

1
00:00:02,520 --> 00:00:10,830
in America National Geographic edge to

2
00:00:07,849 --> 00:00:14,009
history channel they love the premise

3
00:00:10,830 --> 00:00:18,028
they love my background didn't get the

4
00:00:14,009 --> 00:00:23,369
series the first time a year ago because

5
00:00:18,028 --> 00:00:26,880
of my accent the American networks one

6
00:00:23,370 --> 00:00:29,250
year later they dropped part of the

7
00:00:26,879 --> 00:00:31,710
story and added an American research

8
00:00:29,250 --> 00:00:34,769
call Erica loops who's Pat movement

9
00:00:31,710 --> 00:00:37,590
which is a state director and she was

10
00:00:34,770 --> 00:00:39,660
good very good American so it's going to

11
00:00:37,590 --> 00:00:42,030
be called from UF for detective to your

12
00:00:39,659 --> 00:00:44,669
for detectives when I was going to be

13
00:00:42,030 --> 00:00:49,140
the lead now the right Atlantic love the

14
00:00:44,670 --> 00:00:50,910
premise will go with Max will go with an

15
00:00:49,140 --> 00:00:53,969
American lead and I said forget it my

16
00:00:50,909 --> 00:00:55,738
idea so it's dead in the water for two

17
00:00:53,969 --> 00:00:57,750
years we're going around all the

18
00:00:55,738 --> 00:01:00,988
networks and of course America all the

19
00:00:57,750 --> 00:01:03,030
money the biggest proportion yeah we

20
00:01:00,988 --> 00:01:04,768
have the UK networks on board we have

21
00:01:03,030 --> 00:01:07,799
because of what they do is you get an

22
00:01:04,769 --> 00:01:10,020
amalgam of budgets but the Americans put

23
00:01:07,799 --> 00:01:11,999
in the biggest budget and if you don't

24
00:01:10,019 --> 00:01:14,039
get them on board seriously can happen

25
00:01:11,998 --> 00:01:18,899
so studying the water found out about

26
00:01:14,039 --> 00:01:24,269
week book but my accident I don't think

27
00:01:18,899 --> 00:01:28,138
that is that strong yeah yeah imagine

28
00:01:24,269 --> 00:01:30,388
being in the valleys but yeah that's

29

00:01:28,138 --> 00:01:32,578
exactly what the set right off the way

30
00:01:30,388 --> 00:01:34,920
to the top the like mean the like the

31
00:01:32,578 --> 00:01:36,868
premise the Americans wouldn't be able

32
00:01:34,920 --> 00:01:38,638
to sell it doesn't my accident I even

33
00:01:36,868 --> 00:01:40,228
said that on voice true now you can

34
00:01:38,638 --> 00:01:43,228
always water down your accent anyway

35
00:01:40,228 --> 00:01:45,688
Kenny okay but that's what I said so

36
00:01:43,228 --> 00:01:49,438
it's not growing any one but maybe one

37
00:01:45,688 --> 00:01:52,559
day as we approach that 2033 this is the

38
00:01:49,438 --> 00:01:55,019
thing the mainstream are going to have

39
00:01:52,560 --> 00:01:58,590
to go in to capture because they have

40
00:01:55,019 --> 00:02:00,959
set the clock room 2033 but what I

41
00:01:58,590 --> 00:02:03,959
suspect will happen that in the rule up

42
00:02:00,959 --> 00:02:06,299
to twenty thirty three the mainstream

43
00:02:03,959 --> 00:02:09,449

media gonna have to go

44

00:02:06,299 --> 00:02:11,400

scrappin in the next year or two I think

45

00:02:09,449 --> 00:02:12,959

with re-examine this subject to you at

46

00:02:11,400 --> 00:02:16,710

first but you have to be with the eating

47

00:02:12,960 --> 00:02:18,270

contact well yes the thing they've got a

48

00:02:16,710 --> 00:02:20,219

van start looking back at the subject

49

00:02:18,270 --> 00:02:21,689

with proper open eyes this time and

50

00:02:20,219 --> 00:02:24,300

thinking well maybe these guys were so

51

00:02:21,689 --> 00:02:25,829

stupid maybe these pilots 5000 world

52

00:02:24,300 --> 00:02:27,810

life who were going to record two

53

00:02:25,830 --> 00:02:30,600

thousand military 3,000 commercial

54

00:02:27,810 --> 00:02:32,280

pilots who go on record maybe they

55

00:02:30,599 --> 00:02:34,590

weren't crazy and they're going to have

56

00:02:32,280 --> 00:02:36,780

to re-examine it so suddenly all the

57

00:02:34,590 --> 00:02:39,180

people like me and you who have been

58
00:02:36,780 --> 00:02:43,199
automated to this for a long time we're

59
00:02:39,180 --> 00:02:45,090
going to be the guns yeah and they're

60
00:02:43,199 --> 00:02:47,969
gonna have to deal with it but here's

61
00:02:45,090 --> 00:02:53,520
the mainstream problem and it's entirely

62
00:02:47,969 --> 00:02:55,169
conceivable say in twenty thirty three

63
00:02:53,520 --> 00:02:57,480
years before like they're they get an

64
00:02:55,169 --> 00:03:00,119
intelligent signal say yeah we have

65
00:02:57,479 --> 00:03:02,969
found a signal and in yet we we've

66
00:03:00,120 --> 00:03:07,800
determined intelligent signal middle

67
00:03:02,969 --> 00:03:09,479
normally what happens then if that the

68
00:03:07,800 --> 00:03:11,670
other end when we announce to the world

69
00:03:09,479 --> 00:03:16,919
yes we've got this intelligent signal

70
00:03:11,669 --> 00:03:18,780
from XO many light-years away ones if ET

71
00:03:16,919 --> 00:03:21,839
out there are the other end of that was

72
00:03:18,780 --> 00:03:26,520
made of just announced us will go there

73
00:03:21,840 --> 00:03:28,370
next week because there are a million

74
