

1
00:00:03,299 --> 00:00:06,419
[Music]

2
00:00:08,570 --> 00:00:16,679
this is my first formal talk in a

3
00:00:12,359 --> 00:00:19,320
scientific meeting that involves linkage

4
00:00:16,679 --> 00:00:27,359
of modern science and ancient science

5
00:00:19,320 --> 00:00:32,689
and you will see what what we can do so

6
00:00:27,359 --> 00:00:34,739
my first author is based in India at

7
00:00:32,689 --> 00:00:38,039
organization called world community

8
00:00:34,738 --> 00:00:40,619
service center it's in Tamil Nadu the

9
00:00:38,039 --> 00:00:42,600
state of Tamil Nadu and this favor the

10
00:00:40,619 --> 00:00:46,078
experimental work was done that I'm

11
00:00:42,600 --> 00:00:48,689
going to share with you I am based here

12
00:00:46,079 --> 00:00:51,660
and I am also we have started an

13
00:00:48,689 --> 00:00:55,609
organization here in the u.s. world

14
00:00:51,659 --> 00:00:55,609
community service center USA

15
00:01:10,939 --> 00:01:20,849
this is modern technology oh I see soon

16
00:01:13,980 --> 00:01:24,020
we'll get to the real city try it now it

17
00:01:20,849 --> 00:01:24,019
should work just Johanna track

18
00:01:31,519 --> 00:01:38,869
most of you would know that the harmful

19
00:01:37,200 --> 00:01:42,659
effects of chemical and

20
00:01:38,870 --> 00:01:46,410
biotechnological agriculture on people

21
00:01:42,659 --> 00:01:50,670
and the environment is mounting and in

22
00:01:46,409 --> 00:01:54,000
on top of that we have food shortages

23
00:01:50,670 --> 00:01:56,370
and water shortages and contamination so

24
00:01:54,000 --> 00:02:00,090
it's a very big problem which is

25
00:01:56,370 --> 00:02:03,750
emerging worldwide not just in the US so

26
00:02:00,090 --> 00:02:08,310
we need a paradigm shift a big paradigm

27
00:02:03,750 --> 00:02:11,490
shift to replace this existing hazardous

28
00:02:08,310 --> 00:02:15,840
chemical agriculture and you heard a

29

00:02:11,490 --> 00:02:20,330
talk on pharmaceuticals two days ago and

30
00:02:15,840 --> 00:02:23,400
we need safe practices so how do we

31
00:02:20,330 --> 00:02:26,570
combine what's uh what's the way to

32
00:02:23,400 --> 00:02:32,370
approach this very challenging situation

33
00:02:26,569 --> 00:02:34,349
so many of you know Bruce Lipton we are

34
00:02:32,370 --> 00:02:39,390
introduced to his work only few weeks

35
00:02:34,349 --> 00:02:42,870
ago his documents in this book biology

36
00:02:39,389 --> 00:02:45,119
of belief that cutting-edge research

37
00:02:42,870 --> 00:02:48,810
shows the specific frequencies and

38
00:02:45,120 --> 00:02:52,620
patterns of e/m radiation regulate DNA

39
00:02:48,810 --> 00:02:55,229
RNA protein synthesis on and on and I

40
00:02:52,620 --> 00:02:59,459
have given you a page number even more

41
00:02:55,229 --> 00:03:03,599
interestingly he based on some published

42
00:02:59,459 --> 00:03:05,819
work forty years ago he's saying that

43
00:03:03,599 --> 00:03:08,090

the electromagnetic frequencies are

44

00:03:05,819 --> 00:03:11,669
hundred times more efficient in

45

00:03:08,090 --> 00:03:14,489
regulating the cell behavior and relying

46

00:03:11,669 --> 00:03:17,849
on one wind information than physical or

47

00:03:14,489 --> 00:03:21,239
chemical signals this is pretty amazing

48

00:03:17,849 --> 00:03:23,939
so based on this the overarching

49

00:03:21,239 --> 00:03:26,549
hypothesis of a research is that

50

00:03:23,939 --> 00:03:30,090
eeehm energy input to crops can greatly

51

00:03:26,549 --> 00:03:32,879
increase yield without any of the health

52

00:03:30,090 --> 00:03:34,950
and environment hazards that chemical

53

00:03:32,879 --> 00:03:40,169
agriculture has introduced over a very

54

00:03:34,949 --> 00:03:43,549
specific agenda to to pursue this so

55

00:03:40,169 --> 00:03:43,549
that's what I'll be showing you

56

00:03:43,848 --> 00:03:48,589
so I want to not take you a little bit

57

00:03:46,340 --> 00:03:53,930
I'll be going back and forth different

58
00:03:48,590 --> 00:03:56,299
ancient Indian practices and science and

59
00:03:53,930 --> 00:03:59,480
