

1  
00:00:00,000 --> 00:00:04,410  
physics spacetime other stack other

2  
00:00:02,459 --> 00:00:06,120  
sheets of paper in the stack have a

3  
00:00:04,410 --> 00:00:09,150  
slightly different physics because their

4  
00:00:06,120 --> 00:00:11,609  
phases are different but subtle energies

5  
00:00:09,150 --> 00:00:15,570  
is what allows us to interact between

6  
00:00:11,609 --> 00:00:17,698  
these different systems so I'll skip

7  
00:00:15,570 --> 00:00:20,519  
over the details of all that but the

8  
00:00:17,699 --> 00:00:23,429  
model does the model does provide a way

9  
00:00:20,519 --> 00:00:26,278  
a very natural way to explain how it is

10  
00:00:23,429 --> 00:00:30,178  
that we can have psychic interaction

11  
00:00:26,278 --> 00:00:32,689  
remote viewing interaction effect things

12  
00:00:30,178 --> 00:00:36,030  
at a distance where there's no weakening

13  
00:00:32,689 --> 00:00:37,979  
because it's a holographic interaction

14  
00:00:36,030 --> 00:00:40,260  
in four dimensions so we're able to

15  
00:00:37,979 --> 00:00:43,558  
couple with other objects that are very

16  
00:00:40,259 --> 00:00:45,119  
very far away from us which you need to

17  
00:00:43,558 --> 00:00:48,030  
be able to have something like this to

18  
00:00:45,119 --> 00:00:50,959  
explain the Princeton data it also

19  
00:00:48,030 --> 00:00:53,789  
involves this model in the same way

20  
00:00:50,960 --> 00:00:56,189  
explains how teleportation can occur

21  
00:00:53,789 --> 00:00:59,910  
even all across great distances because

22  
00:00:56,189 --> 00:01:03,209  
any object really is held in place by

23  
00:00:59,909 --> 00:01:05,128  
its pattern of vibration on the distant

24  
00:01:03,210 --> 00:01:06,900  
matter in the past and future so that's

25  
00:01:05,129 --> 00:01:09,240  
going to the secret of the model so Bob

26  
00:01:06,900 --> 00:01:10,530  
Monroe was right we're more than our

27  
00:01:09,239 --> 00:01:12,719  
physical bodies through prayer

28  
00:01:10,530 --> 00:01:14,969  
meditation and visualization we can

29

00:01:12,719 --> 00:01:16,920  
create the world we want and as Victor

30  
00:01:14,969 --> 00:01:19,349  
Hugo said all the armies of the world

31  
00:01:16,920 --> 00:01:24,500  
are not as powerful as an idea whose

32  
00:01:19,349 --> 00:01:24,500  
time has come so that's my website

33  
00:01:28,120 --> 00:01:37,640  
thank you very much right here has there

34  
00:01:34,760 --> 00:01:40,820  
been any frequencies or a range of

35  
00:01:37,640 --> 00:01:48,728  
frequencies in the spectrum identified

36  
00:01:40,819 --> 00:01:48,728  
with any of the paranormal phenomena I

37  
00:01:48,819 --> 00:01:57,439  
think a lot a lot of times I mean there

38  
00:01:51,140 --> 00:01:59,810  
are I don't know that that's probably my

39  
00:01:57,439 --> 00:02:01,549  
real answer that don't know if you want

40  
00:01:59,810 --> 00:02:04,129  
to say some kind of mapping between a

41  
00:02:01,549 --> 00:02:06,799  
paranormal phenomenon and a frequency I

42  
00:02:04,129 --> 00:02:09,500  
don't know when when people are

43  
00:02:06,799 --> 00:02:11,840

beginning to undergo an out-of-body

44

00:02:09,500 --> 00:02:13,669

experience for example when the astral

45

00:02:11,840 --> 00:02:16,219

body is starting to detach from the

46

00:02:13,669 --> 00:02:19,399

physical they often get a vibration the

47

00:02:16,219 --> 00:02:21,169

off and get a buzzing and AB Dictys

48

00:02:19,400 --> 00:02:23,689

report something similar so there

49

00:02:21,169 --> 00:02:25,759

probably is some kind of frequency

50

00:02:23,689 --> 00:02:27,650

interaction but I don't know that

51

00:02:25,759 --> 00:02:30,879

there's a specific frequency it may be

52

00:02:27,650 --> 00:02:35,269

that you know I don't know beyond that

53

00:02:30,879 --> 00:02:37,909

yes have you done any work with time

54

00:02:35,269 --> 00:02:43,580

travel such as what's been reported at

55

00:02:37,909 --> 00:02:46,849

DOM and her and Italy what is going on

56

