

1
00:00:00,000 --> 00:00:07,049
q okay yes um I think I need to warn you

2
00:00:04,528 --> 00:00:10,109
that I'm probably the anomaly of this

3
00:00:07,049 --> 00:00:12,420
conference as some of you know I'm not a

4
00:00:10,109 --> 00:00:14,910
scientist and my background is in

5
00:00:12,419 --> 00:00:16,859
business so this is going to be a little

6
00:00:14,910 --> 00:00:20,310
break from healing and all that but

7
00:00:16,859 --> 00:00:24,750
perhaps we can at the end of this

8
00:00:20,309 --> 00:00:28,098
presentation we can see a parallel with

9
00:00:24,750 --> 00:00:33,149
trying to heal our society in general

10
00:00:28,099 --> 00:00:36,359
the purpose of my presentation is to

11
00:00:33,149 --> 00:00:39,109
demonstrate the applications and perhaps

12
00:00:36,359 --> 00:00:42,109
more specifically the implications of

13
00:00:39,109 --> 00:00:46,710
scientific concepts into a mainstream

14
00:00:42,109 --> 00:00:49,229
business application okay what is the

15
00:00:46,710 --> 00:00:51,660
objective of the application again my

16
00:00:49,229 --> 00:00:54,390
background is in business and I have

17
00:00:51,659 --> 00:00:56,669
been focusing my research on how

18
00:00:54,390 --> 00:00:59,370
executives in the business world can

19
00:00:56,670 --> 00:01:03,840
make better decisions and at the same

20
00:00:59,369 --> 00:01:07,280
time because i have been using intuitive

21
00:01:03,840 --> 00:01:11,340
intelligence the process of developing

22
00:01:07,280 --> 00:01:14,700
intuition actually stipulates a personal

23
00:01:11,340 --> 00:01:17,340
self assessment and therefore it it

24
00:01:14,700 --> 00:01:22,040
leads into some sort of transformational

25
00:01:17,340 --> 00:01:25,320
process which increases the

26
00:01:22,040 --> 00:01:28,110
consciousness in the individual so it's

27
00:01:25,319 --> 00:01:30,449
a good formula because you can't go to

28
00:01:28,109 --> 00:01:32,969
an executive and say you know would you

29

00:01:30,450 --> 00:01:35,759
be interested in retraining you how to l

30
00:01:32,969 --> 00:01:37,798
have a higher consciousness because

31
00:01:35,759 --> 00:01:39,810
that's not billable time there's no

32
00:01:37,799 --> 00:01:42,140
client you know who's interested in

33
00:01:39,810 --> 00:01:44,640
paying for that so you go up to the

34
00:01:42,140 --> 00:01:47,759
executive and say would you like to know

35
00:01:44,640 --> 00:01:51,030
how to make better decisions to be able

36
00:01:47,759 --> 00:01:54,118
to better forecast on the future and

37
00:01:51,030 --> 00:01:56,218
make more effective decision so that

38
00:01:54,118 --> 00:01:59,478
they're interested in what they don't

39
00:01:56,218 --> 00:02:02,309
realize is the process is a

40
00:01:59,478 --> 00:02:05,310
transformational process and it does at

41
00:02:02,310 --> 00:02:08,340
the end of the day change the individual

42
00:02:05,310 --> 00:02:11,069
and increases their consciousness so

43
00:02:08,340 --> 00:02:12,140

what we're going to look at today in my

44

00:02:11,068 --> 00:02:16,509
presentation

45

00:02:12,139 --> 00:02:20,059
is how I derived my methodology of

46

00:02:16,509 --> 00:02:22,939
intuitive intelligence I do not teach I

47

00:02:20,060 --> 00:02:26,629
don't feel you can teach intuition you

48

00:02:22,939 --> 00:02:30,439
can elicit intuition we're all born with

49

00:02:26,629 --> 00:02:33,229
some basic intuitive gifts or skills or

50

00:02:30,439 --> 00:02:35,840
whatever but we're not all Mozart's and

51

00:02:33,229 --> 00:02:40,009
we're not all van Gogh's or whatever so

52

00:02:35,840 --> 00:02:43,900