the modern science so in ancient India

60
00:03:56,299 --> 00:04:04,430
my colleague who comes from in a farming

61
00:03:59,479 --> 00:04:07,848
family that the farmers used to offer

62
00:04:04,430 --> 00:04:10,790
worship to soil and water Sun seeds farm

63
00:04:07,848 --> 00:04:13,339
implements farm animals before they

64
00:04:10,789 --> 00:04:16,430
started cultivating their land this is

65
00:04:13,340 --> 00:04:18,620
something quite well established and

66
00:04:16,430 --> 00:04:22,370
only farmers would know

67
00:04:18,620 --> 00:04:25,759
so today the what I will show based on

68
00:04:22,370 --> 00:04:29,300
this research is supports evidence that

69
00:04:25,759 --> 00:04:34,759
how your mind influences the outcome of

70
00:04:29,300 --> 00:04:39,129
your planting there have been some

71
00:04:34,759 --> 00:04:42,370
recent work at Tamil Nadu AG University

72
00:04:39,129 --> 00:04:46,639
there is a product called puncha cavium

73
00:04:42,370 --> 00:04:49,519
which is dess back to the science of our

74
00:04:46,639 --> 00:04:53,750
Veda but this was designed for plants

75
00:04:49,519 --> 00:04:56,329
and that term is rich lowa the rich are

76
00:04:53,750 --> 00:04:59,418
simply means pants and i wear that is

77
00:04:56,329 --> 00:05:01,879
the science of life for plants so Punch

78
00:04:59,418 --> 00:05:05,379
Calvin is the product of cough from call

79
00:05:01,879 --> 00:05:09,228
containing five elements milk called d

80
00:05:05,379 --> 00:05:12,439
dung and you rain in some holistic

81
00:05:09,228 --> 00:05:16,370
combinations and so the new research

82
00:05:12,439 --> 00:05:19,189
which has been carried out at Tamilnadu

83
00:05:16,370 --> 00:05:23,720
a university in Coimbatore and by other

84
00:05:19,189 --> 00:05:27,219
Vittal they have shown that how PG

85
00:05:23,720 --> 00:05:29,900
contains micronutrients steroids

86

00:05:27,220 --> 00:05:34,370
vitamins and several other compounds and

87
00:05:29,899 --> 00:05:37,250
they enhance plant growth so we are so

88
00:05:34,370 --> 00:05:40,668
this ancient product I will show you in

89
00:05:37,250 --> 00:05:42,800
our experiment we use this product to

90
00:05:40,668 --> 00:05:44,948
look at the effect along with other

91
00:05:42,800 --> 00:05:44,949
things

92
00:05:47,819 --> 00:05:56,550
okay let me give you a quick review of

93
00:05:52,350 --> 00:05:59,939
the literature the first experiment was

94
00:05:56,550 --> 00:06:04,050
published by both Jessie bowls in nature

95
00:05:59,939 --> 00:06:07,350
in 1919 and showing that how plants

96
00:06:04,050 --> 00:06:10,650
respond to electromagnetic energy Ostrom

97
00:06:07,350 --> 00:06:16,140
you lie a very nice paper you can look

98
00:06:10,649 --> 00:06:19,289
at it this is then I have done some

99
00:06:16,139 --> 00:06:22,800
research very little I found it a nice

100
00:06:19,290 --> 00:06:25,980

reference by vegetal this is part of a

101

00:06:22,800 --> 00:06:28,829

PhD miner paper at York University

102

00:06:25,980 --> 00:06:33,090

instead review of literature showing

103

00:06:28,829 --> 00:06:35,789

that by oen by electromagnetic and G

104

00:06:33,089 --> 00:06:38,759

which is used in Chinese Chinese

105

00:06:35,790 --> 00:06:43,530

holistic healed healing they are closely

106

00:06:38,759 --> 00:06:46,409

related and he he documents that is if

107

00:06:43,529 --> 00:06:51,769

you have not seen it's really an

108

00:06:46,410 --> 00:06:58,080

excellent reference the first study on

109

00:06:51,769 --> 00:07:01,949

the use of thought involving the bio

110

00:06:58,079 --> 00:07:05,519

p.m. is by rajendran hotel that was done

111

00:07:01,949 --> 00:07:10,769

in India dr. agenda and was a head of

112

00:07:05,519 --> 00:07:15,089

department at one of the specialities at

113

00:07:10,769 --> 00:07:17,969

combat or at Tamilnadu a university and

114

00:07:15,089 --> 00:07:20,609

what he found that plants developed

115
00:07:17,970 --> 00:07:22,410
resistance against not root-knot

116
00:07:20,610 --> 00:07:26,569
nematodes the injected root-knot

117
00:07:22,410 --> 00:07:28,920
