

1

00:00:00,000 --> 00:00:07,680

A group who have interest in saucers and specialise in various other subjects as sidelines such

2

00:00:07,680 --> 00:00:13,040

as photography and electronics, they're about to launch the TAAPIB.

3

00:00:13,040 --> 00:00:14,040

Any guesses?

4

00:00:14,040 --> 00:00:21,360

The Toledo Aerial, no, the Toledo Area Aerial Phenomena Investigation Bureau.

5

00:00:21,360 --> 00:00:27,440

More and more, and I use this Bob as a lead-in for your particular area, more and more.

6

00:00:27,440 --> 00:00:32,080

I find that young people, now many of them, what we got are from engineers, scientists,

7

00:00:32,080 --> 00:00:38,840

doctors, businessmen, but also a large percentage of young guys who are in high school or just

8

00:00:38,840 --> 00:00:40,440

recently left high school.

9

00:00:40,440 --> 00:00:44,080

I get the impression that Mr. Rabansky is also a high school student.

10

00:00:44,080 --> 00:00:46,240

You yourself are a senior at the Newark High Bob.

11

00:00:46,240 --> 00:00:47,240

Correct.

12

00:00:47,240 --> 00:00:52,560

Now in your club, I guess along with adults, you have a lot of also older teenagers.

13

00:00:52,560 --> 00:00:53,560

Yes, we do.

14

00:00:53,560 --> 00:01:00,760

What do you think it is that has caused this big rash of interest and unidentified flying

15

00:01:00,760 --> 00:01:01,760

objects?

16

00:01:01,760 --> 00:01:07,000

Is it maybe the same thing that the teenagers of my generation looked for in Buck Rogers

17

00:01:07,000 --> 00:01:09,560

or something about the unknown?

18

00:01:09,560 --> 00:01:10,560

What do you think?

19

00:01:10,560 --> 00:01:13,360

Well, I think it could stem from that.

20

00:01:13,360 --> 00:01:19,840

I think that people are most interested in finding out what is flying around in our skies.

21

00:01:19,840 --> 00:01:24,200

People are always interested in this kind of stuff and curiosity goes a long way with

22

00:01:24,200 --> 00:01:25,200

human beings.

23

00:01:25,200 --> 00:01:32,760

And I think that people should be told the truth about flying saucers.

24

00:01:32,760 --> 00:01:37,560

The United States Air Force says hands-off policy on the UFOs.

25

00:01:37,560 --> 00:01:43,160

I don't see why the United States Air Force has to condemn this information.

26

00:01:43,160 --> 00:01:45,160

I see no sense in it.

27

00:01:45,280 --> 00:01:48,520

I know they're also going to have something to say a little later about the Air Force

28

00:01:48,520 --> 00:01:51,280

and their position as they've taken on this.

29

00:01:51,280 --> 00:01:56,280

But you said that the youngsters are trying to find out or want to know what's flying

30

00:01:56,280 --> 00:01:57,280

around in our skies.

31

00:01:57,280 --> 00:02:01,800

Why do we know in fact anything is flying around in our skies other than airplanes and jets

32

00:02:01,800 --> 00:02:02,800

and missiles?

33

00:02:02,800 --> 00:02:08,280

Well, most of this detailed information either comes from reliable sources.

34

00:02:08,280 --> 00:02:11,160

People have taken motion pictures and colored films.

35

00:02:11,160 --> 00:02:16,160

Otherwise, the only thing we have to go on is just people's words that they've seen these

36

00:02:16,160 --> 00:02:17,160

objects.

37

00:02:17,160 --> 00:02:21,440

And this is the area where I think most people question.

38

00:02:21,440 --> 00:02:25,680

It's just a collection of words from people.

39

00:02:25,680 --> 00:02:31,760

We have nothing actual, factual, a photograph that we can show and point to and say, this

40

00:02:31,760 --> 00:02:32,760

is for sure.

41

00:02:32,760 --> 00:02:33,760

There's no questioning this.

42

00:02:33,760 --> 00:02:37,800

Earlier I talked about this quite often and I'm still straddling that fence in a wedding

43

00:02:37,800 --> 00:02:41,280

for the day that someone comes up with something sure fire.

44

00:02:41,280 --> 00:02:44,480

Until that I guess we're stuck with the words of dependable people.

45

00:02:44,480 --> 00:02:49,120

Let's just take a couple of our telephone questions here before we get into an area

46

00:02:49,120 --> 00:02:52,240

that I know Earl would like very much to get into.

47

00:02:52,240 --> 00:02:58,560

And we'll do our best to answer this evening without the scientific mind or the mathematician

48

00:02:58,560 --> 00:03:00,320

amongst us Bob Grove.

49

00:03:00,320 --> 00:03:04,320

What's your question, please?

50

00:03:04,320 --> 00:03:11,800

Could we define what the problem was about the flying saucers buzzing the White House?