00:03:26,520 --> 00:03:30,930
years ahead of us in their development

75
00:03:28,370 --> 00:03:35,129
they can make that this this in a week

76
00:03:30,930 --> 00:03:38,219
for what we take us-led it that's a real

77
00:03:35,129 --> 00:03:40,049
dilemma that nobody's thinking about but

78
00:03:38,219 --> 00:03:41,759
it could absolutely be true that they

79
00:03:40,050 --> 00:03:43,680
might be on the other end and got that

80
00:03:41,759 --> 00:03:46,530
just announced us we're not seeing any

81
00:03:43,680 --> 00:03:48,629
more the whole world knows hey we'll go

82
00:03:46,530 --> 00:03:51,140
there now to announce ourselves we'll

83
00:03:48,629 --> 00:03:51,139
see you next week

84
00:03:51,419 --> 00:03:59,280
farting it if this argument of

85
00:03:54,750 --> 00:04:03,330
light-years does not matter because of

86

00:03:59,280 --> 00:04:05,848
the differences in development in

87
00:04:03,330 --> 00:04:09,030
evolution the earth is a relatively

88
00:04:05,848 --> 00:04:13,019
young planet going around a relatively

89
00:04:09,030 --> 00:04:15,840
young son there are many older sons many

90
00:04:13,020 --> 00:04:17,519
older sequences with all the exoplanets

91
00:04:15,840 --> 00:04:19,649
that have been discovered so far well

92
00:04:17,519 --> 00:04:21,989
over 2,000 will right so far almost

93
00:04:19,649 --> 00:04:24,539
weekly to finding planets that have got

94
00:04:21,988 --> 00:04:26,069
the same kind of ingredients in the

95
00:04:24,540 --> 00:04:30,000
planet recent what the best is

96
00:04:26,069 --> 00:04:32,699
mainstream say now is almost for every

97
00:04:30,000 --> 00:04:35,100
so that there is every star there's

98
00:04:32,699 --> 00:04:38,129
probably a planetary system of between

99
00:04:35,100 --> 00:04:42,210
six and ten planets going around every

100
00:04:38,129 --> 00:04:44,699

step so if you extrapolate that probably

101

00:04:42,209 --> 00:04:46,560

one or two of them what the call in the

102

00:04:44,699 --> 00:04:50,639

Goldilocks oh I'm not too hot not too

103

00:04:46,560 --> 00:04:53,550

cold may support life okay so you just

104

00:04:50,639 --> 00:04:57,269

extrapolating that in to the Milky Way

105

00:04:53,550 --> 00:05:00,478

just a bit a neighborhood we're talking

106

00:04:57,269 --> 00:05:03,899

tens of thousands of millions of stars

107

00:05:00,478 --> 00:05:06,269

we cannot defy anybody to comprehend our

108

00:05:03,899 --> 00:05:08,038

vast spaces that's just in our Milky Way

109

00:05:06,269 --> 00:05:10,529

let alone the rest of the universe and

110

00:05:08,038 --> 00:05:11,879

rest the galaxy's it's over so what it

111

00:05:10,529 --> 00:05:13,769

basically saying is life is almost

112

00:05:11,879 --> 00:05:16,949

certainly teeming out there now what

113

00:05:13,769 --> 00:05:20,250

happens if a planet has developed a

114

00:05:16,949 --> 00:05:24,959

million years ahead in evolution returns

115
00:05:20,250 --> 00:05:27,000
the not developed all the millions of

116
00:05:24,959 --> 00:05:29,930
years to where they've got become

117
00:05:27,000 --> 00:05:32,519
intelligent and then they've carried on

118
00:05:29,930 --> 00:05:37,350
well let's turn around look where we are

119
00:05:32,519 --> 00:05:40,439
just killing the last 100 years 100 is

120
00:05:37,350 --> 00:05:42,180
the Wright brothers 1903 not where we

121
00:05:40,439 --> 00:05:47,668
are now beyond flying beyond our solar

122
00:05:42,180 --> 00:05:51,389
system who could imagine that the

123
00:05:47,668 --> 00:05:54,839
battery power in your mobile phone is

124
00:05:51,389 --> 00:05:57,100
more powerful than what got Apollo 11 to

125
00:05:54,839 --> 00:05:59,949
the moon

126
00:05:57,100 --> 00:06:01,840
in a weird thought but that's our work

127
00:05:59,949 --> 00:06:06,250
fast with me better than mainstream

128
00:06:01,839 --> 00:06:08,439
science cannot even catch up we see be

129
00:06:06,250 --> 00:06:11,980
getting faster and faster but that's

130
00:06:08,439 --> 00:06:14,469
just it on digit in 5,000 years from

131
00:06:11,980 --> 00:06:17,620
Earth time now if we have blonde

132
00:06:14,470 --> 00:06:20,380
ourselves up will we be driving round in

133
00:06:17,620 --> 00:06:23,259
petrol driven cars and flying around in

134
00:06:20,379 --> 00:06:26,589
jet engines know what we developed new

135
00:06:23,259 --> 00:06:29,980
methods of proportion if you take the

136
00:06:26,589 --> 00:06:31,989
analogy of going to Leonardo da Vinci

137
00:06:29,980 --> 00:06:34,060
was probably the greatest mind of his

138
00:06:31,990 --> 00:06:36,819
generation and many generations and

139
00:06:34,060 --> 00:06:40,319
giving him an iPad and say Leah now know

140
00:06:36,819 --> 00:06:44,079
how does that work the Gulf is too big

141
00:06:40,319 --> 00:06:45,639
just in a few hundred years you won't be

142
00:06:44,079 --> 00:06:49,419
able to work it out of a clue they're

143

00:06:45,639 --> 00:06:51,399
just magic would another clue and that's

144
00:06:49,420 --> 00:06:54,540
just in a few all do what if you're a

145
00:06:51,399 --> 00:06:57,039
million years ahead of us in earth time

146
00:06:54,540 --> 00:06:59,439
you will have developed new methods of

