feet above the

11
00:01:37,299 --> 00:01:42,289
welcome to UFO chronicles a place where

12
00:01:40,459 --> 00:01:46,489
people share their experiences of the

13
00:01:42,290 --> 00:01:48,410
strange and unexplained if you've had an

14
00:01:46,489 --> 00:01:52,669
encounter I would like to be on the show

15
00:01:48,409 --> 00:01:59,899
you can email me at UFO chronicles at

16
00:01:52,670 --> 00:02:02,150
gmail.com today's guest Gary doesn't

17
00:01:59,900 --> 00:02:03,710
really need an introduction as he is

18
00:02:02,150 --> 00:02:07,430
very well known in the field of ufology

19
00:02:03,709 --> 00:02:09,439
his interest of UFOs anti-gravity and

20
00:02:07,430 --> 00:02:10,849
the suppression of free energy got him

21
00:02:09,439 --> 00:02:13,669
in a little bit of trouble with the US

22
00:02:10,849 --> 00:02:16,879
government and that is a big

23
00:02:13,669 --> 00:02:19,250
understatement due to conflicting work

24
00:02:16,879 --> 00:02:22,009
schedules Gary was kind enough to give

25
00:02:19,250 --> 00:02:27,500
us the audio for today's podcast please

26
00:02:22,009 --> 00:02:30,079
welcome Gary McKinnon in March of 2002 I

27
00:02:27,500 --> 00:02:32,930
was arrested for hacking into Army Navy

28
00:02:30,080 --> 00:02:36,019
and Air Force computers as well as the

29

00:02:32,930 --> 00:02:37,519
Pentagon and NASA the arresting officers

30
00:02:36,019 --> 00:02:40,039
from the national high-tech crime unit

31
00:02:37,519 --> 00:02:42,950
which is now part of our soccer the

32
00:02:40,039 --> 00:02:44,449
Serious Organised Crime Agency told me

33
00:02:42,949 --> 00:02:47,000
that I'd probably do six months

34
00:02:44,449 --> 00:02:50,629
community service this turned out to be

35
00:02:47,000 --> 00:02:52,269
a highly inaccurate prediction my

36
00:02:50,629 --> 00:02:54,829
arresting officers went to Washington

37
00:02:52,269 --> 00:02:58,069
met with some top brass to discuss my

38
00:02:54,830 --> 00:03:00,110
case and also to illegally hand over my

39
00:02:58,069 --> 00:03:02,479
hard drive to US authorities which

40
00:03:00,110 --> 00:03:03,860
they're still in possession of the

41
00:03:02,479 --> 00:03:05,419
police officers were obviously very

42
00:03:03,860 --> 00:03:07,760
impressed by the military officers

43
00:03:05,419 --> 00:03:09,859

they've met because when they returned

44

00:03:07,759 --> 00:03:11,419
from Washington and interviewed me for

45

00:03:09,860 --> 00:03:13,190
the second time

46

00:03:11,419 --> 00:03:15,339
that a very serious tone about them as

47

00:03:13,189 --> 00:03:17,539
it was a very different ballgame by then

48

00:03:15,340 --> 00:03:21,170
the second interview was in the summer

49

00:03:17,539 --> 00:03:22,759
of 2002 in August I think and in

50

00:03:21,169 --> 00:03:24,559
November of the same year the US

51

00:03:22,759 --> 00:03:26,239
authorities announced that they intended

52

00:03:24,560 --> 00:03:27,300
to actually like me to stand trial in

53

00:03:26,240 --> 00:03:30,659
America

54

00:03:27,300 --> 00:03:32,820
and on paper at least I was facing 70

55

00:03:30,659 --> 00:03:35,639
years in jail which was a far cry from

56

00:03:32,819 --> 00:03:38,370
six-month community service so that was

57

00:03:35,639 --> 00:03:40,859
very shocking at the time they announced

58
00:03:38,370 --> 00:03:42,480
their intention to extradite the

59
00:03:40,860 --> 00:03:44,580
extradition treaty between the UK and

60
00:03:42,479 --> 00:03:46,530
the u.s. required that evidence be

61
00:03:44,580 --> 00:03:48,990
produced for strongly supported the

62
00:03:46,530 --> 00:03:51,930
allegations before a UK citizen could be

63
00:03:48,990 --> 00:03:54,360
taken to the US US citizens were

64
00:03:51,930 --> 00:03:55,860
protected by the Constitution and strong

65
00:03:54,360 --> 00:03:59,630
evidence was also required to actually

66
00:03:55,860 --> 00:04:04,230
die them unfortunately for me my case

67
00:03:59,629 --> 00:04:08,789
amongst others it was at a time when

68
00:04:04,229 --> 00:04:10,500
hacking was a big problem and my case

69
00:04:08,789 --> 00:04:12,870
and others had catalyzed the US and the

70
00:04:10,500 --> 00:04:14,819
UK into arranging an entirely new

71
00:04:12,870 --> 00:04:16,108
extradition treaty while we're

72
00:04:14,819 --> 00:04:18,298
supporting evidence was no longer

73
00:04:16,108 --> 00:04:20,789
required to extradite a UK citizen to

74
00:04:18,298 --> 00:04:23,789
the US but you guys were still protected

75
00:04:20,790 --> 00:04:25,920
by the Constitution and this necessary

76
00:04:23,790 --> 00:04:27,900
imbalance as one of the architects of

77
00:04:25,920 --> 00:04:31,410
the treaty once called there still

78
00:04:27,899 --> 00:04:33,179
exists in this day going from six months

79
00:04:31,410 --> 00:04:35,040
community service to the thought of the

80
00:04:33,180 --> 00:04:37,110
rest of my life in a foreign prison was

81
00:04:35,040 --> 00:04:40,110
obviously a major leap and a terrifying

82
00:04:37,110 --> 00:04:41,580
one the US authorities called my actions

83
00:04:40,110 --> 00:04:43,980
the biggest military computer hack

84
00:04:41,579 --> 00:04:45,418
happen which is patently untrue since

85
00:04:43,980 --> 00:04:48,270
there have been a few viruses that got

86

00:04:45,418 --> 00:04:49,620
into many more computer delighted I got

87
00:04:48,269 --> 00:04:53,129
into the less than 100 I think was about

88
00:04:49,620 --> 00:04:55,019
97 but the real bottom line here with

89
00:04:53,129 --> 00:04:57,719
the damage accusations I was accused of

90
00:04:55,019 --> 00:04:59,339
damaging every PC that I was on and so

91
00:04:57,720 --> 00:05:01,440
the amount of damage I've done to each

92
00:04:59,339 --> 00:05:03,359
PC was exactly five thousand dollars

93
00:05:01,439 --> 00:05:05,370
worth and that happened to be the magic

94
00:05:03,360 --> 00:05:07,889
figure necessary to support to support

95
00:05:05,370 --> 00:05:11,730
an action request so I realized I was

96
00:05:07,889 --> 00:05:14,069
being fitted up from the damaged damaged

97
00:05:11,730 --> 00:05:15,780
but you can't prove a negative under the

98
00:05:14,069 --> 00:05:18,029
new treaty there was no burden of proof

99
00:05:15,779 --> 00:05:20,129
for the u.s. they just had to state your

100
00:05:18,029 --> 00:05:23,339

crime in your name so I was looking

101

00:05:20,129 --> 00:05:26,000

great bleep faith bad for me two years

102

00:05:23,339 --> 00:05:28,319

went by without me hearing much more

103

00:05:26,000 --> 00:05:30,839

