

1  
00:00:05,650 --> 00:00:10,809  
hello Gary hi thanks for having us

2  
00:00:08,380 --> 00:00:12,610  
pleasure it's been a absolute honor to

3  
00:00:10,808 --> 00:00:15,820  
meet you I know you've been working for

4  
00:00:12,609 --> 00:00:17,589  
many many years in UFO fields would you

5  
00:00:15,820 --> 00:00:19,480  
like to tell us well exactly how it all

6  
00:00:17,589 --> 00:00:24,640  
started for you as a researcher yeah be

7  
00:00:19,480 --> 00:00:27,250  
pleased to bring us a child 819

8  
00:00:24,640 --> 00:00:30,480  
something in that area as to take the

9  
00:00:27,250 --> 00:00:33,759  
Eagle comic we're done there in it

10  
00:00:30,480 --> 00:00:35,259  
science fiction of course but look into

11  
00:00:33,759 --> 00:00:38,588  
the future in the hope that we would one

12  
00:00:35,259 --> 00:00:40,088  
day go into space and then this amazing

13  
00:00:38,588 --> 00:00:43,858  
day a newspaper came through the

14  
00:00:40,088 --> 00:00:46,448  
letterbox and it was about to dance cool

15  
00:00:43,859 --> 00:00:49,929  
famous Adamski who claimed to have meet

16  
00:00:46,448 --> 00:00:52,710  
met aliens in the desert and so on

17  
00:00:49,929 --> 00:00:57,489  
absolutely fascinated me as a child and

18  
00:00:52,710 --> 00:00:59,350  
I got interested in UFOs and long Bo we

19  
00:00:57,488 --> 00:01:01,029  
have to beat different articles appeared

20  
00:00:59,350 --> 00:01:03,309  
in magazines and things and I started

21  
00:01:01,030 --> 00:01:05,680  
collecting them so he could say it was

22  
00:01:03,308 --> 00:01:09,519  
really investigated since it was about

23  
00:01:05,680 --> 00:01:13,450  
nine or ten properly I've still got

24  
00:01:09,519 --> 00:01:17,199  
those original cuttings that I had going

25  
00:01:13,450 --> 00:01:18,909  
back to the fifties believes tonight my

26  
00:01:17,200 --> 00:01:20,890  
wife is very pleased that I've got the

27  
00:01:18,909 --> 00:01:24,219  
house full of stuff like that is really

28  
00:01:20,890 --> 00:01:26,349  
much but I've never actually seen

29

00:01:24,219 --> 00:01:30,789  
anything myself other than the of light

30  
00:01:26,349 --> 00:01:36,129  
in the sky couldn't explain until there

31  
00:01:30,790 --> 00:01:37,990  
you know about 1960 something without my

32  
00:01:36,129 --> 00:01:41,469  
fires I can't really give you accurate

33  
00:01:37,989 --> 00:01:44,229  
of dates from happen to decide to go

34  
00:01:41,469 --> 00:01:48,250  
into the local pub no I hadn't been

35  
00:01:44,230 --> 00:01:50,230  
drinking yet this is before we went so

36  
00:01:48,250 --> 00:01:52,930  
walking up the road of my next-door

37  
00:01:50,230 --> 00:01:55,810  
neighbor I noticed that his gaze

38  
00:01:52,930 --> 00:01:58,540  
suddenly changed I think I should point

39  
00:01:55,810 --> 00:02:01,000  
out here that it was perfectly light it

40  
00:01:58,540 --> 00:02:04,090  
was evening but light but it wasn't

41  
00:02:01,000 --> 00:02:07,450  
bright sunshine it was dope the

42  
00:02:04,090 --> 00:02:09,700  
visibility is absolutely perfect and all

43  
00:02:07,450 --> 00:02:11,250

of a sudden his gaze turned and I turned

44

00:02:09,699 --> 00:02:15,899  
to look in the same direction

45

00:02:11,250 --> 00:02:18,090  
and overt all left we could see a row of

46

00:02:15,900 --> 00:02:21,450  
counselor versus semi-detached terraces

47

00:02:18,090 --> 00:02:24,090  
and we were because we were walking up a

48

00:02:21,449 --> 00:02:26,669  
hill this is in maqam in South Wales

49

00:02:24,090 --> 00:02:28,920  
I think it's called westerly you and as

50

00:02:26,669 --> 00:02:30,869  
we were 3/4 the way up we were then

51

00:02:28,919 --> 00:02:34,709  
higher than the roofs of these houses

52

00:02:30,870 --> 00:02:37,469  
and I was astonished to see not one but

53

00:02:34,710 --> 00:02:42,330  
two objects that were coming towards us

54

00:02:37,469 --> 00:02:43,680  
but parallel to us on the road and with

55

00:02:42,330 --> 00:02:47,310  
an air laughter for something you could

56

00:02:43,680 --> 00:02:48,959  
probably ping the distance is not that

57

00:02:47,310 --> 00:02:51,090  
great I don't know whether I could quite

58  
00:02:48,959 --> 00:02:55,740  
through a stoma for brief these not fall

59  
00:02:51,090 --> 00:02:58,080  
short and what was amazing it's the

60  
00:02:55,740 --> 00:03:00,890  
objects weren't up in the sky way they

61  
00:02:58,080 --> 00:03:03,060  
would actually that I level with us and

62  
00:03:00,889 --> 00:03:05,669  
I'd worked it out because they were

63  
00:03:03,060 --> 00:03:08,659  
traveling over the top of these the apex

64  
00:03:05,669 --> 00:03:12,629  
of these houses that they were little

65  
00:03:08,659 --> 00:03:15,299  
over 15 foot at the most and possibly a

66  
00:03:12,629 --> 00:03:16,949  
lot less I would I did they were going

67  
00:03:15,300 --> 00:03:19,820  
to knock at the adults off the chimneys

68  
00:03:16,949 --> 00:03:22,919  
it really really was so close

69  
00:03:19,819 --> 00:03:26,879  
what was a-standing about it is that

70  
00:03:22,919 --> 00:03:29,759  
these two perfect discs didn't appear to

71  
00:03:26,879 --> 00:03:33,439  
wobble or move in any direction they

72  
00:03:29,759 --> 00:03:36,060  
were absolutely perfectly leveled and

73  
00:03:33,439 --> 00:03:39,569  
they were traveling at such a slow speed

74  
00:03:36,060 --> 00:03:43,860  
you could easily a walk quicker than

75  
00:03:39,569 --> 00:03:46,019  
these things extremely slow there was no

76  
00:03:43,860 --> 00:03:47,760  
movement in any direction they didn't

77  
00:03:46,019 --> 00:03:51,659  
appear to be spinning they seemed to be

78  
00:03:47,759 --> 00:03:53,340  
static at first I thought they were

79  
00:03:51,659 --> 00:03:55,919  
stationary but they weren't actually

80  
00:03:53,340 --> 00:03:58,979  
moving but they seemed to be sliding on

81  
00:03:55,919 --> 00:04:01,018  
an invisible Plata class I have the same

82  
00:03:58,979 --> 00:04:04,619  
only way I can describe it to you where

83  
00:04:01,019 --> 00:04:06,239  
as you'd expect some kind of different

84  
00:04:04,620 --> 00:04:07,980  
movement in the but they were perfect

85  
00:04:06,239 --> 00:04:10,140  
and the distance between them remained

86

00:04:07,979 --> 00:04:11,819  
absolutely like like that again there

87  
00:04:10,139 --> 00:04:14,429  
was an invisible block between them and

88  
00:04:11,819 --> 00:04:17,930  
it they just carried our movie and we

89  
00:04:14,430 --> 00:04:21,879  
stood there absolutely transfixed I was

90  
00:04:17,930 --> 00:04:23,949  
my neighbor he was interested

91  
00:04:21,879 --> 00:04:25,649  
but I couldn't believe its lack of

92  
00:04:23,949 --> 00:04:28,659  
enthusiasm because I was absolutely

93  
00:04:25,649 --> 00:04:30,129  
jumping up and down really and we

94  
00:04:28,660 --> 00:04:33,939  
watched them until in the end they were

95  
00:04:30,129 --> 00:04:35,529  
obscured by the houses that were you

96  
00:04:33,939 --> 00:04:38,500  
know lower down on the hill how long's

97  
00:04:35,529 --> 00:04:42,009  
didn't go well each one as they went

98  
00:04:38,500 --> 00:04:44,800  
over the top of a pair of 70 - services

99  
00:04:42,009 --> 00:04:46,539  
roughly was either the width or more

100  
00:04:44,800 --> 00:04:48,670

just over but they were moving but I

101

00:04:46,540 --> 00:04:50,950

think they were just over the width of a

102

00:04:48,670 --> 00:04:55,300

pair of sandy touch noses so they've got

103

00:04:50,949 --> 00:04:59,019

to be 44 plus I'm a thinker what shape

104

00:04:55,300 --> 00:05:01,629

do you see absolutely perfect disks now

105

00:04:59,019 --> 00:05:04,120

just the best example I can give you of

106

00:05:01,629 --> 00:05:07,420

this is if you think of a brass music

107

00:05:04,120 --> 00:05:09,459

symbol hmm that's exactly the shape that

108

00:05:07,420 --> 00:05:13,629

they were they came to a really key

109

00:05:09,459 --> 00:05:14,859

sharp edge the capoeira for whatever you

110

00:05:13,629 --> 00:05:18,699

want to call it the dimple in the middle

111

00:05:14,860 --> 00:05:20,560

was only very slight it wasn't some you

112

00:05:18,699 --> 00:05:22,269

know turn it on the top of Windows a

113

00:05:20,560 --> 00:05:24,519

neighbor like that in it in fact there

114

00:05:22,269 --> 00:05:26,680

were no windows of any kind on it there

115  
00:05:24,519 --> 00:05:28,359  
were no marks of any kind on it there

116  
00:05:26,680 --> 00:05:30,819  
were no evidence of any kind

117  
00:05:28,360 --> 00:05:31,840  
there was no tail fin or anything like

118  
00:05:30,819 --> 00:05:34,509  
that with nothing there were just

119  
00:05:31,839 --> 00:05:36,389  
perfect disks sliding across the sky

120  
00:05:34,509 --> 00:05:40,300  
right in front of me in broad daylight

121  
00:05:36,389 --> 00:05:41,680  
what color Willy the same color the only

122  
00:05:40,300 --> 00:05:45,160  
way can describe the co they were great

123  
00:05:41,680 --> 00:05:47,170  
but the color is best described as fair

124  
00:05:45,160 --> 00:05:50,200  
light as you'd get in a pencil pencil

125  
00:05:47,170 --> 00:05:51,370  
they're graphite graphite yeah exactly

126  
00:05:50,199 --> 00:05:53,050  
the same it's not because you said you

127  
00:05:51,370 --> 00:05:54,790  
were looking down on it you couldn't see

128  
00:05:53,050 --> 00:05:58,329  
the other I couldn't see anything at all

129  
00:05:54,790 --> 00:06:03,460  
below the rim but I thought that I could

130  
00:05:58,329 --> 00:06:05,289  
see a faint bluish purplish aise just

131  
00:06:03,459 --> 00:06:07,810  
just at the bottom but I could have been

132  
00:06:05,290 --> 00:06:10,300  
you know I could be wrong there simply

133  
00:06:07,810 --> 00:06:13,389  
because I'm I was so desperate to see

134  
00:06:10,300 --> 00:06:15,040  
something but like I'm not certain

135  
00:06:13,389 --> 00:06:18,509  
whether there was but I thought I could

136  
00:06:15,040 --> 00:06:21,280  
see a very faint how long were you them

137  
00:06:18,509 --> 00:06:25,060  
right that's a very good question what

138  
00:06:21,279 --> 00:06:30,279  
year was it yes that's better I think it

139  
00:06:25,060 --> 00:06:32,699  
was about 65 or something like that but

140  
00:06:30,279 --> 00:06:34,829  
if I got all my notes out to know that

141  
00:06:32,699 --> 00:06:36,750  
exactly my memory by the way was not as

142  
00:06:34,829 --> 00:06:39,149  
good as it used to be and that sort of

143

00:06:36,750 --> 00:06:39,720  
kick-started your interest in the

144  
00:06:39,149 --> 00:06:41,759  
subject

145  
00:06:39,720 --> 00:06:44,730  
no no I'd already been investigating the

146  
00:06:41,759 --> 00:06:45,959  
subject for years so in fact my family

147  
00:06:44,730 --> 00:06:48,300  
thought it was a complete nutcase

148  
00:06:45,959 --> 00:06:53,339  
because I devoted so much time and

149  
00:06:48,300 --> 00:06:54,120  
interest in it but this was something

150  
00:06:53,339 --> 00:06:55,979  
different

151  
00:06:54,120 --> 00:06:57,840  
this wasn't a light in the sky that had

152  
00:06:55,980 --> 00:07:00,470  
seemed previously there or any of these

153  
00:06:57,839 --> 00:07:04,109  
other things this was something

154  
00:07:00,470 --> 00:07:07,230  
absolutely definitely real physical and

155  
00:07:04,110 --> 00:07:09,360  
out there now most people when I tell

156  
00:07:07,230 --> 00:07:12,840  
them this it was obviously some kind of

157  
00:07:09,360 --> 00:07:16,800

stealth aircraft or some kind of secret

158

00:07:12,839 --> 00:07:18,899

military thing absolutely rubbish and

159

00:07:16,800 --> 00:07:21,300

anybody that says that to me I had no

160

00:07:18,899 --> 00:07:25,049

time at all to spend with them because

161

00:07:21,300 --> 00:07:28,470

it's nonsense they do not have right

162

00:07:25,050 --> 00:07:32,040

they did not have any kind of vertical

163

00:07:28,470 --> 00:07:34,290

takeoff and land aircraft they did not

164

00:07:32,040 --> 00:07:36,990

have anything that and they still do not

165

00:07:34,290 --> 00:07:39,480

have any kind of aircraft that can

166

00:07:36,990 --> 00:07:42,389

travel at less than a walking pace

167

00:07:39,480 --> 00:07:45,750

without stalling and had this been any

168

00:07:42,389 --> 00:07:47,279

kind of aircraft using the air but it

169

00:07:45,750 --> 00:07:49,560

would have had to press the air down to

170

00:07:47,279 --> 00:07:52,169

of what looked like fantastically heavy

171

00:07:49,560 --> 00:07:54,149

objects then it would affect the tiles

172  
00:07:52,170 --> 00:07:56,220  
and the roofs of the houses there's no

173  
00:07:54,149 --> 00:07:57,599  
doubt about that in my mind and the

174  
00:07:56,220 --> 00:07:59,460  
sound would have been absolutely

175  
00:07:57,600 --> 00:08:01,500  
definitely to produce that much

176  
00:07:59,459 --> 00:08:03,539  
downdraft was there any Sun at all not

177  
00:08:01,500 --> 00:08:05,819  
at all not at all it was a still evening

178  
00:08:03,540 --> 00:08:06,900  
and there was hardly any traffic at all

179  
00:08:05,819 --> 00:08:08,699  
in fact I don't remember anything

180  
00:08:06,899 --> 00:08:10,729  
passing me at all although it could have

181  
00:08:08,699 --> 00:08:14,250  
happened so it was really quiet

182  
00:08:10,730 --> 00:08:17,100  
listening I'm looking no lights no marks

183  
00:08:14,250 --> 00:08:20,129  
nothing at all and that did it for me I

184  
00:08:17,100 --> 00:08:23,670  
knew that then despite all of the new

185  
00:08:20,129 --> 00:08:26,759  
theories about you know mental things

186  
00:08:23,670 --> 00:08:28,980  
listen a physical object and it's got to

187  
00:08:26,759 --> 00:08:32,129  
be extraterrestrial and all these years

188  
00:08:28,980 --> 00:08:34,860  
later we still do not have any kind of

189  
00:08:32,129 --> 00:08:37,349  
aircraft that can simulate what these

190  
00:08:34,860 --> 00:08:38,729  
