

1

00:00:00,000 --> 00:00:09,000

Hi, this is Bob Kennedy, about to put you in contact with the world of people, places,

2

00:00:09,000 --> 00:00:10,000

and ideas.

3

00:00:10,000 --> 00:00:16,440

Through WVC's unique electronic systems, you are in contact with the world of excitement

4

00:00:16,440 --> 00:00:19,440

on Bob Kennedy Contact.

5

00:00:19,440 --> 00:00:31,240

And tonight, tonight, when we again get into what is consistently one of the most controversial

6

00:00:31,240 --> 00:00:38,360

topics we deal with on contact, the subject is UFO, unidentified flying objects, sightings

7

00:00:38,360 --> 00:00:43,160

across our country and the world that some allege come from outer space.

8

00:00:43,160 --> 00:00:47,040

This subject, above all, seems to capture the fascination of our listeners and cause our

9

00:00:47,040 --> 00:00:51,240

mailbag to swell noticeably after each show.

10

00:00:51,240 --> 00:00:55,520

And it too would seem that we never lack a couple of first person reports for you.

11

00:00:55,520 --> 00:00:56,520

And tonight is no different.

12

00:00:56,520 --> 00:01:01,360

Ahead, you'll hear an interview with a New Mexico policeman who a few days ago saw an

13

00:01:01,360 --> 00:01:07,520

object take off and leave in its wake burning grass and impressions on the earth.

14

00:01:07,520 --> 00:01:12,280

We'll also talk with a cattle farmer from New York State who earlier this month not only

15

00:01:12,280 --> 00:01:18,600

saw one of these objects, but claims that he had a conversation with two little fellows

16

00:01:18,600 --> 00:01:20,760

who came from within the thing.

17

00:01:20,760 --> 00:01:24,080

It's quite a story and one that we'll hear more of later.

18

00:01:24,080 --> 00:01:26,880

But first, let's meet our guests in the studio.

19

00:01:26,880 --> 00:01:28,960

Both names you should recognize.

20

00:01:28,960 --> 00:01:31,240

Walt Webb has been with us before.

21

00:01:31,240 --> 00:01:36,240

Walt is a member of NiCAP and as soon as Streeter Stewart manages to get in from our new studio,

22

00:01:36,240 --> 00:01:40,960

we'll welcome Streeter Stewart, of course, of WVC News, and also a member of the National

23

00:01:41,000 --> 00:01:43,920

Investigating Committee on Aerial Phenomenon.

24

00:01:43,920 --> 00:01:48,440

And later on our long distance line from his home in Virginia, we'll have Major Donald

25

00:01:48,440 --> 00:01:52,600

Kehoe, who's the head of NiCAP as our special guest.

26

00:01:52,600 --> 00:01:56,400

But first off, Walt, while we're waiting for Streeter to join us, can we start locally

27

00:01:56,400 --> 00:02:00,520

before we move out to New Mexico and then finally up to New York State?

28

00:02:00,520 --> 00:02:06,280

And I understand lately we've been having some sightings in the Lawrence area for one.

29

00:02:06,360 --> 00:02:11,480

As you were telling me, as before we went on the air in some other areas around Massachusetts,

30

00:02:11,480 --> 00:02:14,800

but first off, and Streeter has joined us, welcome Streeter.

31

00:02:14,800 --> 00:02:18,040

Let's talk a little bit about this sighting in the Lawrence area.

32

00:02:18,040 --> 00:02:20,320

Now there have been many sightings up there recently.

33

00:02:20,320 --> 00:02:21,320

Have there not, Walter?

34

00:02:21,320 --> 00:02:24,880

There have been, Bob, and I think Streeter is going to be able to fill us in more on

35

00:02:24,880 --> 00:02:27,280

the Lawrence case than I could.

36

00:02:27,280 --> 00:02:33,120

But there have been sightings up in New Hampshire, in Massachusetts again.

37

00:02:33,120 --> 00:02:36,240

And of course there have been these reports out in New Mexico.

38

00:02:36,240 --> 00:02:38,760

The recent sighting wave started out there.

39

00:02:38,760 --> 00:02:41,680

What kind of sightings have there been up in New Hampshire?

40

00:02:41,680 --> 00:02:44,880

Well these are, as always, this is a very interesting thing to me.

41

00:02:44,880 --> 00:02:52,440

I'm in the process of pinpointing these sightings on a map going back about 10 years and seeing

42

00:02:52,440 --> 00:02:54,480

if there's any concentration at all.

43

00:02:54,480 --> 00:02:59,960

There seems to be a concentration of UFO reports in the Lakin Mountain country, especially

44

00:02:59,960 --> 00:03:01,120

around the White Mountains.

45

00:03:01,120 --> 00:03:03,200

You said a recent sighting wave.

46

00:03:03,200 --> 00:03:04,200

Is this actually the case?

47

00:03:04,200 --> 00:03:05,760

Has there been a wave of sightings?

48

00:03:05,760 --> 00:03:11,920

There seems to be, ever since the April 24th New Mexico sighting out there at Secorro,

49

00:03:11,920 --> 00:03:15,960

and I understand we're going to be hearing the patrolmen on the phone.

50

00:03:15,960 --> 00:03:21,360

But this seemed to start a wave that began out in the west and has moved to the east

51

00:03:21,360 --> 00:03:22,360

coast.

52

00:03:22,360 --> 00:03:26,480

Now this is recent around here in New England in this section of the country.

53

00:03:26,480 --> 00:03:27,960

Streeter, let's move on to Lawrence.

54

00:03:27,960 --> 00:03:31,200

We got some calls Friday night about some sightings out there.

55

00:03:31,200 --> 00:03:32,440

How vivid were the sightings?

56

00:03:32,440 --> 00:03:35,320

How accurate were some of the reports that you got?

57

00:03:35,320 --> 00:03:40,160

Well evidently they were very vivid and very exciting.

58

00:03:40,160 --> 00:03:45,760

There were a number of adults who made the sightings and a number of young people.

59

00:03:45,760 --> 00:03:51,040

Young people who knew a lot about astronomy so that they knew what the stars and the planets

60

00:03:51,040 --> 00:03:56,360

look like on an ordinary night and on some unusually clear nights such as we have had

61

00:03:56,360 --> 00:03:57,840

recently.

62

00:03:57,840 --> 00:04:03,320

They sighted an object in the sky that was described as appearing like a football, being

63

00:04:03,320 --> 00:04:09,760

predominantly red in color, but at times changing to other colors, yellow, green, purple, and

64

00:04:09,760 --> 00:04:11,760

even white.

65

00:04:11,760 --> 00:04:19,320

And the reports seemed to agree that this object was rather high in the sky and that

66

00:04:19,320 --> 00:04:25,520

it would seem to hover over a particular place, then move and hover over that place, then

67

00:04:25,560 --> 00:04:30,280

move to a third place and sometimes even come back to what appeared to be the original

68

00:04:30,280 --> 00:04:33,040

sight over which it began to hover.

69

00:04:33,040 --> 00:04:40,720

Then it would disappear and on Saturday night I was told that it was then visible so my

70

00:04:40,720 --> 00:04:47,600

son and my daughter rushed up to Lawrence and got up there I think around 11 o'clock.

71

00:04:47,600 --> 00:04:53,120

Unfortunately by the time they arrived the thing had disappeared and I was hoping that

72

00:04:53,120 --> 00:04:59,520

I could get some first hand information from them as to what they thought it might be.

73

00:04:59,520 --> 00:05:06,200

And there have been sightings of this one thing on more than one night and I think this

74

00:05:06,200 --> 00:05:07,200

is rather...

75

00:05:07,200 --> 00:05:08,200

And by more than one person as I understand.

76

00:05:08,200 --> 00:05:12,520

Oh yes, by a group of people, a number of people and people that lived in different

77

00:05:12,520 --> 00:05:14,280

localities in that same area.

