

1  
00:00:00,890 --> 00:00:07,290  
filtering in I'm interested in I don't

2  
00:00:05,759 --> 00:00:11,339  
know if the transitioning is the good

3  
00:00:07,290 --> 00:00:13,230  
part or the profit come in Garrett's

4  
00:00:11,339 --> 00:00:15,210  
work just before you do some basic

5  
00:00:13,230 --> 00:00:17,339  
research and your transition to clinical

6  
00:00:15,210 --> 00:00:19,019  
data and that's the way I think we've

7  
00:00:17,339 --> 00:00:20,879  
conventionally thought of of the way

8  
00:00:19,019 --> 00:00:23,368  
research goes I'm not sure how much that

9  
00:00:20,879 --> 00:00:25,049  
applies I think a couple of slides from

10  
00:00:23,368 --> 00:00:28,710  
now I have the possibility that in

11  
00:00:25,050 --> 00:00:30,929  
healing arts and I investigate the

12  
00:00:28,710 --> 00:00:32,579  
energy healing I guess that oftentimes

13  
00:00:30,928 --> 00:00:36,000  
it goes in the opposite direction that

14  
00:00:32,579 --> 00:00:37,910  
we see something clinically and then we

15  
00:00:36,000 --> 00:00:39,689  
try to figure out what what happens

16  
00:00:37,909 --> 00:00:42,269  
there are a number of people in this

17  
00:00:39,689 --> 00:00:44,670  
room who are experimentalists I consider

18  
00:00:42,270 --> 00:00:45,870  
myself among them and there are a number

19  
00:00:44,670 --> 00:00:48,780  
of people in this room who are

20  
00:00:45,869 --> 00:00:51,959  
clinicians and I consider myself among

21  
00:00:48,780 --> 00:00:53,879  
them so I've played in the in the

22  
00:00:51,960 --> 00:00:56,039  
healing arts and the energy healing arts

23  
00:00:53,878 --> 00:00:57,628  
in an experimental camp I've played on

24  
00:00:56,039 --> 00:01:01,410  
in the clinical camp so I've been on

25  
00:00:57,628 --> 00:01:03,420  
both I guess I'm bipolar I don't know so

26  
00:01:01,409 --> 00:01:05,579  
I've been on booked yet on the

27  
00:01:03,420 --> 00:01:08,159  
borderline schizophrenic but bipolar and

28  
00:01:05,579 --> 00:01:10,679  
so I played it in both sides and

29

00:01:08,159 --> 00:01:13,859  
probably in my own history I started by

30  
00:01:10,680 --> 00:01:15,750  
observing clinical phenomena of healing

31  
00:01:13,859 --> 00:01:18,478  
and then I I tried to take it into the

32  
00:01:15,750 --> 00:01:20,250  
lab and figure out what's behind it so I

33  
00:01:18,478 --> 00:01:22,908  
guess in a perverse sense I've been

34  
00:01:20,250 --> 00:01:25,379  
going into the lab to try to figure out

35  
00:01:22,909 --> 00:01:27,630  
how I do what I already know how to do I

36  
00:01:25,379 --> 00:01:29,519  
don't know how else to put that so the

37  
00:01:27,629 --> 00:01:31,438  
clinical stuff comes naturally the

38  
00:01:29,519 --> 00:01:34,728  
experimental work is really interesting

39  
00:01:31,438 --> 00:01:37,578  
but those people who are not bipolar

40  
00:01:34,728 --> 00:01:39,420  
I've come into some interesting

41  
00:01:37,578 --> 00:01:41,298  
circumstances where clinical people

42  
00:01:39,420 --> 00:01:42,899  
really think clinically and

43  
00:01:41,299 --> 00:01:46,140

experimentalists really think

44

00:01:42,899 --> 00:01:48,710  
experimentally and and the twins don't

45

00:01:46,140 --> 00:01:51,149  
meet and and just as a quick

46

00:01:48,709 --> 00:01:53,429  
illustration a friend of mine who's an

47

00:01:51,149 --> 00:01:55,259  
internist an MD internist practicing

48

00:01:53,430 --> 00:01:57,810  
internist and he's trying to give up

49

00:01:55,259 --> 00:02:00,989  