51

00:03:11,800 --> 00:03:15,920

This is something Earl that I seem to recall you talking about before.

52

00:03:15,920 --> 00:03:17,920

And Ricky, anything about this?

53

00:03:17,920 --> 00:03:22,160

Buzzing the White House, I'm not sure if they were or not, but they were over Washington.

54

00:03:22,160 --> 00:03:25,080

They were flying in the city of the White House, but not buzzing it.

55

00:03:25,080 --> 00:03:28,360

They were flying over in the restricted airspace of Washington.

56

00:03:28,360 --> 00:03:30,840

And Earl, do you have something further there?

57

00:03:30,840 --> 00:03:32,920

Well, I have quite a long account on this.

58

00:03:32,920 --> 00:03:36,840

I would like very much to go out this in another time if I could.

59

00:03:36,840 --> 00:03:37,840

Is that permissible?

60

00:03:37,840 --> 00:03:38,840

This is like a good little while?

61

00:03:38,840 --> 00:03:39,840

It would.

62

00:03:39,840 --> 00:03:40,840

Okay.

63

00:03:40,840 --> 00:03:41,840

All right.

64

00:03:41,840 --> 00:03:42,840

So you keep listening to our...

65

00:03:42,840 --> 00:03:43,840

I'll refer to it by the way this evening, however.

66

00:03:43,840 --> 00:03:45,400

Our youthful round table.

67

00:03:45,400 --> 00:03:48,800

And Earl has a complete story on that, but he feels it would take too much time because

68

00:03:48,800 --> 00:03:51,840

we have several other areas we'd like to get into this evening.

69

00:03:51,840 --> 00:03:52,840

Promise, Earl?

70

00:03:52,840 --> 00:03:53,840

Promise.

71

00:03:53,840 --> 00:03:54,840

Okay.

72

00:03:54,840 --> 00:03:55,840

Bob, very briefly, did you have something to say on this subject?

73

00:03:55,840 --> 00:03:56,840

No, I don't.

74

00:03:56,840 --> 00:03:57,840

Okay.

75

00:03:57,840 --> 00:03:58,840

Thank you for calling.

76

00:03:58,840 --> 00:03:59,840

For Grand P.M., your question.

77

00:03:59,840 --> 00:04:11,280

If an astronaut is orbiting the Earth and a UFO has maneuvered alongside of him, what

78

00:04:11,280 --> 00:04:13,960

would the astronaut likely do?

79

00:04:13,960 --> 00:04:18,640

Oh, you know, what is a man likely to do if he's kicked by a mule?

80

00:04:18,640 --> 00:04:20,120

This is dealing in supposition.

81

00:04:20,120 --> 00:04:22,520

I don't know.

82

00:04:22,520 --> 00:04:25,720

Have our space directors ever considered this?

83

00:04:25,720 --> 00:04:27,400

Well, this, I think, makes it a good question.

84

00:04:27,400 --> 00:04:29,040

The last part of it there.

85

00:04:29,040 --> 00:04:30,040

What are your opinions here?

86

00:04:30,040 --> 00:04:34,400

You would probably take some photos of it with his hand camera.

87

00:04:34,400 --> 00:04:39,000

That's about all he could do in a radio back to the capsule communicator and tell them

88

00:04:39,000 --> 00:04:40,000

about it.

89

00:04:40,000 --> 00:04:41,000

That's about all he could do.

90

00:04:41,000 --> 00:04:45,160

I don't think that much he could do except look at it and try to get more details on it.

91

00:04:45,160 --> 00:04:46,160

Earl?

92

00:04:46,160 --> 00:04:53,920

I do plan in a future evening to cover this quite completely due to the fact that I recently

93

00:04:53,920 --> 00:04:58,240

met Bob Walker, or Joe Walker, I should say.

94

00:04:58,240 --> 00:05:01,960

I've seen so many Bob's around here.

95

00:05:01,960 --> 00:05:07,880

But I will be corresponding with him as soon as certain photographs are finished and are

96

00:05:07,880 --> 00:05:09,240

ready to mail to him.

97

00:05:09,240 --> 00:05:13,080

So I would like to go into quite detail on that too for a future time.

98

00:05:13,080 --> 00:05:19,000

OK, and I'll just add that the reason Earl mentions that is that Joe Walker, just to

99

00:05:19,000 --> 00:05:26,080

refresh your memory, when he came back from one of his flights reputedly, had reported

100

00:05:26,080 --> 00:05:30,560

seeing flying saucers or some kind of object and getting pictures of them and he later

101

00:05:30,560 --> 00:05:34,280

denied that right here on Program PM when we had him on the show.

102

00:05:34,280 --> 00:05:37,960

So I think there is room for Earl to expand there and if I know Earl, he will be quite

103

00:05:37,960 --> 00:05:38,960

expansive.