things did we obviously had a very clear

191  
00:08:37,349 --> 00:08:40,319  
view of the object you said he was in

192  
00:08:38,729 --> 00:08:43,889  
daylight in there yeah

193  
00:08:40,318 --> 00:08:46,769  
rather than that light no reason it was

194  
00:08:43,889 --> 00:08:49,620  
like to see dis to debt which is a great

195  
00:08:46,769 --> 00:08:51,899  
great light right but absolutely perfect

196  
00:08:49,620 --> 00:08:55,049  
there been anything to see I would have

197  
00:08:51,899 --> 00:08:57,509  
seen it right I know you told me earlier

198  
00:08:55,049 --> 00:08:59,278  
that the whole life's time to be

199  
00:08:57,509 --> 00:09:02,938  
dedicated you obviously were for one

200

00:08:59,278 --> 00:09:04,828  
other paranormal and anything that's a

201  
00:09:02,938 --> 00:09:07,318  
mystery because obviously when you get

202  
00:09:04,828 --> 00:09:09,388  
equipment to do one thing it will come

203  
00:09:07,318 --> 00:09:11,429  
in to do another thing and quite often

204  
00:09:09,389 --> 00:09:14,850  
some of the equipment is used in in

205  
00:09:11,429 --> 00:09:17,429  
different kinds of but the truth is if

206  
00:09:14,850 --> 00:09:19,740  
you've got a secret and a mystery right

207  
00:09:17,429 --> 00:09:23,068  
then I want to know what the answer is

208  
00:09:19,740 --> 00:09:25,110  
if 40 Birds fall off a telegraph pole in

209  
00:09:23,068 --> 00:09:28,528  
Illinois this afternoon I want to know

210  
00:09:25,110 --> 00:09:29,188  
why some people you know they're happy

211  
00:09:28,528 --> 00:09:31,230  
that it

212  
00:09:29,188 --> 00:09:33,360  
it's an occurrence not me yeah I don't

213  
00:09:31,230 --> 00:09:34,379  
know yeah yeah so you told me earlier as

214  
00:09:33,360 --> 00:09:36,990

well that you've got a really included

215

00:09:34,379 --> 00:09:39,480

is it in line that's obvious and you do

216

00:09:36,990 --> 00:09:41,669

take a scientific starts do not jump to

217

00:09:39,480 --> 00:09:44,300

conclusions you very objective and you

218

00:09:41,669 --> 00:09:47,120

have to you look for evidence yeah and

219

00:09:44,299 --> 00:09:50,068

in your mind do you think there's any

220

00:09:47,120 --> 00:09:53,970

the extra-terrestrial hypothesis as an

221

00:09:50,068 --> 00:09:57,899

answer to UFOs is that quite obviously

222

00:09:53,970 --> 00:10:00,180

not all UFOs or an extraterrestrial I

223

00:09:57,899 --> 00:10:01,919

will accept that straight away in fact I

224

00:10:00,179 --> 00:10:04,469

would think that the percentage must be

225

00:10:01,919 --> 00:10:07,409

so microscopic and our job to actually

226

00:10:04,470 --> 00:10:10,769

record it but I do believe at the end of

227

00:10:07,409 --> 00:10:13,438

the day there are just a few real UFOs

228

00:10:10,769 --> 00:10:15,240

at what I call real UFOs there we're not

229

00:10:13,438 --> 00:10:16,980  
an unidentified flying object but

230

00:10:15,240 --> 00:10:19,649  
obviously an extraterrestrial vehicle

231

00:10:16,980 --> 00:10:23,009  
and believe wholeheartedly that these

232

00:10:19,649 --> 00:10:24,179  
people are coming here right and in all

233

00:10:23,009 --> 00:10:26,970  
the years that you've been looking at it

234

00:10:24,179 --> 00:10:28,708  
not just that what in Wales but across

235

00:10:26,970 --> 00:10:30,660  
the world you keep you tabs on this a

236

00:10:28,708 --> 00:10:33,568  
lot of things across the world Oh

237

00:10:30,659 --> 00:10:37,039  
in Wales specifically what case or

238

00:10:33,568 --> 00:10:39,179  
incident the stands opening your veil

239

00:10:37,039 --> 00:10:40,230  
Rob that you've looked at one or two

240

00:10:39,179 --> 00:10:42,628  
standout

241

00:10:40,230 --> 00:10:46,470  
actually was another one it's Sophie

242

00:10:42,629 --> 00:10:48,449  
laughs I'll tell you this first my wife

243  
00:10:46,470 --> 00:10:51,050  
and I my wife used to work in CAF Italy

244  
00:10:48,448 --> 00:10:52,849  
and I used to go up and pick her

245  
00:10:51,049 --> 00:10:54,889  
and evening you know when she'd finished

246  
00:10:52,850 --> 00:10:57,560  
and come back so it's doing the Rosco

247  
00:10:54,889 --> 00:10:59,569  
noble father blockage and we're coming

248  
00:10:57,559 --> 00:11:00,319  
out to Philly and the bright sunny

249  
00:10:59,570 --> 00:11:02,899  
evening

250  
00:11:00,320 --> 00:11:05,209  
and the traffic is oh it used to be a

251  
00:11:02,899 --> 00:11:07,309  
rendus to just a you know that short bit

252  
00:11:05,208 --> 00:11:08,599  
until you got to where that their state

253  
00:11:07,309 --> 00:11:15,078  
is and the idea what you are we looking

254  
00:11:08,600 --> 00:11:20,329  
at them this will be in contest late

255  
00:11:15,078 --> 00:11:21,859  
seventies again if I got soaked

256  
00:11:20,328 --> 00:11:23,269  
I've got thirst as a record we got

257

00:11:21,860 --> 00:11:25,610  
records out I could tell you the exact

258  
00:11:23,269 --> 00:11:27,799  
day but I can't believe we'll find out

259  
00:11:25,610 --> 00:11:29,360  
that they do and what happened was we

260  
00:11:27,799 --> 00:11:32,179  
were stuck in this traffic nose-to-nose

261  
00:11:29,360 --> 00:11:36,379  
moving shunting forward to get over to

262  
00:11:32,179 --> 00:11:39,519  
that little bit of hold up that you get

263  
00:11:36,379 --> 00:11:44,570  
just out to affiliate finishing time and

264  
00:11:39,519 --> 00:11:48,320  
I looked ahead and I could see two white

265  
00:11:44,570 --> 00:11:50,120  
dots in the sky at extremely low level

266  
00:11:48,320 --> 00:11:53,120  
just don't give thought of 200 feet off

267  
00:11:50,120 --> 00:11:56,810  
the ground at the most coming towards us

268  
00:11:53,120 --> 00:11:59,899  
but over on our right hand side over the

269  
00:11:56,809 --> 00:12:01,939  
estate because it just be feels and then

270  
00:11:59,899 --> 00:12:03,320  
this state is named love it I can't

271  
00:12:01,940 --> 00:12:05,029

remember the name of it now it's a very

272

00:12:03,320 --> 00:12:07,910

very famous place gallery win or lose

273

00:12:05,028 --> 00:12:10,189

they take on one direction the only

274

00:12:07,909 --> 00:12:13,039

estates I know a horse it Park Moritz of

275

00:12:10,190 --> 00:12:16,010

Meadows Masri Park once we pop customers

276

00:12:13,039 --> 00:12:18,740

that's where I grew up is definitely the

277

00:12:16,009 --> 00:12:20,480

one trust between the road I've seen

278

00:12:18,740 --> 00:12:22,850

some stuff from there myself so I can

279

00:12:20,480 --> 00:12:24,829

tell me right away there is crafts or

280

00:12:22,850 --> 00:12:26,509

lights or orbs definitely around that

281

00:12:24,828 --> 00:12:28,069

well this is coming towards it's not

282

00:12:26,509 --> 00:12:31,269

actually over lunch real estate it's

283

00:12:28,070 --> 00:12:33,740

over the the green out here if you like

284

00:12:31,269 --> 00:12:34,698

but apparently running power let's not

285

00:12:33,740 --> 00:12:36,919

come into Denver roads

286  
00:12:34,698 --> 00:12:40,250  
parallel to us and it's over there on

287  
00:12:36,919 --> 00:12:42,078  
the right and jokingly I say to my wife

288  
00:12:40,250 --> 00:12:44,539  
and by the ways being under her family

289  
00:12:42,078 --> 00:12:46,939  
at Temple non-believers in this I might

290  
00:12:44,539 --> 00:12:48,769  
you know during my call T days my father

291  
00:12:46,940 --> 00:12:50,870  
notice they would read me on a regular

292  
00:12:48,769 --> 00:12:52,879  
basis on he used to say to me I've

293  
00:12:50,870 --> 00:12:55,009  
worked at Longhorn steelworks and all

294  
00:12:52,879 --> 00:12:56,360  
this so every night wish to do night

295  
00:12:55,009 --> 00:12:57,919  
shifts and everything and we'd never

296  
00:12:56,360 --> 00:13:00,019  
seen anything isn't that funny

297  
00:12:57,919 --> 00:13:02,979  
all I'm I was over there after he died

298  
00:13:00,019 --> 00:13:05,049  
subtly one wound steelworks oh my gosh

299  
00:13:02,980 --> 00:13:09,550  
produced the UFO over the steelworks

300  
00:13:05,049 --> 00:13:11,740  
then they whoa so this is Shane Jamie

301  
00:13:09,549 --> 00:13:11,889  
wasn't here today to see it but there we

302  
00:13:11,740 --> 00:13:14,289  
are

303  
00:13:11,889 --> 00:13:17,500  
anyway we were coming down the road and

304  
00:13:14,289 --> 00:13:19,839  
we see two bright very bright like we

305  
00:13:17,500 --> 00:13:21,549  
described as LEDs now you know that kind

306  
00:13:19,840 --> 00:13:23,680  
of light bear in mind this is in the

307  
00:13:21,549 --> 00:13:26,139  
daylight yeah and they were really

308  
00:13:23,679 --> 00:13:28,359  
really bright considering but took pin

309  
00:13:26,139 --> 00:13:30,970  
dots and they come in two other jokingly

310  
00:13:28,360 --> 00:13:33,970  
I say to my dear wife Christine say they

311  
00:13:30,970 --> 00:13:35,800  
are told it was UFOs and she looks up

312  
00:13:33,970 --> 00:13:37,210  
all yes I do know is it's two lights

313  
00:13:35,799 --> 00:13:39,159  
with the sky coming towards it

314

00:13:37,210 --> 00:13:41,080  
so I'm joking I shunt a bit further

315  
00:13:39,159 --> 00:13:43,539  
forward now this seems to moving

316  
00:13:41,080 --> 00:13:45,759  
extremely slowly again overcome it

317  
00:13:43,539 --> 00:13:50,019  
getting nearer obviously when it gets

318  
00:13:45,759 --> 00:13:52,179  
sort of much closer I could see a black

319  
00:13:50,019 --> 00:13:54,730  
disc in between the two lights it's just

320  
00:13:52,179 --> 00:13:57,189  
a black disc and the two lights are on

321  
00:13:54,730 --> 00:13:59,019  
the front of it so now I'm getting

322  
00:13:57,190 --> 00:14:00,490  
excited I'm trying to not to run into

323  
00:13:59,019 --> 00:14:02,500  
the car in front you know you move with

324  
00:14:00,490 --> 00:14:04,899  
that nice bubbly you're in danger of a

325  
00:14:02,500 --> 00:14:07,330  
collision but I'm trying to avoid that

326  
00:14:04,899 --> 00:14:10,569  
and I'm still trying to watch this thing

327  
00:14:07,330 --> 00:14:12,100  
at the same time my wife's excited you

328  
00:14:10,570 --> 00:14:14,140

know and I'm thinking this this is a

329

00:14:12,100 --> 00:14:15,820

it's a light aeroplane with this landing

330

00:14:14,139 --> 00:14:18,009

lights on white would have landing

331

00:14:15,820 --> 00:14:19,960

lights on in the daytime Overland Street

332

00:14:18,009 --> 00:14:29,830

Park I have no idea but that's what I

333

00:14:19,960 --> 00:14:33,430

thought it was awful no anyway it's like

334

00:14:29,830 --> 00:14:35,980

when it got almost level with us I could

335

00:14:33,429 --> 00:14:37,029

clearly see it was a black disc like a

336

00:14:35,980 --> 00:14:39,670

walls in shape

337

00:14:37,029 --> 00:14:42,009

there was no tail fin on it and there

338

00:14:39,669 --> 00:14:45,729

were no wings on it it was just a

339

00:14:42,009 --> 00:14:47,679

perfect disc again it wasn't rotating I

340

00:14:45,730 --> 00:14:49,240

think no lights weren't rotated just the

341

00:14:47,679 --> 00:14:51,639

two lights were right you know

342

00:14:49,240 --> 00:14:55,210

straight forward but they were extremely

343  
00:14:51,639 --> 00:14:56,830  
thin they weren't shining like a beam it

344  
00:14:55,210 --> 00:14:59,410  
was more like two laser light you know

345  
00:14:56,830 --> 00:15:00,970  
there were two dots and it was a the

346  
00:14:59,409 --> 00:15:03,759  
light was unusual let's put it that way

347  
00:15:00,970 --> 00:15:05,139  
if a car LED light you could tell with

348  
00:15:03,759 --> 00:15:07,360  
the weight the shape of the light if you

349  
00:15:05,139 --> 00:15:11,559  
might but but this they put two really

350  
00:15:07,360 --> 00:15:13,779  
piercing dots on it and it slowly got

351  
00:15:11,559 --> 00:15:16,389  
level dead level with us and I'm trying

352  
00:15:13,779 --> 00:15:18,339  
to stop the car now at this point

353  
00:15:16,389 --> 00:15:22,029  
by the way the pavements is about a foot

354  
00:15:18,340 --> 00:15:24,220  
high right and I am trying to get the

355  
00:15:22,029 --> 00:15:26,409  
car onto the pavement I've got people

356  
00:15:24,220 --> 00:15:30,340  
behind tilting me and giving me your

357  
00:15:26,409 --> 00:15:31,990  
unorthodox or traffic signals because

358  
00:15:30,340 --> 00:15:35,320  
they're everybody's trying to you know

359  
00:15:31,990 --> 00:15:36,759  
get out so I managed to get the car up

360  
00:15:35,320 --> 00:15:40,810  
this pavement they don't quite know how

361  
00:15:36,759 --> 00:15:42,549  
early on the tremendous angle and a SATA

362  
00:15:40,809 --> 00:15:43,119  
might get out to the car love get out of

363  
00:15:42,549 --> 00:15:45,609  
the car

364  
00:15:43,120 --> 00:15:47,320  
so she's trying to get out to the car on

365  
00:15:45,610 --> 00:15:49,960  
the cars on the tremendous angle as you

366  
00:15:47,320 --> 00:15:52,960  
as you know so she's struggling to get

367  
00:15:49,960 --> 00:15:54,430  
out and I'm now trying to climb over the

368  
00:15:52,960 --> 00:15:57,129  
guy can't get my side because the

369  
00:15:54,429 --> 00:15:59,739  
traffic is edging past me you know very

370  
00:15:57,129 --> 00:16:01,389  
very close and nobody's happy with it

371

00:15:59,740 --> 00:16:03,669  
but I'm honestly got over the gear

372  
00:16:01,389 --> 00:16:05,379  
sticks I think I like to fight this door

373  
00:16:03,669 --> 00:16:07,449  
and get out onto the pavement I'm stood

374  
00:16:05,379 --> 00:16:10,299  
now and it's absolutely dead level with

375  
00:16:07,450 --> 00:16:12,640  
us and it's just there hovered not

376  
00:16:10,299 --> 00:16:16,929  
awfully but moving very very very slowly

377  
00:16:12,639 --> 00:16:19,299  
over lunch we pork fields and going

378  
00:16:16,929 --> 00:16:25,000  
towards carefully where the Sun was

379  
00:16:19,299 --> 00:16:28,089  
setting and annoyingly a week before I'd

380  
00:16:25,000 --> 00:16:30,820  