medicine to become a healer which i

50

00:01:57,810 --> 00:02:03,060  
think is pretty interesting and so I

51

00:02:00,989 --> 00:02:05,368  
introduced him to another person that I

52

00:02:03,060 --> 00:02:07,950  
know who used to be a pediatric

53

00:02:05,368 --> 00:02:10,979  
oncologist who had given that up ten

54

00:02:07,950 --> 00:02:13,560  
years ago in is a healer and so they're

55

00:02:10,979 --> 00:02:17,129  
going the route from conventionally

56

00:02:13,560 --> 00:02:19,409  
medical training to healing the healing

57

00:02:17,128 --> 00:02:21,090  
arts energy healing arts smite

58  
00:02:19,409 --> 00:02:23,519  
introduced a two of them but I had a

59  
00:02:21,090 --> 00:02:26,098  
very instructive meeting a couple years

60  
00:02:23,519 --> 00:02:29,400  
ago with the the first guy the internist

61  
00:02:26,098 --> 00:02:31,768  
and he in he came to me he said well I'm

62  
00:02:29,400 --> 00:02:33,209  
aware of some of your publications and

63  
00:02:31,769 --> 00:02:35,039  
some of your data and all these other

64  
00:02:33,209 --> 00:02:36,719  
kinds of things and and what what are

65  
00:02:35,039 --> 00:02:39,329  
the techniques you use when you do your

66  
00:02:36,719 --> 00:02:40,739  
experiments what what how do you heal so

67  
00:02:39,330 --> 00:02:42,330  
I started going through here's a

68  
00:02:40,739 --> 00:02:43,769  
technique one here's a technique to

69  
00:02:42,330 --> 00:02:45,510  
here's a technique three here's a

70  
00:02:43,769 --> 00:02:47,280  
technique for and I'm and I'm doing it

71  
00:02:45,509 --> 00:02:50,699  
with all the conventional experimental

72  
00:02:47,280 --> 00:02:53,669  
caveats and those included I don't have

73  
00:02:50,699 --> 00:02:55,318  
a clue what works so I don't know if I'm

74  
00:02:53,669 --> 00:02:57,268  
using four techniques and I'm throw in

75  
00:02:55,318 --> 00:02:59,098  
the kitchen sink at a healing problem I

76  
00:02:57,269 --> 00:03:01,650  
don't know what works and you know in a

77  
00:02:59,098 --> 00:03:06,060  
similar way that that how do I pass out

78  
00:03:01,650 --> 00:03:08,939  
there's technique one compliment detract

79  
00:03:06,060 --> 00:03:10,709  
from I don't know and and he looked at

80  
00:03:08,939 --> 00:03:13,919  
me with a complete straight face this is

81  
00:03:10,709 --> 00:03:18,019  
a MD and he said what's the difference

82  
00:03:13,919 --> 00:03:22,169  
and then we just stared at each other

83  
00:03:18,019 --> 00:03:27,450  
and I had nothing to say and after a

84  
00:03:22,169 --> 00:03:30,179  
long astonished pause I said that's what

85  
00:03:27,449 --> 00:03:33,209  
matters I need to find out what's behind

86

00:03:30,180 --> 00:03:35,040  
all this stuff and I realized that I

87  
00:03:33,209 --> 00:03:37,859  
can't just be a clinician it would drive

88  
00:03:35,039 --> 00:03:40,888  
me nuts and I don't know how to parse

89  
00:03:37,859 --> 00:03:42,569  
out clinical effects so Alistair's

90  
00:03:40,889 --> 00:03:44,310  
talked before I'm sitting there thinking

91  
00:03:42,568 --> 00:03:46,289  
oh and the questions that people were

92  
00:03:44,310 --> 00:03:47,489  
asking and you said I you know I don't

93  
00:03:46,289 --> 00:03:50,189  
know what works how do you get this

94  
00:03:47,489 --> 00:03:50,959  
product it's a it's a very complicated

95  
00:03:50,189 --> 00:03:53,810  
world to live in

96  
00:03:50,959 --> 00:03:56,789  
so I'm bipolar and I live in both worlds

97  
00:03:53,810 --> 00:03:58,620  
