

1
00:00:16,120 --> 00:00:19,900
but he didn't go into any detail because

2
00:00:18,519 --> 00:00:22,359
he's not the kind of guy who wrote

3
00:00:19,899 --> 00:00:25,689
things down very much unfortunately but

4
00:00:22,359 --> 00:00:30,359
he created this Coral Castle um which is

5
00:00:25,690 --> 00:00:33,640
the most remarkable device and it's it's

6
00:00:30,359 --> 00:00:35,769
basically you can you can go and visit

7
00:00:33,640 --> 00:00:37,780
it today it's it's now what new owners

8
00:00:35,770 --> 00:00:40,210
and you can't you go in there today and

9
00:00:37,780 --> 00:00:42,579
see it if you ever in Florida please

10
00:00:40,210 --> 00:00:45,340
it's a it's a homestead in Florida on

11
00:00:42,579 --> 00:00:48,009
south of Dixie Highway please do go and

12
00:00:45,340 --> 00:00:49,510
see if you can fascinating place it's

13
00:00:48,009 --> 00:00:50,890
one of the few buildings and Florida was

14
00:00:49,509 --> 00:00:53,289
not in any way damaged by Hurricane

15
00:00:50,890 --> 00:00:54,759
Andrew that's actually in 1997 people

16
00:00:53,289 --> 00:00:57,250
actually took shelter inside that

17
00:00:54,759 --> 00:01:00,759
building during Hurricane Andrew in 90

18
00:00:57,250 --> 00:01:04,030
97 was devastated Florida this is one of

19
00:01:00,759 --> 00:01:06,609
the few buildings not damaged um it's so

20
00:01:04,030 --> 00:01:09,370
perfectly built that there was a

21
00:01:06,609 --> 00:01:12,310
revolving door made us a 10-ton block of

22
00:01:09,370 --> 00:01:15,579
coral rock which is so perfectly

23
00:01:12,310 --> 00:01:18,430
balanced that a child could push it open

24
00:01:15,579 --> 00:01:19,599
with Richard it would rotate now

25
00:01:18,430 --> 00:01:20,860
unfortunately coral castle was

26
00:01:19,599 --> 00:01:22,899
dismantled and move to a new location

27
00:01:20,859 --> 00:01:24,879
and when they put the revolving door

28
00:01:22,900 --> 00:01:27,790
back on again they couldn't get it to

29

00:01:24,879 --> 00:01:29,799
turn exposing the perfect balance at

30
00:01:27,790 --> 00:01:31,210
least Caroline and achieved and now they

31
00:01:29,799 --> 00:01:37,370
had to prop it open and put a new gate

32
00:01:31,209 --> 00:01:40,639
outside next slide please

33
00:01:37,370 --> 00:01:42,680
now Walla Edward Lee skelling was busy

34
00:01:40,640 --> 00:01:45,409
building Coral Castle this guy in

35
00:01:42,680 --> 00:01:47,300
Austria was busy watching fish swimming

36
00:01:45,409 --> 00:01:51,229
in the river this is viktor schauburger

37
00:01:47,299 --> 00:01:52,579
and he was Austrian Forester and what he

38
00:01:51,230 --> 00:01:54,439
noticed something very very interesting

39
00:01:52,579 --> 00:01:57,170
about fish he got to know the forest

40
00:01:54,439 --> 00:01:59,659
very well to know the the environment

41
00:01:57,170 --> 00:02:01,010
very well indeed and one of the things

42
00:01:59,659 --> 00:02:03,349
he noticed was that the fish under

43
00:02:01,010 --> 00:02:04,969

certain conditions in rivers when the

44

00:02:03,349 --> 00:02:07,729

waters a certain temperature in certain

45

00:02:04,969 --> 00:02:10,429

flow the fish can actually move without

46

00:02:07,730 --> 00:02:12,830

flicking their fins and he worked out

47

00:02:10,429 --> 00:02:15,469

that they will use him the energy from

48

00:02:12,830 --> 00:02:18,320

the water itself they're extracting

49

00:02:15,469 --> 00:02:19,639

energy from the water actually this is

50

00:02:18,319 --> 00:02:21,099

free energy from the zero-point field

51

00:02:19,639 --> 00:02:23,779

they were extracted through their gills

52

00:02:21,099 --> 00:02:27,199

by making the water rotate in certain

53

00:02:23,780 --> 00:02:30,289

patterns and it's really quite some

54

00:02:27,199 --> 00:02:33,619

amazing thing this he what he's

55

00:02:30,289 --> 00:02:35,659

basically saying is that this is

56

00:02:33,620 --> 00:02:38,090

something this is like this is a fish

57

00:02:35,659 --> 00:02:39,799

that has evolved to use free energy now

58
00:02:38,090 --> 00:02:41,719
he built several devices like a trout

59
00:02:39,800 --> 00:02:44,390
turbine he called it which is very very

60
00:02:41,719 --> 00:02:45,530
simple to do as I said that you don't

61
00:02:44,389 --> 00:02:47,000
need complicated engineering it's

62
00:02:45,530 --> 00:02:49,069
basically just an unusually shaped pipe

63
00:02:47,000 --> 00:02:51,379
but he managed to get this free energy

64
00:02:49,069 --> 00:02:52,699
effect using water in his pipe and he

65
00:02:51,379 --> 00:02:56,150
built several log flumes and other

66
00:02:52,699 --> 00:02:58,729
things like that now in 1938 the Nazis

67
00:02:56,150 --> 00:03:01,789
annexed Austria and they offered him a

68
00:02:58,729 --> 00:03:03,649
job he also noted the Mounties I thought

69
00:03:01,789 --> 00:03:05,299
she so he didn't work for the Nazis this

70
00:03:03,650 --> 00:03:06,560
has been used to discredit it but from

71
00:03:05,300 --> 00:03:09,410
what I gather he was an unwilling

72
00:03:06,560 --> 00:03:11,900
accomplice he just did it because if he

73
00:03:09,409 --> 00:03:14,120
said no he did ended up an account so he

74
00:03:11,900 --> 00:03:18,050
worked for the Nazis building various

75
00:03:14,120 --> 00:03:19,099
devices which maybe we'll come to it

76
00:03:18,050 --> 00:03:22,340
because maybe this is very very

77
00:03:19,099 --> 00:03:23,750
important point because the nut mounting

78
00:03:22,340 --> 00:03:25,670
technology in world war two was way

79
00:03:23,750 --> 00:03:27,169
ahead of the rest of the world we know

80
00:03:25,669 --> 00:03:30,319
they were building crude they had cruise

81
00:03:27,169 --> 00:03:32,238
missiles the Doodlebug and the v2 rocket

82
00:03:30,319 --> 00:03:33,699
this is a missile which they used to

83
00:03:32,239 --> 00:03:35,959
bombard London

84
00:03:33,699 --> 00:03:37,729
this is the start of it though they

85
00:03:35,959 --> 00:03:40,640
would completely give up developing free

86

00:03:37,729 --> 00:03:42,229
energy devices and I believe that when

87
00:03:40,639 --> 00:03:44,839
the war ended and the Nazi regime was

88
00:03:42,229 --> 00:03:47,149
destroyed the victorious Allies took

89
00:03:44,840 --> 00:03:48,739
