

1
00:00:00,000 --> 00:00:05,669
what appeared in the latest age science

2
00:00:02,448 --> 00:00:07,830
published by the SS e there's a buoy

3
00:00:05,669 --> 00:00:10,259
advertisement in there on kundalini by

4
00:00:07,830 --> 00:00:12,570
gopi krishna i can hardly believe this

5
00:00:10,259 --> 00:00:14,370
book was advertised there so I because

6
00:00:12,570 --> 00:00:17,339
that book has meant a lot to me over the

7
00:00:14,369 --> 00:00:19,769
years then I in walking around the

8
00:00:17,339 --> 00:00:20,969
bookstores recently I noticed that there

9
00:00:19,769 --> 00:00:25,198
is an incredible amount of literature

10
00:00:20,969 --> 00:00:27,809
appearing in the holistic areas in the

11
00:00:25,199 --> 00:00:30,510
alternative medicine and in general on

12
00:00:27,809 --> 00:00:31,528
wellness having to do this Kundalini so

13
00:00:30,510 --> 00:00:34,320
I thought it might be an interesting

14
00:00:31,528 --> 00:00:35,759
topic to bring into here even though I

15
00:00:34,320 --> 00:00:39,469
see it overlaps with some of the other

16
00:00:35,759 --> 00:00:43,530
talks now my own involvement in these

17
00:00:39,469 --> 00:00:45,689
interesting fields began support of my

18
00:00:43,530 --> 00:00:47,670
talk is kind of a summary and a little

19
00:00:45,689 --> 00:00:50,729
bit of an odyssey but my interest began

20
00:00:47,670 --> 00:00:54,780
really in 1970 when I became really

21
00:00:50,729 --> 00:00:57,209
aware of Sai phenomenon dreams and also

22
00:00:54,780 --> 00:00:59,850
Kundalini so I'll be focusing i miss

23
00:00:57,210 --> 00:01:02,070
talk on mainly khalil indian hot might

24
00:00:59,850 --> 00:01:05,909
overlap with some of the other dreams

25
00:01:02,070 --> 00:01:08,040
and its high material what is cannellini

26
00:01:05,909 --> 00:01:10,469
so many of you know and some of you

27
00:01:08,040 --> 00:01:13,710
don't it's a Sanskrit word that really

28
00:01:10,469 --> 00:01:16,618
means coiled something compressed like a

29

00:01:13,709 --> 00:01:18,478
spring and it's generally thought of in

30
00:01:16,618 --> 00:01:20,250
the model from the ancient yogic

31
00:01:18,478 --> 00:01:23,489
traditions which goes back to the Hindus

32
00:01:20,250 --> 00:01:25,769
Valley as something that lies dormant at

33
00:01:23,489 --> 00:01:28,379
the base of the spine so it's really a

34
00:01:25,769 --> 00:01:30,629
latent energy in their model and this

35
00:01:28,379 --> 00:01:33,509
can actually be activated or awakened is

36
00:01:30,629 --> 00:01:35,429
their firm and when this energy which

37
00:01:33,509 --> 00:01:39,140
then becomes kind of a flow of energy

38
00:01:35,430 --> 00:01:41,850
torrent prana surges up the spine and

39
00:01:39,140 --> 00:01:43,739
energizes several areas of the spine

40
00:01:41,849 --> 00:01:47,309
which identified in the literature

41
00:01:43,739 --> 00:01:50,489
defined as wheels or chakras and the

42
00:01:47,310 --> 00:01:53,759
ultimate goal is to activate and balance

43
00:01:50,489 --> 00:01:56,429

all these various chakras including up

44

00:01:53,759 --> 00:01:59,519

to at least seven or more and in the

45

00:01:56,430 --> 00:02:01,439

process of this is filtered into the

46

00:01:59,519 --> 00:02:04,978

entire yoga literature you will find

47

00:02:01,438 --> 00:02:07,048

this model and chakras and currently in

48

00:02:04,978 --> 00:02:09,659

almost every yoga literature that you

49

00:02:07,049 --> 00:02:11,270

can find now there's a systematic

50

00:02:09,659 --> 00:02:13,579

process involved here in most

51

00:02:11,270 --> 00:02:16,640

the traditions that these chakras are

52

00:02:13,580 --> 00:02:19,730

energized in a systematic manner and by

53

00:02:16,639 --> 00:02:22,759

energizing I mean the concept is that

54

00:02:19,729 --> 00:02:24,799

they're like vertices of energy that get

55

00:02:22,759 --> 00:02:28,159

ducted in to these various body parts

56

00:02:24,800 --> 00:02:30,770

and the energize that early about it

57

00:02:28,159 --> 00:02:35,509

when is the base of the spine the gutter

58
00:02:30,770 --> 00:02:38,330
area the harder the photo or a Center in

59
00:02:35,509 --> 00:02:41,449
the brain in the forehead in the Pioneer

60
00:02:38,330 --> 00:02:44,660
Valley area so this concept that

61
00:02:41,449 --> 00:02:46,849
requires the idea of energizing so the

