

1
00:00:53,000 --> 00:00:59,128
okay here I am with agent Steven I need

2
00:00:56,520 --> 00:01:01,530
you Emlyn I'm fed up from hogging the

3
00:00:59,128 --> 00:01:04,588
limelight so I use my face okay here we

4
00:01:01,530 --> 00:01:09,239
go here we go we're just about to enter

5
00:01:04,588 --> 00:01:12,840
the premises today we've come to see mr.

6
00:01:09,239 --> 00:01:16,349
Kane was in Bishop stunt the night of

7
00:01:12,840 --> 00:01:18,810
the 19th of January 1983 he saw what

8
00:01:16,349 --> 00:01:23,609
appears to be a triangle going over the

9
00:01:18,810 --> 00:01:25,969
lane of Sadie's Nocera between 8:00 and

10
00:01:23,609 --> 00:01:25,969
9:00 p.m.

11
00:01:26,329 --> 00:01:30,769
see you know any can tell us exactly

12
00:01:28,228 --> 00:01:30,769
what happened

13
00:01:52,549 --> 00:02:13,530
hi Steve Lawrence how are you doing so

14
00:02:11,099 --> 00:02:16,739
here we all became Austin is sitting

15
00:02:13,530 --> 00:02:18,780
where it all happened so Ken could you

16
00:02:16,740 --> 00:02:21,150
explain to us exactly what happened on

17
00:02:18,780 --> 00:02:24,330
that night right it's okay

18
00:02:21,150 --> 00:02:27,719
I don't remember much about the day as

19
00:02:24,330 --> 00:02:31,530
as I mentioned in the email that it was

20
00:02:27,719 --> 00:02:34,199
just an ordinary day nothing nothing

21
00:02:31,530 --> 00:02:36,180
eventful happened until after I put the

22
00:02:34,199 --> 00:02:39,479
children to bed and I'd come down to

23
00:02:36,180 --> 00:02:43,050
watch television the TV on sat down

24
00:02:39,479 --> 00:02:46,919
there and within a matter of minutes the

25
00:02:43,050 --> 00:02:49,020
power went off no this was a fairly

26
00:02:46,919 --> 00:02:51,599
regular occurrence of here because at

27
00:02:49,020 --> 00:02:53,640
the time we had three phases open wires

28
00:02:51,599 --> 00:02:57,090
and we used to blow back to the wind and

29

00:02:53,639 --> 00:02:59,039
short outs and obviously that was off

30
00:02:57,090 --> 00:03:01,229
for a while then but on this particular

31
00:02:59,039 --> 00:03:04,919
night there was no wind it was a clear

32
00:03:01,229 --> 00:03:06,299
night and the power went off so i did

33
00:03:04,919 --> 00:03:08,759
what i usually do under those

34
00:03:06,300 --> 00:03:11,130
circumstances i used to get up not so

35
00:03:08,759 --> 00:03:14,189
the window to look at the houses over on

36
00:03:11,129 --> 00:03:17,099
old way to see whether they still had

37
00:03:14,189 --> 00:03:19,739
power on if they did it was just a

38
00:03:17,099 --> 00:03:21,799
problem in our lane but on this

39
00:03:19,739 --> 00:03:25,349
particular night they were off as well

40
00:03:21,800 --> 00:03:27,959
and whilst looking out to the window my

41
00:03:25,349 --> 00:03:31,349
attention was immediately drawn to three

42
00:03:27,959 --> 00:03:32,120
brilliant bluish white lights four in a

43
00:03:31,349 --> 00:03:36,139

triangle

44

00:03:32,120 --> 00:03:40,430

that was slowly moving overhead now I

45

00:03:36,139 --> 00:03:42,529

knew that from some of the things that

46

00:03:40,430 --> 00:03:44,780

are agreed in the past that this was one

47

00:03:42,530 --> 00:03:46,430

of the famous black triangles and not

48

00:03:44,780 --> 00:03:49,459

that I could see it was solid all I

49

00:03:46,430 --> 00:03:51,890

could see were the three lights so I

50

00:03:49,459 --> 00:03:53,840

didn't dare not take my eyes off it in

51

00:03:51,889 --> 00:03:55,878

case anything happened so I moved over

52

00:03:53,840 --> 00:03:59,658

to this end of the window opened the

53

00:03:55,878 --> 00:04:02,719

window frame and just listened and there

54

00:03:59,658 --> 00:04:04,669

was absolute silence now we're in a very

55

00:04:02,719 --> 00:04:07,370

quiet lane where quote away from the

56

00:04:04,669 --> 00:04:09,318

road so we were used to not hearing

57

00:04:07,370 --> 00:04:11,930

anything so if we go to the window could

58
00:04:09,318 --> 00:04:15,139
you point to the exact part the sky we

59
00:04:11,930 --> 00:04:16,639
saw yes okay so I was sitting there so I

60
00:04:15,139 --> 00:04:20,149
would have just walked up to the window

61
00:04:16,639 --> 00:04:22,038
to look the houses you can see across

62
00:04:20,149 --> 00:04:25,159
the village the other side of the road

63
00:04:22,038 --> 00:04:28,159
there over and over and normally they

64
00:04:25,160 --> 00:04:30,169
have got one or two lights on in there

65
00:04:28,160 --> 00:04:33,139
in their houses this which I can see

66
00:04:30,168 --> 00:04:36,288
from here on that particular instance

67
00:04:33,139 --> 00:04:39,259
there was nothing visible and I was

68
00:04:36,288 --> 00:04:42,560
probably standing reasonably close to

69
00:04:39,259 --> 00:04:47,478
the window when I was my attention was