less technology back to their hung ladz

90
00:03:47,150 --> 00:03:50,959
and continued to develop in a secret

91
00:03:48,739 --> 00:03:52,969
with the health of the scientist the

92
00:03:50,959 --> 00:03:54,650
Nazi scientists were smuggled out the

93
00:03:52,969 --> 00:03:57,139
country under false identities with

94
00:03:54,650 --> 00:03:58,700
operation in Operation Paperclip Britain

95
00:03:57,139 --> 00:04:00,229
got some of them the Soviet Union got

96
00:03:58,699 --> 00:04:02,060
some of them but America got most of

97
00:04:00,229 --> 00:04:04,579
them we know that the venom on brown the

98
00:04:02,060 --> 00:04:06,319
rocket scientist who built the Saturn

99
00:04:04,580 --> 00:04:08,450
five rocket which took men to the moon

100
00:04:06,318 --> 00:04:09,859

or maybe didn't depending on your point

101

00:04:08,449 --> 00:04:12,709

of view that's a subject for another

102

00:04:09,860 --> 00:04:15,349

talk but this Santa five rocket is huge

103

00:04:12,709 --> 00:04:17,209

space rocket took then into space Verner

104

00:04:15,348 --> 00:04:18,349

von Braun designed though but maybe

105

00:04:17,209 --> 00:04:19,970

there was a more maybe there's more

106

00:04:18,350 --> 00:04:22,700

that's the point there's a guy called

107

00:04:19,970 --> 00:04:24,620

Nick look he's written a cup couple of

108

00:04:22,699 --> 00:04:30,469

books and he's made some TV shows about

109

00:04:24,620 --> 00:04:33,288

this next slide please now every so

110

00:04:30,470 --> 00:04:36,650

often doesn't happen very often but this

111

00:04:33,288 --> 00:04:39,349

cover-up is not perfect it sometimes

112

00:04:36,649 --> 00:04:42,370

loses his grip and one day in 1989 the

113

00:04:39,350 --> 00:04:45,770

cover-up of free energy almost failed

114

00:04:42,370 --> 00:04:48,709

this is Martin Fleischmann and Stanley

115
00:04:45,769 --> 00:04:50,359
pons going public in 1989 declaring they

116
00:04:48,709 --> 00:04:53,299
had created something that they called

117
00:04:50,360 --> 00:04:54,919
cold fusion that wasn't their idea to

118
00:04:53,300 --> 00:04:56,449
call it cold fusion as and there's a

119
00:04:54,918 --> 00:04:58,219
long story behind that I think these

120
00:04:56,449 --> 00:04:59,719
there was an attempt to put this genie

121
00:04:58,220 --> 00:05:01,280
back in the bottle as soon as it was out

122
00:04:59,720 --> 00:05:03,260
and the cold fusion thing was a part of

123
00:05:01,279 --> 00:05:05,359
that basically these guys we've been

124
00:05:03,259 --> 00:05:07,089
doing the chemistry experiment using a

125
00:05:05,360 --> 00:05:09,439
system that school boy could do almost

126
00:05:07,089 --> 00:05:12,259
electrolysis something you're doing

127
00:05:09,439 --> 00:05:14,538
science classes in the first year will

128
00:05:12,259 --> 00:05:17,449
you put little electrodes in because of

129
00:05:14,538 --> 00:05:18,978
water with solutions in put to the power

130
00:05:17,449 --> 00:05:20,870
line see what happens they were doing

131
00:05:18,978 --> 00:05:22,879
this to us test unit of deuterium a

132
00:05:20,870 --> 00:05:25,430
substance which is used in nuclear

133
00:05:22,879 --> 00:05:28,668
fusion I couldn't believe they could

134
00:05:25,430 --> 00:05:30,439
believe it when they suddenly found out

135
00:05:28,668 --> 00:05:32,389
the water substance started boiling a

136
00:05:30,439 --> 00:05:33,769
bright light appear in it energy heat

137
00:05:32,389 --> 00:05:36,139
and maximum amounts of energy was being

138
00:05:33,769 --> 00:05:37,629
released so much energy they couldn't be

139
00:05:36,139 --> 00:05:39,939
a chemical reaction

140
00:05:37,629 --> 00:05:44,230
and they put it down to some kind of

141
00:05:39,939 --> 00:05:45,310
nuclear fusion now this it turns out

142
00:05:44,230 --> 00:05:48,430
this wasn't actually something they

143

00:05:45,310 --> 00:05:51,689
discovered this was something that I was

144
00:05:48,430 --> 00:05:53,949
actually first observed in 1921 and

145
00:05:51,689 --> 00:05:55,860
several times since and it's called the

146
00:05:53,949 --> 00:05:57,670
anomalous heat effect but they basically

147
00:05:55,860 --> 00:06:01,210
rediscover them they discovered it

148
00:05:57,670 --> 00:06:03,310
independently now I don't know if you

149
00:06:01,209 --> 00:06:04,870
remember this there's not on online you

150
00:06:03,310 --> 00:06:08,350
can look about the history of the cold

151
00:06:04,870 --> 00:06:10,300
fusion scandal but basically this was a

152
00:06:08,350 --> 00:06:12,760
massive new store across the world for

153
00:06:10,300 --> 00:06:15,699
about a week a scientist rushed to

154
00:06:12,759 --> 00:06:18,490
repeat the experiment and then why hold

155
00:06:15,699 --> 00:06:20,709
the announcement is made well it's

156
00:06:18,490 --> 00:06:23,530
nothing it was a mistake pons and

157
00:06:20,709 --> 00:06:25,479

Fleischmann they messed up they made a

158

00:06:23,529 --> 00:06:28,179

massive error and they're very very

159

00:06:25,480 --> 00:06:32,170

sorry and we're very very sorry to that

160

00:06:28,180 --> 00:06:33,910

we even believed them and this was

161

00:06:32,170 --> 00:06:38,050

basically the general ramey empties the

162

00:06:33,910 --> 00:06:41,650

Roswell saucer story it was all day was

163

00:06:38,050 --> 00:06:43,420

all forgotten about but the thing about

164

00:06:41,649 --> 00:06:45,399

this I mean these there's been attempts

165

00:06:43,420 --> 00:06:46,720

to this has interest in this is being

166

00:06:45,399 --> 00:06:48,699

revived every so often then there was an

167

00:06:46,720 --> 00:06:52,210

attempt to debunk it further with in

168

00:06:48,699 --> 00:06:53,800

2005 with a BBC horizon episode called

169

00:06:52,209 --> 00:06:55,509

an experiment to save the world where

170

00:06:53,800 --> 00:06:57,389

they they mean quick song and dance out

171

00:06:55,509 --> 00:07:00,399

of the fact that they didn't detect any

172
00:06:57,389 --> 00:07:02,050
neutron radiation coming from them from

173
00:07:00,399 --> 00:07:03,669
their experiment thing that it is they

174
00:07:02,050 --> 00:07:05,860
said it's not fusion it's not nuclear

175
00:07:03,670 --> 00:07:07,870
fusion power and it should never be

