

1
00:00:20,050 --> 00:00:28,250
okay I'm going to talk now the last

2
00:00:23,868 --> 00:00:30,618
section be pleased to know I can get on

3
00:00:28,250 --> 00:00:33,738
to the Fermi paradox as well about my

4
00:00:30,618 --> 00:00:37,039
cycling in 1965 let me talk when I

5
00:00:33,738 --> 00:00:40,399
showed you those surveyed nominees like

6
00:00:37,039 --> 00:00:45,969
tie up not this might be another in the

7
00:00:40,399 --> 00:00:49,730
1965 this is how the the hospitals today

8
00:00:45,969 --> 00:00:51,890
the nominee reported anomaly is in

9
00:00:49,729 --> 00:00:54,858
Canada is about 200 for the love it and

10
00:00:51,890 --> 00:00:58,189
who's larger than the hospital and when

11
00:00:54,859 --> 00:01:01,640
it when the first I'm just gonna slide

12
00:00:58,189 --> 00:01:03,799
for a second we can come back to this I

13
00:01:01,640 --> 00:01:07,069
just want to show you something

14
00:01:03,799 --> 00:01:11,239
this is in it's just a sports universe

15
00:01:07,069 --> 00:01:13,868
and in 1965 I actually lived there for

16
00:01:11,239 --> 00:01:17,030
10 years my father was the playing field

17
00:01:13,868 --> 00:01:20,209
manager for natives at university and

18
00:01:17,030 --> 00:01:23,450
all upstairs are our apartment and on

19
00:01:20,209 --> 00:01:25,459
the side there is my room I actually

20
00:01:23,450 --> 00:01:29,629
looked out the window I can see it

21
00:01:25,459 --> 00:01:32,839
across there so what happened was the

22
00:01:29,629 --> 00:01:34,459
first thing I noticed is a feeling I

23
00:01:32,840 --> 00:01:37,700
look out the window and I saw was huge

24
00:01:34,459 --> 00:01:40,759
by cigar fat cigar shape over this

25
00:01:37,700 --> 00:01:43,280
hospital but the other thing I notice

26
00:01:40,759 --> 00:01:45,829
all the lights were flashing on and off

27
00:01:43,280 --> 00:01:46,460
consistently and apparently that was in

28
00:01:45,828 --> 00:01:48,559
the paper

29

00:01:46,459 --> 00:01:50,089
couple days later

30
00:01:48,560 --> 00:01:52,730
an incident in the Central Hospital

31
00:01:50,090 --> 00:01:55,250
where lights were going on and off no

32
00:01:52,730 --> 00:01:58,640
one found out understand what's

33
00:01:55,250 --> 00:02:02,629
happening and they the craft I saw was

34
00:01:58,640 --> 00:02:04,700
so the same size if not bigger than 100

35
00:02:02,629 --> 00:02:06,079
foot the public if you will in the

36
00:02:04,700 --> 00:02:08,539
hospital ground you wouldn't see it

37
00:02:06,079 --> 00:02:11,359
because the building would be in the way

38
00:02:08,539 --> 00:02:14,449
but I was at an angle 200 the other

39
00:02:11,360 --> 00:02:17,390
hundred with the arms of a casino so

40
00:02:14,449 --> 00:02:19,459
that if you're going to me this was 1972

41
00:02:17,389 --> 00:02:21,319
as those encountered come this happens

42
00:02:19,460 --> 00:02:23,240
in contrived but looking back and it

43
00:02:21,319 --> 00:02:25,370

sort of reminded me of that more than

44

00:02:23,240 --> 00:02:28,150
like splashing on or off in unison

45

00:02:25,370 --> 00:02:31,250
looking back now that hindsight probably

46

00:02:28,150 --> 00:02:34,310
charging up whatever the technology

47

00:02:31,250 --> 00:02:36,919
medium did this and this actually is

48

00:02:34,310 --> 00:02:38,959
show me the Stein's of it it looked

49

00:02:36,919 --> 00:02:43,579
exactly like that it was just black a

50

00:02:38,959 --> 00:02:51,709
black boy whatever it was hanging over

51

00:02:43,580 --> 00:02:56,450
the hospital and this is the view I had

52

00:02:51,709 --> 00:02:59,000
from here it was quite big and I didn't

53

00:02:56,449 --> 00:03:00,699
see it I watched it I went downstairs I

54

00:02:59,000 --> 00:03:02,989
saw it in the window I went downstairs

55

00:03:00,699 --> 00:03:04,579
to see actually if it was still there

56

00:03:02,989 --> 00:03:06,860
and because I thought it might be

57

00:03:04,580 --> 00:03:08,390
something from your window I'm telling

58
00:03:06,860 --> 00:03:10,190