taken out an SLR camera that I carried

381  
00:16:28,090 --> 00:16:34,030  
continuously with film on it because we

382  
00:16:30,820 --> 00:16:35,830  
had frosty weather and being ignorant of

383  
00:16:34,029 --> 00:16:37,929  
the fact I thought the frost would

384  
00:16:35,830 --> 00:16:40,090  
damage the camera all the film quite the

385  
00:16:37,929 --> 00:16:42,699

contrary they believed in it it would

386

00:16:40,090 --> 00:16:44,649

have been treated him better so I taken

387

00:16:42,700 --> 00:16:47,440

the camera out so I'm stood I'm an

388

00:16:44,649 --> 00:16:50,049

investigator a UFO investigator stood

389

00:16:47,440 --> 00:16:52,150

looking at the daylight sighting right

390

00:16:50,049 --> 00:16:54,729

up within a short distance of me unable

391

00:16:52,149 --> 00:16:56,740

to take a photograph of it but when I

392

00:16:54,730 --> 00:16:59,920

got home I immediately got a pen and

393

00:16:56,740 --> 00:17:04,359

paper and drew sketches of exactly what

394

00:16:59,919 --> 00:17:07,449

I saw and undoubtedly this is a flying

395

00:17:04,359 --> 00:17:10,229

saucer again I would swear that we've

396

00:17:07,449 --> 00:17:14,259

got nothing that would you know equal it

397

00:17:10,230 --> 00:17:17,380

about two weeks later a newspaper

398

00:17:14,259 --> 00:17:19,900

article occurred some businessman inked

399

00:17:17,380 --> 00:17:22,390

a filly had seen what he described this

400  
00:17:19,900 --> 00:17:25,390  
dustbin lid at the same time traveling

401  
00:17:22,390 --> 00:17:29,250  
over carefully and he believed it was a

402  
00:17:25,390 --> 00:17:32,390  
uni as well so that'll be in my record

403  
00:17:29,250 --> 00:17:32,390  
of course if you'd like to see

404  
00:17:38,720 --> 00:17:45,769  
but the question that you asked me was

405  
00:17:42,888 --> 00:17:48,019  
what it was the highlight of all this

406  
00:17:45,769 --> 00:17:51,589  
6070 years of research that I've done

407  
00:17:48,019 --> 00:17:54,470  
yeah and it was on this amazing occasion

408  
00:17:51,589 --> 00:17:56,628  
I've got a UFO group and we were

409  
00:17:54,470 --> 00:17:59,538  
operating in decide which is along the

410  
00:17:56,628 --> 00:18:01,009  
coast from here yeah and that the Daily

411  
00:17:59,538 --> 00:18:04,460  
Express I think it was a national

412  
00:18:01,009 --> 00:18:08,538  
newspaper produced an article and it

413  
00:18:04,460 --> 00:18:11,690  
said strange debris from the sky so

414  
00:18:08,538 --> 00:18:14,119  
obviously my ears perked up at that

415  
00:18:11,690 --> 00:18:16,100  
point because strange debris doesn't

416  
00:18:14,119 --> 00:18:18,219  
fall from the sky on every day I mean we

417  
00:18:16,099 --> 00:18:21,740  
get space debris and the like I suppose

418  
00:18:18,220 --> 00:18:25,750  
so I thought right I read on and it said

419  
00:18:21,740 --> 00:18:30,138  
farmer Ervil goes out in the morning

420  
00:18:25,750 --> 00:18:33,679  
and he finds tin foil what he thinks is

421  
00:18:30,138 --> 00:18:35,449  
like cooking foil and pieces of what

422  
00:18:33,679 --> 00:18:39,200  
looked like shattered glass which turned

423  
00:18:35,450 --> 00:18:42,830  
out to be metal spread over four fields

424  
00:18:39,200 --> 00:18:44,419  
and these are massive fields so the

425  
00:18:42,829 --> 00:18:48,500  
morning medicines of Roswell that look

426  
00:18:44,419 --> 00:18:51,110  
well you've got it there change farmer

427  
00:18:48,500 --> 00:18:53,720  
for rancher and you've read them the

428

00:18:51,109 --> 00:18:55,788  
same story it's exactly the same store

429  
00:18:53,720 --> 00:18:58,960  
services in worth but this is in Wales

430  
00:18:55,788 --> 00:19:02,599  
this is vanilla and the elaborate layer

431  
00:18:58,960 --> 00:19:04,159  
so I'm reading this and I thought I've

432  
00:19:02,599 --> 00:19:06,859  
generally thought was reading Roswell

433  
00:19:04,159 --> 00:19:08,960  
because it was so like it so he gathered

434  
00:19:06,859 --> 00:19:12,079  
a few pieces up and looked after and

435  
00:19:08,960 --> 00:19:15,679  
then he ran the police the police

436  
00:19:12,079 --> 00:19:17,888  
arrived and walked around and said my

437  
00:19:15,679 --> 00:19:21,620  
goodness she bought a plane crash

438  
00:19:17,888 --> 00:19:25,519  
so with that they contacted the RAF

439  
00:19:21,619 --> 00:19:28,939  
crotch retrieval people and they trauma

440  
00:19:25,519 --> 00:19:31,220  
afternoon guys turned up from the RAF

441  
00:19:28,940 --> 00:19:32,840  
cross retrieval and he's walking around

442  
00:19:31,220 --> 00:19:34,370

these fields and he's showing them these

443

00:19:32,839 --> 00:19:36,259

pieces some of these pieces by the way

444

00:19:34,369 --> 00:19:39,768

they look like shattered glass were as

445

00:19:36,259 --> 00:19:41,960

big as six foot so we're talking sizable

446

00:19:39,769 --> 00:19:44,750

pieces but hundreds of small stuff and

447

00:19:41,960 --> 00:19:47,960

this unusual foil spread over a great

448

00:19:44,750 --> 00:19:50,099

distance also one of his fields is

449

00:19:47,960 --> 00:19:52,650

bounded by a wood cops of next

450

00:19:50,099 --> 00:19:54,599

makes trees and you could clearly see

451

00:19:52,650 --> 00:19:57,059

that something had gone right through

452

00:19:54,599 --> 00:19:59,099

the top of the trees shearing the tops

453

00:19:57,058 --> 00:20:01,798

of them and scattered twigs and branches

454

00:19:59,099 --> 00:20:03,449

in a straight line right across a field

455

00:20:01,798 --> 00:20:07,710

you could see all the twigs and stuff

456

00:20:03,450 --> 00:20:09,120

across the field so the crash retrieval

457  
00:20:07,710 --> 00:20:10,860  
people were saying to him as they walk

458  
00:20:09,119 --> 00:20:14,699  
around the bear in mind these are

459  
00:20:10,859 --> 00:20:19,288  
experts this is not an aeroplane they've

460  
00:20:14,700 --> 00:20:21,150  
never seen anything like it so far we'll

461  
00:20:19,288 --> 00:20:21,629  
look obviously was quite surprised at

462  
00:20:21,150 --> 00:20:24,059  
that

463  
00:20:21,630 --> 00:20:27,210  
and they searched everywhere expecting

464  
00:20:24,058 --> 00:20:29,339  
to find that engines or other

465  
00:20:27,210 --> 00:20:32,009  
identifiable parts but they couldn't

466  
00:20:29,339 --> 00:20:34,558  
find anything to identify it with it's

467  
00:20:32,009 --> 00:20:37,679  
all more of the same thing yeah whatever

468  
00:20:34,558 --> 00:20:41,970  
this was it had hit the trees that the

469  
00:20:37,679 --> 00:20:44,700  
forest shed enormous amounts of its self

470  
00:20:41,970 --> 00:20:47,339  
and material and yet managed to fly away

471  
00:20:44,700 --> 00:20:50,490  
again which is incredible given the

472  
00:20:47,339 --> 00:20:55,918  
amount of stuff that was deposited and

473  
00:20:50,490 --> 00:20:58,798  
so later on more people arrived Ministry

474  
00:20:55,919 --> 00:21:00,538  
of Defense and they set up I think with

475  
00:20:58,798 --> 00:21:03,509  
caravans and police knows what an

476  
00:21:00,538 --> 00:21:06,419  
equipment in his own words oral said

477  
00:21:03,509 --> 00:21:08,788  
it's like a scene straight out to James

478  
00:21:06,419 --> 00:21:11,850  
Bond he said they're putting up all

479  
00:21:08,788 --> 00:21:14,788  
these mobile floodlights around his area

480  
00:21:11,849 --> 00:21:17,668  
that cordoned it all off obviously the

481  
00:21:14,788 --> 00:21:19,980  
question him about it and everything and

482  
00:21:17,669 --> 00:21:22,169  
so they went about their business and

483  
00:21:19,980 --> 00:21:24,808  
eventually you know mid man so murder

484  
00:21:22,169 --> 00:21:26,909  
will decide he will go to bed and say we

485

00:21:24,808 --> 00:21:29,339  
get on in the morning he was astonished

486  
00:21:26,909 --> 00:21:32,429  
he got up in the morning and all the men

487  
00:21:29,339 --> 00:21:35,548  
all the equipment have disappeared but

488  
00:21:32,429 --> 00:21:37,200  
more than that every tiny scrap of the

489  
00:21:35,548 --> 00:21:39,929  
material over four fields had

490  
00:21:37,200 --> 00:21:42,569  
disappeared as well from all of it he

491  
00:21:39,929 --> 00:21:43,950  
couldn't find anything Lucas he may in

492  
00:21:42,569 --> 00:21:47,189  
the daylight he couldn't find out the

493  
00:21:43,950 --> 00:21:49,500  
fields were full of it and so that's how

494  
00:21:47,190 --> 00:21:52,798  
this article was reported exactly as

495  
00:21:49,500 --> 00:21:56,339  
I've told you and I'm stuck reading it

496  
00:21:52,798 --> 00:21:58,029  
I'm thinking my goodness this is this is

497  
00:21:56,339 --> 00:22:01,359  
Rosco

498  
00:21:58,029 --> 00:22:03,099  
so straightaway around the guy up found

499  
00:22:01,359 --> 00:22:06,159

his number and I rang him and I said

500

00:22:03,099 --> 00:22:08,980

there's a young young farmer a nice man

501

00:22:06,160 --> 00:22:10,960

really really Pleasant and helpful I

502

00:22:08,980 --> 00:22:13,660

said would you mind if I came down with

503

00:22:10,960 --> 00:22:15,850

a group of people and interviewed you

504

00:22:13,660 --> 00:22:19,480

about it and we had to look not at all

505

00:22:15,849 --> 00:22:21,879

he said so we arrived at his farm and he

506

00:22:19,480 --> 00:22:24,579

very kindly walked us out we stood by

507

00:22:21,880 --> 00:22:26,530

this gate he said see from this gate the

508

00:22:24,579 --> 00:22:29,799

four fields over there and as far as you

509

00:22:26,529 --> 00:22:31,660

could see the vast area said that was

510

00:22:29,799 --> 00:22:34,210

covered with this foil than these metal

511

00:22:31,660 --> 00:22:35,860

parts and he he explained the exactly

512

00:22:34,210 --> 00:22:39,850

what I've told you and what was in the

513

00:22:35,859 --> 00:22:41,500

newspaper very accurately so I said well

514  
00:22:39,849 --> 00:22:43,209  
would you mind if we search and see if

515  
00:22:41,500 --> 00:22:44,500  
we can find any of this material so you

516  
00:22:43,210 --> 00:22:47,140  
saw up yourself he said well I've not

517  
00:22:44,500 --> 00:22:49,450  
found any since they left so we searched

518  
00:22:47,140 --> 00:22:52,360  
and I needn't tell you that the other

519  
00:22:49,450 --> 00:22:54,519  
several guys that I had with me got fed

520  
00:22:52,359 --> 00:22:58,539  
up very quickly because we couldn't find

521  
00:22:54,519 --> 00:23:01,809  
anything yeah nobody was no more upset

522  
00:22:58,539 --> 00:23:04,839  
about it than me then I had this idea I

523  
00:23:01,809 --> 00:23:07,569  
said if it had hit those trees over

524  
00:23:04,839 --> 00:23:09,579  
there you know and they'd searched at

525  
00:23:07,569 --> 00:23:11,289  
night it must be extremely difficult or

526  
00:23:09,579 --> 00:23:13,629  
almost impossible for them to have

527  
00:23:11,289 --> 00:23:16,180  
recovered every bit of it in a forest at

528  
00:23:13,630 --> 00:23:20,560  
night we ought to concentrate our search

529  
00:23:16,180 --> 00:23:23,320  
on the wood so with that off we go

530  
00:23:20,559 --> 00:23:25,869  
but it was wrong at all before started

531  
00:23:23,319 --> 00:23:28,589  
to find small pieces of it and even some

532  
00:23:25,869 --> 00:23:31,389  
quite bigger pieces stuck in trees and

533  
00:23:28,589 --> 00:23:32,859  
where the wood was it did not any

534  
00:23:31,390 --> 00:23:36,310  
difficulty in finding where to look

535  
00:23:32,859 --> 00:23:39,279  
because it was this 50 foot wide sheer

536  
00:23:36,309 --> 00:23:41,109  
off the top of all the trees glaring it

537  
00:23:39,279 --> 00:23:42,519  
staring you in the eyes there you know

538  
00:23:41,109 --> 00:23:44,949  
it's all they gonna do is follow that

539  
00:23:42,519 --> 00:23:47,049  
line basically so how soon after the

540  
00:23:44,950 --> 00:23:48,850  
incident well it was a week after the

541  
00:23:47,049 --> 00:23:50,409  
incident so you may on a week after ya

542

00:23:48,849 --> 00:23:52,659  
know it's a week after the incident that

543  
00:23:50,410 --> 00:23:54,790  
the article appeared in the newspaper I

544  
00:23:52,660 --> 00:23:57,190  
think and then it was probably a week

545  
00:23:54,789 --> 00:23:59,859  
after that before we were able to go

546  
00:23:57,190 --> 00:24:04,180  
there so you're talking January 83 thank

547  
00:23:59,859 --> 00:24:06,099  
you I think so yes December 8 to another

548  
00:24:04,180 --> 00:24:07,990  
should I be satya with these files oh do

549  
00:24:06,099 --> 00:24:08,959  
you think yes I should I rather for

550  
00:24:07,990 --> 00:24:11,720  
density Oh

551  
00:24:08,960 --> 00:24:16,100  
yeah okay well I'll present them to you

552  
00:24:11,720 --> 00:24:17,990  
right so what happened then was I said

553  
00:24:16,099 --> 00:24:20,689  
right now I understand the mate I did

554  
00:24:17,990 --> 00:24:23,450  
take some equipment with me and we use

555  
00:24:20,690 --> 00:24:26,120  
that to affect butter I will tell you

556  
00:24:23,450 --> 00:24:28,069

now that there was no radiation no

557

00:24:26,119 --> 00:24:29,389

that's one of the things we were able to do

558

00:24:28,069 --> 00:24:32,658

on-site it wasn't there were no

559

00:24:29,390 --> 00:24:36,230

radiation to it so we knew was safe you

560

00:24:32,659 --> 00:24:38,450

know to handle the pieces we part and we

561

00:24:36,230 --> 00:24:40,130

left the last thing I said to her well

562

00:24:38,450 --> 00:24:43,460

this would you mind if we come back

563

00:24:40,130 --> 00:24:45,860

again with more people and more

564

00:24:43,460 --> 00:24:47,720

equipment you know I didn't have a metal

565

00:24:45,859 --> 00:24:49,609

detector with me at the time yeah so

566

00:24:47,720 --> 00:24:51,798

obviously that was something I plan to

567

00:24:49,609 --> 00:24:53,959

take the next time metal detectors and a

568

00:24:51,798 --> 00:24:55,460

group of people than and so on he said

569

00:24:53,960 --> 00:24:57,829

