

1
00:00:30,588 --> 00:00:36,509
okay let's go back to the moon I

2
00:00:33,780 --> 00:00:39,000
mentioned any wrong possibility that

3
00:00:36,509 --> 00:00:41,399
this was totally in a musician 50,000

4
00:00:39,000 --> 00:00:43,460
years ago I understand but we have a

5
00:00:41,399 --> 00:00:46,469
look at some the evidence to show them

6
00:00:43,460 --> 00:00:50,518
you're familiar probably with Leah jet

7
00:00:46,469 --> 00:00:54,289
i'm john lyon for jaan liya we were very

8
00:00:50,518 --> 00:00:57,628
friendly with John back in the 99

9
00:00:54,289 --> 00:01:02,399
2001-2002 one of these George in doing

10
00:00:57,628 --> 00:01:05,849
quite well one of his jobs was to fly

11
00:01:02,399 --> 00:01:08,789
his father's his father something like

12
00:01:05,849 --> 00:01:11,280
that the Learjet and CIA used quality

13
00:01:08,790 --> 00:01:15,000
ratings jets quite regular and John was

14
00:01:11,280 --> 00:01:17,820
a pilot's arista pilot dcin guides

15
00:01:15,000 --> 00:01:20,819
everywhere and he was taller than one of

16
00:01:17,819 --> 00:01:22,798
the missions that the moon was told in

17
00:01:20,819 --> 00:01:27,209
position and that's where is interested

18
00:01:22,799 --> 00:01:29,549
you goes and how did he just prior to

19
00:01:27,209 --> 00:01:32,188
that we really got down to it and what

20
00:01:29,549 --> 00:01:34,440
we find out more so he was told that

21
00:01:32,188 --> 00:01:37,169
50,000 years ago is what he told us

22
00:01:34,439 --> 00:01:39,149
anyway they thought it was totally the

23
00:01:37,170 --> 00:01:42,390
position and they were involved with

24
00:01:39,150 --> 00:01:45,590
people remnants and people from those

25
00:01:42,390 --> 00:01:49,769
days they were involved in talks back in

26
00:01:45,590 --> 00:01:53,040
96 vomits this is sort of jackie was

27
00:01:49,769 --> 00:01:59,219
flying at a time they've improved now is

28
00:01:53,040 --> 00:02:01,500
about new ones the idea was and from

29

00:01:59,219 --> 00:02:04,760
what our work that the idea of the

30
00:02:01,500 --> 00:02:09,750
towing the moon in the position was that

31
00:02:04,760 --> 00:02:13,560
originally long before about 15-45

32
00:02:09,750 --> 00:02:15,360
15,000 years we were on planning ours

33
00:02:13,560 --> 00:02:17,908
that did this is a story that was told

34
00:02:15,360 --> 00:02:22,280
and we had because of an incoming

35
00:02:17,908 --> 00:02:25,729
asteroid the planet they assumed was go

36
00:02:22,280 --> 00:02:28,640
in the field wallet so the nearest

37
00:02:25,729 --> 00:02:32,359
planet removed to was Tara planet Earth

38
00:02:28,639 --> 00:02:34,958
and so steps were involved to bring us

39
00:02:32,360 --> 00:02:39,350
forward and that meant bringing in

40
00:02:34,959 --> 00:02:42,199
another stability shock of your life

41
00:02:39,349 --> 00:02:43,699
from they brought in welcomes the idea

42
00:02:42,199 --> 00:02:45,949
behind that it's a bit a very

43
00:02:43,699 --> 00:02:48,259

complicated story but I've got a lot of

44

00:02:45,949 --> 00:02:52,039

information on it together I can even a

45

00:02:48,259 --> 00:02:53,840

new so many future bike so just a little

46

00:02:52,039 --> 00:02:56,569

bit about John there so he give their

47

00:02:53,840 --> 00:02:59,420

backgrounds he flew 10 secret mission

48

00:02:56,569 --> 00:03:04,370

the CIA central South East Asia and

49

00:02:59,419 --> 00:03:06,889

South America 2066 83 he has MP world

50

00:03:04,370 --> 00:03:10,700

records including speed on the way the

51

00:03:06,889 --> 00:03:13,009

object 766 and he presented with this

52

00:03:10,699 --> 00:03:16,609

award for outstanding amateur from 68

53

00:03:13,009 --> 00:03:19,639

and Simmons walk wave memorial and he's

54

00:03:16,610 --> 00:03:21,170

the youngest another thing on his list

55

00:03:19,639 --> 00:03:23,238

was a young Muslim ranking playing the

56

00:03:21,169 --> 00:03:26,328

mac mall in Switzerland it's something I

57

00:03:23,239 --> 00:03:28,819

was wanted to do and the 1970s only

58
00:03:26,329 --> 00:03:32,060
stupidly light is come forward so he's

59
00:03:28,819 --> 00:03:36,859