this was due to the treaty having to be

104

00:05:28,319 --> 00:05:32,069

ratified by the Senate for some reason

105

00:05:30,839 --> 00:05:33,750

they were dragging their heels which was

106

00:05:32,069 --> 00:05:35,788

odd since but I've read the draft of the

107

00:05:33,750 --> 00:05:37,319

treaty it was actually written in US

108

00:05:35,788 --> 00:05:39,209

English for the American spelling which

109

00:05:37,319 --> 00:05:42,959

was kind of telling

110

00:05:39,209 --> 00:05:45,629

I lost my career in IT due to this so I

111

00:05:42,959 --> 00:05:48,629

went and got my forklift license and got

112

00:05:45,629 --> 00:05:50,459

a job there local luggage warehouse I've

113

00:05:48,629 --> 00:05:53,219

been lost this job due to all the

114

00:05:50,459 --> 00:05:54,449

publicity lost a room I rented because

115
00:05:53,220 --> 00:05:57,000
the landlord did like all the press

116
00:05:54,449 --> 00:05:59,009
hanging around lost my girlfriend of 12

117
00:05:57,000 --> 00:06:01,620
years so I was being pretty crappy so I

118
00:05:59,009 --> 00:06:05,879
just ate it hugely and spent those two

119
00:06:01,620 --> 00:06:09,870
years very downright employed in 2005 I

120
00:06:05,879 --> 00:06:12,029
got another job strangely working for

121
00:06:09,870 --> 00:06:14,759
EDS electronic data systems a large

122
00:06:12,029 --> 00:06:18,359
American company I finished my first day

123
00:06:14,759 --> 00:06:20,490
and then made my way home and I was down

124
00:06:18,360 --> 00:06:22,040
the road to my front door three gigantic

125
00:06:20,490 --> 00:06:24,509
men approached me big burly men

126
00:06:22,040 --> 00:06:27,180
identified themselves at the New

127
00:06:24,509 --> 00:06:28,230
Scotland Yard expedition squad I just

128
00:06:27,180 --> 00:06:30,840
courted me up to my room

129
00:06:28,230 --> 00:06:32,610
that was renting in a shared house they

130
00:06:30,839 --> 00:06:33,839
insisted I'm taking my computer even

131
00:06:32,610 --> 00:06:36,270
though they could see I had no internet

132
00:06:33,839 --> 00:06:38,969
in the house they told me that I was a

133
00:06:36,269 --> 00:06:40,529
fugitive US law which I thought was kind

134
00:06:38,970 --> 00:06:41,370
of strange how do you be a fugitive when

135
00:06:40,529 --> 00:06:44,069
you're not trying to escape

136
00:06:41,370 --> 00:06:45,329
you know once again like the logic of

137
00:06:44,069 --> 00:06:46,889
international law enforcement had

138
00:06:45,329 --> 00:06:48,419
escaped me but there was no action

139
00:06:46,889 --> 00:06:51,389
escape for me because the officers drove

140
00:06:48,420 --> 00:06:53,370
me to the police station my submit to a

141
00:06:51,389 --> 00:06:54,750
DNA sample you're told if you refused

142
00:06:53,370 --> 00:06:57,209
that they just keep gonna sell until

143

00:06:54,750 --> 00:07:01,019
they get probation from there the high

144
00:06:57,209 --> 00:07:03,000
Spector I would call the next day for my

145
00:07:01,019 --> 00:07:04,319
bail conditions to be set and this was

146
00:07:03,000 --> 00:07:07,680
do being call for an extradition hearing

147
00:07:04,319 --> 00:07:08,790
not the actual criminal trial I wasn't

148
00:07:07,680 --> 00:07:10,290
given the opportunity to washed or

149
00:07:08,790 --> 00:07:12,870
change my clothes so I walked into court

150
00:07:10,290 --> 00:07:14,610
looking like a complete scoffs bag and I

151
00:07:12,870 --> 00:07:16,230
could see their distaste on the face the

152
00:07:14,610 --> 00:07:19,800
judge or perhaps he always looked like

153
00:07:16,230 --> 00:07:22,950
that then the u.s. asks for a ten

154
00:07:19,800 --> 00:07:24,629
thousand pounds bail and for me to have

155
00:07:22,949 --> 00:07:27,750
to sign on it one local police station

156
00:07:24,629 --> 00:07:29,159
every single hour which is impossible my

157
00:07:27,750 --> 00:07:31,199

local police station was half power

158

00:07:29,160 --> 00:07:33,200

where I lived so I'd either have to get

159

00:07:31,199 --> 00:07:35,490

no sleep or sleep at the police station

160

00:07:33,199 --> 00:07:38,459

luckily the judge saw that this was a

161

00:07:35,490 --> 00:07:39,689

nonsense request so I was required to

162

00:07:38,459 --> 00:07:42,479

sign on at the police station each

163

00:07:39,689 --> 00:07:45,209

evening eventually we also got the bail

164

00:07:42,480 --> 00:07:47,189

drop to five thousand pounds since I'd

165

00:07:45,209 --> 00:07:48,629

lost my job my parents lost the children

166

00:07:47,189 --> 00:07:49,829

for a living didn't have any savings at

167

00:07:48,629 --> 00:07:53,038

the time

168

00:07:49,829 --> 00:07:56,189

excuse me my favors paid by friends

169

00:07:53,038 --> 00:07:57,509

family all contributing look good I'll

170

00:07:56,189 --> 00:07:59,459

go over the rest of the events unless

171

00:07:57,509 --> 00:08:01,860

death this is just a chronology of court

172
00:07:59,459 --> 00:08:03,719
hearings and decisions is kind of like

173
00:08:01,860 --> 00:08:08,729
that boring bit the very depressing but

174
00:08:03,720 --> 00:08:10,800
boring to the retail in 2006 at my first

175
00:08:08,728 --> 00:08:13,199
extradition hearing and the judge ruled

176
00:08:10,800 --> 00:08:14,639
that my extradition could be allowed but

177
00:08:13,199 --> 00:08:17,189
the final decision was to be made by the

178
00:08:14,639 --> 00:08:18,629
Home Secretary who also decided it was

179
00:08:17,189 --> 00:08:20,759
5:00 to send me over there without any

180
00:08:18,629 --> 00:08:23,250
evidence of damage the US authorities

181
00:08:20,759 --> 00:08:24,419
started to play dirty I'm saying if I

182
00:08:23,250 --> 00:08:26,519
didn't come over of my own free will

183
00:08:24,418 --> 00:08:29,098
then they'd give me the maximum 70 years

184
00:08:26,519 --> 00:08:31,109
sentence once I was over there my

185
00:08:29,098 --> 00:08:32,610
solicitor was told by Ed Gibson who was

186
00:08:31,110 --> 00:08:36,209
the attache at the u.s. embassy at the

187
00:08:32,610 --> 00:08:37,229
time but they wanted to see me fry which

188
00:08:36,208 --> 00:08:40,259
was of course a reference to the

189
00:08:37,229 --> 00:08:41,820
electric chair suspected me with

190
00:08:40,259 --> 00:08:44,069
imprisonment in America under Moochie

191
00:08:41,820 --> 00:08:45,600
order number one which means a secret

192
00:08:44,070 --> 00:08:48,149
trial with the jury of military

193
00:08:45,600 --> 00:08:50,399
personnel no opportunity to speak to the

194
00:08:48,149 --> 00:08:52,289