nematodes they did this experiment

118
00:07:26,569 --> 00:07:32,399
replications and this is the published

119
00:07:28,920 --> 00:07:34,319
paper I have a list of references I'll

120
00:07:32,399 --> 00:07:37,049
show you so anybody is interested you

121
00:07:34,319 --> 00:07:40,170
can talk to me after that

122
00:07:37,050 --> 00:07:42,000
and finally Lipton says that

123
00:07:40,170 --> 00:07:44,610
groundbreaking experiments show the

124
00:07:42,000 --> 00:07:47,129
influence of environment on cells so if

125
00:07:44,610 --> 00:07:50,730
we can think of electronically energy as

126
00:07:47,129 --> 00:07:57,209
an environmental input so we expect them

127
00:07:50,730 --> 00:07:58,919
expect cells to respond now let me take

128
00:07:57,209 --> 00:08:01,568
you back to ancient science of

129

00:07:58,918 --> 00:08:05,918

non-duality this

130

00:08:01,569 --> 00:08:08,979

is indeed ancient and I don't have that

131

00:08:05,918 --> 00:08:14,978

much time to spend but I'll just give

132

00:08:08,978 --> 00:08:17,740

you a few bullets in the idea of G or in

133

00:08:14,978 --> 00:08:20,639

India what they call life force is a

134

00:08:17,740 --> 00:08:24,038

functional set of body which is

135

00:08:20,639 --> 00:08:26,769

fundamental to ancient science sages

136

00:08:24,038 --> 00:08:30,338

discovered that wrote extensively about

137

00:08:26,769 --> 00:08:33,759

that virtue to reviews that more

138

00:08:30,338 --> 00:08:36,370

recently without three who we have

139

00:08:33,759 --> 00:08:39,430

affiliated with for forty years

140

00:08:36,370 --> 00:08:41,469

he published many books but two books I

141

00:08:39,429 --> 00:08:44,138

have reference here for this audience

142

00:08:41,469 --> 00:08:47,259

when this journey of consciousness and

143

00:08:44,139 --> 00:08:49,810
other is Biomagnetism he define life

144
00:08:47,259 --> 00:08:52,209
force as a group of very minut energy

145
00:08:49,809 --> 00:08:55,750
force particles which are running around

146
00:08:52,208 --> 00:08:58,469
in your body and they generate what we

147
00:08:55,750 --> 00:09:01,690
call by our magnetism that is

148
00:08:58,470 --> 00:09:04,990
experienced in the meditation we don't

149
00:09:01,690 --> 00:09:07,540
have and if anybody is interested you're

150
00:09:04,990 --> 00:09:10,480
welcome to meet with us and we'll give

151
00:09:07,539 --> 00:09:12,338
you a live demonstration about your bio

152
00:09:10,480 --> 00:09:14,528
magnetism so it will make it very

153
00:09:12,339 --> 00:09:20,019
concrete that we are not ready talking

154
00:09:14,528 --> 00:09:22,360
about some hypothetical stuff so there

155
00:09:20,019 --> 00:09:26,948
has been one book published in India

156
00:09:22,360 --> 00:09:29,889
they D they did eg experiment mister the

157
00:09:26,948 --> 00:09:32,799

mudra and he did it on himself and he

158

00:09:29,889 --> 00:09:35,649
recorded that the stages of four

159

00:09:32,799 --> 00:09:38,500
meditations that are taught in sky sky

160

00:09:35,649 --> 00:09:42,759
simply simplified Kundalini Yoga they

161

00:09:38,500 --> 00:09:45,480
relate to these four frequencies beta is

162

00:09:42,759 --> 00:09:47,938
a normal frequency that we are

163

00:09:45,480 --> 00:09:51,310
overworking straight frequency alpha

164

00:09:47,938 --> 00:09:55,318
eight to thirteen cycle per second theta

165

00:09:51,309 --> 00:09:58,838
and delta and bruce lipton in his book

166

00:09:55,318 --> 00:10:01,059
mentioned that programming in the early

167

00:09:58,839 --> 00:10:04,209
ages for children happens at the end

168

00:10:01,059 --> 00:10:06,638
theta and delta frequencies and that

169

00:10:04,208 --> 00:10:09,938
controls ninety four ninety five percent

170

00:10:06,639 --> 00:10:13,360
of your life including diseases and

171

00:10:09,938 --> 00:10:15,289
sounds very fascinating so the point I'm

172
00:10:13,360 --> 00:10:17,690
making is that through Skype

173
00:10:15,289 --> 00:10:20,750
you can access this frequency we teach

174
00:10:17,690 --> 00:10:23,089