70
00:04:42,560 --> 00:04:49,329
drawn up to that angle there so as I was

71
00:04:47,478 --> 00:04:51,740
standing here looking up to the window

72
00:04:49,329 --> 00:04:52,189
to see whether the lights are on over

73
00:04:51,740 --> 00:04:55,629
there

74
00:04:52,189 --> 00:04:58,490
I noticed three bright white lights in a

75
00:04:55,629 --> 00:05:01,788
triangular formation that had just

76
00:04:58,490 --> 00:05:06,139
passed over the lane and the back to

77
00:05:01,788 --> 00:05:07,899
lights lined up accurately with the run

78
00:05:06,139 --> 00:05:10,210
of our gathering

79
00:05:07,899 --> 00:05:13,779
which to me indicated that it was

80
00:05:10,209 --> 00:05:16,569
crossing the lane at 90 degrees it just

81
00:05:13,779 --> 00:05:21,489
carried on very very slowly over there

82
00:05:16,569 --> 00:05:29,649
and I then moved to open the window so

83
00:05:21,490 --> 00:05:33,490
have a listen and even now you can hear

84
00:05:29,649 --> 00:05:36,149
that is virtually no sound at all so I

85
00:05:33,490 --> 00:05:39,819
watched it from here for a while until

86

00:05:36,149 --> 00:05:41,769
it passed over the trees over there and

87
00:05:39,819 --> 00:05:43,180
then God's finger and fainter and

88
00:05:41,769 --> 00:05:46,899
fainter as it disappeared in the

89
00:05:43,180 --> 00:05:50,230
distance over to West cross ultimately

90
00:05:46,899 --> 00:05:52,299
out over Swansea they presumably okay so

91
00:05:50,230 --> 00:05:56,500
this would mean a west to easterly

92
00:05:52,300 --> 00:05:58,750
direction a west taste well you say

93
00:05:56,500 --> 00:06:00,129
those lights on it how great were the

94
00:05:58,750 --> 00:06:01,990
whites and I mean looking at the Jets

95
00:06:00,129 --> 00:06:03,089
and you just mentioned before to us I

96
00:06:01,990 --> 00:06:09,930
think that there was

97
00:06:03,089 --> 00:06:14,079
you see Jets come across the Jets have

98
00:06:09,930 --> 00:06:19,750
strobe lights on them which exactly

99
00:06:14,079 --> 00:06:25,240
these lights I would estimate but as

100
00:06:19,750 --> 00:06:26,649

bright as Venus or the space station

101

00:06:25,240 --> 00:06:29,230

going over okay in about the same time

102

00:06:26,649 --> 00:06:31,899

but the same size it you could see it

103

00:06:29,230 --> 00:06:34,000

wasn't a spotted light it was it

104

00:06:31,899 --> 00:06:35,560

actually had a physical shape but you

105

00:06:34,000 --> 00:06:40,959

know they need to be run I know it's

106

00:06:35,560 --> 00:06:43,389

difficult it's very difficult without

107

00:06:40,959 --> 00:06:45,370

any cross reference to see even if

108

00:06:43,389 --> 00:06:47,019

anybody asks it's Signet we you know we

109

00:06:45,370 --> 00:06:49,149

would have been able to say that you

110

00:06:47,019 --> 00:06:50,829

know taking sort of triangulation from

111

00:06:49,149 --> 00:06:52,899

different areas we could have worked

112

00:06:50,829 --> 00:06:55,810

over the how to proceed morning but I

113

00:06:52,899 --> 00:06:56,888

would say that going from the angle and

114

00:06:55,810 --> 00:06:59,468

the speed at which

115
00:06:56,889 --> 00:07:04,060
travelled across there initially I

116
00:06:59,468 --> 00:07:07,930
thought it would have to be at sort of

117
00:07:04,060 --> 00:07:09,879
commercial airline height because it was

118
00:07:07,930 --> 00:07:12,579
going above the speed that a plane would

119
00:07:09,879 --> 00:07:14,710
be going but then thinking about it if

120
00:07:12,579 --> 00:07:17,468
that was at the same height as a

121
00:07:14,709 --> 00:07:20,198
commercial flight the the lights on it

122
00:07:17,468 --> 00:07:25,028
would have been brilliantly bright and

123
00:07:20,199 --> 00:07:26,259
very large and that that was based

124
00:07:25,028 --> 00:07:29,288
purely on the speed that it was

125
00:07:26,259 --> 00:07:31,860
traveling now then considering that

126
00:07:29,288 --> 00:07:37,209
commercial flights go over at about

127
00:07:31,860 --> 00:07:39,009
35,000 feet I'm really reasonably

128
00:07:37,209 --> 00:07:42,878
certain that this was no way anywhere

129
00:07:39,009 --> 00:07:44,408
much higher than possibly 500 2,000 feet

130
00:07:42,879 --> 00:07:47,199
you couldn't physically make any sort of

131
00:07:44,408 --> 00:07:49,028
physical form of it no nothing at all it

132
00:07:47,199 --> 00:07:50,949
is exactly the same color is the

133
00:07:49,028 --> 00:07:53,079
backroom sky it would definitely say it

134
00:07:50,949 --> 00:07:54,788
was one object wait see what it seemed

135
00:07:53,079 --> 00:07:57,698
even one option on three lights they

136
00:07:54,788 --> 00:08:00,728
didn't vary in distance apart at all

137
00:07:57,699 --> 00:08:03,788
they maintained the formation as they

138
00:08:00,728 --> 00:08:06,008
went yes it was the race at the time but

