TOTAL TRACKS 33

TOTAL RUNNING TIME: 25:10:06

Track Listing

01: SEARCH for the FLYING SAUCERS with Walter Kiernon

Date of Broadcast: 07.10.1947

Running Time: 00:13:09

Synopsis: This is the first public affairs program on the Flying Disc phenomena being observed and reported in the United States and the United Kingdom. The phenomenon was not frightening to people and most reports were taken lightly. This recording is an example.

02: VARIETY PROGRAMS on UFOs 1947 - 1950

Dates of Broadcast: 07.13.1947 & 03.28.1950

Running Time: 00:30:00

Synopsis: Although technically these are not public service programs per se, this medley gives a rare example of how the flying discs and flying saucers were being perceived at the beginning of the modern age of UFOs and its influence on the population. First, Take it or Leave it program monologue from 07.10.1947. Second, Jack Parr Show does a comedy sketch regarding the flying discs on 07.13.1947 and finally the Fibber McGee & Molly comedy program from 03.28.1950.

Date of Broadcast: 05.00.1950

Running Time: 00:27:46

Synopsis: A public affairs program that includes a 1947 telephone interview with Kenneth Arnold, plus several rare recordings of early witnesses to Flying Discs in 1947, 1948 and 1949.

04: THINGS in the SKY

Date of Broadcast: 00.00.1952

Running Time: 00:18:19

Synopsis: A John Keel production for the Armed Forces Radio Services (AFRS) while stationed in Germany during the Korean War. This is an excessively rare recording, because all copies were on acetate discs, which deteriorated rapidly and could catch fire easily. Just as important, John Keel gives a short background to the program and the players, including

what many of them did following their stint in the military. This is from his original tape recording of 11.18.1968, which is housed and archived (including his notes) at the Faded Discs Archive. The original recording was done on a compact reel-to-reel tape recorder with a 1.5-inch reel and recorded at 1 7/8 ips!

05: MEDICAL FILE: UFO

Broadcast: 00.00.1952

Running Time: 00:24:30

Synopsis: An Australian radio docudrama based upon an actual event. This episode is about a man who fakes being attacked by a flying saucer. This is a rare recording and the earliest known recording that uses the acronym, U.F.O.

06: AMERICA's TOWN MEETING: Flying Saucers, Fact or Illusion?

Date of Broadcast: 11.21.1953

Running Time: 00:31:58

Synopsis: An infamous public affairs debate regarding the UFO phenomenon by Major Donald E. Keyhoe, USMC Retired and Jonathan M. Leonard, Science Editor of Time magazine. This program was used as a vehicle to promote Keyhoe's second book, Flying Saucers from Outer Space, Keyhoe was the second writer to introduce the subject to the public with his article for True magazine in late 1949 and his first book based upon that research entitled, Flying Saucers are Real. Keyhoe would later become the second Director of the National Investigations Committee on Aerial Phenomena (NICAP). By all intents and purposes, Donald E. Keyhoe was the first Ufologist and second only to Kenneth Arnold for bringing the subject to the public.

07: FAMILY THEATER: UFO

Date of Broadcast: 10.13.1954

Running Time: 00:26:12

Synopsis: An early religion-based program that takes a look at the possibility of contact with a flying saucer and its occupants from a religious point of view. Historically important recording, as it refers to actual events, such as the Washington National Airport case of UFOs over the Capitol two years earlier and Air Technical Intelligence of the USAF. This recording also showed that the USAF and the government position was wrong, in declaring that disclosure to the public, would cause mass panic and harm all religions.

08: GRAY BARKER RADIO SHOW, Clarksburg, West Virginia

Date of Broadcast: 07.20.1957

Running Time: 00:08:29

Synopsis: Barker discusses the Green Castle, Indiana case. Barker's radio show was very short lived and he was a good friend with famous radio personality, Hugh McPhearson, who

also played interviews he had with witnesses to UFOs on his own radio program.