not a problem at all

570

00:24:55,460 --> 00:24:59,480

shortly before I was due to go I thought

571  
00:24:57,829 --> 00:25:01,788  
it was a day before or very very close

572  
00:24:59,480 --> 00:25:04,339  
to the time we would you to go I had a

573  
00:25:01,788 --> 00:25:06,079  
phone call here and it says hello I

574  
00:25:04,339 --> 00:25:09,048  
would say this is oval you know you're

575  
00:25:06,079 --> 00:25:11,629  
coming down to do this you know see if

576  
00:25:09,048 --> 00:25:13,908  
we can find anything else said yes he

577  
00:25:11,630 --> 00:25:16,278  
said well you're still welcome to come

578  
00:25:13,909 --> 00:25:20,028  
but I've got to tell you that you

579  
00:25:16,278 --> 00:25:21,440  
probably be wasting your time said why

580  
00:25:20,028 --> 00:25:23,750  
is that because more geared up now

581  
00:25:21,440 --> 00:25:25,070  
obviously we're all raring to go he said

582  
00:25:23,750 --> 00:25:27,380  
because I said I'm looking through the

583  
00:25:25,069 --> 00:25:32,418  
window he said they're taking the trees

584  
00:25:27,380 --> 00:25:36,700  
away some said what he said because

585  
00:25:32,419 --> 00:25:40,250  
people out there taking the trees away

586  
00:25:36,700 --> 00:25:41,480  
so immediately I rang the Forestry

587  
00:25:40,250 --> 00:25:42,890  
Commission find out where the

588  
00:25:41,480 --> 00:25:45,798  
headquarters and turn loads in Holly

589  
00:25:42,890 --> 00:25:48,470  
head and they get a guy on the end of

590  
00:25:45,798 --> 00:25:50,960  
the phone and say I think I've been

591  
00:25:48,470 --> 00:25:53,538  
passed up the line of it before somebody

592  
00:25:50,960 --> 00:25:56,298  
would talk to me and said I believe that

593  
00:25:53,538 --> 00:25:59,450  
you're taking trees away from Manila can

594  
00:25:56,298 --> 00:26:02,058  
you tell me why and I can almost hear

595  
00:25:59,450 --> 00:26:04,880  
this guy sort of not laughing but but I

596  
00:26:02,058 --> 00:26:07,639  
can tell this that this look thinks it's

597  
00:26:04,880 --> 00:26:11,240  
very humorous and he says well their

598  
00:26:07,640 --> 00:26:17,179  
wind damaged I said

599

00:26:11,240 --> 00:26:18,890  
so do something take trees away when the

600  
00:26:17,179 --> 00:26:20,450  
wind damage she said well I'm telling

601  
00:26:18,890 --> 00:26:22,480  
you what I've got to tell you want or

602  
00:26:20,450 --> 00:26:24,890  
words to that effect

603  
00:26:22,480 --> 00:26:26,480  
that was basically I wasn't going to get

604  
00:26:24,890 --> 00:26:29,450  
any further with it telling you what

605  
00:26:26,480 --> 00:26:31,819  
I've got to tell you yes I don't know

606  
00:26:29,450 --> 00:26:33,919  
what that was verbatim but it was to

607  
00:26:31,819 --> 00:26:35,089  
that effect it was either you know this

608  
00:26:33,919 --> 00:26:37,370  
is why they've got to tell you what some

609  
00:26:35,089 --> 00:26:39,980  
that David was that leave that stuck me

610  
00:26:37,369 --> 00:26:41,469  
straightaway but quite obviously being

611  
00:26:39,980 --> 00:26:45,769  
told to shut up about it

612  
00:26:41,470 --> 00:26:48,409  
so rot we went anyway regardless I went

613  
00:26:45,769 --> 00:26:50,210

but I was rather amazed as we approached

614

00:26:48,409 --> 00:26:52,100

the farm because normally as you drive

615

00:26:50,210 --> 00:26:54,259

if you have to turn around to go into

616

00:26:52,099 --> 00:26:56,599

the fall as I was approaching it I could

617

00:26:54,259 --> 00:27:01,658

see the farm I couldn't see it before

618

00:26:56,599 --> 00:27:04,219

because it was trees so we got there and

619

00:27:01,659 --> 00:27:07,370

we couldn't find anything again because

620

00:27:04,220 --> 00:27:10,339

obviously the wind damage trees would be

621

00:27:07,369 --> 00:27:12,709

removed but I was absolutely gobsmacked

622

00:27:10,339 --> 00:27:15,769

when I saw a JCB at the far end

623

00:27:12,710 --> 00:27:16,579

I said what's he doing you know if they

624

00:27:15,769 --> 00:27:21,168

did they do

625

00:27:16,579 --> 00:27:24,589

he said they're taking the soil what on

626

00:27:21,169 --> 00:27:28,730

earth do you want to take the soil for I

627

00:27:24,589 --> 00:27:30,470

mean I give up no it's obvious I'm

628  
00:27:28,730 --> 00:27:32,538  
wasting my time ringing forestry

629  
00:27:30,470 --> 00:27:34,240  
commission wife taking the soil they

630  
00:27:32,538 --> 00:27:36,980  
want time while they're taking the trees

631  
00:27:34,240 --> 00:27:40,220  
and benevolent is king and gave us a

632  
00:27:36,980 --> 00:27:43,640  
talk and Swansea that last month very

633  
00:27:40,220 --> 00:27:48,259  
similar case in Nottingham sure where

634  
00:27:43,640 --> 00:27:50,778  
they took policy lands where some

635  
00:27:48,259 --> 00:27:52,519  
reports of a suppose it crab on come

636  
00:27:50,778 --> 00:27:54,919  
down and they actually took this on the

637  
00:27:52,519 --> 00:27:55,970  
way and replaced it with salt from

638  
00:27:54,919 --> 00:27:59,210  
somewhere else

639  
00:27:55,970 --> 00:28:01,788  
ladies silicate thank you for telling me

640  
00:27:59,210 --> 00:28:05,579  
that I didn't marry fartin I just say as

641  
00:28:01,788 --> 00:28:08,129  
well as like with

642  
00:28:05,579 --> 00:28:09,659  
incident they fell all the trees pretty

643  
00:28:08,130 --> 00:28:14,880  
much in the area where we found the snap

644  
00:28:09,660 --> 00:28:17,190  
branches and there we are also not too

645  
00:28:14,880 --> 00:28:18,990  
far now if I understand correctly in

646  
00:28:17,190 --> 00:28:21,299  
Toronto College Road they've now taken

647  
00:28:18,990 --> 00:28:23,730  
all them trees down as well right and

648  
00:28:21,299 --> 00:28:30,329  
it's like it seems anytime we hear a

649  
00:28:23,730 --> 00:28:32,130  
major incident don't you always cut down

650  
00:28:30,329 --> 00:28:33,449  
the trees hope they don't hang on over

651  
00:28:32,130 --> 00:28:35,790  
the top of the house then other ones we

652  
00:28:33,450 --> 00:28:38,370  
put him somewhere to stay tonight anyway

653  
00:28:35,789 --> 00:28:39,899  
what are next was I decided that we

654  
00:28:38,369 --> 00:28:43,469  
needed to have these pieces that we'd

655  
00:28:39,900 --> 00:28:45,960  
recovered analyzed they were unusual let

656

00:28:43,470 --> 00:28:47,809  
me just tell you that you could bend

657  
00:28:45,960 --> 00:28:50,490  
them but only with a lot of force

658  
00:28:47,809 --> 00:28:52,679  
some of them sprang back again when they

659  
00:28:50,490 --> 00:28:55,430  
were bent or the state band depends on

660  
00:28:52,680 --> 00:29:00,240  
how much fall she put on there was

661  
00:28:55,430 --> 00:29:02,070  
honeycomb all the metal foil that have

662  
00:29:00,240 --> 00:29:05,759  
been reported that looked like baking

663  
00:29:02,069 --> 00:29:08,669  
foil was actually in a honeycomb and it

664  
00:29:05,759 --> 00:29:12,960  
was sandwiched between pieces of this

665  
00:29:08,670 --> 00:29:15,990  
metal and there's some kind of resin on

666  
00:29:12,960 --> 00:29:18,539  
it on the metal that allowed this into

667  
00:29:15,990 --> 00:29:21,120  
place if you've got a son which piece of

668  
00:29:18,539 --> 00:29:23,940  
it you could stand on it and you

669  
00:29:21,119 --> 00:29:26,849  
couldn't crush it and all it was is the

670  
00:29:23,940 --> 00:29:29,970

finest foil it weighs absolutely nothing

671

00:29:26,849 --> 00:29:34,199

it really as featherweight and yet it's

672

00:29:29,970 --> 00:29:35,819

you know it's solid metal so we decided

673

00:29:34,200 --> 00:29:38,430

that we needed to get it analyzed

674

00:29:35,819 --> 00:29:39,809

properly none of us a qualified you know

675

00:29:38,430 --> 00:29:44,660

look under a microscope and not as a

676

00:29:39,809 --> 00:29:47,849

qualified so I applied to a local

677

00:29:44,660 --> 00:29:49,620

laboratory metallurgy laboratory and

678

00:29:47,849 --> 00:29:51,029

asked them would they be prepared I

679

00:29:49,619 --> 00:29:52,529

didn't tell them the source of the

680

00:29:51,029 --> 00:29:55,049

material but I just asked them would

681

00:29:52,529 --> 00:29:57,119

they be prepared to analyze the metal

682

00:29:55,049 --> 00:30:00,119

and tell us what it was and they said no

683

00:29:57,119 --> 00:30:04,049

problem at all I said well what would he

684

00:30:00,119 --> 00:30:08,969

cusses said about five thousand now I'm

685  
00:30:04,049 --> 00:30:12,089  
not funded you know by anybody I do

686  
00:30:08,970 --> 00:30:13,950  
talks to win money and I use that to buy

687  
00:30:12,089 --> 00:30:16,470  
equipment and and do it all goes back

688  
00:30:13,950 --> 00:30:17,100  
into what we're doing but five thousand

689  
00:30:16,470 --> 00:30:19,259  
pounds is

690  
00:30:17,099 --> 00:30:20,819  
lotta money my wife would have been

691  
00:30:19,259 --> 00:30:22,740  
thrilled to death I told hundred

692  
00:30:20,819 --> 00:30:24,298  
withdraw me five thousand pounds to but

693  
00:30:22,740 --> 00:30:29,009  
to have a piece of tin looked at by

694  
00:30:24,298 --> 00:30:32,129  
someone so so unfortunately that was a

695  
00:30:29,009 --> 00:30:35,190  
good while after but because I've got

696  
00:30:32,130 --> 00:30:37,860  
been doing talks all over the North

697  
00:30:35,190 --> 00:30:40,470  
Wales had got some two hundred saw

698  
00:30:37,859 --> 00:30:41,219  
people all together if you've got to put

699  
00:30:40,470 --> 00:30:43,288  
them all in one room

700  
00:30:41,220 --> 00:30:46,500  
yeah and among some I've got every kind

701  
00:30:43,288 --> 00:30:50,970  
of trade and you know profession to

702  
00:30:46,500 --> 00:30:53,359  
ladies work repair in aircraft and been

703  
00:30:50,970 --> 00:30:56,640  
repairing them from from World War two

704  
00:30:53,359 --> 00:30:58,500  
aircraft right up to the present day and

705  
00:30:56,640 --> 00:31:00,538  
that's what they do

706  
00:30:58,500 --> 00:31:03,298  
I won't give you full detail though

707  
00:31:00,538 --> 00:31:06,089  
because you know and also one of the

708  
00:31:03,298 --> 00:31:09,298  
guys that I had there is very high up in

709  
00:31:06,089 --> 00:31:11,250  
the in that kind of thing and he can't

710  
00:31:09,298 --> 00:31:12,240  
talk about what he does either but

711  
00:31:11,250 --> 00:31:14,730  
they're all had a good look at the

712  
00:31:12,240 --> 00:31:17,099  
material and they said straight away the

713

00:31:14,730 --> 00:31:20,250  
two lady said I've done hundreds and

714  
00:31:17,099 --> 00:31:23,490  
hundreds of airplanes from the univer to

715  
00:31:20,250 --> 00:31:27,179  
today that's not off an aeroplane that's

716  
00:31:23,490 --> 00:31:29,220  
their opinion obviously icon you've got

717  
00:31:27,179 --> 00:31:32,730  
to take their Winifred the guy who was

718  
00:31:29,220 --> 00:31:35,250  
quite high up in things said you've got

719  
00:31:32,730 --> 00:31:36,779  
something really special right but he

720  
00:31:35,250 --> 00:31:39,179  
was not people I had to go any further

721  
00:31:36,779 --> 00:31:41,460  
than that but I think he recognized that

722  
00:31:39,179 --> 00:31:44,909  
it wasn't an aeroplane or a piece of an

723  
00:31:41,460 --> 00:31:47,759  
aeroplane now a bit later on I got

724  
00:31:44,909 --> 00:31:50,190  
really lucky because someone said I know

725  
00:31:47,759 --> 00:31:54,058  
where we can have that properly analyzed

726  
00:31:50,190 --> 00:31:57,509  
by experts said right but I'll need some

727  
00:31:54,058 --> 00:31:59,899

samples now up until then not to scrub a

728

00:31:57,509 --> 00:32:02,940

bit had gone in the hands of anybody so

729

00:31:59,900 --> 00:32:05,309

I decided it was time to try and cut a

730

00:32:02,940 --> 00:32:07,769

sample from the each of the different

731

00:32:05,308 --> 00:32:10,048

kinds of material we had for them to

732

00:32:07,769 --> 00:32:12,210

analyze and this person took it to a

733

00:32:10,048 --> 00:32:15,558

place let's just say they're in the

734

00:32:12,210 --> 00:32:19,829

aerospace industry but right because

735

00:32:15,558 --> 00:32:23,609

this had to be done privately rather

736

00:32:19,829 --> 00:32:25,079

than the company if you understand me

737

00:32:23,609 --> 00:32:27,319

otherwise obviously it'd have been

738

00:32:25,079 --> 00:32:30,169

another five that wasn't Bank level or

739

00:32:27,319 --> 00:32:33,919

worse so the pieces with samples were

740

00:32:30,170 --> 00:32:36,980

given and I had a full report back which

741

00:32:33,920 --> 00:32:39,529

I can't repeat I can't print but have

742  
00:32:36,980 --> 00:32:42,460  
got a full report their analysis of it

743  
00:32:39,529 --> 00:32:44,990  
says that it is a type of duralumon

744  
00:32:42,460 --> 00:32:46,880  
which is a that made me feel like some

745  
00:32:44,990 --> 00:32:50,059  
kind of AA they've been dual album in a

746  
00:32:46,880 --> 00:32:51,950  
lot of the specification that they gave

747  
00:32:50,059 --> 00:32:54,259  
me go straight over the top of here and

748  
00:32:51,950 --> 00:32:57,350  
cannot the stamp half of it it's a

749  
00:32:54,259 --> 00:33:01,480  
metallic is jargon yeah but but it turns

750  
00:32:57,349 --> 00:33:06,139  
out in the summary at the bottom it said

751  
00:33:01,480 --> 00:33:08,480  
any aircraft if it was an aircraft that

752  
00:33:06,140 --> 00:33:10,520  
lost this much material have to be

753  
00:33:08,480 --> 00:33:13,039  
sticking up out of the ground with four

754  
00:33:10,519 --> 00:33:15,849  
engines and in debt people right because

755  
00:33:13,039 --> 00:33:18,049  
no aircraft can possibly lose

756  
00:33:15,849 --> 00:33:19,730  
substantial you know the amount of stuff

757  
00:33:18,049 --> 00:33:22,369  
that's been described covering four

758  
00:33:19,730 --> 00:33:26,450  
fields and still survive whatever this

759  
00:33:22,369 --> 00:33:29,419  