78

00:05:14,280 --> 00:05:17,560

Streeter, a little bit later I'd like to hear the interview that you did with the policemen

79

00:05:17,560 --> 00:05:22,120

in New Mexico who saw that object take off from the ground, but before we get into that

80

00:05:22,160 --> 00:05:26,680

in case some of our listeners are certainly not hearing about UFO for the first time but

81

00:05:26,680 --> 00:05:28,440

maybe hearing about it here on contact.

82

00:05:28,440 --> 00:05:32,360

And we always talk about the controversy of UFO.

83

00:05:32,360 --> 00:05:36,760

Now why is this... why is there this controversy and I guess it's based around the fact that

84

00:05:36,760 --> 00:05:42,680

there seems to be a great difference of opinion between NICAP members and the Air Force.

85

00:05:42,680 --> 00:05:46,720

Why do you think there is this difference of opinion and since we talked about it the

86

00:05:46,720 --> 00:05:51,880

last time has there been any closer meeting of the minds between NICAP and the Air Force?

87

00:05:51,920 --> 00:05:55,720

Well I think in the first place there is a difference of opinion simply because we are

88

00:05:55,720 --> 00:05:59,720

all human beings and each one of us have a different outlook.

89

00:05:59,720 --> 00:06:05,160

For example if I go fishing with you Bob and I catch a pretty good size fish the story

90

00:06:05,160 --> 00:06:08,440

I'm going to tell about that fish is going to be different from what you're going to

91

00:06:08,440 --> 00:06:12,680

tell about it if you didn't catch it and if you come back and report it.

92

00:06:12,680 --> 00:06:18,080

I'm probably going to tell you that it was a great big one and if we're in doubt about

93

00:06:18,080 --> 00:06:22,800

it I'm going to want it to be a rainbow trout and to you it may be just an ordinary fish,

94

00:06:22,800 --> 00:06:25,840

maybe a big sucker or something of the kind.

95

00:06:25,840 --> 00:06:29,800

And I think this is one reason you have the differences of opinion.

96

00:06:29,800 --> 00:06:36,920

On the other hand there sometimes is not enough evidence to pinpoint what an object is and

97

00:06:36,920 --> 00:06:41,960

as a result it has to be classified as an unidentified flying object and the difference

98

00:06:41,960 --> 00:06:46,480

of opinion there is on an interpretation of what do you think it might have been.

99

00:06:46,480 --> 00:06:51,720

Now I know that in the world of flying saucers by Dr. Donald Menzel of Harvard University

100

00:06:51,720 --> 00:06:56,720

and incidentally I have attended some of his classes when he discussed unidentified flying

101

00:06:56,720 --> 00:06:57,720

objects to his students.

102

00:06:57,720 --> 00:07:02,160

He's been against un-contact and the last time we talked about UFO he was on the telephone

103

00:07:02,160 --> 00:07:05,320

he might be listening again tonight and before the evening is over he might be on the phone

104

00:07:05,320 --> 00:07:06,320

again this evening.

105

00:07:06,320 --> 00:07:12,040

Yes he has written at least two books on unidentified flying objects specifically on these unidentified

106

00:07:12,040 --> 00:07:16,400

flying objects and the last one is the world of flying saucers and he discusses

107

00:07:16,520 --> 00:07:23,520

some of these very controversial cases and he gives what he considers to be evidence

108

00:07:23,640 --> 00:07:30,160

in some of these sightings but as I read the book I find that it is very much filled with

109

00:07:30,160 --> 00:07:37,160

the word probable and probability or likely and for example when he is discussing the

110

00:07:37,200 --> 00:07:44,200

Mantel case in one place he says that it probably was a giant skyhook balloon and he seems to

111

00:07:44,200 --> 00:07:49,520

give evidence tracing the reports of whatever this object was which seemed to indicate in

112

00:07:49,520 --> 00:07:54,440

parallel the wind currents that would carry one of these giant skyhook balloons along

113

00:07:54,440 --> 00:07:59,800

in Kentucky from Ohio and then in another place in the book he says if it were not a

114

00:07:59,800 --> 00:08:04,920

skyhook balloon then it was probably they were chasing the planet Venus.

115

00:08:04,920 --> 00:08:09,360

Gentlemen before we continue along this line I'll ask one rather basic question and then

116

00:08:09,360 --> 00:08:12,800

we'll talk about the tape that you made with the gentleman in the Mexico street or listen

117

00:08:12,800 --> 00:08:16,800

to that and then we'll get up to New York State and hear from that fellow who says he

118

00:08:16,800 --> 00:08:19,000

saw little people come out of the ship.

119

00:08:19,000 --> 00:08:23,800

Do both of you feel that these sightings some of them could be from outer space?

120

00:08:23,800 --> 00:08:24,800

Walt?

121

00:08:24,800 --> 00:08:32,800

Well, yes Bob after interviewing people including scientists I might add for about 12 years this

122

00:08:33,080 --> 00:08:38,000

is the conclusion I've come to it's incredible fantastic but I do believe that some of these

123

00:08:38,000 --> 00:08:41,560

sightings detail viewings of space ships.

124

00:08:41,560 --> 00:08:42,560

Straight or how do you feel?

125

00:08:42,560 --> 00:08:46,360

Yes, I believe that there is a possibility that some of these may be from outer space

126

00:08:46,360 --> 00:08:53,360

and I base this on having read very widely as to the possibility of there being hundreds

127

00:08:53,640 --> 00:09:00,640

of millions of planets that might be inhabited similar to our earth in the universe and with

128

00:09:01,200 --> 00:09:08,200

all of our advances in space science if there is life on other planets as some of our greatest

129

00:09:09,200 --> 00:09:16,200

astronomical authorities say there is very likely and if their civilization started earlier

130

00:09:18,320 --> 00:09:23,480

than ours there is no doubt that they have advanced beyond us and so they are not just

131

00:09:23,480 --> 00:09:29,880

in the space infancy as we are and it may be that they have found many forces in the

132

00:09:29,880 --> 00:09:35,400

universe that we have not yet even dreamed of which enable them to come here to the world

133

00:09:35,400 --> 00:09:42,400

and to survey it and to contact and to look at it and for that reason I believe that some

134

00:09:42,480 --> 00:09:45,600

of these may very well be from outer space.

135

00:09:45,600 --> 00:09:50,440

Tonight on Contact our topic is UFO unidentified flying objects. Our guests here in the studio

136

00:09:50,440 --> 00:09:54,720

Streeter Stewart and Walter Webb. Streeter before we play this a beeper interview you

137

00:09:54,720 --> 00:09:58,480

did with the gentleman in New Mexico can you give us just a little bit of background for

138

00:09:58,480 --> 00:09:59,480

it?

139

00:09:59,480 --> 00:10:04,840

Yes Bob I read that there had been a sighting out in New Mexico at a place called Samora

140

00:10:04,840 --> 00:10:11,840

by a policeman and I was intrigued by the vividness of this account and to the similarity

141

00:10:12,240 --> 00:10:17,040

of other accounts that I had read about in books and I determined that I would have a

142

00:10:17,040 --> 00:10:22,360

first hand report from this man by telephone I made a long distance call and this is what

143

00:10:22,360 --> 00:10:24,000

he told me and here it is.

144

00:10:24,000 --> 00:10:31,000

I was a seasonal or a reckless driver going up south by a street. Up to the time I came

145

00:10:31,680 --> 00:10:38,680

to this little road I heard this big roar blast. We got a dynamite check to the west

146

00:10:39,080 --> 00:10:44,720

there I thought I'd investigate maybe I thought maybe blow it up so I started up that real

147

00:10:44,720 --> 00:10:51,720

fast. I have ways to it. I stuck my head out the window out of the car and I think despite

148

00:10:51,960 --> 00:10:58,960

it being an object I didn't know what it was at that time I thought it was a vehicle

149

00:10:59,040 --> 00:11:06,040

that turned over. I started out the real fast so I could maybe help the people in the car.