139
00:08:03,788 --> 00:08:09,370
what people were seeing a lot that night

140
00:08:06,009 --> 00:08:09,908
were planes mean wreaths fair Walton in

141
00:08:09,370 --> 00:08:11,500
flight

142
00:08:09,908 --> 00:08:15,009
do you think there's a possibility of

143

00:08:11,500 --> 00:08:17,408
that I don't think so if if those were

144
00:08:15,009 --> 00:08:19,210
three commercial or three military

145
00:08:17,408 --> 00:08:22,418
planes eaten

146
00:08:19,209 --> 00:08:24,158
I reckon that if they were at that sort

147
00:08:22,418 --> 00:08:26,918
of height 35,000 feet they'd have been

148
00:08:24,158 --> 00:08:29,319
well by the part so there's no way there

149
00:08:26,918 --> 00:08:31,870
could be refueling at that very distance

150
00:08:29,319 --> 00:08:34,329
and they made no attempt to move

151
00:08:31,870 --> 00:08:37,389
together which was what made me think

152
00:08:34,328 --> 00:08:40,328
that it was a solid object which I

153
00:08:37,389 --> 00:08:42,338
couldn't see I was desperately hoping I

154
00:08:40,328 --> 00:08:44,349
could see something the distance apart

155
00:08:42,339 --> 00:08:46,630
that the lights were if it had been very

156
00:08:44,350 --> 00:08:49,180
high up in the sky it would have been

157
00:08:46,629 --> 00:08:51,549

what size it would have been a mile by

158

00:08:49,179 --> 00:08:52,899

mile I reckon so that maybe was a bit

159

00:08:51,549 --> 00:08:55,199

lower it was quite a bit lower

160

00:08:52,899 --> 00:08:57,450

I'm convinced it was a

161

00:08:55,200 --> 00:09:00,270

quite a quite a lot lower than that and

162

00:08:57,450 --> 00:09:02,400

moving probably nothing more than about

163

00:09:00,269 --> 00:09:05,039

30 to 40 miles an hour to bring you

164

00:09:02,399 --> 00:09:06,149

silently completely silent yeah and then

165

00:09:05,039 --> 00:09:08,279

you observed it until it just

166

00:09:06,149 --> 00:09:10,319

disappeared out of view it disappeared

167

00:09:08,279 --> 00:09:13,110

out of you didn't do anything else it

168

00:09:10,320 --> 00:09:14,790

just flew in a dead straight line and it

169

00:09:13,110 --> 00:09:17,220

obviously got smaller and smaller and

170

00:09:14,789 --> 00:09:19,259

smaller the let's maintain their

171

00:09:17,220 --> 00:09:22,290

relative positions as they went across

172
00:09:19,259 --> 00:09:27,000
the field and it just disappeared behind

173
00:09:22,289 --> 00:09:31,049
the trees eventually it seemed like I

174
00:09:27,000 --> 00:09:37,230
was but it was your heart in your chest

175
00:09:31,049 --> 00:09:41,609
oh yes yeah yeah because I'd been a fan

176
00:09:37,230 --> 00:09:43,800
of sci-fi for years I think it was not

177
00:09:41,610 --> 00:09:45,720
long after Close Encounters of the Third

178
00:09:43,799 --> 00:09:47,399
Kind do you think that affected your

179
00:09:45,720 --> 00:09:49,980
judgment or do you think there was this

180
00:09:47,399 --> 00:09:51,840
a crystal clear you know it was crystal

181
00:09:49,980 --> 00:09:53,970
clear I I think I said in my email

182
00:09:51,840 --> 00:09:58,769
earlier that with my background as an

183
00:09:53,970 --> 00:10:03,170
engineer I am sort of trained to think

184
00:09:58,769 --> 00:10:05,789
logically and not put any any sort of

185
00:10:03,169 --> 00:10:08,610
intonation or anything in the way I say

186
00:10:05,789 --> 00:10:10,500
things I don't I don't want to indicate

187
00:10:08,610 --> 00:10:12,419
that it was anything other than what I

188
00:10:10,500 --> 00:10:15,179
saw it didn't do anything it just yeah

189
00:10:12,419 --> 00:10:17,549
move slowly across the sky there were no

190
00:10:15,179 --> 00:10:19,469
laser beams in or flashing on and that's

191
00:10:17,549 --> 00:10:21,509
no flashing lights nothing at all

192
00:10:19,470 --> 00:10:24,389
how long was it between the time the

193
00:10:21,509 --> 00:10:26,879
electricity failed when you actually

194
00:10:24,389 --> 00:10:33,529
noticed as long as it took me to get up

195
00:10:26,879 --> 00:10:33,529
from that's it coincided this

196
00:10:34,879 --> 00:10:40,509
electricity coming back on

197
00:10:37,509 --> 00:10:42,879
huh it was probably about half an hour

198
00:10:40,509 --> 00:10:44,319
later everything because I think when

199
00:10:42,879 --> 00:10:46,539
the Alpha City goes off they died the

200

00:10:44,320 --> 00:10:48,790
hack they have either have to get a man

201
00:10:46,539 --> 00:10:50,829
out to the local substation to reset the

202
00:10:48,789 --> 00:10:52,209
circuit breaker more possibly they may

203
00:10:50,830 --> 00:10:54,370
have been able to do a dream in early

204
00:10:52,210 --> 00:10:57,490
another important point in the paper the

205
00:10:54,370 --> 00:10:59,919
following day the cause of the power

206
00:10:57,490 --> 00:11:02,279