147
00:06:57,040 --> 00:07:01,990
proportion if you look about in our

148
00:06:59,439 --> 00:07:05,920
history it used to take weeks to cross

149
00:07:01,990 --> 00:07:08,650
from London to New York now it can take

150
00:07:05,920 --> 00:07:10,720
about three days why not the sr-71

151
00:07:08,649 --> 00:07:13,299
before I could fly around the earth and

152
00:07:10,720 --> 00:07:16,900
I think in about three hours which it's

153
00:07:13,300 --> 00:07:20,290
a top speed and that was it the fifties

154
00:07:16,899 --> 00:07:22,839
and sixties the world is shrinking as

155
00:07:20,290 --> 00:07:25,390
technology increases its ridiculous

156
00:07:22,839 --> 00:07:28,029
argument and but oh what a scientists

157
00:07:25,389 --> 00:07:31,469

have got a very narrow field of vision

158

00:07:28,029 --> 00:07:35,019

and they operate within a very stringent

159

00:07:31,470 --> 00:07:38,260

field of reference because it's science

160

00:07:35,019 --> 00:07:40,269

it has to be demonstrable repeatable etc

161

00:07:38,259 --> 00:07:44,319

that's what scientists do but they have

162

00:07:40,269 --> 00:07:48,009

been reality quite a narrow vision how

163

00:07:44,319 --> 00:07:50,769

can we estimate what civilization is

164

00:07:48,009 --> 00:07:54,060

capable 5,000 years ahead of us

165

00:07:50,769 --> 00:07:58,089

in development touch a thousand years

166

00:07:54,060 --> 00:08:00,579

500 years more before we r of a

167

00:07:58,089 --> 00:08:03,848

generation many of us in this room with

168

00:08:00,579 --> 00:08:06,370

the last generation who can remember the

169

00:08:03,848 --> 00:08:09,788

time without the whole computer a time

170

00:08:06,370 --> 00:08:11,769

without a mobile phone you remember the

171

00:08:09,788 --> 00:08:16,689

big bricks at the center here hoping the

172
00:08:11,769 --> 00:08:20,680
Japs military area look how is

173
00:08:16,689 --> 00:08:23,439
condensing just look at memory sticks

174
00:08:20,680 --> 00:08:27,970
the first memories thinks might be 10

175
00:08:23,439 --> 00:08:31,120
megabyte 256 gigabyte little memory

176
00:08:27,970 --> 00:08:36,269
sticks that plug in my first hard drive

177
00:08:31,120 --> 00:08:38,589
and a computer was seven fifty megabytes

178
00:08:36,269 --> 00:08:40,899
set and that was the whole operating

179
00:08:38,589 --> 00:08:43,920
system or certainly 50 megabytes and

180
00:08:40,899 --> 00:08:48,028
that was about nineteen ninety-seven

181
00:08:43,919 --> 00:08:52,120
just now we're talking terabytes crazy

182
00:08:48,028 --> 00:08:57,700
so this argument for distances is a weak

183
00:08:52,120 --> 00:09:01,269
one my opinion yeah so on the strength

184
00:08:57,700 --> 00:09:03,670
of that I'll go into a Q&A now it's five

185
00:09:01,269 --> 00:09:10,240
past ten how long do you want me to do a

186
00:09:03,669 --> 00:09:12,309
Q&A phone oh you ain't moving the

187
00:09:10,240 --> 00:09:15,669
country what's falling is it in person

188
00:09:12,309 --> 00:09:17,769
really no seriously I haven't moved this

189
00:09:15,669 --> 00:09:21,399
way all have been adapted all right well

190
00:09:17,769 --> 00:09:23,708
I was gonna get it so long all right

191
00:09:21,399 --> 00:09:26,289
right does anybody want a quick 10

192
00:09:23,708 --> 00:09:29,078
minute questions since you've started

193
00:09:26,289 --> 00:09:30,819
this journey right have you experienced

194
00:09:29,078 --> 00:09:34,319
any weird stuff have you had your phones

195
00:09:30,820 --> 00:09:38,140
tapped doors know anything like that no

196
00:09:34,320 --> 00:09:40,720
but then again a lot of people said to

197
00:09:38,139 --> 00:09:42,909
making your head down Gary just some

198
00:09:40,720 --> 00:09:45,278
researchers of dietary soon that's a spy

199
00:09:42,909 --> 00:09:46,958
said well thana Kelvin will and they'll

200

00:09:45,278 --> 00:09:49,389
make it look like an accident well why

201
00:09:46,958 --> 00:09:51,278
said people is if ever I've supposedly

202
00:09:49,389 --> 00:09:53,439
committed suicide no officer and I've

203
00:09:51,278 --> 00:09:54,700
never commit suicide yes I never will so

204
00:09:53,440 --> 00:09:55,290
if I suddenly turn up suicide your

205
00:09:54,700 --> 00:09:58,079
mother

206
00:09:55,289 --> 00:10:01,379
but the reality is if somebody wants to

207
00:09:58,078 --> 00:10:02,388
take you out it is like the films so

208
00:10:01,379 --> 00:10:04,799
they can give you an injection

209
00:10:02,389 --> 00:10:07,829
registered in a few hours and basically

210
00:10:04,799 --> 00:10:09,889
died of a heart attack yeah so if the

211
00:10:07,828 --> 00:10:13,818
words at you out will take you out but

212
00:10:09,889 --> 00:10:17,159
I've met people who become very paranoid

213
00:10:13,818 --> 00:10:19,198
Frank to go out the door almost and in

214
00:10:17,159 --> 00:10:22,049

reality and not prepare to go down that

215

00:10:19,198 --> 00:10:23,939

way I accept that it's out there it is a

216

00:10:22,049 --> 00:10:26,068

bit like Jason ball maybe a bit

217

00:10:23,940 --> 00:10:28,110

exaggerated book elements of it a very

218

00:10:26,068 --> 00:10:30,750

real if intelligence services want to