and and I'd like to to talk about some

98  
00:03:56,789 --> 00:04:01,409  
experimental data some clinical

99  
00:03:58,620 --> 00:04:03,810  
applications and then this actually

100  
00:04:01,409 --> 00:04:05,759

turns out to be ten years since I first

101

00:04:03,810 --> 00:04:07,469

gave a presentation on energy healing

102

00:04:05,759 --> 00:04:09,030

the first time ever did it was that ten

103

00:04:07,469 --> 00:04:11,639

years ago at an SSE meeting in

104

00:04:09,030 --> 00:04:15,989

Albuquerque and at that time I had done

105

00:04:11,639 --> 00:04:18,930

for research lab experiments on cancer

106

00:04:15,989 --> 00:04:19,358

by this time I'm up to many more than

107

00:04:18,930 --> 00:04:21,009

that

108

00:04:19,358 --> 00:04:23,680

and I think I've learned some things and

109

00:04:21,009 --> 00:04:25,000

I want to kind of sum it up and I want

110

00:04:23,680 --> 00:04:27,280

to sum it up with the balance between

111

00:04:25,000 --> 00:04:31,300

experimental and clinical you see how

112

00:04:27,279 --> 00:04:33,068

that goes so my question here

113

00:04:31,300 --> 00:04:34,870

I don't read from slides which comes

114

00:04:33,069 --> 00:04:37,060

first data or clinical application it's

115  
00:04:34,870 --> 00:04:39,340  
probably oftentimes it's clinical

116  
00:04:37,060 --> 00:04:40,538  
experience so probably even the title of

117  
00:04:39,339 --> 00:04:41,948  
my talk is a little off

118  
00:04:40,538 --> 00:04:44,529  
it doesn't necessarily go from

119  
00:04:41,949 --> 00:04:49,360  
experimental data to clinical

120  
00:04:44,529 --> 00:04:50,978  
application if we're doing anomalies

121  
00:04:49,360 --> 00:04:53,340  
research of course things are more

122  
00:04:50,978 --> 00:04:56,228  
complicated because we're going from

123  
00:04:53,339 --> 00:04:57,638  
unexplained phenomenon to trying to make

124  
00:04:56,228 --> 00:04:59,079  
something that presumably if there's

125  
00:04:57,639 --> 00:05:04,389  
clinical application it predictably

126  
00:04:59,079 --> 00:05:06,579  
works so we got unknown compounded with

127  
00:05:04,389 --> 00:05:08,408  
who knows how many variables and trying

128  
00:05:06,579 --> 00:05:12,848  
to make something work in the real

129

00:05:08,408 --> 00:05:14,680

clinical application so I'd like to

130

00:05:12,848 --> 00:05:17,740

summarize a little bit from my energy

131

00:05:14,680 --> 00:05:20,769

energy healing work on cancer and I

132

00:05:17,740 --> 00:05:22,598

break it down alright I'd like to think

133

00:05:20,769 --> 00:05:25,778

in these terms what is it that I know

134

00:05:22,598 --> 00:05:29,348

with reasonable certainty what do I

135

00:05:25,778 --> 00:05:31,468

think I know with some uncertainty what

136

00:05:29,348 --> 00:05:35,228

don't I understand well at all and

137

00:05:31,468 --> 00:05:37,269

basically what am i clueless about and I

138

00:05:35,228 --> 00:05:40,060

assure you in a whole bunch of research

139

00:05:37,269 --> 00:05:42,878

that the dominant place that I am is the

140

00:05:40,060 --> 00:05:46,360

last two categories I don't know much

141

00:05:42,879 --> 00:05:48,069

with reasonable certainty I don't know

142

00:05:46,360 --> 00:05:50,860

that much with a little bit of

143

00:05:48,069 --> 00:05:53,199  
uncertainty I am still mystified every

144  
00:05:50,860 --> 00:05:55,028  
time I do an experiment most of my

145  
00:05:53,199 --> 00:05:57,250  
hypotheses that I generate don't come

146  
00:05:55,028 --> 00:05:59,019  