there systematically without involving

175
00:10:20,750 --> 00:10:26,059
any gurus and all that this is and

176
00:10:23,089 --> 00:10:31,160
secular knowledge and it dates back to

177
00:10:26,059 --> 00:10:34,309
ancient science so I put two hypotheses

178
00:10:31,159 --> 00:10:35,990
here for this talk that bio am energy

179
00:10:34,309 --> 00:10:39,679
is much stronger in lower mental

180
00:10:35,990 --> 00:10:42,759
frequencies than in normal so in in in

181
00:10:39,679 --> 00:10:46,338
giving thought transactions to the crop

182
00:10:42,759 --> 00:10:48,949
we are actually using by electromagnetic

183
00:10:46,339 --> 00:10:52,779
energy this is the second hypothesis

184
00:10:48,948 --> 00:10:57,198
just to put this thing in some context

185
00:10:52,778 --> 00:10:59,720
okay let's start with the so what we did

186
00:10:57,198 --> 00:11:02,299
there were two experiments conducted at

187
00:10:59,720 --> 00:11:07,040
the temple of consciousness in South

188
00:11:02,299 --> 00:11:09,318
India and that in and we wanted to study

189
00:11:07,039 --> 00:11:11,958
the effect of punch caveum that I

190
00:11:09,318 --> 00:11:13,549
explained to you a little bit and by

191
00:11:11,958 --> 00:11:19,369
aureum energy through thought

192
00:11:13,549 --> 00:11:22,009
transaction the croff was a okra it has

193
00:11:19,370 --> 00:11:25,459
is it's a hybrid crop it's a short ton

194
00:11:22,009 --> 00:11:29,000
crop 19 to 120 days of we could harvest

195
00:11:25,458 --> 00:11:31,549
things and actually take measurements so

196
00:11:29,000 --> 00:11:36,139
here is some statistics for you sowing

197
00:11:31,549 --> 00:11:37,909
death was 7 7 2010 randomized blockers

198
00:11:36,139 --> 00:11:40,789
design of experiments there were 6

199
00:11:37,909 --> 00:11:43,219
treatments I'll explain in a minute for

200

00:11:40,789 --> 00:11:45,769
replications in experiment 1 so we

201
00:11:43,220 --> 00:11:49,730
wanted to repeat of ourselves make sure

202
00:11:45,769 --> 00:11:53,509
that we are not doing this thing now

203
00:11:49,730 --> 00:11:59,360
this is done properly plot size about 4

204
00:11:53,509 --> 00:12:03,740
beta to 5 meters experiment to number of

205
00:11:59,360 --> 00:12:05,600
preachments 3 replications 7 that was

206
00:12:03,740 --> 00:12:07,909
designed after we got results from

207
00:12:05,600 --> 00:12:13,009
experiment once or three replicates that

208
00:12:07,909 --> 00:12:14,740
we cut out they were not needed so let

209
00:12:13,009 --> 00:12:17,600
me explain what these treatments were

210
00:12:14,740 --> 00:12:21,079
the all thoughts were translated in

211
00:12:17,600 --> 00:12:25,278
theta frequency because my first author

212
00:12:21,078 --> 00:12:27,279
is a senior sky professor he is director

213
00:12:25,278 --> 00:12:30,480
of research and development

214
00:12:27,279 --> 00:12:32,949

world community service center so he is

215

00:12:30,480 --> 00:12:35,769
completely qualified to do that

216

00:12:32,950 --> 00:12:37,830
so first treatment was thought

217

00:12:35,769 --> 00:12:40,509
transacted for two minutes

218

00:12:37,830 --> 00:12:41,580
second treatment thought transacted for

219

00:12:40,509 --> 00:12:44,590
five minutes

220

00:12:41,580 --> 00:12:47,440
third treatment thought learned yet for

221

00:12:44,590 --> 00:12:50,550
two minutes and three percent spare of

222

00:12:47,440 --> 00:12:53,320
pancha cavium we are combining these two

223

00:12:50,549 --> 00:12:58,120
five minutes outline directed were three

224

00:12:53,320 --> 00:13:01,530
percent spray of panchgavya treatment

225

00:12:58,120 --> 00:13:04,299
five only pence cavium nor thoughts and

226

00:13:01,529 --> 00:13:06,519
finally the untreated control so we have

227

00:13:04,299 --> 00:13:10,859
six experiments to really look at the

228

00:13:06,519 --> 00:13:13,240
effect of what's going on procedure was

229
00:13:10,860 --> 00:13:15,460
that the first author gave thought

230
00:13:13,240 --> 00:13:18,220
transaction on all plots except the

231
00:13:15,460 --> 00:13:21,400
control between 6:30 a.m. and 8:30 a.m.

