3
00:00:55,630 --> 00:01:00,440

another short break and then David

8
00:01:06,680 --> 00:01:13,160
Audrey and I'll finish off the afternoon

9
00:01:08,930 --> 00:01:16,910
Brussels now David served 10 years in

10
00:01:13,159 --> 00:01:20,750
the RAF as a photographer from 1955 to

11
00:01:16,909 --> 00:01:24,459
1965 enjoying interest in Cold War times

12
00:01:20,750 --> 00:01:27,079
and served in the UK Cyprus and Germany

13
00:01:24,459 --> 00:01:29,349
now during his last 18 months of service

14
00:01:27,079 --> 00:01:33,289
he became involved in n DT which is

15
00:01:29,349 --> 00:01:35,209
non-destructive testing and in 1966 he

16
00:01:33,290 --> 00:01:37,310
jiong engineer in a search to partner

17
00:01:35,209 --> 00:01:39,799
talk--i Sidley aviation at Manchester

18
00:01:37,310 --> 00:01:44,990
was later became British Aerospace and

19
00:01:39,799 --> 00:01:46,969
BAE Systems threat by 1970 being

20
00:01:44,989 --> 00:01:48,799
promoted to the head of MDT in the

21
00:01:46,969 --> 00:01:52,609
design department laboratories at work

22
00:01:48,799 --> 00:01:54,140
so now after 27 years service David's

23
00:01:52,609 --> 00:01:58,189
have been early retirement package in

24
00:01:54,140 --> 00:02:00,769
January 1993 possibly and in October

25
00:01:58,189 --> 00:02:03,200
that year he became a UFO investigator

26
00:02:00,769 --> 00:02:05,239
for quest international reporting 2x

27
00:02:03,200 --> 00:02:08,840
please sergeant Toni Dodd who you may

28
00:02:05,239 --> 00:02:11,719
know and director Graham birds'll in

29

00:02:08,840 --> 00:02:13,759
1994 joined the center for crop circle

30
00:02:11,719 --> 00:02:16,340
studies and spent approximately 12 years

31
00:02:13,759 --> 00:02:21,469
research in the crop circles mainly in

32
00:02:16,340 --> 00:02:23,120
the Wiltshire area then in 1997 Lee

33
00:02:21,469 --> 00:02:25,789
decided that investigating the problem

34
00:02:23,120 --> 00:02:27,770
of unusual animal deaths and mutilations

35
00:02:25,789 --> 00:02:29,299
might produce more positive evidence

36
00:02:27,770 --> 00:02:31,250
that our planet has been regularly

37
00:02:29,300 --> 00:02:33,430
visited by advanced beings from other

38
00:02:31,250 --> 00:02:33,430
planets

39
00:02:33,789 --> 00:02:40,969
David teamed up with Phil Hoyle in 2001

40
00:02:37,969 --> 00:02:44,180
and formed the animal pathology field

41
00:02:40,969 --> 00:02:46,219
unit the APM view has since given

42
00:02:44,180 --> 00:02:49,760
numerous radio and television interviews

43
00:02:46,219 --> 00:02:53,180

on the subject of UFOs crop circles and

44

00:02:49,759 --> 00:02:56,479

animal mutilation he's taken part in

45

00:02:53,180 --> 00:02:57,150

live TV studio debates and contributed

46

00:02:56,479 --> 00:02:59,399

to several

47

00:02:57,150 --> 00:03:01,890

television documentaries include some

48

00:02:59,400 --> 00:03:05,700

with rickety Hall you'd be familiar with

49

00:03:01,889 --> 00:03:07,018

the rich planet television now the very

50

00:03:05,699 --> 00:03:10,408

day we will be addressing you on the

51

00:03:07,019 --> 00:03:12,900

subject of juggled Bank UFO events so

52

00:03:10,408 --> 00:03:23,180

please give a welcome to mr. J micatin

53

00:03:12,900 --> 00:03:27,750

thank you thank you for your patience

54

00:03:23,180 --> 00:03:31,950

so this images are boring to look at in

55

00:03:27,750 --> 00:03:34,729

2015 Lester Richard I love this pic

56

00:03:31,949 --> 00:03:42,000

these pictures we take my horse open

57

00:03:34,729 --> 00:03:47,128

okay relax was the same sinfulness so we

58
00:03:42,000 --> 00:03:52,579
go to sunny San first of all you can see

59
00:03:47,128 --> 00:03:55,798
from the back but I was there in 1957

60
00:03:52,579 --> 00:03:58,469
264 want to turn our view at all and we

61
00:03:55,799 --> 00:04:03,169
were based in those called fiscal beat

62
00:03:58,469 --> 00:04:06,989
which is there the airfield is about the

63
00:04:03,169 --> 00:04:09,870
material energy doctor's note up in the

64
00:04:06,989 --> 00:04:12,959
mountains and the trigger a Mount

65
00:04:09,870 --> 00:04:20,810
Olympus it's about six and a half

66
00:04:12,959 --> 00:04:20,810
thousand feet and hind sight of them ok

67
00:04:21,709 --> 00:04:28,649
actually had the pleasure of going back

68
00:04:24,389 --> 00:04:30,509
to Cyprus 2015 or middle daughter won a

69
00:04:28,649 --> 00:04:33,448
competition is a wedding very

70
00:04:30,509 --> 00:04:35,399
Manchester's for than 4,000 years to

71
00:04:33,449 --> 00:04:38,340
have a wedding in Cyprus which was in

72
00:04:35,399 --> 00:04:42,870
Popoff's which is delightful so we drove

73
00:04:38,339 --> 00:04:45,899
past the base which is army and all

74
00:04:42,870 --> 00:04:48,259
services it's not just Aria and it's all

75
00:04:45,899 --> 00:04:48,259
right

76
00:04:48,879 --> 00:04:55,310
so I I were to say article Jarek Middle

77
00:04:53,870 --> 00:04:57,470
East which is the joint air

78
00:04:55,310 --> 00:04:59,959
reconnaissance and tones and sounds

79
00:04:57,470 --> 00:05:02,320
where he ground isn't it and we were

80
00:04:59,959 --> 00:05:10,310
pissed if it was all a bit harsh gosh

81
00:05:02,319 --> 00:05:13,668
this was the Jarek army insignia I had

82
00:05:10,310 --> 00:05:15,530
all sorts of roles because in those days

83
00:05:13,668 --> 00:05:18,740
in sort of trouble with the yoga

84
00:05:15,529 --> 00:05:22,219
terrorists with the Greek government

85
00:05:18,740 --> 00:05:25,250
trying to play over Cyprus wanted us out

86

00:05:22,220 --> 00:05:27,650
and there's lots of resistance to that

87
00:05:25,250 --> 00:05:30,560
and the British government said well

88
00:05:27,649 --> 00:05:33,948
okay maybe two or three years and groups

89
00:05:30,560 --> 00:05:38,720
and now we want it like yesterday so

90
00:05:33,949 --> 00:05:41,360
that caused upset and set up great

91
00:05:38,720 --> 00:05:46,849
organizations called enosis which means

92
00:05:41,360 --> 00:05:49,160
you mean you know with Cyprus and this

93
00:05:46,848 --> 00:05:52,069
terrorist organization was born called

94
00:05:49,160 --> 00:05:54,860
the yoga and the leader was entitled

95
00:05:52,069 --> 00:05:57,500
General Grievous that we remember also

96
00:05:54,860 --> 00:06:01,490
about this sort of thing and Archbishop

97
00:05:57,500 --> 00:06:06,279
arias although it was first in our head

98
00:06:01,490 --> 00:06:09,319
he was a such a big supporter of yoga

99
00:06:06,279 --> 00:06:12,559
also a lot of cold war problems going on

100
00:06:09,319 --> 00:06:15,408

and at that time so we involve us a bit

101

00:06:12,560 --> 00:06:20,360

and typical Middle East like Lebanon

102

00:06:15,408 --> 00:06:24,079

Jordan other areas in the Middle East

103

00:06:20,360 --> 00:06:27,408

were in turmoil so a lots of varied and

104

00:06:24,079 --> 00:06:31,639

stuff going on and simple aerial picture

105

00:06:27,408 --> 00:06:34,370

to be taken and then maybe we're making

106

00:06:31,639 --> 00:06:36,590

big prints enlargements to pass to the

107

00:06:34,370 --> 00:06:38,810

army and run the ground trying to help

108

00:06:36,589 --> 00:06:41,179

them locate where the Hellcats areas

109

00:06:38,810 --> 00:06:43,459

were so it's quite a varied thing

110

00:06:41,180 --> 00:06:45,978

there was a few problems on the count

111

00:06:43,459 --> 00:06:47,989

neither the situating explosives onto

112

00:06:45,978 --> 00:06:49,199

the base of blowing up a building they

113

00:06:47,990 --> 00:06:52,650

were building I'm sorry

114

00:06:49,199 --> 00:06:56,399

yes and then it blew down on overnight

115
00:06:52,649 --> 00:06:59,459
because the uses acids or fuses which

116
00:06:56,399 --> 00:07:01,199
took times in closing and then they came

117
00:06:59,459 --> 00:07:04,620
back next day and build it all back up

118
00:07:01,199 --> 00:07:07,740
again fun we all look very humorous but

119
00:07:04,620 --> 00:07:11,009
since prices so the curfews on times

120
00:07:07,740 --> 00:07:14,699
when you can't get about this is the

121
00:07:11,009 --> 00:07:19,920
year air isn't of Google image and the

122
00:07:14,699 --> 00:07:23,670
book sorry this area here is where our

123
00:07:19,920 --> 00:07:24,840
unit was the results of trailers and

124
00:07:23,670 --> 00:07:28,199
listen Hudson

125
00:07:24,839 --> 00:07:29,699
this was our living block their block 10

126
00:07:28,199 --> 00:07:32,569
which is has been demolished and see

127
00:07:29,699 --> 00:07:37,409
from this aerial pitches and then Jake

128
00:07:32,569 --> 00:07:39,120
move to brand new building there which

129

00:07:37,410 --> 00:07:44,400

is it's called janitor thing didn't

130

00:07:39,120 --> 00:07:46,590

Latin now on top of clued us is this

131

00:07:44,399 --> 00:07:48,870

radar station which is fairly more

132

00:07:46,589 --> 00:07:51,029

recent picture which is still in

133

00:07:48,870 --> 00:07:54,509

operation it's an important strategic

134

00:07:51,029 --> 00:07:59,839

place and eastern Mediterranean which is

135

00:07:54,509 --> 00:07:59,839

why mr. keen to keep our presence though

136

00:08:02,420 --> 00:08:08,300

now then I'm leaning onto a UFO event

137

00:08:05,879 --> 00:08:13,829

which was detected by the radar on

138

00:08:08,300 --> 00:08:16,680

Troodos and a chap in here very Porter

139

00:08:13,829 --> 00:08:20,009

unfortunately now is deceased partl

140

00:08:16,680 --> 00:08:26,420

seconds God when workshops and years ago

141

00:08:20,009 --> 00:08:29,039

and funding in time so that was between

142

00:08:26,420 --> 00:08:33,840

problems we gothic and we had a vehicle

143

00:08:29,040 --> 00:08:35,729
all around the island the Panhandle it's

144
00:08:33,840 --> 00:08:42,269
up here you can recognize things due to

145
00:08:35,729 --> 00:08:45,810
the years bollocks a 16-wheeler cameras

146
00:08:42,269 --> 00:08:49,970
and so on so it varies of main witness

147
00:08:45,809 --> 00:08:53,729
one bar to tell you so he was up on duty

148
00:08:49,970 --> 00:08:54,800
the shortest into about three weeks as I

149
00:08:53,730 --> 00:08:57,509
remember

150
00:08:54,799 --> 00:08:59,490
cameras ready to photograph the radar

151
00:08:57,509 --> 00:09:02,819
screens when required

152
00:08:59,490 --> 00:09:04,940
at the same time were made on fault with

153
00:09:02,820 --> 00:09:08,399
developing and playing around the new

154
00:09:04,940 --> 00:09:12,510
secret over-the-horizon radar looking

155
00:09:08,399 --> 00:09:17,490
cross territory towards Russia detect

156
00:09:12,509 --> 00:09:21,389
any incoming Soviet threat so bury her

157
00:09:17,490 --> 00:09:26,580

this or the date was an 18th of August

158

00:09:21,389 --> 00:09:28,860

I'm sorry the 18th well late August 1958

159

00:09:26,580 --> 00:09:31,528

and he had all this commotion in the

160

00:09:28,860 --> 00:09:33,959

radar room assumed he was going to be

161

00:09:31,528 --> 00:09:36,149

crying together this camera tripod went

162

00:09:33,958 --> 00:09:39,389

in and listening to the air traffic

163

00:09:36,149 --> 00:09:46,259

controllers talking to colleagues in

164

00:09:39,389 --> 00:09:49,740

other places like Malta and Libya and

165

00:09:46,259 --> 00:09:52,700

well the places was Al Ahram which is 16

166

00:09:49,740 --> 00:09:58,860

miles from Tobruk so that this object

167

00:09:52,700 --> 00:10:03,839

came up and then people something came

168

00:09:58,860 --> 00:10:07,680

up from Egypt of the Med via so allow

169

00:10:03,839 --> 00:10:10,260

them to you all to appear so it's

170

00:10:07,679 --> 00:10:15,528

amazing that the radars they had could

171

00:10:10,259 --> 00:10:19,139

pick this thing up even Malta and Libya

172
00:10:15,528 --> 00:10:20,610
anyway so the radio operators Safari

173
00:10:19,139 --> 00:10:23,549
Sony we're talking to each other and

174
00:10:20,610 --> 00:10:25,830
tracking and monitoring the objects and

175
00:10:23,549 --> 00:10:28,109
it comes to incident it came up off the

176
00:10:25,830 --> 00:10:32,089
west coast of Cyprus in like 8000 miles

177
00:10:28,110 --> 00:10:35,970
an hour the Fed difficult fantasise

178
00:10:32,089 --> 00:10:40,529
targets but they could certainly check

179
00:10:35,970 --> 00:10:41,930
the altitude and speeds anyway did a

180
00:10:40,528 --> 00:10:45,720
sharp

181
00:10:41,929 --> 00:10:48,349
90-degree turn without dropping speed

182
00:10:45,720 --> 00:10:53,430
towards the west coast and sadness and

183
00:10:48,350 --> 00:11:00,509
it's at 38,000 feet and it was decided

184
00:10:53,429 --> 00:11:01,620
to scrambled 200 jets from headquarters

185
00:11:00,509 --> 00:11:05,929
at Nicosia

186
00:11:01,620 --> 00:11:09,240
these are typical within f6 pontus and

187
00:11:05,929 --> 00:11:11,259
as they climbed out the object seemed to

188
00:11:09,240 --> 00:11:13,779
know that

189
00:11:11,259 --> 00:11:16,809
jet approaching and it stopped at

190
00:11:13,779 --> 00:11:20,740
immigrants from the massive speed and

191
00:11:16,809 --> 00:11:24,909
then from 38,000 feet it jumped to

192
00:11:20,740 --> 00:11:27,639
60,000 just a lot quick as that which

193
00:11:24,909 --> 00:11:29,439
was remarkable so the hunters couldn't

194
00:11:27,639 --> 00:11:37,029
get to the altitude anyway in those days

195
00:11:29,440 --> 00:11:38,970
so they went back to base since like six

196
00:11:37,029 --> 00:11:43,179
o'clock in the morning this took place

197
00:11:38,970 --> 00:11:46,450
and Barry said the by 8 o'clock wing

198
00:11:43,179 --> 00:11:49,769
commander rank was quite senior and

199
00:11:46,450 --> 00:11:52,030
driven up the tortuous rows from Nicosia

200

00:11:49,769 --> 00:11:55,980
headquarters probably took him two hours

201
00:11:52,029 --> 00:11:58,870
bears got there and lined everyone up

202
00:11:55,980 --> 00:12:01,930
including Barry and was part of doesn't

203
00:11:58,870 --> 00:12:03,759
capsule and said well you know you've

204
00:12:01,929 --> 00:12:06,609
all signed the Official Secrets Act and

205
00:12:03,759 --> 00:12:08,500
don't talk about this now the Barry told

206
00:12:06,610 --> 00:12:10,990
me about this sometime later because we

207
00:12:08,500 --> 00:12:13,419
quite a few on friends and colleagues

208
00:12:10,990 --> 00:12:18,940
sometimes we kept in touch after we

209
00:12:13,419 --> 00:12:22,360
returned from to the UK so why Barney

210
00:12:18,940 --> 00:12:26,410
bro keys is oath knowing in my interests

211
00:12:22,360 --> 00:12:28,450
so this sort of really sparked me off if

212
00:12:26,409 --> 00:12:36,389
there was some solid military evidence

213
00:12:28,450 --> 00:12:38,940
of contact with et's so I was a platoon

214
00:12:36,389 --> 00:12:41,289

that's the thing that we all had to sign

215

00:12:38,940 --> 00:12:45,100

although this is an updated version in

216

00:12:41,289 --> 00:12:48,360

89 what just showed on the screen and

217

00:12:45,100 --> 00:12:53,980

I'm talking to my Official Secrets Act

218

00:12:48,360 --> 00:13:00,000

all right now at the same time this was

219

00:12:53,980 --> 00:13:03,159

18th of August in 1958 this case became

220

00:13:00,000 --> 00:13:04,419

very significant to me because it was

221

00:13:03,159 --> 00:13:07,779

around the same time could have been the

222

00:13:04,419 --> 00:13:11,459

same day even I don't know this is a

223

00:13:07,779 --> 00:13:11,459

little aerial view lot luta

224

00:13:13,049 --> 00:13:21,669

thirty-eight squadron and the pilots it

225

00:13:18,220 --> 00:13:25,480

involves the squadron leader and he was

226

00:13:21,669 --> 00:13:30,699

in charge and flying in a Shackleton Mr

227

00:13:25,480 --> 00:13:34,450

Marty - and their jobs to fly down

228

00:13:30,700 --> 00:13:37,050

cyclists on the Med and then use the

229
00:13:34,450 --> 00:13:39,670
