Swansea UFO Network	2019-06-04	<a href="https://youtu.be/GXYnwZE0Z_E">https://youtu.be/GXYnwZE0Z_E</a>	Swansea UFO Network - Brian Noble	<p>THE HOLOGRAPHIC UNIVERSE' Brian talks about how he got into Journalism &amp; then about The Holographic Universe Brian J. Noble worked as a journalist, firstly with Solihull News, before moving through the Birmingham Post and Mail to the Daily Mail and Mail on Sunday, then briefly the Express. At the Birmingham Mail he specialised on scientific reports, which he continued in his time as a freelance writer with the Daily Mail. Later he moved to Africa, working in Kenya, Congo and Tanzania. Brian retired with virtually no pension because Lord Rothermere put the pension fund into the Daily Mirror Group and Maxwell threw himself off his boat, so he decided to put a pin in the map to decide where to retire to and he ended up in Llanelli! Brian was the last journalist on the planet to interview John Mack before he died. He interviewed him on 25 September 2004 in Cardiff, a Saturday. On Monday the 27th John was run over and killed. A UK, Canadian and Italian study has provided what researchers believe is the first observational evidence that our universe could be a vast and complex hologram. Theoretical physicists and astrophysicists, investigating irregularities in the cosmic microwave background (the 'afterglow' of the Big Bang), have found there is substantial evidence supporting a holographic explanation of the universe – in fact, as much as there is for the traditional explanation of these irregularities using the theory of cosmic inflation. The researchers, from the University of Southampton (UK), University of Waterloo (Canada), Perimeter Institute (Canada), INFN, Lecce (Italy) and the University of Salento (Italy), have published findings in the journal Physical Review Letters. This concept is now reinforced by the simulation argument as proposed by Nick Bostrom of Oxford University, Brian Noble as a sometime science journalist, will attempt to explain what all this means exactly.</p>	<a href="#">Transcript Link</a>

Swansea UFO Network	2019-04-26	<a href="https://youtu.be/jLwWVN0OmS4">https://youtu.be/jLwWVN0OmS4</a>	Swansea UFO Network Presents - Bruce R Fenton - HYBRID HUMANS	<p>A fascinating talk by Bruce &amp; Daniella Bruce and Daniella Fenton have been interviewed on Coast to Coast and Midnight in the Desert etc, and tonight will be discussing their book: 'Hybrid Humans' confirms that Homo Sapiens are indeed an alien-hybrid species established by a wealth of supporting scientific evidence. Already an Amazon Bestseller in UFOs, Hybrid Humans follows in the tradition of trail breaking ancient astronaut books by Lloyd Pye, Erik Von Danken and Zacharia Sitchin. Fans of History Channel's Ancient Aliens will love this book! The extraterrestrial colonists came in peace from the Pleiades, only for most to die a fiery death in orbit around Earth. A long-forgotten now retrieved, series of prehistoric events reveals the true evolutionary origins of humans. How this information has returned to us is itself a mind-blowing story. In 1995, Valerie Barrow (an Australian psychic medium) found herself temporary custodian of an ancient artefact, long-protected by Aboriginal elders. Unknown to her the mysterious 'stone' was, in fact, an incredible extraterrestrial data storage device with an onboard consciousness. The resident alien intelligence introduced itself as Alcheringa and began to download information directly into Valerie's mind. The historical events Alcheringa revealed are about to change our understanding of human origins and humanity's place in the universe, forever. Hybrid Humans does not require readers to believe a single word - every claim validated by objective physical evidence. Guided by Alcheringa, Daniella and Bruce Fenton successfully tracked down the surviving crystalline wreckage from the enormous flying saucer and identified specific anomalies in human DNA, fingerprints of highly advanced extraterrestrial genetic engineers. (unfortunately we had a technical issue that lasted for about a minute during the talk).</p>	<a href="#">Transcript Link</a>

Swansea UFO Network	2019-01-18	<a href="https://youtu.be/DFPQN6SZKXo">https://youtu.be/DFPQN6SZKXo</a>	Swansea UFO Network - Mike Freebury	<p>Mike Freebury is author of 'Killers on the Moor'. He began researching serial animal mutilation attacks in 2000, after hearing, by chance, a broadcast on BBC Radio about government secrecy. His research focused on two main cases, the Dartmoor Ponies incident of 1977 and the Dartmoor sheep attacks between 2005 and 2008. In a ten year investigation Mike amassed a large amount of evidence, some of which came from using the Freedom of Information Act 2000, to obtain a landmark victory, a victory that resulted in the release of police crime scene images which provided important evidence for his investigations. All this culminated in Mike's ground breaking book, Killers on the Moor, which gave an overview of the animal mutilation problem from a UK perspective. Mike's challenging claims that he believes that alien entities are responsible for the majority of cases investigated are supported by a considerable amount of evidence detailed in the book. During 2010, while continuing his investigations into animal mutilations in a remote part of Wales, Mike came across an area of high UFO activity. Together with his co-researcher, Win Keech, a project was started to monitor the numerous activities of a whole range of anomalous phenomena. Using automatic cameras, Mike and Win have amassed one of the world's largest archives of UFO images, an archive that contains much of the evidence that proves that UFOs are real and here! Mike's talk will feature many astonishing images of UFOs. Mike has been a consistent supporter of the farming community and has spoken to numerous UFO conferences and UFO groups about his investigations. He has appeared on TV and radio shows and has written magazine articles as well as his book 'Killers on the Moor'. Please note all images are copyrighted</p>	<a href="#">Transcript Link</a>

