

1

00:00:00,000 --> 00:00:06,840

Major Kehoe, just what are the functions and duties of the Natural Investigations Committee

2

00:00:06,840 --> 00:00:09,040

on aerial phenomena?

3

00:00:09,040 --> 00:00:14,920

Our committee investigates all factual reports, sightings of these unknown objects, submits

4

00:00:14,920 --> 00:00:19,560

them to our scientific advisors, and when we can reach a definite conclusion, we make

5

00:00:19,560 --> 00:00:20,560

the conclusion public.

6

00:00:20,560 --> 00:00:26,480

Our attempt is to inform the public everything that can be told them without violating security.

7

00:00:27,080 --> 00:00:32,480

Now this information involves somewhat the flying saucer reports that have spread across

8

00:00:32,480 --> 00:00:34,120

the country and around the world.

9

00:00:34,120 --> 00:00:35,120

That's right.

10

00:00:35,120 --> 00:00:38,440

That's a bad name, but it is here, so we have to accept it.

11

00:00:38,440 --> 00:00:44,520

We use the word the Air Force uses, the term UFO or Unidentified Flying Autism.

12

00:00:44,520 --> 00:00:47,400

Well have these objects resembled a flying saucer?

13

00:00:47,400 --> 00:00:49,480

Is that why they reached that name?

14

00:00:49,480 --> 00:00:55,320

The majority of reports and the Air Force agrees on that are disc shaped objects, which

15

00:00:55,320 --> 00:01:00,040

have a diameter about one tenth out of their thickness, and they've been reported up in

16

00:01:00,040 --> 00:01:03,080

sizes over 300 feet in diameter.

17

00:01:03,080 --> 00:01:06,280

When was the first one sighted?

18

00:01:06,280 --> 00:01:12,760

During World War II, there were hundreds of reports of disc or rocket shaped objects

19

00:01:12,760 --> 00:01:17,400

by our pilots over in Germany and on the bombing routes to Japan.

20

00:01:17,400 --> 00:01:19,240

Nobody used the word flying saucers then.

21

00:01:19,240 --> 00:01:22,280

They thought they were foreign devices and we found out later that they thought they

22

00:01:22,280 --> 00:01:23,280

were ours.

23

00:01:23,720 --> 00:01:27,240

The mystery never was cleared up, but those were the first official sightings.

24

00:01:27,240 --> 00:01:34,000

Have there ever been any actions from these unidentified objects such as shootings or

25

00:01:34,000 --> 00:01:36,000

incidents of any kind?

26

00:01:36,000 --> 00:01:38,600

No, there's no proven hostilities.

27

00:01:38,600 --> 00:01:44,720

There have been three cases where planes have disappeared chasing these objects.

28

00:01:44,720 --> 00:01:50,320

One captain, Mantell, was killed back in 1948 chasing one of these saucers and the Air Force

29

00:01:50,360 --> 00:01:55,360

stated this and later suggested several answers, but they never did have a conclusion.

30

00:01:55,360 --> 00:02:01,920

Does the Air Force work in cooperation with your committee in locating these things and

31

00:02:01,920 --> 00:02:02,920

reporting on them?

32

00:02:02,920 --> 00:02:03,920

Not officially.

33

00:02:03,920 --> 00:02:09,880

The Air Force policy, which has been set long ago, is to keep most of the facts undercover

34

00:02:09,880 --> 00:02:11,880

until they have all the answers.

35

00:02:11,880 --> 00:02:16,720

We don't like the policy, but in many of the times we find that people in the Air Force

36

00:02:16,760 --> 00:02:20,520

don't like it either, but it's set and therefore they have to carry it out.

37

00:02:20,520 --> 00:02:25,360

We do get information from many people in the Air Force and also retired and reserve

38

00:02:25,360 --> 00:02:30,680

Air Force soldiers who are trying to get the truth for the public.

39

00:02:30,680 --> 00:02:36,720

Have more of these unidentified objects been sighted now in the current time as compared

40

00:02:36,720 --> 00:02:38,720

to years ago?

41

00:02:38,720 --> 00:02:39,720

They vary.

42

00:02:39,720 --> 00:02:43,680

Right now there is a slight increase in sightings.