150

00:11:06,280 --> 00:11:13,280

I went up to it closed about 200 feet. I went 200 feet from it. I got out of the car and

151

00:11:13,280 --> 00:11:17,480

started to hear it when the heart just staked the noise again the same noise and the flames

152

00:11:17,480 --> 00:11:24,480

coming under it. I got scared I started running back I ran about 50 feet from it. I pulled

153

00:11:24,640 --> 00:11:31,640

myself to the ground to hide. After a word of sound I didn't hear the noise no more. I

154

00:11:33,640 --> 00:11:40,640

just stepped it up and I had to see what was happening. It was real quiet then and I thought

155

00:11:40,640 --> 00:11:47,640

it was quite an object just to take out towards the west there to smooth out. Did it leave

156

00:11:47,800 --> 00:11:53,800

any kind of a vapor trail when it took off? No, I didn't. Just a quiet little trail and

157

00:11:54,080 --> 00:12:01,080

it did make a roar at the time you approached it. A big roar, yes it did. And you could

158

00:12:01,160 --> 00:12:08,160

actually see the flame in under it? Yes, I did. Was it standing on legs? Yes, there

159

00:12:08,160 --> 00:12:13,660

were legs and I called it legs, yes. And you thought there were four of these? Apparently

160

00:12:13,660 --> 00:12:18,660

there were on the markings on the ground. There were four legs, yes. What were the words

161

00:12:18,680 --> 00:12:25,680

you examined it later on? Yes, we did. We went back to the police to make the police.

162

00:12:25,720 --> 00:12:30,720

After it took off did you go back to get help? No, I ran to help from the car and he came

163

00:12:30,720 --> 00:12:36,720

on out. I see. And when you went back to examine it what did you find near where it had been

164

00:12:36,720 --> 00:12:43,720

parked? Well, a bush is there around there. Greenwood and grass was still burning. So,

165

00:12:44,720 --> 00:12:50,720

I thought it was markings on the ground, prints and everything helped. There were prints

166

00:12:50,820 --> 00:12:56,320

as if it had been standing on these legs. Right. Did the legs go up into the object

167

00:12:56,320 --> 00:13:01,160

when it took off? Did you notice that? No, I didn't notice it was that. And after it

168

00:13:01,160 --> 00:13:07,440

got into the air did the roar stop? Yes, there were when it came straight up. There you have

169

00:13:07,440 --> 00:13:13,160

an interview with policeman Lani Zamora in New Mexico, a gentleman who saw something,

170

00:13:13,200 --> 00:13:17,720

people calling it a UFO. Well, I guess it would be a UFO. One way or the other, it's

171

00:13:17,720 --> 00:13:20,720

not a street or it's an unidentified flying object. That is for sure. You know, when

172

00:13:20,720 --> 00:13:25,400

I heard about this and read the report it struck me that could it possibly be a prototype

173

00:13:25,400 --> 00:13:30,360

of some sort of a lunar vehicle because over at the museum very often you'll see a show

174

00:13:30,360 --> 00:13:34,640

in which they have one of these things on stilts, around legs that would move around

175

00:13:34,640 --> 00:13:39,960

the moon. Any possibility it could have been that? Well, Bob, the description of this would

176

00:13:40,040 --> 00:13:47,040

be somewhat similar to the lunar module and it did have these stilt legs and so on as

177

00:13:48,680 --> 00:13:55,480

some of these may have. But I have information from the space agency and I keep pretty well

178

00:13:55,480 --> 00:14:00,720

informed on all of their developments and this has not been flown yet, it has not been

179

00:14:00,720 --> 00:14:06,440

under power at all yet and I'm sure they wouldn't keep it secret. They have no reason to because

180

00:14:06,480 --> 00:14:11,880

they are informing the public of what they have done and what they are doing in all fields

181

00:14:11,880 --> 00:14:16,680

of our attempt to get to the moon and I just don't believe it was. Fantastic. We'll be

182

00:14:16,680 --> 00:14:20,600

talking about that sighting a little more as the program progresses but now I'd like

183

00:14:20,600 --> 00:14:25,160

to get to that interview with a 28-year-old dairy farmer from upstate New York. He lives

184

00:14:25,160 --> 00:14:29,600

in a town called Newark, New York and most important of all he has been raided by his

185

00:14:29,600 --> 00:14:36,080

neighbors as quiet, serious, hardworking and sober. His name is Gary Wilcox and we caught

186

00:14:36,160 --> 00:14:41,640

up with Mr. Wilcox earlier today in his barn. He had an extension phone out there and you'll

187

00:14:41,640 --> 00:14:47,080

notice the mooing. In the background we talked with him and we asked him where he was when

188

00:14:47,080 --> 00:14:52,080

he first sighted this UFO. 10 o'clock in the morning I was spreading the load of manure

189

00:14:52,080 --> 00:14:59,080

on a face field. I backed the barn there and I kept seeing this glittering thing. It was

190

00:14:59,080 --> 00:15:04,080

about a pretty long mile away I guess. Upon top of the hill there was nothing in view.

191

00:15:04,080 --> 00:15:10,080

I mean in a way it's all open ground and there's no icebox up there whether something

192

00:15:10,080 --> 00:15:15,640

reflected off of that. It looked just like a mirror shiner in my face and I was going

193

00:15:15,640 --> 00:15:20,080

up the top of that hill to see if I was ready to plow anyway and I drove on up with the

194

00:15:20,080 --> 00:15:26,080

tractor and as I got up there about 100 feet of this glistening thing I could see what it was.

195

00:15:27,080 --> 00:15:29,080

What did it look like as you got closer to it?

196

00:15:30,080 --> 00:15:35,080

I don't know. I got 100-200 yards from it there and I couldn't see nothing. There wasn't

197

00:15:35,080 --> 00:15:41,080

no shining or nothing but as I went closer I got within 100 feet before I saw anything.

198

00:15:41,080 --> 00:15:46,080

This is all I want to take off was about 100 feet and I couldn't see it. It was gone.

199

00:15:48,080 --> 00:15:53,080

But it looked like a wing tank to me at first. I'd seen them when I was in the service quite a bit.

200

00:15:53,080 --> 00:15:55,080

I had two tanks off these planes.

201

00:15:55,080 --> 00:15:59,080

So was it then kind of cigar shaped as these tip tanks are?

202

00:15:59,080 --> 00:16:05,080

More egg shaped than anything. It was about 20 foot long, 15 or 16 foot wide and about 4 foot deep.

203

00:16:05,080 --> 00:16:07,080

How close did you get to it?

204

00:16:08,080 --> 00:16:10,080

A couple inches. I was touching it for about 2 hours.

205

00:16:11,080 --> 00:16:13,080

What did the surface look like it was made out of?

206

00:16:14,080 --> 00:16:21,080

It was loom-dom colored, whitest colored. It had a whitest cast to it but it wasn't bright.

207

00:16:21,080 --> 00:16:28,080

It was shiny but it wasn't real bright. It was just like a dish or some kind of cooking dish really.

208

00:16:28,080 --> 00:16:29,080

But what it was.

209

00:16:30,080 --> 00:16:34,080

Now, did a door open before these people came out of it? How did they appear? How did you meet the little men?

210

00:16:35,080 --> 00:16:40,080

I don't know. I was feeling a little bit right there. Just getting ready to come back down, call the sheriff

211

00:16:40,080 --> 00:16:42,080

and see if something had fall off in the airplane.

212

00:16:42,080 --> 00:16:47,080

I was kind of wondering too because it was off the ground. It was about 4 foot off the ground and it had this idler noise.

213

00:16:48,080 --> 00:16:55,080

I don't know. Nothing happened. I was touching it there for a couple of minutes and I was just getting ready to go and come underneath it.

214

00:16:55,080 --> 00:17:01,080

I don't know. These two things or men or whatever they are came. They were about 4 foot high.

215

00:17:01,080 --> 00:17:06,080

I don't know what they are or who they were but they talked to me for about 2 hours up there.

216

00:17:07,080 --> 00:17:09,080

Do you could perfectly understand them?

217

00:17:09,080 --> 00:17:11,080

Yeah, they talk better English than you're talking.

218

00:17:12,080 --> 00:17:14,080

Did they talk with any kind of an accent?