176
00:07:05,860 --> 00:07:11,050
called cold fusion but doesn't matter in

177
00:07:07,870 --> 00:07:13,930
a sense it doesn't matter but the point

178
00:07:11,050 --> 00:07:15,460
is that heat was being released if he

179
00:07:13,930 --> 00:07:16,959
has been released from a process and

180
00:07:15,459 --> 00:07:19,899
you're getting a massive amount of over

181
00:07:16,959 --> 00:07:22,449
unity or you can you can run that heat

182
00:07:19,899 --> 00:07:24,639
and anything it can warm up a boiler the

183
00:07:22,449 --> 00:07:26,050
boiler can spin a dime per turbine that

184
00:07:24,639 --> 00:07:28,360
survives has been a dynamo you have

185
00:07:26,050 --> 00:07:30,189
power you can work out what's causing it

186
00:07:28,360 --> 00:07:32,290
later you have usable energy source

187
00:07:30,189 --> 00:07:33,319
they're still mysteries associated with

188
00:07:32,290 --> 00:07:37,360
electricity

189
00:07:33,319 --> 00:07:37,360
the stop is using it next slide please

190
00:07:38,680 --> 00:07:46,400
so what will it mean this is that this

191
00:07:44,180 --> 00:07:48,139
is the thing work if you've never

192
00:07:46,399 --> 00:07:50,000
contemplated in this question before you

193
00:07:48,139 --> 00:07:52,099
need you'll take your while to get your

194
00:07:50,000 --> 00:07:54,680
head around there what would it mean if

195
00:07:52,100 --> 00:07:57,830
we have this technology available to us

196
00:07:54,680 --> 00:08:00,110
right now what if we have been allowed

197
00:07:57,829 --> 00:08:03,289
to use it when it was invented almost

198
00:08:00,110 --> 00:08:07,270
150 years ago for the first time what

199
00:08:03,290 --> 00:08:11,150
kind of world would we be living in now

200

00:08:07,269 --> 00:08:14,629
and you have to like I said sit back and

201
00:08:11,149 --> 00:08:18,409
think about we're living in a world in

202
00:08:14,629 --> 00:08:20,569
which you could have a block to device

203
00:08:18,410 --> 00:08:23,420
with no moving parts very low

204
00:08:20,569 --> 00:08:25,909
maintenance costs 80 pounds you can

205
00:08:23,420 --> 00:08:29,569
install it in your house and it provides

206
00:08:25,910 --> 00:08:33,910
you with electricity for to run your

207
00:08:29,569 --> 00:08:36,649
house clean safe completely free forever

208
00:08:33,909 --> 00:08:38,168
you can put it in your car would drive

209
00:08:36,649 --> 00:08:41,029
around the world to stop in for lunch

210
00:08:38,168 --> 00:08:45,799
without any without stopping petrol was

211
00:08:41,029 --> 00:08:47,240
paying a penny on fuel it was

212
00:08:45,799 --> 00:08:50,929
interesting it was gary mckinnon that

213
00:08:47,240 --> 00:08:53,180
the hacker who was thankfully he's not

214
00:08:50,929 --> 00:08:54,799

going to be extradited to the USA not

215

00:08:53,179 --> 00:08:58,279

even to prosecute in this country I

216

00:08:54,799 --> 00:09:00,289

consider him a hero not a criminal it

217

00:08:58,279 --> 00:09:01,519

was the the plight of old people died in

218

00:09:00,289 --> 00:09:04,429

the wintertime because they can't afford

219

00:09:01,519 --> 00:09:07,309

their heating bills that inspired him to

220

00:09:04,429 --> 00:09:09,439

hack into the pentagon hack into NASA

221

00:09:07,309 --> 00:09:10,969

and the partnering defense i find out

222

00:09:09,440 --> 00:09:14,540

what if they had any details about free

223

00:09:10,970 --> 00:09:17,240

energy UFOs is this obscurity is the

224

00:09:14,539 --> 00:09:20,029

obscurity of the world as it is where

225

00:09:17,240 --> 00:09:22,279

we're using the stone eighth this is

226

00:09:20,029 --> 00:09:24,759

Stone Age power source in a 21st century

227

00:09:22,279 --> 00:09:24,759

world

228

00:09:25,889 --> 00:09:30,730

so we would basically would eliminate

229
00:09:27,909 --> 00:09:36,129
poverty in this country and across the

230
00:09:30,730 --> 00:09:41,110
world I mean for instance there be the

231
00:09:36,129 --> 00:09:42,879
famines that happen you could with free

232
00:09:41,110 --> 00:09:45,519
energy do the problems of food

233
00:09:42,879 --> 00:09:47,320
production would be solved you can

234
00:09:45,519 --> 00:09:49,059
actually set up farms in places you can

235
00:09:47,320 --> 00:09:51,280
now for instance in the middle of a

236
00:09:49,059 --> 00:09:52,689
desert if you pee all you need it from

237
00:09:51,279 --> 00:09:55,899
the sea and of course you cannot do that

238
00:09:52,690 --> 00:09:57,970
now for several reasons SI of course sea

239
00:09:55,899 --> 00:09:59,379
water of course is salty you can't put

240
00:09:57,970 --> 00:10:01,540
that you can't drink it and kind of put

241
00:09:59,379 --> 00:10:03,189
it on farmland but you can be sound like

242
00:10:01,539 --> 00:10:05,139
seawater even remove the salt you can

243
00:10:03,190 --> 00:10:07,090
filter it out it's not hard to do that

244
00:10:05,139 --> 00:10:10,000
the problem is it costs a lot of energy

245
00:10:07,090 --> 00:10:11,590
to desalinate seawater but free energy

246
00:10:10,000 --> 00:10:14,860
could do it for nothing and you click

247
00:10:11,590 --> 00:10:17,170
piping the pump it inland thousands of

248
00:10:14,860 --> 00:10:18,850
miles apart of the Sahara Desert or into

249
00:10:17,169 --> 00:10:20,919
the Australian outback and you could

250
00:10:18,850 --> 00:10:25,330
irrigate the farmland that may be using

251
00:10:20,919 --> 00:10:28,209
shall burgers coils maybe using shovels

252
00:10:25,330 --> 00:10:33,370
coils to pump the water up and one of

253
00:10:28,210 --> 00:10:35,860
these blooms there are also things such

254
00:10:33,370 --> 00:10:37,840
as there were various kinds of natural

255
00:10:35,860 --> 00:10:39,789
fertilizer like warmest and Terra Preta

256
00:10:37,840 --> 00:10:41,680
has also been kept from us which

257

00:10:39,789 --> 00:10:43,209
includes the yield of farmland a dozen

258
00:10:41,679 --> 00:10:45,759
times over it should eliminate hunger

259
00:10:43,210 --> 00:10:47,230
they'll be true for everyone you

260
00:10:45,759 --> 00:10:48,220
wouldn't have this West Third World

261
00:10:47,230 --> 00:10:51,990
split anymore there won't be a third

262
00:10:48,220 --> 00:10:55,200
world anyone would be we all been saved