43

00:02:43,680 --> 00:02:47,560

Most of these don't get into the newspapers or on the air, so there is an impression that

44

00:02:47,560 --> 00:02:49,560

there is complete law.

45

00:02:49,560 --> 00:02:52,800

Actually there have been some very important sightings recently.

46

00:02:52,800 --> 00:02:54,800

They continue regularly all the time?

47

00:02:54,800 --> 00:02:55,800

That's right.

48

00:02:55,800 --> 00:02:57,800

They kept on ever since World War II.

49

00:02:57,800 --> 00:03:03,800

There have been big increases several years ago which did get into the papers on the air,

50

00:03:03,800 --> 00:03:08,800

but after the Air Force set its new policy of closing up the files.

51

00:03:08,800 --> 00:03:11,800

Actually you don't get them so many times.

52

00:03:11,920 --> 00:03:16,920

There is one recently, for instance over the Pacific, where two commercial jet liners,

53

00:03:16,920 --> 00:03:23,920

one of them is Pan American and the other British overseas crew, sighted a gigantic

54

00:03:23,920 --> 00:03:29,920

object, round object, apparently with an open space in the center like the planned space

55

00:03:29,920 --> 00:03:34,920

base suggested by Von Braun years ago, which of course we are just simply talking about.

56

00:03:34,920 --> 00:03:38,920

This thing moves so fast that it was over the horizon in a matter of minutes.

57

00:03:39,040 --> 00:03:45,040

It was also sighted and reported and confirmed by the Navy, sighted by a ship in the same

58

00:03:45,040 --> 00:03:46,040

area.

59

00:03:46,040 --> 00:03:53,040

So here we have this apparently huge space base which was investigating our globe at

60

00:03:53,040 --> 00:03:55,040

that time on September 21st.

61

00:03:55,040 --> 00:04:02,040

October 30th out in Utah in broad daylight, its smaller disk shape was seen by about eight

62

00:04:02,040 --> 00:04:08,040

pilots, a number of people on the ground and was sued by one pilot over Provo Airport.

63

00:04:08,160 --> 00:04:13,160

Down in Venezuela recently there was a sighting where a number of fishermen saw this thing

64

00:04:13,160 --> 00:04:17,160

and they were so terrified by it they all jumped over there, both inside the swimmish

65

00:04:17,160 --> 00:04:19,160

shore, one man was drowned.

66

00:04:19,160 --> 00:04:22,160

There's been quite a lot of fear of these things which has been built up because of

67

00:04:22,160 --> 00:04:23,160

the secrecy.

68

00:04:23,160 --> 00:04:28,160

Are there any conclusions to just where these machines are coming from?

69

00:04:28,160 --> 00:04:31,160

We're not going to draw on any definite conclusion.

70

00:04:31,160 --> 00:04:37,160

However, it is interesting that every time Mars approaches the Earth there is a noticeable

71

00:04:37,640 --> 00:04:38,640

increase in sighting.

72

00:04:38,640 --> 00:04:40,640

So this has happened since 1948.

73

00:04:40,640 --> 00:04:45,640

Now that doesn't mean that they are based on Mars although it indicates they may be.

74

00:04:45,640 --> 00:04:50,240

Possibly there is a base, maybe they originate from Mars, we don't know.

75

00:04:50,240 --> 00:04:53,240

What about seeing actual persons or beings aboard?

76

00:04:53,240 --> 00:04:55,240

Has this ever been done?

77

00:04:55,240 --> 00:04:59,840

Of course there have been many wild tales of people who claim that things have talked

78

00:04:59,840 --> 00:05:05,080

with spacemen who came down and stepped out of flying saucers but we know of only one

79

00:05:05,080 --> 00:05:10,640

or two cases where we accept there is authentic where they saw some kind of creature.

80

00:05:10,640 --> 00:05:14,560

These creatures were simply seen vaguely, some kind of movement behind the ports or

81

00:05:14,560 --> 00:05:15,560

control panels.

82

00:05:15,560 --> 00:05:21,760

And as far as we know they are simply told the creatures of intelligence and interest

83

00:05:21,760 --> 00:05:26,200

in this planet and so on and that's as much information as we have.