out the way I expect it indicates to me

147  
00:05:57,250 --> 00:06:01,088  
that I probably don't have a handle on

148  
00:05:59,019 --> 00:06:03,038  
the mechanisms of healing and such and

149  
00:06:01,088 --> 00:06:06,519  
so it's a really complicated problem but

150  
00:06:03,038 --> 00:06:10,718  
it's also pretty interesting so what I'd

151  
00:06:06,519 --> 00:06:13,318  
like to do is give seven propositions in

152  
00:06:10,718 --> 00:06:17,139  
decreasing order of certainty

153  
00:06:13,319 --> 00:06:19,990  
I'm really very reasonably certain about

154  
00:06:17,139 --> 00:06:21,908  
the first I'll be less certain about the

155  
00:06:19,990 --> 00:06:24,610  
second and when I get down to the

156  
00:06:21,908 --> 00:06:27,968  
seventh I'm going you know that kind of

157  
00:06:24,610 --> 00:06:30,250

thing so on the first one proposition

158

00:06:27,968 --> 00:06:31,069

one cancer can be cured using energy

159

00:06:30,250 --> 00:06:32,660

healing I haven't

160

00:06:31,069 --> 00:06:34,759

experimental evidence I have clinical

161

00:06:32,660 --> 00:06:36,890

evidence I got a pile of evidence now

162

00:06:34,759 --> 00:06:38,089

the interesting thing is I began this

163

00:06:36,889 --> 00:06:40,490

research as a skeptic

164

00:06:38,089 --> 00:06:43,069

and so I really stand before you as a

165

00:06:40,490 --> 00:06:45,769

failed skeptic and the evidence has

166

00:06:43,069 --> 00:06:47,689

overwhelmed me and it's overwhelming

167

00:06:45,769 --> 00:06:49,279

clinically and it's overwhelmed me

168

00:06:47,689 --> 00:06:49,969

experimentally and here's the

169

00:06:49,279 --> 00:06:52,429

interesting thing

170

00:06:49,970 --> 00:06:55,310

since I'm constantly amazed I think it

171

00:06:52,430 --> 00:06:57,019

really means I'm still a skeptic and I

172  
00:06:55,310 --> 00:06:59,350  
think that's a good place to be every

173  
00:06:57,019 --> 00:07:01,969  
time something happens in a lab I guess

174  
00:06:59,350 --> 00:07:07,010  
every time something happens clinically

175  
00:07:01,970 --> 00:07:08,530  
I gasp which means I don't I don't sit

176  
00:07:07,009 --> 00:07:12,589  
completely comfortably with this stuff

177  
00:07:08,529 --> 00:07:15,379  
yet I have to follow the data and I have

178  
00:07:12,589 --> 00:07:17,539  
to follow my experience and if my data

179  
00:07:15,379 --> 00:07:19,009  
are eventually proven right terrific if

180  
00:07:17,540 --> 00:07:22,100  
they're eventually proven wrong I can

181  
00:07:19,009 --> 00:07:24,589  
live with that etc etc so I'm reasonably

182  
00:07:22,100 --> 00:07:27,170  
certain now very reasonably certain that

183  
00:07:24,589 --> 00:07:30,889  
cancer can be cured using energy healing

184  
00:07:27,170 --> 00:07:34,879  
and so I give a couple of examples here

185  
00:07:30,889 --> 00:07:35,930  
from first experimental data some people

186  
00:07:34,879 --> 00:07:37,909  
have seen a couple of these slides

187  
00:07:35,930 --> 00:07:39,949  
before I've dealt with traditional

188  
00:07:37,910 --> 00:07:43,340  
mammary cancers from the Jackson labs

189  
00:07:39,949 --> 00:07:46,279  
they have predictable lifespans and

190  
00:07:43,339 --> 00:07:49,339  
maximum lifespans after transplantation

191  
00:07:46,279 --> 00:07:51,859  
or injection and what's supposed to

192  
00:07:49,339 --> 00:07:55,039  
happen in these this particular mouse

193  
00:07:51,860 --> 00:07:57,590  
model that would be the mouse is that

194  
00:07:55,040 --> 00:07:59,780  
