

1
00:00:07,940 --> 00:00:14,370
there have been six experiments

2
00:00:10,650 --> 00:00:19,800
measuring the final fluxes reported of

3
00:00:14,369 --> 00:00:24,420
years and not with them not too much

4
00:00:19,800 --> 00:00:26,699
overlap in there in time one of the best

5
00:00:24,420 --> 00:00:28,830
experiments of the Japanese one cooked

6
00:00:26,699 --> 00:00:31,800
cameo Carver gives no evidence of time

7
00:00:28,829 --> 00:00:35,549
variation they measure high-energy

8
00:00:31,800 --> 00:00:39,058
neutrino six MeV or more another

9
00:00:35,549 --> 00:00:42,539
experiment Korg Alex in that was running

10
00:00:39,058 --> 00:00:46,409
several years at a decade ago in Gran

11
00:00:42,539 --> 00:00:51,090
Sasso in Italy measures lower energy

12
00:00:46,409 --> 00:00:53,128
elect new tree nose water one MeV now to

13
00:00:51,090 --> 00:00:55,920
my mind that experiment shows clear

14
00:00:53,128 --> 00:00:59,099
evidence of time variation of the other

15
00:00:55,920 --> 00:01:02,399
deatur of the neutron flux but most

16
00:00:59,100 --> 00:01:05,430
expose experimentalists feel neutron

17
00:01:02,399 --> 00:01:11,250
flux can't theory and therefore it

18
00:01:05,430 --> 00:01:14,719
doesn't therefore it doesn't vary one

19
00:01:11,250 --> 00:01:14,719
more very brief question

20
00:01:18,530 --> 00:01:23,909
evidence that need to hear it changes

21
00:01:21,209 --> 00:01:28,379
our legs

22
00:01:23,909 --> 00:01:32,699
well George is the last slide I showed

23
00:01:28,379 --> 00:01:36,728
showing an apparent relationship between

24
00:01:32,700 --> 00:01:39,189
floors and changes it indicate the only

25
00:01:36,728 --> 00:01:42,390
evidence we have so far we'll be looking

26
00:01:39,189 --> 00:01:42,390
for other evidence