219

00:17:14,080 --> 00:17:20,080

No, no accent or nothing. I spoke with Germans and Russians when I was in the service and nothing like any of them.

220

00:17:21,080 --> 00:17:25,080

And what do they have to tell you? What were some of the things they said? How did they address you?

221

00:17:26,080 --> 00:17:29,080

First thing they said was don't be alarmed. We have talked to people before.

222

00:17:30,080 --> 00:17:34,080

And they were questioning how I had seen them and stuff.

223

00:17:34,080 --> 00:17:37,080

They were quite concerned. I said I shouldn't have seen them within 100 feet or so.

224

00:17:37,080 --> 00:17:42,080

When I told them I saw them way down while I was spreading the noise, putting them a mile away, they were quite concerned.

225

00:17:42,080 --> 00:17:46,080

They said I shouldn't have seen them in a day time like that. That's why they were laying in a day time.

226

00:17:47,080 --> 00:17:49,080

Did they tell you what they were doing there?

227

00:17:49,080 --> 00:17:55,080

They said that they were traveling this hemisphere of this chip. They had each one had a tray in their hand.

228

00:17:56,080 --> 00:18:01,080

They had four grass and stuff. It was solid. It looked like they took the knife and cut it right out of the ground.

229

00:18:01,080 --> 00:18:07,080

It's the slab of it and each tray. That's what they were doing. They collected an organic material and stuff.

230

00:18:07,080 --> 00:18:09,080

Where do they say they were from?

231

00:18:10,080 --> 00:18:17,080

Well, I mean this sounds awful silly, I know, but they told me they were from what I know as a planet Mars.

232

00:18:17,080 --> 00:18:26,080

Every time they spoke of stuff, they referred it to it as I know or as we know here, like as we know Earth, as we know Mars and stuff like that.

233

00:18:26,080 --> 00:18:29,080

You sound like you find it rather hard to believe yourself.

234

00:18:29,080 --> 00:18:35,080

Well, I know. I was up there for two hours. I was touching the thing and talking to somebody. I don't know who it was.

235

00:18:36,080 --> 00:18:38,080

And you say you talked to them for about two hours?

236

00:18:38,080 --> 00:18:42,080

Well, it was probably an hour and a half. I was up there about two hours altogether.

237

00:18:42,080 --> 00:18:47,080

Did they mention anything about man's getting into space sort of coming into their territory?

238

00:18:47,080 --> 00:18:52,080

Well, they talk about stuff. Some of the stuff we can't say anything about. Some of them we can't.

239

00:18:55,080 --> 00:19:01,080

They were talking about that people were silly to go into space that they would never survive there.

240

00:19:01,080 --> 00:19:06,080

They said they can't survive here. They said they can only make a trip over two years or two that were here.

241

00:19:06,080 --> 00:19:13,080

But they can't stand this atmosphere that Earth men would have even a harder time than they do.

242

00:19:13,080 --> 00:19:19,080

They were telling me they were much farther advanced than this kind of stuff than we are.

243

00:19:19,080 --> 00:19:24,080

But they were more interested in agriculture, aspects of agriculture and anything.

244

00:19:24,080 --> 00:19:29,080

They asked me what I was doing about the manure and what I got it and what it did and all that stuff.

245

00:19:29,080 --> 00:19:34,080

They didn't know nothing about agriculture. They don't have no organic material or anything like that up there.

246

00:19:34,080 --> 00:19:37,080

They said they survive and what they get out of the atmosphere they have.

247

00:19:37,080 --> 00:19:42,080

And did you stress any point? They made a lot of statements like that, but they never stressed the point.

248

00:19:42,080 --> 00:19:45,080

They didn't say how they lived or anything like that.

249

00:19:45,080 --> 00:19:49,080

Did you say that they were other things they told you that you cannot reveal?

250

00:19:49,080 --> 00:19:51,080

Yeah, I mean...

251

00:19:51,080 --> 00:19:54,080

Why not? Why can't you reveal these other things?

252

00:19:54,080 --> 00:19:56,080

Well, I guess I better not say.

253

00:19:56,080 --> 00:19:57,080

Why?

254

00:19:57,080 --> 00:20:03,080

Well, this is being investigated into yet.

255

00:20:03,080 --> 00:20:04,080

Who's investigating it?

256

00:20:04,080 --> 00:20:08,080

Well, it's supposed to be the Air Force supposed to be coming around. I guess what's yours says.

257

00:20:08,080 --> 00:20:10,080

You can't tell us what they told you?

258

00:20:10,080 --> 00:20:14,080

No, I shouldn't, yeah. For my own personal reason.

259

00:20:14,080 --> 00:20:16,080

Can you give us an indication of what it was?

260

00:20:16,080 --> 00:20:17,080

No.

261

00:20:17,080 --> 00:20:18,080

What did it concern?

262

00:20:18,080 --> 00:20:22,080

Well, it concerned them being here or anything.

263

00:20:22,080 --> 00:20:24,080

Why they were here?

264

00:20:26,080 --> 00:20:30,080

Did these creatures have features like we do on Earth? They have eyes.

265

00:20:30,080 --> 00:20:31,080

No.

266

00:20:31,080 --> 00:20:35,080

They were about four foot tall and they had arms and legs and heads.

267

00:20:35,080 --> 00:20:38,080

Where they had features, I would presume so.

268

00:20:38,080 --> 00:20:41,080

They just had a complete uniform covered everything.

269

00:20:41,080 --> 00:20:43,080

I mean, as far as seeing features you couldn't see anything.

270

00:20:43,080 --> 00:20:46,080

The voice comes from the front one someplace.

271

00:20:46,080 --> 00:20:51,080

I don't know, could it come from the head or could it come from the stomach or where?

272

00:20:51,080 --> 00:20:54,080

I just could hear the voice come from it someplace.

273

00:20:54,080 --> 00:20:56,080

He was about four or five feet away from me.

274

00:20:56,080 --> 00:20:58,080

What kind of were the uniforms?

275

00:20:58,080 --> 00:20:59,080

Same color as a ship.

276

00:20:59,080 --> 00:21:01,080

Sort of like a space suit.

277

00:21:01,080 --> 00:21:06,080

It was the same color. I didn't touch the uniforms, but they looked to me like the same kind of stuff.

278

00:21:06,080 --> 00:21:10,080

They seemed to go back underneath the ship to back when we went first and this front one turned around.

279

00:21:10,080 --> 00:21:13,080

They both went back underneath the ship and where they went to, I don't know,

280

00:21:13,080 --> 00:21:16,080

it was only about 60 seconds and the thing took off.

281

00:21:16,080 --> 00:21:20,080

Now it's standing about six inches from where it took off.

282

00:21:21,080 --> 00:21:26,080

And there you have reporting from his barn in Newark, New York, Gary Wilcox,

283

00:21:26,080 --> 00:21:31,080

a 28-year-old dairy farmer who says he saw, well, you heard Mr. Wilcox.

284

00:21:31,080 --> 00:21:33,080

And we'll continue our conversation.

285

00:21:33,080 --> 00:21:37,080

Our guests here on the studio, Streeter Stewart and Walter Webb, both members of NiCAP,

286

00:21:37,080 --> 00:21:39,080

will begin taking phone calls in just a moment.

287

00:21:39,080 --> 00:21:45,080

As always, our WBZ contact number is Algonquin 45678.

288

00:21:45,080 --> 00:21:50,080

And a quick reminder to Marnite on Contact, our topic is going to be the John Burt Society.

289

00:21:50,080 --> 00:21:52,080

That first phone call in just a moment.

290

00:21:52,080 --> 00:21:54,080

Gentlemen, let's take that first phone call.

291

00:21:54,080 --> 00:21:56,080

Our topic tonight, UFO Unidentified Flying Objects.

292

00:21:56,080 --> 00:21:59,080

My guests, Streeter Stewart and Walter Webb.

293

00:21:59,080 --> 00:22:01,080

This is Bob Kennedy. You're on contact. You're on the air.

294

00:22:01,080 --> 00:22:03,080

Yes, Mr. Kennedy.