104

00:05:38,960 --> 00:05:40,960

OK, thank you for calling.

105

00:05:40,960 --> 00:05:46,480

Very quickly now, Program PM, what's your question?

106

00:05:46,480 --> 00:05:49,840

Last week we said that the Air Force knew quite a bit about what?

107

00:05:49,840 --> 00:05:52,760

About the UFOs.

108

00:05:52,760 --> 00:05:54,880

And why do we think they won't say anything about them?

109

00:05:54,880 --> 00:05:57,280

Well, I think now is the time, Earl.

110

00:05:57,280 --> 00:06:02,280

An answer to your question, I think Earl has a few dozen well-chosen words.

111

00:06:02,280 --> 00:06:05,720

Earl, right now, let me, I know Earl has an open letter.

112

00:06:05,720 --> 00:06:08,760

Would you like to explain the circumstances of this letter, Earl?

113

00:06:08,760 --> 00:06:13,200

Well, immediately following last Thursday night's broadcast, I answered three phone

114

00:06:13,200 --> 00:06:14,200

calls.

115

00:06:14,200 --> 00:06:17,440

Is this gentleman on the phone right now?

116

00:06:17,440 --> 00:06:18,960

This isn't the man you're talking about.

117

00:06:18,960 --> 00:06:19,960

Oh, thank you.

118

00:06:19,960 --> 00:06:21,720

Bob was answering calls in the engineer's room.

119

00:06:21,720 --> 00:06:24,400

I could see him through the glass wall here.

120

00:06:24,400 --> 00:06:27,760

And I think he perhaps answered about three as well.

121

00:06:27,760 --> 00:06:33,280

The calls, as always, were from serious listeners.

122

00:06:33,280 --> 00:06:38,480

The last call was most interesting to me for the gentleman calling was an Air Force officer

123

00:06:38,480 --> 00:06:40,600

of high rank retired.

124

00:06:40,600 --> 00:06:45,880

He had never before occurred the program, so naturally was at a disadvantage from the

125

00:06:45,880 --> 00:06:51,280

standpoint of not knowing how thoroughly we've been covering this UFO subject here.

126

00:06:51,280 --> 00:06:55,960

He told me that I had been rough on the Air Force.

127

00:06:55,960 --> 00:07:01,120

We spoke for about ten minutes on the phone and in closing he told me he had enjoyed talking

128

00:07:01,120 --> 00:07:02,120

with me.

129

00:07:02,120 --> 00:07:04,880

In this, I assure you, it was mutual.

130

00:07:04,880 --> 00:07:09,560

Today after talking with you, Harve, I checked the phone book to confirm the fact that it

131

00:07:09,560 --> 00:07:11,640

was really he who had called me.

132

00:07:11,640 --> 00:07:13,800

Not just a person using his name?

133

00:07:13,800 --> 00:07:14,800

Yes.

134

00:07:14,800 --> 00:07:20,040

And he admitted immediately it was he I had spoken with and again said you were rough on

135

00:07:20,040 --> 00:07:21,240

the Air Force.

136

00:07:21,240 --> 00:07:27,400

He told me he would tune in KYW at 10.30 tonight because I knew we'd be on rather late due

137

00:07:27,400 --> 00:07:28,400

to the news.

138

00:07:28,400 --> 00:07:36,240

And I said fine, but I, for I wanted to speak to you over the air and in fairness to you,

139

00:07:36,240 --> 00:07:40,040

I will neither mention your name nor your rank.

140

00:07:40,040 --> 00:07:42,240

So here is an open letter.

141

00:07:42,240 --> 00:07:43,240

Can I read it this time?

142

00:07:43,240 --> 00:07:44,240

Will I take the time to it?

143

00:07:44,240 --> 00:07:45,240

Fine.

144

00:07:45,240 --> 00:07:47,240

I'll just make a comment that it's an awful lot of rank.

145

00:07:47,240 --> 00:07:48,240

Go ahead.

146

00:07:48,240 --> 00:07:54,520

Dear sir, thank you for calling me last Thursday also at the time you gave me today when I

147

00:07:54,520 --> 00:07:58,240

called you.

148

00:07:58,240 --> 00:08:03,440

First of all, permit me to say I do not wish to be rough on the boys in blue, many of whom

149

00:08:03,440 --> 00:08:05,800

are friends and acquaintances of mine.

150

00:08:05,800 --> 00:08:10,600

And many incidentally have been instrumental in helping me by furnishing me with valuable

151

00:08:10,600 --> 00:08:15,400

UFO information, knowing I would use it discreetly.

152

00:08:15,400 --> 00:08:21,400

When I speak to the Air Force as I do, I am not criticizing loyal Air Force personnel

153

00:08:21,400 --> 00:08:24,120

carrying out official policies.