00:02:43,580 --> 00:02:49,969

now that the Russians have developed a

57

00:02:46,849 --> 00:02:51,560

model back in the 50s it began it's

58  
00:02:49,969 --> 00:02:53,719  
called torsion if you look on the web

59  
00:02:51,560 --> 00:02:57,379  
you can find allusions to the stuff

60  
00:02:53,719 --> 00:03:00,379  
cause renuka la caza rev was the creator

61  
00:02:57,379 --> 00:03:02,269  
of it and in the original book psychic

62  
00:03:00,379 --> 00:03:04,009  
discoveries behind the Iron Curtain by

63  
00:03:02,269 --> 00:03:07,129  
Australian schroeder they have a little

64  
00:03:04,009 --> 00:03:08,989  
chapter about him at that time that

65  
00:03:07,129 --> 00:03:11,479  
appears to have be in the beginnings of

66  
00:03:08,989 --> 00:03:13,580  
a whole technology of how to control

67  
00:03:11,479 --> 00:03:15,609  
time there are people in Russia today

68  
00:03:13,580 --> 00:03:17,780  
that have little generators that

69  
00:03:15,610 --> 00:03:21,049  
manipulate and create this energy and

70  
00:03:17,780 --> 00:03:24,039  
they claim that can slow down or speed

71  
00:03:21,049 --> 00:03:28,069  
up time by a small amount inside a box

72  
00:03:24,039 --> 00:03:30,798  
so it looks as though there might be a

73  
00:03:28,069 --> 00:03:33,199  
technology emerging for how to affect

74  
00:03:30,799 --> 00:03:35,329  
the stuff the bigger question is in

75  
00:03:33,199 --> 00:03:37,518  
terms of time loops if you could really

76  
00:03:35,329 --> 00:03:40,530  
make big time jumps you know go back in

77  
00:03:37,519 --> 00:03:43,259  
time affect the timeline they were on

78  
00:03:40,530 --> 00:03:45,120  
shift over to some parallel system this

79  
00:03:43,259 --> 00:03:47,219  
is one area that we're seeing now in

80  
00:03:45,120 --> 00:03:49,289  
healing there's a man amateur Bartlett

81  
00:03:47,219 --> 00:03:51,870  
who's been doing some amazing healing

82  
00:03:49,289 --> 00:03:53,639  
where it looks as though maybe he's of

83  
00:03:51,870 --> 00:03:56,129  
jumping timelines I mean something that

84  
00:03:53,639 --> 00:03:59,488  
our physics is like totally for boating

85  
00:03:56,129 --> 00:04:01,739  
but if that's what's happening we may be

86

00:03:59,489 --> 00:04:03,989  
entering a you know a new paradigm here

87  
00:04:01,739 --> 00:04:05,400  
so I don't know the where this is all

88  
00:04:03,989 --> 00:04:07,140  
going to fall out but there's some

89  
00:04:05,400 --> 00:04:09,120  
possibilities that are kind of appearing

90  
00:04:07,139 --> 00:04:12,119  
in terms of maybe the timeline is more

91  
00:04:09,120 --> 00:04:16,370  
flexible than we thought we have a

92  
00:04:12,120 --> 00:04:19,949  
question in the back uh I just like to

93  
00:04:16,370 --> 00:04:22,108  
comment about my distress at seeing how

94  
00:04:19,949 --> 00:04:25,310  
frequently you use the term paranormal

95  
00:04:22,108 --> 00:04:29,279  
in your discussion of these phenomena

96  
00:04:25,310 --> 00:04:33,990  
whatever psychic functioning is it it is

97  
00:04:29,279 --> 00:04:37,638  
a normal part of the human capabilities

98  
00:04:33,990 --> 00:04:40,978  
and we we ought not to use language that

99  
00:04:37,639 --> 00:04:43,560  
buys into that the grants half of the

100  
00:04:40,978 --> 00:04:45,839

debate hostile critics in advance well

101

00:04:43,560 --> 00:04:48,030

if you have a better word if you have a

102

00:04:45,839 --> 00:04:50,129

better word i'll be happy to consider it

103

00:04:48,029 --> 00:04:52,439

but if you say normal most people will

104

00:04:50,129 --> 00:04:55,949

not understand what you mean if you say

105

00:04:52,439 --> 00:04:57,509

the levitation is normal most people

106

00:04:55,949 --> 00:04:59,430

would not buy into that so using

107

00:04:57,509 --> 00:05:01,019

consciousness in this meeting yeah we

108

00:04:59,430 --> 00:05:03,959

can we can find other words but

109

00:05:01,019 --> 00:05:05,939

paranormal is a descriptive word I would

110

00:05:03,959 --> 00:05:08,939