press they also informed me I'd be

195
00:08:50,399 --> 00:08:54,208
allowed no visits from anyone so they

196
00:08:52,289 --> 00:08:56,099
played the pressure I wish the DOJ as

197
00:08:54,208 --> 00:08:59,609
you may or may not know did thoughts

198
00:08:56,100 --> 00:09:01,500
does in 2007 we went to the High Court

199
00:08:59,610 --> 00:09:04,019
to try and overturn the decision of Home

200

00:09:01,500 --> 00:09:06,839
Secretary to allow the extradition but

201
00:09:04,019 --> 00:09:09,240
the High Court putted booster and then in

202
00:09:06,839 --> 00:09:12,209
2008 we went to the House of Lords but

203
00:09:09,240 --> 00:09:13,470
they also refused servitor decision so

204
00:09:12,208 --> 00:09:16,559
the next Avenue was to go to the

205
00:09:13,470 --> 00:09:18,570
European Court of Human Rights we lost

206
00:09:16,559 --> 00:09:22,708
the appeal to go there let alone

207
00:09:18,570 --> 00:09:26,010
actually you know later that year I was

208
00:09:22,708 --> 00:09:27,689
doing an interview on ITV and after the

209
00:09:26,009 --> 00:09:30,600
interview quite a few people contacted

210
00:09:27,690 --> 00:09:31,770
ITV to say that they thought I was on

211
00:09:30,600 --> 00:09:33,120
the autistic spectrum

212
00:09:31,769 --> 00:09:34,879
thought I should get diagnosed by a

213
00:09:33,120 --> 00:09:37,889
professional to see if this was the case

214
00:09:34,879 --> 00:09:40,320

I didn't like being told or maybe on the

215

00:09:37,889 --> 00:09:42,269

spectrum and I was far too depressed to

216

00:09:40,320 --> 00:09:45,180

welcome people analyzing me and you know

217

00:09:42,269 --> 00:09:46,620

poking around my brain but I went along

218

00:09:45,179 --> 00:09:49,588

with it since everyone was advising me

219

00:09:46,620 --> 00:09:51,419

to do so and ultimately I was diagnosed

220

00:09:49,589 --> 00:09:53,610

but five or six of the top people in the

221

00:09:51,419 --> 00:09:56,000

UK and they all agreed that I had

222

00:09:53,610 --> 00:09:58,050

Asperger's it was almost on the spectrum

223

00:09:56,000 --> 00:09:59,909

and as I said no one likes being

224

00:09:58,049 --> 00:10:02,519

diagnosed as having a syndrome of any

225

00:09:59,909 --> 00:10:03,778

kind but it did explain a lot people

226

00:10:02,519 --> 00:10:06,049

don't was thought I was

227

00:10:03,778 --> 00:10:09,240

a little bit weird and kind of robotic

228

00:10:06,049 --> 00:10:10,679

ever to school though now at least had

229
00:10:09,240 --> 00:10:13,079
some kind of explanation for that you

230
00:10:10,679 --> 00:10:14,519
know something to blame it on when it

231
00:10:13,078 --> 00:10:16,559
turned out that having Asperger's helped

232
00:10:14,519 --> 00:10:19,198
with the case as well because it's a

233
00:10:16,559 --> 00:10:21,268
medical condition since my actions but

234
00:10:19,198 --> 00:10:23,068
due to my hyper inflated sense of truth

235
00:10:21,269 --> 00:10:26,100
and justice which is apparently quite

236
00:10:23,068 --> 00:10:28,049
common in people with Asperger's a

237
00:10:26,100 --> 00:10:29,790
normal person would have broken the law

238
00:10:28,049 --> 00:10:32,458
and the way I did to find information on

239
00:10:29,789 --> 00:10:36,748
UFOs it was a very extreme act so I can

240
00:10:32,458 --> 00:10:39,448
see that now in late 2008 we appealed to

241
00:10:36,749 --> 00:10:41,459
the new Home Secretary but she also had

242
00:10:39,448 --> 00:10:44,039
low sympathy for my situation and said

243
00:10:41,458 --> 00:10:47,248
she would allow the extradition and then

244
00:10:44,039 --> 00:10:49,349
in 2009 we had a judicial review and we

245
00:10:47,249 --> 00:10:53,040
found out Crown Prosecution Service was

246
00:10:49,350 --> 00:10:54,449
like being part of just nuts that the US

247
00:10:53,039 --> 00:10:58,019
authorities had no evidence whatsoever

248
00:10:54,448 --> 00:10:59,849
I'd done any damage was pure hearsay yet

249
00:10:58,019 --> 00:11:01,528
the CPS still refused to prosecute me in

250
00:10:59,850 --> 00:11:03,569
my own country which is why I was asking

251
00:11:01,528 --> 00:11:06,208
I wasn't asking to be let off go

252
00:11:03,568 --> 00:11:13,318
scot-free I wanted you caged well

253
00:11:06,208 --> 00:11:16,078
basically Supreme Court something we

254
00:11:13,318 --> 00:11:17,669
didn't have when I was first arrested we

255
00:11:16,078 --> 00:11:21,679
were refused leave to appeal to the

256
00:11:17,669 --> 00:11:23,490
Supreme Court and then in late 2009 the

257

00:11:21,679 --> 00:11:25,109
Home Office agreed to put the

258
00:11:23,490 --> 00:11:27,419
extradition on holes where they live to

259
00:11:25,110 --> 00:11:28,800
that medical evidence but they said

260
00:11:27,419 --> 00:11:30,360
they'd received assurances from US

261
00:11:28,799 --> 00:11:32,909
authorities that all of my medical needs

262
00:11:30,360 --> 00:11:34,800
would be met the u.s. prison now that

263
00:11:32,909 --> 00:11:36,389
statement was patently untrue since US

264
00:11:34,799 --> 00:11:37,558
jails have a very bad record when it

265
00:11:36,389 --> 00:11:41,399
comes to looking after mentally ill

266
00:11:37,558 --> 00:11:45,328
inmates there's lots were happy at

267
00:11:41,399 --> 00:11:47,490
December 2009 we submitted a new -

268
00:11:45,328 --> 00:11:49,528
appeal to challenge the extradition and

269
00:11:47,490 --> 00:11:53,639
in January were allowed the new judicial

270
00:11:49,528 --> 00:11:55,259
review in the spring of 2010 the new

271
00:11:53,639 --> 00:11:57,120

Home Secretary Theresa May

272

00:11:55,259 --> 00:11:58,379

actually agreed to put the a traditional

273

00:11:57,120 --> 00:12:00,990

hold again while the new medical

274

00:11:58,379 --> 00:12:02,339

evidence was looked at and in some of

275

00:12:00,990 --> 00:12:05,009

the same year Prime Minister David

276

00:12:02,339 --> 00:12:07,259

Cameron President Obama ventured my case

277

00:12:05,009 --> 00:12:08,428

and television hoping that they could

278

00:12:07,259 --> 00:12:10,060

work together to find a suitable

279

00:12:08,428 --> 00:12:13,269

solution

280

00:12:10,059 --> 00:12:15,779

in September of 2005 we managed to get a

281

00:12:13,269 --> 00:12:19,090

review of the extradition treaty itself

282

00:12:15,779 --> 00:12:21,309

OH&S Patricia Scotland one of people

283

00:12:19,090 --> 00:12:22,660

that helps push the treaty through and

284

00:12:21,309 --> 00:12:25,029

said herself that the treaty was

285

00:12:22,659 --> 00:12:26,169

necessarily a balanced due to u.s.