219

00:10:28,110 --> 00:10:32,789

take you out the look similarly I think

220

00:10:30,750 --> 00:10:35,818

one day I might get burgled someone

221

00:10:32,789 --> 00:10:38,309

right now but I'm not going to worry

222

00:10:35,818 --> 00:10:42,028

about it no but the fact that i can and

223

00:10:38,309 --> 00:10:44,039

all these thing and i saw hopefully

224

00:10:42,028 --> 00:10:45,240

means i'm kind of like flagging up to

225

00:10:44,039 --> 00:10:46,948

people i hear that i'll never commit

226

00:10:45,240 --> 00:10:48,990

suicide that kind of thing so it makes

227

00:10:46,948 --> 00:10:51,568

me less of a risk it's always but they

228

00:10:48,990 --> 00:10:52,919

wanted to we could certainly do yeah but

229
00:10:51,568 --> 00:10:56,939
i'm not prepared to live in the paranoid

230
00:10:52,919 --> 00:10:59,479
world so any other questions yeah but

231
00:10:56,940 --> 00:10:59,480
he's silly

232
00:10:59,730 --> 00:11:06,850
the size for Harry Harris lock a meal

233
00:11:02,889 --> 00:11:10,299
swipes to this red our guy yeah right

234
00:11:06,850 --> 00:11:12,310
that would look so I got it cylinder

235
00:11:10,299 --> 00:11:14,379
video oh yeah the police actually a

236
00:11:12,309 --> 00:11:18,279
police officer yeah yeah rotating on its

237
00:11:14,379 --> 00:11:21,990
own axis yeah described there I saw

238
00:11:18,279 --> 00:11:24,339
exactly the same object car do the same

239
00:11:21,990 --> 00:11:26,230
well so you're going to take my cabin

240
00:11:24,340 --> 00:11:28,030
email me about that for little report

241
00:11:26,230 --> 00:11:30,759
Fox like their civilian report forms as

242
00:11:28,029 --> 00:11:32,709
well so take the cap email moon start

243
00:11:30,759 --> 00:11:35,980
dialogue there are always people who

244
00:11:32,710 --> 00:11:37,450
come to choose it as daft as it sounds

245
00:11:35,980 --> 00:11:43,269
these kind of stories are all over the

246
00:11:37,450 --> 00:11:46,060
place i went to book lecture theatre at

247
00:11:43,269 --> 00:11:47,769
the civic or in-home fur for a

248
00:11:46,059 --> 00:11:51,069
conference it's the first time when i

249
00:11:47,769 --> 00:11:52,629
saw the caretaker lady and i said now

250
00:11:51,070 --> 00:11:54,760
you can think this is a bit strange but

251
00:11:52,629 --> 00:11:57,730
i want to walk electrically weapons or

252
00:11:54,759 --> 00:12:00,370
do i see more this hell and straight

253
00:11:57,730 --> 00:12:02,259
where people regale into a story and

254
00:12:00,370 --> 00:12:05,669
then she said eight males been saw one

255
00:12:02,259 --> 00:12:07,569
as well coming over the hills and

256
00:12:05,669 --> 00:12:10,769
straight away getting all these on a

257

00:12:07,570 --> 00:12:13,120
clock now these anak dogs are

258
00:12:10,769 --> 00:12:15,129
tremendously important because they're

259
00:12:13,120 --> 00:12:16,720
not just described likes this guy the

260
00:12:15,129 --> 00:12:19,840
caretaker actually said that when she

261
00:12:16,720 --> 00:12:22,509
was a girl 15 16 years old she was

262
00:12:19,840 --> 00:12:24,460
outside on the doorstep I'm the cheeky

263
00:12:22,509 --> 00:12:26,980
cigarette six great way to remember stop

264
00:12:24,460 --> 00:12:28,930
right chica cigarette on the doorstep

265
00:12:26,980 --> 00:12:33,840
there's daylight and she says this ball

266
00:12:28,929 --> 00:12:38,009
of white white came over the rooftops

267
00:12:33,840 --> 00:12:40,300
stopped move the went sideways stopped

268
00:12:38,009 --> 00:12:43,539
and it was on the opposite side of the

269
00:12:40,299 --> 00:12:46,659
street literally just 50 feet away and

270
00:12:43,539 --> 00:12:48,250
then he suddenly went to ground now why

271
00:12:46,659 --> 00:12:52,449

is she going to make up a story like

272

00:12:48,250 --> 00:12:55,240

that she then I get so many of these

273

00:12:52,450 --> 00:12:57,940

stories so these anecdotes are real and

274

00:12:55,240 --> 00:13:01,149

not my favorite cases the pilot basis

275

00:12:57,940 --> 00:13:02,680

because they just prove it if a pilot in

276

00:13:01,149 --> 00:13:03,669

broad daylight doesn't know what is

277

00:13:02,679 --> 00:13:05,559

chasing what is

278

00:13:03,669 --> 00:13:08,589

looking at I mean are you aware that

279

00:13:05,559 --> 00:13:10,889

pilots have fired on UFOs in broad

280

00:13:08,590 --> 00:13:14,170

daylight and nothing has happened

281

00:13:10,889 --> 00:13:17,340

there's a case met the pilot called

282

00:13:14,169 --> 00:13:20,639

Colonel Oscar centenary Peruvian pilot

283

00:13:17,340 --> 00:13:24,790

gone on the record on video old

284

00:13:20,639 --> 00:13:27,569

documents prove it and basically 1980 in

285

00:13:24,789 --> 00:13:30,539

daylight he is sent up to intercept a

286
00:13:27,570 --> 00:13:33,879
daylight raid are confirmed your phone

287
00:13:30,539 --> 00:13:36,099
that's just hovering so he sent up like

288
00:13:33,879 --> 00:13:38,169
many of these are the cases and as his

289
00:13:36,100 --> 00:13:39,820
approach and he's told to shoot but what

290
00:13:38,169 --> 00:13:42,819
he thought was a balloon he looked like

291
00:13:39,820 --> 00:13:44,740