154

00:08:24,120 --> 00:08:28,960

Consider clarifying statements by Captain E.J. Rupilt, the former project chief when

155

00:08:28,960 --> 00:08:36,880

he said, and I'm quoting him, I was continually told, tell them about the ones we've solved.

156

00:08:36,880 --> 00:08:39,120

Don't mention the unknowns.

157

00:08:39,120 --> 00:08:40,800

There were two factions.

158

00:08:40,800 --> 00:08:47,840

One believed the spaceship's spaceship answer, but felt it should clamp down on information

159

00:08:47,840 --> 00:08:49,880

until we had all the answers.

160

00:08:49,880 --> 00:08:55,760

Another group favored giving more facts to the public, including the best cases, unsolved

161

00:08:55,760 --> 00:08:56,760

movies.

162

00:08:56,760 --> 00:09:00,120

A new policy went into effect.

163

00:09:00,120 --> 00:09:03,360

Don't say anything.

164

00:09:03,360 --> 00:09:08,960

Several years ago, following a lecture, a gentleman wearing wings came to my car, and

165

00:09:08,960 --> 00:09:13,960

after introducing himself to me, told me he was bitter about the way the Air Force was

166

00:09:13,960 --> 00:09:15,560

handling the UFO story.

167

00:09:15,560 --> 00:09:21,240

His reason for this statement was he had lost two of his buddies in a plane because of a

168

00:09:21,240 --> 00:09:22,240

UFO.

169

00:09:22,240 --> 00:09:26,960

Yet the Air Force, he said, claims UFOs don't exist.

170

00:09:26,960 --> 00:09:31,960

Sir, the other night you said the government had no money to investigate UFOs some years

171

00:09:31,960 --> 00:09:37,560

ago, and you and a few others had to dig down in your own pockets.

172

00:09:37,560 --> 00:09:42,480

And then when I later questioned you after you had said, do you really seriously believe

173

00:09:42,480 --> 00:09:51,800

flying saucers exist, you said, we spent \$250,000 and didn't come up with anything tangible.

174

00:09:51,800 --> 00:09:58,320

Now I have questioned you on the amount you had spent, and you said, well, that was legal.

175

00:09:58,320 --> 00:10:00,200

We used expense money.

176

00:10:00,200 --> 00:10:05,440

My own investigating has cost me money that I have laid aside for my earnings, but with

177

00:10:05,440 --> 00:10:14,400

this relatively small sum, I have found out a very great deal about UFOs, under the

178

00:10:14,400 --> 00:10:15,400

defying obj.

179

00:10:15,400 --> 00:10:23,880

Sir, in our conversation today, you asked me about physical evidence.

180

00:10:23,880 --> 00:10:28,920

Aerial phenomena research organization in Tucson has the facts pertaining to the famous

181

00:10:28,920 --> 00:10:33,880

physical evidence case in which it is found that metal recovered from a disintegrated

182

00:10:33,880 --> 00:10:39,320

UFO could not be duplicated through terrestrial techniques.

183

00:10:39,320 --> 00:10:47,280

We have photos of a UFO taken in the presence of 100 witnesses on an IGY expedition, and

184

00:10:47,280 --> 00:10:52,240

other incidents which led to the Brazilian government's recognition of the UFO as controlled

185

00:10:52,240 --> 00:10:54,560

craft of unknown origin.

186

00:10:54,560 --> 00:11:04,520

And two, we have the complete account of the, and I'll spell this out, it's ITAIPU Fortress

187

00:11:04,520 --> 00:11:11,040

incident, where two centuries were burned by a UFO as told by a doctor who was at the

188

00:11:11,040 --> 00:11:14,120

scene and attended the injured men.

189

00:11:14,120 --> 00:11:18,800

Then two, you must surely be familiar with Project Saucer case number 144, which is the

190

00:11:18,800 --> 00:11:21,760

Eastern Airlines case of Captain C.S.

191

00:11:21,760 --> 00:11:22,760

Shiles.

192

00:11:22,760 --> 00:11:25,600

We could spend much time on each of the following cases as well.

193

00:11:25,600 --> 00:11:31,960

The Gorman Fargo North Dakota case, or the Mantell Godman, known to the Air Force as a

194

00:11:31,960 --> 00:11:37,200

Project Saucer case number 33, and the well-known Secretary of the Navy, Dan Kimball case of

195

00:11:37,200 --> 00:11:39,320

1952, or the W.B.

196

00:11:39,320 --> 00:11:40,800

Nash, or W.H.

197

00:11:40,800 --> 00:11:43,440

Fortenberry M.M.

198

00:11:43,440 --> 00:11:49,120

Airways pilot's case of July 15th of 1952, to mention only a very few.

199

00:11:49,120 --> 00:11:53,800

This afternoon you asked me if I thought there was any intelligence within these craft.

200

00:11:53,800 --> 00:11:58,640

In 1960, the former CIA Director, Vice Admiral R.H.