232
00:13:18,220 --> 00:13:24,730
that's when the energy is good you're

233
00:13:21,399 --> 00:13:26,319
not tired and this was then as I

234
00:13:24,730 --> 00:13:29,529
mentioned to you at the temple of

235
00:13:26,320 --> 00:13:33,129
consciousness and alia the experiment

236
00:13:29,529 --> 00:13:38,949
was continued for 60 days and Croft was

237
00:13:33,129 --> 00:13:41,620
harvested for treatment 3 t3 and t4 3%

238
00:13:38,950 --> 00:13:46,060
pancha carving was played between 4:30

239
00:13:41,620 --> 00:13:48,339
and 5:30 p.m. a 10-day interval the

240
00:13:46,059 --> 00:13:51,759
yield of pods was recorded from 1st to

241
00:13:48,339 --> 00:13:54,820
the 8th harvest over this one 60 day

242
00:13:51,759 --> 00:13:58,210
period and observations were also made

243
00:13:54,820 --> 00:14:00,670
in on pesticides while this was going on

244
00:13:58,210 --> 00:14:02,589
there is absolutely no use of any

245
00:14:00,669 --> 00:14:06,849
chemicals or pesticides or herbicides

246
00:14:02,589 --> 00:14:10,450
nothing it's a purely electromagnetic

247
00:14:06,850 --> 00:14:12,580
and organic experiment but he was

248
00:14:10,450 --> 00:14:15,970
recording because being a biologist he

249
00:14:12,580 --> 00:14:21,129
was observing what goes on on these

250
00:14:15,970 --> 00:14:25,720
crops so I'll show you one figure that

251
00:14:21,129 --> 00:14:28,689
this is taken the growth of the okra I

252
00:14:25,720 --> 00:14:33,430
have not don't have time to really give

253
00:14:28,690 --> 00:14:38,320
you more figures here that I have so now

254
00:14:33,429 --> 00:14:40,870
let's look at so this is experiment one

255
00:14:38,320 --> 00:14:46,660
I'm showing you

256
00:14:40,870 --> 00:14:50,019
see if I can get this thing so these are

257

00:14:46,659 --> 00:14:54,370
the six treatments these are four

258
00:14:50,019 --> 00:14:58,240
replications and the numbers of the

259
00:14:54,370 --> 00:15:00,839
yield of okra in kilogram and at the end

260
00:14:58,240 --> 00:15:04,389
of this you are giving you the mean and

261
00:15:00,839 --> 00:15:07,350
standard deviation is calculated from

262
00:15:04,389 --> 00:15:11,500
all the samples combined together and

263
00:15:07,350 --> 00:15:14,110
here we are showing you the percentage

264
00:15:11,500 --> 00:15:17,620
increase in yield so please notice here

265
00:15:14,110 --> 00:15:23,500
this is control for punch caveum alone

266
00:15:17,620 --> 00:15:26,080
which is t5 68% increase in yield which

267
00:15:23,500 --> 00:15:30,309
is pretty good support that why indians

268
00:15:26,080 --> 00:15:33,430
developed this thus two minute thought

269
00:15:30,309 --> 00:15:36,939
transaction gives you eighty seven point

270
00:15:33,429 --> 00:15:39,149
eight nine percent increase in yield but

271
00:15:36,940 --> 00:15:45,610

when you go to t2 which is five-minute

272

00:15:39,149 --> 00:15:49,659

the yield increases to 120 0.84 then you

273

00:15:45,610 --> 00:15:52,870

go to t4 and t5 which is punch a car vm

274

00:15:49,659 --> 00:15:53,588

to emmaus punch caveum of combined with

275

00:15:52,870 --> 00:15:57,759

five minutes

276

00:15:53,589 --> 00:16:02,589

the hills are about the same as in the 2

277

00:15:57,759 --> 00:16:05,069

T 2 2 3 T 3 and T 4 in the second

278

00:16:02,589 --> 00:16:08,950

experiment the results are very similar

279

00:16:05,070 --> 00:16:12,480

we only use T 2 T 1 and against our

280

00:16:08,950 --> 00:16:17,259

control and you see that the increase

281

00:16:12,480 --> 00:16:19,690

with T 5 is 114 percent and T 1 which is

282

00:16:17,259 --> 00:16:21,278

two minutes out transaction is a just

283

00:16:19,690 --> 00:16:27,490

experience increase you give you the

284

00:16:21,278 --> 00:16:29,139

standard deviation the results of these

285

00:16:27,490 --> 00:16:33,820

two experiments are Croft with