packet areas of base and then go around

230
00:13:37,049 --> 00:13:42,759
that low-level all around the coast of

231
00:13:39,669 --> 00:13:46,149
Cyprus looking for green gunboats three

232
00:13:42,759 --> 00:13:50,529
arms into supply yoga Terrace so that

233
00:13:46,149 --> 00:13:52,090
was in a job yeah and this is a picture

234
00:13:50,529 --> 00:13:55,470
I took on legend Street and

235
00:13:52,090 --> 00:13:58,450
photographers shop and you've got

236
00:13:55,470 --> 00:14:02,350
something you've got General Grievous

237
00:13:58,450 --> 00:14:05,650
there mock arias and these guys are all

238
00:14:02,350 --> 00:14:09,129
obviously local probably heroes to them

239
00:14:05,649 --> 00:14:12,220
the yoga terrace and that was the main

240
00:14:09,129 --> 00:14:19,120
display in the photographers window -

241
00:14:12,220 --> 00:14:23,320
village interesting so I'll masterful

242
00:14:19,120 --> 00:14:29,070
evening we probably there Gordon

243
00:14:23,320 --> 00:14:33,720
Burgesses name retired as a captain and

244
00:14:29,070 --> 00:14:36,700
he got CBE work with a Frank Whittle

245
00:14:33,720 --> 00:14:42,210
developing the Jets used commissioned

246
00:14:36,700 --> 00:14:48,000
from Cromwell in 1940 went to the war

247
00:14:42,210 --> 00:14:51,639
did all sorts of embassies in Washington

248
00:14:48,000 --> 00:14:56,470
he was also entertainer Russian Air

249
00:14:51,639 --> 00:14:59,379
Force general and in London and very

250
00:14:56,470 --> 00:15:03,300
impactful that mixed career so none of

251
00:14:59,379 --> 00:15:05,860
high integrity and he was giving a talk

252
00:15:03,299 --> 00:15:10,779
and I was kind of up to a group of

253
00:15:05,860 --> 00:15:13,450
people in Staffordshire

254
00:15:10,779 --> 00:15:15,220
so I think things are in scientific

255
00:15:13,450 --> 00:15:17,100
group or something and one of the

256
00:15:15,220 --> 00:15:19,750
persons in the audience

257

00:15:17,100 --> 00:15:22,540
stoppage a youthful group called brain

258
00:15:19,750 --> 00:15:24,250
Alan and he asked him would he give the

259
00:15:22,539 --> 00:15:27,069
talk again in his youth over which he

260
00:15:24,250 --> 00:15:29,379
did he didn't set out to talk about UFO

261
00:15:27,070 --> 00:15:32,560
in experience about to describe

262
00:15:29,379 --> 00:15:35,080
he was totally entirely of career and he

263
00:15:32,559 --> 00:15:37,689
just said well to hell with it eighty on

264
00:15:35,080 --> 00:15:43,750
now I'm going to tell you and I'll make

265
00:15:37,690 --> 00:15:46,149
you Mountaineer so so if they were you

266
00:15:43,750 --> 00:15:49,809
went they went pick up all the ground

267
00:15:46,149 --> 00:15:53,019
crew and were flying back and you've got

268
00:15:49,809 --> 00:15:57,039
to about here the soft Crete sort of two

269
00:15:53,019 --> 00:16:00,759
three in the morning and we had 17

270
00:15:57,039 --> 00:16:03,569
people aboard is aeroplane and this ship

271
00:16:00,759 --> 00:16:08,110

on one of the exams or whatever said

272

00:16:03,570 --> 00:16:11,320

captain muscle tracks that are left on

273

00:16:08,110 --> 00:16:13,300

my port bow showing a red light so they

274

00:16:11,320 --> 00:16:15,070

also must could be an aircraft because

275

00:16:13,299 --> 00:16:20,259

it's on the port walk that's their

276

00:16:15,070 --> 00:16:22,360

starboard wing such a degree then anyway

277

00:16:20,259 --> 00:16:25,028

it was following them tracking them

278

00:16:22,360 --> 00:16:29,789

maintain their hind altitude which was

279

00:16:25,028 --> 00:16:29,789

talking about 2,000 feet at the time and

280

00:16:32,490 --> 00:16:37,450

also I'm just a picture bucket irrigate

281

00:16:35,139 --> 00:16:42,639

so when you're down there so I set off

282

00:16:37,450 --> 00:16:45,278

them this is a Shackleton which is when

283

00:16:42,639 --> 00:16:51,370

a squadron low signals which was the

284

00:16:45,278 --> 00:16:53,559

Coventry air museum at the same time so

285

00:16:51,370 --> 00:16:57,600

I mix this is the close-up Jane where

286
00:16:53,559 --> 00:17:01,689
another must know what he did you've got

287
00:16:57,600 --> 00:17:03,579
he conceded the craft very well from the

288
00:17:01,690 --> 00:17:07,620
engines and winged from the ballot seat

289
00:17:03,578 --> 00:17:10,209
anyway everybody once a time to climb up

290
00:17:07,619 --> 00:17:13,779
the bubble the observation bubble on the

291
00:17:10,209 --> 00:17:17,230
top because he wanted 17 good witnesses

292
00:17:13,779 --> 00:17:18,338
who see what they were seeing and then

293
00:17:17,230 --> 00:17:20,860
he did a very clever

294
00:17:18,338 --> 00:17:21,629
it's a flying they all shock which was

295
00:17:20,859 --> 00:17:26,869
in Japan

296
00:17:21,630 --> 00:17:31,700
Lancaster moment he actually dived it

297
00:17:26,869 --> 00:17:35,279
and then ballistic back insulting it

298
00:17:31,700 --> 00:17:40,470
drops be rapidly and that meant a got

299
00:17:35,279 --> 00:17:42,750
behind the UFO for short time and he

300
00:17:40,470 --> 00:17:46,259
realized it was cylinder shavings as

301
00:17:42,750 --> 00:17:48,450
soon as we being 60 to 70 feet long down

302
00:17:46,259 --> 00:17:50,509
necessarily worried about how this one

303
00:17:48,450 --> 00:17:54,500
red light at the front

304
00:17:50,509 --> 00:17:58,379
so having got behind the the tubular

305
00:17:54,500 --> 00:18:02,369
cylindrical UFO it quickly readjusted

306
00:17:58,380 --> 00:18:05,700
itself back to the four wings and so

307
00:18:02,369 --> 00:18:09,949
then sensor and coded radio signals on

308
00:18:05,700 --> 00:18:14,450
the native networks who in Luca and

309
00:18:09,950 --> 00:18:18,330
decided to scramble some aircraft and

310
00:18:14,450 --> 00:18:20,120
release night in satis called javelin

311
00:18:18,329 --> 00:18:22,529
loss and travel innocent remember that

312
00:18:20,119 --> 00:18:25,009
when it took successful be sentenced in

313
00:18:22,529 --> 00:18:30,269
b15 and incident in the engines

314

00:18:25,009 --> 00:18:32,519
anyway they set off they were 30,000

315
00:18:30,269 --> 00:18:33,990
feet and when they got the short

316
00:18:32,519 --> 00:18:37,049
distance from where you could see

317
00:18:33,990 --> 00:18:38,480
visually the Shackleton that he

318
00:18:37,049 --> 00:18:42,269
confirmed there was another object

319
00:18:38,480 --> 00:18:44,279
alongside the aircraft so they sort of

320
00:18:42,269 --> 00:18:47,730
dug down from thirty thousand it means

321
00:18:44,279 --> 00:18:52,079
I'm going booze and and raised their

322
00:18:47,730 --> 00:18:54,930
aircraft so about 10,000 feet and I felt

323
00:18:52,079 --> 00:18:58,379
after the javelins appear here's the

324
00:18:54,930 --> 00:19:00,660
thing just shot away gone I'm also off

325
00:18:58,380 --> 00:19:02,700
radar and when they got back to base

326
00:19:00,660 --> 00:19:06,000
they all each of them had to write out

327
00:19:02,700 --> 00:19:10,230
in report sort of interview which he

328
00:19:06,000 --> 00:19:12,569

said was passed off to London so I'm not

329

00:19:10,230 --> 00:19:14,190

suggesting necessarily that the object

330

00:19:12,569 --> 00:19:17,159

that they saw all the same thing that

331

00:19:14,190 --> 00:19:21,200

was Andre now and very important one

332

00:19:17,160 --> 00:19:24,240

that was opportunist because I think I

333

00:19:21,200 --> 00:19:27,140

don't know Celinda would be a poorer

334

00:19:24,240 --> 00:19:29,819

reflexive than say a triangle or a disc

335

00:19:27,140 --> 00:19:30,360

but who knows it was roughly the same

336

00:19:29,819 --> 00:19:32,099

time

337

00:19:30,359 --> 00:19:36,798

she thought was interesting that's why

338

00:19:32,099 --> 00:19:36,798

I've included this in my talk today

339

00:19:37,278 --> 00:19:43,619

there might be things of miscibility

340

00:19:40,460 --> 00:19:46,259

anyway if it felt fun just quickly going

341

00:19:43,619 --> 00:19:47,969

through some things that Steve said

342

00:19:46,259 --> 00:19:53,929

about me didn't hope you get a line

343
00:19:47,970 --> 00:19:53,929
formation and when I was the lobbed into

344
00:19:54,500 --> 00:20:04,380
1964-65 company man I went to British

345
00:19:59,069 --> 00:20:06,298
Aerospace in Manchester and renters in

346
00:20:04,380 --> 00:20:09,510
mind need to experience what's the

347
00:20:06,298 --> 00:20:12,480
photographic side and when done from

348
00:20:09,509 --> 00:20:14,548
them and that's a picture taken by the

349
00:20:12,480 --> 00:20:17,849
company photographers and I actually

350
00:20:14,548 --> 00:20:19,888
exposure room on colleagues in creating

351
00:20:17,849 --> 00:20:22,168
a victor in the flat because we

352
00:20:19,888 --> 00:20:27,769
converted the victim bonds the k2

353
00:20:22,169 --> 00:20:27,769
tankers prior to the Falklands War and

354
00:20:28,519 --> 00:20:33,870
it's a picture of a de Graaff of the

355
00:20:31,169 --> 00:20:36,950
ribs and signs used to crack up partners

356
00:20:33,869 --> 00:20:41,459
you to acoustic forty and the onions

357
00:20:36,950 --> 00:20:45,990
so the tubes down here the actual

358
00:20:41,460 --> 00:20:47,788
emitter and then you measuring the

359
00:20:45,990 --> 00:20:51,210
distance to get the exposure time and

360
00:20:47,788 --> 00:20:55,798
Mike plussing the envelope selector I

361
00:20:51,210 --> 00:20:57,269
felt behind it standard stuff this is in

362
00:20:55,798 --> 00:20:59,250
a reveal took from them and applied

363
00:20:57,269 --> 00:21:01,079
Evans and one of the guys in our labs of

364
00:20:59,250 --> 00:21:03,659
Guardian bloody instructor at Woodford

365
00:21:01,079 --> 00:21:06,509
this is from a bar glider because I

366
00:21:03,659 --> 00:21:10,130
wanted to get certain pictures for the

367
00:21:06,509 --> 00:21:12,210
subsidy room in the end the Balkans and

368
00:21:10,130 --> 00:21:16,049
approaching the wrong way so this is a

369
00:21:12,210 --> 00:21:23,159
very sorry capital of Av row a yet valid

370
00:21:16,048 --> 00:21:27,538
in Rome 1920s and many aircraft where I

371

00:21:23,159 --> 00:21:29,610
got this picture because in 1986 the air

372
00:21:27,538 --> 00:21:33,119
forces started to it salable completes

373
00:21:29,609 --> 00:21:36,079
and involves 136 altogether different

374
00:21:33,119 --> 00:21:40,569
march white ones and 180s and tombs

375
00:21:36,079 --> 00:21:46,579
on the paid tribute to the National

376
00:21:40,569 --> 00:21:49,789
place of their birth and did it for its

377
00:21:46,579 --> 00:21:52,339
program flyover formations think very

378
00:21:49,789 --> 00:21:54,950
unusual to see for Vulcans together on

379
00:21:52,339 --> 00:21:59,480
this one down here whose exon 6 also

380
00:21:54,950 --> 00:22:03,940
non-gaap got a jihad I will now have a

381
00:21:59,480 --> 00:22:06,890
very good of Road Historical Museum

382
00:22:03,940 --> 00:22:09,009
which was built in what self a station

383
00:22:06,890 --> 00:22:13,009
which opened about two years ago no

384
00:22:09,009 --> 00:22:16,240
success really inside of it and inside

385
00:22:13,009 --> 00:22:19,849

the development main display area

386

00:22:16,240 --> 00:22:21,920

there's a timeline from all the designs

387

00:22:19,849 --> 00:22:26,709

and products that actually were built in

388

00:22:21,920 --> 00:22:26,710

flown as you walk round to the side

389

00:22:27,039 --> 00:22:32,450

Lancaster in the middle and so on with

390

00:22:30,019 --> 00:22:36,319

the track model normally InDesign number

391

00:22:32,450 --> 00:22:38,870

the years and then right around to the

392

00:22:36,319 --> 00:22:40,849

Nimrods at 2011 when the signage

393

00:22:38,869 --> 00:22:43,059

enclosing factory and the emeraldine

394

00:22:40,849 --> 00:22:45,709

lesson decided to scrap the den rot

395

00:22:43,059 --> 00:22:49,099

Bradley where ablaze we've just made and

396

00:22:45,710 --> 00:22:53,630

my American a wax which were all boy in

397

00:22:49,099 --> 00:22:55,579

7m sevens ridiculous thing nor because

398

00:22:53,630 --> 00:22:57,800

of not only you doing the radar couldn't

399

00:22:55,579 --> 00:22:59,329

successfully produce the rain and answer

400
00:22:57,799 --> 00:23:02,119
to the business so they will do you are

401
00:22:59,329 --> 00:23:06,379
bit annoyed and pull the plugs on it

402
00:23:02,119 --> 00:23:08,389
that was the end of Woodford 603 sparked

403
00:23:06,380 --> 00:23:10,400
outside just been recently painted up

404
00:23:08,390 --> 00:23:12,500
and raised my heart if you're in

405
00:23:10,400 --> 00:23:15,790
Manchester area so well with the visit

406
00:23:12,500 --> 00:23:20,079
so Roger started insulting to the public

407
00:23:15,789 --> 00:23:25,670
as and I clearly retirement packages

408
00:23:20,079 --> 00:23:29,240
earlier and deSario would become a UFO

409
00:23:25,670 --> 00:23:33,289
investigator in 93 and this is Tommy's

410
00:23:29,240 --> 00:23:35,930
odd bottle you know and he was inside

411
00:23:33,289 --> 00:23:38,029
his book he wrote a book well Haley

412
00:23:35,930 --> 00:23:41,799
investigates unfortunately lot many were

413
00:23:38,029 --> 00:23:44,609
published that while he says to get one

414
00:23:41,799 --> 00:23:49,180
Samuel endure to save but Superbook

415
00:23:44,609 --> 00:23:53,559
recommended and then I write involved in

416
00:23:49,180 --> 00:23:56,259
doing reports and articles from Durham

417
00:23:53,559 --> 00:24:00,720
bills and Jennifer magazine laterally as

418
00:23:56,259 --> 00:24:05,140
you see are more mutilations and then

419
00:24:00,720 --> 00:24:07,809
this chap written much studio funnily

420
00:24:05,140 --> 00:24:12,820
enough to do with the recent early early

421
00:24:07,809 --> 00:24:16,899
autopsy because the film that just come

422
00:24:12,819 --> 00:24:18,189
out on the deck documentary m5 along

423
00:24:16,900 --> 00:24:20,590
with all and stuff about cattle

424
00:24:18,190 --> 00:24:23,650
mutilations which is very documentary

425
00:24:20,589 --> 00:24:25,929
and the producer that held it in soul

426
00:24:23,650 --> 00:24:27,700
race until he said you can all now use

427
00:24:25,930 --> 00:24:33,210
the footage that you brought up me very

428

00:24:27,700 --> 00:24:36,850
cost and Tony Fremont and the colleague

429
00:24:33,210 --> 00:24:38,470
were invited by the BBC to view in

430
00:24:36,849 --> 00:24:41,889
footage in increments in the breakfast

431
00:24:38,470 --> 00:24:48,549
studio and for a morning BBC Radio

432
00:24:41,890 --> 00:24:50,040
Manchester and I was a very lucky means

433
00:24:48,549 --> 00:24:52,569
amount thank you to Ray Santilli

434
00:24:50,039 --> 00:25:00,250
endeavour math Tony Fremont

435
00:24:52,569 --> 00:25:02,200
but for that episode and we made the

436
00:25:00,250 --> 00:25:04,960
producers clear that we thought it was a

437
00:25:02,200 --> 00:25:07,059
hoax and so we crossed international and

438
00:25:04,960 --> 00:25:08,350
very versatile Graham couldn't make the

439
00:25:07,059 --> 00:25:10,990
studio because you have some other

440
00:25:08,349 --> 00:25:12,879
engagement and use aware fortieth Mars

441
00:25:10,990 --> 00:25:15,269
leads now need twelve miles down the

442
00:25:12,880 --> 00:25:19,660

road and the studio sources would online

443

00:25:15,269 --> 00:25:22,089

standing in to give the press view on

444

00:25:19,660 --> 00:25:25,050

this but they haven't told the two lady

445

00:25:22,089 --> 00:25:28,959

presenters the producers that I or

446

00:25:25,049 --> 00:25:30,609

ufology were dubious about it they

447

00:25:28,960 --> 00:25:32,440

thought I was going to stand up and say

448

00:25:30,609 --> 00:25:34,659

Eureka here's a smoking gun sort of

449

00:25:32,440 --> 00:25:37,240

thing and then the who this guy will