201

00:11:58,640 --> 00:12:04,960

Hillenketer, in his first public opinion on the nature of UFOs stated, and I quote,

202

00:12:04,960 --> 00:12:09,880

unknown objects are operating under intelligent control.

203

00:12:09,880 --> 00:12:14,800

It is imperative, he said, that we learn where the UFOs come from and what their purpose

204

00:12:14,800 --> 00:12:16,120

is.

205

00:12:16,120 --> 00:12:23,640

Any person who has been a serious ufologer knows the name of the late Captain Ed Ruppelt,

206

00:12:23,640 --> 00:12:26,960

former head of the Air Force UFO Project.

207

00:12:26,960 --> 00:12:33,680

In July of 1957, backstage at the Gary Moore Show, Ruppelt told my good friend Major Don

208

00:12:33,680 --> 00:12:40,640

Lee Feeho that some Air Force officers were angry about his book, especially his disclosure

209

00:12:40,640 --> 00:12:47,160

of censorship and the secret intelligence conclusion that the UFOs were interplanetary.

210

00:12:47,160 --> 00:12:54,880

During the November flap of 1957, he confirmed by phone his San Diego press statement that

211

00:12:54,880 --> 00:13:00,600

there was enough evidence of UFO existence to call for more investigation and that Project

212

00:13:00,600 --> 00:13:07,600

Blue Book had reports of radiation and electromagnetic interference from UFOs.

213

00:13:07,600 --> 00:13:15,960

Like Ruppelt, I have before me the statements of many an Air Force officer opposing UFOs

214

00:13:15,960 --> 00:13:16,960

secrecy.

215

00:13:16,960 --> 00:13:23,800

I only regret that time will not permit me to tell you what they have said.

216

00:13:23,800 --> 00:13:30,760

In Major Feeho's book, *The Flying Saucer Conspiracy*, the chapter entitled *The Hidden*

217

00:13:30,760 --> 00:13:35,280

Orders, on page 82, he states the following,

218

00:13:36,280 --> 00:13:41,800

For almost two months, during October and November of 1953, the censors had fought to

219

00:13:41,800 --> 00:13:44,960

hide the startling saucer discoveries.

220

00:13:44,960 --> 00:13:51,800

Then suddenly in November, they had been faced with a showdown by a presidential directive.

221

00:13:51,800 --> 00:13:59,000

Executive Order 105.01, classification of restricted, was officially abolished, effective December

222

00:13:59,000 --> 00:14:01,600

15, 1953.

223

00:14:01,600 --> 00:14:07,320

It was a stunning blow to the silence group for both JANAP 146 and Air Force Regulation

224

00:14:07,320 --> 00:14:10,720

200-2 were restricted defense documents.

225

00:14:10,720 --> 00:14:16,320

Unless the censors violated Eisenhower's directive, it looked as if they would have

226

00:14:16,320 --> 00:14:20,360

to reveal these two long hidden blackout orders on request.

227

00:14:20,360 --> 00:14:25,920

Besides this, the president's edict blocked a new plan to explain away the saucers through

228

00:14:25,920 --> 00:14:29,120

a so-called fact sheet.

229

00:14:29,160 --> 00:14:33,880

Before the president's order, this remarkable statement had been drawn up to answer the

230

00:14:33,880 --> 00:14:35,280

flood of inquiries.

231

00:14:35,280 --> 00:14:41,560

After dragging out all the old alibides, such as hoaxes, birds, mirages and balloons, this

232

00:14:41,560 --> 00:14:48,880

document also attempted to offset the key points I had revealed.

233

00:14:48,880 --> 00:14:52,920

We of NICAP are trying very hard for a congressional hearing.

234

00:14:52,920 --> 00:14:58,400

According to my most recent information, the reaction of Congress shows the impact of the

235

00:14:58,400 --> 00:15:04,640

NICAP evidence for all members of Congress received copies of the August-September 1962

236

00:15:04,640 --> 00:15:11,160

NICAP issue, which was really a preview of evidence of the existence of U.S. Oaks.

237

00:15:11,160 --> 00:15:16,480

It is pitiful when one realizes the apathy shown by the American public.

238

00:15:16,480 --> 00:15:21,040

Far too few are contacting their congressmen, perhaps because they do not realize the dangers

239

00:15:21,040 --> 00:15:24,640

of secrecy, especially the risk of accidental war.

240

00:15:25,080 --> 00:15:33,080

A few weeks back, we mentioned that the strategic air command, as we have found out, had on several

241

00:15:33,080 --> 00:15:42,800

occasions chased UFOs, possibly concerned that Congress might probe UFO investigation costs.

242

00:15:42,800 --> 00:15:49,440

The Air Force now justifies the huge outlay as, quote, scientifically worthwhile, unquote,

243

00:15:49,440 --> 00:15:57,680

the major C.R. Hart, UFO spokesman in Washington, D.C., in a letter to New York's NICAP affiliate

244

00:15:57,680 --> 00:16:01,640

president Muriel Brookman.