a balloon round sphere is thought

292
00:13:42,820 --> 00:13:47,260
it was a blue and he's told to shoot at

293
00:13:44,740 --> 00:13:49,269
it but his machine gun can't so he does

294
00:13:47,259 --> 00:13:51,639
he shoots off about sixty four rounds

295
00:13:49,269 --> 00:13:54,879
and he sees the bullets the tracer hit

296
00:13:51,639 --> 00:13:57,490
this object just absorbed he's thinking

297
00:13:54,879 --> 00:14:01,419
he's expected to grow up but it done

298
00:13:57,490 --> 00:14:05,860
then just got straight up 10,000 feet

299
00:14:01,419 --> 00:14:07,959
about 3 cents just jumps straight not

300
00:14:05,860 --> 00:14:11,440
something we can do so he has to get his

301
00:14:07,960 --> 00:14:13,720
afterburner on get up there to get on

302
00:14:11,440 --> 00:14:15,510
another run at it and just as it

303
00:14:13,720 --> 00:14:18,210
approached it is run again it goes

304
00:14:15,509 --> 00:14:20,830
another 10,000 feet in three seconds up

305
00:14:18,210 --> 00:14:23,110
and it eventually does this three times

306
00:14:20,830 --> 00:14:27,030
take it beyond the flight ceiling of his

307
00:14:23,110 --> 00:14:30,519
aircraft seven to eight thousand three

308
00:14:27,029 --> 00:14:33,339
gentlemen there why do you think your

309
00:14:30,519 --> 00:14:35,620
calls crash if they're so environment no

310
00:14:33,340 --> 00:14:39,100
idea no idea it's a good question

311
00:14:35,620 --> 00:14:42,720
because it was it it is it is it is an

312
00:14:39,100 --> 00:14:45,909
odd thing but what they think is that

313
00:14:42,720 --> 00:14:48,310
certainly the early crushers they think

314

00:14:45,909 --> 00:14:52,360
that was an anomaly or side effect of

315
00:14:48,309 --> 00:14:54,699
our radar that somehow affected the

316
00:14:52,360 --> 00:14:57,430
gravitational force that's all they

317
00:14:54,700 --> 00:15:00,400
speculate in the public demand we don't

318
00:14:57,429 --> 00:15:02,500
know in some people which blows have

319
00:15:00,399 --> 00:15:04,750
said that there was the the reg are

320
00:15:02,500 --> 00:15:06,639
somehow affected the guidance system of

321
00:15:04,750 --> 00:15:08,350
the proportion system on the uniform

322
00:15:06,639 --> 00:15:10,899
because we thought think that they're

323
00:15:08,350 --> 00:15:12,329
using engines in a conventional sense we

324
00:15:10,899 --> 00:15:15,088
think that they can do these

325
00:15:12,328 --> 00:15:16,708
speed maneuvers because they're pull the

326
00:15:15,089 --> 00:15:19,529
proportion system is based on

327
00:15:16,708 --> 00:15:21,778
anti-gravity they create a force field

328
00:15:19,528 --> 00:15:25,318

around the edge of the craft so

329

00:15:21,778 --> 00:15:27,178

therefore inside we just like fly on a

330

00:15:25,318 --> 00:15:28,678

million miles an hour and we can do a

331

00:15:27,178 --> 00:15:31,350

right angle turn but there's no inertia

332

00:15:28,678 --> 00:15:34,019

because it's creating some gravitational

333

00:15:31,350 --> 00:15:36,449

force so wherever it goes you're not

334

00:15:34,019 --> 00:15:38,399

affected by that's what they think and

335

00:15:36,448 --> 00:15:40,798

this is why there is this talk about

336

00:15:38,399 --> 00:15:45,839

free energy and another reason why it's

337

00:15:40,798 --> 00:15:47,909

secret because does the gunman and

338

00:15:45,839 --> 00:15:49,350

people said to me well why doesn't

339

00:15:47,909 --> 00:15:51,178

happen on the White House lawn all the

340

00:15:49,350 --> 00:15:54,839

obvious answer is if they did the common

341

00:15:51,178 --> 00:15:59,119

get shot when you got to realize is that

342

00:15:54,839 --> 00:16:01,290

while science is quite I think arrogant

343
00:15:59,119 --> 00:16:03,119
many scientists will say we're the only

344
00:16:01,289 --> 00:16:05,159
sensitive beings blah blah blah that was

345
00:16:03,119 --> 00:16:07,350
a big argument for many many years the

346
00:16:05,159 --> 00:16:09,688
moving away from that now but basically

347
00:16:07,350 --> 00:16:11,489
on the scheme of things I think we're

348
00:16:09,688 --> 00:16:13,528
like an ant on the ground in

349
00:16:11,489 --> 00:16:15,778
technological terms and development

350
00:16:13,528 --> 00:16:17,698
terms as to what they are who might be a

351
00:16:15,778 --> 00:16:19,100
million years elevator will be like we

352
00:16:17,698 --> 00:16:22,139
won't talk to the ants on the ground

353
00:16:19,100 --> 00:16:24,360
because the Gulf in intelligence we

354
00:16:22,139 --> 00:16:27,089
would say it was too great why should

355
00:16:24,360 --> 00:16:28,709
you know could you talk it sounds daft

356
00:16:27,089 --> 00:16:32,040
but if you've got something that's so

357
00:16:28,708 --> 00:16:35,698
advanced I think we're very primitive

358
00:16:32,039 --> 00:16:38,338
and we're very well liked and we do

359
00:16:35,698 --> 00:16:39,748
watch the world is in turn on we kill

360
00:16:38,339 --> 00:16:43,079
each other when we could feed everybody

361
00:16:39,749 --> 00:16:46,139
we you know Gil the top two percent is

362
00:16:43,078 --> 00:16:48,388
it one percent top two percent on most

363
00:16:46,139 --> 00:16:51,178