going a checkered history and what a

60
00:03:32,060 --> 00:03:41,079
very dense character ready so that was

61
00:03:36,860 --> 00:03:45,410
his information from the CIA and the NSA

62
00:03:41,079 --> 00:03:48,370
hmm so looking at it that's going back

63
00:03:45,409 --> 00:03:51,219
much further now are not white

64
00:03:48,370 --> 00:03:56,620
we think this may be the case the other

65
00:03:51,219 --> 00:03:58,209
costs be a famous writer didn't talk the

66
00:03:56,620 --> 00:04:01,870
moon was better part of many other

67
00:03:58,209 --> 00:04:06,730
things and he got his information from

68
00:04:01,870 --> 00:04:09,158
various photonic sources play 500 BC and

69
00:04:06,729 --> 00:04:11,669
he taught him brought in one of his

70
00:04:09,158 --> 00:04:14,318
chapters in the book about this and

71
00:04:11,669 --> 00:04:17,139
Aristotle wrote that in a place in

72
00:04:14,318 --> 00:04:20,709
greased before in happy but how the

73
00:04:17,139 --> 00:04:22,870
insulin talking thousand 1200 BC had

74
00:04:20,709 --> 00:04:26,129
population leave people called my

75
00:04:22,870 --> 00:04:28,870
sergeants and the Aborigines who

76
00:04:26,129 --> 00:04:31,089
occupied this land before that there was

77
00:04:28,870 --> 00:04:34,389
a moon and that was recorded in their

78
00:04:31,089 --> 00:04:37,239
ancient texts they were living when I

79
00:04:34,389 --> 00:04:39,939
was a moon in the sky above the earth I

80
00:04:37,240 --> 00:04:45,699
think that was run about 10,000 years

81
00:04:39,939 --> 00:04:48,310
ago there's another famous person Greek

82
00:04:45,699 --> 00:04:51,910
paulius of roads he mentioned the time

83
00:04:48,310 --> 00:04:55,978
were not all the Australian have an

84
00:04:51,910 --> 00:04:58,450
amateur astronomer and then we have

85
00:04:55,978 --> 00:05:03,759
recorded information from these various

86

00:04:58,449 --> 00:05:05,889
racist Deucalion and then I and the

87
00:05:03,759 --> 00:05:08,348
Arcadians they said they dwelt on

88
00:05:05,889 --> 00:05:11,288
mountains and federal Macon's acorns

89
00:05:08,348 --> 00:05:13,449
before there was a woman so this you

90
00:05:11,288 --> 00:05:16,899
know what a variety of information that

91
00:05:13,449 --> 00:05:19,478
when she start the into it Opeth the

92
00:05:16,899 --> 00:05:21,310
things poet mentions the Arcadians that

93
00:05:19,478 --> 00:05:24,029
possess their land before the birth of

94
00:05:21,310 --> 00:05:25,740
job and the folk in all of them

95
00:05:24,029 --> 00:05:31,228
threatening for

96
00:05:25,740 --> 00:05:33,090
market so you know and in the Old

97
00:05:31,228 --> 00:05:34,829
Testament joke the ground near the water

98
00:05:33,089 --> 00:05:37,560
makes peace in the heights is praised

99
00:05:34,829 --> 00:05:40,829
and the Tigers mentioned before there

100
00:05:37,560 --> 00:05:42,149

was a movement he did not shine is this

101

00:05:40,829 --> 00:05:44,038
a number of incidents in the Old

102

00:05:42,149 --> 00:05:46,918
Testament labs mentioned there's also in

103

00:05:44,038 --> 00:05:48,930
some they always feared since a tiny

104

00:05:46,918 --> 00:05:51,750
sounded before the time the mood of

105

00:05:48,930 --> 00:05:54,990
generation of generation is so we're

106

00:05:51,750 --> 00:05:58,500
talking I think when I gathered from our

107

00:05:54,990 --> 00:06:00,949
from some years ago I be activists a few

108

00:05:58,500 --> 00:06:07,829
years you talking about 50,000 years ago

109

00:06:00,949 --> 00:06:12,090
when this was told in Indians of high

110

00:06:07,829 --> 00:06:15,300
ends in eastern columbia they also in

111

00:06:12,089 --> 00:06:19,258
their ancient text related tribals

112

00:06:15,300 --> 00:06:21,800
target organs ago altering the earliest

113

00:06:19,259 --> 00:06:25,288
times when moon is not yet in heaven

114

00:06:21,800 --> 00:06:29,370
once they recalled in their ancient war

115
00:06:25,288 --> 00:06:31,649
powers interesting and then he comes in

116
00:06:29,370 --> 00:06:34,439
all modern you probably heard dr. wolf

117
00:06:31,649 --> 00:06:36,569
and dr. Boylan yeah they're all dr.

