

1  
00:00:05,089 --> 00:00:09,399  
and

2  
00:00:06,620 --> 00:00:09,399  
it is a moment

3  
00:00:09,839 --> 00:00:12,839  
Cattermole

4  
00:00:14,250 --> 00:00:18,649  
vision or

5  
00:00:16,910 --> 00:00:25,849  
it depends on what you mean by my

6  
00:00:18,649 --> 00:00:27,739  
colleagues when we first started doing

7  
00:00:25,849 --> 00:00:30,009  
this research back in the late 70s early

8  
00:00:27,739 --> 00:00:33,859  
80s no one had heard about these things

9  
00:00:30,009 --> 00:00:36,378  
and we did it we did a panel at the 1980

10  
00:00:33,859 --> 00:00:38,539  
American Medical Association and Mike's

11  
00:00:36,378 --> 00:00:41,448  
a bomb makari alters there and can rang

12  
00:00:38,539 --> 00:00:42,890  
and a couple of others and we had a

13  
00:00:41,448 --> 00:00:46,399  
packed crowd was they really wanted to

14  
00:00:42,890 --> 00:00:48,350  
hear about this but after we finish

15  
00:00:46,399 --> 00:00:52,850  
talking there was long silence in the

16  
00:00:48,350 --> 00:00:55,070  
room and one vs. stood up and said I've

17  
00:00:52,850 --> 00:00:56,120  
been at cardiologists for 30 years I've

18  
00:00:55,070 --> 00:00:58,039  
ever heard of single one of these

19  
00:00:56,119 --> 00:01:01,128  
stories how do these people aren't just

20  
00:00:58,039 --> 00:01:03,170  
making it up and then someone else to up

21  
00:01:01,128 --> 00:01:07,909  
and said I'm one of his patients and I

22  
00:01:03,170 --> 00:01:10,549  
still couldn't tell them I have you now

23  
00:01:07,909 --> 00:01:12,200  
when we give these same talks it's very

24  
00:01:10,549 --> 00:01:13,219  
common to have doctors know and stand up

25  
00:01:12,200 --> 00:01:15,500  
and tell about their near-death

26  
00:01:13,219 --> 00:01:19,159  
experiences so it is becoming more

27  
00:01:15,500 --> 00:01:21,649  
common having said that you all know

28  
00:01:19,159 --> 00:01:24,679  
that the powers that control the medical

29

00:01:21,649 --> 00:01:27,439  
journals and certainly the LH NSF this

30  
00:01:24,679 --> 00:01:28,459  
isn't their favorite topic so trying to

31  
00:01:27,439 --> 00:01:30,560  
get funding it's hard to get

32  
00:01:28,459 --> 00:01:32,780  
publications but there's becoming more

33  
00:01:30,560 --> 00:01:34,039  
and more of a grassroots effort and one

34  
00:01:32,780 --> 00:01:35,569  
of things i like about teaching in the

35  
00:01:34,039 --> 00:01:39,170  
medical school is that we're infected

36  
00:01:35,569 --> 00:01:41,629  
the next generation of doctors so as Max

37  
00:01:39,170 --> 00:01:44,170  
Planck said science progresses funeral

38  
00:01:41,629 --> 00:01:44,170  
by funeral

39  
00:01:45,370 --> 00:01:52,180  
but in life there are some announcements

40  
00:01:47,900 --> 00:01:52,180  
I would firstly like to thank all