Swansea UFO Network	2018-08-20	<a href="https://youtu.be/SajnyYy-R-k">https://youtu.be/SajnyYy-R-k</a>	Pentyrch Incident A Full Presentation By Caz Clarke & Gari Jones	<p>On Tuesday 14th August 2018 Caz Clarke (Primary Witness) &amp; Gari Jones (SUFON Investigator) presented to an audience at Swansea UFO Network a full and detailed presentation into a fascinating UFO case called the Pentyrch Incident. It happened on Friday February 26th 2016 in the small area of Pentyrch two witnesses saw a massive triangular pyramid shaped craft appear in the field behind them. The Military and NATO had been present for a couple of days in the skies and in the early hours a large force awaited the arrival of this craft which in turn had multiple smaller craft emerge from within itself. What followed is like a scene from a SCI-FI movie or something seen in the X-Files but unlike science fiction this actually happened. Witnesses were scanned by smaller craft, the military gave chase to another later followed by sounds of explosions so powerful they shook nearby homes and a hospital. It was officially dubbed a military exercise but thanks to SUFON with Caz Clarke, Neighbours &amp; Friends we've all been able to work together and find out a great amount of detail which is in this video. Linda Moulton Howe of Earthfiles and Kerry Cassidy of Project Camelot have interested in this case and many more as well. This is in my mind one of the biggest UFO cases of modern times. Caz wishes to speak to anyone who has details to the night of Friday 26th February 2016. What happened is that a large pyramid shaped craft appeared in the space on Pentyrch fields where a military presence awaited its arrival, according to witness accounts and all related investigations it does appear that the military knew this thing was coming. Later a large explosion (at least one) was heard coming in the Llantrisant area somewhere close to Royal Glamorgan Hospital. It's belived now the military shot something down, closed off Smilog Wood that is close by and carried something out which may have been the object that was shot down. Contact details are as follows: Please email: <a href="mailto:numberoneuforesearcher@gmail.com">numberoneuforesearcher@gmail.com</a> if you have any information. A truly lovely lady with a kind and good sense of humour. SUFON's Gari Jones, Mike Maunder and Emlyn Williams met up with Margaret to discuss her career and life as researcher. Margaret has 50+ years experience in researching, documenting and investigating thousands of UFO related events and is considered amongst the best in the field. Unfortunately Margaret is getting on in her years and by her own admission has difficulty remembering certain details so the interview was very short in length. However we did manage cover a number of cases with some interesting details in them.	<a href="#">Transcript Link</a>

Swansea UFO Network	2018-05-04	<a href="https://youtu.be/l7hcXKJEGIM">https://youtu.be/l7hcXKJEGIM</a>	Scott Felton FULL SUFON Interview	<p>SUFON North Wales Tour took us to the home of Scott Felton a long time and seasoned investigator of UFO's. Scott has many spent many years researching many cases and has great knowledge on many areas involving UFOLOGY. Scott Felton shares his experiences and insights with SUFON and talks about many sightings he has had. By far the most interesting of his cases is the infamous Berwyn Mountains UFO from January 23rd 1974. Many researchers have claimed this was either a military test or crashed craft, a meteorite or even a crashed UFO. Scott can demonstrate and prove that this is not the case and many people have tried to promote disinformation to destroy any factual investigations into this. His conclusion was that a UFO craft that slowly landed on Cadair Berwyn and that the military orchestrated a cover story during this time on Cadair Bronwen to distract anyone who was watching. Hear Scott Felton talk about this and more, enjoy.</p>	<a href="#">Transcript Link</a>

Many years have given great insights and knowledge that many people in this field can benefit from. His most interesting and possibly greatest case was in Llanilar January 1983. A farmer found his fields covered in strange debris which appeared out of nowhere. People came to the field not long after this and cleared the fields of all traceable debris. Despite the clean-up Gary Rowe recovered a large piece and has since had it tested, this is kept in a safe and secret location but on the day Gary Rowe gave us access to film and photograph it. You can hear his conclusions in this most fascinating interview.</p>	<a href="#">Transcript Link</a>

The children ran indoors to tell the headmaster, Ralph Llewellyn, to come and look. He said he couldn't be bothered (!), but asked the children to sketch what they had seen. He later said he was surprised at how similar all the drawings turned out to be.A few days later, on 17 February, the same craft was seen by 3 members of staff at the school. News of this extraordinary sighting naturally reached the ears of local Ufologist and journalist, Randall Jones Pugh, who was the one largely responsible for bringing it to the attention of the national media . On 7 April Cyril John, a 64-year-old former political leader, had to get up at 5:00 AM, at his home in Milford Haven, for a trip to London. He saw a light shining in his bedroom window. On looking out he observed an egg-shaped object, silver-grey, with an orange-red light on top of it, about 4ft across, rocking gently in the air. Nearby was a humanoid figure, about 7ft-8ft tall, floating in mid-air, like a "free-fall parachutist". The figure was dressed in a silver-grey boiler suit, and appeared to have no facial features, which suggests a mask-like visor. Mr John says it hovered motionless in the air for more than 25 minutes, when both the figure and the object slowly moved off, disappearing from view</p>	<a href="#">Transcript Link</a>