245

00:16:01,640 --> 00:16:07,480

To the question, why does the Air Force oppose open congressional hearings, said, or rather,

246

00:16:07,480 --> 00:16:12,240

I should say, wrote, and this is a quote, the Congress of the United States has more

247

00:16:12,240 --> 00:16:17,200

important affairs to which their limited time is devoted, unquote.

248

00:16:17,200 --> 00:16:21,960

Now in closing, I would like to invite you, sir, to take my place at the microphone here

249

00:16:21,960 --> 00:16:27,920

at KYW, and I promise to remain silent during the entire broadcast, giving you ample time

250

00:16:27,920 --> 00:16:31,000

to express the Air Force's views.

251

00:16:31,000 --> 00:16:36,240

And that's right in keeping with our invitation to other Air Force spokesmen or old to also

252

00:16:36,240 --> 00:16:39,800

step forward and participate with our U.F.A. around the table.

253

00:16:39,800 --> 00:16:46,440

And I will be the first to say that the invitation was, well, not turned down, but what they

254

00:16:46,440 --> 00:16:49,680

were willing to contribute was simply that they know nothing about it.

255

00:16:49,680 --> 00:16:51,480

I would like for them to tell me a little bit more.

256

00:16:51,480 --> 00:16:55,840

So again, to this gentleman or to anyone else who is next with the Air Force, please, we

257

00:16:55,840 --> 00:17:01,280

would very much like to hear them answer some questions that our listeners have been putting

258

00:17:01,280 --> 00:17:05,120

to us in the early new and also Bob Grove have been raising.

259

00:17:05,120 --> 00:17:08,160

I'd like to hear firm answers from the Air Force.

260

00:17:08,160 --> 00:17:09,640

Right now it's nine minutes before 11 o'clock.

261

00:17:09,640 --> 00:17:10,640

This is Mark Morgan.

262

00:17:10,640 --> 00:17:11,640

This is the U.F.A.

263

00:17:11,840 --> 00:17:12,840

round table.

264

00:17:12,840 --> 00:17:18,520

Erla, if you have any answer from this former Air Force officer, I hope you will let me

265

00:17:18,520 --> 00:17:19,520

know about it.

266

00:17:19,520 --> 00:17:20,520

I will let you know immediately.

267

00:17:20,520 --> 00:17:23,240

And I would be only too happy to call it.

268

00:17:23,240 --> 00:17:26,600

I'd be very interested in knowing his answer to your answer to him.

269

00:17:26,600 --> 00:17:29,080

All right, let's get some more telephone questions in now.

270

00:17:29,080 --> 00:17:30,080

What's yours, please?

271

00:17:30,080 --> 00:17:34,080

All right, Chris, go ahead.

272

00:17:34,080 --> 00:17:41,600

About the citizens of Maniform, let me stop you because Bob Grove isn't here.

273

00:17:41,600 --> 00:17:47,360

And he was handling that particular phase of our discussion on the citizens ban.

274

00:17:47,360 --> 00:17:50,960

So would you call next week when he'll be here?

275

00:17:50,960 --> 00:17:52,960

You want to try the other question?

276

00:17:52,960 --> 00:17:58,120

All right, go ahead.

277

00:17:58,120 --> 00:18:01,120

Are there many hams connected with ufology?

278

00:18:01,120 --> 00:18:04,280

And what you're already operating, let's find out.

279

00:18:04,280 --> 00:18:05,280

What do you think?

280

00:18:05,280 --> 00:18:10,680

I happen to know Edward Cot here in the general Cleveland area.

281

00:18:10,680 --> 00:18:12,680

I think he's out in North Royalton.

282

00:18:12,680 --> 00:18:17,360

And from what he tells me, it sounds that that question would be answered in the affirmative.

283

00:18:17,360 --> 00:18:20,200

All right, Ricky, Bob, what do you think?

284

00:18:20,200 --> 00:18:26,960

Well, in our group, when we intended to start something like this, of course, we don't have

285

00:18:26,960 --> 00:18:31,880

too many members that do have amateur tickets, but we're hoping that we can get more.

286

00:18:31,880 --> 00:18:37,240

And myself, I'm going for one soon, and I'm going to try to start some sort of net.

287

00:18:37,240 --> 00:18:40,680

I think it's necessary in order to get all the settings.

288

00:18:40,680 --> 00:18:45,000

It would seem to lend itself to the sort of thing, you know, keeping immediate contact.

289

00:18:45,000 --> 00:18:46,000

Yes.

290

00:18:46,000 --> 00:18:48,000

Thank you for calling.

291

00:18:48,000 --> 00:18:51,480

P.M., your question, please.

292

00:18:51,480 --> 00:18:58,120

You were listening in last week.

293

00:18:58,120 --> 00:19:02,000

We told about the different magnetic detectors, yes.

