

1
00:00:00,170 --> 00:00:08,130
no one who has learned my technique can

2
00:00:03,270 --> 00:00:11,099
do a ward a ward there is no effect on a

3
00:00:08,130 --> 00:00:14,280
ward I've treated a work till I can't

4
00:00:11,099 --> 00:00:17,879
stand it anymore and it laughs at me it

5
00:00:14,279 --> 00:00:20,070
mocks me openly it doesn't have an

6
00:00:17,879 --> 00:00:22,410
effect on award so I think we make a

7
00:00:20,070 --> 00:00:25,618
mistake we go healing no healing as if

8
00:00:22,410 --> 00:00:29,219
all healings alike so there may be

9
00:00:25,618 --> 00:00:30,899
something I don't know why my thing

10
00:00:29,219 --> 00:00:33,289
works on cancer it doesn't work on warts

11
00:00:30,899 --> 00:00:36,689
I don't know the reverse may be true on

12
00:00:33,289 --> 00:00:38,100
other stuff maybe other people can do

13
00:00:36,689 --> 00:00:39,780
warts in fact other people who were

14
00:00:38,100 --> 00:00:41,879
healers so when I say that they laugh at

15
00:00:39,780 --> 00:00:44,670
me go any putz can do a wart I said this

16
00:00:41,878 --> 00:00:47,780
putz can't and I'm constrained by the

17
00:00:44,670 --> 00:00:52,500
data I can't do it work

18
00:00:47,780 --> 00:00:53,969
cancer hands only cancer so the

19
00:00:52,500 --> 00:00:57,988
different healing techniques produce

20
00:00:53,969 --> 00:00:59,129
different results I think so let me go

21
00:00:57,988 --> 00:01:02,038
to the fourth first and then come back

22
00:00:59,128 --> 00:01:06,478
to the third are placebo effects an

23
00:01:02,039 --> 00:01:08,189
instance of resonant bonding maybe it's

24
00:01:06,478 --> 00:01:11,459
not all suggestion I get placebo effects

25
00:01:08,188 --> 00:01:13,798
in mice and I don't think they're all

26
00:01:11,459 --> 00:01:16,069
that suggestible if they are they're

27
00:01:13,799 --> 00:01:18,990
hiding it from me

28
00:01:16,069 --> 00:01:22,919
they don't know they shouldn't but we'll

29

00:01:18,989 --> 00:01:24,569
see both effects happen in animals and I

30
00:01:22,920 --> 00:01:28,829
think it's through this resonant bonding

31
00:01:24,569 --> 00:01:33,030
through this entanglement and the third

32
00:01:28,828 --> 00:01:37,008
one down can healing be stored this goes

33
00:01:33,030 --> 00:01:41,280
in really to the conference theme

34
00:01:37,009 --> 00:01:46,500
pragmatics of anomalies if you're going

35
00:01:41,280 --> 00:01:49,890
to make healing pragmatics you have to

36
00:01:46,500 --> 00:01:52,769
be able to take the healer out of it out

37
00:01:49,890 --> 00:01:55,469
of the equation because it can't be

38
00:01:52,769 --> 00:01:58,349
something that master so-and-so can do

39
00:01:55,469 --> 00:02:00,328
and only master so-and-so can do if

40
00:01:58,349 --> 00:02:02,519
master so-and-so can do something and

41
00:02:00,328 --> 00:02:05,229
nobody else can we can get the off actor

42
00:02:02,519 --> 00:02:07,269
and people go who are that amazed

43
00:02:05,230 --> 00:02:09,099

we go and we flop on the floor and were

44

00:02:07,269 --> 00:02:11,169

amazed and all that kind of stuff but if

45

00:02:09,099 --> 00:02:12,909

it's only master so-and-so which is an

46

00:02:11,169 --> 00:02:16,689

odd name but if it's only master

47

00:02:12,909 --> 00:02:19,150

so-and-so it's interesting

48

00:02:16,689 --> 00:02:21,129

it shows what may be possible but it's

49

00:02:19,150 --> 00:02:22,599

certainly not pragmatic cause sooner or

50

00:02:21,129 --> 00:02:25,449

later Master so-and-so is going to get

51

00:02:22,599 --> 00:02:28,329

hit by a bus and you got to pass the bus

52

00:02:25,449 --> 00:02:30,219

factor what happens with master

53

00:02:28,330 --> 00:02:34,990

so-and-so is taken out juster who are

54

00:02:30,219 --> 00:02:36,460

factor go away if only certain people

55

00:02:34,990 --> 00:02:38,290

can do certain things in healing it's

56

00:02:36,460 --> 00:02:40,960

not that any it's interesting but it's

57

00:02:38,289 --> 00:02:42,639

not pragmatic so a couple things have to

58
00:02:40,960 --> 00:02:48,730
happen in order to transition to

59
00:02:42,639 --> 00:02:49,229
pragmatics you got to be able to store

60
00:02:48,729 --> 00:02:53,649
it

61
00:02:49,229 --> 00:02:55,239