failure the power company said it was

207
00:10:59,919 --> 00:11:05,199
probably caused by a branch of a tree

208
00:11:02,279 --> 00:11:07,509
coming down in strong wind and knocking

209
00:11:05,200 --> 00:11:15,310
out the power on the father Lambert was

210
00:11:07,509 --> 00:11:18,639
there any wind so I I was beginning to

211
00:11:15,309 --> 00:11:21,069
wonder haven't seen the report and even

212
00:11:18,639 --> 00:11:23,139
post the following night whether what

213
00:11:21,070 --> 00:11:24,730
I'd seen was something completely

214
00:11:23,139 --> 00:11:28,269

different from what everybody else had

215

00:11:24,730 --> 00:11:30,639

seen to the best of my knowledge I have

216

00:11:28,269 --> 00:11:32,439

not met or heard of anybody else who

217

00:11:30,639 --> 00:11:36,669

observed this particular one going over

218

00:11:32,440 --> 00:11:40,390

bishops then and I don't know whether it

219

00:11:36,669 --> 00:11:43,689

came in over pan out or kettle and then

220

00:11:40,389 --> 00:11:46,960

headed out all the way across but we

221

00:11:43,690 --> 00:11:49,300

have plotted from witness statements and

222

00:11:46,960 --> 00:11:51,490

reports that there were dozens of

223

00:11:49,299 --> 00:11:53,679

reports going off triangles going all

224

00:11:51,490 --> 00:11:58,149

directions around Swansea mm-hmm

225

00:11:53,679 --> 00:12:00,279

actually go up the tunnel but yeah so

226

00:11:58,149 --> 00:12:01,809

it's sometimes at the same time so

227

00:12:00,279 --> 00:12:02,439

there's it looks like there were several

228

00:12:01,809 --> 00:12:04,839

objects

229
00:12:02,440 --> 00:12:06,570
yeah doing different things doing two

230
00:12:04,840 --> 00:12:08,560
different directions at the same time

231
00:12:06,570 --> 00:12:12,640
can we talk down to that particular

232
00:12:08,559 --> 00:12:14,019
night turn Oh only on the basis of what

233
00:12:12,639 --> 00:12:16,210
appeared in the Evening Post the

234
00:12:14,019 --> 00:12:17,289
following day right because I remember

235
00:12:16,210 --> 00:12:19,330
going into work and telling my

236
00:12:17,289 --> 00:12:23,259
colleagues that I had seen something in

237
00:12:19,330 --> 00:12:27,190
the sky the night before oh yes ridicule

238
00:12:23,259 --> 00:12:28,799
critical yes yeah and I told them of the

239
00:12:27,190 --> 00:12:30,930
power failure

240
00:12:28,799 --> 00:12:32,549
that meant anything to anybody else it

241
00:12:30,929 --> 00:12:35,489
was reported in the paper so yeah that's

242
00:12:32,549 --> 00:12:38,838
he's yeah absolute I don't know that I I

243
00:12:35,490 --> 00:12:42,930
was aware that there is a link between

244
00:12:38,839 --> 00:12:46,649
power outages and American UFO was being

245
00:12:42,929 --> 00:12:49,289
observed so I thought this was going to

246
00:12:46,649 --> 00:12:51,809
be my my sort of X Phi involvement but

247
00:12:49,289 --> 00:12:54,059
it was just rather boring everything did

248
00:12:51,809 --> 00:12:57,919
it just carried on 22 years ago although

249
00:12:54,059 --> 00:13:02,189
yeah so how long did they mercilessly

250
00:12:57,919 --> 00:13:04,319
2014 work they just roped it off because

251
00:13:02,190 --> 00:13:07,440
they they haven't seen even posts to

252
00:13:04,320 --> 00:13:11,040
that point yes so because it was first

253
00:13:07,440 --> 00:13:13,050
thing the following morning but I think

254
00:13:11,039 --> 00:13:15,299
I think there was a little bit more

255
00:13:13,049 --> 00:13:17,578
leeway once once the evenin post has

256
00:13:15,299 --> 00:13:19,500
been seen and that I wasn't the only one

257

00:13:17,578 --> 00:13:21,179
to see that and you're lucky then

258
00:13:19,500 --> 00:13:23,220
because you should see some of them me

259
00:13:21,179 --> 00:13:25,588
and the fellas that I talk to it's just

260
00:13:23,220 --> 00:13:29,940
like you know the skepticism is is

261
00:13:25,589 --> 00:13:32,220
breathtaking right and oh you've never

262
00:13:29,940 --> 00:13:36,779
seen anything since nothing one other

263
00:13:32,220 --> 00:13:40,139
one off yeah and I I did say in in my

264
00:13:36,778 --> 00:13:43,588
email that I've been watching the sky

265
00:13:40,139 --> 00:13:46,470
since I was about 11 and I desperately

266
00:13:43,589 --> 00:13:48,720
wanted to see a UFO you know I was

267
00:13:46,470 --> 00:13:52,829
interested in astronomy you know I could

268
00:13:48,720 --> 00:13:55,860
spot some of the constellations so I was

269
00:13:52,828 --> 00:13:58,169
used to looking at the sky and shooting

270
00:13:55,860 --> 00:14:02,339
stars and what those were I've seen a

271
00:13:58,169 --> 00:14:07,309

comment I've seen the space station go

272

00:14:02,339 --> 00:14:11,370

over now if we had three space stations

273

00:14:07,309 --> 00:14:14,159

flying over in a formation that would be