294

00:19:02,000 --> 00:19:04,880

Where can you get these?

295

00:19:04,880 --> 00:19:07,720

Bob Grobe was speaking last week about the magnetic detectors.

296

00:19:07,720 --> 00:19:09,280

You know where one might get them, Earl?

297

00:19:09,280 --> 00:19:14,280

No, I think the best thing to do is refer him to Bob Grobe.

298

00:19:14,280 --> 00:19:19,880

Okay, you drop this letter here at the UFO round table for Rampy MK-YW and Bob will answer

299

00:19:19,880 --> 00:19:23,120

it for you in the mail, okay?

300

00:19:23,120 --> 00:19:25,280

Just send it to UFO round table, okay?

301

00:19:25,280 --> 00:19:26,280

Thank you for calling.

302

00:19:26,280 --> 00:19:30,320

For Rampy, your question.

303

00:19:30,320 --> 00:19:39,440

Were there any identified flying objects shot at by weapons of this country?

304

00:19:39,440 --> 00:19:41,600

Do we know of any for a fact, Bob Miller?

305

00:19:41,600 --> 00:19:42,600

Ricky, you know of any?

306

00:19:42,600 --> 00:19:46,360

Yes, there have been many sightings like that.

307

00:19:46,360 --> 00:19:51,640

I can't bring up the specifics on one at the moment, but I know there have been many firings

308

00:19:51,640 --> 00:19:52,640

in the mail.

309

00:19:52,640 --> 00:19:53,640

Earl, what do you think?

310

00:19:53,640 --> 00:19:56,520

Well, the one that I mentioned recently, the one that was a question about the night

311

00:19:56,520 --> 00:20:02,560

over Washington, D.C., was the one that I had stated Admiral Knowles retired.

312

00:20:02,560 --> 00:20:07,160

One of our Board of Governors of NYCAP actually held a piece of the metal in his hands as

313

00:20:07,160 --> 00:20:09,840

about two feet long was curved.

314

00:20:09,840 --> 00:20:15,160

And that was as a result of the anti-aircraft fire I was told that hit one of these during

315

00:20:15,160 --> 00:20:16,160

that big flap of 52.

316

00:20:16,160 --> 00:20:19,360

And is this pretty well documented and authenticated?

317

00:20:19,360 --> 00:20:25,520

I'll tell you how I learned about it through another NYCAP board member, Reverend Baller

318

00:20:25,520 --> 00:20:32,320

of Massachusetts, and it was Admiral Knowles himself, Reverend Baller told me, told him

319

00:20:32,320 --> 00:20:33,320

this.

320

00:20:33,320 --> 00:20:38,960

It seems to me I have also read at various places where maybe not they have fire, but

321

00:20:38,960 --> 00:20:40,920

they have chased these things all over the skies.

322

00:20:40,920 --> 00:20:42,920

Have they not?

323

00:20:42,920 --> 00:20:44,920

Have they?

324

00:20:44,920 --> 00:20:45,920

Yes, yes.

325

00:20:45,920 --> 00:20:47,640

Our Air Force have chased these people.

326

00:20:47,640 --> 00:20:48,640

Oh, yes.

327

00:20:48,640 --> 00:20:49,640

Okay, thank you for calling.

328

00:20:49,760 --> 00:20:51,760

Program, V.M., your question.

329

00:20:55,760 --> 00:21:02,840

If I could know where you could find out more information on missing or crashed planes

330

00:21:02,840 --> 00:21:08,720

connected with UFOs, you know where the information might be available, which books?

331

00:21:08,720 --> 00:21:16,600

In the way of books, quickly I couldn't mention any one particular one where you'd get a

332

00:21:16,600 --> 00:21:19,400

bulk of them.

333

00:21:20,160 --> 00:21:22,160

Doesn't the Major mention a few in his book?

334

00:21:22,160 --> 00:21:23,160

Yes.

335

00:21:23,160 --> 00:21:27,720

Before me here I had the Flying Saucer conspiracy of the Majors, and then of course the Major

336

00:21:27,720 --> 00:21:32,560

Keio Downey Keio, and then there's the later one still of the Flying Saucer's top secret

337

00:21:32,560 --> 00:21:36,960

by him, also Carl Lorenzen's latest great Flying Saucer hoax.

338

00:21:36,960 --> 00:21:40,920

And in all of these books that are written by these better people who know what this

339

00:21:40,920 --> 00:21:45,760

is all about, you will find a reference, but I can't tell you just any one place where

340

00:21:45,760 --> 00:21:47,080

you could find a great number.

341

00:21:47,080 --> 00:21:48,560

Okay, thank you for calling.

342

00:21:48,560 --> 00:21:50,560

Your question, please.