295

00:22:03,080 --> 00:22:07,080

This is Robert Forrest. And I have three brief points.

296

00:22:07,080 --> 00:22:10,080

Okay, make them kind of brief. We're pushing for time here, Howard.

297

00:22:10,080 --> 00:22:15,080

All right. I was wondering if your guests, either of them, were familiar with the two strange objects

298

00:22:15,080 --> 00:22:20,080

which have been seen in the western skies for the past week, or two weeks, rather.

299

00:22:20,080 --> 00:22:29,080

The brief description of their nature would be they were basically pure light with green towards the end,

300

00:22:29,080 --> 00:22:35,080

as if possibly they're at an angle, and a red flash at intervals going over their surface.

301

00:22:35,080 --> 00:22:39,080

They appear to be stars at first glance, but they're constantly in the sky.

302

00:22:39,080 --> 00:22:42,080

Would this be the ones that are similar to the ones over Lawrence, Streeter?

303

00:22:42,080 --> 00:22:44,080

Were we talking about earlier?

304

00:22:44,080 --> 00:22:48,080

No, I think not. The ones over Lawrence appear to be a red ball.

305

00:22:48,080 --> 00:22:52,080

Excuse me, in what direction were those objects seen?

306

00:22:52,080 --> 00:22:56,080

Just a few degrees to the left of Venus the first time,

307

00:22:56,080 --> 00:23:01,080

and the other times of... No, basically they were constantly to the left of Venus.

308

00:23:01,080 --> 00:23:04,080

And then the last time I saw them, which was a few nights back,

309

00:23:04,080 --> 00:23:09,080

they had changed their position entirely and were about 50 degrees to the right of Venus.

310

00:23:09,080 --> 00:23:12,080

Were they star-like pinpoint lights?

311

00:23:12,080 --> 00:23:17,080

They seemed to be, but I checked and there was no temperature inversion, which could have caused it.

312

00:23:17,080 --> 00:23:21,080

There was a brief temperature inversion on a few nights, but it was nothing recognizable.

313

00:23:21,080 --> 00:23:26,080

Well, the planet Venus would be the only planet object in that part of the sky.

314

00:23:26,080 --> 00:23:31,080

Jupiter has long since disappeared. For a while, Jupiter and Venus were close together.

315

00:23:31,080 --> 00:23:35,080

Could be, though, that I believe there are some other stars over in that area.

316

00:23:35,080 --> 00:23:40,080

Now, you know, when they're low to the horizon, they scintillate or refract.

317

00:23:40,080 --> 00:23:47,080

Well, the only thing that would have killed that area is the fact that these moved in a contrary direction to the stars.

318

00:23:47,080 --> 00:23:51,080

Well, I'm baffled then. Why don't you give them a call after the program?

319

00:23:51,080 --> 00:23:54,080

Let them know more detail and I'm sure they both be very interested.

320

00:23:54,080 --> 00:23:57,080

All right, and my other two points with you. Once again, very brief.

321

00:23:57,080 --> 00:24:02,080

We are setting up a sky watch here in Cambridge, and I thought that any of your listeners,

322

00:24:02,080 --> 00:24:06,080

which might be interested in joining, could write me at 92 Pleasant Street, Cambridge.

323

00:24:06,080 --> 00:24:13,080

And the third thing, which is once again very brief, there's a fellow out in Worcester who puts out a very excellent amateur publication,

324

00:24:13,080 --> 00:24:18,080

which is nonprofit, called Controversial Phenomenal Bulletin, which is a software magazine.

325

00:24:18,080 --> 00:24:23,080

And his address would be 42 Great Brook Valley Avenue, Worcester, Massachusetts.

326

00:24:23,080 --> 00:24:26,080

Okay, what? All right, we'll send you the bill to 92 Pleasant Street.

327

00:24:26,080 --> 00:24:32,080

Okay, thank you so much for calling. This is Bob Kennedy. You're in contact. You're on the air now. Hello?

328

00:24:32,080 --> 00:24:33,080

Yes, hello.

329

00:24:33,080 --> 00:24:34,080

Yes, sir.

330

00:24:34,080 --> 00:24:39,080

Yes, to any one of your guests, I'd like to have this question answered.

331

00:24:39,080 --> 00:24:50,080

I was wondering, I mentioned that some scientists believe that there is life on other planets beyond ours, or other bodies, or what have you.

332

00:24:50,080 --> 00:25:02,080

So I was wondering, what recent evidences do they have, if any, to base this upon, and then again, why is it that some scientists, you know,

333

00:25:02,080 --> 00:25:05,080

tend to be skeptical about it, and even some tend to disagree.

334

00:25:05,080 --> 00:25:07,080

All right, sir, fine. Thank you.

335

00:25:07,080 --> 00:25:19,080

I'd like to answer that briefly. In the first place, they have discovered some tectites, which are kind of a meteorite material that appear to have some fossils of elementary life in them.

336

00:25:19,080 --> 00:25:26,080

This would indicate that there is some kind of life in outer space, because these are coming from some place other than the Earth.

337

00:25:26,080 --> 00:25:35,080

The second reason is that in biology and the other sciences, science is pretty well concluded now that wherever there is an atmosphere, an environment,

338

00:25:35,080 --> 00:25:49,080

propitious to life, life will develop. And there are undoubtedly many, many planets near a heat and energy source such as our sun that would be propitious for such life.

339

00:25:49,080 --> 00:25:54,080

Therefore, these scientists conclude that life must have developed in that area.

340

00:25:54,080 --> 00:25:57,080

This is Bob Kennedy. You're in contact. You're on the air now.

341

00:25:57,080 --> 00:25:58,080

Yes?

342

00:25:58,080 --> 00:26:06,080

Yes. According to the black muslims, they claim that the other ship up in the sky is for the purpose of destroying this country.

343

00:26:06,080 --> 00:26:16,080

And they claim that there are 1500 bombing planes on that ship for the purpose of destroying the metropolitan areas of this country.

344

00:26:16,080 --> 00:26:17,080

Yes.

345

00:26:47,080 --> 00:26:56,080

They got back in the ship. He said, where the door was closed, it was so smooth as if it was no hinges to prove the mathematical ability of these people.

346

00:26:56,080 --> 00:27:01,080

Now, when you say they were black men, do you mean this literally or do you mean that they were negro gentlemen up there?

347

00:27:01,080 --> 00:27:10,080

Well, he said black. I think Major Keohel also said that when he was flying a plane, or if it wasn't him or another pilot coming from South America,

348

00:27:11,080 --> 00:27:15,080

he claimed that it flew alongside of his plane and they said that they were black people.

349

00:27:15,080 --> 00:27:19,080

And when I say black, I mean BLACK. That's what they came.

350

00:27:19,080 --> 00:27:25,080

This particular gentleman in Texas that I heard over the radio on 58, he said that where they got back in the ship,

351

00:27:25,080 --> 00:27:29,080

he said the mathematical mind of these people must have been so high because with a door closed,

352

00:27:29,080 --> 00:27:33,080

you couldn't even see a normal hinge like we see on our door.

353

00:27:33,080 --> 00:27:38,080

And he said it took off as if there was anything else he had ever seen in his life.

354

00:27:38,080 --> 00:27:42,080

It went straight up, made a 90 degree turn without stopping.

355

00:27:42,080 --> 00:27:55,080

Well, the late Douglas MacArthur, the general of the armies, is quoted as saying, and I have a tape in which he is quoted as saying that he believed that the next major war would be an interplanetary war.

356

00:27:55,080 --> 00:28:02,080

Amazing. With people from other planets, or did he mean that we would, Earth people would manage to get on the planets and then begin fighting that way?

357

00:28:02,080 --> 00:28:10,080

No, that this would be a war similar to the war of worlds in which the people of this Earth would war against people from other planets.

358

00:28:10,080 --> 00:28:14,080

Well, we'll be able to put that question directly to Major Keeho shortly after news.

359

00:28:14,080 --> 00:28:20,080

We'll ask him about those black men on the flying saucers and one evening during a discussion with Malcolm X,

360

00:28:20,080 --> 00:28:27,080

when he was a member of the black Muslims, we were talking about this and the telephone call came in and someone asked specifically about it.