274

00:14:11,370 --> 00:14:16,230

roughly what I saw because the speed at

275

00:14:14,159 --> 00:14:18,600

which the space station goes over the

276

00:14:16,230 --> 00:14:21,720

speed at which planes go over and it was

277

00:14:18,600 --> 00:14:23,790

the same sort of relative speed to what

278

00:14:21,720 --> 00:14:26,070

that seemed to be doing and obviously

279

00:14:23,789 --> 00:14:27,360

the this I think was probably less than

280

00:14:26,070 --> 00:14:29,500

a thousand feet up

281

00:14:27,360 --> 00:14:32,710

planes are 35

282

00:14:29,500 --> 00:14:34,960

on the Space Station's about 220 miles

283

00:14:32,710 --> 00:14:37,269

I'm doing 70 and a half thousand miles

284

00:14:34,960 --> 00:14:38,769

an hour or that ones so you can see that

285

00:14:37,269 --> 00:14:40,809

obviously the higher there are people

286
00:14:38,769 --> 00:14:44,649
already appearing to be going up at the

287
00:14:40,809 --> 00:14:46,299
same speed because of the the angle that

288
00:14:44,649 --> 00:14:47,409
you lock into things and the fact that

289
00:14:46,299 --> 00:14:49,299
they're further away and they're

290
00:14:47,409 --> 00:14:51,579
traveling faster they end up looking

291
00:14:49,299 --> 00:14:54,429
this to be traveling the same sort of

292
00:14:51,580 --> 00:14:56,440
speed which was why I was misled

293
00:14:54,429 --> 00:14:59,979
initially when I saw it to think that it

294
00:14:56,440 --> 00:15:02,680
was a commercial aircraft height because

295
00:14:59,980 --> 00:15:05,740
I thought whatever those things are they

296
00:15:02,679 --> 00:15:10,149
they can't be as low as they love to be

297
00:15:05,740 --> 00:15:12,970
but I think they were so it was it

298
00:15:10,149 --> 00:15:16,840
seemed to be that it was a heavier than

299
00:15:12,970 --> 00:15:24,370
air craft but which was just traveling

300
00:15:16,840 --> 00:15:26,399
at possibly 30 to 40 miles an hour no

301
00:15:24,370 --> 00:15:28,659
there was no house next door at the time

302
00:15:26,399 --> 00:15:30,490
there was normally delivered next door

303
00:15:28,659 --> 00:15:31,569
so should I shouldn't have seen anything

304
00:15:30,490 --> 00:15:37,240
anyway

305
00:15:31,570 --> 00:15:39,040
but it was if the power hadn't gone off

306
00:15:37,240 --> 00:15:39,879
I wouldn't have seen it because I

307
00:15:39,039 --> 00:15:41,980
wouldn't have been looking out the

308
00:15:39,879 --> 00:15:45,129
window for it right exactly

309
00:15:41,980 --> 00:15:47,259
at the time we because we had got an

310
00:15:45,129 --> 00:15:49,750
overhead power feed here we've got a

311
00:15:47,259 --> 00:15:52,779
circuit breaker on the incoming mains

312
00:15:49,750 --> 00:15:54,940
and lightning would tripped I felt as

313
00:15:52,779 --> 00:15:57,490
well but we hear that got crap because

314

00:15:54,940 --> 00:15:58,930
is a mechanical breaker search so if

315
00:15:57,490 --> 00:16:00,759
there was lightning and it went off

316
00:15:58,929 --> 00:16:02,589
you'd hear the crack so I've got reset

317
00:16:00,759 --> 00:16:04,569
it and everything would be fine but

318
00:16:02,590 --> 00:16:07,660
don't this physical a night it was just

319
00:16:04,570 --> 00:16:10,390
a power cut there was no nothing to

320
00:16:07,659 --> 00:16:12,490
account for it other than what I saw it

321
00:16:10,389 --> 00:16:16,689
at the window after otherwise was it's

322
00:16:12,490 --> 00:16:21,279
clear he does quickly clear scene starts

323
00:16:16,690 --> 00:16:24,370
yeah I was hoping that this object would

324
00:16:21,279 --> 00:16:26,889
fly underneath a star and block it out

325
00:16:24,370 --> 00:16:29,980
so that I could then determine that it

326
00:16:26,889 --> 00:16:31,240
was a solid object but unfortunately

327
00:16:29,980 --> 00:16:34,860
didn't and of course the further away

328
00:16:31,240 --> 00:16:34,860

you got it was

329

00:16:35,740 --> 00:16:39,019

well first we're getting in touch with

330

00:16:37,879 --> 00:16:42,559

us my pleasure

331

00:16:39,019 --> 00:16:45,049

little piece of the jigsaw yeah Thank

332

00:16:42,559 --> 00:16:45,649

You appreciate it thank you thank you

333

00:16:45,049 --> 00:16:48,169

later

334

00:16:45,649 --> 00:16:50,439

salmon said it's a piece of a jigsaw has

335

00:16:48,169 --> 00:16:53,059

been so many reports of these triangles

336

00:16:50,440 --> 00:16:54,890

we're trying to get to trace as many

337

00:16:53,059 --> 00:16:58,399

people as we can so we appreciate you

338

00:16:54,889 --> 00:17:01,370

coming forward it's good well it is at

339

00:16:58,399 --> 00:17:03,559

the time because there were so many

340

00:17:01,370 --> 00:17:05,859

conflicting reports that evening post

341

00:17:03,559 --> 00:17:09,099

they thought well it's gone now it's

342

00:17:05,859 --> 00:17:12,948