263
00:10:51,990 --> 00:10:55,200
next slide please

264
00:10:56,669 --> 00:10:59,819
in the end pollution and if all the

265
00:10:58,559 --> 00:11:03,389
environmental destruction I thought

266
00:10:59,820 --> 00:11:05,820
about would no longer be effective there

267
00:11:03,389 --> 00:11:07,110
be no need for any more because we would

268
00:11:05,820 --> 00:11:09,420
no longer be polluting the air in the

269
00:11:07,110 --> 00:11:13,409
water with the noxious exhaust of

270
00:11:09,419 --> 00:11:17,069
combustion nor we've been poisoned their

271
00:11:13,409 --> 00:11:21,000

future generations with the glowing

272

00:11:17,070 --> 00:11:24,540

sinister plutonium rods lying in the

273

00:11:21,000 --> 00:11:31,139

ground waiting to be discovered waiting

274

00:11:24,539 --> 00:11:32,459

to leak out it's it's interesting it's

275

00:11:31,139 --> 00:11:34,769

interesting thing I mean I do I live

276

00:11:32,460 --> 00:11:38,820

with I live with three guys who come

277

00:11:34,769 --> 00:11:40,230

from the Sudan the lovely chaps they lay

278

00:11:38,820 --> 00:11:41,910

here in this country eventually because

279

00:11:40,230 --> 00:11:44,009

life in this country sector I can earn

280

00:11:41,909 --> 00:11:47,610

more money there comes use a dust bowl

281

00:11:44,009 --> 00:11:50,039

as mass poverty in Sudan I worked out on

282

00:11:47,610 --> 00:11:52,980

the back of an envelope that just one

283

00:11:50,039 --> 00:11:55,379

mayor sound I stand that's a form of a

284

00:11:52,980 --> 00:11:59,310

fusion free energy devices and anyway

285

00:11:55,379 --> 00:12:00,570

standing there good turn no it's just 10

286

00:11:59,309 --> 00:12:02,279
of them so I just 10 standing by

287

00:12:00,570 --> 00:12:03,930
ourselves could turn the whole Sudan

288

00:12:02,279 --> 00:12:05,819
from a dust bowl into a land flowing

289

00:12:03,929 --> 00:12:07,859
with milk and honey that one country

290

00:12:05,820 --> 00:12:09,840
could feed all Africa let alone the rest

291

00:12:07,860 --> 00:12:11,100
of the world and you don't not limited

292

00:12:09,840 --> 00:12:12,570
to just tending their 100 you could have

293

00:12:11,100 --> 00:12:17,040
a thousand you have a million you can

294

00:12:12,570 --> 00:12:20,190
have as many as you want and um Barbie

295

00:12:17,039 --> 00:12:21,599
on the subject of immigration I mean I

296

00:12:20,190 --> 00:12:22,980
don't want to get angry at people

297

00:12:21,600 --> 00:12:24,960
wanting to come live in this country if

298

00:12:22,980 --> 00:12:26,970
their own countries are so bad I just

299

00:12:24,960 --> 00:12:29,160
think to myself a wise happening what's

300
00:12:26,970 --> 00:12:30,389
the solution and if that if life was

301
00:12:29,159 --> 00:12:33,839
improved in their own country so they

302
00:12:30,389 --> 00:12:35,850
wouldn't want to come here in fact I

303
00:12:33,840 --> 00:12:38,370
could see in the future what in one's

304
00:12:35,850 --> 00:12:41,040
free energies and declassified it could

305
00:12:38,370 --> 00:12:42,870
be the way Britain's people living in

306
00:12:41,039 --> 00:12:44,669
this in the British Isles with always

307
00:12:42,870 --> 00:12:46,230
wet and windy weather around us oh one

308
00:12:44,669 --> 00:12:48,000
of those what get our place in the Sun

309
00:12:46,230 --> 00:12:48,810
and it becomes use my suit down and

310
00:12:48,000 --> 00:12:53,399
we'll have an immigration problem

311
00:12:48,809 --> 00:12:55,449
because we'll be moving there that's the

312
00:12:53,399 --> 00:12:59,029
thing that

313
00:12:55,450 --> 00:13:00,170
now you can say well what seconds of

314

00:12:59,029 --> 00:13:01,730
eventually that's just going to fill up

315
00:13:00,169 --> 00:13:03,769
the others population will continue to

316
00:13:01,730 --> 00:13:06,379
expand and of course the bio economic

317
00:13:03,769 --> 00:13:07,909
capacitor the earth is I think that if

318
00:13:06,379 --> 00:13:11,809
you take into account the energy we use

319
00:13:07,909 --> 00:13:13,429
I believe and then in a sense that the

320
00:13:11,809 --> 00:13:16,489
environmental destruction lack of

321
00:13:13,429 --> 00:13:18,949
resources is caused by our our use of

322
00:13:16,490 --> 00:13:20,810
fossil fuels are the fact that free

323
00:13:18,950 --> 00:13:22,460
energy is not available to us so it's

324
00:13:20,809 --> 00:13:24,409
not our numbers it's not our population

325
00:13:22,460 --> 00:13:27,350
as the problem it's the way we live it's

326
00:13:24,409 --> 00:13:29,269
our lifestyle I think if we improved our

327
00:13:27,350 --> 00:13:31,009
lifestyle by using free energy then the

328
00:13:29,269 --> 00:13:32,779

bio economic the body we can on the

329

00:13:31,009 --> 00:13:34,789

capacitors in the earth will be vastly

330

00:13:32,779 --> 00:13:36,649

increased I mean it's not been

331

00:13:34,789 --> 00:13:39,559

calculated it could be ten times what it

332

00:13:36,649 --> 00:13:41,840

is now it's not infinite of course the

333

00:13:39,559 --> 00:13:44,569

earth is not infinite but with

334

00:13:41,840 --> 00:13:46,280

antigravity we can learn to space we

335

00:13:44,570 --> 00:13:49,760

could we could colonize other planets we

336

00:13:46,279 --> 00:13:51,889

can live on other planets and we need in

337

00:13:49,759 --> 00:13:53,779

a sense we need that is despite where

338

00:13:51,889 --> 00:13:56,210

you see in sci-fi with these rockets fly

339

00:13:53,779 --> 00:13:58,189

around the universe these rockets that

340

00:13:56,210 --> 00:14:00,139

lavoris these these chemical rockets

341

00:13:58,190 --> 00:14:04,100

that chug their way in the forest lee up

342

00:14:00,139 --> 00:14:06,409

into space into low-earth orbit you

343
00:14:04,100 --> 00:14:08,470
could not colonize other planets with

344
00:14:06,409 --> 00:14:11,990
this with these rockets but with

345
00:14:08,470 --> 00:14:13,399
anti-gravity you could fly to the moment

346
00:14:11,990 --> 00:14:17,690
to Mars with the ease of getting in a

347
00:14:13,399 --> 00:14:19,939
car driving to Cardiff we could spread

348
00:14:17,690 --> 00:14:22,300
out into the universe the infinite

349
00:14:19,940 --> 00:14:22,300
universe