the trick is that to elicit every

53

00:02:40,009 --> 00:02:49,939
individual's your stalls for intuitive

54

00:02:43,900 --> 00:02:52,909
insights I've changed my presentation a

55

00:02:49,939 --> 00:02:56,569
few times I've document what we're going

56

00:02:52,909 --> 00:02:59,599
to look at today is intuition as an

57

00:02:56,569 --> 00:03:03,259
integral function of the body in the

58
00:02:59,599 --> 00:03:05,060
spirit okay which is based on scientific

59
00:03:03,259 --> 00:03:08,449
concepts we're going to look at the

60
00:03:05,060 --> 00:03:12,319
human body as an emitter and as a

61
00:03:08,449 --> 00:03:15,859
receptor of information we can emit

62
00:03:12,319 --> 00:03:18,500
energy we can emit in that energy stream

63
00:03:15,860 --> 00:03:21,500
is information and in that category

64
00:03:18,500 --> 00:03:25,039
comes in remote healing remote

65
00:03:21,500 --> 00:03:27,349
influencing ok we are receptor of these

66
00:03:25,039 --> 00:03:30,289
signals too so this is what we're going

67
00:03:27,349 --> 00:03:33,259
to look at how do we use our body our

68
00:03:30,289 --> 00:03:36,319
tool ok it's like hardware and software

69
00:03:33,259 --> 00:03:38,929
we have a tool we need to know how to

70
00:03:36,319 --> 00:03:42,379
use it where's the manual we don't have

71
00:03:38,930 --> 00:03:44,900
a very good manual so um the slide

72
00:03:42,379 --> 00:03:47,090
presentation if it can just remember i'm

73
00:03:44,900 --> 00:03:49,579
going to show the highlights of the

74
00:03:47,090 --> 00:03:51,439
categories of the scientific concepts

75
00:03:49,579 --> 00:03:54,469
that have helped me develop my

76
00:03:51,439 --> 00:03:56,719
methodology and during the presentation

77
00:03:54,469 --> 00:03:59,359
i'm going to go very quickly but if you

78
00:03:56,719 --> 00:04:01,939
can focus not on the details of the

79
00:03:59,360 --> 00:04:04,329
knowledge on topics that i'm presenting

80
00:04:01,939 --> 00:04:07,340
but on three things on the whole

81
00:04:04,329 --> 00:04:10,549
integration of the topics of my

82
00:04:07,340 --> 00:04:14,229
presentation and their implication in

83
00:04:10,549 --> 00:04:16,548
terms of Entercom being interconnected

84
00:04:14,229 --> 00:04:18,639
interconnected between you know

85
00:04:16,548 --> 00:04:22,969
different human beings between

86

00:04:18,639 --> 00:04:24,180
personally us in the cosmos and any

87
00:04:22,970 --> 00:04:27,660
other intercom

88
00:04:24,180 --> 00:04:30,509
shins that you can see the second point

89
00:04:27,660 --> 00:04:34,889
to focus on is again the human body as a

90
00:04:30,509 --> 00:04:38,060
tool as an immediate ER and receptor and

91
00:04:34,889 --> 00:04:41,340
the third thing to focus on is that

92
00:04:38,060 --> 00:04:44,280
knowledge in itself is very important in

93
00:04:41,339 --> 00:04:49,948
this methodology knowledge will help you

94
00:04:44,279 --> 00:04:54,029
open your mind okay so here we go okay

95
00:04:49,949 --> 00:04:56,370
how did I why did I decide to develop

96
00:04:54,029 --> 00:04:59,339
this methodology well if you look at the

97
00:04:56,370 --> 00:05:03,030
reality of today this continuous chaos

98
00:04:59,339 --> 00:05:05,819
this crises were experiencing a collapse

99
00:05:03,029 --> 00:05:08,969
of the socio-economic models there's a

100
00:05:05,819 --> 00:05:13,079

lack of values egos greed short term

101

00:05:08,970 --> 00:05:16,110

vision blame etc new leadership is lead

102

00:05:13,079 --> 00:05:19,370

it needed but it's not another model of

103

00:05:16,110 --> 00:05:22,410