09: ARMSTRONG CIRCLE THEATER: UFO, the Enigma of the Skies

Running Time: 00:52:00

Synopsis: Hosted by Douglas Edwards. Guests were: Major Donald E. Keyhoe, USMC Ret., Col. Spencer Whedon, USAF and Dr. Donald Menzel. This is the program that allegedly censored Keyhoe, causing hard feelings between both himself and the United States Air Force over their secrecy regarding the UFO phenomenon. Kenneth Arnold declined to appear at the last minute and his explanation can be heard on the 03.26.1958 Long John Nebel Party Line recording listed further down in this guide. Captain Edward J. Ruppelt, first and former Director of the USAF Project Blue Book was also scheduled to appear on the program, but could not get a leave of absence from his employer to attend the program. Tracks 09, 10 and 12 relate to this infamous controversy.

10: MIKE WALLACE INTERVIEWS, The

Date of Broadcast: 03:25:1958

Running Time: 00:25:30

Synopsis: Major Donald E. Keyhoe, USMC, Ret. Is interviewed regarding the alleged censorship on the Armstrong Circle Theater and his / NICAP's position regarding UFOs and the Extra-terrestrial Hypothesis (ETH).

LONG JOHN NEBEL's PARTY LINE BROADCASTS - WOR-NY

Tracks 11 - 16

Long John Nebel was the first to bring the concept of Talk Radio to fruition. He had various guests and regulars who discussed many topics of interest. His program ran from 12:00 am to 5:30 am, six nights a week. He is known for the eccentricities of guests and provided a forum for both serious researchers of Ufology and the Contactees. Following his radio talk show, Nebel appeared on television in the 1960s and early 1970s with his talk format. Below is a selection of well-known Nebel programs dealing with the subject of UFOs and Ufology.

11: BIOLOGICAL THEORY of UFOs

Date of Broadcast: 11.25.1956

Running Time: 01:01:54

Synopsis: Guest: Dr. Ivan T. Sanderson, biologist/zoologist and naturalist. He was also a spy and Intelligence operative for the U.S. and UK, although nobody knew at that time a few people know now. This aspect of his background was revealed during a meeting in Seattle, WA in 1959. This data, on the original recordings, is archived at Faded Discs. Sanderson discusses his Biological Theory of UFOs. His theory remains popular as one of the theories regarding the origin of UFOs, but pales to both the Extra-Terrestrial Hypothesis (ETH) and

the possibilities that UFOs are inter-dimensional conveyances or time travelers. Sanderson also wrote a book about his theory.

12: RECOLLECTION of the SAN JUAN, PUERTO RICO UFO INCIDENT of 03.1952.

Date of Broadcast: 03.11.1957

Running Time: 00:06:26

Synopsis: Jay Glick, a passenger on an American Airlines flight from NY to Puerto Rico, relates the aircraft's encounter with a UFO. This incident is mentioned in the next track.

13: NICAP versus USAF on CENSORSHIP of UFO INFORMATION

Date of Broadcast: 03.26.1958

Running Time: 04:06:22

Synopsis: Guests: Major Donald E. Keyhoe, USMC Ret., Cortland Hastings, Charles Ledham, Jules B. St. Germaine, Ben Isquith and Dave Fields. Historically important recording covering the rise of the National Investigations Committee on Aerial Phenomena (NICAP), alleged Keyhoe censorship and the influence of the Contactee Movement on legitimate UFO investigations. Commercials edited out during the Keyhoe visit. Ben Isquith joins the group after Keyhoe departs. Nebel goes too great lengths to promote NICAP and every one of the guests were members. This aspect, however, did not give Keyhoe any leniency as far as tough questions asked of him by the other guests. For all intents and purposes, Keyhoe and the U.S. Air Force had become enemies over the censorship issue. Last twenty minutes of this program is missing.

14: MAN-MADE UFO.