84

00:05:26,200 --> 00:05:30,800

But they haven't made any official contact or tried to?

85

00:05:30,800 --> 00:05:36,160

They have been several brief landings where they have touched down, that is as contrasted

86

00:05:36,160 --> 00:05:42,480

with these wild claims, that they have touched down and the ground has been found radioactive

87

00:05:42,480 --> 00:05:44,880

where they rested on the ground for a few moments.

88

00:05:44,880 --> 00:05:50,200

I don't think we have any proof of any of these beings ever came out during those landings.

89

00:05:50,200 --> 00:05:54,520

I'd like to ask you some more questions Major Kehoe and so I'll continue with my capital

90

00:05:54,520 --> 00:05:57,760

assignment in just one minute.

91

00:05:57,760 --> 00:06:05,520

Major Kehoe, these unidentified objects that have been seen and cited and reported on are

92

00:06:05,520 --> 00:06:11,280

reports coming in from overseas anywhere that they also are seeing them and are there stories

93

00:06:11,280 --> 00:06:12,880

as to what they look like?

94

00:06:12,880 --> 00:06:14,280

Are they the same as our stories?

95

00:06:14,280 --> 00:06:15,280

Do they compare?

96

00:06:15,280 --> 00:06:17,720

Yes they do, they are practically the same.

97

00:06:17,720 --> 00:06:22,880

They have been reports by the armed forces in most foreign countries and the airline

98

00:06:22,880 --> 00:06:26,960

pilots, astronomers, missile trackers and so on.

99

00:06:26,960 --> 00:06:29,040

Discs and rocket shaped devices.

100

00:06:29,040 --> 00:06:34,320

In one case an RAF pilot in broad daylight cited a disc shaped object that was coming

101

00:06:34,320 --> 00:06:38,120

at him head on and he just barely missed it.

102

00:06:38,120 --> 00:06:43,000

The object was also seen by pilots and other jets in the same area.

103

00:06:43,000 --> 00:06:47,640

Down in Brazil a few years ago an airliner flew right into the middle of a formation

104

00:06:47,640 --> 00:06:50,240

of discs about 19 of them.

105

00:06:50,240 --> 00:06:53,960

They were estimated by the pilots as being about 100 feet in diameter.

106

00:06:53,960 --> 00:06:59,240

This close proximity scared almost all the passengers and for a moment everybody was

107

00:06:59,240 --> 00:07:03,360

running wild in the ship or they could be quieted down.

108

00:07:03,360 --> 00:07:07,440

These objects then do fly in numbers not just one is that right?

109

00:07:07,440 --> 00:07:10,360

They've been reported in many times in formations.

110

00:07:10,360 --> 00:07:15,960

They've been reported in T and V formations, echelons and changing from one to the other.

111

00:07:15,960 --> 00:07:22,800

For instance from a circle to a line formation giving absolute proof of intelligent control.

112

00:07:22,800 --> 00:07:24,200

How about actual speeds?

113

00:07:24,200 --> 00:07:28,600

Have there been any estimates as to just how fast they can travel?

114

00:07:28,600 --> 00:07:31,600

Well they were tracked out of White Sands at the proving ground.

115

00:07:31,600 --> 00:07:34,960

One object that was tracked at 18,000 miles an hour.

116

00:07:34,960 --> 00:07:42,520

Now that was by theodolite and four Navy scientists saw this object and they tracked it very carefully.

117

00:07:42,560 --> 00:07:45,960

There have been other tracking by radar and visual also.

118

00:07:45,960 --> 00:07:52,880

Now the Air Force for instance one night over the Gulf of Mexico a crew of B-29 bombers

119

00:07:52,880 --> 00:07:57,600

tracked several small objects moving at about 5,240 miles an hour.

120

00:07:57,600 --> 00:08:00,120

They tracked them by top watch.

121

00:08:00,120 --> 00:08:05,200

They were seen off to one side by crewmen looking out the blister windows.

122

00:08:05,200 --> 00:08:09,600

Later a very large object appeared on the radar scope and one of these formations joined

123

00:08:09,680 --> 00:08:15,800

this object or merged with it or taken aboard and then this huge machine speeded up and

124

00:08:15,800 --> 00:08:18,960

went off the scope at about 9,000 miles an hour.