450

00:25:34,660 --> 00:25:41,550

sauce oppositely on trend table turned

451

00:25:37,240 --> 00:25:43,720

out to be professor Tony Fremont who's a

452

00:25:41,549 --> 00:25:47,329

pathologists at Manchester use it and he

453

00:25:43,720 --> 00:25:51,140

does a lot of crime investigations

454

00:25:47,329 --> 00:25:52,490

I mean bodies of murder victim songs

455

00:25:51,140 --> 00:25:56,930

energy stuff

456

00:25:52,490 --> 00:25:59,059

so after the event which or possibly

457
00:25:56,930 --> 00:26:01,519
flat because they're expecting a ding

458
00:25:59,059 --> 00:26:04,490
dong margin between in this case means

459
00:26:01,519 --> 00:26:07,250
on film about the validity of the alien

460
00:26:04,490 --> 00:26:10,339
autopsy there everyone came out in

461
00:26:07,250 --> 00:26:12,940
studio I said to exchange no to we he

462
00:26:10,339 --> 00:26:15,649
was until I was I said I was a bit

463
00:26:12,940 --> 00:26:19,039
involved in plaintiff I doubt what the

464
00:26:15,650 --> 00:26:21,830
animals mutilation would help and he

465
00:26:19,039 --> 00:26:23,990
said yes I would I'm interested than

466
00:26:21,829 --> 00:26:28,730
that and he's actually meeting an

467
00:26:23,990 --> 00:26:32,240
instant for what Macau mutilation in

468
00:26:28,730 --> 00:26:34,940
Utah with a very anonymous prophesied

469
00:26:32,240 --> 00:26:37,880
disease of an eye of the cattle with it

470
00:26:34,940 --> 00:26:41,480
and they are having optical law orbits

471
00:26:37,880 --> 00:26:43,400
and skin sort of machine chip and out so

472
00:26:41,480 --> 00:26:45,289
he was reading that sort of the picture

473
00:26:43,400 --> 00:26:49,190
in and this was a home in a set up a

474
00:26:45,289 --> 00:26:51,980
home temple II so his novice chap and

475
00:26:49,190 --> 00:26:54,769
what eventually came to my house Tony

476
00:26:51,980 --> 00:26:56,390
dad came down from Washington and the

477
00:26:54,769 --> 00:26:58,339
load of pictures of animals and some

478
00:26:56,390 --> 00:27:05,120
would Linton Moulton Howes book one of

479
00:26:58,339 --> 00:27:07,399
the first books and it was interested

480
00:27:05,119 --> 00:27:10,699
and what what really did set him off one

481
00:27:07,400 --> 00:27:13,400
since assess me because Toni Dodd then

482
00:27:10,700 --> 00:27:15,710
up the brown envelope with the father

483
00:27:13,400 --> 00:27:18,080
six pictures of the human methylation

484
00:27:15,710 --> 00:27:20,180
from Brazil in 1988 which I'm showing

485

00:27:18,079 --> 00:27:25,569
you all the wear off and being

486
00:27:20,180 --> 00:27:31,460
pathologists that really fired him up so

487
00:27:25,569 --> 00:27:33,679
then three years later in 2000 and that

488
00:27:31,460 --> 00:27:36,620
met up with Phil mile isn't Roseberry

489
00:27:33,680 --> 00:27:38,680
who was very much into UFOs and I think

490
00:27:36,619 --> 00:27:42,139
he's being a blood see for many years

491
00:27:38,680 --> 00:27:42,940
mine is a little group and support group

492
00:27:42,140 --> 00:27:46,030
for people

493
00:27:42,940 --> 00:27:49,080
being inducted and he was interested in

494
00:27:46,029 --> 00:27:51,430
animals so we formed a group called

495
00:27:49,079 --> 00:27:54,220
animal pathology failure which was

496
00:27:51,430 --> 00:27:56,100
Phil's idea this time to be abandoned by

497
00:27:54,220 --> 00:27:59,380
various things inside that was good and

498
00:27:56,099 --> 00:28:01,539
we thought it was legit to say pathology

499
00:27:59,380 --> 00:28:02,160

because we had a professional pathology

500

00:28:01,539 --> 00:28:05,889
on board

501

00:28:02,160 --> 00:28:09,670
so since incidentally he has been warned

502

00:28:05,890 --> 00:28:12,370
off as we expected and told the thing to

503

00:28:09,670 --> 00:28:14,410
back off and not sis us anymore which is

504

00:28:12,369 --> 00:28:17,289
another clue as why I want to fill this

505

00:28:14,410 --> 00:28:20,200
up so even though he was a senior

506

00:28:17,289 --> 00:28:23,529
professor at much as uni and he wasn't

507

00:28:20,200 --> 00:28:26,140
worried about his peers giving him any

508

00:28:23,529 --> 00:28:28,210
grief for what he was doing - not me I

509

00:28:26,140 --> 00:28:30,490
mean I took a very sheet bodies and so

510

00:28:28,210 --> 00:28:31,360
on to look at using all that

511

00:28:30,490 --> 00:28:35,740
formaldehydes

512

00:28:31,359 --> 00:28:40,689
of on day four six lamp bodies but it

513

00:28:35,740 --> 00:28:44,170
went professor of pathology in Liverpool

514
00:28:40,690 --> 00:28:46,420
I went to see from a couple of hours he

515
00:28:44,170 --> 00:28:49,180
was friendly with a death row head of

516
00:28:46,420 --> 00:28:52,120
the labs in Gallatin Horn in Preston and

517
00:28:49,180 --> 00:28:55,090
yoga she tipped off him and lets me when

518
00:28:52,119 --> 00:28:59,979
it was only done and Fremont gets called

519
00:28:55,089 --> 00:29:03,189
said back off so this goes on one did

520
00:28:59,980 --> 00:29:04,990
have a website that we just forces so

521
00:29:03,190 --> 00:29:09,910
that we don't with a new Glee only too

522
00:29:04,990 --> 00:29:12,240
sensitive so I got a writer for coming

523
00:29:09,910 --> 00:29:15,700
up from far as watching preface and

524
00:29:12,240 --> 00:29:19,259
calling it silent killers and this is a

525
00:29:15,700 --> 00:29:26,670
case in just off the Bristol Channel on

526
00:29:19,259 --> 00:29:31,299
wealth side near a place called lignin

527
00:29:26,670 --> 00:29:33,190
photo pond sheep attacked and we went

528
00:29:31,299 --> 00:29:35,950
down there so glad before the farmer

529
00:29:33,190 --> 00:29:38,860
disposals and a veterinary lady came up

530
00:29:35,950 --> 00:29:42,009
to take one of the bodies of two heads

531
00:29:38,859 --> 00:29:44,248
two extra agencies or the police or guns

532
00:29:42,009 --> 00:29:48,069
have you used to kill them but

533
00:29:44,249 --> 00:29:53,440
so I'm missing round the time for

534
00:29:48,069 --> 00:29:54,999
example anyway yeah alien uses Richard

535
00:29:53,440 --> 00:29:58,240
whole society when you want to this

536
00:29:54,999 --> 00:30:00,999
first documentary you did on subject to

537
00:29:58,240 --> 00:30:03,638
your phones as with me about the animals

538
00:30:00,999 --> 00:30:08,259
which really got really interested so we

539
00:30:03,638 --> 00:30:10,028
decided to call it silent killers so so

540
00:30:08,259 --> 00:30:12,128
much what we're very fortunate is people

541
00:30:10,028 --> 00:30:15,999
aren't riches around who will do things

542

00:30:12,128 --> 00:30:19,209
that mainstream media will touch and all

543
00:30:15,999 --> 00:30:21,808
sorts of topics as you know and this is

544
00:30:19,210 --> 00:30:25,480
in filming the lady roams our horse and

545
00:30:21,808 --> 00:30:27,730
Claire what's her name is crusher was

546
00:30:25,480 --> 00:30:32,230
with authorities that we still haven't

547
00:30:27,730 --> 00:30:34,509
got the autopsy report because the RSPCA

548
00:30:32,230 --> 00:30:37,179
le you know an organization it's

549
00:30:34,509 --> 00:30:41,440
voluntary lives on voluntary people

550
00:30:37,179 --> 00:30:43,179
donating blocking the release and the

551
00:30:41,440 --> 00:30:45,690
information on the post-mortem which

552
00:30:43,179 --> 00:30:48,129
they claim to pay for as I believe

553
00:30:45,690 --> 00:30:52,210
general day or death row sorry

554
00:30:48,128 --> 00:30:54,099
probably paid a RSPCA which is a quite

555
00:30:52,210 --> 00:30:56,440
expensive expression this is two horses

556
00:30:54,099 --> 00:30:58,689

actions two cases so we're talking lots

557

00:30:56,440 --> 00:31:01,570

of money and I don't think the public

558

00:30:58,690 --> 00:31:04,690

were very happy or the RSPCA hierarchy

559

00:31:01,569 --> 00:31:08,980

if they knew that they'd laid out so

560

00:31:04,690 --> 00:31:09,788

much of your lungi on having two horses

561

00:31:08,980 --> 00:31:12,159

postmortem

562

00:31:09,788 --> 00:31:16,269

which would be attacked by aliens and

563

00:31:12,159 --> 00:31:19,119

will download it so in some of the RSP

564

00:31:16,269 --> 00:31:22,919

offerors operatives have got dual roles

565

00:31:19,118 --> 00:31:25,868

and this chap is inspector rank

566

00:31:22,919 --> 00:31:29,649

obviously knew what was watts and was

567

00:31:25,868 --> 00:31:31,028

making damn sure that you know this is

568

00:31:29,648 --> 00:31:33,178

from composite Leon the leak out the

569

00:31:31,028 --> 00:31:37,118

actual factual information from the PM

570

00:31:33,179 --> 00:31:38,950

so despite Claire's adamant and

571
00:31:37,118 --> 00:31:42,099
insistence that all are now I'm going to

572
00:31:38,950 --> 00:31:44,889
get one we try to say to I don't think

573
00:31:42,099 --> 00:31:47,119
you will button we can see where we are

574
00:31:44,888 --> 00:31:51,769
two years on sometime

575
00:31:47,119 --> 00:31:53,929
so this was a glue the horse which is

576
00:31:51,769 --> 00:31:59,900
typical so many the same sort of wounds

577
00:31:53,930 --> 00:32:01,759
and same areas Oh Harry what I think is

578
00:31:59,900 --> 00:32:04,820
my opinion on this

579
00:32:01,759 --> 00:32:08,269
why all this is top secret is not so

580
00:32:04,819 --> 00:32:16,309
much the animals is this the humans and

581
00:32:08,269 --> 00:32:21,109
this poor lady is only 17 the Sandra

582
00:32:16,309 --> 00:32:24,919
parts Benedict for Namath from 2009 so

583
00:32:21,109 --> 00:32:28,669
we were talking just a few years ago so

584
00:32:24,920 --> 00:32:31,850
she's got just like the Carolinas

585
00:32:28,670 --> 00:32:34,250
trepanning and the lip she's got a worm

586
00:32:31,849 --> 00:32:40,059
down here which I imagine the plate legs

587
00:32:34,250 --> 00:32:44,299
from them so it's a bit upsetting book

588
00:32:40,059 --> 00:32:47,269
and then as a young one just noticed

589
00:32:44,299 --> 00:32:50,450
your clot around the teeth and the signs

590
00:32:47,269 --> 00:32:52,129
over here and what the field money and

591
00:32:50,450 --> 00:32:58,069
what a waste from pockets fillings

592
00:32:52,130 --> 00:33:00,140
Eastern European similar jaw cut around

593
00:32:58,069 --> 00:33:02,480
there and the Ali's thing I mean cut

594
00:33:00,140 --> 00:33:06,470
holes in his arms or they take muscles

595
00:33:02,480 --> 00:33:09,079
and so on and so far a few these images

596
00:33:06,470 --> 00:33:14,000
and which riches also has what was not

597
00:33:09,079 --> 00:33:15,980
sort of not sure what to do with them so

598
00:33:14,000 --> 00:33:21,109
some of them come off the dark web you

599

00:33:15,980 --> 00:33:24,890
know that work not by me my reason to

600
00:33:21,109 --> 00:33:26,990
rather than to the art work aerial

601
00:33:24,890 --> 00:33:31,820
involve the crop circles a bit before

602
00:33:26,990 --> 00:33:33,680
that because I decided in 97 having

603
00:33:31,819 --> 00:33:35,779
spent three years as a research on newer

604
00:33:33,680 --> 00:33:38,600
phones taking reports and sending stuff

605
00:33:35,779 --> 00:33:41,299
to quest I thought well I could go on to

606
00:33:38,599 --> 00:33:44,949
the giving upon the cows come home I'm

607
00:33:41,299 --> 00:33:47,569
not going to get any more valid data

608
00:33:44,950 --> 00:33:49,819
people rather believe a person seen

609
00:33:47,569 --> 00:33:52,759
something or not they make a report

610
00:33:49,819 --> 00:33:55,369
it's their opinion the image becomes an

611
00:33:52,759 --> 00:33:57,200
image sums what people say oh it's easy

612
00:33:55,369 --> 00:34:00,879
these two evil technologies

613
00:33:57,200 --> 00:34:11,570

even in Pope's an image so I thought

614

00:34:00,880 --> 00:34:13,760

this chap here on the right and he works

615

00:34:11,570 --> 00:34:16,490

a British Aerospace's well he was a bit

616

00:34:13,760 --> 00:34:19,790

of a boffin actually right up right he

617

00:34:16,489 --> 00:34:23,449

done had been into crop circles in the

618

00:34:19,789 --> 00:34:25,608

early days in the mid eighties when the

619

00:34:23,449 --> 00:34:29,019

autumn gentleman props ins which they

620

00:34:25,608 --> 00:34:33,139

were to start with it all were probably

621

00:34:29,019 --> 00:34:34,969

and he said to me I think you ought to

622

00:34:33,139 --> 00:34:38,780

join the centum crop circle studies

623

00:34:34,969 --> 00:34:41,989

which I did humans and then they kicked

624

00:34:38,780 --> 00:34:44,030

off so Robert on my rank means siding

625

00:34:41,989 --> 00:34:46,158

and I am crichton him and crop circles

626

00:34:44,030 --> 00:34:48,740

and with some reluctance because he was

627

00:34:46,159 --> 00:34:51,889

very skeptical about them even then and

628
00:34:48,739 --> 00:34:56,299
then to some 6,000 mile in went down

629
00:34:51,889 --> 00:34:58,789
spent less time and David Baker you

630
00:34:56,300 --> 00:35:00,560
might be hearing through your group he's

631
00:34:58,789 --> 00:35:02,900
a bit of a wizard with something for you

632
00:35:00,559 --> 00:35:09,170
and doing missing about and reasonable

633
00:35:02,900 --> 00:35:11,630
uses to diagram but you we've got UFO

634
00:35:09,170 --> 00:35:13,159
over Silbury Hill which is still a big

635
00:35:11,630 --> 00:35:15,950
mystery actually they're not really know

636
00:35:13,159 --> 00:35:18,730
who built so real the multiples for it

637
00:35:15,949 --> 00:35:23,269
slides excavations and two occasions I

638
00:35:18,730 --> 00:35:26,659
am and can tell this job to do with

639
00:35:23,269 --> 00:35:32,480
aircraft and the RAF particularly in the

640
00:35:26,659 --> 00:35:35,328
LOD and this American pilot and how to

641
00:35:32,480 --> 00:35:38,240
jump over the UFO what what it don't fly

642
00:35:35,329 --> 00:35:39,019
the media tend to pop things in a

643
00:35:38,239 --> 00:35:43,549
certain way

644
00:35:39,019 --> 00:35:47,210
anyways name is built and tourism major

645
00:35:43,550 --> 00:35:51,260
you reach out as a major 12 years I

646
00:35:47,210 --> 00:35:53,929
think the news of this came to light to

647
00:35:51,260 --> 00:35:56,990
make through infallible Harry Harris and

648
00:35:53,929 --> 00:36:00,909
Harry mean quite a keen apologists and

649
00:35:56,989 --> 00:36:03,629
keen on abduction stuff and then some

650
00:36:00,909 --> 00:36:06,788
doctors who did

651
00:36:03,630 --> 00:36:08,858
not in aggression and Harry have been

652
00:36:06,789 --> 00:36:12,278
services to his particular forte was

653
00:36:08,858 --> 00:36:14,818
conveyancing he was in London on top of

654
00:36:12,278 --> 00:36:17,798
course that had to do to keep the

655
00:36:14,818 --> 00:36:20,679
license up if you like he went into a

656

00:36:17,798 --> 00:36:23,920
steak house to eat one night into the

657
00:36:20,679 --> 00:36:26,348
queue is trade to get the served and the

658
00:36:23,920 --> 00:36:27,818
two American ladies in front of him and

659
00:36:26,349 --> 00:36:30,930
you need to make conversation you said

660
00:36:27,818 --> 00:36:33,219
oh you know you bring the tourist thing

661
00:36:30,929 --> 00:36:35,379
and they said well yesterday a hobbits

662
00:36:33,219 --> 00:36:37,659
my husband is actually in the toilet at

663
00:36:35,380 --> 00:36:39,298
the time and the other one was also

664
00:36:37,659 --> 00:36:42,429
there

665
00:36:39,298 --> 00:36:44,679
you know as a pilot and they've been to

666
00:36:42,429 --> 00:36:46,469
my man stand for a reunion which they

667
00:36:44,679 --> 00:36:50,018
had I think every other year something

668
00:36:46,469 --> 00:36:53,440
somehow even hairy as all people should

669
00:36:50,018 --> 00:36:54,629
do here get to speak to a pilot say I'm

670
00:36:53,440 --> 00:36:59,048

going to see the UFO

671

00:36:54,630 --> 00:37:00,999