350
00:14:22,620 --> 00:14:31,919
so next slide please just go back to

351
00:14:26,730 --> 00:14:33,240
hind Birds graph as you see here this is

352
00:14:31,919 --> 00:14:35,069
the situation we're in today with

353
00:14:33,240 --> 00:14:37,110
resources plummeting at the same time as

354
00:14:35,070 --> 00:14:39,420
population energy production and

355
00:14:37,110 --> 00:14:40,740
environmental instruction is rising as

356
00:14:39,419 --> 00:14:42,569
you remember when I previously showed

357
00:14:40,740 --> 00:14:43,830
you this set of graphs in Heinberg

358
00:14:42,570 --> 00:14:46,640
pessimistic model this eventually

359
00:14:43,830 --> 00:14:48,780
resulted in massive population and

360
00:14:46,639 --> 00:14:52,019
environment destruction and zero

361
00:14:48,779 --> 00:14:53,759
resources which then led to the fall but

362
00:14:52,019 --> 00:14:57,179
let's just imagine that free energy was

363
00:14:53,759 --> 00:14:59,250
Declassified at this point now i'm going

364
00:14:57,179 --> 00:15:00,750
to say not under them okay so i feel

365
00:14:59,250 --> 00:15:05,250
optimistic i'm gonna put slightly in the

366
00:15:00,750 --> 00:15:06,659
future next slide please free energy

367
00:15:05,250 --> 00:15:10,610
disc asif eyes at this point what

368
00:15:06,659 --> 00:15:12,959
happens hein boats wealth is transformed

369
00:15:10,610 --> 00:15:14,789
in the first place population some

370
00:15:12,960 --> 00:15:16,680
levels off now this is the size of this

371

00:15:14,789 --> 00:15:20,179
is going to happen anyway it'll level

372
00:15:16,679 --> 00:15:22,949
off a little at a position which is

373
00:15:20,179 --> 00:15:24,779
lower than the bio economic capacity of

374
00:15:22,950 --> 00:15:26,960
the earth so we wouldn't we wouldn't be

375
00:15:24,779 --> 00:15:30,059
damaging the earth with our numbers

376
00:15:26,960 --> 00:15:31,680
secondly resources would once free

377
00:15:30,059 --> 00:15:35,309
energies declassified resources could

378
00:15:31,679 --> 00:15:39,809
recover back to their pre civilisational

379
00:15:35,309 --> 00:15:42,569
levels and once the once the harmful

380
00:15:39,809 --> 00:15:45,329
lifestyle over the fossil fuel use is

381
00:15:42,570 --> 00:15:47,400
removed environment destruction plummets

382
00:15:45,330 --> 00:15:48,690
it goes back down the earth heals itself

383
00:15:47,399 --> 00:15:52,409
till it's back to its pre Civil

384
00:15:48,690 --> 00:15:54,630
civilisational level some question is

385
00:15:52,409 --> 00:15:58,370

though we're on that graph do I put

386

00:15:54,629 --> 00:15:58,370

energy next slide please

387

00:15:59,379 --> 00:16:05,409

there's nowhere I can put it on there

388

00:16:01,979 --> 00:16:07,269

infinite energy that's why it's simply

389

00:16:05,409 --> 00:16:08,649

infinity symbol that's the only thing I

390

00:16:07,269 --> 00:16:11,288

can right now I can't put it on there as

391

00:16:08,649 --> 00:16:17,979

a line there's as much energy as you

392

00:16:11,288 --> 00:16:20,918

want so in summary so far we have a lack

393

00:16:17,979 --> 00:16:24,038

of resources we have a pathological and

394

00:16:20,918 --> 00:16:26,228

primitive energy system which is cause

395

00:16:24,038 --> 00:16:29,438

the human suffering and the destruction

396

00:16:26,229 --> 00:16:35,408

of the earth none of it is necessary all

397

00:16:29,438 --> 00:16:38,708

of it is preventable so why if it's if

398

00:16:35,408 --> 00:16:40,720

that's the case why is this preventable

399

00:16:38,708 --> 00:16:45,399

disaster being inflicted on us next

400
00:16:40,720 --> 00:16:48,459
slide please earlier on I mentioned

401
00:16:45,399 --> 00:16:50,198
Nikola Tesla did these bankers destroy

402
00:16:48,458 --> 00:16:52,808
Tesla to stop his gift of free energy

403
00:16:50,198 --> 00:16:56,618
for all that's a rhetorical question

404
00:16:52,808 --> 00:16:59,019
I've handed JP Morgan the Wahlberg

405
00:16:56,619 --> 00:17:00,609
family the Rockefeller family these

406
00:16:59,019 --> 00:17:05,669
families are still major power brokers

407
00:17:00,609 --> 00:17:08,139
in America today way on and one of the

408
00:17:05,669 --> 00:17:10,509
Rockefellers was once asked on net lives

409
00:17:08,138 --> 00:17:12,068
Nelson Rockefeller owns one of the

410
00:17:10,509 --> 00:17:13,838
rockers once asked if he wanted to run

411
00:17:12,068 --> 00:17:15,250
for president he said I don't want to be

412
00:17:13,838 --> 00:17:19,198
present to the united states that would

413
00:17:15,250 --> 00:17:19,199
be a demotion and it's true

414
00:17:21,609 --> 00:17:28,750
the reason we don't have free energy is

415
00:17:25,039 --> 00:17:30,950
because the world is controlled by

416
00:17:28,750 --> 00:17:35,720
forces political forces political

417
00:17:30,950 --> 00:17:38,180
individuals and he could who use frenzy

418
00:17:35,720 --> 00:17:39,799
for control they use these that they

419
00:17:38,180 --> 00:17:42,710
withhold free energy for the purposes

420
00:17:39,799 --> 00:17:45,409
control the distribution the rationing

421
00:17:42,710 --> 00:17:49,569
the control of energy supply to the

422
00:17:45,410 --> 00:17:52,990
people is quintessential for their power

423
00:17:49,569 --> 00:17:56,539
it's quintessential for the status quo

424
00:17:52,990 --> 00:17:58,309
which puts them in their position it's a

425
00:17:56,539 --> 00:18:00,950
fundamental means of wielding power I

426
00:17:58,309 --> 00:18:02,269
don't know why they want to do that I'm

427
00:18:00,950 --> 00:18:05,720
not them I don't know what goes through

428

00:18:02,269 --> 00:18:07,460
their head but everything I discussed

429
00:18:05,720 --> 00:18:08,600
before we're discussing the hind book

430
00:18:07,460 --> 00:18:11,140
graphs that everything like that is a

431
00:18:08,599 --> 00:18:15,759
fraud it's a it's a construct it's a lie

432
00:18:11,140 --> 00:18:15,759
and it's been maintained by these people

433
00:18:17,230 --> 00:18:22,880
now in terms of penetrating the

434
00:18:20,809 --> 00:18:24,919
structure of the breakaway civilization

435
00:18:22,880 --> 00:18:26,330
with Richard Dolan calls it or whatever

436
00:18:24,920 --> 00:18:28,519
else you want to call it the men in