361

00:28:27,080 --> 00:28:32,080

And I was amazed when Malcolm X agreed, yes, that there was.

362

00:28:32,080 --> 00:28:37,080

They felt the saucer up there with black men on it, waiting possibly to attack the Earth.

363

00:28:37,080 --> 00:28:40,080

So it is part of the black Muslim tradition.

364

00:28:40,080 --> 00:28:45,080

And it's something that we'll be talking about right after news as we continue our discussion tonight on UFO.

365

00:28:45,080 --> 00:28:51,080

Unidentified flying objects. Our WBC number as always is Algonquin 45678.

366

00:28:51,080 --> 00:29:01,080

This is Bob Kennedy standing by to put you in contact with the exciting world of people, places and ideas on Bob Kennedy Contact.

367

00:29:01,080 --> 00:29:05,080

We'll continue our conversation and take another phone call in just a moment.

368

00:29:05,080 --> 00:29:10,080

Tonight on Contact, our topic is UFO. Unidentified flying objects.

369

00:29:10,080 --> 00:29:13,080

When I began the program, a street was coming over from the new studio.

370

00:29:13,080 --> 00:29:17,080

You probably didn't hear this, but I was saying, streeter, that this is probably, I would imagine,

371

00:29:17,080 --> 00:29:24,080

our most controversial topic that we deal with on Contact by virtue of the reaction that we get to the programs afterwards.

372

00:29:24,080 --> 00:29:31,080

The mail is always very, very heavy and the phones are about ready to burn to the ground every time we do it,

373

00:29:31,080 --> 00:29:33,080

as it has been tonight with the lights lighting up.

374

00:29:33,080 --> 00:29:38,080

Our guest here in the studio, of course, Streeter Stewart, Streeter from WBC News, also a member of NiCAP.

375

00:29:38,080 --> 00:29:43,080

And Walter Webb with us, Walter's been with us before, Walt, too, a member of NiCAP.

376

00:29:43,080 --> 00:29:51,080

And now on our long distance contact line from his home, we have Major Donald Keeho, who is the director of NiCAP.

377

00:29:51,080 --> 00:29:53,080

Major Keeho, welcome to Contact.

378

00:29:53,080 --> 00:29:55,080

Thank you. It's a pleasure to be with you.

379

00:29:55,080 --> 00:29:58,080

Now, Major, I know that, uh, Spouse Streeter, I'm going to have a question for you,

380

00:29:58,080 --> 00:30:03,080

and then we'll let our listeners join us in, as I said just a second ago, our lines have been quite busy tonight.

381

00:30:03,080 --> 00:30:08,080

But Walt mentioned something in the beginning of the program that I think I'd ask your reaction to.

382

00:30:08,080 --> 00:30:15,080

He said that we're in the midst of sort of a rash of UFO sightings across the country that began in April,

383

00:30:15,080 --> 00:30:19,080

sort of in the Midwest and is moving now seemingly along the lines towards New England here.

384

00:30:19,080 --> 00:30:24,080

Do you think that we are in the middle of a particularly active UFO sighting period?

385

00:30:24,080 --> 00:30:28,080

Yes, actually, there's been a very noticeable increase.

386

00:30:28,080 --> 00:30:35,080

Not only that, there are many people who ordinarily keep silent who are encouraged now to speak up because of all these press reports.

387

00:30:35,080 --> 00:30:37,080

What kind of people are these being, Major?

388

00:30:37,080 --> 00:30:44,080

Well, they're a respectable businessman and then in the military services, the congressman, so on.

389

00:30:44,080 --> 00:30:49,080

We've had a number of reports of people who said ordinarily I would keep this confidential, but it seems to be breaking out now.

390

00:30:49,080 --> 00:30:52,080

Any particular congressman you'd like to name who have become a...

391

00:30:52,080 --> 00:30:55,080

Well, that's one thing. They have given us those reports.

392

00:30:55,080 --> 00:31:02,080

I tell you, I think something on will, when our report on our seven-year investigation reaches Congress and then it's released to the press,

393

00:31:02,080 --> 00:31:06,080

I think you'll be surprised at the number on the Hill who will come out and say,

394

00:31:06,080 --> 00:31:10,080

we believe that these things are real and we have known it for quite some time.

395

00:31:10,080 --> 00:31:12,080

When are you going to get this report to Congress?

396

00:31:12,080 --> 00:31:16,080

It's in the last stage of the printing and we're trying to rush it through so that it will be...

397

00:31:16,080 --> 00:31:19,080

it should be to Congress in the first part of June.

398

00:31:19,080 --> 00:31:25,080

And what do you hope the result of this will be, aside from some statements from people on the Hill, the result of this report?

399

00:31:25,080 --> 00:31:31,080

Well, first of all, we think there will be a congressional investigation because the number of senators and congressmen

400

00:31:31,080 --> 00:31:34,080

who've already said that they will back such a move.

401

00:31:34,080 --> 00:31:42,080

Second, when the press and all the broadcast newsmen around the country realized that this massive

evidence is on record

402

00:31:42,080 --> 00:31:49,080

and realized they've been misled, perhaps not deliberately, but they have been led to believe there was nothing to it.

403

00:31:49,080 --> 00:31:55,080

And here are all these hundreds of reports from veteran observers, pilots and the missile trackers and astronomers and so forth.

404

00:31:55,080 --> 00:32:02,080

It's going to be revolutionary and I think this is the gear for the UFO problem. It's going to break out.

405

00:32:02,080 --> 00:32:04,080

Straighten? Do you have a question?

406

00:32:04,080 --> 00:32:08,080

Walter wanted to ask some more, I think, about this congressional investigation.

407

00:32:08,080 --> 00:32:10,080

Well, Grand Major, I'd like to cut in here a moment.

408

00:32:10,080 --> 00:32:14,080

Tell me, has the Air Force explained the Securro and the Mexico case at all?

409

00:32:14,080 --> 00:32:17,080

I have not seen anything on this in the papers.

410

00:32:17,080 --> 00:32:24,080

Not to date, as far as I know. They admitted it to their chief investigator, Dr. Heiming, admitted they were puzzled.

411

00:32:24,080 --> 00:32:28,080

And apparently he stands up in the community as a very respectable person.

412

00:32:28,080 --> 00:32:30,080

They also did find marks on the ground.

413

00:32:30,080 --> 00:32:35,080

Apparently something did land there and it could not have been any one of our secret devices.

414

00:32:35,080 --> 00:32:38,080

They don't test them in that way. They test them on the proving ground.

415

00:32:38,080 --> 00:32:43,080

Now, remember right in the beginning there when the UFO investigators, the Air Force people were coming out,

416

00:32:43,080 --> 00:32:48,080

they said that it was not a secret aircraft that was being tested around that area.

417

00:32:48,080 --> 00:32:49,080

That's right.

418

00:32:49,080 --> 00:32:53,080

And also they witnessed that patrolmen was considered to be very, very reliable.

419

00:32:53,080 --> 00:32:54,080

That's right.

420

00:32:54,080 --> 00:32:57,080

Major Keeho, I was sitting here thinking about the results of this investigation,

421

00:32:57,080 --> 00:33:02,080

if Congress does investigate UFO and if there is more public interest,

422

00:33:02,080 --> 00:33:06,080

do you think, again with a supposition on my part anyway, perhaps not on yours,

423

00:33:06,080 --> 00:33:11,080

if there were these people beings from outer space that were surveying our planet,

424

00:33:11,080 --> 00:33:15,080

and if as a result of the congressional investigation,

425

00:33:15,080 --> 00:33:22,080

UFO, the public's interest in UFO increased, if there was more of an open-minded attitude toward UFO in this country,

426

00:33:22,080 --> 00:33:27,080

do you think then it might perhaps prompt these beings to be a little more,

427

00:33:27,080 --> 00:33:31,080

a little more, well, less,

428

00:33:31,080 --> 00:33:37,080

cattle-stained in their appearances here on Earth? Do you think they might make their appearances known more readily?