reported - I don't had no idea and

343
00:17:09,099 --> 00:17:14,838
because mine was markedly different to

344
00:17:12,949 --> 00:17:17,420
what other people reporting I thought

345
00:17:14,838 --> 00:17:19,549
well then perhaps I didn't see what I

346
00:17:17,420 --> 00:17:22,910
thought they saw but I convinced it I

347
00:17:19,549 --> 00:17:25,609
you said your wife was up to them yeah

348
00:17:22,910 --> 00:17:27,890
yeah so you didn't share it with anybody

349
00:17:25,609 --> 00:17:29,869
no witnesses at all no other than me

350
00:17:27,890 --> 00:17:32,509
What did he say - when she got on well I

351
00:17:29,869 --> 00:17:34,549
told her and I don't think she believed

352
00:17:32,509 --> 00:17:36,170
me either and with the passage of time

353
00:17:34,549 --> 00:17:44,200
she's completely forgotten that I ever

354
00:17:36,170 --> 00:17:47,269
said it no how long do you know 68 no no

355
00:17:44,200 --> 00:17:52,670
it's 34 did you find for all time

356
00:17:47,269 --> 00:17:58,279
yeah so I had all my faculties that I've

357
00:17:52,670 --> 00:17:59,930
been drinking no I think I just brought

358
00:17:58,279 --> 00:18:01,279
the children debates but they've got

359
00:17:59,930 --> 00:18:03,140
NORAD connection we're doing that

360
00:18:01,279 --> 00:18:06,259
because it was something that you do on

361
00:18:03,140 --> 00:18:08,360
a regular basis and it wasn't until the

362
00:18:06,259 --> 00:18:12,109
power went off the myth made the Knights

363
00:18:08,359 --> 00:18:15,649
at all remarkable but it was a

364
00:18:12,109 --> 00:18:17,990
remarkable like it was yeah and you

365
00:18:15,650 --> 00:18:20,120
haven't had any reports from anywhere

366
00:18:17,990 --> 00:18:21,799
jeonggi our that might have seen the

367
00:18:20,119 --> 00:18:23,299
same sort of thing that night not on

368
00:18:21,799 --> 00:18:24,859
that night not reviewed we want lots of

369
00:18:23,299 --> 00:18:26,690
thoughts from the kettle and Bishop

370
00:18:24,859 --> 00:18:29,029
stone area oh yeah different things

371

00:18:26,690 --> 00:18:30,860
different lights man I feel very very so

372
00:18:29,029 --> 00:18:36,589
the parts of swansea Morrision sketti

373
00:18:30,859 --> 00:18:38,089
things yeah was there any feelings of

374
00:18:36,589 --> 00:18:40,609
constantly issue at the time you know

375
00:18:38,089 --> 00:18:42,019
did you earn was it kind of like not

376
00:18:40,609 --> 00:18:43,639
going to sleep till three o'clock in the

377
00:18:42,019 --> 00:18:45,529
morning or was it did it clean your mind

378
00:18:43,640 --> 00:18:48,590
oh oh yes it would have played in my

379
00:18:45,529 --> 00:18:51,379
mind because as I said it was not long

380
00:18:48,589 --> 00:18:55,220
after closely covers that I needed come

381
00:18:51,380 --> 00:18:57,350
out so I was fully expecting I liked

382
00:18:55,220 --> 00:19:00,470
show at some point from this but it

383
00:18:57,349 --> 00:19:04,579
never happened it was it was just three

384
00:19:00,470 --> 00:19:06,410
nights with with no discernible body to

385
00:19:04,579 --> 00:19:09,109

it and they they just went in a straight

386

00:19:06,410 --> 00:19:11,509

line across the sky but because of the

387

00:19:09,109 --> 00:19:14,500

speed they were moving I'm convinced

388

00:19:11,509 --> 00:19:16,308

they were they were relatively low

389

00:19:14,500 --> 00:19:19,160

though we really appreciate you coming

390

00:19:16,308 --> 00:19:21,049

for because it's it's probably spongy's

391

00:19:19,160 --> 00:19:22,460

mass sighting as well there's only one

392

00:19:21,049 --> 00:19:25,159

other thing and then as far as you know

393

00:19:22,460 --> 00:19:27,529

certain mass thank you let me know of it

394

00:19:25,160 --> 00:19:32,058

yeah it's like our Phoenix lights in the

395

00:19:27,529 --> 00:19:33,920

way if I could carry on going I reckon

396

00:19:32,058 --> 00:19:37,308

it would have gone out over West cross

397

00:19:33,920 --> 00:19:40,190

and up to Swansea day a man was plus

398

00:19:37,308 --> 00:19:44,119

Albert was headed but because you can't

399

00:19:40,190 --> 00:19:46,580

actually be accurate about which handle

400
00:19:44,119 --> 00:19:47,779
it went I think it might have gone over

401
00:19:46,579 --> 00:19:52,279
to what Swansea docks

402
00:19:47,779 --> 00:19:54,259
if it hadn't changed course but but it

403
00:19:52,279 --> 00:19:55,730
appears that nobody has saw what I saw

404
00:19:54,259 --> 00:19:58,460
that night

405
00:19:55,730 --> 00:20:00,349
killed by Hill yeah yeah what I'm going

406
00:19:58,460 --> 00:20:03,620
to do it has been log in the directions

407
00:20:00,349 --> 00:20:05,959
of all the sightings to see ya correlate

408
00:20:03,619 --> 00:20:07,329
with each other yeah see there's been

409
00:20:05,960 --> 00:20:09,279