play it back reproduce it after the

62
00:02:53,650 --> 00:03:01,120
person is hit by a bus I'm using that

63
00:02:55,240 --> 00:03:03,520
obviously only what you have to be able

64
00:03:01,120 --> 00:03:06,099
to teach it and so my seventh

65
00:03:03,520 --> 00:03:07,570
proposition has to work so let's say for

66
00:03:06,099 --> 00:03:10,599
whatever reason I've stumbled upon

67
00:03:07,569 --> 00:03:12,609
something that will produce good effects

68
00:03:10,599 --> 00:03:14,590
with cancer and I get hit by a bus it

69
00:03:12,610 --> 00:03:17,890
shouldn't go away if it goes away I'm

70
00:03:14,590 --> 00:03:22,000
just a new eye and that's interesting

71
00:03:17,889 --> 00:03:27,369
but only as a passing thought oh yeah I

72
00:03:22,000 --> 00:03:31,840
heard this story about who cares but if

73
00:03:27,370 --> 00:03:35,230
you can store it and play it back if you

74
00:03:31,840 --> 00:03:37,349
can store it and somehow transmit it if

75
00:03:35,229 --> 00:03:40,509
you can teach other people to do it

76
00:03:37,349 --> 00:03:41,979
we've got something pragmatic if we

77
00:03:40,509 --> 00:03:45,899
don't we don't got much going I mean we

78
00:03:41,979 --> 00:03:49,719
have the whoahh but we don't have a

79
00:03:45,900 --> 00:03:51,760
reliable phenomenon and obviously that

80
00:03:49,719 --> 00:03:56,849
it would be more difficult to transition

81
00:03:51,759 --> 00:03:56,849
to any type of practical application

82
00:03:58,500 --> 00:04:02,520
this is my favorite cartoon

83
00:04:09,439 --> 00:04:14,419
I'll leave it with that and I'll take

84
00:04:11,909 --> 00:04:14,419
your questions

85
00:04:18,769 --> 00:04:22,548
Peter you run the questions

86

00:04:35,709 --> 00:04:44,349
yeah so we get baseline of consistent

87
00:04:42,310 --> 00:04:45,610
and this is not my area of expertise so

88
00:04:44,350 --> 00:04:47,710
we get baseline we're consistent

89
00:04:45,610 --> 00:04:49,930
everything is calibrated it's running

90
00:04:47,709 --> 00:04:52,359
and then we do the session and then this

91
00:04:49,930 --> 00:04:54,728
this anomalous wave occurs now the

92
00:04:52,360 --> 00:04:56,590
anomalous wave occurs it's it's this is

93
00:04:54,728 --> 00:04:59,620
another interesting part and this also

94
00:04:56,589 --> 00:05:02,560
is the case with the re G's if I do the

95
00:04:59,620 --> 00:05:04,689
technique and so in you saw me a picture

96
00:05:02,560 --> 00:05:09,180
me treating a mouse cage so imagine I'm

97
00:05:04,689 --> 00:05:11,560
treating an R eg nothing happens at all

98
00:05:09,180 --> 00:05:15,009
but if a mouse is sick and you're

99
00:05:11,560 --> 00:05:17,680
running the re G the re G goes nutty if

100
00:05:15,009 --> 00:05:20,650

you treat the magnetic probe directly as

101

00:05:17,680 --> 00:05:22,660

if it's a cage nothing happens but if

102

00:05:20,649 --> 00:05:25,388

you have a sick Mouse this is when this

103

00:05:22,660 --> 00:05:27,970

occurs so there's no deliberate attempt

104

00:05:25,389 --> 00:05:29,470

to bring about this anomalous wave I

105

00:05:27,970 --> 00:05:32,949

still don't even know what it is

106

00:05:29,470 --> 00:05:34,780

it simply occurs well you're focusing on

107

00:05:32,949 --> 00:05:37,780

something I don't know that needs

108

00:05:34,779 --> 00:05:40,119

healing but it's not a PK effect

109

00:05:37,779 --> 00:05:43,059

certainly I can't sit there and make a

110

00:05:40,120 --> 00:05:45,129

an R eg go that way or that way but if

111

00:05:43,060 --> 00:05:49,120

you put your hands on a mouse or a

112

00:05:45,129 --> 00:05:50,800

person the re G will be affected if you

113

00:05:49,120 --> 00:05:52,478

if you treat the geomagnetic probe

114

00:05:50,800 --> 00:05:56,379

directly nothing will happen at least in

115
00:05:52,478 --> 00:05:58,360
my case if there is a need present and

116
00:05:56,379 --> 00:06:00,879
some and again that's why I say perhaps

117
00:05:58,360 --> 00:06:02,379
it's related to healing but this is

118
00:06:00,879 --> 00:06:05,709
really speculative because I don't know

119
00:06:02,379 --> 00:06:07,930
when healing actually occurs I need I

120
00:06:05,709 --> 00:06:10,149
need the folks here who knows how to do

121
00:06:07,930 --> 00:06:11,680