so Harry says so no no he puts up Allen

672

00:36:59,048 --> 00:37:03,159

is this in UFO she's rude yes not only

673

00:37:00,998 --> 00:37:06,578

lucky floors she one down apparently

674

00:37:03,159 --> 00:37:10,179

dropped his tray and ended up joining

675

00:37:06,579 --> 00:37:17,670

them and sailed and Emil and found out

676

00:37:10,179 --> 00:37:21,429

the story and then Moulton emailed long

677

00:37:17,670 --> 00:37:25,088

person accounts of the sortie Sir

678

00:37:21,429 --> 00:37:26,798

Harry's address sure half the Harry I

679

00:37:25,088 --> 00:37:27,308

mean Harry he rather have kept it to

680

00:37:26,798 --> 00:37:31,389

himself

681

00:37:27,309 --> 00:37:34,298

Beatles fans regardless of people's

682

00:37:31,389 --> 00:37:36,788

character and good work a lot of

683

00:37:34,298 --> 00:37:38,440

ufologists a bit like people collect

684

00:37:36,789 --> 00:37:41,410

fine art they don't want else to hear

685
00:37:38,440 --> 00:37:43,749
about it in very jealous of anyone else

686
00:37:41,409 --> 00:37:47,259
doing about his case so I eventually

687
00:37:43,748 --> 00:37:51,088
persuaded in the drive work with not

688
00:37:47,259 --> 00:37:54,998
that we carry mum or another I said well

689
00:37:51,088 --> 00:37:56,920
let me compile something report and then

690
00:37:54,998 --> 00:37:59,439
you can guess it if you want more about

691
00:37:56,920 --> 00:38:02,889
so you've read eventually and I'm

692
00:37:59,440 --> 00:38:05,548
speaking to when this is a very cool

693
00:38:02,889 --> 00:38:07,579
picture woman's copies of a supersaver

694
00:38:05,548 --> 00:38:11,599
f-86d and that's

695
00:38:07,579 --> 00:38:13,610
use 26 years older son this is one of

696
00:38:11,599 --> 00:38:17,960
their typical aircraft I see the

697
00:38:13,610 --> 00:38:23,019
markings of 406 screw that the wing down

698
00:38:17,960 --> 00:38:27,440
at Munson's wing of three lights so

699
00:38:23,019 --> 00:38:31,400
hairy or even so no hand is up emailing

700
00:38:27,440 --> 00:38:34,400
and actually phoning Milton and his

701
00:38:31,400 --> 00:38:37,880
co-pilot I saw his wingman because one

702
00:38:34,400 --> 00:38:40,550
QR a stamp I was always to aircraft all

703
00:38:37,880 --> 00:38:42,500
sort of juiced up ready to go and

704
00:38:40,550 --> 00:38:44,600
they're off in two or three minutes when

705
00:38:42,500 --> 00:38:49,820
the control and his name was Dave

706
00:38:44,599 --> 00:38:51,319
Robeson not Robertson Robeson okay so I

707
00:38:49,820 --> 00:38:53,570
spoke to him as well it was in the

708
00:38:51,320 --> 00:38:56,840
retirement home run by Uncle Sam in

709
00:38:53,570 --> 00:38:59,150
America and he was bit reluctant to say

710
00:38:56,840 --> 00:39:01,970
anything because tension they were

711
00:38:59,150 --> 00:39:06,200
providing his home and Fletcher this is

712
00:39:01,969 --> 00:39:09,259
always a problem anyway the thing is

713

00:39:06,199 --> 00:39:13,039
that some discrepancy about the date the

714
00:39:09,260 --> 00:39:18,020
set of the time of the 20th of May 1957

715
00:39:13,039 --> 00:39:20,269
and ordered off from Manston because at

716
00:39:18,019 --> 00:39:22,369
the time they were covering the

717
00:39:20,269 --> 00:39:24,800
metropolitan set so he called it met

718
00:39:22,369 --> 00:39:27,440
sector and soul England and the Air

719
00:39:24,800 --> 00:39:29,660
Force had the regions of the UK killed

720
00:39:27,440 --> 00:39:31,970
in four separate bits and you should

721
00:39:29,659 --> 00:39:37,129
take interns for different squadrons and

722
00:39:31,969 --> 00:39:40,069
Catherine well the f-86d was the fastest

723
00:39:37,130 --> 00:39:45,619
aircraft around a time and put your

724
00:39:40,070 --> 00:39:50,300
fastening RF venoms to get to an enemy

725
00:39:45,619 --> 00:39:54,289
in pursuing Soviet intrusion and because

726
00:39:50,300 --> 00:39:57,380
in the things seen in Suffolk and we'll

727
00:39:54,289 --> 00:40:01,340

watching the thing on this is in Ranson

728

00:39:57,380 --> 00:40:03,710

in emblem and then on radar for quite a

729

00:40:01,340 --> 00:40:05,690

long time before the scramble the Jets

730

00:40:03,710 --> 00:40:08,920

and it was hovering over a hip switch

731

00:40:05,690 --> 00:40:10,809

and nearby its which stationary

732

00:40:08,920 --> 00:40:14,490

making funny maneuvers up and down

733

00:40:10,809 --> 00:40:17,259

stopping doing the typical UFO thing and

734

00:40:14,489 --> 00:40:21,519

eventually as a scramble that the object

735

00:40:17,260 --> 00:40:29,410

started to moved the tropes into the

736

00:40:21,519 --> 00:40:31,599

North Sea and the hiss GCI Orson's

737

00:40:29,409 --> 00:40:36,069

ground-controlled instructions came from

738

00:40:31,599 --> 00:40:38,400

this place Volare aboard see you can see

739

00:40:36,070 --> 00:40:43,330

on the distance but you've got

740

00:40:38,400 --> 00:40:45,550

exceptional air the river demon and

741

00:40:43,329 --> 00:40:49,059

boards the hill was the oldest radar

742
00:40:45,550 --> 00:40:52,769
stations ever take a major role in world

743
00:40:49,059 --> 00:40:56,409
war ii and it's interesting you've got

744
00:40:52,769 --> 00:40:59,829
rendition and got Bentwaters would be

745
00:40:56,409 --> 00:41:04,719
close by so this object is firmly moved

746
00:40:59,829 --> 00:41:08,500
across so when the gods was awarded to a

747
00:41:04,719 --> 00:41:10,750
vector of a height of 32,000 feet and

748
00:41:08,500 --> 00:41:11,469
they had to write and think about the

749
00:41:10,750 --> 00:41:14,650
Super Saver

750
00:41:11,469 --> 00:41:19,299
that quarter for the time sophisticated

751
00:41:14,650 --> 00:41:23,139
computerized radar top weapon lock-on

752
00:41:19,300 --> 00:41:29,769
system which was possibly cruel in

753
00:41:23,139 --> 00:41:35,440
London husband words and he approached

754
00:41:29,769 --> 00:41:39,579
and this target which she sounds huge

755
00:41:35,440 --> 00:41:43,000
like a bunch of sighs she said they have

756
00:41:39,579 --> 00:41:44,799
never seen such a large the holy

757
00:41:43,000 --> 00:41:47,980
students are building a hole in my scope

758
00:41:44,800 --> 00:41:50,230
the the spots reflection from his

759
00:41:47,980 --> 00:41:52,630
onboard radar you didn't need any more

760
00:41:50,230 --> 00:41:54,340
ground control approach because he

761
00:41:52,630 --> 00:41:55,990
couldn't see it because it was in the

762
00:41:54,340 --> 00:41:59,200
suit because he filled engines getting

763
00:41:55,989 --> 00:42:01,989
dark it was misty cloud so he never had

764
00:41:59,199 --> 00:42:05,859
it's important notice he didn't have a

765
00:42:01,989 --> 00:42:07,379
visual contact to say what things like

766
00:42:05,860 --> 00:42:13,470
looking like this

767
00:42:07,380 --> 00:42:16,110
triangle disk or whatever so anyway I

768
00:42:13,469 --> 00:42:18,239
decided to file a Freedom of Information

769
00:42:16,110 --> 00:42:20,890
requests on this case

770

00:42:18,239 --> 00:42:22,569
I'm not thought up and pass around the

771
00:42:20,889 --> 00:42:23,170
houses as Harry Harris had done

772
00:42:22,570 --> 00:42:27,539
previously

773
00:42:23,170 --> 00:42:32,409
he badges the NLD and ghastrly when they

774
00:42:27,539 --> 00:42:35,320
david clark referring people to release

775
00:42:32,409 --> 00:42:37,839
patches and documents and their md was

776
00:42:35,320 --> 00:42:41,769
very little about this case with some of

777
00:42:37,840 --> 00:42:44,110
the documents were internal memos one of

778
00:42:41,769 --> 00:42:47,170
them's from one senior person to another

779
00:42:44,110 --> 00:42:48,910
lots of scribble on the side making

780
00:42:47,170 --> 00:42:51,639
reference to this nuisance of a man

781
00:42:48,909 --> 00:42:53,589
called Harry Harris kept paddling them

782
00:42:51,639 --> 00:42:56,079
for inflammation so they fought him off

783
00:42:53,590 --> 00:42:59,289
to America because it was a mountain

784
00:42:56,079 --> 00:43:01,480

scrubland so Harry contacts in the

785

00:42:59,289 --> 00:43:05,139

States and they said they had no record

786

00:43:01,480 --> 00:43:07,389

continue so I thought well the important

787

00:43:05,139 --> 00:43:10,480

thing here is who is given the order to

788

00:43:07,389 --> 00:43:12,429

fire that's the crucial thing so I'm

789

00:43:10,480 --> 00:43:15,190

sort of worked out wouldn't be somebody

790

00:43:12,429 --> 00:43:15,879

at the GCR stationed aboard see must be

791

00:43:15,190 --> 00:43:26,889

so nonce

792

00:43:15,880 --> 00:43:29,380

so one for for singles in again so this

793

00:43:26,889 --> 00:43:32,409

is an aerial view boss well lookee here

794

00:43:29,380 --> 00:43:37,150

because as a fellow out living stop for

795

00:43:32,409 --> 00:43:39,029

water runs secret bases calm and here

796

00:43:37,150 --> 00:43:42,250

the power who flew private aircraft

797

00:43:39,030 --> 00:43:44,050

around the southern England area and I

798

00:43:42,250 --> 00:43:46,199

said I want some areas though oblique

799
00:43:44,050 --> 00:43:49,260
you know we have to blow bleep pitches

800
00:43:46,199 --> 00:43:51,909
board so in the coast so this bloke

801
00:43:49,260 --> 00:43:55,780
flows out right along with it ones and

802
00:43:51,909 --> 00:43:56,559
total pitches from from them and said

803
00:43:55,780 --> 00:43:59,920
the moment

804
00:43:56,559 --> 00:44:03,099
Martinson this is the manner so the

805
00:43:59,920 --> 00:44:05,289
officers used to stay here this building

806
00:44:03,099 --> 00:44:05,679
is the actual crux of it which is still

807
00:44:05,289 --> 00:44:07,880
there

808
00:44:05,679 --> 00:44:11,989
it's an amusing and it's

809
00:44:07,880 --> 00:44:16,568
used by as a rescue these days he used

810
00:44:11,989 --> 00:44:19,518
to have missiles in here in the sixties

811
00:44:16,568 --> 00:44:23,298
so this is the this is a building

812
00:44:19,518 --> 00:44:25,008
operation here this is looking sign

813
00:44:23,298 --> 00:44:30,500
talking about the museum is only home

814
00:44:25,009 --> 00:44:38,568
said Warren this is reputed to be a

815
00:44:30,500 --> 00:44:44,900
picture actually inside when it was this

816
00:44:38,568 --> 00:44:47,298
was in RAF Nietzsche said in Norfolk so

817
00:44:44,900 --> 00:44:50,539
this would be one of the radar sites in

818
00:44:47,298 --> 00:44:53,538
the early warning chain right down the

819
00:44:50,539 --> 00:44:57,319
country from Yorkshire you know from

820
00:44:53,539 --> 00:45:01,220
looking really intrusions this is the

821
00:44:57,318 --> 00:45:03,500
main scanner here probably laughs made

822
00:45:01,219 --> 00:45:06,919
by of roads in Manchester it made it

823
00:45:03,500 --> 00:45:10,608
gelatin because we had a job because

824
00:45:06,920 --> 00:45:12,769
this was a huge bonded to honeycomb it

825
00:45:10,608 --> 00:45:16,038
was getting despondent think more than

826
00:45:12,768 --> 00:45:23,538
bond test equipment so my guys are to go

827

00:45:16,039 --> 00:45:26,329
down on crazy movie what's it because

828
00:45:23,539 --> 00:45:28,369
these time a lot of things swinging

829
00:45:26,329 --> 00:45:31,490
around the wind checking it make sure

830
00:45:28,369 --> 00:45:33,798
it's switched off across anyway so

831
00:45:31,489 --> 00:45:36,108
there's no doubt they had this object

832
00:45:33,798 --> 00:45:40,849
from liter circuses and there is big

833
00:45:36,108 --> 00:45:44,028
radar system so I've got the reply back

834
00:45:40,849 --> 00:45:48,769
dimension after about two weeks person

835
00:45:44,028 --> 00:45:51,500
say you know there wasn't surprised and

836
00:45:48,768 --> 00:45:53,929
said they have no primary source records

837
00:45:51,500 --> 00:45:56,838
related to this incident but it's very

838
00:45:53,929 --> 00:45:58,909
helpful with other information and it

839
00:45:56,838 --> 00:46:04,449
fitted in wise or with the change of a

840
00:45:58,909 --> 00:46:07,449
chain chain of command so the

841
00:46:04,449 --> 00:46:07,449

associations

842

00:46:08,489 --> 00:46:14,889

Calvin hatch which pilot Milton Torres

843

00:46:12,159 --> 00:46:19,149

with all pallets businesses in the old

844

00:46:14,889 --> 00:46:22,480

days it was underground the top is just

845

00:46:19,150 --> 00:46:24,280

a little like a bungalow the now idea

846

00:46:22,480 --> 00:46:27,309

Milton where it was because imitating

847

00:46:24,280 --> 00:46:30,550

the run so he no idea exactly in the UK

848

00:46:27,309 --> 00:46:38,039

where it was so and then in the air

849

00:46:30,550 --> 00:46:38,039

defense operation command is in London

850

00:46:38,519 --> 00:46:46,838

and welcome to that club in hatch since

851

00:46:41,349 --> 00:46:49,030

no a burglar go to the topic so in new

852

00:46:46,838 --> 00:46:50,588

for the attack the Prime Minister had a

853

00:46:49,030 --> 00:46:55,769

room down there in the bed and one

854

00:46:50,588 --> 00:46:57,639

estimate and the pilots was sort of

855

00:46:55,769 --> 00:46:59,108

informed where all our ground

856

00:46:57,639 --> 00:47:03,159
information come from

857

00:46:59,108 --> 00:47:05,679
but the name written properly this is

858

00:47:03,159 --> 00:47:07,568
the the front of it and go to the door

859

00:47:05,679 --> 00:47:11,399
on he go down a passage way you're going

860

00:47:07,568 --> 00:47:11,400
origins muscle in the green facility

861

00:47:11,909 --> 00:47:17,949
fault line up to X re a photographer

862

00:47:14,949 --> 00:47:20,019
friends from Cyprus one who lives in

863

00:47:17,949 --> 00:47:23,710
Essex it went out - took these pictures

864

00:47:20,019 --> 00:47:26,739
and then the ones on the hill who went

865

00:47:23,710 --> 00:47:33,000
to the tragic command headquarters at in

866

00:47:26,739 --> 00:47:33,000
London so that's the Istanbul this is it

867

00:47:34,530 --> 00:47:40,660
Bruntlett prior is called Bentley Priory

868

00:47:37,239 --> 00:47:43,899
and they have all worked all down the

869

00:47:40,659 --> 00:47:45,909
whole bunker there since well the two

870
00:47:43,900 --> 00:47:53,410
days which was the news enforcer in

871
00:47:45,909 --> 00:47:54,969
Colville some Johnny he'll tell these

872
00:47:53,409 --> 00:47:57,159
bitches from how to get permission

873
00:47:54,969 --> 00:48:01,029
beforehand from the RAF so listen to go

874
00:47:57,159 --> 00:48:03,449
on state bitches is worth it and here

875
00:48:01,030 --> 00:48:05,859
we've got Milton Torres himself

876
00:48:03,449 --> 00:48:13,118
Munster not one of the reunions with an

877
00:48:05,858 --> 00:48:16,369
f-86 in the background for the shot

878
00:48:13,119 --> 00:48:19,890
because so many need to address behind

879
00:48:16,369 --> 00:48:24,359
24 Mighty Mouse missiles and these were

880
00:48:19,889 --> 00:48:26,940
the things he was told to fire and he

881
00:48:24,360 --> 00:48:28,530
said he challenged the old because he

882
00:48:26,940 --> 00:48:31,260
couldn't believe on this Arian he had a

883
00:48:28,530 --> 00:48:32,880
thing on his knee on his climb sue with

884

00:48:31,260 --> 00:48:37,230
codes to check in you

885
00:48:32,880 --> 00:48:40,050
so they confirmed yes to fire up 24

886
00:48:37,230 --> 00:48:41,990
ordinance in part of Cold War

887
00:48:40,050 --> 00:48:45,330
someone don't object we couldn't see

888
00:48:41,989 --> 00:48:47,989
when is Russian aircraft come into our

889
00:48:45,329 --> 00:48:52,019
aspiration North say of the north coast

890
00:48:47,989 --> 00:48:55,319
was a bit of a worry anyway it just

891
00:48:52,019 --> 00:48:59,519
proves that the Americans had to have

892
00:48:55,320 --> 00:49:01,289
permission from my brother in our

893
00:48:59,519 --> 00:49:05,849
country in our airspace to do this

894
00:49:01,289 --> 00:49:08,279