286
00:16:29,139 --> 00:16:38,559
treatments T 2 and T 3 and T 4 gave

287
00:16:33,820 --> 00:16:44,080
approximately 120 120 percent increase

288
00:16:38,559 --> 00:16:49,869
in mean yield Tito gave battery ill then

289
00:16:44,080 --> 00:16:52,420
T 1 T Phi which is punch card on million

290
00:16:49,870 --> 00:16:54,200
only 68 percent was the lowest compared

291
00:16:52,419 --> 00:16:58,689
to t1 t2

292
00:16:54,200 --> 00:17:01,520
3 3 and T 4 no in Syria of certain pests

293
00:16:58,690 --> 00:17:05,150
was found in the which appeared in the

294
00:17:01,519 --> 00:17:07,069
second week after germination best for

295
00:17:05,150 --> 00:17:10,280
totally supplied by natural and he was

296
00:17:07,069 --> 00:17:12,740
like ladybug beetle and hover flies so

297
00:17:10,279 --> 00:17:16,309
it's a self-organizing system so you

298
00:17:12,740 --> 00:17:18,709
have passive galloping but also the pest

299
00:17:16,309 --> 00:17:21,470
control animals were also developing

300
00:17:18,709 --> 00:17:25,880
killing the pests without needing any

301
00:17:21,470 --> 00:17:28,279
pesticides experiment 2 are in give

302
00:17:25,880 --> 00:17:34,640
similar is also experiment once I won't

303
00:17:28,279 --> 00:17:37,670
say anymore so conclusive that plant

304
00:17:34,640 --> 00:17:42,020
responds well to the bio electromagnetic

305
00:17:37,670 --> 00:17:45,470
energy at five minute thought

306
00:17:42,019 --> 00:17:48,079
transaction the the me kneeled is 120

307
00:17:45,470 --> 00:17:51,110
percent without requiring even pancha

308
00:17:48,079 --> 00:17:54,679
cavium I would reserve support previous

309
00:17:51,109 --> 00:18:01,729
findings of Lipton that e/m is the most

310
00:17:54,680 --> 00:18:04,940
efficient way to increase yield the

311
00:18:01,730 --> 00:18:07,279
combination of 5-minute and punch caveum

312
00:18:04,940 --> 00:18:10,789
did not give more real than punch Karima

313
00:18:07,279 --> 00:18:12,740
thus TT alone tt 5 minutes the best

314

00:18:10,789 --> 00:18:15,549
multiplication was necessary suppressed

315
00:18:12,740 --> 00:18:18,680
which are requiring any pesticides

316
00:18:15,549 --> 00:18:22,129
greatly it's possible is feasible to

317
00:18:18,680 --> 00:18:24,640
increase production without chemicals

318
00:18:22,130 --> 00:18:27,430
without any of this junk which

319
00:18:24,640 --> 00:18:31,220
corporations are introducing and

320
00:18:27,430 --> 00:18:34,370
increase human health I was talking to

321
00:18:31,220 --> 00:18:38,180
John yesterday that human health is a

322
00:18:34,369 --> 00:18:42,379
very big issue I will give you three

323
00:18:38,180 --> 00:18:46,190
simple questions so what I'm am water

324
00:18:42,380 --> 00:18:48,460
guy drought resistance is a very big

325
00:18:46,190 --> 00:18:53,210
issue we want to conduct experiments

326
00:18:48,460 --> 00:18:56,150
that when you decrease water input what

327
00:18:53,210 --> 00:18:58,130
happens to the yield what's the maximum

328
00:18:56,150 --> 00:18:59,810

yield capacity of an Omaha biologist

329

00:18:58,130 --> 00:19:02,600

friend tells me that there is a

330

00:18:59,809 --> 00:19:04,909

distribution between root and shoots so

331

00:19:02,599 --> 00:19:05,719

you cannot go on increasing yield

332

00:19:04,910 --> 00:19:07,080

forever

333

00:19:05,720 --> 00:19:10,470

we want to know what

334

00:19:07,079 --> 00:19:13,500

limit given the soil types and water and

335

00:19:10,470 --> 00:19:16,470

temperatures and so on so this is what I

336

00:19:13,500 --> 00:19:20,009

am saying there was the optimal

337

00:19:16,470 --> 00:19:26,880

environment conditions I like to

338

00:19:20,009 --> 00:19:32,369

acknowledge the sage scientists there

339

00:19:26,880 --> 00:19:35,460

who was originator of this conveying the

340

00:19:32,369 --> 00:19:38,099