437
00:18:26,329 --> 00:18:30,079
black the Illuminati in order to

438
00:18:28,519 --> 00:18:31,759
penetrate this is this power structure

439
00:18:30,079 --> 00:18:34,399
you need to realize that there are some

440
00:18:31,759 --> 00:18:37,009
people in it who are not initiated into

441
00:18:34,400 --> 00:18:39,950
the true secrets someone that might now

442
00:18:37,009 --> 00:18:41,420

has explained are people who believe the

443

00:18:39,950 --> 00:18:42,470

earth is about to be destroyed and

444

00:18:41,420 --> 00:18:44,480

there's nothing we can do about it

445

00:18:42,470 --> 00:18:46,970

except interest introduced a new world

446

00:18:44,480 --> 00:18:50,660

order to save the planet that's as I

447

00:18:46,970 --> 00:18:53,269

discuss before others are what I call

448

00:18:50,660 --> 00:18:57,710

the outer party now this is good matter

449

00:18:53,269 --> 00:18:59,839

George Orwell and 1984 he envisioned the

450

00:18:57,710 --> 00:19:01,579

world in which most people were trolls

451

00:18:59,839 --> 00:19:02,869

that's you and me ordinary people and

452

00:19:01,579 --> 00:19:05,269

then the world is controlled by the in

453

00:19:02,869 --> 00:19:06,619

sauk party don't inner party the new

454

00:19:05,269 --> 00:19:09,279

everything and an outer party unless

455

00:19:06,619 --> 00:19:09,279

appear across

456

00:19:10,019 --> 00:19:13,960

the other party I don't believe want to

457
00:19:12,339 --> 00:19:15,879
build a new world or the algae party are

458
00:19:13,960 --> 00:19:20,740
basically people maybe who are motivated

459
00:19:15,880 --> 00:19:22,929
by greed and self-interest and they may

460
00:19:20,740 --> 00:19:26,589
be addicted to getting as much money in

461
00:19:22,929 --> 00:19:27,880
possessions as they can and I'm talk

462
00:19:26,589 --> 00:19:31,178
about people maybe you were in charge of

463
00:19:27,880 --> 00:19:32,860
oil companies now free those you would

464
00:19:31,179 --> 00:19:35,410
not be good for oil companies with it I

465
00:19:32,859 --> 00:19:36,759
mean you you basically be going up to

466
00:19:35,410 --> 00:19:38,558
the chairman of Royal Dutch Shell and

467
00:19:36,759 --> 00:19:43,509
saying sorry your services are no longer

468
00:19:38,558 --> 00:19:47,230
required what's he going to say no

469
00:19:43,509 --> 00:19:49,119
problem we'll adapt we are a creative

470
00:19:47,230 --> 00:19:51,548
company we can go up we can enter other

471
00:19:49,119 --> 00:19:55,569
markets you still need oil to make

472
00:19:51,548 --> 00:19:57,509
candles you know she'll candles yes they

473
00:19:55,569 --> 00:20:00,069
can be pretty they can be bright colors

474
00:19:57,509 --> 00:20:02,740
they can be snuff smell nice and not

475
00:20:00,069 --> 00:20:05,139
burn your wallpaper not stain your

476
00:20:02,740 --> 00:20:06,970
furniture yep she'll candles that'll be

477
00:20:05,140 --> 00:20:10,150
a big dollar won't it everyone want one

478
00:20:06,970 --> 00:20:16,329
of those of course not of course and

479
00:20:10,150 --> 00:20:18,370
they know the situation and now I

480
00:20:16,329 --> 00:20:20,428
shouldn't like to point out the skeptics

481
00:20:18,369 --> 00:20:22,689
at this point skeptics in the same

482
00:20:20,429 --> 00:20:24,759
there's no such thing as free energy

483
00:20:22,690 --> 00:20:27,220
alright it is a big for all these things

484
00:20:24,759 --> 00:20:31,960
it's a lighter delusion it's a

485

00:20:27,220 --> 00:20:33,100
conspiracy theory don't believe it and

486
00:20:31,960 --> 00:20:35,289
what they'll say at some point this is

487
00:20:33,099 --> 00:20:39,269
like a eric reid is what's really

488
00:20:35,289 --> 00:20:42,240
annoying voice easy fully the ghost and

489
00:20:39,269 --> 00:20:44,529
why don't these inventors of free energy

490
00:20:42,240 --> 00:20:47,230
instead of them why don't they just

491
00:20:44,529 --> 00:20:49,210
start selling their free energy if they

492
00:20:47,230 --> 00:20:50,740
have this these machines they could

493
00:20:49,210 --> 00:20:53,048
start selling it right now and make a

494
00:20:50,740 --> 00:20:55,179
fortune and what's more they would be

495
00:20:53,048 --> 00:20:58,058
able to become Multi multi millionaires

496
00:20:55,179 --> 00:21:01,240
and they win Nobel prizes and it's just

497
00:20:58,058 --> 00:21:04,029
like naivety sitting you can explain you

498
00:21:01,240 --> 00:21:06,880
cannot sell free energy this is the

499
00:21:04,029 --> 00:21:08,589

point okay you can't if you have one of

500

00:21:06,880 --> 00:21:10,240

these free energy devices you can't go

501

00:21:08,589 --> 00:21:12,548

to people and demand electric bills off

502

00:21:10,240 --> 00:21:14,919

them it's like going up to the skipper a

503

00:21:12,548 --> 00:21:16,849

sailing ship and saying to him I'm going

504

00:21:14,919 --> 00:21:18,980

to attach an anemometer on your mask

505

00:21:16,849 --> 00:21:20,599

the wing you use I'm gonna attach it to

506

00:21:18,980 --> 00:21:23,210

a meter and I'm going to charge you for

507

00:21:20,599 --> 00:21:28,179

the wind you're using for your ship you

508

00:21:23,210 --> 00:21:32,660

can't do it this is not possible and

509

00:21:28,180 --> 00:21:34,640

it's it's interesting lets them it's too

510

00:21:32,660 --> 00:21:36,040

good I say this this cover-up can be

511

00:21:34,640 --> 00:21:38,180

traced back a long way these guys

512

00:21:36,039 --> 00:21:40,690

destroyed Tesla as I said it when i

513

00:21:38,180 --> 00:21:43,130

first started just discussing Tesla

514
00:21:40,690 --> 00:21:44,390
Tesla was going to give his free energy

515
00:21:43,130 --> 00:21:48,530
as a gift of the world and they stopped

516
00:21:44,390 --> 00:21:50,240
him but Tesla basically was going to

517
00:21:48,529 --> 00:21:51,879
sign a deal with Henry forward who Henry

518
00:21:50,240 --> 00:21:54,950
Ford of course was the big motor

519
00:21:51,880 --> 00:21:59,180
designers who built the first practical

520
00:21:54,950 --> 00:22:00,170
cars I'm in 1902 1903 this was an

521
00:21:59,180 --> 00:22:02,840
interesting time we've received about

522
00:22:00,170 --> 00:22:04,340
the mass-produced car this was a Carly

523
00:22:02,839 --> 00:22:06,230