was it did that and secondly if we could

760  
00:33:26,450 --> 00:33:30,950  
make this do element the same as you've

761  
00:33:29,420 --> 00:33:32,840  
got this someplace

762  
00:33:30,950 --> 00:33:34,759  
we'd be building all the airplanes out

763  
00:33:32,839 --> 00:33:35,619  
of it because it beats everything we've

764  
00:33:34,759 --> 00:33:39,379  
got

765  
00:33:35,619 --> 00:33:41,000  
no that is telling to make he come you

766  
00:33:39,380 --> 00:33:43,790  
know that'll do me

767  
00:33:41,000 --> 00:33:49,009  
on its own the fact that that they can't

768  
00:33:43,789 --> 00:33:50,450  
make it so the farmer followed over he

769  
00:33:49,009 --> 00:33:52,009  
didn't hear anything that might see

770

00:33:50,450 --> 00:33:53,539  
anything nothing at all there's no noise

771  
00:33:52,009 --> 00:33:55,789  
at all he got very early in the morning

772  
00:33:53,539 --> 00:33:57,710  
to see to his lungs and he walked over

773  
00:33:55,789 --> 00:34:00,049  
to that gate as soon as he got to his

774  
00:33:57,710 --> 00:34:02,150  
fireball gate he just saw all the

775  
00:34:00,049 --> 00:34:04,309  
splinting stuff all over the fields I

776  
00:34:02,150 --> 00:34:06,830  
thought my god what's happened here you

777  
00:34:04,309 --> 00:34:09,529  
know and quite rightly he suspected he

778  
00:34:06,829 --> 00:34:12,500  
got an aeroplane down so he mocked all

779  
00:34:09,530 --> 00:34:14,930  
over his land found all the pieces saw

780  
00:34:12,500 --> 00:34:16,760  
the tree damage but couldn't actually

781  
00:34:14,929 --> 00:34:17,480  
tell you what about so let me call the

782  
00:34:16,760 --> 00:34:20,330  
police first

783  
00:34:17,480 --> 00:34:22,070  
yeah quite rightly I suppose so what my

784  
00:34:20,329 --> 00:34:24,489

hands of the pieces that you recovered

785

00:34:22,070 --> 00:34:26,780  
well the pieces that that we got

786

00:34:24,489 --> 00:34:28,789  
obviously we lost a few tiny bits in

787

00:34:26,780 --> 00:34:31,519  
samples when they when they were tested

788

00:34:28,789 --> 00:34:34,039  
but the other major pieces I thought

789

00:34:31,519 --> 00:34:36,550  
immediately I thought I know a minute I

790

00:34:34,039 --> 00:34:39,639  
feel a bit like Marcel

791

00:34:36,550 --> 00:34:42,190  
and what happened to him is they came

792

00:34:39,639 --> 00:34:45,730  
and they collected everything that he

793

00:34:42,190 --> 00:34:48,360  
had and they took it away now would you

794

00:34:45,730 --> 00:34:51,639  
expect well to have kept a few bits

795

00:34:48,360 --> 00:34:54,280  
quietly by I can't answer that question

796

00:34:51,639 --> 00:34:55,929  
at all how long does he know these two

797

00:34:54,280 --> 00:34:57,790  
the room that I do I think he's still

798

00:34:55,929 --> 00:35:00,219  
around he was younger than me I believe

799

00:34:57,789 --> 00:35:01,139  
at the time so you know I'm still yeah

800

00:35:00,219 --> 00:35:06,369  
just about

801

00:35:01,139 --> 00:35:09,179  
and so what up next was that I made sure

802

00:35:06,369 --> 00:35:12,099  
I could desperate to think of a way of

803

00:35:09,179 --> 00:35:14,859  
ensuring that these pieces didn't go the

804

00:35:12,099 --> 00:35:17,079  
same way that they did in the Roswell

805

00:35:14,860 --> 00:35:19,599  
incident otherwise we ducked the

806

00:35:17,079 --> 00:35:22,059  
definitive evidence today to harmful

807

00:35:19,599 --> 00:35:23,589  
yeah so I come up with a few brain waves

808

00:35:22,059 --> 00:35:25,360  
but one of them was not to keep the

809

00:35:23,590 --> 00:35:29,410  
pieces here under any circumstances

810

00:35:25,360 --> 00:35:32,380  
obviously because you know let's say go

811

00:35:29,409 --> 00:35:34,179  
and get them isn't it and so I've had

812

00:35:32,380 --> 00:35:37,510  
them deposited where they cannot be

813  
00:35:34,179 --> 00:35:40,449  
touched right and in order to you know

814  
00:35:37,510 --> 00:35:42,840  
if I could tell you that tomorrow I was

815  
00:35:40,449 --> 00:35:45,669  
going to do a conference in Swansea and

816  
00:35:42,840 --> 00:35:46,450  
I was bringing pieces of a craft flying

817  
00:35:45,670 --> 00:35:48,190  
saucer

818  
00:35:46,449 --> 00:35:51,309  
I could fill any building you've got

819  
00:35:48,190 --> 00:35:52,690  
from you know yeah it wouldn't be any

820  
00:35:51,309 --> 00:35:54,639  
difficulty would it to fill the Albert

821  
00:35:52,690 --> 00:35:57,849  
Hall if you can they go along with these

822  
00:35:54,639 --> 00:36:00,159  
pieces yeah but I can't actually do that

823  
00:35:57,849 --> 00:36:02,259  
it's many sad because they could make a

824  
00:36:00,159 --> 00:36:05,230  
lot of money doing this I could to other

825  
00:36:02,260 --> 00:36:06,940  
country with input unfortunately it is

826  
00:36:05,230 --> 00:36:09,909  
faithful to say where they going to be

827

00:36:06,940 --> 00:36:12,130  
at any given time right so the modus

828  
00:36:09,909 --> 00:36:15,489  
operandi when I gave the last talk on

829  
00:36:12,130 --> 00:36:18,910  
this which was in Blackpool what I did I

830  
00:36:15,489 --> 00:36:22,479  
arranged with a security guard my own of

831  
00:36:18,909 --> 00:36:24,819  
course on radio so what would happen

832  
00:36:22,480 --> 00:36:27,760  
this at the right point in the middle of

833  
00:36:24,820 --> 00:36:31,539  
the conference I rang my colleague and

834  
00:36:27,760 --> 00:36:34,180  
he came round the corner in a car parked

835  
00:36:31,539 --> 00:36:36,969  
outside and came in with it but it was

836  
00:36:34,179 --> 00:36:39,519  
handcuffed to him and people could look

837  
00:36:36,969 --> 00:36:44,129  
at it but they couldn't touch and if he

838  
00:36:39,519 --> 00:36:46,380  
touched him you'd be dead big big luck a

839  
00:36:44,130 --> 00:36:49,539  
really big lot yes

840  
00:36:46,380 --> 00:36:52,329  
not only that but he said a professional

841  
00:36:49,539 --> 00:36:53,469

martial arts expert as well yeah but

842

00:36:52,329 --> 00:36:56,710  
that's how we did

843

00:36:53,469 --> 00:36:59,319  
so I can you know it can be shown but

844

00:36:56,710 --> 00:37:02,139  
only under my conditions populist leader

845

00:36:59,320 --> 00:37:04,150  
first thought this it's very important

846

00:37:02,139 --> 00:37:06,789  
obviously that they don't go then I came

847

00:37:04,150 --> 00:37:09,039  
up with another plane wave all the parts

848

00:37:06,789 --> 00:37:11,170  
that we've got left from the samples and

849

00:37:09,039 --> 00:37:13,119  
that we were talking only a few a few

850

00:37:11,170 --> 00:37:15,730  
tiny pieces they've got left from the

851

00:37:13,119 --> 00:37:17,829  
samples there's so many people wanted a

852

00:37:15,730 --> 00:37:19,780  
piece of another to touch it and can I

853

00:37:17,829 --> 00:37:21,250  
test it and all this stuff I mean

854

00:37:19,780 --> 00:37:23,980  
everybody's ever saw that can I take

855

00:37:21,250 --> 00:37:26,619  
some away in testing well obviously if

856  
00:37:23,980 --> 00:37:29,019  
you take away the main body of it that

857  
00:37:26,619 --> 00:37:31,300  
the evidence is gone that releases but

858  
00:37:29,019 --> 00:37:34,500  
these sample pieces I cut them into tiny

859  
00:37:31,300 --> 00:37:37,060  
little squares and put them in key rings

860  
00:37:34,500 --> 00:37:39,130  
and I sold them because it would raise

861  
00:37:37,059 --> 00:37:42,519  
money straightaway I sold it to these

862  
00:37:39,130 --> 00:37:45,670  
key rings off of the the talks I did not

863  
00:37:42,519 --> 00:37:47,349  
that helped with the funds no end but

864  
00:37:45,670 --> 00:37:50,710  
the beauty is I don't know the hell

865  
00:37:47,349 --> 00:37:53,619  
Scotland so out there there are quite a

866  
00:37:50,710 --> 00:37:55,150  
few dozen people long long hundreds but

867  
00:37:53,619 --> 00:37:57,660  
there are a few dozen people out there

868  
00:37:55,150 --> 00:38:00,190  
who have got to sample this in a keyring

869  
00:37:57,659 --> 00:38:01,539  
as obviously they can do any amount of

870  
00:38:00,190 --> 00:38:04,030  
testing on it they like I've made them

871  
00:38:01,539 --> 00:38:06,699  
sorry you just take them out but in this

872  
00:38:04,030 --> 00:38:09,369  
way right Roswell is not going to happen

873  
00:38:06,699 --> 00:38:11,049  
out there if I go tomorrow

874  
00:38:09,369 --> 00:38:13,000  
heaven forbid because they intend to

875  
00:38:11,050 --> 00:38:15,550  
stay till that weekend at least but if I

876  
00:38:13,000 --> 00:38:17,380  
go tomorrow right that are people out

877  
00:38:15,550 --> 00:38:19,900  
there who've got a piece of that crash

878  
00:38:17,380 --> 00:38:23,380  
from Ramallah what they do with it is up

879  
00:38:19,900 --> 00:38:25,750  
to simply I still over yeah so that's

880  
00:38:23,380 --> 00:38:27,210  
basically and I would say that's got to

881  
00:38:25,750 --> 00:38:32,650  
be the highlight of any UFO

882  
00:38:27,210 --> 00:38:36,630  
investigators soon after the event so

883  
00:38:32,650 --> 00:38:36,630  
we've done some mid-wales robot north

884

00:38:37,230 --> 00:38:46,780  
it's not an accident to go through i'll

885  
00:38:45,190 --> 00:38:50,679  
tell you something's going on that's

886  
00:38:46,780 --> 00:38:52,869  
really exciting is that every year UFO

887  
00:38:50,679 --> 00:38:58,179  
has come in the winter and they come

888  
00:38:52,869 --> 00:39:00,190  
sort of January to April I mean last

889  
00:38:58,179 --> 00:39:03,730  
time myself and the common late at night

890  
00:39:00,190 --> 00:39:05,349  
late at night and they use something I

891  
00:39:03,730 --> 00:39:06,769  
didn't didn't realize at the time but

892  
00:39:05,349 --> 00:39:08,930  
there's a trough

893  
00:39:06,769 --> 00:39:10,489  
that goes from the Liverpool Bay here

894  
00:39:08,929 --> 00:39:13,339  
which is what you're looking out on in

895  
00:39:10,489 --> 00:39:15,799  
rear right there's a trough that goes

896  
00:39:13,340 --> 00:39:18,760  
all the way to Danby the time that Denby

897  
00:39:15,800 --> 00:39:23,450  
down the road which isn't UFO hotspot

898  
00:39:18,760 --> 00:39:26,180

sort of sort of yeah but that line is

899

00:39:23,449 --> 00:39:29,989

below the level of the cleared mountain

900

00:39:26,179 --> 00:39:33,679

range right there is no radar from

901

00:39:29,989 --> 00:39:35,659

either the military or the Civil

902

00:39:33,679 --> 00:39:38,719

Aviation peoples is following the valley

903

00:39:35,659 --> 00:39:41,239

up from rel to them yes on the west side

904

00:39:38,719 --> 00:39:43,699

if you are flying lower than the height

905

00:39:41,239 --> 00:39:44,569

of oil family which is at the mountain

906

00:39:43,699 --> 00:39:48,589

mama

907

00:39:44,570 --> 00:39:52,269

yes flying lower than that you cannot be

908

00:39:48,590 --> 00:39:55,970

seen on the radar right in any direction

909

00:39:52,269 --> 00:39:58,699

now if you travel this particular line

910

00:39:55,969 --> 00:40:01,039

which crosses real Golf Course down the

911

00:39:58,699 --> 00:40:03,919

road and over Robin Lyons Robin Hood

912

00:40:01,039 --> 00:40:05,960

holiday camp you can actually draw a

913  
00:40:03,920 --> 00:40:08,480  
straight line to get a map out and a pen

914  
00:40:05,960 --> 00:40:10,070  
you can draw a straight line from there

915  
00:40:08,480 --> 00:40:13,670  
all the way to damn it without cross and

916  
00:40:10,070 --> 00:40:17,210  
single building right with care yeah

917  
00:40:13,670 --> 00:40:19,909  
right and I believe this is why this

918  
00:40:17,210 --> 00:40:21,590  
particular line is used because they

919  
00:40:19,909 --> 00:40:24,619  
could come up out of the walk by the way

920  
00:40:21,590 --> 00:40:27,350  
they fly under the water here right yeah

921  
00:40:24,619 --> 00:40:29,509  
let me tell you how I know that one day

922  
00:40:27,349 --> 00:40:32,480  
my wife and I walking up the promenade

923  
00:40:29,510 --> 00:40:34,910  
in Rio and there is the lifeboat station

924  
00:40:32,480 --> 00:40:37,250  
with a lifeboat station and above it

925  
00:40:34,909 --> 00:40:39,349  
used to be the Coast Guard Station and

926  
00:40:37,250 --> 00:40:41,949  
they had the lookout on the top of it a

927  
00:40:39,349 --> 00:40:45,469  
glass fronted yeah lookout on the top

928  
00:40:41,949 --> 00:40:47,949  
and there was a big sign and it said

929  
00:40:45,469 --> 00:40:51,079  
Coast Guard Station open to the public

930  
00:40:47,949 --> 00:40:53,629  
which is not normal so I said I've got

931  
00:40:51,079 --> 00:40:55,759  
to have a look at this so we went up the

932  
00:40:53,630 --> 00:40:59,030  
stairs and was an elderly man and a

933  
00:40:55,760 --> 00:41:01,280  
younger man to Coast Guard people and I

934  
00:40:59,030 --> 00:41:03,110  
said it showed us what they do and I

935  
00:41:01,280 --> 00:41:05,480  
said a fantastic view for me you can see

936  
00:41:03,110 --> 00:41:07,190  
right across the Liverpool Bay said you

937  
00:41:05,480 --> 00:41:09,199  
know these people that see these you

938  
00:41:07,190 --> 00:41:11,539  
know claim this let me see these flying

939  
00:41:09,199 --> 00:41:13,828  
saucer things how many hours you spend

940  
00:41:11,539 --> 00:41:16,108  
in office spent hours and hours in

941

00:41:13,829 --> 00:41:18,150  
some hours on shift in it so you don't

942  
00:41:16,108 --> 00:41:19,288  
see anything up here that they people

943  
00:41:18,150 --> 00:41:19,979  
keep coming up with it all the time

944  
00:41:19,289 --> 00:41:22,619  
don't they

945  
00:41:19,978 --> 00:41:25,108  
he said oh we do so if you're rubbish

946  
00:41:22,619 --> 00:41:26,910  
man you laughing me on nothing good

947  
00:41:25,108 --> 00:41:30,630  
approach well I use it quite a lot

948  
00:41:26,909 --> 00:41:32,759  
actually remember actually the more if

949  
00:41:30,630 --> 00:41:33,869  
you say to a witness it's probably a

950  