429

00:33:37,080 --> 00:33:43,080

Well, I think it might for this reason, if there were a change in policy so that every time one of these appears,

430

00:33:43,080 --> 00:33:50,080

the gender receptors don't take off and try to shoot one down or bring it down quickly for examination,

431

00:33:50,080 --> 00:33:54,080

that alone should encourage them to try attentive landing here and there,

432

00:33:54,080 --> 00:33:59,080

instead of with these very brief ones where they land and are ready to go in a hurry if anybody comes near.

433

00:33:59,080 --> 00:34:05,080

Major Keeho, I wanted to ask, is there still a policy of secrecy on the part of the Air Force

434

00:34:05,080 --> 00:34:09,080

as far as giving out information to the public is concerned?

435

00:34:09,080 --> 00:34:14,080

My experience has been that they want to get information, but they don't want to give information.

436

00:34:14,080 --> 00:34:16,080

What is the situation now?

437

00:34:16,080 --> 00:34:22,080

That is correct. Under Air Force Regulation 200, all Air Force personnel are prohibited from giving out

438

00:34:22,080 --> 00:34:27,080

any information on their sightings unless it is approved at Air Force headquarters.

439

00:34:27,080 --> 00:34:33,080

And all they put out is headquarters as a rule, very vague summaries, percentages and so forth.

440

00:34:33,080 --> 00:34:38,080

When a specific case breaks, like this one in New Mexico, they're almost forced to say something.

441

00:34:38,080 --> 00:34:45,080

But as a rule, you never hear anything of all of the jet chases of UFOs and the formations that are sighted

442

00:34:45,080 --> 00:34:47,080

from military air bases and so on.

443

00:34:47,080 --> 00:34:52,080

Major Keeho, Streeter and Walt, I'd like to continue this conversation, but so would our listeners.

444

00:34:52,080 --> 00:34:56,080

So let's get to some phone calls. Our number as always is Algonquin 45678.

445

00:34:56,080 --> 00:34:59,080

And we'll take that next phone call right after this message.

446

00:34:59,080 --> 00:35:05,080

Once again, my guests in the studio, Streeter Stewart, Walter Wem from MiCap on our long distance contact line,

447

00:35:05,080 --> 00:35:09,080

the head of MiCap, the director, Major Donald Keeho from his home in Virginia.

448

00:35:09,080 --> 00:35:14,080

Gentlemen, let's take that next phone call. This is Bob Kennedy. You're in contact now. You're on the air.

449

00:35:14,080 --> 00:35:16,080

Oh, Bob Kennedy? Yes, sir.

450

00:35:16,080 --> 00:35:21,080

Bob, I don't want to take too much of your airtime this evening, but I've been interested in UFOs for a long time

451

00:35:21,080 --> 00:35:26,080

and these all seem to come out after one spectacular sighting such as the one down in New Mexico.

452

00:35:26,080 --> 00:35:32,080

But I'd like to ask Major Keeho a question or two here and then relate an experience that I had briefly.

453

00:35:32,080 --> 00:35:37,080

Well, how about relating the experience first? Technically, it will be easier for us, and then ask the two questions together.

454

00:35:37,080 --> 00:35:45,080

The experience was one that I had that is tied up with this question of sightings in rather barren, isolated areas.

455

00:35:45,080 --> 00:35:52,080

That I had this summer in the west central Nebraska in the Sandhills region, which are quite common out there.

456

00:35:52,080 --> 00:35:56,080

The ranchers have reported them a number of times to me. I was doing some survey work out there.

457

00:35:56,080 --> 00:36:03,080

And to them, it's very common stuff. Their country folk live off the land and they don't think much about it.

458

00:36:03,080 --> 00:36:05,080

What are the sightings like?

459

00:36:05,080 --> 00:36:14,080

The sighting that I was particularly involved with was a sighting of 103 of these very bright egg-shaped things that were out in this,

460

00:36:14,080 --> 00:36:23,080

around this lake this past July 3rd. They've had numbers of them on this particular lake in the Sandhills region, cattle country before.

461

00:36:23,080 --> 00:36:31,080

But I happened to stop by this ranch on my survey and had this man report to me that both he and his mother, an elderly lady,

462

00:36:31,080 --> 00:36:38,080

this past July 3rd, had an encounter with 103 of these things that they counted around their lake

in front of their ranch.

463

00:36:38,080 --> 00:36:45,080

They fired guns at them. They got about 200 yards away and these things took off.

464

00:36:45,080 --> 00:36:50,080

He's had experiences with two or three of them before, never with any people. They've landed.

465

00:36:50,080 --> 00:36:54,080

They seem to be in congregations out there, 40 miles from the nearest town.

466

00:36:54,080 --> 00:36:55,080

And you saw them, you say?

467

00:36:55,080 --> 00:37:05,080

I did not see them, no. This was given to me by these people in the course of the survey, but there was continual backing up of many different reports of people

468

00:37:05,080 --> 00:37:10,080

who said this was just common stuff in this region where there are no concentrations of people.

469

00:37:10,080 --> 00:37:13,080

Well, let's see if our guests are familiar with that. What are the two questions you have?

470

00:37:13,080 --> 00:37:21,080

Well, the two questions was one about this. Is there a correlation in the survey reports with sightings in rather desolate areas?

471

00:37:21,080 --> 00:37:34,080

And the second one is a fact that has anyone overheard any conversations among people who seem to be agents in this flying saucer program,

472

00:37:34,080 --> 00:37:40,080

such as one that another friend of mine had in Chicago two summers ago working in an office building,

473

00:37:40,080 --> 00:37:47,080

overhearing in the next office what to all intents and purposes was a report from a man here on Earth

474

00:37:47,080 --> 00:37:54,080

dressed like an Earth person looking like a human being to another man in this office.

475

00:37:54,080 --> 00:37:56,080

They did not know he was in the next office cleaning.

476

00:37:56,080 --> 00:38:01,080

You mean supposedly are agents from outer space that are working in this office?

477

00:38:01,080 --> 00:38:04,080

I don't like to say this because it sounds so funny.

478

00:38:04,080 --> 00:38:08,080

Well, we've had one fellow on the program that swears there's one in the Pentagon, George King's.

479

00:38:08,080 --> 00:38:14,080

I'm not familiar with that and I am still somewhat skeptical, but I'm very interested in this.

480

00:38:14,080 --> 00:38:19,080

He said that he being a skeptic like myself said it was the most fantastic thing he'd ever heard.

481

00:38:19,080 --> 00:38:24,080

A report from a man saying to this other higher up be it.

482

00:38:24,080 --> 00:38:32,080

I'm reporting back from the Middle Western area here that he was assigned a particular geographical area to more or less live and move in

483

00:38:32,080 --> 00:38:35,080

and report on the activities of Earth.

484

00:38:35,080 --> 00:38:39,080

Okay, now your first question was a correlation with sightings in desolate areas.

485

00:38:39,080 --> 00:38:40,080

In other words, are there...

486

00:38:40,080 --> 00:38:45,080

In desolate remote areas, New Mexico, Middle West, Plains, etc. Is there a correlation?

487

00:38:45,080 --> 00:38:51,080

The second one, have there been similar occasions of people meeting or overhearing?

488

00:38:51,080 --> 00:38:54,080

Okay, fine. Thank you so much. Major Keeho, do you hear those?

489

00:38:54,080 --> 00:38:58,080

The last question, the last part of that I didn't hear clearly.

490

00:38:58,080 --> 00:39:04,080

Yeah, well the last question was he overheard two gentlemen talking and they seem to be agents from space

491

00:39:04,080 --> 00:39:06,080

and he wondered if you had heard anything about this.

492

00:39:06,080 --> 00:39:10,080

Well, yeah, well there's less sentences but I wasn't sure about it.

493

00:39:10,080 --> 00:39:16,080

Well the first question, the correlation about landings and operations in desolate areas,

494

00:39:16,080 --> 00:39:25,080

there have been I think more reports of touch landings naturally out in the more barren areas and they would be close to a city

495

00:39:25,080 --> 00:39:30,080

and that reason rather obvious is that they get chased quite frequently.