up there there were four or five other

59
00:03:08,389 --> 00:03:11,809
people that stopped in the lane in those

60
00:03:10,189 --> 00:03:14,180
days it wasn't Lane it wasn't that

61
00:03:11,810 --> 00:03:16,580
finally like today but and the

62
00:03:14,180 --> 00:03:19,879
streetlights worked at neon ones were

63
00:03:16,580 --> 00:03:22,430
like 200 Watts pointing down so there's

64
00:03:19,879 --> 00:03:26,389
no light pollution apart from the lights

65
00:03:22,430 --> 00:03:29,450
in the hospital this is how it looks

66
00:03:26,389 --> 00:03:32,149
today it's a large skinny things quite

67
00:03:29,449 --> 00:03:34,129
narrow in his day so this was my room I

68
00:03:32,150 --> 00:03:36,799
was looking straight across and saw that

69
00:03:34,129 --> 00:03:38,629
I know he came out and stood here the

70
00:03:36,799 --> 00:03:42,340
cause of two car that stopped they've

71
00:03:38,629 --> 00:03:45,439
already seen it so that glass basically

72
00:03:42,340 --> 00:03:45,979
Duff basically what I saw for about five

73
00:03:45,439 --> 00:03:49,159
minutes

74
00:03:45,979 --> 00:03:50,959
this is a picture I took in 64 to show

75
00:03:49,159 --> 00:03:53,620
you the building of the hospital as a

76
00:03:50,959 --> 00:03:53,620
house more

77
00:04:13,370 --> 00:05:21,240
this is here and this is like the second

78
00:05:18,899 --> 00:05:22,769
point dissipated a slight shudder and

79
00:05:21,240 --> 00:05:25,740
they deal in fear like there was no

80
00:05:22,769 --> 00:05:28,529
moving away and he was solid like just

81
00:05:25,740 --> 00:05:34,079
hanging there and then BAM he went so

82
00:05:28,529 --> 00:05:37,918
either it got some kind of natural using

83
00:05:34,079 --> 00:05:38,930
a natural wormhole or nothing so you

84
00:05:37,918 --> 00:05:42,439
have a very calm

85
00:05:38,930 --> 00:05:45,439
technology down to a small set box

86

00:05:42,439 --> 00:05:48,139
section and use accommodation from them

87
00:05:45,439 --> 00:05:51,649
and use that but like I try to get

88
00:05:48,139 --> 00:05:53,930
answers from our services I think even

89
00:05:51,649 --> 00:05:56,000
the Japanese rather I'm gonna I heard

90
00:05:53,930 --> 00:05:58,728
that on that so if anybody got to my

91
00:05:56,000 --> 00:06:00,680
name is parking that you know but that's

92
00:05:58,728 --> 00:06:02,990
what we saw and that stuck in my mind

93
00:06:00,680 --> 00:06:05,750
ever since it's something like that you

94
00:06:02,990 --> 00:06:08,478
don't forget so I mentioned this already

95
00:06:05,750 --> 00:06:10,728
we said we were eight become the space

96
00:06:08,478 --> 00:06:15,939
where occupied yes people see the staff

97
00:06:10,728 --> 00:06:19,848
know after after after it disappeared

98
00:06:15,939 --> 00:06:23,598
all that area was void and after about

99
00:06:19,848 --> 00:06:25,819
six seconds the stars appeared so I

100
00:06:23,598 --> 00:06:29,598

offered all this information because I

101

00:06:25,819 --> 00:06:31,569

thought that this this line you know as

102

00:06:29,598 --> 00:06:35,029

it materialized would be some

103

00:06:31,569 --> 00:06:36,949

information to a national business or

104

00:06:35,029 --> 00:06:39,769

NASA working on it you know at the time

105

00:06:36,949 --> 00:06:41,449

but the only seemed very agency I

106

00:06:39,769 --> 00:06:44,509

understand that there is technology

107

00:06:41,449 --> 00:06:46,340

available but he involves like something

108

00:06:44,509 --> 00:06:49,610

twice the size is building again you

109

00:06:46,339 --> 00:06:52,969

started you know these whatever whoever

110

00:06:49,610 --> 00:07:02,030

had these this very - like 65 if it was

111

00:06:52,970 --> 00:07:05,120

one of the hose we should be going up so

112

00:07:02,029 --> 00:07:06,589

that that was the same thing and I call

113

00:07:05,120 --> 00:07:10,250

it closing down there probably in the

114

00:07:06,589 --> 00:07:11,759

first time because that was in terms of

115
00:07:10,250 --> 00:07:32,100
some years later