62
00:02:44,659 --> 00:02:48,740
prana as it flows through the body and

63
00:02:46,849 --> 00:02:51,469
then goes through the top ahead is

64
00:02:48,740 --> 00:02:53,780
envisioned to also be reenergized in the

65
00:02:51,469 --> 00:02:56,180
cosmos in the universe and comes back

66
00:02:53,780 --> 00:02:58,909
into the body to recycle again if

67
00:02:56,180 --> 00:03:01,310
necessary to achieve this balancing a

68
00:02:58,909 --> 00:03:03,199
central feature here is a connection to

69
00:03:01,310 --> 00:03:05,719
the cerebral spinal system and the

70
00:03:03,199 --> 00:03:07,939
various gland such a huge activation

71
00:03:05,719 --> 00:03:10,870
process involving the concept of

72
00:03:07,939 --> 00:03:13,250
vortices of circulating high energy

73
00:03:10,870 --> 00:03:15,530
processors which in some literature is

74
00:03:13,250 --> 00:03:18,349
considered to be virtual in other cases

75
00:03:15,530 --> 00:03:20,870
more literal the two ways of looking at

76
00:03:18,349 --> 00:03:24,829
Kundalini that I like to consider for

77
00:03:20,870 --> 00:03:27,439
classical yoga derived version which

78
00:03:24,830 --> 00:03:30,740
assumes that there's a process going on

79
00:03:27,439 --> 00:03:34,039
here where there's a unity or a balance

80
00:03:30,740 --> 00:03:36,140
being developed between the body the

81
00:03:34,039 --> 00:03:37,819
mind and the spirit so all these free

82
00:03:36,139 --> 00:03:39,769
have to be integrated and balanced

83
00:03:37,819 --> 00:03:41,659
together there's a little bit of your in

84
00:03:39,770 --> 00:03:44,180
psychology here in terms of balance

85
00:03:41,659 --> 00:03:46,639
which I see in the literature as well

86

00:03:44,180 --> 00:03:49,189
and many writers are in referring to you

87
00:03:46,639 --> 00:03:51,559
on some of these processes the other way

88
00:03:49,189 --> 00:03:54,949
of looking at currently is to not be too

89
00:03:51,560 --> 00:03:56,500
concerned about the cosmology or the

90
00:03:54,949 --> 00:03:59,539
mythology as some people would say

91
00:03:56,500 --> 00:04:01,669
associated with the Hindu version but

92
00:03:59,539 --> 00:04:03,859
only looking at the physiology the

93
00:04:01,669 --> 00:04:05,899
phenomenology and this is really willing

94
00:04:03,860 --> 00:04:08,180
to take a look at here because I wasn't

95
00:04:05,900 --> 00:04:10,520
particularly interested in the cosmic

96
00:04:08,180 --> 00:04:14,239
journey as I wasn't trying to understand

97
00:04:10,520 --> 00:04:15,920
what is the physiology going on now here

98
00:04:14,239 --> 00:04:18,470
are some grief examples of how people

99
00:04:15,919 --> 00:04:21,858
who have spontaneous experiences and

100
00:04:18,470 --> 00:04:24,560

also act to what's called a Kundalini

101

00:04:21,858 --> 00:04:24,739

awakening those it go through a process

102

00:04:24,560 --> 00:04:27,620

of

103

00:04:24,740 --> 00:04:30,009

learning and teaching from yoga's don't

104

00:04:27,620 --> 00:04:33,860

really have the dramatic surge as

105

00:04:30,009 --> 00:04:36,379

possible get this joke of energy or yo

106

00:04:33,860 --> 00:04:39,080

is he if adapt adjust are very gradually

107

00:04:36,379 --> 00:04:40,310

it's a problem arises to people like in

108

00:04:39,079 --> 00:04:42,168

this culture that never heard of the

109

00:04:40,310 --> 00:04:46,160

term before and all of a sudden i

110

00:04:42,168 --> 00:04:48,740

thrusted in to an amazing these feelings

111

00:04:46,160 --> 00:04:51,110

of energy and own body that can actually

112

00:04:48,740 --> 00:04:53,720

include all these sensations the feeling

113

00:04:51,110 --> 00:04:56,960

of a partial electric field intensifies

114

00:04:53,720 --> 00:04:58,909

head pressures vibrations a whole list

115
00:04:56,959 --> 00:05:00,620
of things that happen spontaneously to

116
00:04:58,908 --> 00:05:02,629
people let me wonder what's going on

117
00:05:00,620 --> 00:05:04,459
they go to a psychiatrist and begin to

118
00:05:02,629 --> 00:05:07,519
give them pills when it's really part of

119
00:05:04,459 --> 00:05:09,739
a Kundalini awakening process to balance

120
00:05:07,519 --> 00:05:12,740
their entire body from the polluted well

121
00:05:09,740 --> 00:05:14,060
as and unity now here's some typical

122
00:05:12,740 --> 00:05:16,340