Date of Broadcast: 08.18.1958

Running Time: 02:48:30

Synopsis: Guests: Dr. Ivan T. Sanderson, Lester del Rey (Science Fiction Writer), Hans Stefan Santeson (Editor of Fantastic Universe magazine), Ben Ahman (Swedish Journalist), Ben Isquith, Vyacheslav Vawalischin (former USSR Military Officer) and translator, Jim Runyon. An early discussion of the possibility that UFOs are man-made and came from German technology (Horten Brothers, etc.). This controversy continues to this day with theories regarding the German influence in flying saucers during and following World War II. Ben Ahman gives an interesting insight into the Ghost Rockets being observed over the Baltic in 1946. Lester del Rey is quite opinionated and argumentative, with a closed mind on the topic of UFOs in general. Considering that he was a science fiction writer of note, one would tend to think that a man with his reputation would at least be more open-minded on the reality of the UFO phenomena. It is quite odd to listen to his ranting. In future years others would arrive on the airways and in print, proclaiming Ufology to be a foolish endeavor, yet none of them would ever take the time to do any lengthy and long term research on the data collected, then be offended if they were not triumphant in the debate. These people were not, and are not, rational and provide a disservice to the subject itself and the people who diligently try to do the work that science and government have defaulted on, since the

beginning of the modern age of the phenomenon. Logic would dictate that the fields of science and government have been negligent regarding this enigma to science. Last few minutes of this portion of the program are missing.

15: FLYING SAUCERS and LITTLE GREEN MEN.

Date of Broadcast: 10.05.1958

Running Time: 04:05:30

Synopsis: Alternate title is Flying Saucers and the Straight Line Mystery, which was used after the program aired. Guests: Isabel Davis of Civilian Saucer Intelligence - NY (CSI-NY), Hans Stefan Santeson (Editor of Fantastic Universe magazine), Dr. Ivan T. Sanderson, Lester Del Rey and Ben Isquith. Isabel Davis was representing one of the oldest UFO investigation groups with such early luminaries as Max Mebane and Ted Bloecher. Debate covers many aspects of Ufology, including Little Green Men, Contactees and Aimé Michel's newest theory on UFOs in his book, Flying Saucers and the Straight Line Mystery. Davis was a thorough researcher and was close friend to Major Donald E. Keyhoe, Director of the National Investigations Committee on Aerial Phenomena (NICAP), of which Davis was also a member. Dr. Sanderson and science fiction writer, Lester Del Rey, have an on-air heated exchange over various topics. However, when all is said and done, this recording was an early attempt to get Ufology separated from the Contactees and Isabel Davis, was a champion in showing the world the difference. She is an unsung hero in the field of Ufology.

16: Excerpt from the Long John Nebel Party Line Program

Date of Broadcast: 11.16.1959

Running Time: 00:56:00

Synopsis: Jackie Gleason, Frank Edwards and Gray Barker make the first 3-way telephone conference call in radio history. Gleason criticizes Gray Barker's publishing the Contactee material as if it was true.

17: AERIAL PHENOMENA INVESTIGATIONS SOCIETY

Date of Broadcast: 01.00.1959

Running Time: 00:58:52

Synopsis: Robert Berry broadcast a short-lived radio program in New York entitled, The UFO Story. This is a medley of those broadcasts.

Running Time: 00:27:48

Synopsis: Infamous encounter between Maj. Donald E. Keyhoe of the National Investigations Committee on Aerial Phenomena (NICAP) and Lt. Col. Lawrence J. Tacker, Public Information Officer for the United State Air Force (USAF). This was the second major confrontation between Major Keyhoe's, NICAP and the USAF that would continue for the next decade.

21: JOE PYNE Show

Date of Broadcast: 00.00.1960

Running Time: 00:22:28

Synopsis: Dr. Frank Stranges takes the hot seat on the Joe Pyne Show. He is promoting his new book, Stranger at the Pentagon that alleges a man by the name of Val Thor is known by the government and is from outer space. Stranges attempts to be serious, but Pyne obviously knows a sham when he bumps into it. Not one of Frank Stranges' better media days.

22: BEN ALEXANDER Show

Date of Broadcast: 01.25.1961

Running Time: 00:24:00

Synopsis: Jules B. St. Germaine, a regular guest on Long John Nebel's Party Line on WOR-NY, is interviewed regarding the show and the Contactees who have appeared on it. A very historical recording and rare in that two interviewers of the early Contactees compare notes on how legitimate Ufology was wrongfully overshadowed by them. Original recordings from St. Germaine's collection are maintained at Faded Discs.