286

00:12:25,029 --> 00:12:29,079

citizens being protected by the

287

00:12:26,169 --> 00:12:31,240

Constitution and David Blunkett who had

288

00:12:29,080 --> 00:12:34,830

signed the treaty in the UK admitted

289

00:12:31,240 --> 00:12:39,250

that he might have given too much away

290

00:12:34,830 --> 00:12:41,830

in the spring of 2011 on a visit to the

291

00:12:39,250 --> 00:12:43,899

UK president obama said he'd respect any

292

00:12:41,830 --> 00:12:47,470

decision made by the UK judicial system

293

00:12:43,899 --> 00:12:48,789

which was to hear about you growing

294

00:12:47,470 --> 00:12:52,629

support from the Conservative Party

295

00:12:48,789 --> 00:12:54,309

she's like you're Republicans Soviet and

296

00:12:52,629 --> 00:12:56,289

apart from a few noble individuals the

297

00:12:54,309 --> 00:12:58,659

late party which is like Democrats we're

298

00:12:56,289 --> 00:13:02,740

absolutely useless and no qualms and

299

00:12:58,659 --> 00:13:04,990

send him into the pond severely

300
00:13:02,740 --> 00:13:07,919
depressed for years I was on Prozac I

301
00:13:04,990 --> 00:13:09,940
was really like barely leaving the house

302
00:13:07,919 --> 00:13:12,729
I'd also bought enough potassium

303
00:13:09,940 --> 00:13:14,860
chloride to kill myself with and rather

304
00:13:12,730 --> 00:13:17,019
than placing 70 years in a foreign jail

305
00:13:14,860 --> 00:13:19,480
potassium chloride the third chemical

306
00:13:17,019 --> 00:13:22,360
used in the triple South chemicals per

307
00:13:19,480 --> 00:13:23,680
lethal injection as far as I was

308
00:13:22,360 --> 00:13:25,389
concerned these people wanted to see me

309
00:13:23,679 --> 00:13:26,799
fry or see me brought so I wasn't gonna

310
00:13:25,389 --> 00:13:31,090
let them control the terms all the

311
00:13:26,799 --> 00:13:33,339
method my demise a 2012 I refused to see

312
00:13:31,090 --> 00:13:34,450
the government appointed doctors I've

313
00:13:33,340 --> 00:13:36,519
already been assessed by the top

314

00:13:34,450 --> 00:13:38,490
independent people in the land and saw

315
00:13:36,519 --> 00:13:40,509
no reason to submit to further tests

316
00:13:38,490 --> 00:13:42,279
especially since the pair of doctors the

317
00:13:40,509 --> 00:13:43,629
government wanted to use and a track

318
00:13:42,279 --> 00:13:45,329
record of getting the results the

319
00:13:43,629 --> 00:13:49,139
government wanted you know what I mean

320
00:13:45,330 --> 00:13:51,430
as finally on October the 15th and 2012

321
00:13:49,139 --> 00:13:52,389
to resume he announced her decision to

322
00:13:51,429 --> 00:13:54,879
block the extradition

323
00:13:52,389 --> 00:13:59,500
my family my girlfriend and I cried like

324
00:13:54,879 --> 00:14:00,759
babies like ours this year purely ten

325
00:13:59,500 --> 00:14:03,669
and a half years worth of T is just

326
00:14:00,759 --> 00:14:06,549
product there are places there was still

327
00:14:03,669 --> 00:14:09,159
the possibility for UK trial which is

328
00:14:06,549 --> 00:14:12,250

what campaigning all this time bit

329

00:14:09,159 --> 00:14:14,259

December on my mum's birthday at the CPS

330

00:14:12,250 --> 00:14:16,509

the Crown Prosecution Service and knows

331

00:14:14,259 --> 00:14:20,319

that there would be no UK trial and the

332

00:14:16,509 --> 00:14:23,139

audience finally up so that's that's the

333

00:14:20,320 --> 00:14:25,360

decade-long legal battle the chronology

334

00:14:23,139 --> 00:14:27,340

of events but I think it's also porns

335

00:14:25,360 --> 00:14:31,389

give you a very brief history of me and

336

00:14:27,340 --> 00:14:34,000

why decide attack into these systems so

337

00:14:31,389 --> 00:14:36,939

I was born in Glasgow in 1966 I have no

338

00:14:34,000 --> 00:14:39,879

siblings my parents broke up when I was

339

00:14:36,940 --> 00:14:42,010

six spent another year living in Glasgow

340

00:14:39,879 --> 00:14:46,509

with my dad before going down to London

341

00:14:42,009 --> 00:14:47,830

till it was my pub and stepdad my

342

00:14:46,509 --> 00:14:50,409

parents always encouraged the use of

343
00:14:47,830 --> 00:14:51,970
imagination and creativity so I was

344
00:14:50,409 --> 00:14:56,319
quite a self-sufficient child in turn

345
00:14:51,970 --> 00:14:58,620
play recreation questions about the

346
00:14:56,320 --> 00:15:01,030
Stars the moon and the other planets

347
00:14:58,620 --> 00:15:03,399
this fascination just proved as I've

348
00:15:01,029 --> 00:15:04,899
about the mate a always maintaining a

349
00:15:03,399 --> 00:15:07,539
source of laypersons interest and

350
00:15:04,899 --> 00:15:10,509
astronomy and some all things space

351
00:15:07,539 --> 00:15:13,779
related I did have one UFO sighting

352
00:15:10,509 --> 00:15:15,610
myself just the one yeah I've ever seen

353
00:15:13,779 --> 00:15:18,009
something with my own eyes the sky that

354
00:15:15,610 --> 00:15:20,169
I just couldn't explain I was in my

355
00:15:18,009 --> 00:15:22,899
bedroom there was at the top house to

356
00:15:20,169 --> 00:15:26,649
him it's about eleven twelve I think I

357
00:15:22,899 --> 00:15:28,419
just looking up the sky at dusk glowing

358
00:15:26,649 --> 00:15:31,449
red light assuming for my very high

359
00:15:28,419 --> 00:15:34,269
extreme left going a massive arc right

360
00:15:31,450 --> 00:15:36,009
across the sky to the horizon am i right

361
00:15:34,269 --> 00:15:38,529
this wasn't it wasn't travelling in a

362
00:15:36,009 --> 00:15:40,210
straight line it was really digging it

363
00:15:38,529 --> 00:15:42,100
was like Brownian motion do lots of

364
00:15:40,210 --> 00:15:44,580
scene when he random Wiggles as it's

365
00:15:42,100 --> 00:15:47,350