there's an example of firing 42 sorry 24

895
00:49:05,849 --> 00:49:12,869
missiles cousins wing Munson's 48

896
00:49:08,280 --> 00:49:14,940
between them at this object missile

897
00:49:12,869 --> 00:49:18,630
arming and if you think about the

898
00:49:14,940 --> 00:49:21,960

Rendlesham forest incident 1980 when the

899

00:49:18,630 --> 00:49:24,240

airmen left the base fiery skate or

900

00:49:21,960 --> 00:49:26,849

wherever they all had to leave their

901

00:49:24,239 --> 00:49:28,049

sidearms and rifles on the base because

902

00:49:26,849 --> 00:49:30,480

he couldn't step into British

903

00:49:28,050 --> 00:49:35,220

territories the forest a transition with

904

00:49:30,480 --> 00:49:39,059

the weapons so Nick Pope come to him in

905

00:49:35,219 --> 00:49:41,879

an idiot actually when this came out and

906

00:49:39,059 --> 00:49:46,049

not due to the MLD and subtleties they

907

00:49:41,880 --> 00:49:52,640

Modi of ufologists Harry themselves

908

00:49:46,050 --> 00:49:57,210

I'm Sergeant Mon stand who is it into

909

00:49:52,639 --> 00:49:59,909

its historian on savages don't convert

910

00:49:57,210 --> 00:50:02,070

us his name had a website and he used to

911

00:49:59,909 --> 00:50:04,980

go to all these reunions and you

912

00:50:02,070 --> 00:50:07,410

supports the pilots and somehow even

913
00:50:04,980 --> 00:50:10,139
fount of Milton Taurus the story of what

914
00:50:07,409 --> 00:50:13,619
talking about and then somehow I got in

915
00:50:10,139 --> 00:50:16,379
The Daily Star in 1991 and some of the

916
00:50:13,619 --> 00:50:22,000
business newspaper

917
00:50:16,380 --> 00:50:25,539
not a lot about so so though he didn't

918
00:50:22,000 --> 00:50:27,760
get to fire his missiles because he was

919
00:50:25,539 --> 00:50:30,969
sent sentence together to release them

920
00:50:27,760 --> 00:50:33,670
and the spot only scope suddenly started

921
00:50:30,969 --> 00:50:35,649
to move rapidly off so he knew pulling

922
00:50:33,670 --> 00:50:39,280
away from him and he was pretty

923
00:50:35,650 --> 00:50:45,430
confident he was doing his math too and

924
00:50:39,280 --> 00:50:47,800
he was going plus hours that 86 2600

925
00:50:45,429 --> 00:50:49,889
about 700 mile an hour which resulted

926
00:50:47,800 --> 00:50:53,620
when he was told keep his afterburner on

927
00:50:49,889 --> 00:50:55,329
to keep pace with this thing and it was

928
00:50:53,619 --> 00:50:57,849
usually a lot more fuel in doing that

929
00:50:55,329 --> 00:51:01,179
which is February to keep you active in

930
00:50:57,849 --> 00:51:03,279
Iran and so it shuts off screen so that

931
00:51:01,179 --> 00:51:04,779
we've got chance to leave some off if he

932
00:51:03,280 --> 00:51:06,820
had he might not have been alive today

933
00:51:04,780 --> 00:51:08,680
because there's been cases in the

934
00:51:06,820 --> 00:51:11,170
state's many of them where is a

935
00:51:08,679 --> 00:51:15,309
retaliation aircraft had been brought

936
00:51:11,170 --> 00:51:18,099
down lost pilots killed until the

937
00:51:15,309 --> 00:51:23,590
President Truman stopped it is attack

938
00:51:18,099 --> 00:51:25,779
will just observe so he radioed ECI and

939
00:51:23,590 --> 00:51:27,970
said it's gone from scope he said yes

940
00:51:25,780 --> 00:51:32,860
it's gone off our radar on two sweeps

941

00:51:27,969 --> 00:51:41,469
and then scanner it gone so month -

942
00:51:32,860 --> 00:51:45,610
that's not 2001 Ansel this is a little

943
00:51:41,469 --> 00:51:53,039
later picture in 1960s in Germany in

944
00:51:45,610 --> 00:51:57,329
Germany mean there was Nicole

945
00:51:53,039 --> 00:52:00,009
yes now this last picture on these days

946
00:51:57,329 --> 00:52:06,750
was an ex politics conference in

947
00:52:00,010 --> 00:52:11,160
Washington in 2009 to think and run by

948
00:52:06,750 --> 00:52:14,050
our friend mr. Bassett Steven Bassett

949
00:52:11,159 --> 00:52:15,608
and here we call Andrews crops like a

950
00:52:14,050 --> 00:52:21,010
favor when we keep reference to Lilly

951
00:52:15,608 --> 00:52:23,730
was that also speaking and he took me

952
00:52:21,010 --> 00:52:26,680
off and he said you is caliber all mine

953
00:52:23,730 --> 00:52:27,820
Milton Torres case upon college website

954
00:52:26,679 --> 00:52:31,750
is still there if you went to the

955
00:52:27,820 --> 00:52:35,109

Columbus sound web site said you ought

956

00:52:31,750 --> 00:52:39,730

to get the DVD on the conference and

957

00:52:35,108 --> 00:52:40,509

what said totally bombing Nick poem I'm

958

00:52:39,730 --> 00:52:43,358

coming

959

00:52:40,510 --> 00:52:46,210

it's happening relations with Nick

960

00:52:43,358 --> 00:52:47,980

probably you know it had a few algae

961

00:52:46,210 --> 00:52:52,599

barges and while at the conference he

962

00:52:47,980 --> 00:52:55,570

says to make come on you know you've

963

00:52:52,599 --> 00:52:57,759

been civilian so-called one civilian

964

00:52:55,570 --> 00:53:01,930

before but if let's say London is now

965

00:52:57,760 --> 00:53:05,650

living in the states you know you're

966

00:53:01,929 --> 00:53:08,409

still doing your job which is previously

967

00:53:05,650 --> 00:53:10,960

denied whereas challenges Remy colleges

968

00:53:08,409 --> 00:53:13,118

in the past so in the end makes us

969

00:53:10,960 --> 00:53:13,800

through Pauline and lose and this is

970
00:53:13,119 --> 00:53:17,890
atrocious

971
00:53:13,800 --> 00:53:20,440
well okay my old masters are not too far

972
00:53:17,889 --> 00:53:23,049
away as well as my old masses are not

973
00:53:20,440 --> 00:53:25,269
too far away which is like an admission

974
00:53:23,050 --> 00:53:28,480
now that has hardly been paid as well

975
00:53:25,269 --> 00:53:30,880
more told he's got to carry on the

976
00:53:28,480 --> 00:53:33,130
debunking as much as possible and they

977
00:53:30,880 --> 00:53:36,430
annoyed me when I watched the opening

978
00:53:33,130 --> 00:53:38,320
was make them share the platform as

979
00:53:36,429 --> 00:53:40,809
Milton was knocking on a bit might even

980
00:53:38,320 --> 00:53:43,119
be done now I don't know and

981
00:53:40,809 --> 00:53:45,940
Sun was there to help in his

982
00:53:43,119 --> 00:53:48,690
presentation which was fairly sure watch

983
00:53:45,940 --> 00:53:52,329
the talking's done by name only open so

984
00:53:48,690 --> 00:53:54,329
it says it he's dancing about something

985
00:53:52,329 --> 00:53:57,319
money you know

986
00:53:54,329 --> 00:54:00,420
pilot Scheldt sold to shoot down a UFO

987
00:53:57,320 --> 00:54:03,269
suffered cow you know making a big thing

988
00:54:00,420 --> 00:54:04,260
of it the yetis a man who was trying to

989
00:54:03,269 --> 00:54:06,059
shut it down

990
00:54:04,260 --> 00:54:07,350
apart from the old thing about the

991
00:54:06,059 --> 00:54:09,900
ministry saying and no defense

992
00:54:07,349 --> 00:54:14,489
significant scrap to come out with four

993
00:54:09,900 --> 00:54:16,650
years trying to deny that how many was

994
00:54:14,489 --> 00:54:18,689
saying not on the conference book

995
00:54:16,650 --> 00:54:21,090
separately so it's down to the

996
00:54:18,690 --> 00:54:24,929
individual pilots he was his call his

997
00:54:21,090 --> 00:54:27,840
decision some fires 2419 lands missiles

998

00:54:24,929 --> 00:54:30,118
well no away would in a compartment do

999
00:54:27,840 --> 00:54:31,680
that UAV court-martialed if you haven't

1000
00:54:30,119 --> 00:54:34,140
learned the proper authority especially

1001
00:54:31,679 --> 00:54:36,299
in our airspace he was trying to say

1002
00:54:34,139 --> 00:54:42,949
that Milton Torres was firing off his

1003
00:54:36,300 --> 00:54:48,470
records off his own but public policy

1004
00:54:42,949 --> 00:54:48,469
very round upon my rant

1005
00:54:52,400 --> 00:55:01,400
yeah this isn't this is only human but

1006
00:54:57,389 --> 00:55:04,230
side involving dr. David Clarke

1007
00:55:01,400 --> 00:55:08,280
because when the NLD declared that they

1008
00:55:04,230 --> 00:55:10,230
would not this should all the records

1009
00:55:08,280 --> 00:55:12,690
they have about UFOs that pocket

1010
00:55:10,230 --> 00:55:14,490
regulars of unsecure and there's not

1011
00:55:12,690 --> 00:55:17,579
much happening with apologies no more

1012
00:55:14,489 --> 00:55:20,069

cases so it's a waste of time then we'll

1013

00:55:17,579 --> 00:55:22,049

be spending money paying a guy to tear

1014

00:55:20,070 --> 00:55:23,850

stuff to desk to do what they've been

1015

00:55:22,050 --> 00:55:26,810

doing biting into em for three years

1016

00:55:23,849 --> 00:55:29,608

when he was in that post absolutely wish

1017

00:55:26,809 --> 00:55:32,190

now when I get my freedom missus from

1018

00:55:29,608 --> 00:55:34,769

the Freedom of Information from civilian

1019

00:55:32,190 --> 00:55:37,230

guide their historical branch to which

1020

00:55:34,769 --> 00:55:39,139

was based funding for Bentley Priory the

1021

00:55:37,230 --> 00:55:41,039

very place where the bloody order

1022

00:55:39,139 --> 00:55:42,509

high-level was given to him to shoot

1023

00:55:41,039 --> 00:55:45,779

things down it must be at least an hour

1024

00:55:42,510 --> 00:55:48,140

Commodore to do that will pass a signal

1025

00:55:45,780 --> 00:55:48,140

to

1026

00:55:49,230 --> 00:55:57,449

massive monthly and then to the TCI to

1027
00:55:54,429 --> 00:56:03,730
sell him to fire with the coded order

1028
00:55:57,449 --> 00:56:05,919
but Anneli falcon chair there a positive

1029
00:56:03,730 --> 00:56:08,230
thing apart from the procedures and

1030
00:56:05,920 --> 00:56:10,240
where those certain records and if

1031
00:56:08,230 --> 00:56:12,670
someone's had enough time to go to queue

1032
00:56:10,239 --> 00:56:15,699
and sit there for hours and hours flying

1033
00:56:12,670 --> 00:56:19,990
through these TNA's and the AFI forties

1034
00:56:15,699 --> 00:56:22,598
the unit diaries hope to help some

1035
00:56:19,989 --> 00:56:25,029
information there about Milton tourist

1036
00:56:22,599 --> 00:56:26,980
sources and rewards the fire and nothing

1037
00:56:25,030 --> 00:56:29,559
to being deleted out wouldn't be there

1038
00:56:26,980 --> 00:56:31,210
and I don't live near enough to London

1039
00:56:29,559 --> 00:56:33,039
to miles away to spend all the time

1040
00:56:31,210 --> 00:56:35,139
doing that I've never found anyone

1041
00:56:33,039 --> 00:56:39,160
stepping forward to say well the love

1042
00:56:35,139 --> 00:56:41,969
for you David you know and fortunately I

1043
00:56:39,159 --> 00:56:45,608
thought by David plan undid bloody

1044
00:56:41,969 --> 00:56:48,659
robbers but by fall out of the shadows

1045
00:56:45,608 --> 00:56:51,940
now I had that book I bought it in a

1046
00:56:48,659 --> 00:56:54,219
charity shop so wouldn't spend money in

1047
00:56:51,940 --> 00:56:57,519
losing knave written Hangul around to

1048
00:56:54,219 --> 00:56:59,288
reading it and this chap this ministry

1049
00:56:57,519 --> 00:57:01,690
band from their defenseman actually told

1050
00:56:59,289 --> 00:57:06,369
when the plane number one for six is a

1051
00:57:01,690 --> 00:57:09,400
reference from Clark now he some she got

1052
00:57:06,369 --> 00:57:11,140
that from that Duncan Curtis the ex-wife

1053
00:57:09,400 --> 00:57:14,528
sergeant who had made some comment about

1054
00:57:11,139 --> 00:57:18,068
it and Milton abroad his vow not to

1055

00:57:14,528 --> 00:57:20,679
automatically was briefly an episode by

1056
00:57:18,068 --> 00:57:22,778
the American chat came from London from

1057
00:57:20,679 --> 00:57:24,489
the NSA he used the National Security

1058
00:57:22,778 --> 00:57:26,349
Agency interviewed both pilots

1059
00:57:24,489 --> 00:57:28,629
separately and said this is highly

1060
00:57:26,349 --> 00:57:30,818
classified mission you don't even talk

1061
00:57:28,630 --> 00:57:33,940
to your station commander about it or

1062
00:57:30,818 --> 00:57:38,940
his wing from London but obviously did

1063
00:57:33,940 --> 00:57:43,028
eventually so I mean bear that in mind

1064
00:57:38,940 --> 00:57:46,778
once the covers and walk on foot are

1065
00:57:43,028 --> 00:57:50,798
important the top there and this is the

1066
00:57:46,778 --> 00:57:53,280
page it's only a one page in a bit about

1067
00:57:50,798 --> 00:57:56,190
it watching factual

1068
00:57:53,280 --> 00:57:59,640
and this is a bit of Milton's own words

1069
00:57:56,190 --> 00:58:02,550

which Linda's report will play

1070

00:57:59,639 --> 00:58:04,829

interesting this fellow ralph noise he

1071

00:58:02,550 --> 00:58:08,640

was in Nick bulbs old position he was

1072

00:58:04,829 --> 00:58:12,029

ds8 and he became one of the leaders in

1073

00:58:08,639 --> 00:58:14,579

the center to drop certain studies and I

1074

00:58:12,030 --> 00:58:16,380

reckon even then he realized these crop

1075

00:58:14,579 --> 00:58:21,269

circles in the eighties were of interest

1076

00:58:16,380 --> 00:58:24,559

particularly MMD and I recognize told to

1077

00:58:21,269 --> 00:58:27,300

get foot onto the table with the CCS and

1078

00:58:24,559 --> 00:58:30,090

report back what people are making with

1079

00:58:27,300 --> 00:58:35,340

the crop circles the events on extra

1080

00:58:30,090 --> 00:58:38,010

noon so very well the ufologists called

1081

00:58:35,340 --> 00:58:41,550

dr. David Clarke it's written about this

1082

00:58:38,010 --> 00:58:45,710

case and no mention of it nearly

1083

00:58:41,550 --> 00:58:49,710

produces for this buddy newspaper yet

1084
00:58:45,710 --> 00:58:53,460
closed Encounters of the Third Kind fake

1085
00:58:49,710 --> 00:58:56,490
lashes improve learner so it's written

1086
00:58:53,460 --> 00:58:58,740
all negative things about UFOs seems

1087
00:58:56,489 --> 00:59:02,189
closed down for something happening

1088
00:58:58,739 --> 00:59:07,849
here's a man who's put this case at his

1089
00:59:02,190 --> 00:59:10,320
book talked about doing flip how long

1090
00:59:07,849 --> 00:59:15,170
maybe a right unchanging patent I'll

1091
00:59:10,320 --> 00:59:15,170
come in a bit more we live a ton from -

1092
00:59:16,730 --> 00:59:22,260
this is very interesting because it's

1093
00:59:19,860 --> 00:59:25,260
not involved in the area or military but

1094
00:59:22,260 --> 00:59:29,840
it's multiple the general Jodrell Bank

1095
00:59:25,260 --> 00:59:34,320
in Cheshire which people all do I

1096
00:59:29,840 --> 00:59:37,170
discovered in 1996 being a big event

1097
00:59:34,320 --> 00:59:39,269
there three very good witnesses I

1098
00:59:37,170 --> 00:59:41,970
interviewed during the villages would be

1099
00:59:39,269 --> 00:59:48,199
strictest and the road from the

1100
00:59:41,969 --> 00:59:53,009
and this was the 18th of August 96 and

1101
00:59:48,199 --> 00:59:55,118
Sunday and Lady Mary brickle

1102
00:59:53,010 --> 00:59:57,999
I mean resident want to

1103
00:59:55,119 --> 01:00:00,009
name shared a senior position management

1104
00:59:57,998 --> 01:00:02,348
within the British Red Cross HQ in

1105
01:00:00,009 --> 01:00:04,269
Knutsford so she's worried like people

1106
01:00:02,349 --> 01:00:07,469
are the more professional people are the

1107
01:00:04,268 --> 01:00:09,848
more reluctant to make statements

1108
01:00:07,469 --> 01:00:12,670
apart from problems their job at being

1109
01:00:09,849 --> 01:00:14,710
ridiculed as a shape so she was driving

1110
01:00:12,670 --> 01:00:18,389
her parents of living the fluffy metals

1111
01:00:14,710 --> 01:00:28,210
field back after being at Sunday lunch

1112

01:00:18,389 --> 01:00:32,769
so just picture the entrance let's just

1113
01:00:28,210 --> 01:00:34,289
cut the main little dish an aerial view

1114
01:00:32,769 --> 01:00:36,670
[Music]