23: TEXAS COUNTDOWN

Date of Broadcast: 05.21.1961

Running Time: 00:15:00

Synopsis: Texas Countdown was a production of WFAA-TV, Fort Worth, TX. The program was a weekly summary of events in the local aerospace industry. Guest: Texas Ufologist William E. Daniels of Project Target fame. This segment also gives the silliness surrounding the early space race with the Soviet Union and Cold War paranoia. The Daniels recordings are maintained at Faded Discs.

24: CAPITOL ASSIGNMENT

Date of Broadcast: 12.27.1961

Running Time: 00:19:18

Synopsis: Major Donald E. Keyhoe is interviewed regarding the National Investigations Committee on Aerial Phenomena (NICAP) and his conflict with the United States Air Force.

PROGRAM P.M. BROADCASTS

TRACKS 25 - 30

Earl J. Neff of the Cleveland Ufology Project (CUP), teamed with Harvey Morgan of KYW radio, Cleveland, OH in 1962 to do a weekly series of half-hour programs entitled, Ufology Round-Table. When KYW became WKYC the series was discontinued, but Neff remained a regular guest host on Harve Morgan's new show, Contact and continued with the Ufology Round-Table designation when he appeared on the program. The following recordings represent the programs recovered to date. Although no exact number of programs available is known, it is estimated that Neff and Morgan did approximately 52 such programs. One of the more interesting aspects of this early radio program is that the FCC wouldn't allow two-way telephone conversations with listener call-ins, so Harve Morgan would take calls from listeners and then relate the question to the appropriate guest. Long John Nebel's phone conversations with listeners were always recorded to avoid running into problems with the FCC and contained the required Beep every 10 seconds.

25: UFOLOGY ROUND-TABLE

Date of Broadcast: 12.27.1962

Running Time: 00:25:00

Program: 13

Synopsis: USAF secrecy and general UFO topics. Guest Host: Earl J. Neff. Guests: Rick Hilberg and Bob Miller of the United Saucer Council. Program was devoted to young Ufologists and the Toledo Area Aerial Phenomena Investigation Bureau (TAAPIB). Opening sequence is missing.

27: UFOLOGY ROUND-TABLE

Date of Broadcast: 01.10.1963

Running Time: 00:26:34

Program 15

Synopsis: Program is devoted to questions from listener call-ins, which Earl J. Neff, Bob Grove and Harve Morgan, attempt to answer. Good grass roots radio that did by far better with the subject of Ufology than the Jeff Rense and George Noory's of today. Today the Internet is the preferred method of communicating with others about Ufology and this more, personal method of Ufology in days past, taught and shared Ufology in a most unique way.

28: UFOLOGY ROUND-TABLE

Date of Broadcast: 01.17.1963

Running Time: 00:53:24

Program 16

Synopsis: Mr. X (a USAF officer they call "Joe"), joins Earl J. Neff, Bob Grove and Harve Morgan. The program's normal thirty minutes is expanded this night. Morgan plays a tape of Major Donald E. Keyhoe talking about flying saucers and the United States Air Force.

29: UFOLOGY ROUND-TABLE

Date of Broadcast: 01:24:1963

Running Time: 00:29:00

Program 17

Synopsis: Wesley Fitch joins Earl J. Neff and Harve Morgan to discuss his collection of UFO photographs and the evidence they might portray. It is hilarious having photographs described on the radio. However, it did give insight to listeners who were visually impaired. Not exactly a medium for photographic evidence discussion. Also, two witnesses to alleged UFOs are interviewed.

30: UFOLOGY ROUND-TABLE

Date of Broadcast: 01.31.1963

Running Time: 00:29:44

Program 18

Running Time: 00:25:02

Synopsis: Witnesses to UFOs are interviewed on WDNC radio in Durham, NC. Several are members of the National Investigations Committee on Aerial Phenomena (NICAP). A local program that is typical of the way the subject was handled in the early 1960s by hundreds of small local radio stations across America.