343

00:21:57,000 --> 00:22:07,520

We mentioned about the Ufology members being Hams, and you are a member, and a Hamm, as

344

00:22:07,520 --> 00:22:18,840

a comment, about six months or so ago, that the sighting made, it was around the Maple

345

00:22:18,840 --> 00:22:28,840

Heights area, and there was definite radio disturbance.

346

00:22:28,840 --> 00:22:33,000

You didn't see the sighting yourself, but the sighting coordinated was the time you

347

00:22:33,000 --> 00:22:36,000

were on the air, and you had radio disturbance.

348

00:22:36,000 --> 00:22:43,480

So it's a practical purpose then too.

349

00:22:43,480 --> 00:22:45,880

What is the next meeting of the Ufology project?

350

00:22:45,880 --> 00:22:46,880

Which Ufology project?

351

00:22:46,880 --> 00:22:47,880

Cleveland Ufology.

352

00:22:47,880 --> 00:22:48,880

Cleveland Ufology.

353

00:22:48,880 --> 00:22:55,480

Always the second Saturday of each month at the Central YMCA at 8.30 p.m., always the

354

00:22:55,480 --> 00:22:57,000

second Saturday of each month.

355

00:22:57,000 --> 00:22:58,000

Okay.

356

00:22:58,000 --> 00:22:59,000

That's a 20-second prospect.

357

00:22:59,000 --> 00:23:00,000

That's a 20-second prospect.

358

00:23:00,000 --> 00:23:01,000

Central Y.

359

00:23:01,000 --> 00:23:02,000

Okay, thank you for calling.

360

00:23:02,000 --> 00:23:06,080

I'd like to find out something from Ricky or Bob.

361

00:23:06,080 --> 00:23:11,640

I, in a way, thank from past programs, I know Earl's views on these.

362

00:23:11,640 --> 00:23:15,680

How do you account for these flying saucers, say Bob?

363

00:23:15,680 --> 00:23:20,880

What kind of person, thing, people, it?

364

00:23:20,880 --> 00:23:21,880

Who is it?

365

00:23:21,880 --> 00:23:22,880

What is it?

366

00:23:22,880 --> 00:23:23,880

Who's in them?

367

00:23:23,880 --> 00:23:30,320

Well, I think it's an intelligence far superior to ours, possibly located on one of our sources

368

00:23:30,320 --> 00:23:33,160

in planets or possibly in system galaxies.

369

00:23:33,160 --> 00:23:38,000

I would take a chance in saying either Venus or Mars as a possible or likely most probable

370

00:23:38,000 --> 00:23:41,400

place for such a civilization to exist.

371

00:23:41,400 --> 00:23:42,400

Okay.

372

00:23:42,400 --> 00:23:44,680

It's talking on the different types of the occupants.

373

00:23:44,680 --> 00:23:46,400

There's so much been written.

374

00:23:46,400 --> 00:23:52,680

I really don't think that I go along with these humanoid, the humanoid as we are.

375

00:23:52,680 --> 00:23:53,680

You don't.

376

00:23:53,680 --> 00:23:55,560

Especially the contact stories.

377

00:23:55,560 --> 00:24:01,400

I especially found interest in Coral Rinsen's book about the South American sightings where

378

00:24:01,400 --> 00:24:06,160

they seem to be short little men with bristly hair.

379

00:24:06,160 --> 00:24:07,920

And they seem to be very strong.

380

00:24:07,920 --> 00:24:11,200

Well, isn't this the comic book picture more or less?

381

00:24:11,200 --> 00:24:13,480

Short little men with bristly hair and long ears.

382

00:24:13,480 --> 00:24:18,800

Yes, but if you take into consideration if these UFOs and these occupants come from a

383

00:24:18,800 --> 00:24:25,480

planet that has more of a gravitational pull or atmospheric pressure, they would be shorter.

384

00:24:25,480 --> 00:24:28,560

Now, time is just about up for this evening on the Upholigia Roundtable.

385

00:24:28,560 --> 00:24:30,840

Time to move over and make room for the Tom Griffiths show.

386

00:24:30,840 --> 00:24:33,400

It's as always running short of time.

387

00:24:33,400 --> 00:24:36,320

It seems that we just get started on some areas.

388

00:24:36,320 --> 00:24:37,800

There goes the time we get.

389

00:24:37,800 --> 00:24:42,600

So my thanks very much to Bob Miller up from New York, Ohio and the President of the United

390

00:24:42,600 --> 00:24:47,280

Saucer Council of Ohio and Ricky Hilbury, the Vice President of the Cleveland Branch of

391

00:24:47,280 --> 00:24:48,280

that organization.

392

00:24:48,280 --> 00:24:52,080

And of course to Earl Neth of our own Upholigia Roundtable.

393

00:24:52,080 --> 00:24:53,920

And Bob Grove, we missed you tonight.

394

00:24:53,920 --> 00:24:58,720

We'll call the meeting to order again next Thursday at 10.30 on program PM.