125

00:08:18,960 --> 00:08:21,760

That's an official Air Force intelligence report.

126

00:08:21,760 --> 00:08:26,320

Is there any report of this from the Northern Headquarters in Colorado?

127

00:08:26,320 --> 00:08:28,120

Do they report on this?

128

00:08:28,120 --> 00:08:31,560

They report what they call unknowns.

129

00:08:31,560 --> 00:08:37,080

Unknowns can be anything from an unknown aircraft to some phenomena, something like that.

130

00:08:37,120 --> 00:08:39,200

There have been UFO reports many times.

131

00:08:39,200 --> 00:08:43,840

We've been told that by Air Force officers for instance the Captain Edmund Jerome who

132

00:08:43,840 --> 00:08:48,800

recently retired and was an intelligence officer as well as a command pilot says that several

133

00:08:48,800 --> 00:08:53,320

times there were cases reported by a distant early warning system where they picked them

134

00:08:53,320 --> 00:08:57,600

up by radar and they were moving in such fantastic speeds that it couldn't possibly be anything

135

00:08:57,600 --> 00:09:02,240

Russian and these were of course sent right on to intelligence but they were never made

136

00:09:02,240 --> 00:09:03,240

public.

137

00:09:03,520 --> 00:09:06,760

Has there been any ideas to what makes them move?

138

00:09:06,760 --> 00:09:07,760

What type of power?

139

00:09:07,760 --> 00:09:10,120

Well that's speculation again.

140

00:09:10,120 --> 00:09:18,520

Now Professor Herman Overth, the great rocket designer, the father of space travel has suggested

141

00:09:18,520 --> 00:09:23,320

that they are using a force which has an artificial gravity field.

142

00:09:23,320 --> 00:09:29,760

In other words they can move through our atmosphere without heating up or breaking the sound barrier

143

00:09:29,760 --> 00:09:32,040

and causing a boom.

144

00:09:32,040 --> 00:09:36,680

But what causes the power itself, he doesn't say, it could be cosmic rays, it could be

145

00:09:36,680 --> 00:09:41,680

nuclear power and since they have been radioactive where they touch now, at least some of them,

146

00:09:41,680 --> 00:09:45,480

a few of them at least, must use nuclear power.

147

00:09:45,480 --> 00:09:49,080

But they may have some other power outside of our atmosphere which we don't even know

148

00:09:49,080 --> 00:09:50,080

about.

149

00:09:50,080 --> 00:09:56,800

Do our scientists, and by that I mean scientists all over the earth, feel that these machines

150

00:09:56,800 --> 00:10:01,160

are able or is it possible for them to move around without breaking the sound barrier?

151

00:10:01,680 --> 00:10:05,040

Obviously there have been a number of them that have agreed with Overth on that same

152

00:10:05,040 --> 00:10:11,640

theory that if they have an artificial gravity field that would cause them to carry a small

153

00:10:11,640 --> 00:10:16,000

cushion of air, just as the earth takes its atmosphere with it, around which keeps them

154

00:10:16,000 --> 00:10:20,400

from heating up, they can go up to any speed as far as their power would permit.

155

00:10:20,400 --> 00:10:26,720

Quite a number of scientists have said that we should do a more careful investigation.

156

00:10:26,720 --> 00:10:32,800

For instance, Professor Charles King Oliver, the President of the American Reader Society,

157

00:10:32,800 --> 00:10:38,680

recently said in a book, Challenge of Unidentified Flying Augies, that the subject of UFOs is

158

00:10:38,680 --> 00:10:43,560

one which should be studied scientifically, which it has not been due to suppression of

159

00:10:43,560 --> 00:10:49,200

pertinent data and also to subjecting reports of trained and reputable people to ridicule.

160

00:10:49,200 --> 00:10:54,960

Well that's the feeling held by quite a number of scientists who will help us privately,

161

00:10:55,040 --> 00:10:57,040

but they don't want to be ridiculed either.

162

00:10:57,040 --> 00:11:03,040

So I feel that before very long they will come out and probably join in a body and make

163

00:11:03,040 --> 00:11:05,480

this recommendation to Congress or the airport.