1115
01:00:34,289 --> 01:00:39,910
point out this is their main lab and

1116
01:00:36,670 --> 01:00:44,519
control room so you can see the distance

1117
01:00:39,909 --> 01:00:44,518
from the dish to where the operators sit

1118
01:00:45,869 --> 01:00:51,969
now on that line they were traveling

1119
01:00:48,518 --> 01:00:53,348
down this battling called Amish Lane so

1120
01:00:51,969 --> 01:00:55,318
they were sort of here somewhere so

1121
01:00:53,349 --> 01:00:58,450
they've got a very good sense of the the

1122
01:00:55,318 --> 01:01:02,048
dish this is the main crew London line

1123
01:00:58,449 --> 01:01:05,949
we were in line and this is what they

1124
01:01:02,048 --> 01:01:07,719
saw so the dish was an angle so I have

1125
01:01:05,949 --> 01:01:08,528
and establish it was been in use at the

1126
01:01:07,719 --> 01:01:10,630

time with you

1127

01:01:08,528 --> 01:01:12,818

tarp vertically up it usually means it's

1128

01:01:10,630 --> 01:01:15,298

not operating it was that sort of animal

1129

01:01:12,818 --> 01:01:20,199

and they realize and some sort of object

1130

01:01:15,298 --> 01:01:23,498

couple of feet above with the group of

1131

01:01:20,199 --> 01:01:25,419

three of the lights on the end and the

1132

01:01:23,498 --> 01:01:30,038

father who sat in the back he was owned

1133

01:01:25,420 --> 01:01:31,690

in the Royal Observatory war and you

1134

01:01:30,039 --> 01:01:35,229

what really grabbed him was the front

1135

01:01:31,690 --> 01:01:39,039

this soft beam line was not diverging it

1136

01:01:35,228 --> 01:01:41,078

was stokeley parallel filling you know

1137

01:01:39,039 --> 01:01:45,869

third of the damage of the dishes about

1138

01:01:41,079 --> 01:01:48,450

200 feet or so and that's what really

1139

01:01:45,869 --> 01:01:51,880

understand fired up because physically

1140

01:01:48,449 --> 01:01:55,078

being blind or diverged lobbed a lasers

1141
01:01:51,880 --> 01:01:57,150
beans take a longer time to separate

1142
01:01:55,079 --> 01:02:01,360
these

1143
01:01:57,150 --> 01:02:03,099
but nevertheless months got to him but

1144
01:02:01,360 --> 01:02:05,740
they didn't stop I think it was a bit a

1145
01:02:03,099 --> 01:02:09,429
bit find and there's a twisted art lane

1146
01:02:05,739 --> 01:02:10,959
this is emitted art and more or less so

1147
01:02:09,429 --> 01:02:14,500
they carried on to mountains fields and

1148
01:02:10,960 --> 01:02:16,599
drop them off in the flat and that took

1149
01:02:14,500 --> 01:02:19,960
about 50 minutes to get home and when

1150
01:02:16,599 --> 01:02:22,389
she returned on bonds relations shocked

1151
01:02:19,960 --> 01:02:26,079
and horrified an hour later to see still

1152
01:02:22,389 --> 01:02:29,289
there they're uncertain whether it was a

1153
01:02:26,079 --> 01:02:32,170
disk or cylinder shape because in the

1154
01:02:29,289 --> 01:02:39,519
Yemen wall so you don't really know for

1155
01:02:32,170 --> 01:02:42,670
sure she's trying to get a husband in

1156
01:02:39,519 --> 01:02:44,679
the car and come out battery and see

1157
01:02:42,670 --> 01:02:46,930
anything it's something you need have a

1158
01:02:44,679 --> 01:02:48,969
few glasses of wine in this slippers arm

1159
01:02:46,929 --> 01:02:51,399
and he declined to do that which you

1160
01:02:48,969 --> 01:02:54,009
regretted it later because in there are

1161
01:02:51,400 --> 01:02:57,720
reason to distrust his wife and what

1162
01:02:54,010 --> 01:03:00,040
you've seen so I spent a long time

1163
01:02:57,719 --> 01:03:04,299
looking at all the properties it has a

1164
01:03:00,039 --> 01:03:06,400
visual view from farm or a house or can

1165
01:03:04,300 --> 01:03:10,660
see the main dish the mountain witnessed

1166
01:03:06,400 --> 01:03:14,430
it and thinking looked at under no 12 so

1167
01:03:10,659 --> 01:03:17,619
maybe more properties and drew a blank

1168
01:03:14,429 --> 01:03:19,869
then I found through a different related

1169

01:03:17,619 --> 01:03:22,239
through a different reason one farmer

1170
01:03:19,869 --> 01:03:27,099
one farm and missed actually old Bobby

1171
01:03:22,239 --> 01:03:28,569
slain and his wife had to be chauffeured

1172
01:03:27,099 --> 01:03:30,299
driving I didn't show for driving in

1173
01:03:28,570 --> 01:03:35,160
reserve

1174
01:03:30,300 --> 01:03:38,830
she was a pharmaceutical selling session

1175
01:03:35,159 --> 01:03:40,329
she saw yes he saw it so I went to

1176
01:03:38,829 --> 01:03:42,250
interviewing on what plan to interview

1177
01:03:40,329 --> 01:03:42,849
me greet her and then he changed his

1178
01:03:42,250 --> 01:03:45,389
mind

1179
01:03:42,849 --> 01:03:47,460
lots of people do

1180
01:03:45,389 --> 01:03:50,369
now you want to talk about it so he

1181
01:03:47,460 --> 01:03:56,940
passed me to another witness in guchi

1182
01:03:50,369 --> 01:04:00,389
village let's do so I went to see this

1183
01:03:56,940 --> 01:04:03,690

chap and something totally different two

1184

01:04:00,389 --> 01:04:07,109

different days and more recent in 2004

1185

01:04:03,690 --> 01:04:10,050

which so what's the timeline on Hollins

1186

01:04:07,110 --> 01:04:13,079

he said I went up I go to the ninth

1187

01:04:10,050 --> 01:04:15,210

round 3 o'clock 4 o'clock 4 o'clock to

1188

01:04:13,079 --> 01:04:19,670

go to the toilet in his bathroom window

1189

01:04:15,210 --> 01:04:23,280

so overlooks the any dish but what

1190

01:04:19,670 --> 01:04:25,950

tragedy we hear the noise and to him so

1191

01:04:23,280 --> 01:04:30,060

it sounds like a world war ii fighter

1192

01:04:25,949 --> 01:04:32,460

plane like a Spitfire hurricane and it

1193

01:04:30,059 --> 01:04:34,199

looks like it has some sort of lights on

1194

01:04:32,460 --> 01:04:36,449

him we couldn't be sure it was going

1195

01:04:34,199 --> 01:04:38,849

round you very tight circles above the

1196

01:04:36,449 --> 01:04:41,849

dish well no one's going to fly it

1197

01:04:38,849 --> 01:04:43,949

historical aircraft three or four in the

1198
01:04:41,849 --> 01:04:46,049
morning in the fence there are lots of

1199
01:04:43,949 --> 01:04:51,919
parts have got knife line clearance

1200
01:04:46,050 --> 01:04:55,890
anyway and the ETS have known to mimic

1201
01:04:51,920 --> 01:04:59,789
our technologies whether the car plane

1202
01:04:55,889 --> 01:05:01,289
or tell them but get the ear around you

1203
01:04:59,789 --> 01:05:03,529
know so that they want to mask the

1204
01:05:01,289 --> 01:05:06,449
cracks and sell their UFO in my book

1205
01:05:03,530 --> 01:05:09,360
pretending to be in spite of hurricanes

1206
01:05:06,449 --> 01:05:16,049
and Spitfires and so closing round using

1207
01:05:09,360 --> 01:05:19,579
the line and this is a simulated night

1208
01:05:16,050 --> 01:05:22,289
shuffle toe because and I took it

1209
01:05:19,579 --> 01:05:25,019
this is a view of the board since

1210
01:05:22,289 --> 01:05:28,259
autocrat recently so anyway I decided

1211
01:05:25,019 --> 01:05:30,480
you know by the bulletin when central

1212
01:05:28,260 --> 01:05:36,180
bank is trying to speak to someone on

1213
01:05:30,480 --> 01:05:38,610
the here inside the Republic and this

1214
01:05:36,179 --> 01:05:41,309
public very own sales and and very

1215
01:05:38,610 --> 01:05:44,550
lovely sir very impressive planetarium

1216
01:05:41,309 --> 01:05:49,500
at the time 10 so I went in there and

1217
01:05:44,550 --> 01:05:52,430
spotted this guy who was operating as

1218
01:05:49,500 --> 01:05:56,699
volunteer the planetarium system

1219
01:05:52,429 --> 01:06:02,069
X down our pilot remember down there

1220
01:05:56,699 --> 01:06:04,739
musical the gun down no logged on the N

1221
01:06:02,070 --> 01:06:07,350
on anyway he wasn't raised once and so I

1222
01:06:04,739 --> 01:06:10,319
don't want to look speak to someone and

1223
01:06:07,349 --> 01:06:17,460
look at the operational log from the

1224
01:06:10,320 --> 01:06:18,869
night of 18th of August and sings so

1225
01:06:17,460 --> 01:06:22,199
it's our three weeks late and out an

1226

01:06:18,869 --> 01:06:24,829
event at least so he went to the store

1227
01:06:22,199 --> 01:06:27,000
plus all those and buttons to get in

1228
01:06:24,829 --> 01:06:30,029
disappeared for about five minutes

1229
01:06:27,000 --> 01:06:32,849
maybe Alondra and the door opened and

1230
01:06:30,030 --> 01:06:35,700
this brains the aggressive woman came

1231
01:06:32,849 --> 01:06:38,219
storming at me he slunk off presumably

1232
01:06:35,699 --> 01:06:40,980
had his ear chewed for resins topical

1233
01:06:38,219 --> 01:06:44,069
some line we entertain from that me to

1234
01:06:40,980 --> 01:06:46,769
ask questions so she denies flatly so

1235
01:06:44,070 --> 01:06:51,000
let me see the log denied there being

1236
01:06:46,769 --> 01:06:58,500
any happening so on and once enough the

1237
01:06:51,000 --> 01:07:00,900
promises so the windows which so they're

1238
01:06:58,500 --> 01:07:03,539
looking at the moon you now around that

1239
01:07:00,900 --> 01:07:05,639
time another member of the Macclesfield

1240
01:07:03,539 --> 01:07:08,730

Astronomical Society uncle Keith

1241
01:07:05,639 --> 01:07:11,279
Griffiths who watch with main in detain

1242
01:07:08,730 --> 01:07:14,780
fat Keith then she took my job when I

1243
01:07:11,280 --> 01:07:17,760
took the news almond but the Santa

1244
01:07:14,780 --> 01:07:19,830
version their own Keith was and he said

1245
01:07:17,760 --> 01:07:20,730
only would you like to give us a talk on

1246
01:07:19,829 --> 01:07:24,779
your phones

1247
01:07:20,730 --> 01:07:27,480
it was an astronomical society sorts of

1248
01:07:24,780 --> 01:07:29,930
you have fine fine and the venue was to

1249
01:07:27,480 --> 01:07:33,389
be in the planetary majora Bunch

1250
01:07:29,929 --> 01:07:36,960
so guess what happened when you put

1251
01:07:33,389 --> 01:07:39,559
notices up to effect that's speaking

1252
01:07:36,960 --> 01:07:42,059
stopping on the state and planetarium

1253
01:07:39,559 --> 01:07:44,369
they explicitly flat down on that

1254
01:07:42,059 --> 01:07:47,130
descent and Keith or one of his

1255
01:07:44,369 --> 01:07:49,200
colleagues on the committee no way is

1256
01:07:47,130 --> 01:07:51,869
any ufology is going to talk about UFOs

1257
01:07:49,199 --> 01:07:55,259
on the premises of judge or Bank radio

1258
01:07:51,869 --> 01:07:56,720
telescope especially someone Eileen so

1259
01:07:55,260 --> 01:08:00,380
they had to pull the plugs on the table

1260
01:07:56,719 --> 01:08:00,379
well that's only something

1261
01:08:01,000 --> 01:08:06,800
this is the control and you can quite

1262
01:08:03,679 --> 01:08:09,469
see they've got good vision of the dish

1263
01:08:06,800 --> 01:08:11,030
the balance of Cena turned before unless

1264
01:08:09,469 --> 01:08:14,089
they went to the window period of what

1265
01:08:11,030 --> 01:08:17,150
stepped in aside to see the thing being

1266
01:08:14,090 --> 01:08:20,029
in down has been in line so I was

1267
01:08:17,149 --> 01:08:22,429
intrigued to know if this light beams

1268
01:08:20,029 --> 01:08:24,319
doing some energies which was interrupt

1269
01:08:22,430 --> 01:08:32,000
the problem that whatever they were

1270
01:08:24,319 --> 01:08:35,600
doing clearly was bogus I'm coming back

1271
01:08:32,000 --> 01:08:37,430
Stanton Friedman which was a garish

1272
01:08:35,600 --> 01:08:43,250
peasant lines conferences mumbles two

1273
01:08:37,430 --> 01:08:46,909
years ago and what's actually in touch

1274
01:08:43,250 --> 01:08:50,270
with dr. Ian Morrison who's in charge of

1275
01:08:46,909 --> 01:08:52,670
the stuff that hurts I'm going back to

1276
01:08:50,270 --> 01:08:54,980
the line with you

1277
01:08:52,670 --> 01:08:57,770
he didn't holiday and he came back on

1278
01:08:54,979 --> 01:09:00,409
that Monday the 19th and it's Peter a

1279
01:08:57,770 --> 01:09:03,109
lecture he gave in boynton notes and

1280
01:09:00,409 --> 01:09:06,159
sisters cherish man's place in the

1281
01:09:03,109 --> 01:09:08,720
universe was a stroke she's been ignored

1282
01:09:06,159 --> 01:09:11,239
so at the end I went to chat rooms

1283

01:09:08,720 --> 01:09:14,359
people do and I said I was into an

1284
01:09:11,239 --> 01:09:17,869
apology and being from one another and I

1285
01:09:14,359 --> 01:09:21,260
said to him do you really think that the

1286
01:09:17,869 --> 01:09:24,409
aliens would have operators to pick up

1287
01:09:21,260 --> 01:09:27,409
our old-fashioned radio signals and have

1288
01:09:24,409 --> 01:09:31,539
equipment a capable of sending a clear

1289
01:09:27,409 --> 01:09:35,180
message and bear in mind this was before

1290
01:09:31,539 --> 01:09:39,079
general Bank a very lucrative contract

1291
01:09:35,180 --> 01:09:41,890
from SETI programs and Americans to tape

1292
01:09:39,079 --> 01:09:46,068
Martin Sassie

1293
01:09:41,890 --> 01:09:49,160
so we said at the time no no right look

1294
01:09:46,069 --> 01:09:51,470
in the work in so little as you saying

1295
01:09:49,159 --> 01:09:54,529
sending radio signals a helpful answer

1296
01:09:51,470 --> 01:10:03,710
bounds arrays of time before SETI became

1297
01:09:54,529 --> 01:10:05,300

the topic of conversation so so santen

1298

01:10:03,710 --> 01:10:09,260

see Freeman said that famous statement

1299

01:10:05,300 --> 01:10:09,579

to had SETI is a son for a silly effort

1300

01:10:09,260 --> 01:10:14,199

to

1301

01:10:09,579 --> 01:10:19,210

investigat is very apps I think you bang

1302

01:10:14,199 --> 01:10:21,119

on the nail there now this is a party

1303

01:10:19,210 --> 01:10:23,730

Charlie not the plan Salem's calm

1304

01:10:21,119 --> 01:10:27,099

thinking building a new one something

1305

01:10:23,729 --> 01:10:29,949

hopefully we've got the public areas

1306

01:10:27,100 --> 01:10:32,200

often impacted things that businesses do

1307

01:10:29,949 --> 01:10:34,720

particular youngsters this is to my

1308

01:10:32,199 --> 01:10:37,479

grandson's you were four and five just

1309

01:10:34,720 --> 01:10:42,789

to the right of where they are is just

1310

01:10:37,479 --> 01:10:47,399

notice it's a photographic I'll really

1311

01:10:42,789 --> 01:10:49,899

want to read from the baton summers are

1312