118
00:06:34,439 --> 00:06:39,060
Klein is a very keen with you for

119
00:06:36,569 --> 00:06:42,180
follower I lost touch me for a few years

120
00:06:39,060 --> 00:06:44,879
now dr. wolf was an ass advising he died

121
00:06:42,180 --> 00:06:48,810
of cancer about six six seven years ago

122
00:06:44,879 --> 00:06:50,430
on he mentioned an extraterrestrial

123
00:06:48,810 --> 00:06:55,110
space speakin they

124
00:06:50,430 --> 00:06:57,209
more or less was retrieved from a US

125
00:06:55,110 --> 00:07:01,199
military spacecraft were brought back to

126
00:06:57,209 --> 00:07:04,439
earth in 1972 don't know if you know

127
00:07:01,199 --> 00:07:07,379
about that but he wolf declared that the

128
00:07:04,439 --> 00:07:09,569
movies artificial long ago decisions

129

00:07:07,379 --> 00:07:11,430
orbit by extraterrestrials and

130

00:07:09,569 --> 00:07:14,129
furthermore you confirmed to dr. world

131

00:07:11,430 --> 00:07:16,980
that there is an actor oscar all based

132

00:07:14,129 --> 00:07:19,199
on going and when wolf suggested it was

133

00:07:16,980 --> 00:07:23,520
on the dark side did not challenge that

134

00:07:19,199 --> 00:07:25,139
assumption the young the monolith is

135

00:07:23,519 --> 00:07:27,479
quite interesting we could it said that

136

00:07:25,139 --> 00:07:30,329
apparently according to dr. wolf the

137

00:07:27,480 --> 00:07:33,360
seven scientists work on and one of them

138

00:07:30,329 --> 00:07:35,609
was carl sagan cup of carlson was very

139

00:07:33,360 --> 00:07:38,100
quiet about it that Oh incidentally up

140

00:07:35,610 --> 00:07:42,360
all seven sizes died of cancer working

141

00:07:38,100 --> 00:07:44,220
on it's more the young thing it was so

142

00:07:42,360 --> 00:07:48,290
radiated they had to work underwater

143

00:07:44,220 --> 00:07:51,180
eventually but because in those days

144
00:07:48,290 --> 00:07:55,650
they weren't to health and safety wasn't

145
00:07:51,180 --> 00:07:58,579
that really inflated a but can never

146
00:07:55,649 --> 00:08:01,739
really mentioned too much he made a few

147
00:07:58,579 --> 00:08:05,279
snippets to it but I think he was trying

148
00:08:01,740 --> 00:08:08,340
to get his paws more series into being

149
00:08:05,279 --> 00:08:10,949
and he kept that very quiet the

150
00:08:08,339 --> 00:08:13,829
information we got this from dr. Wong so

151
00:08:10,949 --> 00:08:17,009
another interesting confirmation anyway

152
00:08:13,829 --> 00:08:21,229
if you like independent information and

153
00:08:17,009 --> 00:08:26,519
this is not one of it but this is one a

154
00:08:21,230 --> 00:08:29,819
radar telescopic images from one of the

155
00:08:26,519 --> 00:08:32,658
spacecraft drawn from look in the moon

156
00:08:29,819 --> 00:08:35,958
from about 19 390

157
00:08:32,658 --> 00:08:40,038

pretty of one of our books and this was

158

00:08:35,958 --> 00:08:42,679

seen if probably several hundred need to

159

00:08:40,038 --> 00:08:45,679

turn for what I gather but no one knows

160

00:08:42,679 --> 00:08:49,068

what it is no one has actually looked

161

00:08:45,679 --> 00:08:51,318

into it it's just a terrestrial image of

162

00:08:49,068 --> 00:08:53,958

the Moon taken from one of the massive

163

00:08:51,318 --> 00:08:56,838

speaker we did our right to them ask

164

00:08:53,958 --> 00:08:58,789

them for sleeping with NASA a base

165

00:08:56,839 --> 00:09:02,199

before is never a straight answers you

166

00:08:58,789 --> 00:09:02,198

have get angel anywhere

167

00:09:20,139 --> 00:09:22,199

you