part of this course and a strange thing

366
00:15:44,580 --> 00:15:48,430
I mean yeah if you've been flying in

367
00:15:47,350 --> 00:15:49,960
that thing I would have thought you'd

368
00:15:48,429 --> 00:15:53,259
just be thrown around like a rag doll

369
00:15:49,960 --> 00:15:55,509
but who knows when I was about 12 I

370
00:15:53,259 --> 00:15:57,250
joined before the British UFO Research

371

00:15:55,509 --> 00:16:00,399
Association which is still going flock

372
00:15:57,250 --> 00:16:02,139
today the extension of an interest in

373
00:16:00,399 --> 00:16:03,370
the Stars turn interested the life that

374
00:16:02,139 --> 00:16:06,159
may live in the planets around that

375
00:16:03,370 --> 00:16:08,230
stuff isn't natural before there's some

376
00:16:06,159 --> 00:16:11,799
may be visiting us was extremely

377
00:16:08,230 --> 00:16:13,690
interesting extremely interesting of

378
00:16:11,799 --> 00:16:15,969
course as it turns into a young man he

379
00:16:13,690 --> 00:16:17,890
develops other interests and my passion

380
00:16:15,970 --> 00:16:19,480
for science and space for knob was put

381
00:16:17,889 --> 00:16:23,409
the back burner for sometimes I started

382
00:16:19,480 --> 00:16:24,909
to explore other aspects of life I left

383
00:16:23,409 --> 00:16:27,490
school and spent years doing different

384
00:16:24,909 --> 00:16:29,799
jobs from laboring to hairdressing to

385
00:16:27,490 --> 00:16:32,620

office bobs factory work warehouse work

386

00:16:29,799 --> 00:16:34,059

I spent about a year in each job

387

00:16:32,620 --> 00:16:37,570

looking for something we could all way

388

00:16:34,059 --> 00:16:39,369

in fest as what that always said most

389

00:16:37,570 --> 00:16:41,920

jobs aren't interesting son that's why

390

00:16:39,370 --> 00:16:47,320

they pay you to do them it's toxic

391

00:16:41,919 --> 00:16:49,959

I didn't leave scope with many

392

00:16:47,320 --> 00:16:52,810

qualifications but I did have a passion

393

00:16:49,960 --> 00:16:54,639

for computers of the self-taught program

394

00:16:52,809 --> 00:16:57,309

at first in basic and then in assembly

395

00:16:54,639 --> 00:16:58,449

language or machine code and if you're

396

00:16:57,309 --> 00:16:59,889

the sort of person then you'll know that

397

00:16:58,450 --> 00:17:01,900

you end up being the one that all your

398

00:16:59,889 --> 00:17:03,399

friends call for help their computers go

399

00:17:01,899 --> 00:17:06,639

wrong it still happens to this day very

400
00:17:03,399 --> 00:17:08,318
not and then one day someone suggested I

401
00:17:06,640 --> 00:17:13,449
should try and get a job in computing

402
00:17:08,318 --> 00:17:15,068
which wait myself not having any formal

403
00:17:13,449 --> 00:17:16,329
qualifications or experience the only

404
00:17:15,068 --> 00:17:19,088
jobs I could get initially were

405
00:17:16,328 --> 00:17:20,529
installation and upgrade contracts where

406
00:17:19,088 --> 00:17:22,720
a business was moving for like windows

407
00:17:20,529 --> 00:17:25,720
311 the windows for workgroups yes it's

408
00:17:22,720 --> 00:17:27,160
a long time ago and it's time with arm

409
00:17:25,720 --> 00:17:29,019
the my experienced crew I was eventually

410
00:17:27,160 --> 00:17:31,180
contracting to networking selections

411
00:17:29,019 --> 00:17:34,900
maintenance publish to ting that

412
00:17:31,180 --> 00:17:38,410
eventually systems administration there

413
00:17:34,900 --> 00:17:41,440
one day one of my jobs in like 2/3 or 94

414
00:17:38,410 --> 00:17:45,220
I got my first look at the Internet Wow

415
00:17:41,440 --> 00:17:46,690
using the mosaic browser I was amazed

416
00:17:45,220 --> 00:17:47,829
that we could view text and images or

417
00:17:46,690 --> 00:17:50,049
the computers on the other side of the

418
00:17:47,829 --> 00:17:51,759
world it's fantastic I knew it'd be a

419
00:17:50,049 --> 00:17:53,470
big thing in time to come and I

420
00:17:51,759 --> 00:17:56,619
definitely want to get in my house to

421
00:17:53,470 --> 00:17:58,059
not just to work Microsoft I usually

422
00:17:56,619 --> 00:18:00,369
said it didn't think there's anything to

423
00:17:58,059 --> 00:18:02,279
it but I don't know if that's a rumor

424
00:18:00,369 --> 00:18:06,789
that's true but they're pairing this I

425
00:18:02,279 --> 00:18:08,319
got my first dial-up connection in 95 by

426
00:18:06,789 --> 00:18:10,869
then we had a variety of search engines

427
00:18:08,319 --> 00:18:12,879
no Google yet and millions of websites

428

00:18:10,869 --> 00:18:15,759
so it already become a useful resource

429
00:18:12,880 --> 00:18:17,470
and the number of UFO enthusiasts sites

430
00:18:15,759 --> 00:18:20,019
was astounding so many of them I can

431
00:18:17,470 --> 00:18:21,670
only believe it might a lot of catching

432
00:18:20,019 --> 00:18:23,740
up to do so whatever I could have browse

433
00:18:21,670 --> 00:18:25,840
the net reading up on UFO history and

434
00:18:23,740 --> 00:18:27,309
how the phenomena it's grown over the

435
00:18:25,839 --> 00:18:29,619
years

436
00:18:27,309 --> 00:18:32,919
around this time fuel prices were very

437
00:18:29,619 --> 00:18:34,509
high in my country we had cases of

438
00:18:32,920 --> 00:18:36,580
elderly people in the UK having to

439
00:18:34,509 --> 00:18:39,549
choose between warmth and food we called

440
00:18:36,579 --> 00:18:41,769
it heater eats eating or eating and many

441
00:18:39,549 --> 00:18:42,970
of them died due to hypothermia because

442
00:18:41,769 --> 00:18:44,079

they couldn't afford to pay their fuel

443

00:18:42,970 --> 00:18:47,160
bills

444

00:18:44,079 --> 00:18:50,169
as a grave problem to this day in 2015

445

00:18:47,160 --> 00:18:54,850
15,000 people in Britain died due to