164

00:11:05,480 --> 00:11:16,480

Well is there any explanation or any idea as to why these objects have not revealed

165

00:11:16,480 --> 00:11:21,400

themselves as far as making official contact with people, letting them know why they are

166

00:11:21,440 --> 00:11:27,040

here, what they are doing, if this has been going on for so many years, has it been considered

167

00:11:27,040 --> 00:11:31,360

strange that they have never done anything to make any contact at all this time?

168

00:11:31,360 --> 00:11:34,320

That is the usual question, one of the big ones.

169

00:11:34,320 --> 00:11:39,560

There are several reasons why they might not, and one of them might be that they are afraid

170

00:11:39,560 --> 00:11:43,680

of coming out on this planet where they are not immune to our diseases.

171

00:11:43,680 --> 00:11:48,360

We've recently given a lot of thought to our landing on other planets and worrying about

172

00:11:48,360 --> 00:11:49,960

diseases there.

173

00:11:50,520 --> 00:11:54,080

Our gravity may be entirely different from theirs, which would make it difficult to put

174

00:11:54,080 --> 00:11:55,800

them in the maneuver around.

175

00:11:55,800 --> 00:11:58,120

They still may not be able to understand us.

176

00:11:58,120 --> 00:12:03,880

First, if they might be monitoring our broadcast, perhaps they can't.

177

00:12:03,880 --> 00:12:07,400

They may have a lot of problems to solve about contacting us.

178

00:12:07,400 --> 00:12:12,600

And also, since we chase them and shoot at them frequently, and we chase them, the airport

179

00:12:12,600 --> 00:12:17,640

must chase any unidentified flying object like that by standing orders, they probably

180

00:12:17,720 --> 00:12:20,920

fear that they won't get a very good reception.

181

00:12:20,920 --> 00:12:26,280

But it looks as though they are trying to prepare for eventual communication and probably

182

00:12:26,280 --> 00:12:27,280

landing to.

183

00:12:27,280 --> 00:12:32,960

Do you feel that the fact that they have a machine that can move at such tremendous

184

00:12:32,960 --> 00:12:39,480

speeds and do so many things that we cannot do is yet an indication that they are much,

185

00:12:39,480 --> 00:12:41,880

much advanced over the Earth?

186

00:12:41,880 --> 00:12:45,080

Yes, I think that's fairly obvious.

187

00:12:45,160 --> 00:12:48,520

A number of scientists and others have said the same thing.

188

00:12:48,520 --> 00:12:53,560

They must be, for instance, Professor Harlow Shapley, the former director of Harvard Observatory,

189

00:12:53,560 --> 00:12:58,200

said there must be at least 100 million in the planets that are populated, and many of

190

00:12:58,200 --> 00:13:00,440

them would have races far ahead of us.

191

00:13:00,440 --> 00:13:05,560

And since then, well, dozens of top astronomers have said the same thing.

192

00:13:05,560 --> 00:13:10,440

Majority leader of the House of Congress, and probably be our next speaker, McCormick,

193

00:13:10,440 --> 00:13:13,040

has said that he told me the same thing.

194

00:13:13,040 --> 00:13:14,040

We were discussing this.

195

00:13:14,040 --> 00:13:17,160

He said that he believed that a number of these reports couldn't be explained.

196

00:13:17,160 --> 00:13:22,280

There was something going on, and probably should be told the facts, whether or not the

197

00:13:22,280 --> 00:13:24,680

open or closed hearings hadn't been decided.

198

00:13:24,680 --> 00:13:28,680

But he said that it seemed that if they were true, they must be intelligent as far ahead

199

00:13:28,680 --> 00:13:29,680

of us.

200

00:13:29,680 --> 00:13:31,760

I'd like to ask you some more questions, Major Kehoe.

201

00:13:31,760 --> 00:13:35,480

And so I'll continue with my capital assignment in just one minute.

202

00:13:35,480 --> 00:13:41,440

There's been some reports lately about the project the Air Force has been undertaking

203

00:13:41,440 --> 00:13:45,000

regarding, as it was termed, the flying saucer.

204

00:13:45,000 --> 00:13:49,760

What connections does this flying saucer have with the unidentified objects, if any?