that stuff to let me know what it occurs

122
00:06:10,149 --> 00:06:13,888
because that would that would open up a

123
00:06:11,680 --> 00:06:13,889
door

124
00:06:17,370 --> 00:06:25,590
Briggs is really something for two major

125
00:06:20,519 --> 00:06:30,079
anomalistic this first Elin sounds a lot

126
00:06:25,589 --> 00:06:30,079
like non-repetitive cold fusion

127
00:06:46,100 --> 00:06:51,960
it sounds very much like the bombing

128
00:06:49,649 --> 00:06:54,810
effect that did you speak about very

129
00:06:51,959 --> 00:06:58,949
important phenomena and if it can be

130
00:06:54,810 --> 00:07:01,170
used to induce healing you know almost a

131
00:06:58,949 --> 00:07:04,289
group of will say mice or humans or

132
00:07:01,170 --> 00:07:08,009
other animals could not also cancer

133
00:07:04,290 --> 00:07:11,189
itself also through whatever phenomena

134
00:07:08,009 --> 00:07:13,289
it is induced cancer and other animals

135
00:07:11,189 --> 00:07:14,819
as well and that's the first part of the

136
00:07:13,290 --> 00:07:16,500
question the second part is are you

137
00:07:14,819 --> 00:07:19,139
familiar with the research that just

138
00:07:16,500 --> 00:07:22,769
Russian scientists back in the eighties

139
00:07:19,139 --> 00:07:26,039
ISM did his name was cuz notch I EV and

140
00:07:22,769 --> 00:07:30,180
he did research on the transmissibility

141
00:07:26,040 --> 00:07:32,580
of disease through a similar bonding

142
00:07:30,180 --> 00:07:33,900
type of phenomenon that you're talking

143

00:07:32,579 --> 00:07:36,389
about but he couldn't explain exactly

144
00:07:33,899 --> 00:07:39,060
what it was the I'm not familiar with it

145
00:07:36,389 --> 00:07:41,099
yeah I don't I don't know I don't know I

146
00:07:39,060 --> 00:07:42,449
mean I'm gonna sit here and when I said

147
00:07:41,100 --> 00:07:45,300
these are things I'm reasonably certain

148
00:07:42,449 --> 00:07:48,149
of and going down and and my biggest

149
00:07:45,300 --> 00:07:49,829
categories at the bottom I you know

150
00:07:48,149 --> 00:07:50,969
there's a lot of work here for a lot of

151
00:07:49,829 --> 00:07:52,889
people who want to get involved in

152
00:07:50,970 --> 00:07:54,570
research in this stuff because I got

153
00:07:52,889 --> 00:07:56,729
hundreds of questions I could I could

154
00:07:54,569 --> 00:07:58,769
lay out and we can all have careers for

155
00:07:56,730 --> 00:08:00,810
the next hundred years so I'm not trying

156
00:07:58,769 --> 00:08:03,479
to hold this type to the best in

157
00:08:00,810 --> 00:08:05,339

particular if anybody they are who is

158

00:08:03,480 --> 00:08:08,100

immunologically oriented wants to make a

159

00:08:05,339 --> 00:08:10,579

cancer vaccine let's talk after that

160

00:08:08,100 --> 00:08:10,580

would be pragmatic

161

00:08:23,850 --> 00:08:31,240

any of these now it's a little more

162

00:08:28,029 --> 00:08:33,549

complicated than I got across here the

163

00:08:31,240 --> 00:08:35,139

control group if in its separate

164

00:08:33,549 --> 00:08:37,240

building I know this sounds nutty I'm

165

00:08:35,139 --> 00:08:39,189

just I'm reporting if in the control

166

00:08:37,240 --> 00:08:41,408

group if it's in a separate building and

167

00:08:39,190 --> 00:08:45,520

no one who knows the technique has seen

168

00:08:41,408 --> 00:08:47,769

them they will die and I don't know why

169

00:08:45,519 --> 00:08:49,210

a building matters I mean I don't even

170

00:08:47,769 --> 00:08:53,139

know how to take the first step on that

171

00:08:49,210 --> 00:09:01,420

one if it's in the same building it has

172
00:08:53,139 --> 00:09:03,789
a different response it's an interesting

173
00:09:01,419 --> 00:09:06,958
experiment is that there's a lot of

174
00:09:03,789 --> 00:09:06,958
interesting stuff that we could do

175
00:09:19,289 --> 00:09:22,559
still are

176
00:09:24,058 --> 00:09:27,838
turning to this feeling that maybe

177
00:09:32,730 --> 00:09:35,909
tell me

178
00:09:36,720 --> 00:09:47,759
okay so here's another opening

179
00:09:41,500 --> 00:09:47,759
intelligence that then works with you

180
00:09:54,440 --> 00:10:00,310
I certainly I certainly don't

181
00:09:57,860 --> 00:10:00,310
consciously