446

00:18:50,170 --> 00:18:56,320
so-called fuel poverty 15,000 people one

447

00:18:54,849 --> 00:18:57,909
subject have been a lot about in

448

00:18:56,319 --> 00:18:59,799
connection with UFOs was to free energy

449

00:18:57,910 --> 00:19:03,100
our power source there was virtually

450

00:18:59,799 --> 00:19:05,379
unlimited output more energy and was

451

00:19:03,099 --> 00:19:08,678
required to operate it they call over

452

00:19:05,380 --> 00:19:10,809
unity devices and it's not a mystery by

453

00:19:08,679 --> 00:19:13,509
the way everyone has an over unity

454

00:19:10,808 --> 00:19:14,889
device in the home is your fridge the

455

00:19:13,509 --> 00:19:18,400
average refrigerator is about three

456

00:19:14,890 --> 00:19:21,309
times over unity and because the heat it

457
00:19:18,400 --> 00:19:23,830
puts out you can't make the heater puts

458
00:19:21,308 --> 00:19:25,269
out with the energy that goes in very

459
00:19:23,829 --> 00:19:27,069
well made fridge like a science

460
00:19:25,269 --> 00:19:27,670
laboratory French can be up to five or

461
00:19:27,069 --> 00:19:30,308
six times

462
00:19:27,670 --> 00:19:32,259
over unity interesting fact so though he

463
00:19:30,308 --> 00:19:35,230
can create or destroy energy he can

464
00:19:32,259 --> 00:19:38,819
transform it and kind of amplify it

465
00:19:35,230 --> 00:19:40,990
somehow I don't know I'm not a physicist

466
00:19:38,819 --> 00:19:43,509
so in my mind these lines of force

467
00:19:40,990 --> 00:19:44,980
converge both people dying no energy

468
00:19:43,509 --> 00:19:47,980
then possibly free energy that's been

469
00:19:44,980 --> 00:19:49,390
hidden from us usually unfair so many of

470
00:19:47,980 --> 00:19:52,299
today's problems could be solved if we

471
00:19:49,390 --> 00:19:54,250
had free energy and the UFOs that had

472
00:19:52,299 --> 00:19:56,619
went so much about what so many videos

473
00:19:54,250 --> 00:19:59,440
off they seem to operate on a propulsive

474
00:19:56,619 --> 00:20:01,058
principle there was extremely advanced

475
00:19:59,440 --> 00:20:01,420
and probably tapping the zero-point

476
00:20:01,058 --> 00:20:03,849
energy

477
00:20:01,420 --> 00:20:05,740
don't worry about literally pumping

478
00:20:03,849 --> 00:20:07,719
electrons you know from the fluctuations

479
00:20:05,740 --> 00:20:10,179
of the fabric of the universe this crazy

480
00:20:07,720 --> 00:20:10,870
stuff so why didn't we have this

481
00:20:10,179 --> 00:20:11,950
technology

482
00:20:10,869 --> 00:20:14,889
you know many countries around the world

483
00:20:11,950 --> 00:20:16,330
have a serious interest in UFOs even

484
00:20:14,890 --> 00:20:18,100
detailing in their Air Forces

485

00:20:16,329 --> 00:20:20,439
instruction manuals how to engage one

486
00:20:18,099 --> 00:20:22,419
and house reporter we have the famous

487
00:20:20,440 --> 00:20:24,519
Roswell case where bodies and a craft

488
00:20:22,420 --> 00:20:26,320
was supposedly recovered so why didn't

489
00:20:24,519 --> 00:20:27,849
we have amazing flying vehicles and you

490
00:20:26,319 --> 00:20:30,700
know free energy for everyone why why

491
00:20:27,849 --> 00:20:33,399
would you keep that from people elitism

492
00:20:30,700 --> 00:20:35,470
obvious it's it's not your standard

493
00:20:33,400 --> 00:20:37,720
radar installation the monitors disguise

494
00:20:35,470 --> 00:20:39,160
for your photo tracking and it's not

495
00:20:37,720 --> 00:20:41,920
your regular army that goes out and

496
00:20:39,160 --> 00:20:43,750
recovers crashed UFOs as everyone here

497
00:20:41,920 --> 00:20:45,370
knows these projects are special access

498
00:20:43,750 --> 00:20:47,230
and secret compartmented

499
00:20:45,369 --> 00:20:49,299

it's a very few people see the big

500

00:20:47,230 --> 00:20:52,480

picture and if there are any so-called

501

00:20:49,299 --> 00:20:53,859

disruptive technologies they end up in

502

00:20:52,480 --> 00:20:55,559

the hands of a relatively small group of

503

00:20:53,859 --> 00:20:58,349

people probably in the

504

00:20:55,559 --> 00:21:00,720

10,000 or less so yes rather than the

505

00:20:58,349 --> 00:21:03,509

public at large and secrets are never

506

00:21:00,720 --> 00:21:05,460

good in any relationship but um secrets

507

00:21:03,509 --> 00:21:07,589

kept for the people and the state by

508

00:21:05,460 --> 00:21:10,829

force is not known of the worst kind of

509

00:21:07,589 --> 00:21:13,199

secrets so I started to wonder you know

510

00:21:10,829 --> 00:21:14,849

would it be possible and to seek out the

511

00:21:13,200 --> 00:21:17,069

truth the matter by the internet and by

512

00:21:14,849 --> 00:21:19,379

using my networking knowledge to track

513

00:21:17,069 --> 00:21:22,319

down these unknown forces and get a look

514
00:21:19,380 --> 00:21:24,210
at that data too many people this you

515
00:21:22,319 --> 00:21:25,710
know just seems like a mad idea but to

516
00:21:24,210 --> 00:21:28,650
me it was a noble cause and worth

517
00:21:25,710 --> 00:21:30,210
looking into but it's a big problem you

518
00:21:28,650 --> 00:21:33,030
know how do you track down a secret

519
00:21:30,210 --> 00:21:35,160
group of elitists coveting recovered

520
00:21:33,029 --> 00:21:36,839
alien technology the probably have their

521
00:21:35,160 --> 00:21:39,240
own quantum computing network and time

522
00:21:36,839 --> 00:21:41,789
travel machines by now who knows where

523
00:21:39,240 --> 00:21:43,529
they even have data on the Internet we

524
00:21:41,789 --> 00:21:47,099
don't known to be try but where'd he

525
00:21:43,529 --> 00:21:49,799
start then sometime in the spring of

526
00:21:47,099 --> 00:21:51,359
2001 I think it was I was told about dr.