205

00:13:49,760 --> 00:13:55,640

Well, that is the Avril project, which was started five or six years ago when the Air

206

00:13:55,640 --> 00:13:57,160

Force took it over from the Canadians.

207

00:13:57,160 --> 00:14:02,800

And they were trying to design a round device, a typical flying saucer, which would fly on

208

00:14:02,800 --> 00:14:03,800

jet power.

209

00:14:03,800 --> 00:14:08,440

However, they had been trying for some time to force down some of these objects so that

210

00:14:08,440 --> 00:14:11,240

they could duplicate the propulsion system.

211

00:14:11,240 --> 00:14:13,120

The Avril was an intermediate step.

212

00:14:13,120 --> 00:14:16,600

They tried all these years, and finally they gave it up because the best they could do

213

00:14:16,600 --> 00:14:19,680

was get it about 15 or 20 feet off the ground.

214

00:14:19,680 --> 00:14:23,760

So after spending approximately \$10 million on it, they abandoned it.

215

00:14:23,760 --> 00:14:26,560

Do you think they'll continue this at a later date?

216

00:14:26,560 --> 00:14:28,040

No, I don't think so.

217

00:14:28,040 --> 00:14:31,200

They've given it everything they had on that particular approach.

218

00:14:31,200 --> 00:14:36,000

Now, if they can find the secret of the propulsion of these UFOs, then they certainly will.

219

00:14:36,000 --> 00:14:37,640

And they're still trying that.

220

00:14:37,640 --> 00:14:39,320

They're trying artificial gravity.

221

00:14:39,760 --> 00:14:43,320

There are about 25 of them in this country, some of them official and some of them in

222

00:14:43,320 --> 00:14:47,000

private industry, to get the secret of gravity control.

223

00:14:47,000 --> 00:14:52,240

Will there be any benefit in trying to build a vehicle of our own or a spacecraft that

224

00:14:52,240 --> 00:14:57,720

could move at such an outstanding speed that might overcome one of these things to capture

225

00:14:57,720 --> 00:14:58,720

it?

226

00:14:58,720 --> 00:15:00,280

Well, I should think so.

227

00:15:00,280 --> 00:15:04,720

We had an awful record statement from one Air Force career officer who said that it

228

00:15:04,720 --> 00:15:05,960

would be the greatest thing in the world.

229

00:15:06,080 --> 00:15:09,920

The Air Force could get one of these in its hands and find out all the secrets.

230

00:15:09,920 --> 00:15:14,720

Providing Russia didn't do it at the same time, we would be very quickly ahead of it.

231

00:15:14,720 --> 00:15:18,760

Not only here on Earth, but of course in our space exploration.

232

00:15:18,760 --> 00:15:24,000

All these lead ports have been from people and the Air Force that there are unidentified

233

00:15:24,000 --> 00:15:29,280

objects and they all agree that they are shaped the same and what have you.

234

00:15:29,280 --> 00:15:34,560

Do any of these objects have special windows or do they have any portholes?

235

00:15:34,560 --> 00:15:36,080

Have they ever been seen that closely?

236

00:15:36,080 --> 00:15:38,360

They could re-describe it right to detail.

237

00:15:38,360 --> 00:15:42,520

Yes, some of them have been seen close enough to get a fairly good picture.

238

00:15:42,520 --> 00:15:49,040

The captain child of Eastern Airlines and his co-pilot, Captain Whitehead, sighted one

239

00:15:49,040 --> 00:15:54,200

of these objects of projectile type approaching them on an airway and it veered at the last

240

00:15:54,200 --> 00:15:59,680

second and they were put to one side and they said it had two rows of ports so which they

241

00:15:59,680 --> 00:16:05,040

could see blue fluorescent light and it had to look like a radar snout or a pole up on

242

00:16:05,040 --> 00:16:10,360

the nose and some type of exhaust similar to jet propulsion.

243

00:16:10,360 --> 00:16:13,400

It turns so sharply that the blast rocked this airliner.

244

00:16:13,400 --> 00:16:18,040

There have been two or three other cases where men of this pilot described the same type

245

00:16:18,040 --> 00:16:19,640

of thing with windows or ports.

246

00:16:19,640 --> 00:16:25,720

Now the discs often get a report of lighted openings around the edges whether that is

247

00:16:25,720 --> 00:16:29,200

exhaust opening or observation port I don't know.