00:41:32,759 --> 00:41:36,539  
matter of playing them as it or

951  
00:41:33,869 --> 00:41:39,239  
something the more it challenges their

952  
00:41:36,539 --> 00:41:40,920  
memory and makes them here to try harder

953  
00:41:39,239 --> 00:41:42,630  
to read many other details of it that's

954  
00:41:40,920 --> 00:41:44,309  
why they wouldn't feel silly talking to

955  
00:41:42,630 --> 00:41:46,528

you about what people they might have

956

00:41:44,309 --> 00:41:50,339

seen one themselves exactly so that's

957

00:41:46,528 --> 00:41:51,748

they usually young man says tell him

958

00:41:50,338 --> 00:41:55,798

about the one that come up out to the

959

00:41:51,748 --> 00:41:58,108

sea I said your wife to this see you

960

00:41:55,798 --> 00:42:00,869

know well you're on the Pope now Flair

961

00:41:58,108 --> 00:42:03,538

was it he said no no this thing came up

962

00:42:00,869 --> 00:42:05,910

and we're on duty this thing came up out

963

00:42:03,539 --> 00:42:08,369

of the sea we thought it was a flare but

964

00:42:05,909 --> 00:42:11,248

it went against the wind this object

965

00:42:08,369 --> 00:42:13,380

then it stopped and he waited for a

966

00:42:11,248 --> 00:42:17,129

while he said and then all of a sudden

967

00:42:13,380 --> 00:42:18,749

it came inland towards us but not right

968

00:42:17,130 --> 00:42:21,420

over them further just a bit further

969

00:42:18,748 --> 00:42:22,828

down the coast actually over the top of

970  
00:42:21,420 --> 00:42:24,719  
the real golf course that I've already

971  
00:42:22,829 --> 00:42:26,339  
mentioned to them but you can see from

972  
00:42:24,719 --> 00:42:29,039  
where they are quite pleased whereas

973  
00:42:26,338 --> 00:42:31,558  
what's what's telling it's towards pest

974  
00:42:29,039 --> 00:42:33,539  
at ease we only told him real Roy

975  
00:42:31,559 --> 00:42:36,150  
talking a mile away half a mile away at

976  
00:42:33,539 --> 00:42:39,539  
the most from the earth anyway it came

977  
00:42:36,150 --> 00:42:42,690  
straight in at a load alone very fairly

978  
00:42:39,539 --> 00:42:44,190  
low level and came straight in it was

979  
00:42:42,690 --> 00:42:46,499  
owned they could only see a light they

980  
00:42:44,190 --> 00:42:48,389  
couldn't see any own on it but this

981  
00:42:46,498 --> 00:42:50,429  
light as I say came out to the water

982  
00:42:48,389 --> 00:42:52,170  
clearly came out to the water and they

983  
00:42:50,429 --> 00:42:55,768  
were on alert to launch lifeboat as they

984  
00:42:52,170 --> 00:42:58,019  
thought they got a signal flare it

985  
00:42:55,768 --> 00:42:59,429  
stopped when it got up in the air going

986  
00:42:58,018 --> 00:43:02,098  
against the wind he went against the

987  
00:42:59,429 --> 00:43:03,808  
wind and stopped and they're poised for

988  
00:43:02,099 --> 00:43:06,420  
a while and then he came in his dead

989  
00:43:03,809 --> 00:43:08,789  
straight line and zoomed them straight

990  
00:43:06,420 --> 00:43:10,440  
into the co so this rules out meteorites

991  
00:43:08,789 --> 00:43:13,199  
or anything like article citizen you

992  
00:43:10,440 --> 00:43:15,958  
know and he come out to the water so

993  
00:43:13,199 --> 00:43:17,999  
what I did is denting this by the way I

994  
00:43:15,958 --> 00:43:19,649  
said so what'd you do with that then you

995  
00:43:17,998 --> 00:43:22,259  
know to you launch like nobody said no

996  
00:43:19,650 --> 00:43:23,818  
we've got the young man the old man

997  
00:43:22,259 --> 00:43:27,590  
wasn't so cooperative of the young man

998

00:43:23,818 --> 00:43:29,210  
said within this number so

999  
00:43:27,590 --> 00:43:31,730  
showed me the number and what can I

1000  
00:43:29,210 --> 00:43:33,199  
can't believe with me stood there

1001  
00:43:31,730 --> 00:43:33,469  
thinking I'm not it's not happening to

1002  
00:43:33,199 --> 00:43:35,779  
me

1003  
00:43:33,469 --> 00:43:37,789  
and he turned I don't think Koster later

1004  
00:43:35,780 --> 00:43:40,310  
women when they go into ministry defense

1005  
00:43:37,789 --> 00:43:41,659  
number so they actually of instruction

1006  
00:43:40,309 --> 00:43:43,519  
mistaking seriously they have

1007  
00:43:41,659 --> 00:43:45,500  
instructions to ring the ministry

1008  
00:43:43,519 --> 00:43:47,989  
defense when they see any of these kind

1009  
00:43:45,500 --> 00:43:50,360  
of anomalies quite what their brief

1010  
00:43:47,989 --> 00:43:52,699  
aside on't no but but obviously I was

1011  
00:43:50,360 --> 00:44:00,860  
reading away cases recently somebody on

1012  
00:43:52,699 --> 00:44:02,269

the beach by the little yes so so so the

1013

00:44:00,860 --> 00:44:06,050

you sort of stumbled on this yourself

1014

00:44:02,269 --> 00:44:10,759

you discover this so what I did is I

1015

00:44:06,050 --> 00:44:14,390

throw in one yes I can't hold yet Coast

1016

00:44:10,760 --> 00:44:17,270

Guard Center which is in charge of all

1017

00:44:14,389 --> 00:44:19,639

the Coast Guard down there and they they

1018

00:44:17,269 --> 00:44:21,679

confirmed that this is a reported a

1019

00:44:19,639 --> 00:44:24,739

reported sighting so it's actually

1020

00:44:21,679 --> 00:44:25,309

registered in all the actor Coast Guard

1021

00:44:24,739 --> 00:44:26,929

Station

1022

00:44:25,309 --> 00:44:28,670

it really did that leads to the event

1023

00:44:26,929 --> 00:44:30,500

that it's live so they come up the seats

1024

00:44:28,670 --> 00:44:33,829

thing under the radar of the collodion

1025

00:44:30,500 --> 00:44:35,360

Nils absolute serene yes straight in

1026

00:44:33,829 --> 00:44:37,489

land to Denby and where do you think

1027  
00:44:35,360 --> 00:44:39,590  
they go after that it goes around Denby

1028  
00:44:37,489 --> 00:44:41,419  
castle there all right and there's

1029  
00:44:39,590 --> 00:44:44,360  
another valley up there that leads out

1030  
00:44:41,420 --> 00:44:46,639  
onto the Debbie Moss it was a photograph

1031  
00:44:44,360 --> 00:44:48,349  
of a disc of a Danby Castle taken in

1032  
00:44:46,639 --> 00:44:54,739  
2009 that's correct

1033  
00:44:48,349 --> 00:44:57,559  
yeah the separation yes yes and there's

1034  
00:44:54,739 --> 00:45:00,109  
a video film some children that's about

1035  
00:44:57,559 --> 00:45:02,690  
a video camera for Christmas present and

1036  
00:45:00,110 --> 00:45:04,190  
saw these the circular lights going yeah

1037  
00:45:02,690 --> 00:45:09,710  
yes yeah we're gonna visit the mother

1038  
00:45:04,190 --> 00:45:12,679  
tomorrow all right yeah so that that's

1039  
00:45:09,710 --> 00:45:15,740  
that's it in fact I stumbled on one

1040  
00:45:12,679 --> 00:45:19,429  
report in Denby of somebody who saw he

1041  
00:45:15,739 --> 00:45:21,949  
was an infant school in 1949 and he saw

1042  
00:45:19,429 --> 00:45:24,139  
a flame so he called the Flying Saucer

1043  
00:45:21,949 --> 00:45:27,409  
just a few feet off the ground at the

1044  
00:45:24,139 --> 00:45:30,019  
back of the school dinner plate say this

1045  
00:45:27,409 --> 00:45:33,049  
has been a long time this a lot of them

1046  
00:45:30,019 --> 00:45:35,570  
so I've been plotting sightings them

1047  
00:45:33,050 --> 00:45:38,900  
that the cleared range year in and year

1048  
00:45:35,570 --> 00:45:40,880  
out in fact the year I moved up here

1049  
00:45:38,900 --> 00:45:44,809  
previously the front page of Flying

1050  
00:45:40,880 --> 00:45:47,570  
Saucer review featured UFO sighting over

1051  
00:45:44,809 --> 00:45:49,880  
the brook how smell a damn pee right

1052  
00:45:47,570 --> 00:45:52,070  
where the chef's got up early in the

1053  
00:45:49,880 --> 00:45:54,920  
morning to go across to work in the in

1054  
00:45:52,070 --> 00:45:57,650  
the bobbin motel and as he went across

1055

00:45:54,920 --> 00:45:59,659  
the road he saw this disc from below the

1056  
00:45:57,650 --> 00:46:00,950  
toe lock is Bhima like that he was

1057  
00:45:59,659 --> 00:46:03,199  
working in the restaurants that's good

1058  
00:46:00,949 --> 00:46:05,598  
idea chef yeah yeah but later

1059  
00:46:03,199 --> 00:46:07,759  
unbeknown to him two policemen went off

1060  
00:46:05,599 --> 00:46:09,380  
that road in Dakota yeah they also

1061  
00:46:07,760 --> 00:46:11,780  
reported it and I've seen the records

1062  
00:46:09,380 --> 00:46:15,500  
for that they did report it and saw the

1063  
00:46:11,780 --> 00:46:19,130  
same thing but better than that best of

1064  
00:46:15,500 --> 00:46:21,019  
all of this contact from a gentleman who

1065  
00:46:19,130 --> 00:46:24,559  
lives in Tempe he lives near to the

1066  
00:46:21,019 --> 00:46:27,829  
quality there and what he did is every

1067  
00:46:24,559 --> 00:46:30,858  
evening a quarry every evening he used

1068  
00:46:27,829 --> 00:46:34,159  
to walk his dog at midnight to the end

1069  
00:46:30,858 --> 00:46:36,559

of his cul-de-sac which is got a style

1070

00:46:34,159 --> 00:46:38,960

and a thinking and then of Beyond which

1071

00:46:36,559 --> 00:46:41,949

is the quarry right and he used to let

1072

00:46:38,960 --> 00:46:44,420

the dog run loose and do its business

1073

00:46:41,949 --> 00:46:46,699

I'm on this particular night he's stuck

1074

00:46:44,420 --> 00:46:49,430

on there having a smoke and he stops

1075

00:46:46,699 --> 00:46:51,500

running around over there and opposite

1076

00:46:49,429 --> 00:46:53,899

appearing to come up but actually really

1077

00:46:51,500 --> 00:46:57,500

come in towards him yeah it was a huge

1078

00:46:53,900 --> 00:46:59,599

disc with lights and windows on it in

1079

00:46:57,500 --> 00:47:01,730

which he could see what he thought were

1080

00:46:59,599 --> 00:47:06,140

peach shadow people in there coming

1081

00:47:01,730 --> 00:47:06,858

towards him so he ran called the dog but

1082

00:47:06,139 --> 00:47:09,259

he was gone

1083

00:47:06,858 --> 00:47:11,889

yeah and he ran down the cul-de-sac

1084  
00:47:09,260 --> 00:47:16,630  
knocking on doors at 10 past 12:00

1085  
00:47:11,889 --> 00:47:18,980  
midnight it could maginot thrill people

1086  
00:47:16,630 --> 00:47:20,119  
just thinking about the quarry well it

1087  
00:47:18,980 --> 00:47:21,769  
appeared to come back to the quality

1088  
00:47:20,119 --> 00:47:23,329  
project it's coming to turn the Peter

1089  
00:47:21,769 --> 00:47:26,059  
over the trees coming from the quality

1090  
00:47:23,329 --> 00:47:27,559  
we're not talking about you know more

1091  
00:47:26,059 --> 00:47:29,179  
than that you know 50 feet in the air

1092  
00:47:27,559 --> 00:47:32,539  
that's not far from the video that those

1093  
00:47:29,179 --> 00:47:37,848  
boys took in probably 12 exactly lights

1094  
00:47:32,539 --> 00:47:39,920  
don't use this I mean you can ask me

1095  
00:47:37,849 --> 00:47:41,660  
what yeah everyone is it like more than

1096  
00:47:39,920 --> 00:47:43,700  
10 years you hundred-thousand sightings

1097  
00:47:41,659 --> 00:47:46,649  
you know to pull out to the draw

1098  
00:47:43,699 --> 00:47:48,299  
okay it's a while like kalam then again

1099  
00:47:46,650 --> 00:47:50,250  
I'll show you the newspaper cutting and

1100  
00:47:48,300 --> 00:47:51,720  
everything for is it alright but what

1101  
00:47:50,250 --> 00:47:54,420  
happened was he runs out knocking on the

1102  
00:47:51,719 --> 00:47:56,879  
doors and a lady in one of the houses by

1103  
00:47:54,420 --> 00:47:59,099  
the way the absence to the houses is set

1104  
00:47:56,880 --> 00:48:02,130  
back by the buildings the buildings

1105  
00:47:59,099 --> 00:48:04,469  
protrude towards the road right and the

1106  
00:48:02,130 --> 00:48:06,269  
front door is set back so he's knocked

1107  
00:48:04,469 --> 00:48:08,369  
on this door she comes out what the a

1108  
00:48:06,269 --> 00:48:10,139  
key of do he knocking on my door at 10

1109  
00:48:08,369 --> 00:48:12,839  
past midnight or whatever it was and

1110  
00:48:10,139 --> 00:48:17,250  
just then of course it parsley down the

1111  
00:48:12,840 --> 00:48:20,039  
road this huge object so I went there to

1112

00:48:17,250 --> 00:48:23,010  
interview this guy and my wife used to

1113  
00:48:20,039 --> 00:48:24,599  
be secretary forms just to make notes so

1114  
00:48:23,010 --> 00:48:27,120  
they could just chat to him and I always

1115  
00:48:24,599 --> 00:48:29,250  
asked if it could record it and recorded

1116  
00:48:27,119 --> 00:48:33,440  
it so I've got this on on tape

1117  
00:48:29,250 --> 00:48:36,469  
and I had to use a lot of bleepy when I

1118  
00:48:33,440 --> 00:48:39,780  
recorded it because he got not excited

1119  
00:48:36,469 --> 00:48:41,579  
you know telling me about it what I say

1120  
00:48:39,780 --> 00:48:42,900  
this man is telling the truth if you'd

1121  
00:48:41,579 --> 00:48:44,670  
have been there you wouldn't know the

1122  
00:48:42,900 --> 00:48:48,059  
answer to that absolutely there's not

1123  
00:48:44,670 --> 00:48:49,860  
not a doubt in my mind this this guy is

1124  
00:48:48,059 --> 00:48:51,119  
telling you what actually happened what

1125  
00:48:49,860 --> 00:48:53,970  
he saw some little thing but he's

1126  
00:48:51,119 --> 00:48:55,619

telling you exactly what happened did he

1127

00:48:53,969 --> 00:48:57,629

ever get his dog back oh yes he got the

1128

00:48:55,619 --> 00:49:00,719

dog by myself but he but he got that

1129

00:48:57,630 --> 00:49:04,170

excited so during the recount of this

1130

00:49:00,719 --> 00:49:07,139

story that it took a lot of bleep in

1131

00:49:04,170 --> 00:49:09,690

turn to be able to play it in public it

1132

00:49:07,139 --> 00:49:11,699

I just can't say crush this guy because

1133

00:49:09,690 --> 00:49:13,559

it's just something to do with quarry's

1134

00:49:11,699 --> 00:49:21,000

where we know a lot of sightings and as

1135

00:49:13,559 --> 00:49:23,190

always a quarry nearby anything to hide

1136

00:49:21,000 --> 00:49:28,050

in place I don't know I just I just

1137

00:49:23,190 --> 00:49:31,920