527
00:21:49,799 --> 00:21:53,579
Steven Greer is upcoming disclosure

528
00:21:51,359 --> 00:21:56,219
project conference at the National Press

529
00:21:53,579 --> 00:21:58,500
Club in DC and here was a man who'd

530
00:21:56,220 --> 00:22:00,930
spent years gatherings had got the most

531
00:21:58,500 --> 00:22:02,609
incredible UFO witness list interviewing

532
00:22:00,930 --> 00:22:05,279
them bonding with them respecting their

533
00:22:02,609 --> 00:22:06,779
anonymity when required and as I

534
00:22:05,279 --> 00:22:08,609
listened to him speak with like true

535
00:22:06,779 --> 00:22:10,740
passion and eloquence about the subject

536
00:22:08,609 --> 00:22:12,449
he became an instant hero to me instant

537
00:22:10,740 --> 00:22:14,730
hero right up there were the likes of

538
00:22:12,450 --> 00:22:17,100
the Moulton Howe but Hopkins Stanton

539
00:22:14,730 --> 00:22:20,009
Friedman and many many others in the UFO

540
00:22:17,099 --> 00:22:22,589
soon it was an amazing body of evidence

541
00:22:20,009 --> 00:22:25,140
and all from the mouths of mature Tyrese

542

00:22:22,589 --> 00:22:28,529
in the main inhale positions raging from

543
00:22:25,140 --> 00:22:30,030
radar hardware engineers to US Air Force

544
00:22:28,529 --> 00:22:32,819
lieutenant Colonel's at about you know

545
00:22:30,029 --> 00:22:34,319
Jenna and these people were from all of

546
00:22:32,819 --> 00:22:35,849
the Armed Forces right across the board

547
00:22:34,319 --> 00:22:37,349
as well as but it seems from the

548
00:22:35,849 --> 00:22:39,119
intelligence community it really was a

549
00:22:37,349 --> 00:22:41,609
fantastic collection of people telling

550
00:22:39,119 --> 00:22:44,309
their stories I bought the disclosure

551
00:22:41,609 --> 00:22:45,509
project book wanting to know more of

552
00:22:44,309 --> 00:22:47,069
these people's stories and more

553
00:22:45,509 --> 00:22:49,109
importantly to use the book for

554
00:22:47,069 --> 00:22:50,789
intelligence gathering of possible

555
00:22:49,109 --> 00:22:52,769
locations that were internet connected

556
00:22:50,789 --> 00:22:56,369

and had something to do with the UFO

557

00:22:52,769 --> 00:22:59,190
cover-up and the book as far as I was

558

00:22:56,369 --> 00:23:02,639
concerned dr. gray is star witness in

559

00:22:59,190 --> 00:23:04,380
this concern was Donna here here was a

560

00:23:02,640 --> 00:23:05,460
woman who'd been inside one of NASA's

561

00:23:04,380 --> 00:23:08,220
sanitizing lads

562

00:23:05,460 --> 00:23:08,909
well they regularly remove UFOs and

563

00:23:08,220 --> 00:23:12,929
satellite

564

00:23:08,909 --> 00:23:14,580
spacecraft imagery she was an image

565

00:23:12,929 --> 00:23:17,009
specialist that makes using launched

566

00:23:14,579 --> 00:23:19,138
lines at the time and she said that the

567

00:23:17,009 --> 00:23:21,538
lab she saw was in building eight from

568

00:23:19,138 --> 00:23:23,248
Johnson Space Center and I was

569

00:23:21,538 --> 00:23:24,868
absolutely gobsmacked since amazing I

570

00:23:23,249 --> 00:23:27,118
had a physical location but it's fairly

571
00:23:24,868 --> 00:23:29,488
specific down to the building that the

572
00:23:27,118 --> 00:23:30,388
lab was in she said she'd been little I

573
00:23:29,489 --> 00:23:33,210
haven't been showing one of the

574
00:23:30,388 --> 00:23:34,258
photographs by one of her colleagues she

575
00:23:33,210 --> 00:23:36,028
shouldn't have really done because that

576
00:23:34,259 --> 00:23:38,368
that should be secret pop-up match it as

577
00:23:36,028 --> 00:23:39,229
well but thank God he did because there

578
00:23:38,368 --> 00:23:41,488
we go

579
00:23:39,229 --> 00:23:41,879
but how did you get into a network like

580
00:23:41,489 --> 00:23:44,308
that

581
00:23:41,878 --> 00:23:46,108
and it turned out to be all too easy far

582
00:23:44,308 --> 00:23:48,868
too easy I wish I hadn't been easy that

583
00:23:46,108 --> 00:23:50,128
I wouldn't be here today computer

584
00:23:48,868 --> 00:23:53,220
communication languages are called

585
00:23:50,128 --> 00:23:55,048
Network protocols the HTTP you using

586
00:23:53,220 --> 00:23:58,409
your web browser is a protocol standing

587
00:23:55,048 --> 00:24:00,148
for hypertext Transfer Protocol your

588
00:23:58,409 --> 00:24:02,099
email service ones entire map which is

589
00:24:00,148 --> 00:24:04,558
internet message access protocol those

590
00:24:02,098 --> 00:24:06,298
protocols for specific jobs as well as

591
00:24:04,558 --> 00:24:10,288
general protocols that provide for

592
00:24:06,298 --> 00:24:11,819
computer to computer communication one

593
00:24:10,288 --> 00:24:14,548
of these general protocols is called

594
00:24:11,819 --> 00:24:17,788
NetBIOS which stands for network basic

595
00:24:14,548 --> 00:24:19,108
permit system as its name suggests it's

596
00:24:17,788 --> 00:24:21,538
a system that provides basic

597
00:24:19,108 --> 00:24:23,189
input/output across the network for

598
00:24:21,538 --> 00:24:25,378
instance if your office is on a Windows

599

00:24:23,190 --> 00:24:26,879
network when you copy and paste a file

600
00:24:25,378 --> 00:24:28,738
from your machine to a colleague shared

601
00:24:26,878 --> 00:24:31,138
drive its NetBIOS doing all the legwork

602
00:24:28,739 --> 00:24:33,629
and delight both computers to talk to

603
00:24:31,138 --> 00:24:35,128
each other so that's what net price is

604
00:24:33,628 --> 00:24:38,778
for it's for local area networks like

605
00:24:35,128 --> 00:24:40,648
offices or homestay it's not very secure

606
00:24:38,778 --> 00:24:42,378
unfortunately at that time and out of

607
00:24:40,648 --> 00:24:44,699
the box Windows installation

608
00:24:42,378 --> 00:24:47,189
defaulted to using NetBIOS not just

609
00:24:44,700 --> 00:24:49,710
across your home or office network but

610
00:24:47,190 --> 00:24:51,798
also across the internet basically

611
00:24:49,710 --> 00:24:54,569
exposing the network to the world and

612
00:24:51,798 --> 00:24:56,489
one method NetBIOS uses for access to

613
00:24:54,569 --> 00:24:58,710

any network resource is the standard

614

00:24:56,489 --> 00:25:00,389

username and password combination and

615

00:24:58,710 --> 00:25:01,798

the administrator username the

616

00:25:00,388 --> 00:25:03,778

administrator account is the most

617

00:25:01,798 --> 00:25:06,148

powerful account to the PC the part of

618

00:25:03,778 --> 00:25:09,058

the system so it has access to almost

619

00:25:06,148 --> 00:25:10,108

anything so it was obviously and I had

620

00:25:09,058 --> 00:25:13,108

to scan the JC

621

00:25:10,108 --> 00:25:15,239

Johnson Space Center Network looking for

622

00:25:13,108 --> 00:25:17,058

pcs their septic network connections and

623

00:25:15,239 --> 00:25:19,739

then see if they had either weak

624

00:25:17,058 --> 00:25:21,548

passwords or unset passwords on the

625

00:25:19,739 --> 00:25:23,590

administrator

626

00:25:21,548 --> 00:25:25,778

and it's quite a quick scan he didn't

627

00:25:23,589 --> 00:25:28,599

take long a surprising number of pcs

628
00:25:25,778 --> 00:25:30,038
responded to net buyers probes and also

629
00:25:28,599 --> 00:25:32,079
returned administration administrator

630
00:25:30,038 --> 00:25:33,908
accounts to have no password set not

631
00:25:32,079 --> 00:25:41,019
just a weak password like password