several sightings into

410
00:20:07,329 --> 00:20:12,099
positions over Swansea on the same night

411
00:20:09,279 --> 00:20:13,859
around the same time yeah so it looks

412
00:20:12,099 --> 00:20:17,379
like there was more than one object

413
00:20:13,859 --> 00:20:19,329
observed so I was interested in to see

414
00:20:17,380 --> 00:20:22,300
if we can sort of plot them and see what

415
00:20:19,329 --> 00:20:24,849
were actually measuring yeah I've got a

416
00:20:22,299 --> 00:20:28,389
vague recollection that in the Evening

417
00:20:24,849 --> 00:20:33,069
Post at the time there was a mention of

418
00:20:28,390 --> 00:20:38,080
a 14 year old boy in the ship Stone who

419
00:20:33,069 --> 00:20:39,759
was logging UFO reports on the in the

420
00:20:38,079 --> 00:20:42,909
late nineties yeah yeah

421
00:20:39,759 --> 00:20:45,579
Neil spring all right okay so you

422
00:20:42,910 --> 00:20:47,470
obviously know of him then yeah he's

423
00:20:45,579 --> 00:20:50,139
been in the press again recently so he's

424
00:20:47,470 --> 00:20:52,240
writing fiction though right

425
00:20:50,140 --> 00:20:55,990
as soon as called the Watchers which has

426
00:20:52,240 --> 00:20:57,670
been made for TV no Scott right okay but

427
00:20:55,990 --> 00:21:00,880
at the time yeah he was he was doing

428

00:20:57,670 --> 00:21:04,660
quite a lot of research hmm I had no

429
00:21:00,880 --> 00:21:07,630
idea when or where he was so I didn't

430
00:21:04,660 --> 00:21:10,960
come didn't try and contact into to be

431
00:21:07,630 --> 00:21:15,850
poor today so because I as I say I was a

432
00:21:10,960 --> 00:21:17,440
little bit concerned that what I had

433
00:21:15,849 --> 00:21:19,509
seen being so different from what

434
00:21:17,440 --> 00:21:21,220
everybody else it seemed that I might

435
00:21:19,509 --> 00:21:24,750
have been believed so I thought I'll

436
00:21:21,220 --> 00:21:24,750
just leave that and see what happens I

437
00:21:28,289 --> 00:21:31,889
was going to y'all

438
00:21:32,130 --> 00:21:40,049
because of my background with astronomy

439
00:21:36,869 --> 00:21:43,469
and interesting sci-fi yeah as soon as I

440
00:21:40,048 --> 00:21:48,839
saw three lights and a triangle I knew

441
00:21:43,470 --> 00:21:50,460
what it was and I was there were all

442
00:21:48,839 --> 00:21:52,109

sorts of things going through my mind am

443

00:21:50,460 --> 00:21:56,400

I going to be abducted was one of them

444

00:21:52,109 --> 00:21:59,189

yeah really yeah because because I'd

445

00:21:56,400 --> 00:22:01,860

open the window I was knocking straight

446

00:21:59,190 --> 00:22:04,288

up at it it crossed my mind this is Lisa

447

00:22:01,859 --> 00:22:06,658

being gonna come down and whisk me off

448

00:22:04,288 --> 00:22:10,470

somewhere but nothing like that happened

449

00:22:06,659 --> 00:22:12,630

at all it's it is just through over and

450

00:22:10,470 --> 00:22:13,980

there was nothing really to report about

451

00:22:12,630 --> 00:22:18,059

it only the fact that it was a

452

00:22:13,980 --> 00:22:20,220

triangular shape it also occurred to me

453

00:22:18,058 --> 00:22:21,269

whether it might have been some secret

454

00:22:20,220 --> 00:22:23,579

military craft

455

00:22:21,269 --> 00:22:25,889

you know but they were testing but I

456

00:22:23,579 --> 00:22:28,230

thought why would they duel out over

457
00:22:25,890 --> 00:22:30,419
Bishop's turn on a winter's night which

458
00:22:28,230 --> 00:22:31,950
was clear you know they loved it that

459
00:22:30,419 --> 00:22:34,200
same it didn't make any sense at all

460
00:22:31,950 --> 00:22:37,440
even though there's there were US

461
00:22:34,200 --> 00:22:45,569
military Danny Brody at the time but in

462
00:22:37,440 --> 00:22:47,548
Pembrokeshire come back I'm making a

463
00:22:45,569 --> 00:22:48,450
hundred calls for this again I'm waking

464
00:22:47,548 --> 00:22:52,019
up to worry again

465
00:22:48,450 --> 00:22:54,960
it was it was it around as IAT I I don't

466
00:22:52,019 --> 00:22:58,558
think I had any real anxiety about

467
00:22:54,960 --> 00:23:01,019
anything coming back because I watched

468
00:22:58,558 --> 00:23:03,658
it until I could no longer see it it

469
00:23:01,019 --> 00:23:05,639
disappeared in the distance yeah and it

470
00:23:03,659 --> 00:23:08,520
didn't it didn't fly off it didn't do

471
00:23:05,640 --> 00:23:12,960
any aerobic or impossible maneuvers or

472
00:23:08,519 --> 00:23:14,579
anywhere and having seen it from just in

473
00:23:12,960 --> 00:23:16,679
front of the house and disappear in the

474
00:23:14,579 --> 00:23:20,819
distance I thought right that's it

475
00:23:16,679 --> 00:23:23,159
that's over and I mean for a few nights

476
00:23:20,819 --> 00:23:26,278
I was I was looking up to the window to

477