ways you can look at them they're going

123
00:05:14,060 --> 00:05:18,918
to read them too much those that have no

124
00:05:16,339 --> 00:05:21,649
idea what Kundalini meant later on Leia

125
00:05:18,918 --> 00:05:23,240
barber do talk about tingling whistling

126
00:05:21,649 --> 00:05:26,239
high-pitched noises this concludes by

127
00:05:23,240 --> 00:05:27,590
all scientists academic people is

128
00:05:26,240 --> 00:05:30,319
usually leads to something on

129
00:05:27,589 --> 00:05:33,888
precognitive experiences or dreams or

130
00:05:30,319 --> 00:05:35,689
healing the bottom line is this female

131
00:05:33,889 --> 00:05:38,960
artist that talks about vibrations in

132
00:05:35,689 --> 00:05:41,930
the head tight band all kinds of energy

133
00:05:38,959 --> 00:05:44,388
up and down inspired contrast out to the

134
00:05:41,930 --> 00:05:46,610
yoga to the realm a shaman literature

135
00:05:44,389 --> 00:05:49,370
and we'll find striking similarities

136
00:05:46,610 --> 00:05:51,680
we're in the shaman traditions from

137
00:05:49,370 --> 00:05:53,750
Africa you can see where is like tailing

138
00:05:51,680 --> 00:05:55,939
you developing your vision that sounds

139
00:05:53,750 --> 00:05:58,218
like remote viewing and we receive the

140
00:05:55,939 --> 00:05:59,810
vast distances or the backbone there's

141
00:05:58,218 --> 00:06:01,819
something sticking in the back that's

142
00:05:59,810 --> 00:06:04,399
running up and down my spine tingling or

143

00:06:01,819 --> 00:06:07,550
the Eskimo or i should say the indepth

144
00:06:04,399 --> 00:06:09,348
shaman then I've ceases light entering

145
00:06:07,550 --> 00:06:12,129
his head which seems to open up a

146
00:06:09,348 --> 00:06:16,839
perspective into the future precognition

147
00:06:12,129 --> 00:06:18,949
now my involvement here is from dreams I

148
00:06:16,839 --> 00:06:21,619
went through one of these experiences

149
00:06:18,949 --> 00:06:23,419
having no idea what was going on but I

150
00:06:21,620 --> 00:06:26,269
was elated although I didn't catch the

151
00:06:23,418 --> 00:06:29,019
alerting until afterwards and I was

152
00:06:26,269 --> 00:06:31,299
alerted through dreams being flooded by

153
00:06:29,019 --> 00:06:33,579
tsunamis

154
00:06:31,300 --> 00:06:35,259
and being charged with electricity that

155
00:06:33,579 --> 00:06:37,598
felt like I was being electrocuted and

156
00:06:35,259 --> 00:06:40,569
there's nobody I could anticipate what

157
00:06:37,598 --> 00:06:44,139

does all men are the biggest significant

158

00:06:40,569 --> 00:06:46,240

thing in my life in 1973 was a feeling

159

00:06:44,139 --> 00:06:48,430

of being electrocuted the feeling having

160

00:06:46,240 --> 00:06:50,470

electrical tornadoes surged up and down

161

00:06:48,430 --> 00:06:54,220

Lee librarian seem to be filled with

162

00:06:50,470 --> 00:06:55,870

tiny electrical tornadoes and i just

163

00:06:54,220 --> 00:06:57,819

recently received an email from the

164

00:06:55,870 --> 00:06:59,590

woman that described the identical

165

00:06:57,819 --> 00:07:01,598

situations i've been working with her

166

00:06:59,589 --> 00:07:03,388

i've also been working with people that

167

00:07:01,598 --> 00:07:05,800

have been struck by lightning and

168

00:07:03,389 --> 00:07:07,870

survived and as a result of this

169

00:07:05,800 --> 00:07:10,538

lightning strike almost immediately they

170

00:07:07,870 --> 00:07:12,699

go into a coup a Kundalini type episode

171

00:07:10,538 --> 00:07:14,348

and have no idea what's going on they

172
00:07:12,699 --> 00:07:17,259
attributed to some malfunction in the

173
00:07:14,348 --> 00:07:19,628
brain which what I think happening just

174
00:07:17,259 --> 00:07:23,050
open up the avenues in the brain to be

175
00:07:19,629 --> 00:07:25,090
conduits to this Kundalini energy as a

176
00:07:23,050 --> 00:07:27,939
result of this experience this took

177
00:07:25,089 --> 00:07:30,668
mainly a 90-degree turn from being an

178
00:07:27,939 --> 00:07:32,139
aerospace engineering physicist and to

179
00:07:30,668 --> 00:07:34,959
say hey what's going on here so I began

180
00:07:32,139 --> 00:07:37,449
studying sigh in those days I just had a

181
00:07:34,959 --> 00:07:39,008
generic term i like to use it conscious

182
00:07:37,449 --> 00:07:41,139