leadership that's needed it's more

104

00:05:19,370 --> 00:05:25,439

in-depth than that we need to stop

105

00:05:22,410 --> 00:05:28,050

repeating we need to stop repackaging

106

00:05:25,439 --> 00:05:30,538

the old models now again I come from a

107

00:05:28,050 --> 00:05:33,210

background of Business School and we're

108

00:05:30,538 --> 00:05:37,199

taught to think creative you know with

109

00:05:33,209 --> 00:05:39,000

creativity and where us to repackage the

110

00:05:37,199 --> 00:05:41,370

old models for example the business

111

00:05:39,000 --> 00:05:43,589

models the GE model it's okay come up

112

00:05:41,370 --> 00:05:46,259

with your own model well what happens a

113

00:05:43,589 --> 00:05:47,908

G model has four square so what happens

114

00:05:46,259 --> 00:05:51,180

if you come up with a concept or a

115
00:05:47,908 --> 00:05:53,848
paradigm that has maybe five you know

116
00:05:51,180 --> 00:05:55,769
five different ideas or six then the

117
00:05:53,848 --> 00:05:57,598
soccer world cup rude of you to even

118
00:05:55,769 --> 00:06:00,149
think of that so in business school

119
00:05:57,598 --> 00:06:02,459
we've given all these models historical

120
00:06:00,149 --> 00:06:05,038
models and were asked to more or less

121
00:06:02,459 --> 00:06:07,288
repackage them so of course you know

122
00:06:05,038 --> 00:06:09,990
they keep rehiring consultants because

123
00:06:07,288 --> 00:06:12,538
we repeat history and the same problems

124
00:06:09,990 --> 00:06:14,490
evolved because we're not going to the

125
00:06:12,538 --> 00:06:17,550
root of the problem we're treating the

126
00:06:14,490 --> 00:06:20,788
symptoms so in order how so how do we

127
00:06:17,550 --> 00:06:23,180
get out of that we need true innovation

128
00:06:20,788 --> 00:06:26,219
and creativity we need higher

129
00:06:23,180 --> 00:06:28,949
intelligence and higher consciousness so

130
00:06:26,220 --> 00:06:32,120
we need to change how we use our

131
00:06:28,949 --> 00:06:32,120
instrument here

132
00:06:32,300 --> 00:06:38,639
okay so we need to open our mind to the

133
00:06:36,120 --> 00:06:41,579
impossible okay part of the training is

134
00:06:38,639 --> 00:06:45,360
to deconstruct your models look at your

135
00:06:41,579 --> 00:06:47,759
assumptions be aware of them and then to

136
00:06:45,360 --> 00:06:50,069
follow pre Goshen's dissipative

137
00:06:47,759 --> 00:06:51,719
structures you take oh there's always

138
00:06:50,069 --> 00:06:53,639
some good parts so you look at all the

139
00:06:51,720 --> 00:06:56,040
putts that you've deconstructed from

140
00:06:53,639 --> 00:06:58,620
your paradigm and you take the good

141
00:06:56,040 --> 00:07:01,530
parts and you pull them out together

142
00:06:58,620 --> 00:07:04,259
again but you build it into an open

143

00:07:01,529 --> 00:07:07,919
system type of paradigm you don't go

144
00:07:04,259 --> 00:07:10,319
back to the same closed system ok so

145
00:07:07,920 --> 00:07:13,800
again you know the most powerful tool we

146
00:07:10,319 --> 00:07:18,750
have to change the way we think is our

147
00:07:13,800 --> 00:07:21,480
brain ok on the past we focus on the

148
00:07:18,750 --> 00:07:24,180
rational side on the left brain side we

149
00:07:21,480 --> 00:07:27,660
need to look at all of these skills that

150
00:07:24,180 --> 00:07:30,180
we can't explain scientifically such as

151
00:07:27,660 --> 00:07:32,340
intuitive skills the natural instincts

152
00:07:30,180 --> 00:07:34,740
the pre sentiments and all the other

153
00:07:32,339 --> 00:07:36,629
cognitive functions that involve the