33: COMMUNITY DIALOGUE

Date of Broadcast: 00.00.1964

Running Time: 00:27:30

Synopsis: Television panel show hosted by Harry Clarkson. Guests: Dr. Mark Harrison, Chairman of the Physics Department at American University, Dr. B. L. Clark, Astronomer at the U.S. Naval Observatory, Dr. Norman L. Trot, Theologian and George Adamski, Contactee. Officer Lonnie Zamora, police officer who observed a UFO with occupants in Socorro, NM and Gary Wilcox, a Newark, New York dairy farmer, who met with aliens. This is an extremely important historical recording of early NICAP members and the head to head by Walter Webb and Stuart Streeter with Mrs. Lyle Boyd over the books omissions and conclusions. It must also be stated that NICAP, since early 1964, had been using appearances on the radio as a vehicle to promote their upcoming research book entitled, The UFO Evidence.

Running Time: 01:18:03

Synopsis: One of the few shows with guests from both the National Investigations Committee on Aerial Phenomena (NICAP) and the Aerial Phenomena Research Organization (APRO). Date of Broadcast: 03.07.1965

Running Time: 00:30:00

Synopsis: At this juncture in the building of the National Investigations Committee on Aerial Phenomena (NICAP) by Major Donald E. Keyhoe, his Assistant Director, Richard Hall and NICAP member, Paul Dickey, did an in-house interview to explain what NICAP involved and its goals. Hosted by Fred Patrick, Impact Close-up program came out of Richmond, VA and was one of the prime vehicles totally positive and aligned with the concept of NICAP's Extraterrestrial Hypothesis (ETH). This program brought Richard Hall out of the shadows to be one of the prime forces of NICAP's growth and influence.

6: COMMENT with Fred Gale

Date of Broadcast: 11.25.1965

Running Time: 00:36:02

Synopsis: Beginning and ending of show is missing. Guests were Steve Putnam and Edwin Fogg of the New England UFO Study Group (NEUFOSG). Fowler is a meticulous researcher. In 2000 I asked him why he hadn't done his autobiography and he took my advice and did write of his time as a UFO researcher in UFO Testament. Author of 11 books, Fowler was the Director of the Massachusetts NICAP Subcommittee. One of his hobbies was astronomy and he built his own observatory in his backyard. Fowler's work in Ufology is legendary.

11: NOTE PAD with Paul Benzaquin

Date of Broadcast: 11.16.1965

Running Time: 00:35:14

Synopsis: Benzaquin, a confirmed skeptic of the UFO subject, perpetrated a UFO hoax on the previous night's show. Running Time: 00:25:32

Synopsis: USAF consultant on UFOs, Dr. Josef Allen Hynek, is interviewed regarding his marsh gas explanation during the Michigan UFO flap. Dr. Hynek would come to rue the day he allowed his scientific integrity to suffer because of the pressure the USAF was putting on him during the investigations he conducted. This is an historically important recording because it gives insight into Hynek and his connection to the USAF. Hynek would later renounce the USAF investigations following the Condon Committee Report and begin the Center for UFO Studies in Chicago.

15: CONTACT w/Bob Kennedy

Date of Broadcast: 03.22.1966

Total Running Time: 35:45:50

01: George Adamski relates his contact with Orthon in November, 1952. This is actually the first recording done by Dr. A. G. Dittmar in 1953. 30:00

02: The World of Maldek: George Hunt Williamson's channeling of Hatton in the Solex Mal language giving the history of the legendary planet, Maldek. This was recorded in late 1953. George Hunt Williamson accompanied George Adamski in November, 1952, when Adamski claims he met Orthon. This recording is difficult to listen to due to the blend of music, voice change during the alleged channeling of Hatton and the use of the so-called Solex Mal language. 25:00

03: George Adamski is interviewed on the Art Linkletter TV show to discuss his book, The Flying Saucers Have Landed, 10.19.1953. 7:00

04: George Adamski is interviewed by Desmond Leslie, co-author of The Flying Saucers Have Landed, in 1954. 23:15

05: George Hunt Williamson is interviewed in 1954 by Carl Hunrath. Hunrath and Jack Wilkinson. Hunrath and Wilkinson disappeared on an airplane flight trying to contact flying saucers over the Mojave desert. This interview took place at Giant Rock, George Van Tassel's Mecca for Contactees. 35:00

06: George Hunt Williamson lectures at the Detroit Truth League on 06.23.1954. 73:39