116
00:07:11,759 --> 00:07:36,120
I know that some people in the evening

117
00:07:32,100 --> 00:07:39,060
post months unusual lights were seen

118
00:07:36,120 --> 00:07:41,009
over town Hillier but this is nothing -

119
00:07:39,060 --> 00:07:44,129
I don't think gallery or maybe I don't

120
00:07:41,009 --> 00:07:45,899
know it so yeah but this was somebody

121
00:07:44,129 --> 00:07:52,399
bounce technology being honest it was

122
00:07:45,899 --> 00:07:57,209
very I think most something

123
00:07:52,399 --> 00:07:59,219
unfortunately she arrived but it could

124
00:07:57,209 --> 00:08:01,979
have been there that long after a little

125
00:07:59,220 --> 00:08:05,910
bit because you know like to class they

126
00:08:01,980 --> 00:08:08,460
were all using the power because at the

127
00:08:05,910 --> 00:08:10,260
965 that was the biggest building just

128
00:08:08,459 --> 00:08:13,439
even though in Swansea

129

00:08:10,259 --> 00:08:18,480

so whatever right tracked the energy

130

00:08:13,439 --> 00:08:22,430

coming out of it and battery charged up

131

00:08:18,480 --> 00:08:22,430

they probably to the invention you know

132

00:08:25,819 --> 00:08:35,490

doc do you remember this foolishness and

133

00:08:33,090 --> 00:08:37,259

then when that green mind appeared to do

134

00:08:35,490 --> 00:08:40,409

some noise will be nothing at all

135

00:08:37,259 --> 00:08:41,569

nothing at all no having no only a

136

00:08:40,409 --> 00:08:45,629

feeling

137

00:08:41,570 --> 00:08:47,580

like you know my good magnetic thank you

138

00:08:45,629 --> 00:08:48,990

sir but would it there's no noise

139

00:08:47,580 --> 00:08:50,940

nothing at all

140

00:08:48,990 --> 00:08:54,930

and we just standing we actually walked

141

00:08:50,940 --> 00:08:58,019

out to the NP and there's about four or

142

00:08:54,929 --> 00:09:01,799

five people by the studies they're older

143

00:08:58,019 --> 00:09:04,169
than 18 at the time so they probably

144
00:09:01,799 --> 00:09:07,019
passed on now but with hindsight may be

145
00:09:04,169 --> 00:09:09,899
good to try and get their versions of it

146
00:09:07,019 --> 00:09:13,860
but I never heard there's no other

147
00:09:09,899 --> 00:09:16,139
report made you know sit you up the

148
00:09:13,860 --> 00:09:18,389
feeling in your head did that patrol the

149
00:09:16,139 --> 00:09:21,269
attention is I was actually studying for

150
00:09:18,389 --> 00:09:24,059
my a-levels sweet stick one look and

151
00:09:21,269 --> 00:09:26,039
that I stopped up like something made me

152
00:09:24,059 --> 00:09:28,500
go to the window or something a guy I

153
00:09:26,039 --> 00:09:32,939
hooked up with minimum so that's and

154
00:09:28,500 --> 00:09:35,940
then ran downstairs okay yeah yeah so

155
00:09:32,940 --> 00:09:38,070
indistinct but you know we stuck with me

156
00:09:35,940 --> 00:09:39,810
and that's something as the but having

157
00:09:38,070 --> 00:09:43,019

learned a lot since then

158

00:09:39,809 --> 00:09:44,958

I think it's that would be the answer is

159

00:09:43,019 --> 00:09:50,250

obviously used for technology and

160

00:09:44,958 --> 00:09:55,379

natural cosmic energies to power that

161

00:09:50,250 --> 00:09:58,529

drop it's surprising that no one does

162

00:09:55,379 --> 00:10:03,129

about you now but

163

00:09:58,529 --> 00:10:09,039

in research it not so that we might help

164

00:10:03,129 --> 00:10:11,049

them to replicate some cases of UFOs

165

00:10:09,039 --> 00:10:18,849

energy

166

00:10:11,049 --> 00:10:28,319

prison yeah yeah oh yeah like needles

167

00:10:18,850 --> 00:10:30,639

yes wouldn't wouldn't energy from

168

00:10:28,320 --> 00:10:34,110

something as primitive as that be just

169

00:10:30,639 --> 00:10:34,110

like a dude us out back you to them

170

00:10:34,919 --> 00:10:40,809

lines right thing they just used like

171

00:10:37,929 --> 00:10:46,349

probably a Wi-Fi effect they were just

172

00:10:40,809 --> 00:10:46,349

sucking up by Wi-Fi yeah yeah but