state and reinstate I looked into

183
00:07:39,009 --> 00:07:42,819
healing i joined hidden groups i found

184
00:07:41,139 --> 00:07:44,500
that even my own self whenever i was

185
00:07:42,819 --> 00:07:47,919
really sick i could experience a

186
00:07:44,500 --> 00:07:49,810
celebrated healing by reimagining your

187
00:07:47,918 --> 00:07:51,728
experience and hawaiian got energy to

188
00:07:49,810 --> 00:07:54,370
flow through me and it really felt

189
00:07:51,728 --> 00:07:56,709
really quite energetic so it was kind of

190
00:07:54,370 --> 00:07:59,439
a healing process that was going on and

191
00:07:56,709 --> 00:08:02,079
I kind of saw it as kind of a balance as

192
00:07:59,439 --> 00:08:04,598
kind of a some kind of Harmon some kind

193
00:08:02,079 --> 00:08:07,959
of harmony was being developed within my

194
00:08:04,598 --> 00:08:10,269
heart I little brain hard system because

195
00:08:07,959 --> 00:08:13,228
I could feel his vibrations and actually

196
00:08:10,269 --> 00:08:15,430
I really now think that the heart EKG

197
00:08:13,228 --> 00:08:18,519
vibrations in the blood vessels and the

198
00:08:15,430 --> 00:08:21,129
EG pad has become synchronized and this

199
00:08:18,519 --> 00:08:22,628
somehow helps focus and direct whatever

200

00:08:21,129 --> 00:08:25,479
it is you need to direct where is

201
00:08:22,629 --> 00:08:27,610
healing or sorry phenomenon how did it

202
00:08:25,478 --> 00:08:30,430
big you whenever they came involved in

203
00:08:27,610 --> 00:08:32,680
sr i-- i didn't manage to do one

204
00:08:30,430 --> 00:08:34,389
experiment at while I still was a

205
00:08:32,679 --> 00:08:36,269
project before i was told out to do this

206
00:08:34,389 --> 00:08:37,669
managers don't do this kind of stuff so

207
00:08:36,269 --> 00:08:41,029
would i do

208
00:08:37,669 --> 00:08:44,149
here was take a look at the possibility

209
00:08:41,029 --> 00:08:46,990
of applying Kundalini sensations to

210
00:08:44,149 --> 00:08:50,059
improving the accuracy of our V data

211
00:08:46,990 --> 00:08:52,940
this was a submarine experiment we did

212
00:08:50,059 --> 00:08:55,009
earlier on in 1977 there were six target

213
00:08:52,940 --> 00:08:57,980
pictures in the sub it was my task to

214
00:08:55,009 --> 00:09:01,009

describe which one of the three were

215

00:08:57,980 --> 00:09:04,220

being chosen randomly when the submarine

216

00:09:01,009 --> 00:09:07,429

submersible was 500 feet per of sea

217

00:09:04,220 --> 00:09:09,170

level and 500 miles away double-blind

218

00:09:07,429 --> 00:09:12,769

that was opening the envelope door

219

00:09:09,169 --> 00:09:14,719

Canada so this was my first impression I

220

00:09:12,769 --> 00:09:17,600

was able to relax real quickly I'd never

221

00:09:14,720 --> 00:09:19,580

done this before but I've seen that this

222

00:09:17,600 --> 00:09:22,700

harmonizing process that I felt in my

223

00:09:19,580 --> 00:09:24,950

brain had a connection with tuning in to

224

00:09:22,700 --> 00:09:26,900

sign phenomena so I was able to induce

225

00:09:24,950 --> 00:09:29,300

that feeling those vibrations and

226

00:09:26,899 --> 00:09:31,730

relaxed very easily because there's a

227

00:09:29,299 --> 00:09:33,679

very relaxing process stress reduction

228

00:09:31,730 --> 00:09:35,509

is very good just from the health well

229
00:09:33,679 --> 00:09:38,539
as point of view and the first

230
00:09:35,509 --> 00:09:40,429
impressions bright gold coils curvy

231
00:09:38,539 --> 00:09:43,069
lines looks like typical the libyan date

232
00:09:40,429 --> 00:09:46,209
and it is then the woman shows up a

233
00:09:43,070 --> 00:09:49,760
golden haired woman and a face of a

234
00:09:46,210 --> 00:09:51,740
april draw some of those later i was had

235
00:09:49,759 --> 00:09:53,899
to choose which of the six pictures were

236
00:09:51,740 --> 00:09:56,930
the target there was no choice there was

237
00:09:53,899 --> 00:09:58,789
a one hit woman facing a gorilla so the

238
00:09:56,929 --> 00:10:01,549
experiment work there were other

239
00:09:58,789 --> 00:10:04,519
projects to that I was involved in on

240
00:10:01,549 --> 00:10:06,919
scaling real quickly and I was able to

241
00:10:04,519 --> 00:10:09,379
integrate both the conscious states are

242
00:10:06,919 --> 00:10:11,419
we move Ewing with the dream state and