of the world over the ninety-eight

364
00:16:48,389 --> 00:16:52,668
percent that go that's not right we

365
00:16:51,178 --> 00:16:55,350
could do something about that will do

366
00:16:52,668 --> 00:16:57,659
it's a whole mess so I think we're very

367
00:16:55,350 --> 00:16:59,909
probably very good reasons why they they

368
00:16:57,659 --> 00:17:02,149
mostly severe I think we're very

369
00:16:59,909 --> 00:17:05,638
primitive black pond life I think

370
00:17:02,149 --> 00:17:08,759
actually I disagree mom or go wash up

371

00:17:05,638 --> 00:17:12,229
there well I was talking about the gang

372
00:17:08,759 --> 00:17:15,869
the friend I was reviewing

373
00:17:12,230 --> 00:17:19,170
childhood Zhang by RC truck okay I'm

374
00:17:15,869 --> 00:17:24,269
skeptical Madeline you fall skeptical yep

375
00:17:19,170 --> 00:17:27,810
yep no problem no the story goes much

376
00:17:24,269 --> 00:17:30,539
what you said the end is a twist that we

377
00:17:27,809 --> 00:17:35,549
are the intelligence we are the most

378
00:17:30,539 --> 00:17:38,099
devout aspect I think that was a product

379
00:17:35,549 --> 00:17:40,710
to this generation well I sure I can't

380
00:17:38,099 --> 00:17:45,990
agree I think we are I think the a means

381
00:17:40,710 --> 00:17:48,150
a lot I guess we'll never know well oh I

382
00:17:45,990 --> 00:17:50,849
won't be able to put it this way it is

383
00:17:48,150 --> 00:17:54,509
coming and this is what I say about the

384
00:17:50,849 --> 00:17:57,359
2033 it's coming yeah I don't I do agree

385
00:17:54,509 --> 00:17:59,400

and and mainstream a graph to capture

386

00:17:57,359 --> 00:18:01,169

Andrey address how they look at this

387

00:17:59,400 --> 00:18:02,790

reevaluate either look at the subject

388

00:18:01,170 --> 00:18:05,250

because they're gonna have to confront

389

00:18:02,789 --> 00:18:09,389

contact and we are going to be the first

390

00:18:05,250 --> 00:18:12,630

people in official history official

391

00:18:09,390 --> 00:18:15,120

history that deal with contact it's

392

00:18:12,630 --> 00:18:18,060

going to happen be many of our lifetime

393

00:18:15,119 --> 00:18:20,789

for the first time ever official Compton

394

00:18:18,059 --> 00:18:24,210

and they always say that it will be the

395

00:18:20,789 --> 00:18:28,440

biggest step mankind contact the

396

00:18:24,210 --> 00:18:30,690

ministry well that was all about the

397

00:18:28,440 --> 00:18:32,130

human species I was talking to some DD

398

00:18:30,690 --> 00:18:34,710

other day and they were talking about

399

00:18:32,130 --> 00:18:36,720

aliens being here and they said that

400
00:18:34,710 --> 00:18:39,360
they here but they not allowed to

401
00:18:36,720 --> 00:18:43,880
interfere with us well I guess this

402
00:18:39,359 --> 00:18:46,439
cultures the process the human body the

403
00:18:43,880 --> 00:18:48,750
aliens are not changing my guess is only

404
00:18:46,440 --> 00:18:51,990
the human bodies and we gotta go through

405
00:18:48,750 --> 00:18:54,960
this process of self the the on the

406
00:18:51,990 --> 00:18:58,259
abduction side there are many accounts

407
00:18:54,960 --> 00:19:00,720
that there's a lot of aspects to expose

408
00:18:58,259 --> 00:19:04,500
complicated but they would certainly

409
00:19:00,720 --> 00:19:07,490
appear to be some alien species are

410
00:19:04,500 --> 00:19:10,670
interested in reproductive organs

411
00:19:07,490 --> 00:19:13,410
hybridization fetuses be removed from

412
00:19:10,670 --> 00:19:15,269
abductees and then later on being

413
00:19:13,410 --> 00:19:18,870
reunited with them in a few years when

414
00:19:15,269 --> 00:19:21,379
they see these half human so that is

415
00:19:18,869 --> 00:19:24,319
common all around world even third world

416
00:19:21,380 --> 00:19:27,410
where there's no access to media so this

417
00:19:24,319 --> 00:19:28,909
is real you can't make it all you know

418
00:19:27,410 --> 00:19:32,360
how can somebody in the middle of the

419
00:19:28,910 --> 00:19:36,019
Amazon with no access to TV radio

420
00:19:32,359 --> 00:19:39,829
newspapers protectively a third world

421
00:19:36,019 --> 00:19:41,480
first recount the same event being taken

422
00:19:39,829 --> 00:19:43,220
on board something and being medically

423
00:19:41,480 --> 00:19:48,400
examined where did they get that

424
00:19:43,220 --> 00:19:51,589
infrastructure from Susie right god

425
00:19:48,400 --> 00:19:55,759
patent crimp and three rimba cimmino

426
00:19:51,589 --> 00:20:00,799
Rendlesham yeah did he did see it was a

427
00:19:55,759 --> 00:20:03,529
leak dos ok so let's set yeah yeah yeah

428

00:20:00,799 --> 00:20:16,399
look right Rendlesham forest can be

429
00:20:03,529 --> 00:20:21,019
defined in one particular sphere so

430
00:20:16,400 --> 00:20:22,370
right New Zealand Rendlesham forest in

431
00:20:21,019 --> 00:20:23,990
st that when you look at the evidence

432
00:20:22,369 --> 00:20:26,299
Rendlesham forest in fact that it's over

433
00:20:23,990 --> 00:20:29,750
three days don't matter I cut to the

434
00:20:26,299 --> 00:20:33,319
chase of evidence straightaway it all

435
00:20:29,750 --> 00:20:38,509