154
00:07:34,740 --> 00:07:39,780
conscious or subconscious in the

155
00:07:36,629 --> 00:07:41,819
conscious and it's not to say one is

156
00:07:39,779 --> 00:07:44,669
more important to the other another

157
00:07:41,819 --> 00:07:46,980

light motif through this presentation is

158

00:07:44,670 --> 00:07:49,050

that you need full integration in you

159

00:07:46,980 --> 00:07:50,790

need a balance of everything every

160

00:07:49,050 --> 00:07:55,259

little part has an important role to

161

00:07:50,790 --> 00:07:58,110

play so the other thing is intuitive

162

00:07:55,259 --> 00:08:01,620

intelligence is like a a portal to

163

00:07:58,110 --> 00:08:05,250

cosmic communication system ok we learn

164

00:08:01,620 --> 00:08:07,620

how to access non-local information via

165

00:08:05,250 --> 00:08:10,680

the hologram system and I'll get into

166

00:08:07,620 --> 00:08:13,050

that role later part the first part of

167

00:08:10,680 --> 00:08:15,930

the methodology is to change a mindset

168

00:08:13,050 --> 00:08:19,319

ok and we do that through visualization

169

00:08:15,930 --> 00:08:21,840

we have to recreate the map of reality

170

00:08:19,319 --> 00:08:24,620

ok some people say you create your own

171

00:08:21,839 --> 00:08:29,039

reality I say that you create your own

172
00:08:24,620 --> 00:08:33,600
perception of what exists ok and the

173
00:08:29,040 --> 00:08:36,090
most powerful way to visualize is to

174
00:08:33,600 --> 00:08:38,670
feed your image with knowledge the more

175
00:08:36,090 --> 00:08:42,480
knowledge you have the more intelligent

176
00:08:38,669 --> 00:08:43,528
vision you have so in knowledge also

177
00:08:42,480 --> 00:08:45,720
opens the brain

178
00:08:43,528 --> 00:08:48,120
to new horizons and perspectives and

179
00:08:45,720 --> 00:08:51,028
very importantly you have to revisit

180
00:08:48,120 --> 00:08:53,370
your assumptions and check them out okay

181
00:08:51,028 --> 00:08:55,948
the deep earth used to be flat that was

182
00:08:53,370 --> 00:08:59,909
you know that was a certainty well it's

183
00:08:55,948 --> 00:09:01,889
not anymore what happened now it's not

184
00:08:59,909 --> 00:09:05,219
enough to have a vision to have a

185
00:09:01,889 --> 00:09:07,620
picture you need you need the flow you

186
00:09:05,220 --> 00:09:10,680
need a vehicle you need some action so

187
00:09:07,620 --> 00:09:14,549
how do you create that you create that

188
00:09:10,679 --> 00:09:19,138
with the intent okay the intent is the

189
00:09:14,549 --> 00:09:20,639
fuel of making things happen and the

190
00:09:19,139 --> 00:09:23,370
more again the more knowledge you have

191
00:09:20,639 --> 00:09:28,980
the more precisely intent the more focus

192
00:09:23,370 --> 00:09:32,249
you have and the other important thing

193
00:09:28,980 --> 00:09:34,199
in that is the spontaneity and also it

194
00:09:32,249 --> 00:09:39,870
comes right down to passion you really

195
00:09:34,198 --> 00:09:42,299
want to have this thing happen okay so

196
00:09:39,870 --> 00:09:45,629
um the other thing to remember is that

197
00:09:42,299 --> 00:09:48,328
we have been raised in a culture that is

198
00:09:45,629 --> 00:09:50,639
separation versus integration okay the

199
00:09:48,328 --> 00:09:53,278
traditional process of analysis is one

200

00:09:50,639 --> 00:09:56,129
of fragmentation and segmentation which

201
00:09:53,278 --> 00:09:57,629
is okay it's good to analyze and it's

202
00:09:56,129 --> 00:10:01,789
good to break down but then we just

203
00:09:57,629 --> 00:10:01,789
leave it there and we don't you know