243
00:10:09,379 --> 00:10:13,389
in this case the person who put together

244
00:10:11,419 --> 00:10:16,250
the target pure made an error and had

245
00:10:13,389 --> 00:10:18,500
pictures on the back side in the dream

246
00:10:16,250 --> 00:10:21,110
state I was able to actually dream that

247
00:10:18,500 --> 00:10:22,970
backside picture quite accurately and I

248
00:10:21,110 --> 00:10:25,519
didn't know that in comics later it was

249
00:10:22,970 --> 00:10:27,649
a third picture in this case electro

250
00:10:25,519 --> 00:10:30,079
dream the pattern in hanging the dream

251
00:10:27,649 --> 00:10:32,840
match the only this one so it was a hit

252
00:10:30,080 --> 00:10:35,780
I learned from this experiment that

253
00:10:32,840 --> 00:10:37,790
where is the target I finally realized

254
00:10:35,779 --> 00:10:40,699
that is not where we think it is that it

255
00:10:37,789 --> 00:10:42,769
is some representative space so I begin

256
00:10:40,700 --> 00:10:44,900
to think in terms of holography and that

257

00:10:42,769 --> 00:10:46,759
this target itself is being accessed

258
00:10:44,899 --> 00:10:48,519
through the mind into some kind of

259
00:10:46,759 --> 00:10:50,499
holographic representation of reality

260
00:10:48,519 --> 00:10:52,899
I'll put that too

261
00:10:50,499 --> 00:10:55,298
precognition and started looking at the

262
00:10:52,899 --> 00:10:57,548
future with nobody knows the target is

263
00:10:55,298 --> 00:10:59,318
not even existing yet and have one

264
00:10:57,548 --> 00:11:01,808
example of that because I was able to

265
00:10:59,318 --> 00:11:05,168
induce the sensations that I felt were

266
00:11:01,808 --> 00:11:08,048
conducive to this this frequency setting

267
00:11:05,168 --> 00:11:09,788
harmony of lack of a better term that

268
00:11:08,048 --> 00:11:12,399
occurred as I was sitting there

269
00:11:09,788 --> 00:11:15,729
concentrating on a task and that was

270
00:11:12,399 --> 00:11:18,548
this on the night of January the 27th

271
00:11:15,729 --> 00:11:20,889

decided to have a dream about the most

272

00:11:18,548 --> 00:11:23,048

significant event for the next week it

273

00:11:20,889 --> 00:11:25,869

was able to induce the feeling I went to

274

00:11:23,048 --> 00:11:28,658

sleep late that morning at these true

275

00:11:25,869 --> 00:11:30,489

relief images you can see we're right

276

00:11:28,658 --> 00:11:33,879

here sin banar turbulence high-velocity

277

00:11:30,489 --> 00:11:36,609

streaks and airplane pops out of one of

278

00:11:33,879 --> 00:11:38,859

the streaks and then the dream presents

279

00:11:36,609 --> 00:11:41,109

still I'm not looking at a still

280

00:11:38,859 --> 00:11:42,609

photograph in a dream and a spot light

281

00:11:41,109 --> 00:11:44,979

comes on and this is the way some of my

282

00:11:42,609 --> 00:11:48,579

dreams work they spotlight the area and

283

00:11:44,979 --> 00:11:50,109

it eliminates that spot and I could see

284

00:11:48,578 --> 00:11:52,628

when I'd eliminated that there was a

285

00:11:50,109 --> 00:11:57,038

crack at the window at the Wynn junction

286
00:11:52,629 --> 00:11:58,959
and the dream okay five days later is

287
00:11:57,038 --> 00:12:02,078
the tragic situation with the shuttle

288
00:11:58,958 --> 00:12:04,378
when it burned up in reentry over Texas

289
00:12:02,078 --> 00:12:07,688
so that sketch of streaks in the sky

290
00:12:04,379 --> 00:12:09,999
matches that traumatic incident later

291
00:12:07,688 --> 00:12:12,399
when I got ground truth on what really

292
00:12:09,999 --> 00:12:15,069
caused the accident that sketch that

293
00:12:12,399 --> 00:12:17,558
still photograph in a dream does call it

294
00:12:15,068 --> 00:12:20,769
very nicely to the eventual analysis and

295
00:12:17,558 --> 00:12:24,038
this is five days before the tragedy

296
00:12:20,769 --> 00:12:26,259
occurred another thing I did was just

297
00:12:24,038 --> 00:12:28,958
try to see whether or not through the

298
00:12:26,259 --> 00:12:31,209
dream state insight could be provided

299
00:12:28,958 --> 00:12:34,508
into the process what am I main interest

300
00:12:31,208 --> 00:12:38,138
so over time I was ever to develop a

301
00:12:34,509 --> 00:12:39,609
model that involved hexagons hexagons

302
00:12:38,139 --> 00:12:41,739
showed up in two-dimensional