07: George Adamski lectures at the 1955 Giant Rock Convention. He is obviously in good humor and slightly inebriated. Adamski is introduced by Richard Miller. 35:00

08: Council of the Seven Lights Transmission of George Van Tassel. Van Tassel claimed contact with flying saucers and aliens via radio transmission and channeling. At Giant Rock he introduced his Adaphone, which allowed two-way communications to take place. The following recordings are George Van Tassel allegedly communicating and channeling with various aliens using his special equipment. A rare look inside Van Tassel the man and his penchant for hoodwinking people. 25:49

09: Council of the Seven Lights Transmissions Continued. 48:00

10: Council of the Seven Lights Transmissions Conclusion. 44:30

11: George Adamski commentary regarding Sec. of the Air Force, Donald Quarles. Dr. A. G. Dittmar's early recording from 11.08.1955 and the first in his Adamski series; although Adamski relating his contact with Orthon preceded this recording by two years. Dittmar was not only the first person to preserve early recordings from Ufology, he also was the first to introduce music into the recording series in an attempt to make these recordings more enjoyable. Dittmar received many of his recordings from the contactees themselves. 28:15

12: George Adamski has a conversation with Captain Edward J. Ruppelt, former head of the USAF's Project Blue Book, in 1955. Ruppelt was researching his book, The Report on Unidentified Flying Objects (Doubleday - 1956), during his visit to the Giant Rock Spacecraft Convention. This recording is interesting from the standpoint that Adamski disagrees with many of Van Tassel's beliefs and they discuss various contactees such as, George Hunt Williamson, Richard Miller, John Otto, etc. 85:15

SYNOPSIS

Although accounts of humanoids piloting flying saucers go back many decades, this scenario was not initially publicized widely and soon forgotten by the general public. In 1952 radio newsman Frank Edwards startled the listeners with an interview with William Squyres, who observed a UFO with occupants over Pittsburg, Kansas in 1952. A little over a decade later the UFO occupant scenario began evolving to cover alien abductions and very strange creatures. This compilation deals with humanoid encounters that did not result in known alien abductions which are available on an earlier compilation CE IV

Track Listing

Annex [Disc 12 : 1974 - 1977 Audio case reports National UFO Reporting Center](#)

Research Recordings of Robert Gribble's National UFO Reporting Center (NUFORC)
Seattle, WA

1974 - 1977

252 Tracks - Total Running Time: 44:00:25

Robert Gribble began his research into the unidentified flying object phenomena in 1955. He began the Aerial Phenomena Research Group (APRG), which circulated a newsletter detailing new cases.

In late 1974, Gribble converted the Phenomena Research Reporting Center to allow the public a place they could call and report their experiences to a nonjudgmental researcher. Commonly known as the UFO Reporting Center or UFO Central during the early years, it became known internationally as the National UFO Reporting Center (NUFORC). First calls received began on November 11, 1974.

Over a period of twenty years, Gribble received thousands of telephone calls from witnesses of actual encounters with UFOs, which were recorded and data collected. On-site investigations and interviews were conducted by Gribble and his associates and accompanying documentation for cases were archived.

Robert Gribble retired from research in 1994 and Peter Davenport took over the on-going data collection of the National UFO Reporting Center. In 2004, Robert Gribble donated his research materials to Wendy Connors, culminating in this audio archive of research material. Documentation accompanying these recordings are maintained along with the original recording sources, including the names, addresses and telephone numbers of all witnesses. What you hear is raw, minimally edited, research. Most of the interviews were done within minutes of the encounter or while the encounter was happening.

These recordings are of actual witness interviews to UFO encounters and were selected to show a broad based overview of the UFO phenomena being observed and reported.

It makes no difference whether a person believe, or not believe, in UFOs. But the reality is found here and is indisputable. Nobody, as yet, has proven any of the theories of where these objects originate and why they are encountered. Robert Gribble has made the truth abundantly clear...and you'll hear it directly from people of all walks of life. For the seasoned researcher, this audio data is priceless as the missing half of research that written data could never convey...the human element.

The journey you are about to take will certainly amuse or concern you, but most importantly, I hope it teaches you something new and maybe, just maybe, something quite wonderful for yourself and humanity, as we continue our human journey to the stars.