00:23:23,159 --> 00:23:28,710
see if anything else was about it gave

478
00:23:26,278 --> 00:23:30,700
up after a while because in the last 30

479
00:23:28,710 --> 00:23:33,440
odd years I've not seen

480
00:23:30,700 --> 00:23:35,360
I asked this question before was it

481
00:23:33,440 --> 00:23:36,380
every Union to sort of know like a few

482
00:23:35,359 --> 00:23:38,389
years down the lane

483
00:23:36,380 --> 00:23:40,970
I wish I could see Malone you know

484
00:23:38,390 --> 00:23:44,090
almost like boom in yes

485

00:23:40,970 --> 00:23:46,190
yeah yet to confer because because I

486
00:23:44,089 --> 00:23:48,339
felt that I was possibly the only one to

487
00:23:46,190 --> 00:23:52,130
see it because of the power cut yeah

488
00:23:48,339 --> 00:23:53,899
that I I was rather hoping that I could

489
00:23:52,130 --> 00:23:56,080
see something asked me maybe maybe

490
00:23:53,900 --> 00:24:03,850
something completely different so it's

491
00:23:56,079 --> 00:24:06,589
just just to see it once in 60 odd years

492
00:24:03,849 --> 00:24:09,439
you've you've got no chance to you know

493
00:24:06,589 --> 00:24:12,619
to confirm that anybody else saw it or

494
00:24:09,440 --> 00:24:14,450
what it was that you saw so it'll

495
00:24:12,619 --> 00:24:18,619
forever remain a mystery it sounds like

496
00:24:14,450 --> 00:24:21,200
he said but what I'm glad experience

497
00:24:18,619 --> 00:24:23,569
what do you deep down feelings you know

498
00:24:21,200 --> 00:24:25,670
you deep down inside that he would

499
00:24:23,569 --> 00:24:28,899

rather do you really think that that was

500

00:24:25,670 --> 00:24:33,200
real well I'm convinced it is real

501

00:24:28,900 --> 00:24:38,690
I've seen some reports on the internet

502

00:24:33,200 --> 00:24:42,080
that the three three worked in a track

503

00:24:38,690 --> 00:24:46,460
configuration is an atmospheric

504

00:24:42,079 --> 00:24:50,210
condition and I thought well they were

505

00:24:46,460 --> 00:24:51,890
all perfectly aligned on the corners of

506

00:24:50,210 --> 00:24:53,900
a triangle yeah but that fee was just

507

00:24:51,890 --> 00:24:56,150
recently came up yeah it didn't they

508

00:24:53,900 --> 00:24:59,509
didn't move it they didn't fluctuate at

509

00:24:56,150 --> 00:25:02,480
all they're a constant white light but

510

00:24:59,509 --> 00:25:05,420
again a bluish white light and the thing

511

00:25:02,480 --> 00:25:08,420
was that it wasn't a downward facing

512

00:25:05,420 --> 00:25:11,120
spotlight because as it disappeared into

513

00:25:08,420 --> 00:25:13,400
the distance I could still see them so

514
00:25:11,119 --> 00:25:16,969
so think it'll be another manual it was

515
00:25:13,400 --> 00:25:21,140
well I think it might have been a sort

516
00:25:16,970 --> 00:25:23,180
of semi surplus variable light on on the

517
00:25:21,140 --> 00:25:25,490
bottom of the craft so that it was

518
00:25:23,180 --> 00:25:27,890
visible from directly underneath and

519
00:25:25,490 --> 00:25:32,180
from behind as they disappeared while

520
00:25:27,890 --> 00:25:36,710
because the the three lights went off

521
00:25:32,180 --> 00:25:38,600
into the distance and even just before

522
00:25:36,710 --> 00:25:40,100
it disappeared it still didn't block

523
00:25:38,599 --> 00:25:42,230
like stars you could still see the

524
00:25:40,099 --> 00:25:44,869
strange see the three well as if he was

525
00:25:42,230 --> 00:25:47,000
a flat triangle hmm you'd see it close

526
00:25:44,869 --> 00:25:48,919
up yeah throw underneath sauce and

527
00:25:47,000 --> 00:25:51,019
Susannah three but as it goes often the

528
00:25:48,920 --> 00:25:56,420
dis done stuff I never didn't

529
00:25:51,019 --> 00:26:00,559
flatten flatten it yeah yeah so again

530
00:25:56,420 --> 00:26:03,410
one of those things I can't confirm that

531
00:26:00,559 --> 00:26:05,809
it was solid wishing desperately sorry

532
00:26:03,410 --> 00:26:08,720
about cuz I would love to us helped you

533
00:26:05,809 --> 00:26:11,089
with that it definitely had no red

534
00:26:08,720 --> 00:26:13,610
lights on it like some people have seen

535
00:26:11,089 --> 00:26:16,399
and it definitely had no strobe lights

536
00:26:13,609 --> 00:26:18,589
or anything else other than the

537
00:26:16,400 --> 00:26:19,759
configuration the configuration of the

538
00:26:18,589 --> 00:26:21,500
three lights

539
00:26:19,759 --> 00:26:22,549
did it change at all no it mean to

540
00:26:21,500 --> 00:26:23,630
suggest that they were three all

541
00:26:22,549 --> 00:26:26,210
separate objects

542

00:26:23,630 --> 00:26:28,910
no it maintained its shape until either

543
00:26:26,210 --> 00:26:31,160
disappeared or the houses over that

544
00:26:28,910 --> 00:26:35,860
distance what suggests that they were on

545
00:26:31,160 --> 00:26:35,860
one solid object yes
