

1  
00:00:00,000 --> 00:00:06,389  
we see typically a little bit larger

2  
00:00:03,060 --> 00:00:08,699  
response to it then we do for the whole

3  
00:00:06,389 --> 00:00:13,558  
network is that answering your question

4  
00:00:08,699 --> 00:00:17,059  
yeah yeah we don't have that much

5  
00:00:13,558 --> 00:00:19,769  
sophistication yet we're working on it

6  
00:00:17,059 --> 00:00:21,989  
Roger comment about your wrist

7  
00:00:19,769 --> 00:00:23,660  
appropriate response to the question

8  
00:00:21,989 --> 00:00:26,939  
over here about could you specify

9  
00:00:23,660 --> 00:00:28,920  
behavior on the rigs I appreciate your

10  
00:00:26,939 --> 00:00:31,649  
saying well we're in this group we know

11  
00:00:28,920 --> 00:00:35,609  
anything is possible but more

12  
00:00:31,649 --> 00:00:38,488  
specifically the question you ask is so

13  
00:00:35,609 --> 00:00:39,869  
significant it makes me think of Bel

14  
00:00:38,488 --> 00:00:42,269  
tellers work with intentionally

15  
00:00:39,869 --> 00:00:44,640  
imprinted electronic devices where he

16  
00:00:42,270 --> 00:00:47,309  
works with specific very very specific

17  
00:00:44,640 --> 00:00:49,500  
processes and questions so I would say

18  
00:00:47,308 --> 00:00:53,009  
the tiller work combined with this work

19  
00:00:49,500 --> 00:00:55,920  
so as the answer is yes is I think it is

20  
00:00:53,009 --> 00:00:57,808  
definitely yes but it's something that

21  
00:00:55,920 --> 00:01:00,090  
we have only begun to explore I mean

22  
00:00:57,808 --> 00:01:03,119  
we've formulated the question and it's a

23  
00:01:00,090 --> 00:01:04,379  
it needs a little more refinement and

24  
00:01:03,119 --> 00:01:07,200  
then it would be a good question which

25  
00:01:04,379 --> 00:01:09,090  
will have the answer embedded in it bill

26  
00:01:07,200 --> 00:01:11,040  
Roger do you have any results in the

27  
00:01:09,090 --> 00:01:13,079  
Chinese Chinese earthquakes did you ever

28  
00:01:11,040 --> 00:01:16,409  
because located yes the Chinese

29

00:01:13,079 --> 00:01:18,959  
earthquake is positive deviation is not

30  
00:01:16,409 --> 00:01:21,900  
itself highly significant we have

31  
00:01:18,959 --> 00:01:25,169  
learned over time slowly that major

32  
00:01:21,900 --> 00:01:27,420  
disasters the effects on human

33  
00:01:25,170 --> 00:01:30,990  
consciousness and the emotional state of

34  
00:01:27,420 --> 00:01:34,609  
the world develop over days not in a few

35  
00:01:30,989 --> 00:01:37,500  
hours that typically are our events so

36  
00:01:34,609 --> 00:01:42,140  
the answer is yes there's definitely an

37  
00:01:37,500 --> 00:01:42,140  
effect registered Thank You Roger