science the meditation the magnetism the

341

00:19:35,460 --> 00:19:39,840

science of nature I have more

342

00:19:38,099 --> 00:19:42,629

information on that if somebody is

343
00:19:39,839 --> 00:19:46,129
interested mr. velman this is the

344
00:19:42,630 --> 00:19:48,809
president of WCS in India he helped

345
00:19:46,130 --> 00:19:52,440
provided my wife in the Ryan J levonne

346
00:19:48,808 --> 00:19:54,778
she's a psychotherapist in Longmont were

347
00:19:52,440 --> 00:19:57,960
very helpful in editing and referencing

348
00:19:54,778 --> 00:20:00,388
this research so with that this is the

349
00:19:57,960 --> 00:20:05,759
list of references for you thank you

350
00:20:00,388 --> 00:20:08,729
very much thank you very much I'd like

351
00:20:05,759 --> 00:20:10,079
to take advantage of my having a

352
00:20:08,730 --> 00:20:11,009
microphone in my hand asked one question

353
00:20:10,079 --> 00:20:13,918
please

354
00:20:11,009 --> 00:20:16,500
you used a particular meditation could

355
00:20:13,919 --> 00:20:20,669
you comment on and you also used a very

356
00:20:16,500 --> 00:20:23,730
highly a highly high level practitioner

357
00:20:20,669 --> 00:20:26,490
could you comment on how practical it

358
00:20:23,730 --> 00:20:27,149
might be for people who are to do it

359
00:20:26,490 --> 00:20:30,149
themselves

360
00:20:27,148 --> 00:20:34,288
learn how or to use other forms of

361
00:20:30,148 --> 00:20:38,638
meditation we are this meditation is

362
00:20:34,288 --> 00:20:40,589
called simplified Kundalini Yoga many of

363
00:20:38,638 --> 00:20:43,398
you I have been talking to we have been

364
00:20:40,589 --> 00:20:45,898
talking to what with Kundalini energy

365
00:20:43,398 --> 00:20:50,788
there's been much written about it but

366
00:20:45,898 --> 00:20:52,250
this in this meditation the side effects

367
00:20:50,788 --> 00:20:55,408
of Kundalini have been completely

368
00:20:52,250 --> 00:20:59,519
streamlined so we teach you how to

369
00:20:55,409 --> 00:21:02,639
balance your Kundalini and so you don't

370
00:20:59,519 --> 00:21:06,329
get into any trouble and we teach you

371

00:21:02,638 --> 00:21:09,629
systematically so for example when we

372
00:21:06,329 --> 00:21:13,199
raise energy is by touch but we can also

373
00:21:09,630 --> 00:21:15,750
do that by thought we bypass these four

374
00:21:13,200 --> 00:21:17,750
centers in the middle so we take energy

375
00:21:15,750 --> 00:21:20,480
from we load out two

376
00:21:17,750 --> 00:21:22,490
igneous rock rock you develop that you

377
00:21:20,480 --> 00:21:26,380
feel your energy as a physical sensation

378
00:21:22,490 --> 00:21:30,400
as throbbing feelings is very distinct

379
00:21:26,380 --> 00:21:33,860
after that we take you back to mooladhar

380
00:21:30,400 --> 00:21:36,920
because mullah HOD is the normal seat of

381
00:21:33,859 --> 00:21:39,529
kundalini everybody must know how to

382
00:21:36,920 --> 00:21:41,840
balance the energy in moola so we teach

383
00:21:39,529 --> 00:21:44,329
you that the second stage so whenever

384
00:21:41,839 --> 00:21:47,539
you get into trouble you are anxious or

385
00:21:44,329 --> 00:21:50,839

energies not working with you go to

386

00:21:47,539 --> 00:21:51,589

moola are we exactly teach you then we

387

00:21:50,839 --> 00:21:54,139

take you

388

00:21:51,589 --> 00:21:57,409

so here the energy is working in alphas

389

00:21:54,140 --> 00:22:02,110

alpha frequency the third stages we take

390

00:21:57,410 --> 00:22:07,160

you to theta frequency this is called

391

00:22:02,109 --> 00:22:09,109

sastra Center so the measurement of the

392

00:22:07,160 --> 00:22:12,769

modern so that energy is in theta

393

00:22:09,109 --> 00:22:17,959

frequency so Lakshmanan only needs to do

394

00:22:12,769 --> 00:22:21,730

this to thought transaction on and so on