01:10:47,399 --> 01:10:51,879
discovering new planets and which alien

1313
01:10:49,899 --> 01:10:55,019
life lines exists telescopes I use a

1314
01:10:51,880 --> 01:10:58,659
social magician Indian civilization

1315
01:10:55,020 --> 01:11:00,340
certainly looking for clever aliens some

1316
01:10:58,659 --> 01:11:02,800
of us are we using telescopes including

1317
01:11:00,340 --> 01:11:05,380
those here at Java Bank and the eros

1318
01:11:02,800 --> 01:11:06,640
even cell is going to appear to Rico to

1319
01:11:05,380 --> 01:11:09,609
looking for message has been being

1320
01:11:06,640 --> 01:11:12,520
towards us by aliens living on planets

1321
01:11:09,609 --> 01:11:14,679
orbiting other stars the search for

1322
01:11:12,520 --> 01:11:16,420
extraterrestrial intelligence SETI has

1323
01:11:14,680 --> 01:11:20,200
been going on for more than fifty years

1324
01:11:16,420 --> 01:11:22,630
I don't know if Isis has yet been picked

1325
01:11:20,199 --> 01:11:24,970
up as close coped technology improves

1326
01:11:22,630 --> 01:11:27,880
were able to search more and more of our

1327
01:11:24,970 --> 01:11:30,400
galaxy frozen some life what's a lot of

1328
01:11:27,880 --> 01:11:34,329
problems all right this is bold city

1329
01:11:30,399 --> 01:11:36,429
thing is a stole they saw must want to

1330
01:11:34,329 --> 01:11:38,550
be in charge they want to be the ones to

1331
01:11:36,430 --> 01:11:40,869
make the announcement we're not alone

1332
01:11:38,550 --> 01:11:44,890
certainly don't want bloody as your

1333
01:11:40,869 --> 01:11:46,989
follow gist to be doing this and I think

1334
01:11:44,890 --> 01:11:49,690
it's American policy there are lots of

1335
01:11:46,989 --> 01:11:51,909
dollars at this setting idea as a fall

1336
01:11:49,689 --> 01:11:55,509
off to make the public think we are

1337
01:11:51,909 --> 01:11:58,500
seriously looking for et well they help

1338
01:11:55,510 --> 01:12:03,640
and citizen could use a little transform

1339
01:11:58,500 --> 01:12:05,800
anyway way for pictures doctor a

1340

01:12:03,640 --> 01:12:08,110
Morrison there's no professor I believe

1341
01:12:05,800 --> 01:12:11,980
moved on some whales and lovely chat all

1342
01:12:08,109 --> 01:12:13,929
bubbly enthusiastic and been on the

1343
01:12:11,979 --> 01:12:16,389
Manchester local radio and

1344
01:12:13,930 --> 01:12:18,579
neighbors and when they got the contract

1345
01:12:16,390 --> 01:12:20,680
the first contract months of some sins

1346
01:12:18,579 --> 01:12:24,189
he was all full of it what marvelous

1347
01:12:20,680 --> 01:12:27,010
thing because the telescope 50 years old

1348
01:12:24,189 --> 01:12:29,739
all 40 years I was fired too bit so they

1349
01:12:27,010 --> 01:12:33,730
wanted the money from the Americans to

1350
01:12:29,739 --> 01:12:36,670
help maintain him scrambling for that so

1351
01:12:33,729 --> 01:12:39,189
he married something now he said a

1352
01:12:36,670 --> 01:12:57,369
cousin want to get it word-for-word to

1353
01:12:39,189 --> 01:12:58,839
he was interviewed this must say I'm

1354
01:12:57,369 --> 01:13:02,519

told his actual statement to the

1355

01:12:58,840 --> 01:13:04,449

newspaper states the general bank's

1356

01:13:02,520 --> 01:13:07,180

astronomers overall opinion really

1357

01:13:04,449 --> 01:13:10,649

futility of setting program even though

1358

01:13:07,180 --> 01:13:13,840

they have to take on the confronted whew

1359

01:13:10,649 --> 01:13:15,729

dr. Morrison goes on to express his

1360

01:13:13,840 --> 01:13:18,610

annoyance that none of these aliens ever

1361

01:13:15,729 --> 01:13:20,319

come to talk to us I mean we had the

1362

01:13:18,609 --> 01:13:23,349

bloody aliens were over an hour I know

1363

01:13:20,319 --> 01:13:27,969

in some like to say all instances of on

1364

01:13:23,350 --> 01:13:30,280

their own telescope so I mean this is

1365

01:13:27,970 --> 01:13:32,289

what he said anyway the trouble is that

1366

01:13:30,279 --> 01:13:35,050

communication with other planets takes a

1367

01:13:32,289 --> 01:13:38,170

long time we're looking at stars up to

1368

01:13:35,050 --> 01:13:40,210

perhaps 150 light years away it means

1369
01:13:38,170 --> 01:13:42,609
that if we have a difficult any message

1370
01:13:40,210 --> 01:13:45,609
it could have been sent up to 150 years

1371
01:13:42,609 --> 01:13:49,299
ago and of course if we actually sent a

1372
01:13:45,609 --> 01:13:50,799
reply that will be 300 years later so

1373
01:13:49,300 --> 01:13:54,100
you can see that interstellar

1374
01:13:50,800 --> 01:13:56,949
communication is a slow process you

1375
01:13:54,100 --> 01:13:58,539
think of event that still be around to

1376
01:13:56,949 --> 01:14:01,539
receive the signal back

1377
01:13:58,539 --> 01:14:03,220
so in a way he's sort of pouring cold

1378
01:14:01,539 --> 01:14:07,960
water on the setting clean but being

1379
01:14:03,220 --> 01:14:11,110
keyed to have it now that's about aliens

1380
01:14:07,960 --> 01:14:13,149
and what they may look like he was not

1381
01:14:11,109 --> 01:14:17,769
prepared to take the word of alien

1382
01:14:13,149 --> 01:14:22,629
abductees Samarin is aware of the

1383
01:14:17,770 --> 01:14:27,040
abduction scenarios and to say that

1384
01:14:22,630 --> 01:14:29,680
so and his response was this is not

1385
01:14:27,039 --> 01:14:31,390
meant to sound big-headed but if I were

1386
01:14:29,680 --> 01:14:33,430
going to visit and I wanted to make

1387
01:14:31,390 --> 01:14:36,970
content and people that are meaning here

1388
01:14:33,430 --> 01:14:39,010
I would deliberately aim to talk to

1389
01:14:36,970 --> 01:14:40,990
scientists and astronomers and people

1390
01:14:39,010 --> 01:14:43,510
like that because they're these would

1391
01:14:40,989 --> 01:14:46,630
have something in common that's what we

1392
01:14:43,510 --> 01:14:47,949
said to the press it in order to me that

1393
01:14:46,630 --> 01:14:57,430
none of these aliens haven't come to

1394
01:14:47,949 --> 01:15:00,720
talk to us this is another view in

1395
01:14:57,430 --> 01:15:05,640
controllers from years ago and this is

1396
01:15:00,720 --> 01:15:11,020
professor level uncontrolled last year

1397

01:15:05,640 --> 01:15:12,970
and suddenly now deceased those of you

1398
01:15:11,020 --> 01:15:18,390
in the control room so you can see

1399
01:15:12,970 --> 01:15:22,720
they've got good view and now we've got

1400
01:15:18,390 --> 01:15:25,539
not an MP exemplary now so I'm also

1401
01:15:22,720 --> 01:15:28,320
visiting this is Professor Tim O'Brien

1402
01:15:25,539 --> 01:15:33,220
on the right talking to George Osborne

1403
01:15:28,319 --> 01:15:34,569
two years ago think 2015 so I think

1404
01:15:33,220 --> 01:15:38,560
George was asking if you get another

1405
01:15:34,569 --> 01:15:40,989
spare job for him so he might have said

1406
01:15:38,560 --> 01:15:43,090
well it's out of hours it's minimum wage

1407
01:15:40,989 --> 01:15:45,579
what's it an uncomfortable chair all

1408
01:15:43,090 --> 01:15:48,279
night looking through the window to

1409
01:15:45,579 --> 01:15:49,829
record any UFO visits so I think you

1410
01:15:48,279 --> 01:15:55,769
said I've got more comfortable seat

1411
01:15:49,829 --> 01:16:00,850

Clanton in jettisoning line just my joke

1412
01:15:55,770 --> 01:16:05,760
yeah now put this picture back because

1413
01:16:00,850 --> 01:16:13,840
in connection with this and I was a

1414
01:16:05,760 --> 01:16:18,210
funeral and yellow September things from

1415
01:16:13,840 --> 01:16:20,619
a brother limb of our exponent law and

1416
01:16:18,210 --> 01:16:24,130
there's a chaplain I can't say who he is

1417
01:16:20,619 --> 01:16:26,420
because it might be in trouble

1418
01:16:24,130 --> 01:16:29,779
the social men's world

1419
01:16:26,420 --> 01:16:32,029
and I recanted the story very briefly

1420
01:16:29,779 --> 01:16:34,939
and said to you once afternoon and you

1421
01:16:32,029 --> 01:16:36,769
said what do you think and he sounds

1422
01:16:34,939 --> 01:16:39,319
very interesting when you say because

1423
01:16:36,770 --> 01:16:42,470
when they were computerizing all the

1424
01:16:39,319 --> 01:16:45,649
records from day one from 1957 when it

1425
01:16:42,470 --> 01:16:49,820
started so now all the records for the

1426
01:16:45,649 --> 01:16:53,529
month of August 1996 are missing another

1427
01:16:49,819 --> 01:17:03,739
case of hiding the evidence somewhere

1428
01:16:53,529 --> 01:17:06,229
and then yeah that's yeah under 2016 was

1429
01:17:03,739 --> 01:17:08,239
obviously was the same 20 years the day

1430
01:17:06,229 --> 01:17:11,829
actually practically twenty first of all

1431
01:17:08,239 --> 01:17:14,809
is a couple driving from Holmes Chapel

1432
01:17:11,829 --> 01:17:16,880
back to mutters field at the pass very

1433
01:17:14,810 --> 01:17:19,450
close the rows of main road consistently

1434
01:17:16,880 --> 01:17:22,480
close to quarter past midnight he was

1435
01:17:19,449 --> 01:17:26,800
and you saw this object over the dish

1436
01:17:22,479 --> 01:17:29,539
race variety sparkling lights on it

1437
01:17:26,800 --> 01:17:31,970
moving in human fashion lights not the

1438
01:17:29,539 --> 01:17:34,909
craft didn't see any beam coming down

1439
01:17:31,970 --> 01:17:38,869
like that so they start the car got out

1440
01:17:34,909 --> 01:17:40,489
of a best aloof and eventually got back

1441
01:17:38,869 --> 01:17:42,800
in the car when he got his sheltered

1442
01:17:40,489 --> 01:17:44,989
roundabout people around here across the

1443
01:17:42,800 --> 01:17:46,850
way I mean but you're about two miles

1444
01:17:44,989 --> 01:17:49,189
further on when you turn right and go to

1445
01:17:46,850 --> 01:17:51,710
Michael's field stop they should still

1446
01:17:49,189 --> 01:17:55,460
see it you know because it's like 200

1447
01:17:51,710 --> 01:17:58,789
foot or so above so husband

1448
01:17:55,460 --> 01:18:01,869
come on you despite you might have seen

1449
01:17:58,789 --> 01:18:04,100
its wasted time Rangel drove Bangkok and

1450
01:18:01,869 --> 01:18:07,449
brothers chap on the phones and

1451
01:18:04,100 --> 01:18:10,579
engineering listen or duty engineer who

1452
01:18:07,449 --> 01:18:12,889
sounded very disinterested denied all

1453
01:18:10,579 --> 01:18:15,198
knowledge and his phone felt was a waste

1454

01:18:12,890 --> 01:18:18,020
of time since no one

1455
01:18:15,198 --> 01:18:20,659
you can't happen so I'm wearing at oh I

1456
01:18:18,020 --> 01:18:26,020
forgot when I was researching the

1457
01:18:20,659 --> 01:18:29,409
original 1% of words in the local

1458
01:18:26,020 --> 01:18:32,630
Cheshire paper and the journalist

1459
01:18:29,409 --> 01:18:34,969
brothers noon pointed me to a little

1460
01:18:32,630 --> 01:18:37,159
local freebie paper industry village in

1461
01:18:34,969 --> 01:18:40,159
the where the chat lived who produces

1462
01:18:37,159 --> 01:18:43,939
hamrin goblins so not on his door he

1463
01:18:40,159 --> 01:18:45,260
hadn't seen it in Bobby said in 1966

1464
01:18:43,939 --> 01:18:47,809
which was shortly after it was

1465
01:18:45,260 --> 01:18:50,390
commissioned there was an object sighted

1466
01:18:47,810 --> 01:18:53,570
over the telescope so again it's another

1467
01:18:50,390 --> 01:18:55,940
case of these ETS looking to see what

1468
01:18:53,569 --> 01:18:58,189

we're up to in technologies particularly

1469

01:18:55,939 --> 01:19:02,089

radio telescopes looking into their

1470

01:18:58,189 --> 01:19:07,399

patch so our four instances now our Java

1471

01:19:02,090 --> 01:19:12,230

Bank on witnesses to solid you know UFO

1472

01:19:07,399 --> 01:19:14,029

over the facility also for us we also

1473

01:19:12,229 --> 01:19:16,279

get power from aliens you get the Royals

1474

01:19:14,029 --> 01:19:21,019

delivering on possible argument the same

1475

01:19:16,279 --> 01:19:23,689

thing joke about what the well family

1476

01:19:21,020 --> 01:19:25,640

argument yes so this is what the

1477

01:19:23,689 --> 01:19:27,829

obviously a while back was Prince John's

1478

01:19:25,640 --> 01:19:31,480

looks a bit youngsil their professor

1479

01:19:27,829 --> 01:19:34,850

level i think he was the local dignitary

1480

01:19:31,479 --> 01:19:37,279

now i'm just quickly to fend off this is

1481

01:19:34,850 --> 01:19:40,460

the Arecibo radio telescope in Puerto

1482

01:19:37,279 --> 01:19:42,738

Rico which the times the biggest s-- I

1483
01:19:40,460 --> 01:19:45,980
mean Java bands that Berryman was the

1484
01:19:42,738 --> 01:19:49,000
biggest telescope steerable telescope in

1485
01:19:45,979 --> 01:19:52,519
the whole of Europe and this is the

1486
01:19:49,000 --> 01:19:56,149
receiver which was three or four times

1487
01:19:52,520 --> 01:20:00,110
the size and yes a rico is real now from

1488
01:19:56,149 --> 01:20:03,920
your father is very low hotspot and I've

1489
01:20:00,109 --> 01:20:05,779
just I imagine businesses Arecibo on

1490
01:20:03,920 --> 01:20:08,480
someone's hand and lastly me reporting

1491
01:20:05,779 --> 01:20:12,259
and then this is the latest of last year

1492
01:20:08,479 --> 01:20:14,079
the Chinese 130 times bigger than our

1493
01:20:12,260 --> 01:20:17,140
Siebel general bangin on

1494
01:20:14,079 --> 01:20:20,319
country which so the Chinese usually

1495
01:20:17,140 --> 01:20:24,100
have been Australian about you thought

1496
01:20:20,319 --> 01:20:26,019
stuff on them so I'm interested so to

1497
01:20:24,100 --> 01:20:29,829
know in future will receive news reports

1498
01:20:26,020 --> 01:20:34,210
that the Chinese of constant visits to

1499
01:20:29,829 --> 01:20:35,109
the new school so if it's it is a waste

1500
01:20:34,210 --> 01:20:38,319
of time

1501
01:20:35,109 --> 01:20:41,439
I'm ponder winders are the buildings of

1502
01:20:38,319 --> 01:20:42,969
huge radio telescopes okay maybe other

1503
01:20:41,439 --> 01:20:49,839
things I want to learn from out there

1504
01:20:42,970 --> 01:20:52,079
not eating so much pasta mismo oh just

1505
01:20:49,840 --> 01:20:54,090
some shoulders and here we are this

1506
01:20:52,079 --> 01:20:57,510
smashing picture take max edition

1507
01:20:54,090 --> 01:21:02,650
photographing the goats this is in Crete