you had a production line like modern

524
00:22:04,339 --> 00:22:08,029
cars are made which is very very good

525
00:22:06,230 --> 00:22:09,559
because it meant bad ordinary people

526
00:22:08,029 --> 00:22:11,799
could have fought them before then cars

527
00:22:09,559 --> 00:22:13,819
have been very much a luxury device and

528
00:22:11,799 --> 00:22:15,769
what you want to do he wanted to protect

529
00:22:13,819 --> 00:22:18,259
two lines he wanted to put a line of

530
00:22:15,769 --> 00:22:20,180
petrol driven cars and a line of

531
00:22:18,259 --> 00:22:22,069
electrically powered cars and the

532
00:22:20,180 --> 00:22:24,170
electrical power was going to come from

533
00:22:22,069 --> 00:22:26,720
Nikola Tesla's generators and he was

534
00:22:24,170 --> 00:22:29,480
about to sign a deal with Tesla and then

535
00:22:26,720 --> 00:22:32,089
these guys put a stop to it and so they

536
00:22:29,480 --> 00:22:33,589
said n visit this Henry carry on with

537
00:22:32,089 --> 00:22:36,500
the petrol line was shutting down this

538
00:22:33,589 --> 00:22:38,359
electric ride and so can we for went and

539
00:22:36,500 --> 00:22:40,130
he made his cars or petrol driven cars

540
00:22:38,359 --> 00:22:42,339
and we're still driving petrol cars

541
00:22:40,130 --> 00:22:42,340
today

542

00:22:43,670 --> 00:22:48,320
I think what a lot of people these

543
00:22:46,759 --> 00:22:50,329
people refrain on is changing the

544
00:22:48,319 --> 00:22:52,039
geopolitical order the the powers that

545
00:22:50,329 --> 00:22:53,960
we do not like change they like the

546
00:22:52,039 --> 00:22:58,129
status quo they want the status thing

547
00:22:53,960 --> 00:23:00,289
and free energy would transform the

548
00:22:58,130 --> 00:23:01,970
geopolitical order so much they be

549
00:23:00,289 --> 00:23:03,039
together moving power which the bitch is

550
00:23:01,970 --> 00:23:06,829
quite rightly from their perspective

551
00:23:03,039 --> 00:23:11,269
it's a justified fear very justified

552
00:23:06,829 --> 00:23:12,500
indeed they be scared for instance as I

553
00:23:11,269 --> 00:23:16,279
said before there wouldn't be no more

554
00:23:12,500 --> 00:23:18,049
poverty that there be no this disparity

555
00:23:16,279 --> 00:23:21,170
between the rich countries and poor

556
00:23:18,049 --> 00:23:23,149

countries would no longer exist in I

557

00:23:21,170 --> 00:23:25,130

imagine in such a situation India and

558

00:23:23,150 --> 00:23:28,100

China would become a lot more powerful I

559

00:23:25,130 --> 00:23:29,720

mean shine already is basically the most

560

00:23:28,099 --> 00:23:31,730

powerful industrial nation on earth now

561

00:23:29,720 --> 00:23:36,650

it's overtaking the United States in my

562

00:23:31,730 --> 00:23:38,960

view with China and India have a huge

563

00:23:36,650 --> 00:23:40,910

population of enormous resources in the

564

00:23:38,960 --> 00:23:45,079

world which is freed from the burden of

565

00:23:40,910 --> 00:23:49,070

petroleum and petroleum being used as an

566

00:23:45,079 --> 00:23:56,500

economic tool of control don't dominate

567

00:23:49,069 --> 00:23:56,500

the world now next slide please

568

00:23:56,970 --> 00:24:02,490

perhaps is something more subtle on that

569

00:23:58,919 --> 00:24:04,500

it's it's a higher level two um it's

570

00:24:02,490 --> 00:24:08,400

about the psychological control of

571
00:24:04,500 --> 00:24:10,829
people as well David I get one of his

572
00:24:08,400 --> 00:24:13,200
lectures he he says he talks about this

573
00:24:10,829 --> 00:24:15,750
briefly I don't think he goes into the

574
00:24:13,200 --> 00:24:17,340
subject enough but he says scarcity

575
00:24:15,750 --> 00:24:20,779
equals dependency equals control

576
00:24:17,339 --> 00:24:23,339
abundance equals choice equals freedom

577
00:24:20,779 --> 00:24:25,379
in a world free energy there'd be a lot

578
00:24:23,339 --> 00:24:27,058
less to worry about most of the problems

579
00:24:25,380 --> 00:24:29,850
that are happening in the world around

580
00:24:27,058 --> 00:24:31,319
us are caused by our lack of free energy

581
00:24:29,849 --> 00:24:32,879
when can people could be sold by our

582
00:24:31,319 --> 00:24:34,529
lack of free energy not all of them but

583
00:24:32,880 --> 00:24:37,470
a lot of a lot of proportion of our

584
00:24:34,529 --> 00:24:39,298
problems that the things that frighten

585
00:24:37,470 --> 00:24:42,839
us now you ask people what people are

586
00:24:39,298 --> 00:24:43,879
frightened of they done surveys of this

587
00:24:42,839 --> 00:24:46,439
and they will say things like

588
00:24:43,880 --> 00:24:48,179
unemployment poverty I'm scared of

589
00:24:46,440 --> 00:24:52,080
becoming for I'm scared of losing my

590
00:24:48,179 --> 00:24:53,640
home I'm sorry I'm scared of losing my

591
00:24:52,079 --> 00:24:55,740
job things like this in other words

592
00:24:53,640 --> 00:24:58,409
economic fears fears about and the

593
00:24:55,740 --> 00:24:59,880
economy failing and as you see here this

594
00:24:58,409 --> 00:25:02,490
is pretty much an illustration of it it

595
00:24:59,880 --> 00:25:06,320
wasn't it health stress no sleep field

596
00:25:02,490 --> 00:25:08,370
work job late nights fear payments

597
00:25:06,319 --> 00:25:11,750
people in this sort state alleviate

598
00:25:08,369 --> 00:25:14,729
their it open make obedient citizens

599

00:25:11,750 --> 00:25:18,109
especially if the people we have to obey

600
00:25:14,730 --> 00:25:20,880
hold not only our purse strings but are

601
00:25:18,109 --> 00:25:22,740
basically our energy supply we'd be like

602
00:25:20,880 --> 00:25:25,950
the computer that needs an electrical

603
00:25:22,740 --> 00:25:27,240
support and if you control that supply

604
00:25:25,950 --> 00:25:29,419
you you are a lot of power over the

605
00:25:27,240 --> 00:25:29,419
computer

606
00:25:31,609 --> 00:25:38,048
and I think you would I really think if

607
00:25:33,829 --> 00:25:42,579
free energy as i said is quintessential

608
00:25:38,048 --> 00:25:46,069
to the New World Order next slide please

609
00:25:42,579 --> 00:25:48,949
now the risk us the inner party this is

610
00:25:46,069 --> 00:25:52,220
where we have to speculate and in a way