wonder if I tell you something special

1138

00:49:28,050 --> 00:49:34,620

about the Denver Moors it's got the

1139

00:49:31,920 --> 00:49:38,039

court it's got our vast reservoirs on

1140

00:49:34,619 --> 00:49:40,739

Denby Moors and the grow grass was open

1141  
00:49:38,039 --> 00:49:42,150  
reservoirs yeah have you put anything in

1142  
00:49:40,739 --> 00:49:44,419  
the water there you could leave it all

1143  
00:49:42,150 --> 00:49:46,559  
day and bring it out any night you like

1144  
00:49:44,420 --> 00:49:48,750  
all right yeah and the other thing that

1145  
00:49:46,559 --> 00:49:49,299  
you will find if you get a Mac bodies of

1146  
00:49:48,750 --> 00:49:51,699  
water

1147  
00:49:49,300 --> 00:49:53,830  
attentive and stick a pin in the center

1148  
00:49:51,699 --> 00:49:55,569  
of the den beam or it can be 10 to 15

1149  
00:49:53,829 --> 00:49:56,619  
miles away from any building in any

1150  
00:49:55,570 --> 00:50:01,030  
direction

1151  
00:49:56,619 --> 00:50:03,190  
that's a remote Titus so perhaps it's

1152  
00:50:01,030 --> 00:50:04,840  
the remoteness of it letting that allow

1153  
00:50:03,190 --> 00:50:09,010  
somebody to go out there possibly even

1154  
00:50:04,840 --> 00:50:10,809  
mind some craft and investigate whatever

1155  
00:50:09,010 --> 00:50:12,310  
they wanted to oh then go away it would

1156  
00:50:10,809 --> 00:50:13,989  
make perfect sense what if they are

1157  
00:50:12,309 --> 00:50:15,759  
extraterrestrial and they're capable of

1158  
00:50:13,989 --> 00:50:16,899  
making these kinds of flights were these

1159  
00:50:15,760 --> 00:50:18,400  
wonderful craft they're obviously not

1160  
00:50:16,900 --> 00:50:19,869  
going to want public attention are there

1161  
00:50:18,400 --> 00:50:20,349  
you know so but the only might you

1162  
00:50:19,869 --> 00:50:24,009  
better

1163  
00:50:20,349 --> 00:50:27,159  
that's fascinating about it is that on

1164  
00:50:24,010 --> 00:50:30,070  
one occasion down this line I discovered

1165  
00:50:27,159 --> 00:50:34,480  
somebody had discovered in a field right

1166  
00:50:30,070 --> 00:50:36,460  
underneath the flight path a case when

1167  
00:50:34,480 --> 00:50:38,590  
they opened it is the most advanced

1168  
00:50:36,460 --> 00:50:41,289  
Russian radio transmitter and receiver

1169

00:50:38,590 --> 00:50:43,559  
that you could imagine and it is only

1170  
00:50:41,289 --> 00:50:46,029  
meant for the KGB

1171  
00:50:43,559 --> 00:50:48,429  
it's made for anybody else I've got

1172  
00:50:46,030 --> 00:50:50,800  
photographs of the equipment completely

1173  
00:50:48,429 --> 00:50:52,179  
in here might know what he did what he

1174  
00:50:50,800 --> 00:50:54,960  
can do anywhere as a very very

1175  
00:50:52,179 --> 00:50:58,049  
sophisticated the Ministry of Defense

1176  
00:50:54,960 --> 00:51:00,760  
thought they can only be there spying

1177  
00:50:58,050 --> 00:51:02,170  
yeah but it's on this line the other

1178  
00:51:00,760 --> 00:51:03,880  
thing was interesting a great big

1179  
00:51:02,170 --> 00:51:05,590  
Caliban turned up near my friends who

1180  
00:51:03,880 --> 00:51:07,710  
live upon the dead people's by the way

1181  
00:51:05,590 --> 00:51:10,320  
we booked plotted on the daily pause

1182  
00:51:07,710 --> 00:51:13,599  
turns over this great big cattle and

1183  
00:51:10,320 --> 00:51:16,210

untended dishes all over the top of it

1184

00:51:13,599 --> 00:51:18,339

so when they inquire what they're doing

1185

00:51:16,210 --> 00:51:19,960

there they're doing it for the national

1186

00:51:18,340 --> 00:51:23,559

geophysical year they're looking at the

1187

00:51:19,960 --> 00:51:27,250

Earth's magnetism humanity's on the

1188

00:51:23,559 --> 00:51:29,289

boats electronics you don't need to know

1189

00:51:27,250 --> 00:51:31,570

that you don't need a great big radar

1190

00:51:29,289 --> 00:51:33,779

dish on top of a fan to be able Q for

1191

00:51:31,570 --> 00:51:39,070

the Earth's magnetic field

1192

00:51:33,780 --> 00:51:42,150

disappointing wrong exact isn't the end

1193

00:51:39,070 --> 00:51:45,010

of the Rangers it's a den theatre it's

1194

00:51:42,150 --> 00:51:46,960

on your right um if you went towards a

1195

00:51:45,010 --> 00:51:49,210

town with envy yeah it's up through the

1196

00:51:46,960 --> 00:51:51,050

town again B&B on straight out the

1197

00:51:49,210 --> 00:51:53,269

bottle street lights was so suddenly

1198  
00:51:51,050 --> 00:51:57,530  
like how's it going into yes it is yes I

1199  
00:51:53,269 --> 00:52:01,969  
think it is yes yeah it was : operation

1200  
00:51:57,530 --> 00:52:05,780  
and then of course yeah the top it all

1201  
00:52:01,969 --> 00:52:09,500  
there's angle c RZ yes still working on

1202  
00:52:05,780 --> 00:52:10,730  
the cases there lama khmer we go in that

1203  
00:52:09,500 --> 00:52:11,239  
tomorrow we've been talking about that

1204  
00:52:10,730 --> 00:52:15,409  
yeah

1205  
00:52:11,239 --> 00:52:18,589  
Veronica death yeah a young man right

1206  
00:52:15,409 --> 00:52:20,989  
and drives his car to the top of the

1207  
00:52:18,590 --> 00:52:22,820  
Monica meth hmm

1208  
00:52:20,989 --> 00:52:24,679  
by the near the quarries at the top of I

1209  
00:52:22,820 --> 00:52:27,289  
am at the math on the road and he gets

1210  
00:52:24,679 --> 00:52:30,559  
out leave these key the doors open and

1211  
00:52:27,289 --> 00:52:32,090  
disappears into thin air well I don't

1212  
00:52:30,559 --> 00:52:33,380  
know this I think they've still not

1213  
00:52:32,090 --> 00:52:36,070  
found him I thought you were talking

1214  
00:52:33,380 --> 00:52:39,800  
about human eyes open I said yeah yeah

1215  
00:52:36,070 --> 00:52:43,870  
they're still not finding what I'm in

1216  
00:52:39,800 --> 00:52:48,710  
here and I got a phone call one day and

1217  
00:52:43,869 --> 00:52:50,359  
this person runs the post office just at

1218  
00:52:48,710 --> 00:52:51,199  
the other side of Monica meth not in

1219  
00:52:50,360 --> 00:52:53,780  
bamaca meth

1220  
00:52:51,199 --> 00:52:57,139  
Perry's Monty yeah it's a palace

1221  
00:52:53,780 --> 00:52:59,180  
phenomenal post office this lady who

1222  
00:52:57,139 --> 00:53:02,000  
won't get names or anything printer she

1223  
00:52:59,179 --> 00:53:04,219  
was supposed to miss just I said please

1224  
00:53:02,000 --> 00:53:06,380  
are you the gun hero that you know is

1225  
00:53:04,219 --> 00:53:09,109  
into UFOs and all this I said well yes

1226

00:53:06,380 --> 00:53:11,660  
so would you please come out and talk to

1227  
00:53:09,110 --> 00:53:13,430  
my son's because they've had an awful

1228  
00:53:11,659 --> 00:53:16,429  
experiences frightened the life out of

1229  
00:53:13,429 --> 00:53:18,049  
them so I went out there my wife game

1230  
00:53:16,429 --> 00:53:20,779  
with me went out there and this little

1231  
00:53:18,050 --> 00:53:24,490  
boy came in I can't remember which 10 or

1232  
00:53:20,780 --> 00:53:27,290  
12 meter nine somebody game records yeah

1233  
00:53:24,489 --> 00:53:30,139  
and there he and his friend were play

1234  
00:53:27,289 --> 00:53:34,699  
him on the side of Perry's mounting when

1235  
00:53:30,139 --> 00:53:38,170  
a disc came down over the top the one

1236  
00:53:34,699 --> 00:53:41,329  
often hoped a lamppost of wet himself

1237  
00:53:38,170 --> 00:53:43,460  
that's oh he was so scared so frightened

1238  
00:53:41,329 --> 00:53:45,590  
the other one was braver and he looked

1239  
00:53:43,460 --> 00:53:46,849  
at it for quite a while while he was

1240  
00:53:45,590 --> 00:53:49,100

over and then it flew off in the

1241  
00:53:46,849 --> 00:53:53,480  
direction of the quarry impalas Monte

1242  
00:53:49,099 --> 00:53:55,909  
yeah the cover later right now while I

1243  
00:53:53,480 --> 00:53:58,579  
was talking to them on the back door for

1244  
00:53:55,909 --> 00:53:59,190  
I went in and they said are you the UFO

1245  
00:53:58,579 --> 00:54:00,710  
man

1246  
00:53:59,190 --> 00:54:03,630  
that kind of thing when I'd arrived

1247  
00:54:00,710 --> 00:54:05,220  
there was an older man a young man with

1248  
00:54:03,630 --> 00:54:08,700  
a lot of working on my house next door

1249  
00:54:05,219 --> 00:54:10,439  
on a roof and this young man the dirt

1250  
00:54:08,699 --> 00:54:12,809  
must have caught the end of the

1251  
00:54:10,440 --> 00:54:14,429  
conversation said YouTube of the UFOs

1252  
00:54:12,809 --> 00:54:16,739  
over the village he a lot weakened and

1253  
00:54:14,429 --> 00:54:19,828  
he went to him this old man said shut up

1254  
00:54:16,739 --> 00:54:22,049  
shut him up she said no that's what it's

1255  
00:54:19,829 --> 00:54:24,119  
like people are coming in here they've

1256  
00:54:22,050 --> 00:54:27,000  
reported stuff but they don't anybody

1257  
00:54:24,119 --> 00:54:28,740  
around here looking into it and

1258  
00:54:27,000 --> 00:54:32,579  
nobody'll talk about it but there's been

1259  
00:54:28,739 --> 00:54:34,858  
a lot of activity around here the Lama

1260  
00:54:32,579 --> 00:54:39,030  
commits itself but she's just the other

1261  
00:54:34,858 --> 00:54:40,858  
side of Paris Mountain dozens including

1262  
00:54:39,030 --> 00:54:43,619  
entities in the field

1263  
00:54:40,858 --> 00:54:46,049  
yoky beside it but what you probably

1264  
00:54:43,619 --> 00:54:52,140  
don't know it's got the highest suicide

1265  
00:54:46,050 --> 00:54:55,260  
rate in the world per population one

1266  
00:54:52,139 --> 00:54:57,868  
lady says to a daughter on the phone

1267  
00:54:55,260 --> 00:54:59,369  
right it's math I'm making the name up

1268  
00:54:57,869 --> 00:55:01,500  
now it's Melanie's birthday my

1269  
00:54:59,369 --> 00:55:03,510  
granddaughter's birthday tomorrow

1270  
00:55:01,500 --> 00:55:07,289  
now I've come round I've got something I

1271  
00:55:03,510 --> 00:55:12,740  
bought something for Wright doesn't turn

1272  
00:55:07,289 --> 00:55:15,088  
up and there's a committed suicide

1273  
00:55:12,739 --> 00:55:18,419  
absolutely no reason there's people

1274  
00:55:15,088 --> 00:55:20,250  
there of committed suicide

1275  
00:55:18,420 --> 00:55:23,818  
for which there's a button if that all

1276  
00:55:20,250 --> 00:55:26,429  
their relatives it's a temple you know I

1277  
00:55:23,818 --> 00:55:28,409  
mean that one person choked sight sick

1278  
00:55:26,429 --> 00:55:29,098  
joke joke whenever students talk about

1279  
00:55:28,409 --> 00:55:30,960  
this once

1280  
00:55:29,099 --> 00:55:34,109  
I don't blame if I lived in Monica med

1281  
00:55:30,960 --> 00:55:37,409  
like commit suicide but it really wasn't

1282  
00:55:34,108 --> 00:55:40,650  
golf or but but but it has standing me

1283

00:55:37,409 --> 00:55:44,039  
just how many sightings have occurred in

1284  
00:55:40,650 --> 00:55:46,079  
the village and the caliber of them yeah

1285  
00:55:44,039 --> 00:55:47,730  
you know and the width amount of

1286  
00:55:46,079 --> 00:55:50,490  
witnesses and remember just lots of this

1287  
00:55:47,730 --> 00:55:52,199  
for sabalan whether the

1288  
00:55:50,489 --> 00:55:55,348  
it was a class of school children in the

1289  
00:55:52,199 --> 00:55:56,399  
yeah in the schoolyard yeah in netball

1290  
00:55:55,349 --> 00:55:59,010  
ugly absolutely

1291  
00:55:56,400 --> 00:56:02,430  
back in 1977 and they saw a graphical

1292  
00:55:59,010 --> 00:56:05,640  
Nuria that's just not yeah yeah we gotta

1293  
00:56:02,429 --> 00:56:07,858  
find out come if tomorrow oh won't you

1294  
00:56:05,639 --> 00:56:09,299  
stay familiarize ourselves with the with

1295  
00:56:07,858 --> 00:56:11,230  
a location right now there's one more

1296  
00:56:09,300 --> 00:56:16,180  
thing I'll say about this scenario

1297  
00:56:11,230 --> 00:56:19,179

finish there if I may yes that I was

1298

00:56:16,179 --> 00:56:22,389

pondering for ages why on earth so many

1299

00:56:19,179 --> 00:56:25,719

UFOs were seen in that area in the

1300

00:56:22,389 --> 00:56:27,400

palace mountain area yeah and I used to

1301

00:56:25,719 --> 00:56:29,259

be in contact with people at NASA all

1302

00:56:27,400 --> 00:56:30,400

the time and before they went to the

1303

00:56:29,260 --> 00:56:32,200

moon when I used to speak to the

1304

00:56:30,400 --> 00:56:35,349

astronauts on a regular basis they're

1305

00:56:32,199 --> 00:56:38,019

all into UFOs by the way all of them and

1306

00:56:35,349 --> 00:56:39,670

I said to one of them who shall remain

1307

00:56:38,019 --> 00:56:43,389

nameless now but we'll talk about a

1308

00:56:39,670 --> 00:56:46,690

decade said why on earth you know I've

1309

00:56:43,389 --> 00:56:48,549

got this hot spot why on earth is it all

1310

00:56:46,690 --> 00:56:50,230

occurring there there's nothing there

1311

00:56:48,550 --> 00:56:55,150

what do you mean there's nothing there

1312  
00:56:50,230 --> 00:56:57,789  
he said it's a beacon sits a lot he says

1313  
00:56:55,150 --> 00:57:01,599  
it's acid nostril it's a beacon

1314  
00:56:57,789 --> 00:57:03,039  
he said we use it it's a beacon mr. doe

1315  
00:57:01,599 --> 00:57:04,719  
do you mean he says the biggest copper

1316  
00:57:03,039 --> 00:57:07,420  
deposited that was I'll say the copper

1317  
00:57:04,719 --> 00:57:09,129  
ore yeah and we can they can be kit

1318  
00:57:07,420 --> 00:57:11,050  
apparently the beacon they did space I

1319  
00:57:09,130 --> 00:57:14,619  
mean oh they do that have no idea but

1320  
00:57:11,050 --> 00:57:17,740  
apparently it's it's it's a beacon point

1321  
00:57:14,619 --> 00:57:22,630  
you know used in the measurements or

1322  
00:57:17,739 --> 00:57:24,368  
whatever it is that they do mean the

1323  
00:57:22,630 --> 00:57:26,230  
cops do you when you get there you'll be

1324  
00:57:24,369 --> 00:57:27,309  
astounded if you've not seen it before

1325  
00:57:26,230 --> 00:57:29,559  
I've seen you I've doubled over

1326  
00:57:27,309 --> 00:57:32,230  