like to see the stigma taken away from

111

00:05:05,939 --> 00:05:10,589

it here's another question in the same

112

00:05:08,939 --> 00:05:12,829

vein I wondering if you could define

113

00:05:10,589 --> 00:05:15,269

your use of the word subtle energy

114

00:05:12,829 --> 00:05:18,569

because that seems to be an important

115  
00:05:15,269 --> 00:05:20,310  
component of your model right bill

116  
00:05:18,569 --> 00:05:23,129  
teller has written several books about

117  
00:05:20,310 --> 00:05:25,918  
subtle energy and is one of the people I

118  
00:05:23,129 --> 00:05:34,319  
would point to in terms of defining or

119  
00:05:25,918 --> 00:05:36,439  
popularizing what it is the it appears

120  
00:05:34,319 --> 00:05:36,439  
that

121  
00:05:36,839 --> 00:05:42,479  
there's a flexibility that occurs as

122  
00:05:39,509 --> 00:05:44,699  
they say he describes it as a freedom of

123  
00:05:42,480 --> 00:05:46,699  
gauge where there's a missing degree of

124  
00:05:44,699 --> 00:05:51,300  
freedom it's not in our current physics

125  
00:05:46,699 --> 00:05:54,090  
and he tries to characterize it bye-bye

126  
00:05:51,300 --> 00:05:55,620  
subtle energy the the Russians talk

127  
00:05:54,089 --> 00:05:58,049  
about it in terms of what they call

128  
00:05:55,620 --> 00:06:01,079  
torsion which is a twisting of space and

129  
00:05:58,050 --> 00:06:04,079  
it's actually a mediated by spin-spin

130  
00:06:01,079 --> 00:06:06,599  
interactions of particles so it is an

131  
00:06:04,079 --> 00:06:09,539  
effect that you can actually connect

132  
00:06:06,600 --> 00:06:11,639  
back to conventional physics what makes

133  
00:06:09,540 --> 00:06:13,770  
it different from what current physics

134  
00:06:11,639 --> 00:06:16,680  
would predict is in our current

135  
00:06:13,769 --> 00:06:19,109  
Einsteinian model of physics there is no

136  
00:06:16,680 --> 00:06:21,030  
torsion allowed in general activity if

137  
00:06:19,110 --> 00:06:23,639  
you put it in in the way that the

138  
00:06:21,029 --> 00:06:25,500  
Russians do then spin-spin interactions

139  
00:06:23,639 --> 00:06:29,579  
start to have a much more powerful

140  
00:06:25,500 --> 00:06:32,370  
effect so that's the quantitative model

141  
00:06:29,579 --> 00:06:35,849  
that I would appeal to and sorts where

142  
00:06:32,370 --> 00:06:39,389  
subtle energy is going to come out one

143

00:06:35,850 --> 00:06:42,930  
last question here Claude I wonder if

144  
00:06:39,389 --> 00:06:49,500  
you could speculate a bit about the

145  
00:06:42,930 --> 00:06:52,379  
possible common role of vacuum phenomena

146  
00:06:49,500 --> 00:06:55,589  
such as the reorganization of vacuum

147  
00:06:52,379 --> 00:07:00,259  
fluctuations in so-called paranormal

148  
00:06:55,589 --> 00:07:06,239  
phenomena and new UFO phenomena well

149  
00:07:00,259 --> 00:07:08,639  
vacuum reorganization or false vacuums

150  
00:07:06,240 --> 00:07:10,860  
different vacuum states that are not so

151  
00:07:08,639 --> 00:07:13,500  
did the normal plain vanilla vacuum that

152  
00:07:10,860 --> 00:07:15,030  
I grew up knowing and loving i think is

153  
00:07:13,500 --> 00:07:17,848  
another way of saying that's what cell

154  
00:07:15,029 --> 00:07:22,079  
energy is it's a it's adding a degree of

155  
00:07:17,848 --> 00:07:24,509  
freedom to the physics so that what we

156  
00:07:22,079 --> 00:07:27,719  
see with with the DNA laser experiments

157  
00:07:24,509 --> 00:07:30,360

for example is that we can modify this

158

00:07:27,720 --> 00:07:32,610

condition of the vacuum and get

159

00:07:30,360 --> 00:07:36,030

anomalous effects that appear to be

160

00:07:32,610 --> 00:07:38,160

subtle energy effects so again it's

161

00:07:36,029 --> 00:07:41,279

suggesting that subtle energy can be

162

00:07:38,160 --> 00:07:43,830

looked at as these other modified vacuum

163

00:07:41,279 --> 00:07:45,259

states Thank You bud we're about to

164

00:07:43,829 --> 00:07:47,319

start late what

165

00:07:45,259 --> 00:07:47,319

you