611
00:25:48,950 --> 00:25:54,710
it doesn't matter who they are it's what

612
00:25:52,220 --> 00:25:57,640
they are doing which one counts the

613
00:25:54,710 --> 00:26:00,079

inner party the men in the majestic 12

614

00:25:57,640 --> 00:26:03,040
the breakaway civilization the

615

00:26:00,079 --> 00:26:06,379
Illuminati whatever you choose to call

616

00:26:03,039 --> 00:26:08,690
it's a who they are as people is not

617

00:26:06,380 --> 00:26:10,190
relevant if indeed they are people and

618

00:26:08,690 --> 00:26:12,500
going back to the reptilian humanoid I

619

00:26:10,190 --> 00:26:15,080
showed you at the beginning there are

620

00:26:12,500 --> 00:26:16,519
this is a big story but there is reason

621

00:26:15,079 --> 00:26:19,519
to actually take seriously the idea that

622

00:26:16,519 --> 00:26:22,660
they may not be human as we define him

623

00:26:19,519 --> 00:26:25,940
and they may actually be something else

624

00:26:22,660 --> 00:26:30,169
in with human bodies without human

625

00:26:25,940 --> 00:26:33,110
spirit every so often someone will point

626

00:26:30,169 --> 00:26:35,929
the finger they'll go it's the Jews it's

627

00:26:33,109 --> 00:26:39,229
the Americans ok it's not i don't i

628
00:26:35,929 --> 00:26:41,540
don't believe it is any particular group

629
00:26:39,230 --> 00:26:43,308
of people on this world exists at an

630
00:26:41,539 --> 00:26:45,319
existing culture on this walk religious

631
00:26:43,308 --> 00:26:47,089
group on this world doesn't do any how

632
00:26:45,319 --> 00:26:52,428
did some help to blame people like that

633
00:26:47,089 --> 00:26:56,720
without any reason it's it's a tricky

634
00:26:52,429 --> 00:26:59,419
it's a tricky situation and but i think

635
00:26:56,720 --> 00:27:00,890
at some point people like steve bassett

636
00:26:59,419 --> 00:27:02,900
who is campaigning for disclosure i

637
00:27:00,890 --> 00:27:03,770
talked about a little in a minute they

638
00:27:02,900 --> 00:27:05,840
need to come to terms with this

639
00:27:03,769 --> 00:27:07,960
information next slide please am i doing

640
00:27:05,839 --> 00:27:07,959
for time

641
00:27:08,710 --> 00:27:13,850
10-15 alright so this is Bruce depart

642
00:27:12,019 --> 00:27:16,399
this is shown so this is Stanley money i

643
00:27:13,849 --> 00:27:17,868
believe yeah this is Stanley mayor mayor

644
00:27:16,398 --> 00:27:19,579
and his lamorris right I talk to you

645
00:27:17,868 --> 00:27:21,378
about the mayor sell the one was just

646
00:27:19,579 --> 00:27:25,269
ten of those good to him power the whole

647
00:27:21,378 --> 00:27:27,798
of the country of Sudan he's dead

648
00:27:25,269 --> 00:27:29,149
Stanley mayor is dead he went for a

649
00:27:27,798 --> 00:27:30,558
meeting he went for a business lunch

650
00:27:29,148 --> 00:27:34,339
with some people who were gonna invest

651
00:27:30,558 --> 00:27:35,418
in his in his product and he ran out

652
00:27:34,339 --> 00:27:40,638
into the street clutching his throat

653
00:27:35,419 --> 00:27:42,528
saying they poisoned me and he died in

654
00:27:40,638 --> 00:27:45,138
fact a lot of a large proportion of

655
00:27:42,528 --> 00:27:46,278
these inventors is John Hutchison I

656

00:27:45,138 --> 00:27:49,368
showed you earlier one of the few left

657
00:27:46,278 --> 00:27:51,048
alive actually Brewster Palmer fell off

658
00:27:49,368 --> 00:27:52,579
a train while he was drunk apparently

659
00:27:51,048 --> 00:27:55,308
and mouton's up he's not moving trainee

660
00:27:52,579 --> 00:28:00,589
father training drunk now Eugene mallove

661
00:27:55,308 --> 00:28:02,928
was he's dead and there's many other

662
00:28:00,589 --> 00:28:03,949
examples as well people either dead

663
00:28:02,929 --> 00:28:07,278
although they've got their careers

664
00:28:03,950 --> 00:28:12,019
destroyed or they basically shut up in

665
00:28:07,278 --> 00:28:14,148
order to protect nikkor is if you have a

666
00:28:12,019 --> 00:28:15,409
free energy invention what happen is you

667
00:28:14,148 --> 00:28:17,449
will be very very careful there's

668
00:28:15,409 --> 00:28:20,149
several organizations now that are

669
00:28:17,450 --> 00:28:21,528
acting has basically support groups for

670
00:28:20,148 --> 00:28:23,478

free energy inventors there's one quick

671

00:28:21,528 --> 00:28:25,339

Keely net which i think is very good I

672

00:28:23,479 --> 00:28:26,598

like that one and there's several others

673

00:28:25,339 --> 00:28:28,868

that I wouldn't trust because I think

674

00:28:26,598 --> 00:28:32,689

they may be government gum infiltration

675

00:28:28,868 --> 00:28:34,009

you're going to ask around contact

676

00:28:32,690 --> 00:28:36,590

people and see what you might think but

677

00:28:34,009 --> 00:28:37,970

then what happen is if you gave you have

678

00:28:36,589 --> 00:28:39,858

a free energy invention first well don't

679

00:28:37,970 --> 00:28:42,229

patent it if you patent it you'll be

680

00:28:39,858 --> 00:28:44,658

approached by some guys in gray suits

681

00:28:42,229 --> 00:28:47,058

who's smiling and friendly and they

682

00:28:44,659 --> 00:28:49,340

offered development the office of they

683

00:28:47,058 --> 00:28:50,628

want blaster by development rights well

684

00:28:49,339 --> 00:28:52,728

I want you to sign a development

685
00:28:50,628 --> 00:28:54,138
contract of various kinds they'll offer

686
00:28:52,729 --> 00:28:56,119
you a large amount of money for it I

687
00:28:54,138 --> 00:28:58,089
remember free energy invention it free

688
00:28:56,118 --> 00:29:01,970
three of these inventors are very often

689
00:28:58,089 --> 00:29:03,738
part-time amateur creators who you spend

690
00:29:01,970 --> 00:29:06,259
their free time in their garden shed

691
00:29:03,739 --> 00:29:07,340
tinkering away really really annoying

692
00:29:06,259 --> 00:29:08,589
their wife and their kids because

693
00:29:07,339 --> 00:29:10,839
they're never in the house

694
00:29:08,589 --> 00:29:12,399
living in poverty living on the

695
00:29:10,839 --> 00:29:14,769
breadline support themselves in their

696
00:29:12,400 --> 00:29:17,309
day job there's someone offers you 20

697
00:29:14,769 --> 00:29:17,308
million pounds