parsimonious oh yeah I'm sorry I'm sorry

1327  
00:57:29,559 --> 00:57:34,779  
it's like appreciate that you've been in

1328  
00:57:32,230 --> 00:57:36,639  
a boat it is like a like a boom another

1329  
00:57:34,780 --> 00:57:38,260  
planet it isn't like mother planet Earth

1330  
00:57:36,639 --> 00:57:39,579  
making strange connection with swans it

1331  
00:57:38,260 --> 00:57:41,050  
used to take the copper ore from there

1332  
00:57:39,579 --> 00:57:44,409  
to Swansea to be smoked it all right

1333  
00:57:41,050 --> 00:57:48,869  
many years ago well that's basically it

1334  
00:57:44,409 --> 00:57:48,868  
so if I haven't bored you to death but

1335  
00:57:49,530 --> 00:57:55,530  
there's so much to go on the unit you

1336  
00:57:51,940 --> 00:57:55,530  
know I need another for lifetime dream

1337  
00:57:59,309 --> 00:58:04,119  
yeah it's one of the reasons why we come

1338  
00:58:01,780 --> 00:58:05,260  
up is just to because we recoup down in

1339  
00:58:04,119 --> 00:58:07,600  
South Wales we've only been gone three

1340

00:58:05,260 --> 00:58:09,460  
years and we want to make contact with

1341  
00:58:07,599 --> 00:58:11,500  
the rest of the country Wales

1342  
00:58:09,460 --> 00:58:13,150  
I want Elijah to make contact and with

1343  
00:58:11,500 --> 00:58:15,280  
some veteran researchers like yourself

1344  
00:58:13,150 --> 00:58:16,690  
have put a lifetime's work into it and

1345  
00:58:15,280 --> 00:58:19,510  
it's just alter that factor in the

1346  
00:58:16,690 --> 00:58:21,579  
better you know it is you deserve all

1347  
00:58:19,510 --> 00:58:23,760  
the recognition recognition due to you I

1348  
00:58:21,579 --> 00:58:23,759  
think

1349  
00:58:27,630 --> 00:58:31,950  
that you guys we've got one more thing

1350  
00:58:30,449 --> 00:58:34,379  
that you want to see while you earlier

1351  
00:58:31,949 --> 00:58:36,779  
that might be some of this wreckage

1352  
00:58:34,380 --> 00:58:40,079  
because I've had the wreckage delivered

1353  
00:58:36,780 --> 00:58:42,300  
right so if you'd like to see it or time

1354  
00:58:40,079 --> 00:58:45,440

I'll go and get it and Shelley okay

1355

00:58:42,300 --> 00:58:45,440  
that's all right here

1356

00:58:51,139 --> 00:58:53,199  
you

1357

00:59:05,210 --> 00:59:12,349  
right well in here gentlemen are the

1358

00:59:09,170 --> 00:59:17,900  
biggest pieces of the remainder of the

1359

00:59:12,349 --> 00:59:21,260  
debris that we collected wow that's the

1360

00:59:17,900 --> 00:59:24,200  
largest piece of all if you notice

1361

00:59:21,260 --> 00:59:28,730  
carefully the edges of it are broken

1362

00:59:24,199 --> 00:59:30,739  
like glass yeah it the only straight

1363

00:59:28,730 --> 00:59:34,400  
part is the part that was cut off for

1364

00:59:30,739 --> 00:59:36,769  
sampling yeah which is on the bottom but

1365

00:59:34,400 --> 00:59:38,930  
all the other pieces all looked as if

1366

00:59:36,769 --> 00:59:41,300  
they chattered and yet it won't shatter

1367

00:59:38,929 --> 00:59:44,899  
see you layers come off first

1368

00:59:41,300 --> 00:59:46,670  
yes actually tried to break it or you

1369  
00:59:44,900 --> 00:59:49,068  
know I mean I tested its strength oh oh

1370  
00:59:46,670 --> 00:59:50,930  
yes it's extremely strongest is lighter

1371  
00:59:49,068 --> 00:59:53,088  
yes like thin with his thicker ones

1372  
00:59:50,929 --> 00:59:55,039  
though if you look there you'll see the

1373  
00:59:53,088 --> 00:59:57,078  
honeycomb there's a sample of it this is

1374  
00:59:55,039 --> 00:59:59,900  
the foil stuff that was spread all over

1375  
00:59:57,079 --> 01:00:04,670  
the fields but you'll notice that it's

1376  
00:59:59,900 --> 01:00:08,599  
honeycomb yeah in their life look I got

1377  
01:00:04,670 --> 01:00:10,760  
you a follow back nice now if you trap

1378  
01:00:08,599 --> 01:00:16,130  
trod on that piece there you can't crush

1379  
01:00:10,760 --> 01:00:18,200  
it it's extremely strong the honeycomb

1380  
01:00:16,130 --> 01:00:20,900  
takes the form of these little cells

1381  
01:00:18,199 --> 01:00:22,098  
that you can see on here I mean you said

1382  
01:00:20,900 --> 01:00:25,369  
you have that been tested and they said

1383  
01:00:22,099 --> 01:00:27,859  
it was made of all of this all of it is

1384  
01:00:25,369 --> 01:00:31,039  
made of Darrell Irma type your element

1385  
01:00:27,858 --> 01:00:33,369  
do a lumen duralumon which i think is a

1386  
01:00:31,039 --> 01:00:38,449  
kind of aluminium I'm not a pathologist

1387  
01:00:33,369 --> 01:00:40,880  
but that's that's what Eileen told is

1388  
01:00:38,449 --> 01:00:45,019  
that an alloy was a it's an alloy yes

1389  
01:00:40,880 --> 01:00:47,240  
it's an alloy but it's it's got a well

1390  
01:00:45,019 --> 01:00:47,780  
that whatever strange about it it isn't

1391  
01:00:47,239 --> 01:00:51,649  
normal

1392  
01:00:47,780 --> 01:00:54,920  
it doesn't normal to albumin but it is a

1393  
01:00:51,650 --> 01:00:57,079  
kind of gentleman after the fact no that

1394  
01:00:54,920 --> 01:01:00,588  
material that's honeycombed that you see

1395  
01:00:57,079 --> 01:01:04,640  
on the side of the metal there right has

1396  
01:01:00,588 --> 01:01:07,009  
been analyzed and that was analyzed this

1397

01:01:04,639 --> 01:01:09,798  
place dr. thus this was stuck on these

1398  
01:01:07,010 --> 01:01:12,859  
pieces originally it's all going down

1399  
01:01:09,798 --> 01:01:14,869  
like a yes as if it would be a disc sort

1400  
01:01:12,858 --> 01:01:17,078  
of thing right so going there going to a

1401  
01:01:14,869 --> 01:01:17,079  
wedge

1402  
01:01:18,199 --> 01:01:24,379  
sir materials being analyzed on it and

1403  
01:01:22,369 --> 01:01:27,320  
although they can identify what some of

1404  
01:01:24,380 --> 01:01:29,358  
the compounds are in it nobody at the

1405  
01:01:27,320 --> 01:01:31,730  
top chemical company the top laboratory

1406  
01:01:29,358 --> 01:01:33,949  
experts at the chemical company who was

1407  
01:01:31,730 --> 01:01:37,820  
on our team by the way so we were very

1408  
01:01:33,949 --> 01:01:39,739  
lucky to have won those they come to

1409  
01:01:37,820 --> 01:01:42,320  
identify what but is it's an unknown

1410  
01:01:39,739 --> 01:01:44,269  
substance but although they can find

1411  
01:01:42,320 --> 01:01:48,230

traces of compounds in Italy the code

1412

01:01:44,269 --> 01:01:50,900

could identify how could let's assume

1413

01:01:48,230 --> 01:01:52,579

this is just an aircraft even the

1414

01:01:50,900 --> 01:01:57,099

military secret aircraft if you like

1415

01:01:52,579 --> 01:02:00,380

right how could it lose four fields

1416

01:01:57,099 --> 01:02:03,980

worth of pieces some the size according

1417

01:02:00,380 --> 01:02:07,220

to Ervil was six foot he'll lose that

1418

01:02:03,980 --> 01:02:10,369

and still fly on secondly where's the

1419

01:02:07,219 --> 01:02:12,679

engines where's the wiring where's the

1420

01:02:10,369 --> 01:02:15,070

electronics that you would expect to

1421

01:02:12,679 --> 01:02:17,239

find where pieces of a crashed airplane

1422

01:02:15,070 --> 01:02:19,820

they don't they don't exist

1423

01:02:17,239 --> 01:02:22,459

yeah and I would've thought anything

1424

01:02:19,820 --> 01:02:25,400

that could blow something apart over

1425

01:02:22,460 --> 01:02:29,088

five fields I could understand it if you

1426  
01:02:25,400 --> 01:02:31,700  
you know with a small buying some of you

1427  
01:02:29,088 --> 01:02:35,809  
know yeah at the distance but to

1428  
01:02:31,699 --> 01:02:38,299  
actually crush it to a forest and then

1429  
01:02:35,809 --> 01:02:42,980  
it's obviously either exploded by the

1430  
01:02:38,300 --> 01:02:44,660  
way every piece of it is concave all of

1431  
01:02:42,980 --> 01:02:48,829  
it dislike the wonder straight flat

1432  
01:02:44,659 --> 01:02:49,639  
piece and he shows this one curve all

1433  
01:02:48,829 --> 01:02:52,039  
Curtin

1434  
01:02:49,639 --> 01:02:55,219  
but all of it is shattered now I've had

1435  
01:02:52,039 --> 01:02:57,259  
a piece of this and hit with hammer and

1436  
01:02:55,219 --> 01:02:59,509  
stuff like that you can't shatter it is

1437  
01:02:57,260 --> 01:03:02,740  
it does it it doesn't shatter at all oh

1438  
01:02:59,510 --> 01:03:05,720  
this is chat as a metal detector

1439  
01:03:02,739 --> 01:03:09,529  
detective oh yeah yeah the truth pours

1440  
01:03:05,719 --> 01:03:12,559  
over there and listen you know well

1441  
01:03:09,530 --> 01:03:15,170  
people say to me there's no evidence the

1442  
01:03:12,559 --> 01:03:17,358  
everywhere you go you give a talk and I

1443  
01:03:15,170 --> 01:03:20,599  
say yeah but there's no evidence you

1444  
01:03:17,358 --> 01:03:23,420  
know well what is this yeah okay Paris

1445  
01:03:20,599 --> 01:03:25,338  
is what I say I still do not claim and

1446  
01:03:23,420 --> 01:03:27,980  
I've said this to you before I do not

1447  
01:03:25,338 --> 01:03:31,250  
claim that this is an

1448  
01:03:27,980 --> 01:03:33,530  
your craft I can't do that because I've

1449  
01:03:31,250 --> 01:03:35,570  
got nothing to support it except the

1450  
01:03:33,530 --> 01:03:37,700  
fact that it can't be an aeroplane

1451  
01:03:35,570 --> 01:03:40,340  
there's one other thing I haven't told

1452  
01:03:37,699 --> 01:03:43,329  
you about it on the other side of it

1453  
01:03:40,340 --> 01:03:46,519  
there's like a green colored paint and

1454

01:03:43,329 --> 01:03:48,980  
the aerospace experts said he definitely

1455  
01:03:46,519 --> 01:03:54,139  
can't be often aeroplane Merced white is

1456  
01:03:48,980 --> 01:03:56,809  
because the paint is not aerodynamic now

1457  
01:03:54,139 --> 01:03:58,940  
I didn't know yard well if they're a

1458  
01:03:56,809 --> 01:04:00,889  
dynamic paint but apparently this is a

1459  
01:03:58,940 --> 01:04:04,159  
drug but if you painted an aeroplane

1460  
01:04:00,889 --> 01:04:06,139  
with that apparently it won't fly good

1461  
01:04:04,159 --> 01:04:08,569  
not only that but I'm gonna tell you

1462  
01:04:06,139 --> 01:04:10,759  
what that what the experts told me what

1463  
01:04:08,570 --> 01:04:12,230  
surprised me but there's a price not

1464  
01:04:10,760 --> 01:04:14,540  
only that's not the honeycomb pattern of

1465  
01:04:12,230 --> 01:04:17,480  
it doesn't look very aerodynamic but you

1466  
01:04:14,539 --> 01:04:19,489  
would create drag friction yeah I don't

1467  
01:04:17,480 --> 01:04:20,990  
think that's the outside part of it you

1468  
01:04:19,489 --> 01:04:23,239

don't know no I think that the other

1469

01:04:20,989 --> 01:04:26,599

side is the outside part I have this

1470

01:04:23,239 --> 01:04:27,909

sandwich yeah which is on this little

1471

01:04:26,599 --> 01:04:32,569

slings on the outside

1472

01:04:27,909 --> 01:04:34,699

no that's the the honeycomb which was on

1473

01:04:32,570 --> 01:04:36,109

top of here oh right

1474

01:04:34,699 --> 01:04:37,639

and then there's other piece of melon

1475

01:04:36,108 --> 01:04:39,650

layer on top yeah there's another piece

1476

01:04:37,639 --> 01:04:41,118

of metal on the top of that you can see

1477

01:04:39,650 --> 01:04:43,730

the honeycomb so it was somewhat

1478

01:04:41,119 --> 01:04:46,519

sandwiched between two pieces of metal

1479

01:04:43,730 --> 01:04:49,880

given its enormous strength but more

1480

01:04:46,519 --> 01:04:52,460

light as a feather but not strong enough

1481

01:04:49,880 --> 01:04:54,170

to with some hitting a lot of profit

1482

01:04:52,460 --> 01:05:00,679

reason I'm not sure that the it in the

1483  
01:04:54,170 --> 01:05:03,050  
trees broke the the craft right I'm

1484  
01:05:00,679 --> 01:05:06,169  
pretty sure that it caused an explosion

1485  
01:05:03,050 --> 01:05:08,600  
or an implosion I don't know which when

1486  
01:05:06,170 --> 01:05:12,019  
they take the trees I think that the

1487  
01:05:08,599 --> 01:05:13,519  
pressure - inside the vessel or the

1488  
01:05:12,019 --> 01:05:16,550  
outside pressure you know whether the

1489  
01:05:13,519 --> 01:05:18,650  
lack of of course the the disintegration

1490  
01:05:16,550 --> 01:05:20,359  
I don't believe that it in the trees

1491  
01:05:18,650 --> 01:05:23,900  
brought this stuff up because you can't

1492  
01:05:20,358 --> 01:05:25,340  
break it up with AMA so I think that

1493  
01:05:23,900 --> 01:05:28,789  
what happened is it I think it struck

1494  
01:05:25,340 --> 01:05:32,240  
the trees and perhaps caused the an air

1495  
01:05:28,789 --> 01:05:36,230  
leak or you know something took to the

1496  
01:05:32,239 --> 01:05:38,839  
structure of it which then allowed to

1497  
01:05:36,230 --> 01:05:42,139  
the air light to escape all in

1498  
01:05:38,840 --> 01:05:44,360  
I used to do repair toes I'm into

1499  
01:05:42,139 --> 01:05:45,949  
electronics and things and if you picked

1500  
01:05:44,360 --> 01:05:47,900  
a television to know the television

1501  
01:05:45,949 --> 01:05:50,809  
tubes that used to be if you pick one up

1502  
01:05:47,900 --> 01:05:54,460  
by the neck right handed it could snap

1503  
01:05:50,809 --> 01:05:57,079  
it's okay if it's a bloody body

1504  
01:05:54,460 --> 01:05:59,240  
the glass was immediately it comes as a

1505  
01:05:57,079 --> 01:06:01,069  
vacuum oh well I believe I entered and

1506  
01:05:59,239 --> 01:06:03,799  
it will suck stick to your lungs and so

1507  
01:06:01,070 --> 01:06:05,990  
called opieop on really dangers you

1508  
01:06:03,800 --> 01:06:07,880  
start to tap on all the zeros and that

1509  
01:06:05,989 --> 01:06:10,429  
the air but it takes five it's five

1510  
01:06:07,880 --> 01:06:13,130  
minutes for the air Shh

1511

01:06:10,429 --> 01:06:14,539  
for the air to go in and I think what's

1512  
01:06:13,130 --> 01:06:17,660  
happened dear either they were on the

1513  
01:06:14,539 --> 01:06:19,849  
high pressure inside you know and that

1514  
01:06:17,659 --> 01:06:21,949