303
00:12:39,609 --> 00:12:43,778
three-dimensional forms and they existed

304
00:12:41,739 --> 00:12:45,668
until I would seconds after I woke up

305
00:12:43,778 --> 00:12:47,609
there's something about hexagons so you

306
00:12:45,668 --> 00:12:50,168
can imagine my excitement when I

307
00:12:47,609 --> 00:12:52,469
registered hemorrhoids work about

308
00:12:50,168 --> 00:12:54,938
noticing the heck cytol patterns in

309
00:12:52,469 --> 00:12:57,819
microtubules and his model along with

310
00:12:54,938 --> 00:13:00,188
Penrose on how these microtubules is

311
00:12:57,818 --> 00:13:02,498
throughout the brain actually formed

312
00:13:00,188 --> 00:13:03,938
some kind of quantum computing mechanism

313
00:13:02,499 --> 00:13:06,099
this could be pure

314

00:13:03,938 --> 00:13:09,399
but you never know is kind of

315
00:13:06,099 --> 00:13:10,989
interesting so where did I get you after

316
00:13:09,399 --> 00:13:13,839
all these years from nineteen nineteen

317
00:13:10,989 --> 00:13:15,908
seventy or I think from the point of

318
00:13:13,839 --> 00:13:18,879
view of the side consciousness

319
00:13:15,908 --> 00:13:21,519
connection that it is analogous to

320
00:13:18,879 --> 00:13:23,319
holograms maybe that's my laser

321
00:13:21,519 --> 00:13:25,808
background showing maybe I'm biased

322
00:13:23,318 --> 00:13:28,828
there but it sure seems holographic to

323
00:13:25,808 --> 00:13:31,538
me and that thus I process is a link

324
00:13:28,828 --> 00:13:34,149
whatever that is that allows us to

325
00:13:31,538 --> 00:13:37,389
connect with that program that's out

326
00:13:34,149 --> 00:13:39,578
there Thanks somewhere it really is i

327
00:13:37,389 --> 00:13:41,109
call it an information domain I don't

328
00:13:39,578 --> 00:13:43,178

like to think in terms of alternative

329

00:13:41,109 --> 00:13:45,369

universes or whatever some of the

330

00:13:43,178 --> 00:13:47,708

quantum physicists here do it just is it

331

00:13:45,369 --> 00:13:51,459

just is there and it represents 3d

332

00:13:47,708 --> 00:13:53,678

reality you and I are in it we have a

333

00:13:51,458 --> 00:13:55,688

holographic body embedded in that I

334

00:13:53,678 --> 00:13:57,938

think the previous speaker told about it

335

00:13:55,688 --> 00:14:00,488

as well god I use the term holographic

336

00:13:57,938 --> 00:14:02,048

body it has a projection feature that's

337

00:14:00,489 --> 00:14:04,989

where a precognition you can come from

338

00:14:02,048 --> 00:14:07,928

and we can look into the future as a

339

00:14:04,989 --> 00:14:09,788

projection as a virtual possibility but

340

00:14:07,928 --> 00:14:11,858

not as an absolute thing there's

341

00:14:09,788 --> 00:14:13,928

probabilities involved and this is why I

342

00:14:11,859 --> 00:14:15,759

don't like to go too much further into

343
00:14:13,928 --> 00:14:17,678
the future than a few weeks does the

344
00:14:15,759 --> 00:14:20,109
mind here the probability really falls

345
00:14:17,678 --> 00:14:21,428
off so stick with the Duko and you'll be

346
00:14:20,109 --> 00:14:23,709
more likely to be correct and that

347
00:14:21,428 --> 00:14:25,838
intentions can all do this you heard

348
00:14:23,708 --> 00:14:29,138
that from the healing talk earlier i see

349
00:14:25,839 --> 00:14:31,419
this connected to the PK work and

350
00:14:29,139 --> 00:14:33,759
affecting some kind of form structure on

351
00:14:31,418 --> 00:14:35,649
that hologram that day comes back into

352
00:14:33,759 --> 00:14:37,658
this reality moving from point a to

353
00:14:35,649 --> 00:14:41,408
point be like in poltergeist phenomena

354
00:14:37,658 --> 00:14:43,629
in terms of the Kundalini whatever the

355
00:14:41,408 --> 00:14:46,298
term you want to use bioenergy couldn't

356
00:14:43,629 --> 00:14:48,329
lynnie like energy are none local energy

357
00:14:46,298 --> 00:14:50,978
is being used not by some of the yoga

358
00:14:48,328 --> 00:14:53,678
practitioners later links with side

359
00:14:50,979 --> 00:14:55,599
consciousness in some way but the main

360
00:14:53,678 --> 00:14:59,168
thing for you and I is that it really

361
00:14:55,599 --> 00:15:01,778
does enhance well as and creativity it

362
00:14:59,168 --> 00:15:04,869
really does it is wonderful the energy

363
00:15:01,778 --> 00:15:07,688