the tumor is non-metastatic it grows

195  
00:07:57,589 --> 00:08:02,599  
it's pretty simple to measure gets

196  
00:07:59,779 --> 00:08:04,489  
larger and larger and eventually the

197  
00:08:02,600 --> 00:08:07,430  
tumor basically simply crushes the

198  
00:08:04,490 --> 00:08:09,519  
animal it's it not a good way to go it

199  
00:08:07,430 --> 00:08:11,420  
dies of malnutrition or some combination

200

00:08:09,519 --> 00:08:14,810  
here's how you heal you get an

201  
00:08:11,420 --> 00:08:16,370  
exceedingly good-looking person that's

202  
00:08:14,810 --> 00:08:18,620  
step one so I'm giving away the store

203  
00:08:16,370 --> 00:08:20,959  
here you know so write this down get an

204  
00:08:18,620 --> 00:08:22,519  
exceedingly good-looking person and and

205  
00:08:20,959 --> 00:08:24,049  
what you do is you said this is these

206  
00:08:22,519 --> 00:08:25,699  
are experiments I did at Indiana

207  
00:08:24,050 --> 00:08:27,410  
University med school I've done this in

208  
00:08:25,699 --> 00:08:29,389  
five different places to medical schools

209  
00:08:27,410 --> 00:08:31,160  
and sites so you sit there now it looks

210  
00:08:29,389 --> 00:08:32,929  
like I'm meditating so we've heard about

211  
00:08:31,160 --> 00:08:35,719  
meditation and such I assure you I'm not

212  
00:08:32,929 --> 00:08:38,139  
I'm really bored to tears there's almost

213  
00:08:35,719 --> 00:08:41,680  
nothing worse than healing

214  
00:08:38,139 --> 00:08:43,240

it's boring I don't get rushes of bliss

215

00:08:41,679 --> 00:08:45,250

or anything like that

216

00:08:43,240 --> 00:08:50,680

sit I usually sit there going how did my

217

00:08:45,250 --> 00:08:51,250

life come to this yeah I mean it's a

218

00:08:50,679 --> 00:08:53,679

Dacian

219

00:08:51,250 --> 00:08:55,208

and so I'm sitting there go please make

220

00:08:53,679 --> 00:08:58,479

it stop you know make the clock go

221

00:08:55,208 --> 00:09:00,489

faster so I'm going I'm doing relatively

222

00:08:58,480 --> 00:09:03,190

mechanical techniques they don't involve

223

00:09:00,490 --> 00:09:05,350

belief of any sort they don't give you

224

00:09:03,190 --> 00:09:07,870

again rushes of insight or anything like

225

00:09:05,350 --> 00:09:09,850

that you don't go I'll just leave it at

226

00:09:07,870 --> 00:09:13,778

that and and so I sit with them for a

227

00:09:09,850 --> 00:09:16,329

specific length of time if you do that

228

00:09:13,778 --> 00:09:19,480

and you use the techniques that I've

229  
00:09:16,328 --> 00:09:22,149  
used you get this kind of a pattern the

230  
00:09:19,480 --> 00:09:26,050  
tumor grows and that was my first

231  
00:09:22,149 --> 00:09:28,990  
surprise the tumor then gets a necrotic

232  
00:09:26,049 --> 00:09:31,539  
blackened area on its surface how's my

233  
00:09:28,990 --> 00:09:34,089  
second surprise the tumor that ulcerates

234  
00:09:31,539 --> 00:09:37,599  
that was my third and then it implodes

235  
00:09:34,089 --> 00:09:41,560  
to full cure and so I'm gonna show you a

236  
00:09:37,600 --> 00:09:44,170  
couple of pictures this is this is

237  
00:09:41,559 --> 00:09:48,778  
indicating days after injection or

238  
00:09:44,169 --> 00:09:48,778  
transplant that's a comment

239  
00:09:51,899 --> 00:09:56,909  
and so you get the beginning of an

240  
00:09:54,149 --> 00:09:59,220  
ulceration you get a large L serration

241  
00:09:56,909 --> 00:10:02,059  
this mouse is completely healthy if I

242  
00:09:59,220 --> 00:10:02,060  
showed you subsequent