248

00:16:29,200 --> 00:16:35,480

All of these discs have also been reported with small turret or dome effects on top.

249

00:16:35,480 --> 00:16:40,440

And one report we had recently where one of the witnesses was so frightened that he practically

250

00:16:40,440 --> 00:16:46,400

blacked out was of the openings in the forward part of this disc as it came down hovered over

251

00:16:46,400 --> 00:16:51,120

the car through which he could see figures moving apparently looking down at them.

252

00:16:51,120 --> 00:16:54,120

So in that one at least there were witnesses.

253

00:16:54,840 --> 00:16:59,520

Well then your committee is definitely assured that these objects do exist.

254

00:16:59,520 --> 00:17:02,480

There's no doubt in your mind about that.

255

00:17:02,480 --> 00:17:09,360

In the majority of mind yes our board of governors and advisors have evaluated these many sightings

256

00:17:09,360 --> 00:17:13,760

of massive evidence and have concluded the majority has concluded that the objects are

257

00:17:13,760 --> 00:17:19,320

real they are under intelligent control superior to anything we have and they come from an

258

00:17:19,320 --> 00:17:21,320

unknown source.

259

00:17:21,320 --> 00:17:26,920

One of the board members who gave that opinion was Vice Admiral R. H. Hill and got her form

260

00:17:26,920 --> 00:17:29,440

ahead of central intelligence agency.

261

00:17:29,440 --> 00:17:32,640

A number of airport officers agree with this too.

262

00:17:32,640 --> 00:17:37,600

Most of them who make a name are retired or reserve although many on active duty feel

263

00:17:37,600 --> 00:17:38,600

the same way.

264

00:17:38,600 --> 00:17:44,160

Colonel J. Bryan for instance says that they are real he says they are in a planetary and

265

00:17:44,160 --> 00:17:46,000

the censorship is wrong and dangerous.

266

00:17:46,120 --> 00:17:52,120

Major Dewey Fornay who is following the chief monitor for the Pentagon on this project has

267

00:17:52,120 --> 00:17:56,000

said the airport has withheld information and is still withholding it.

268

00:17:56,000 --> 00:17:59,120

There are particularly sightings of the objects.

269

00:17:59,120 --> 00:18:03,160

I don't want to give the impression however that we are trying to attack the Air Force.

270

00:18:03,160 --> 00:18:08,960

I think the Air Force is in a very bad spot and recently one officer told me that they

271

00:18:08,960 --> 00:18:13,120

agreed the policy was controlling them instead of they're controlling the policy because

272

00:18:13,240 --> 00:18:19,520

over a period of years they have explained sightings one way or another even though the

273

00:18:19,520 --> 00:18:24,520

facts didn't always fit and many times it was mere speculation and now they're on record

274

00:18:24,520 --> 00:18:28,760

and they don't know exactly which way to turn to get it back on the track.

275

00:18:28,760 --> 00:18:33,200

Each is where I think we simply say we did it in the public interest we didn't want to

276

00:18:33,200 --> 00:18:37,720

frighten anybody we were waiting to get all the answers we haven't got them all now so

277

00:18:37,720 --> 00:18:42,600

we're going to give out what we have and that's what we hope to do and we are that with the

278

00:18:42,600 --> 00:18:47,960

release of our five-year report to Congress we are going to give this the copy to the

279

00:18:47,960 --> 00:18:53,600

sector of the Air Force and offer to cooperate in helping to put out this information to

280

00:18:53,600 --> 00:18:59,000

our organization and our members in 50 states and see if we can change the misunderstanding

281

00:18:59,000 --> 00:19:00,880

in the ridicule.

282

00:19:00,880 --> 00:19:02,520

Thank you Major Kehoe.

283

00:19:02,520 --> 00:19:07,800

I have been speaking with Major Donald Kehoe director of the National Investigations Committee

284

00:19:07,800 --> 00:19:09,920

on Aerial Phenomenon.

285

00:19:09,920 --> 00:19:13,360

This is Al Levy of Mutual News in Washington.

286

00:19:13,360 --> 00:19:15,760

Capital assignment will continue in one minute.
