the Met Department Meteorologist Abdul Rasheed and he told that these balloons can go as high as 10 miles. But, he ruled out the possibility that the UFO was a weather forecasting balloon. "Weather forecasting is part of pilots' training and they are familiar with these kinds of balloons," Abdul Rasheed added. UFO CHRONICLES PODCAST	2018-12-19	<a href="https://youtu.be/2OZdXvjBLkc">https://youtu.be/2OZdXvjBLkc</a>	The Secret Pentagon UFO Program	<p>At the end of 2017, the united states department of defense began their subtle declassification processes by slowly declassifying a collection of military documents and research information to the general public. Usually these declassification processes are fraught with financial information, technical documents and references to training programs, government budgets, assistance with other nations or other basic procedures of which do not hold any significant importance outside of technical military information; however, it became apparent very quickly to members amongst the alien community that the declassified files coming from the Pentagon were more than just research and technical information. The files that were slowly being declassified over the course of the previous year and this year detailed information regarding a clandestine team of researchers tasked with gathering information relative to unidentified flying objects and strange extraterrestrial sightings. So today, we will be going over these secret Pentagon files along with the programs findings and significant information discovered. UFO CHRONICLES PODCAST	2018-11-22	<a href="https://youtu.be/gsaAgHq6_04">https://youtu.be/gsaAgHq6_04</a>	MUST SEE! UFO&%2339; S FILMED ON CCTV AT SOUTHAMPT ON AIRPORT	Witness Account: On the 26th August 2005 at 23:45 I was working in Southampton next to the airport as a security officer. It was a beautiful clear and warm summers night and I was just getting ready to start a patrol of my site when a delivery driver arrived at the main gate. Once inside the gates, the driver commented on a strange light that seemed to be following the nearby motorway, as he described this light it appeared in the sky over towards Fords motor company, about 600 ft from where we were standing. As we watched the object crossed the motorway and moved silently over head and behind my building. At this point the driver had unloaded his load and drove off the site, As soon as I had locked the main gates, I returned to my office and spun the CCTV camera's around towards the direction of the light. After a few seconds of searching, I found the object. This is what I filmed. At approximately 6.47am on November 9, the pilot of a British Airways flight, call sign Speedbird94, contacted Shannon Air Traffic Control (ATC) to ask if there were military exercises taking place in the airspace through which her Boeing 787 was passing. There were no military exercises underway. Shannon ATC replied: "There is nothing showing on either primary or secondary [radar]." The pilot responded: "OK. It was moving so fast." The controller then asked: "Alongside you?" The BA pilot, flying from Montreal to Heathrow, describes how the UFO came up along the left-hand side of the aircraft, "then rapidly veered to the north". She said it was "a very bright light" that "disappeared at very high speed". She said they were "wondering" what it could be, that it did not seem to be on a collision course. The pilot of a Virgin Airlines Boeing 747, call sign Virgin76, then joined the conversation and made reference to a meteor or another object re-entering the earth's atmosphere and said there were "multiple objects following the same sort of trajectory". He said they were very bright "where we were". Shannon ATC then asked if the pilots knew which direction the objects were heading. The Virgin Airlines pilot said it was in his "11 o'clock position" with "two bright lights over to the right", that then climbed away at speed. Shannon ATC told the pilot it would pass that information on. Shannon ATC then told Speedbird94 that "other aircraft in the air have also reported the same thing so we are going to have a look and see". Another pilot said the speed of the UFO was "astronomical, it was like Mach 2", or twice the speed of sound. The Virgin Airlines flight, from Orlando to Manchester, can carry 455 passengers, while the 787 has 214 seats. A third aircraft, a Norwegian Air 737 traveling from Stewart, New York, to Shannon, which can carry 200 passengers, was also party to the conversation. The BA flight was passing over Kerry at the time, while the other two flights were off the south-west coast, heading eastbound, and in high-level airspace, which extends from 24,500ft upwards. The Irish Examiner contacted the Irish Aviation Authority to ask if it was investigating the UFO. In a statement, the authority said: "Following reports from a small number of aircraft on Friday, November 9, of unusual air activity, the IAA has filed a report. "This report will be investigated under the normal confidential occurrence investigation process." * THANKS FOR WATCHING * * LIKE! SUBSCRIBE FOR MORE VIDEOS*</p>