that you feel really is truly are

364
00:15:04,869 --> 00:15:09,788
constructive that has a rail in survival

365
00:15:07,688 --> 00:15:11,379
so you can see that and I think also

366
00:15:09,788 --> 00:15:14,588
evolution but another quite sure how it

367
00:15:11,379 --> 00:15:15,259
links to the DNA I really do believe

368
00:15:14,589 --> 00:15:17,360
there's an

369
00:15:15,259 --> 00:15:19,549
Electric magnetic field compound and

370
00:15:17,360 --> 00:15:22,340
that interaction of the quantum probably

371

00:15:19,549 --> 00:15:26,120
add very small microscopic levels in the

372
00:15:22,340 --> 00:15:28,519
brain that can be measured and also I

373
00:15:26,120 --> 00:15:31,580
think clears we can find on this from

374
00:15:28,519 --> 00:15:33,710
looking at processors magyar energy work

375
00:15:31,580 --> 00:15:35,240
Magneto and suffer grams should be able

376
00:15:33,710 --> 00:15:37,370
to point out where these fine grain

377
00:15:35,240 --> 00:15:39,680
electric tornadoes are that might be

378
00:15:37,370 --> 00:15:41,419
creating noise free environments within

379
00:15:39,679 --> 00:15:44,419
the brain that can help these other

380
00:15:41,419 --> 00:15:52,370
processes of ever become effective thank

381
00:15:44,419 --> 00:15:59,389
you thank you go questions coming down

382
00:15:52,370 --> 00:16:04,759
around this way stay close to the

383
00:15:59,389 --> 00:16:09,409
whiteness don't damnit worry of what I

384
00:16:04,759 --> 00:16:12,049
assume is a holographic field apparently

385
00:16:09,409 --> 00:16:14,750

that's what you you're described that's

386

00:16:12,049 --> 00:16:17,089

my closest analogy do you see any

387

00:16:14,750 --> 00:16:20,330

relationship between that and Edgar

388

00:16:17,090 --> 00:16:23,090

Casey's Akashic records not really it's

389

00:16:20,330 --> 00:16:26,629

about of how you store information years

390

00:16:23,090 --> 00:16:29,629

ago you carved things in in rocks the

391

00:16:26,629 --> 00:16:32,330

cave wall paintings the kashi records

392

00:16:29,629 --> 00:16:34,639

has the concept of their library you can

393

00:16:32,330 --> 00:16:36,590

access pulling out books okay it's

394

00:16:34,639 --> 00:16:39,110

information storage it's our bod in a

395

00:16:36,590 --> 00:16:40,580

way of looking how this esoteric

396

00:16:39,110 --> 00:16:43,399

information which I don't think is that

397

00:16:40,580 --> 00:16:46,100

as a Turk is actually recorded so we use

398

00:16:43,399 --> 00:16:50,720

lasers in la graffito ten years from now

399

00:16:46,100 --> 00:16:52,250

we might change that concept hi excuse

400
00:16:50,720 --> 00:16:55,490
me dr. Thomas back from Seattle

401
00:16:52,250 --> 00:16:57,409
Washington I'm psychologist tenda My

402
00:16:55,490 --> 00:16:58,970
partner and i have worked fairly

403
00:16:57,409 --> 00:17:00,829
extensively with individuals having

404
00:16:58,970 --> 00:17:02,779
Kundalini awakening that have been

405
00:17:00,830 --> 00:17:05,449
triggered by a wide range of different

406
00:17:02,779 --> 00:17:07,789
things and you're talking about the

407
00:17:05,449 --> 00:17:11,690
creativity that really comes to the fore

408
00:17:07,789 --> 00:17:14,420
it's very complex process but I want to

409
00:17:11,690 --> 00:17:17,870
comment about the vortexes yes in

410
00:17:14,420 --> 00:17:20,480
particular you said electrical tornadoes

411
00:17:17,869 --> 00:17:22,698
it's a metaphor yeah it's a metaphor the

412
00:17:20,480 --> 00:17:24,700
Bible rule but they're all they're often

413
00:17:22,699 --> 00:17:27,430
portrayed as

414
00:17:24,700 --> 00:17:29,170
double vortexes oh I love double okay

415
00:17:27,430 --> 00:17:31,990
you know going both directions if you

416
00:17:29,170 --> 00:17:35,800
look at Alana like astronomical images

417
00:17:31,990 --> 00:17:39,430
of planetary nebula they call it they'll

418
00:17:35,799 --> 00:17:43,180
often be a double rotating vortexes and

419
00:17:39,430 --> 00:17:45,460
vortexes also are pretty much as far as

420
00:17:43,180 --> 00:17:47,440
I can determine the main way that energy

421
00:17:45,460 --> 00:17:48,160
is transduced throughout the universe

422
00:17:47,440 --> 00:17:49,840
whether you're talking about

423
00:17:48,160 --> 00:17:51,880
bose-einstein condensates on the

424
00:17:49,839 --> 00:17:53,139