395

00:22:17,960 --> 00:22:24,890

I just want to make a comment that

396

00:22:21,730 --> 00:22:29,750

actually plant yield is not any more a

397

00:22:24,890 --> 00:22:31,370

reliable way of determining culture in

398

00:22:29,750 --> 00:22:32,839

order to do that but when you increase

399

00:22:31,369 --> 00:22:34,099

plant yield what you usually do is you

400
00:22:32,839 --> 00:22:36,319
stress the plan and therefore it becomes

401
00:22:34,099 --> 00:22:38,839
unhealthy so there are two ways in order

402
00:22:36,319 --> 00:22:39,980
to speaker the mic there are two ways to

403
00:22:38,839 --> 00:22:42,500
determine plant health

404
00:22:39,980 --> 00:22:44,480
one is through Brix readings and the

405
00:22:42,500 --> 00:22:45,980
others through a plant SAP and so by

406
00:22:44,480 --> 00:22:47,750
using those you can get objective

407
00:22:45,980 --> 00:22:49,370
measurements rather than just using

408
00:22:47,750 --> 00:22:51,200
plant yield which is not necessarily

409
00:22:49,369 --> 00:22:52,549
reliable indicator and so I would

410
00:22:51,200 --> 00:22:55,100
suggest we could talk about that

411
00:22:52,549 --> 00:22:57,559
afterwards about more objective ways in

412
00:22:55,099 --> 00:22:59,539
order to add to the to the science of

413
00:22:57,559 --> 00:23:01,609
this haven't really appreciate that we

414
00:22:59,539 --> 00:23:10,700
are very interested in getting this kind

415
00:23:01,609 --> 00:23:13,519
of input thank you Tom sort of follow up

416
00:23:10,700 --> 00:23:15,769
on dr. Nelson's question I I know you

417
00:23:13,519 --> 00:23:17,990
gave a brief description of the

418
00:23:15,769 --> 00:23:20,750
technique I just wanted to know you use

419
00:23:17,990 --> 00:23:23,089
the word thought so is there actually a

420
00:23:20,750 --> 00:23:24,769
conscious thought involved in the

421
00:23:23,089 --> 00:23:29,569
thought transaction

422
00:23:24,769 --> 00:23:31,639
and a related question is that I know

423
00:23:29,569 --> 00:23:33,919
that there is a technique the Chinese

424
00:23:31,640 --> 00:23:37,759
use I've read about that they like to

425
00:23:33,920 --> 00:23:40,580
call it mindful attention or meditation

426
00:23:37,759 --> 00:23:42,589
as opposed to mindless and at one of the

427
00:23:40,579 --> 00:23:45,859
SSE conferences there was a paper

428

00:23:42,589 --> 00:23:48,199
presented showing that in the mindful

429
00:23:45,859 --> 00:23:52,609
meditation the frequency actually

430
00:23:48,200 --> 00:23:54,558
increased rather than decreased so one

431
00:23:52,609 --> 00:23:56,689
question is is there actually any heart

432
00:23:54,558 --> 00:23:58,250
involved and secondly do you think that

433
00:23:56,690 --> 00:24:00,049
it's possible for the frequency to

434
00:23:58,250 --> 00:24:03,259
actually increase and give similar

435
00:24:00,049 --> 00:24:06,409
results on the first question the answer

436
00:24:03,259 --> 00:24:10,940
is yes professor Lakshmi one was

437
00:24:06,410 --> 00:24:14,480
actually telling the crops that may you

438
00:24:10,940 --> 00:24:16,610
be protected against the pests may you

439
00:24:14,480 --> 00:24:19,789
produce good yield so there was a

440
00:24:16,609 --> 00:24:22,519
positive thought given to the crops when

441
00:24:19,789 --> 00:24:25,039
he was doing this thought language for

442
00:24:22,519 --> 00:24:27,379

two minutes and five minutes on the

443

00:24:25,039 --> 00:24:31,609

second thing I really do not know enough

444

00:24:27,380 --> 00:24:33,140

to make any comment either way but we

445

00:24:31,609 --> 00:24:36,859

can talk about this I'll be very

446

00:24:33,140 --> 00:24:38,890

interested to find out so thank you very

447

00:24:36,859 --> 00:24:40,919

much okay thank you

448

00:24:38,890 --> 00:24:48,089

[Applause]

449

00:24:40,920 --> 00:24:48,089

[Music]