1508
01:20:57,510 --> 01:21:04,510
just where they will need a Burgess and

1509
01:21:02,649 --> 01:21:06,399
his crew and the Shackleton have a UFO

1510
01:21:04,510 --> 01:21:11,110
encounter so that he'll come for the

1511

01:21:06,399 --> 01:21:12,250
sunshine and then warm up how many

1512
01:21:11,109 --> 01:21:13,439
people have seen that before all this

1513
01:21:12,250 --> 01:21:16,989
it's a Faton

1514
01:21:13,439 --> 01:21:22,239
this face it Ralph you've been here

1515
01:21:16,989 --> 01:21:24,969
often you still gray and then stanton

1516
01:21:22,239 --> 01:21:30,539
saying remember folks flying saucers are

1517
01:21:24,970 --> 01:21:30,539
real because of usually physicists sol

1518
01:21:31,649 --> 01:21:38,279
and of course they lie here because

1519
01:21:33,909 --> 01:21:38,279
we've got time so appetizing inferential

1520
01:21:38,640 --> 01:21:46,900
spaceships for rent so wonder was seen a

1521
01:21:43,000 --> 01:21:48,909
lot of them all right couple years ago I

1522
01:21:46,899 --> 01:21:52,139
was very proud privileged to receive

1523
01:21:48,909 --> 01:21:56,439
this award from Gary Heseltine and since

1524
01:21:52,140 --> 01:21:59,110
2015 conference complete surprise and I

1525
01:21:56,439 --> 01:22:02,109

was a mystery guest on stage like they

1526

01:21:59,109 --> 01:22:06,819

did with Dutch Street in a way mottled

1527

01:22:02,109 --> 01:22:08,500

recently and like them services a

1528

01:22:06,819 --> 01:22:12,639

British ontology of some people's

1529

01:22:08,500 --> 01:22:15,349

indices months ending up is my birthday

1530

01:22:12,640 --> 01:22:19,159

cake take the handle st. Louis

1531

01:22:15,349 --> 01:22:21,170

ages and my family daughter alistair of

1532

01:22:19,158 --> 01:22:25,549

the Medicaid system by brother-in-law

1533

01:22:21,170 --> 01:22:29,210

and Monson who are into the Vulcan xh558

1534

01:22:25,550 --> 01:22:35,750

1535

01:22:29,210 --> 01:22:40,039

1536

01:22:35,750 --> 01:22:44,179

that matting withers DFC Clinton

1537

01:22:40,039 --> 01:23:03,130

dropping bombs and thoughts on specially

1538

01:22:44,179 --> 01:23:10,158

don't appreciate the young ensign

1539

01:23:03,130 --> 01:23:12,739

English equations P baby these images of

1540
01:23:10,158 --> 01:23:17,328
the mutilations of humans on the dark

1541
01:23:12,738 --> 01:23:19,098
web commences with that quite a recent

1542
01:23:17,328 --> 01:23:20,539
thing that that was found that he where

1543
01:23:19,099 --> 01:23:25,880
was that far about we know the

1544
01:23:20,539 --> 01:23:29,618
background pleasure school didn't you

1545
01:23:25,880 --> 01:23:36,679
tell me you can be buting since in

1546
01:23:29,618 --> 01:23:38,089
Brazil and 2009 so a little that without

1547
01:23:36,679 --> 01:23:39,980
being a police person he would have

1548
01:23:38,090 --> 01:23:42,889
uploaded those photos but they were

1549
01:23:39,979 --> 01:23:44,589
concerned no idea but we don't know who

1550
01:23:42,889 --> 01:23:47,569
uploaded them but they've been a little

1551
01:23:44,590 --> 01:23:51,380
hey Jamie come on sounds in what

1552
01:23:47,569 --> 01:23:53,289
whatever deal with him recently I did a

1553
01:23:51,380 --> 01:23:55,550
long link report

1554
01:23:53,289 --> 01:23:58,099
interchanges of him about the Brazilian

1555
01:23:55,550 --> 01:24:00,770
1988 case he's silly he was wrong the

1556
01:23:58,099 --> 01:24:02,599
main promoters of that and plus the

1557
01:24:00,770 --> 01:24:04,489
information to members or one eventually

1558
01:24:02,599 --> 01:24:09,529
tell me don't and then Tony pann submit

1559
01:24:04,488 --> 01:24:16,519
information way back and but Garris

1560
01:24:09,529 --> 01:24:18,729
conference in 2015 hey Jim speaking took

1561
01:24:16,520 --> 01:24:23,030
him one picture of that young mum

1562
01:24:18,729 --> 01:24:24,589
he made a print for it and he opened it

1563
01:24:23,029 --> 01:24:26,779
in the hotel

1564
01:24:24,590 --> 01:24:28,480
and you sort of took it to Windows

1565
01:24:26,779 --> 01:24:31,489
Elijah may know client

1566
01:24:28,479 --> 01:24:34,299
dan says the bars of a dream I haven't

1567
01:24:31,489 --> 01:24:36,889
seen him since 2006 since an arrogant

1568

01:24:34,300 --> 01:24:41,510
National Conference in Carrick on

1569
01:24:36,890 --> 01:24:44,300
Shannon and he in MMA comes those with

1570
01:24:41,510 --> 01:24:46,220
art anyway the conference did a meal in

1571
01:24:44,300 --> 01:24:50,750
the bar Indian restaurant

1572
01:24:46,220 --> 01:24:53,560
he's had a few beers and Richards there

1573
01:24:50,750 --> 01:24:55,670
as well he's ordering a drink and

1574
01:24:53,560 --> 01:24:57,470
Richard literally told it to Richard

1575
01:24:55,670 --> 01:25:01,279
first and Richards as appealing the told

1576
01:24:57,470 --> 01:25:03,740
me he said to me my sorry about this

1577
01:25:01,279 --> 01:25:09,250
David he said of my story but this man's

1578
01:25:03,739 --> 01:25:12,050
injuries were down to raps and vultures

1579
01:25:09,250 --> 01:25:15,560
and I couldn't believe me is what you're

1580
01:25:12,050 --> 01:25:17,779
saying and I said there's a publisher I

1581
01:25:15,560 --> 01:25:20,470
have a copy it translated into English

1582
01:25:17,779 --> 01:25:23,300

of the two medics who did his postmortem

1583

01:25:20,470 --> 01:25:27,110

clearly say pardon thought four months

1584

01:25:23,300 --> 01:25:30,140

alive he had vital reactions to injuries

1585

01:25:27,109 --> 01:25:33,319

which are my pathologist they looked at

1586

01:25:30,140 --> 01:25:35,930

the pictures confirm the bluish was fact

1587

01:25:33,319 --> 01:25:39,229

that he was alive this viewing bruising

1588

01:25:35,930 --> 01:25:41,360

is a front that in his blood there and

1589

01:25:39,229 --> 01:25:43,519

he eventually died of an attack heart

1590

01:25:41,359 --> 01:25:47,920

attack due to the shock pain of lidge's

1591

01:25:43,520 --> 01:25:50,810

he was receiving and here's at his age a

1592

01:25:47,920 --> 01:25:52,819

saying he was now and it turned out will

1593

01:25:50,810 --> 01:25:56,600

not back from stuff he'd been saying

1594

01:25:52,819 --> 01:25:59,869

that since 2002 so i postulate and said

1595

01:25:56,600 --> 01:26:02,780

to him suggested to him through emails

1596

01:25:59,869 --> 01:26:05,710

have you been warned off because the

1597
01:26:02,779 --> 01:26:10,039
lecture he gave to gary was all about

1598
01:26:05,710 --> 01:26:11,840
some years ago the Brazilian Air Force

1599
01:26:10,039 --> 01:26:14,600
and the Brazilian authorities released

1600
01:26:11,840 --> 01:26:16,400
all their you focused on and permanent

1601
01:26:14,600 --> 01:26:20,750
problems sat in meetings all this brass

1602
01:26:16,399 --> 01:26:22,719
hats handing over all this information

1603
01:26:20,750 --> 01:26:25,180
from their efforts and you

1604
01:26:22,720 --> 01:26:28,150
how has the deal building we give you

1605
01:26:25,180 --> 01:26:31,150
this stuff he was no long promote human

1606
01:26:28,149 --> 01:26:34,299
mutilation we strongly denied it but I

1607
01:26:31,149 --> 01:26:37,599
can see no emotive because it's an

1608
01:26:34,300 --> 01:26:39,880
Italian plug and that explains why he

1609
01:26:37,600 --> 01:26:44,500
was cruel and never commented on it

1610
01:26:39,880 --> 01:26:47,739
wasn't that your one shown to me because

1611
01:26:44,500 --> 01:26:51,250
he knew it was a trouble but the young

1612
01:26:47,739 --> 01:26:54,939
lady the saundra part Benedict from

1613
01:26:51,250 --> 01:26:58,770
hyphenated surname you seem to be aware

1614
01:26:54,939 --> 01:27:00,969
of we tried to say that was some sort of

1615
01:26:58,770 --> 01:27:04,990
natural thing that we're able to send

1616
01:27:00,970 --> 01:27:07,869
ahead an excuse so that's two places at

1617
01:27:04,989 --> 01:27:10,239
least about River at well yes did not

1618
01:27:07,869 --> 01:27:11,229
far from where they found the guy in

1619
01:27:10,239 --> 01:27:14,679
nineteen date

1620
01:27:11,229 --> 01:27:17,859
Lamar big country Brazil Birdman wanted

1621
01:27:14,680 --> 01:27:22,030
couple miles down the coast and what

1622
01:27:17,859 --> 01:27:25,689
think that wasn't enough so I don't know

1623
01:27:22,029 --> 01:27:29,829
so I Melinda malls now I guess she's

1624
01:27:25,689 --> 01:27:33,669
very empty human mutes and she put the

1625

01:27:29,829 --> 01:27:36,039
statement out easy to go say obvious

1626

minutes so well a lot of Agent Orange

1631

normal children can lead to birth

1635
01:28:08,819 --> 01:28:12,960
it certainly doesn't shock me palms and

loans

1638
01:28:13,529 --> 01:28:17,158
this is Linda Moulton Howes intelligent

1639
01:28:15,868 --> 01:28:20,059

woman who's investigating another

1640

01:28:17,158 --> 01:28:24,618

mutilations for well-known twenty years

1641

01:28:20,060 --> 01:28:27,869

longer one Larry water a film on stuff

1642

01:28:24,618 --> 01:28:31,170

it's ours and has she been warned off

1643

01:28:27,868 --> 01:28:33,929

this is a resident guest of Costa comes

1644

01:28:31,170 --> 01:28:36,899

pretty well so there's energy to do the

1645

01:28:33,929 --> 01:28:39,658

mutilations the guy runs comes to coast

1646

01:28:36,899 --> 01:28:41,879

when his name's these days the problem

1647

01:28:39,658 --> 01:28:44,789

pass it to Linda and she vets what the

1648

01:28:41,880 --> 01:28:47,819

said and I reckon she's to keep her

1649

01:28:44,789 --> 01:28:51,179

private profile up in a spot and website

1650

01:28:47,819 --> 01:28:54,149

if it finds without interference and

1651

01:28:51,179 --> 01:28:56,699

authorities you've got to drop register

1652

01:28:54,149 --> 01:28:58,710

human mutilation and that's the right

1653

01:28:56,698 --> 01:29:01,500

topic which is really going to spook

1654
01:28:58,710 --> 01:29:03,960
everybody the populace isn't it and

1655
01:29:01,500 --> 01:29:05,729
always people of go missing we discussed

1656
01:29:03,960 --> 01:29:09,989
the missing people than we as a

1657
01:29:05,729 --> 01:29:12,029
department Toni Dodd said all the police

1658
01:29:09,988 --> 01:29:14,368
files and your options thirty thousand

1659
01:29:12,029 --> 01:29:16,469
people missing so it said if you allow

1660
01:29:14,368 --> 01:29:18,889
for suicides

1661
01:29:16,469 --> 01:29:21,829
people drowning or falling down a month

1662
01:29:18,889 --> 01:29:25,440
hold shop somewhere and then found or

1663
01:29:21,829 --> 01:29:27,929
deliberately want to be my Lord Lucan

1664
01:29:25,439 --> 01:29:30,868
disappeared for marital or financial

1665
01:29:27,929 --> 01:29:32,908
reason all the usual things that the

1666
01:29:30,868 --> 01:29:35,849
police will investigate if you have ten

1667
01:29:32,908 --> 01:29:39,750
percent but for that what's happened to

1668
01:29:35,850 --> 01:29:41,010
all the rest so they're obviously taking

1669
01:29:39,750 --> 01:29:42,420
lots of people

1670
01:29:41,010 --> 01:29:45,119
we'll never come back I mean how

1671
01:29:42,420 --> 01:29:47,399
abductees who repeatedly taken butane

1672
01:29:45,119 --> 01:29:49,170
because they want to monitor and take

1673
01:29:47,399 --> 01:29:52,500
DNA from people through different stages

1674
01:29:49,170 --> 01:29:55,920
in life so they are safeguarded in some

1675
01:29:52,500 --> 01:29:59,579
places there are enhanced in attributes

1676
01:29:55,920 --> 01:30:02,369
as I think David Biggs is you know the

1677
01:29:59,579 --> 01:30:05,970
normal low interesting would be in a

1678
01:30:02,369 --> 01:30:08,630
minute Lincoln countries experiences

1679
01:30:05,970 --> 01:30:12,890
develop skills in photography art

1680
01:30:08,630 --> 01:30:16,380
singing poetry one of his daughters

1681
01:30:12,890 --> 01:30:18,180
informs the mutated girl develop rapidly

1682

01:30:16,380 --> 01:30:20,760
net enrolled in school to school because

1683
01:30:18,180 --> 01:30:22,860
she was way ahead of everyone else so

1684
01:30:20,760 --> 01:30:26,070
that some people looked after physically

1685
01:30:22,859 --> 01:30:28,019
of injuries that normally would kill you

1686
01:30:26,069 --> 01:30:31,109
and then are restored and the medic

1687
01:30:28,020 --> 01:30:32,550
subscription there say this person he'll

1688
01:30:31,109 --> 01:30:36,119
dinner we can fix that

1689
01:30:32,550 --> 01:30:38,400
so clinical all this sort of stuff it's

1690
01:30:36,119 --> 01:30:42,180
clear to me anyway that there are got

1691
01:30:38,399 --> 01:30:43,619
certain people targeted for life and

1692
01:30:42,180 --> 01:30:46,440
they want something off them and

1693
01:30:43,619 --> 01:30:50,399
information and tissue and blood maybe

1694
01:30:46,439 --> 01:30:52,289
we've got a tissue but all the Reston

1695
01:30:50,399 --> 01:30:55,289
that was found and what's happened to

1696
01:30:52,289 --> 01:30:58,680

them it's what only young people through

1697

01:30:55,289 --> 01:31:05,100

children that died under States is a

1698

01:30:58,680 --> 01:31:08,659

website called 411 is it yes David

1699

01:31:05,100 --> 01:31:11,130

Pilates Nico has national forests in

1700

01:31:08,659 --> 01:31:13,800

California in one to the area and

1701

01:31:11,130 --> 01:31:15,359

tremendous was what have formed and

1702

01:31:13,800 --> 01:31:17,880

eleven people in one month or something

1703

01:31:15,359 --> 01:31:21,329

but that's why he came up with that it's

1704

01:31:17,880 --> 01:31:23,699

written boxes women so everyone across

1705

01:31:21,329 --> 01:31:25,859

the world did that sort of research that

1706

01:31:23,699 --> 01:31:33,238

figure of missing people and jump up

1707

01:31:25,859 --> 01:31:35,429

fantastical men we anything else you

1708

01:31:33,238 --> 01:31:38,939

know II found lot of interest book and

1709

01:31:35,430 --> 01:31:40,829

society there was some good evidence you

1710

01:31:38,939 --> 01:31:41,579

know in all nature without going to the

1711
01:31:40,829 --> 01:31:45,269
animals

1712
01:31:41,579 --> 01:31:48,260
huge to show people you made my

1713
01:31:45,270 --> 01:31:48,260
experience among us

1714
01:31:54,939 --> 01:32:03,898
[Applause]

1715
01:32:08,659 --> 01:32:13,078
[Music]

1716
01:32:11,019 --> 01:32:13,079