hinges on whether it's UFOs or not on

436
00:20:33,319 --> 00:20:42,679
one aspect does Colonel halt on the

437
00:20:38,509 --> 00:20:44,859
third night with this for other officers

438
00:20:42,680 --> 00:20:48,289
are leftenant and three sergeants are

439
00:20:44,859 --> 00:20:50,990
they in a field when an object comes

440
00:20:48,289 --> 00:20:53,299
towards then stops above their heads at

441
00:20:50,990 --> 00:20:56,750
a thousand feet and cast down a laser

442
00:20:53,299 --> 00:20:59,960

beam per half their feet there's only

443

00:20:56,750 --> 00:21:06,380

two alternatives either holt and his

444

00:20:59,960 --> 00:21:10,340

team a lion or it happened and if it

445

00:21:06,380 --> 00:21:12,410

happened it ain't a lighthouse but

446

00:21:10,339 --> 00:21:15,259

there's what lighthouse and stop above

447

00:21:12,410 --> 00:21:17,330

your head and put a beam down so you

448

00:21:15,259 --> 00:21:19,640

just take one little piece of it and the

449

00:21:17,329 --> 00:21:21,109

lighthouse theories of upper end but let

450

00:21:19,640 --> 00:21:23,000

me just tell you a side effect of this

451

00:21:21,109 --> 00:21:25,099

I've done many documentaries all the

452

00:21:23,000 --> 00:21:27,500

years some with their terrestrial TV

453

00:21:25,099 --> 00:21:29,509

like channel flow channel time right the

454

00:21:27,500 --> 00:21:32,539

last 2 i've got involved in telephone

455

00:21:29,509 --> 00:21:34,400

and channel 5 I said to them you've not

456

00:21:32,539 --> 00:21:35,000

got a very good record of doing decent

457
00:21:34,400 --> 00:21:37,730
documentaries

458
00:21:35,000 --> 00:21:41,119
UFOs and they go yeah you know we're

459
00:21:37,730 --> 00:21:44,240
serious about this one okay I said what

460
00:21:41,119 --> 00:21:47,989
I'll give you a challenge i said i will

461
00:21:44,240 --> 00:21:50,480
give you a little exclusive but i'm

462
00:21:47,990 --> 00:21:53,150
saying to you you will not use it in the

463
00:21:50,480 --> 00:21:56,630
final edit well we will we work with

464
00:21:53,150 --> 00:21:59,900
them I cenizas challenge then i'm going

465
00:21:56,630 --> 00:22:02,630
to show you the field where I went with

466
00:21:59,900 --> 00:22:05,450
Colonel halt I've identified the field

467
00:22:02,630 --> 00:22:08,600
nobody else's this is the field with a

468
00:22:05,450 --> 00:22:10,610
beam care now that is fee I'll take you

469
00:22:08,599 --> 00:22:12,469
to that location it's never been shown

470
00:22:10,609 --> 00:22:17,119
in any documentary are you interested

471
00:22:12,470 --> 00:22:20,930
for yours so we go film it is it in the

472
00:22:17,119 --> 00:22:24,979
final edit know who wins the bet meet

473
00:22:20,930 --> 00:22:29,330
wife clever editing because in the final

474
00:22:24,980 --> 00:22:33,289
but the present gasps so multiple dates

475
00:22:29,329 --> 00:22:37,639
multiple witnesses was it a UFO what is

476
00:22:33,289 --> 00:22:41,210
a nice house they could not have used

477
00:22:37,640 --> 00:22:45,890
that open-ended right outfit if it have

478
00:22:41,210 --> 00:22:48,170
included that sequence in the field you

479
00:22:45,890 --> 00:22:50,509
should be chasing everyone well that's a

480
00:22:48,170 --> 00:22:53,120
whole bike look what is that is the

481
00:22:50,509 --> 00:22:56,059
thing is halt used to take people out to

482
00:22:53,119 --> 00:22:58,189
the lighthouse for a visit we knew where

483
00:22:56,059 --> 00:23:00,889
it was and in reality in the weapon

484
00:22:58,190 --> 00:23:03,350
storage area very much I worked on two

485

00:23:00,890 --> 00:23:05,420
of them on engineers offered same county

486
00:23:03,349 --> 00:23:09,589
and in lab work in what was then West

487
00:23:05,420 --> 00:23:12,019
Germany you have the weapon storage area

488
00:23:09,589 --> 00:23:15,129
the bunkers and in the middle of it or a

489
00:23:12,019 --> 00:23:20,539
wind of it there is at least one tower

490
00:23:15,130 --> 00:23:24,290
that's mum 24 7 365 years right the site

491
00:23:20,539 --> 00:23:26,089
is about 38 to 40 8 30 to 40 people on

492
00:23:24,289 --> 00:23:28,519
shift at any one time that proves the

493
00:23:26,089 --> 00:23:31,129
numbers along Rendlesham is because a

494
00:23:28,519 --> 00:23:37,879
conventional bomb dome one or two yea

495
00:23:31,130 --> 00:23:42,620
gads nuclear weapons garden 365 24 7 30

496
00:23:37,880 --> 00:23:46,400
8 30 to 40 per shift alright so the

497
00:23:42,619 --> 00:23:48,219
numbers were mixed up but the tower they

498
00:23:46,400 --> 00:23:50,919
have one towel that's higher

499
00:23:48,220 --> 00:23:55,179

about 80 feet high and it's purposely

500

00:23:50,919 --> 00:23:57,309

higher so that as a full 360 for the guy

501

00:23:55,179 --> 00:23:59,559

in the towel and in the top of the tower

502

00:23:57,308 --> 00:24:03,279

they have a miniature layout of the

503

00:23:59,558 --> 00:24:07,269

entire site like a model and it has all

504

00:24:03,279 --> 00:24:09,788

the alarm settings that can be triggered

505

00:24:07,269 --> 00:24:12,429

by rabbits because it's the night

506

00:24:09,788 --> 00:24:14,980

microwave right as the oven outs of

507