microscopic scale where they form

425
00:17:51,880 --> 00:17:55,690
spontaneously when you reach that

426
00:17:53,140 --> 00:17:57,490
critical temperature all the way up to

427
00:17:55,690 --> 00:18:00,450
tornadoes you know what we almost had

428

00:17:57,490 --> 00:18:02,740
here yesterday too cosmological

429
00:18:00,450 --> 00:18:04,420
processes I think you guys need to take

430
00:18:02,740 --> 00:18:07,120
this offline at the end of the top who

431
00:18:04,420 --> 00:18:12,130
have a couple of people expect your card

432
00:18:07,119 --> 00:18:14,829
okay good okay yeah record yes in fact

433
00:18:12,130 --> 00:18:17,830
the voidage kind of remind me a lot of

434
00:18:14,829 --> 00:18:22,539
things by a burglar I I would like to

435
00:18:17,829 --> 00:18:25,629
ask if given the more than the one plus

436
00:18:22,539 --> 00:18:29,109
one effect by the healers and the

437
00:18:25,630 --> 00:18:33,280
previous talk with regard to the subtle

438
00:18:29,109 --> 00:18:35,799
bodies or your holographic body idea had

439
00:18:33,279 --> 00:18:38,079
you considered is anybody experimenting

440
00:18:35,799 --> 00:18:40,240
with as a corollary to remote viewing

441
00:18:38,079 --> 00:18:44,470
teams doing them for it since the Mars

442
00:18:40,240 --> 00:18:47,109

work looking for for instance on a

443

00:18:44,470 --> 00:18:51,279

reentry vehicle a team of people looking

444

00:18:47,109 --> 00:18:55,000

at the condition of the vehicle and then

445

00:18:51,279 --> 00:18:58,509

attempting to heal any wounds on the

446

00:18:55,000 --> 00:19:01,359

surface of the vehicle I'm not aware

447

00:18:58,509 --> 00:19:02,619

already perceived say precognitive

448

00:19:01,359 --> 00:19:05,500

saying and then attempt to intervene

449

00:19:02,619 --> 00:19:06,879

other than what we could do ourselves if

450

00:19:05,500 --> 00:19:09,250

it has to do with something we need to

451

00:19:06,880 --> 00:19:10,690

do to get out of harm's way so I'm not

452

00:19:09,250 --> 00:19:13,630

aware of anything like that but it

453

00:19:10,690 --> 00:19:17,490

sounds like a parallel to healing yes

454

00:19:13,630 --> 00:19:17,490

thank you okay

455

00:19:20,039 --> 00:19:26,470

East Indian mysticism identifies I'd a

456

00:19:23,890 --> 00:19:29,860

dynamic between the Kundalini energy and

457
00:19:26,470 --> 00:19:32,079
the chakras yeah where the the chakra is

458
00:19:29,859 --> 00:19:33,548
unknown to a lot of people try to study

459
00:19:32,079 --> 00:19:35,980
this that the chakras are actually

460
00:19:33,548 --> 00:19:37,869
blocked energy vortices that are not

461
00:19:35,980 --> 00:19:40,660
flowing up and down the spine for the

462
00:19:37,869 --> 00:19:43,839
supposedly normal state have you seen

463
00:19:40,660 --> 00:19:45,460
any of that dynamic in your work yes I

464
00:19:43,839 --> 00:19:48,490
worked worked with people that come to

465
00:19:45,460 --> 00:19:51,970
me for a number of reasons and they do

466
00:19:48,490 --> 00:19:54,009
right into what I can in this model see

467
00:19:51,970 --> 00:19:55,960
it resistances whether it be what's

468
00:19:54,009 --> 00:19:58,629
called the heart chakra or some other

469
00:19:55,960 --> 00:20:01,779
area that then through a little bit of

470
00:19:58,630 --> 00:20:03,640
therapy can be circumvented or balanced

471
00:20:01,779 --> 00:20:07,058
or block unblocked so there's that

472
00:20:03,640 --> 00:20:08,500
concept okay you do see energy stuck in

473
00:20:07,058 --> 00:20:09,879
a chakra route then there's a lot

474
00:20:08,500 --> 00:20:12,099
actually yeah I don't know whether it's

475
00:20:09,880 --> 00:20:14,380
a metaphor or real but there is

476
00:20:12,099 --> 00:20:15,759
something that represents a blockage of

477
00:20:14,380 --> 00:20:17,380
resistance is something that we're out

478
00:20:15,759 --> 00:20:20,470
of balance in very much too young in

479
00:20:17,380 --> 00:20:22,510
psychology how do we receive or go back

480
00:20:20,470 --> 00:20:23,740
to a balanced situation you know we do

481
00:20:22,509 --> 00:20:25,808
too much of one thing another enough

482
00:20:23,740 --> 00:20:29,079
another and so it's something like that

483
00:20:25,808 --> 00:20:34,259
where I see it a balancing process thank

484
00:20:29,079 --> 00:20:34,259
you okay okay