632
00:25:33,909 --> 00:25:42,850
itself literally no password like set up

633
00:25:41,019 --> 00:25:44,918
a tunnel between me and the remote PC

634
00:25:42,849 --> 00:25:46,750
that I could use to install remote

635
00:25:44,919 --> 00:25:48,549
control software a bit like PC anywhere

636
00:25:46,750 --> 00:25:49,630
so it's literally like you're there on

637
00:25:48,548 --> 00:25:51,579
the screen like just sitting at the

638
00:25:49,630 --> 00:25:53,049
monitor at the other computer you could

639
00:25:51,579 --> 00:25:55,808
use the mouse interact with a desktop

640
00:25:53,048 --> 00:25:58,450
session before installing the remote

641
00:25:55,808 --> 00:26:01,569
control software I first had to find out

642
00:25:58,450 --> 00:26:03,308
which pcs were in building 8 this is

643
00:26:01,569 --> 00:26:06,148
accomplished by using net buyers come on

644
00:26:03,308 --> 00:26:07,450
again to mr. pcs on the remote network

645
00:26:06,148 --> 00:26:09,939
luckily for me

646
00:26:07,450 --> 00:26:12,370
NASA's IT people were very diligence and

647
00:26:09,940 --> 00:26:14,259
their hardware auditing every PC had

648
00:26:12,369 --> 00:26:16,989
location information as well as serial

649
00:26:14,259 --> 00:26:18,220
numbers and alike for two purposes it

650
00:26:16,990 --> 00:26:19,538
didn't take long to compile a list of

651
00:26:18,220 --> 00:26:21,519
building eight machines that also had

652
00:26:19,538 --> 00:26:24,819
illustrator accounts to add no passwords

653
00:26:21,519 --> 00:26:26,970
so I installed the remote control

654
00:26:24,819 --> 00:26:29,769
software the first you see the list

655
00:26:26,970 --> 00:26:32,528
logged on and looked at the desktops

656

00:26:29,769 --> 00:26:34,240
fairly minimal phone call correctly but

657
00:26:32,528 --> 00:26:36,579
had two interesting folders just like

658
00:26:34,240 --> 00:26:38,409
Donna said what was called raw and the

659
00:26:36,579 --> 00:26:40,778
other was called processed or similar

660
00:26:38,409 --> 00:26:42,039
words I can't remember exactly I double

661
00:26:40,778 --> 00:26:44,710
clicked on the wrong folder and there's

662
00:26:42,038 --> 00:26:46,658
a huge list of files many of them being

663
00:26:44,710 --> 00:26:47,409
over 200 megabytes in size which is

664
00:26:46,659 --> 00:26:49,240
quite large

665
00:26:47,409 --> 00:26:52,539
dial-up days took about five or

666
00:26:49,240 --> 00:26:54,339
six minutes just for one mega thing I

667
00:26:52,538 --> 00:26:56,169
consider transferring a few of the files

668
00:26:54,339 --> 00:26:59,798
in one go but I'd bet suspect one of

669
00:26:56,169 --> 00:27:02,440
them first web file extension but it was

670
00:26:59,798 --> 00:27:04,869

a proprietary desert format not one of

671

00:27:02,440 --> 00:27:06,490

the common common image formats so I

672

00:27:04,869 --> 00:27:08,849

just double clicked one of the files and

673

00:27:06,490 --> 00:27:12,730

the associated imaging software launched

674

00:27:08,849 --> 00:27:15,250

and I waited then I waited and then sort

675

00:27:12,730 --> 00:27:16,480

of lie by line by slave a check I could

676

00:27:15,250 --> 00:27:19,720

hear me started playing on the screen

677

00:27:16,480 --> 00:27:21,880

but it's painfully slow so I shut down

678

00:27:19,720 --> 00:27:25,778

the imaging software I turn the color

679

00:27:21,880 --> 00:27:27,760

down to four bits possibly two bits so

680

00:27:25,778 --> 00:27:30,028

you get a lot less color to the

681

00:27:27,759 --> 00:27:32,319

resolution down I think it's 640 by 480

682

00:27:30,028 --> 00:27:33,788

in order to get a look at this image as

683

00:27:32,319 --> 00:27:34,868

quickly as possible you know low color

684

00:27:33,788 --> 00:27:36,730

low res

685
00:27:34,868 --> 00:27:39,908
and then download it then close the

686
00:27:36,730 --> 00:27:43,749
connection time yeah oh I was gonna

687
00:27:39,909 --> 00:27:45,159
watch this then transfer across I'll

688
00:27:43,749 --> 00:27:47,528
launch the image again and it was still

689
00:27:45,159 --> 00:27:49,119
painfully slow but it was a few times

690
00:27:47,528 --> 00:27:51,548
faster than it was the first time around

691
00:27:49,118 --> 00:27:52,898
the top second section of the image just

692
00:27:51,548 --> 00:27:55,658
seemed like a buddy through black and

693
00:27:52,898 --> 00:27:59,589
gray but then the hemisphere of a planet

694
00:27:55,659 --> 00:28:01,629
started to appear and began to see like

695
00:27:59,589 --> 00:28:03,579
cloud formations

696
00:28:01,628 --> 00:28:06,488
I don't be seeing any recognizable

697
00:28:03,579 --> 00:28:08,259
terrain or any terrain at all I just

698
00:28:06,489 --> 00:28:09,579
assumed his earth because it was you

699
00:28:08,259 --> 00:28:13,749
know white clouds and the mighty

700
00:28:09,579 --> 00:28:19,058
darkness was obviously the space and

701
00:28:13,749 --> 00:28:20,999
then the craft top of a dome because

702
00:28:19,058 --> 00:28:23,138
although it was classic cigar shaped

703
00:28:20,999 --> 00:28:25,629
they had to be sort of ggz

704
00:28:23,138 --> 00:28:31,028
golf ball you're like radar domes above

705
00:28:25,628 --> 00:28:34,658
and below and no features in the craft

706
00:28:31,028 --> 00:28:37,839
at all no insignia no rivets no seams

707
00:28:34,659 --> 00:28:39,100
no sign of your standard man-made

708
00:28:37,839 --> 00:28:43,089
mannequin actually I've taught face

709
00:28:39,099 --> 00:28:44,709
smooth what P subject then I jump to my

710
00:28:43,089 --> 00:28:47,378
seat because the mouth started to move

711
00:28:44,710 --> 00:28:48,639
you know on its own it obviously wasn't

712
00:28:47,378 --> 00:28:51,428
moving on its own someone who was

713

00:28:48,638 --> 00:28:53,319
physically at the machine had seen what

714
00:28:51,429 --> 00:28:55,239
I was doing and they moved the mouse

715
00:28:53,319 --> 00:28:57,278
pointer over to the network icon in the

716
00:28:55,239 --> 00:28:59,950
system tray right clicked it and chose

717
00:28:57,278 --> 00:29:01,298
disconnect I couldn't believe as I was

718
00:28:59,950 --> 00:29:04,720
watching I think seeing the whole image

719
00:29:01,298 --> 00:29:06,970
yep and I've been disconnected so that

720
00:29:04,720 --> 00:29:09,850
was my moment but I also lost connection

721
00:29:06,970 --> 00:29:12,069
at the same time but I had seen it I

722
00:29:09,849 --> 00:29:14,589
found exactly what Donna had said would

723
00:29:12,069 --> 00:29:16,538
be there exactly where she said it would

724
00:29:14,589 --> 00:29:18,548
be a sanitizing lab in building a of

725
00:29:16,538 --> 00:29:20,618
Johnson Space Center that processed the

726
00:29:18,548 --> 00:29:22,599
imagery and the first image I looked at

727
00:29:20,618 --> 00:29:24,398

please it's some kind of exotic craft

728

00:29:22,599 --> 00:29:26,349

service it was confirmation in my eyes

729

00:29:24,398 --> 00:29:28,988

his confirmation of Donna's amazing

730

00:29:26,349 --> 00:29:32,230

story I also found another piece of

731

00:29:28,989 --> 00:29:36,129

evidence I think it was on earth a navy

732

00:29:32,230 --> 00:29:38,679

network I remember it's a post a secret

733

00:29:36,128 --> 00:29:40,808

space fleet theory it was an Excel

734

00:29:38,679 --> 00:29:42,190

spreadsheet entitled non-terrestrial

735

00:29:40,808 --> 00:29:44,288