00:24:12,429 --> 00:24:17,230

stereo France than an infant and it's

508

00:24:14,980 --> 00:24:18,940

microwave so if anybody tries to break

509

00:24:17,230 --> 00:24:21,880

through the fence it triggers an alarm

510

00:24:18,940 --> 00:24:24,220

the alarm is triggered on this big bowl

511

00:24:21,880 --> 00:24:26,289

so the guy in the top of the tower it's

512

00:24:24,220 --> 00:24:28,960

80 feet the trees are not allowed to go

513

00:24:26,288 --> 00:24:32,319

on more than 40 feet so he gets the

514
00:24:28,960 --> 00:24:35,230
perspective with 360 so the gang of the

515
00:24:32,319 --> 00:24:38,019
tower gnaws where the offered less light

516
00:24:35,230 --> 00:24:44,349
houses every shift ease up there he goes

517
00:24:38,019 --> 00:24:47,200
matter that's what up yep every five

518
00:24:44,349 --> 00:24:49,089
seconds look it's like he knew it was

519
00:24:47,200 --> 00:24:51,100
the only where it was but nobody talks

520
00:24:49,089 --> 00:24:53,109
about weapons storage area because it's

521
00:24:51,099 --> 00:24:54,639
too sensitive nobody else go near

522
00:24:53,109 --> 00:24:57,879
nuclear weapons but you broke all the

523
00:24:54,640 --> 00:25:01,390
arm of agreements and swine oh do you

524
00:24:57,880 --> 00:25:03,429
come up these aspects the stuffs I

525
00:25:01,390 --> 00:25:06,640
didn't pay they don't touch this craft

526
00:25:03,429 --> 00:25:08,530
yes I've had a Down Lord I don't weigh

527
00:25:06,640 --> 00:25:11,080
them huh I don't believe it you don't

528
00:25:08,529 --> 00:25:15,069
believe it I think you like me great

529
00:25:11,079 --> 00:25:19,149
Becky I let me say no I say they look at

530
00:25:15,069 --> 00:25:22,178
argue you know I pointed to the in mind

531
00:25:19,150 --> 00:25:25,570
yet it's a binary download which is

532
00:25:22,179 --> 00:25:28,120
supposedly odd and i have i've got

533
00:25:25,569 --> 00:25:30,308
transposed it and if that is correct but

534
00:25:28,119 --> 00:25:33,418
that doesn't mean to say that ERG had it

535
00:25:30,308 --> 00:25:35,950
now if but it does actually refer to a

536
00:25:33,419 --> 00:25:38,650
location called high Brazil with the

537
00:25:35,950 --> 00:25:41,558
island where seven locations it refers

538
00:25:38,650 --> 00:25:43,570
to including yeah so you couldn't you've

539
00:25:41,558 --> 00:25:44,629
got no feedback or further information

540
00:25:43,569 --> 00:25:46,939
on that

541
00:25:44,630 --> 00:25:53,000
you don't believe it I'm a detective

542

00:25:46,940 --> 00:25:57,529
Yeah right and his reasons he claimed on

543
00:25:53,000 --> 00:25:59,839
the 30th anniversary yeah conference so

544
00:25:57,529 --> 00:26:02,210
for 30 years he kept this secret even

545
00:25:59,839 --> 00:26:05,449
from John Burroughs who was with him to

546
00:26:02,210 --> 00:26:07,579
be a key you know any suddenly came out

547
00:26:05,450 --> 00:26:10,850
this time ago yeah yeah anybody giving

548
00:26:07,579 --> 00:26:13,429
it up but you're right get out I think

549
00:26:10,849 --> 00:26:16,339
by then peniston's up some issues with

550
00:26:13,430 --> 00:26:19,430
drink and blah blah blah I hope the

551
00:26:16,339 --> 00:26:23,509
cameras not morning it's good you don't

552
00:26:19,430 --> 00:26:26,029
regard no good book yeah I Memphis Yeah

553
00:26:23,509 --> 00:26:28,670
right he went off the rails pick he

554
00:26:26,029 --> 00:26:32,990
wasn't brilliant witness at the time but

555
00:26:28,670 --> 00:26:35,750
later on I think he's got dozens as the

556
00:26:32,990 --> 00:26:37,579

case became more famous people are

557

00:26:35,750 --> 00:26:40,160

saying ho make a feature film of this I

558

00:26:37,579 --> 00:26:43,879

hear one of the key stories and I think

559

00:26:40,160 --> 00:26:46,820

the through whatever money start to God

560

00:26:43,880 --> 00:26:49,630

so what better could he do come up with

561

00:26:46,819 --> 00:26:52,099

this binary cards war Wow and all this

562

00:26:49,630 --> 00:26:55,580

Linda Moulton Howe up the binary codes

563

00:26:52,099 --> 00:26:57,259

as well yeah right the reality is that

564

00:26:55,579 --> 00:26:59,720

in his pocket book gives a click

565

00:26:57,259 --> 00:27:01,670

pocketbook you can take pages out and

566

00:26:59,720 --> 00:27:04,610

put them in it wants a proper band in

567

00:27:01,670 --> 00:27:07,519

the area right Colonel halt when I heard

568

00:27:04,609 --> 00:27:10,789

about this brand record I said to him

569

00:27:07,519 --> 00:27:12,339

the link the binary goddesses see that

570

00:27:10,789 --> 00:27:15,319

looked through that book lots of times

571
00:27:12,339 --> 00:27:17,089
I've never seen any bank record pages he

572
00:27:15,319 --> 00:27:18,769
said there were six pages then they were

573
00:27:17,089 --> 00:27:20,869
ready sure he said there were 10 pages

574
00:27:18,769 --> 00:27:23,900
then it on the radio show he said no 12

575
00:27:20,869 --> 00:27:27,529
pages well I think I'd know if there was

576
00:27:23,900 --> 00:27:29,780
6 12 or 10 and here's the reality it was

577
00:27:27,529 --> 00:27:32,379
a book by Linda Moulton Howe called

578
00:27:29,779 --> 00:27:32,379
glimpses of
