

1
00:00:00,000 --> 00:00:07,049
known to physics which is completely

2
00:00:04,129 --> 00:00:09,059
entropic in terms of its understanding

3
00:00:07,049 --> 00:00:11,460
this will be an anti entropic effect

4
00:00:09,058 --> 00:00:13,649
which is very demonstrable and I hope

5
00:00:11,460 --> 00:00:16,260
gin gets a chance to present his

6
00:00:13,650 --> 00:00:29,009
information here because as I examine it

7
00:00:16,260 --> 00:00:31,470
look very bulletproof I know what you

8
00:00:29,010 --> 00:00:34,530
mean but I think that it was the best

9
00:00:31,469 --> 00:00:38,159
way of describing these kinds of

10
00:00:34,530 --> 00:00:40,500
phenomena at the time that is the

11
00:00:38,159 --> 00:00:45,779
attempt was to in correct me if I'm

12
00:00:40,500 --> 00:00:49,710
wrong was to be able to speak to those

13
00:00:45,780 --> 00:00:52,710
of us who are entrained in mechanistic

14
00:00:49,710 --> 00:00:54,420
physics as most of us are in some kind

15
00:00:52,710 --> 00:00:58,230
of way that would make sense I don't

16
00:00:54,420 --> 00:01:01,800
know whether it's whether it has to be

17
00:00:58,229 --> 00:01:04,228
called physical reality at all fact is

18
00:01:01,799 --> 00:01:07,310
that there is some substrate something

19
00:01:04,228 --> 00:01:09,959
underlying yeah and it's long

20
00:01:07,310 --> 00:01:12,180
electromagnetic we know that from all

21
00:01:09,959 --> 00:01:23,629
the experiments you know in tension just

22
00:01:12,180 --> 00:01:26,759
moves in ways that cannot be explained I

23
00:01:23,629 --> 00:01:32,780
suggested you speak to the authors of

24
00:01:26,759 --> 00:01:35,579
this model they're here you ask them

25
00:01:32,780 --> 00:01:38,849
your study take over an accumulator and

26
00:01:35,578 --> 00:01:41,269
building some study with inducing

27
00:01:38,849 --> 00:01:43,449
inflammatory response as

28
00:01:41,269 --> 00:01:46,250
a potential treatment for cancer

29

00:01:43,450 --> 00:01:48,978
reminded me of the Cooley tact Coley's

30
00:01:46,250 --> 00:01:52,039
toxins that was used in the early 1900s

31
00:01:48,978 --> 00:01:54,920
to treat cancer in which he tried to

32
00:01:52,039 --> 00:01:56,929
stimulate an immune response through the

33
00:01:54,920 --> 00:01:58,009
introduction of bacteria and I was

34
00:01:56,929 --> 00:01:59,689
wondering what your thoughts were on

35
00:01:58,009 --> 00:02:01,129
that or if you looked into those studies

36
00:01:59,688 --> 00:02:02,928
to see if there were as any a

37
00:02:01,129 --> 00:02:05,269
correlation between inducing

38
00:02:02,929 --> 00:02:10,519
immunization even the immune response

39
00:02:05,269 --> 00:02:14,269
and uh inducing inflammation of his work

40
00:02:10,519 --> 00:02:16,039
and I haven't examined it but you know

41
00:02:14,269 --> 00:02:18,140
there's no question that if you want to

42
00:02:16,039 --> 00:02:21,250
heal something you have to induce an

43
00:02:18,139 --> 00:02:24,250

immune response nothing heals without it

44

00:02:21,250 --> 00:02:24,250

sorry