496

00:39:30,080 --> 00:39:38,080

And then, this gentleman reported people firing at the UFOs and I would suggest that anyone who sees one of these

497

00:39:38,080 --> 00:39:44,080

don't not fire at all but wait and see what happens. That's one reason why they don't apparently want to land

498

00:39:44,080 --> 00:39:49,080

and stay on the ground. The second one, I think there's no proof of that at all.

499

00:39:49,080 --> 00:39:56,080

We've heard that story many, many times and it may be true but at the same time I would have to have a lot more evidence

500

00:39:56,080 --> 00:40:00,080

before I would accept that we have such agents moving around on Earth.

501

00:40:00,080 --> 00:40:04,080

Alright gentlemen, let's take another call. Bob Kennedy, you're on contact, you're on the air.

502

00:40:04,080 --> 00:40:05,080

Hello, Bob?

503

00:40:05,080 --> 00:40:06,080

Yes.

504

00:40:06,080 --> 00:40:08,080

Excuse me, I'm in a West Roxbury calling.

505

00:40:08,080 --> 00:40:09,080

Yes.

506

00:40:09,080 --> 00:40:17,080

I was looking at Venus about a couple nights ago and I saw a very little green dot moving very fast

507

00:40:17,080 --> 00:40:22,080

and I called the authorities to find out they had seen them and I was wondering what they were.

508

00:40:22,080 --> 00:40:25,080

They said there was nothing, it was probably just my eyesight.

509

00:40:25,080 --> 00:40:28,080

I was wondering if they were wearing glasses on green dots on pages. Did you check it? You wear glasses?

510

00:40:28,080 --> 00:40:29,080

Yes.

511

00:40:29,080 --> 00:40:32,080

You weren't doing some painting, any green painting that day where you were painting the screens?

512

00:40:32,080 --> 00:40:36,080

Okay, we'll see what web might have something on that. Thank you for calling.

513

00:40:36,080 --> 00:40:42,080

Okay, I guess I missed her. I was hoping to get her on the line but she said three little green dots.

514

00:40:42,080 --> 00:40:43,080

Right.

515

00:40:43,080 --> 00:40:48,080

Again, I would have asked her what direction in the sky. I guess she said near Venus, didn't she?

516

00:40:48,080 --> 00:40:55,080

So, how long did she see them? For example, now, it could have been plain lights, green.

517

00:40:55,080 --> 00:40:57,080

Has there been any reports of anything like that?

518

00:40:57,080 --> 00:40:58,080

Probably not satellites.

519

00:40:58,080 --> 00:41:00,080

No, not lately.

520

00:41:00,080 --> 00:41:01,080

Alright.

521

00:41:01,080 --> 00:41:05,080

Fine, we'll take another phone call in just a moment but first we'll check the baseball scoreboard.

522

00:41:05,080 --> 00:41:08,080

This is Bruce Hemmings. I'm framing him.

523

00:41:08,080 --> 00:41:09,080

Okay, Bruce, how are you?

524

00:41:09,080 --> 00:41:10,080

That's good.

525

00:41:10,080 --> 00:41:11,080

Fine.

526

00:41:11,080 --> 00:41:17,080

I have something I think your guest should know that I was fighting.

527

00:41:17,080 --> 00:41:27,080

I saw around a year or two ago that it was around where I live and my father and I were driving in a car

528

00:41:27,080 --> 00:41:36,080

and we happened to look out and we saw this big, large ball and it was completely white

529

00:41:36,080 --> 00:41:44,080

and it kept blinking on and off and the intervals between were four seconds.

530

00:41:44,080 --> 00:42:02,080

And then a month later we saw the same thing and it was around the same area and the curve had the same actions as the sighting we saw a month before.

531

00:42:02,080 --> 00:42:03,080

Whereabouts did you see it?

532

00:42:03,080 --> 00:42:09,080

Well, around the Pleasant Street and down near First Baptist Church.

533

00:42:09,080 --> 00:42:10,080

The Sound and Framingham?

534

00:42:10,080 --> 00:42:11,080

Yes.

535

00:42:11,080 --> 00:42:24,080

And I think the size of it was about the size of a car, I think it was big, but it didn't look like a plane or anything

536

00:42:24,080 --> 00:42:29,080

but just thinking that your guest should know about it.

537

00:42:29,080 --> 00:42:30,080

Alright, fine.

538

00:42:30,080 --> 00:42:32,080

I have a little question to ask.

539

00:42:32,080 --> 00:42:33,080

Alright.

540

00:42:33,080 --> 00:42:34,080

And here you get.

541

00:42:34,080 --> 00:42:43,080

Around 10 or 11 years ago there was a civil fighting over Washington, D.C.

542

00:42:43,080 --> 00:42:47,080

and I was wondering if that was true or false.

543

00:42:47,080 --> 00:42:51,080

Alright, I think we'll ask Major Kehoe on that one since that's right down in his home territory.

544

00:42:51,080 --> 00:42:53,080

Major Kehoe, do you hear that question?

545

00:42:53,080 --> 00:42:55,080

That wasn't coming through very clearly but I'm sorry.

546

00:42:55,080 --> 00:42:56,080

Well, that's okay.

547

00:42:56,080 --> 00:43:00,080

The question was the general was concerned about some sightings over Washington a couple of years ago

548

00:43:00,080 --> 00:43:03,080

and he wonders if there is any truth to that.

549

00:43:03,080 --> 00:43:04,080

Were there some sightings?

550

00:43:04,080 --> 00:43:06,080

Major, these are the ones in 1952.

551

00:43:06,080 --> 00:43:07,080

Washington radar.

552

00:43:07,080 --> 00:43:10,080

Well, the 52 sightings of course are well documented.

553

00:43:10,080 --> 00:43:15,080

There were formations of UFOs, groups operating over Washington that were tracked for radar

554

00:43:15,080 --> 00:43:20,080

and seen visually from the towers, tower operators, plane pilots and so on.

555

00:43:20,080 --> 00:43:26,080

Recently there have been a few sightings over Washington, some of which have been revealed

556

00:43:26,080 --> 00:43:29,080

and most of them are kept under wraps.

557

00:43:29,080 --> 00:43:30,080

Nice.

558

00:43:30,080 --> 00:43:31,080

Let's take another phone call then.

559

00:43:31,080 --> 00:43:32,080

This is Bob Kennedy.

560

00:43:32,080 --> 00:43:33,080

You're in contact.

561

00:43:33,080 --> 00:43:34,080

You're on the air now.

562

00:43:34,080 --> 00:43:35,080

Hello?

563

00:43:35,080 --> 00:43:36,080

Hello?

564

00:43:36,080 --> 00:43:37,080

Yes, ma'am.

565

00:43:37,080 --> 00:43:38,080

This is Lyle Boyd.

566

00:43:38,080 --> 00:43:42,080

I'm the co-author for Dr. Menzel of the World of Flying Saucers.

567

00:43:42,080 --> 00:43:44,080

Glad to have you join us.

568

00:43:44,080 --> 00:43:49,080

Dr. Menzel unfortunately is in South America so he can't call up to comment.

569

00:43:49,080 --> 00:43:51,080

I thought I would like to.

570

00:43:51,080 --> 00:43:52,080

Please?

571

00:43:52,080 --> 00:43:58,080

In the first place, Mr. Webb and Mr. Stewart made some criticism of our book saying that

572

00:43:58,080 --> 00:44:02,080

we continually use the word probably in giving our solution.

573

00:44:02,080 --> 00:44:08,080

And I would like to comment that this is the only thing a scientist can say when an event

574

00:44:08,080 --> 00:44:12,080

happened many years before and he doesn't have access to all the material.

575

00:44:12,080 --> 00:44:18,080

He can have an excellent theory but he can't prove it and he'd be very foolish to say

576

00:44:18,080 --> 00:44:19,080

that.

577

00:44:19,080 --> 00:44:28,080

And the cool thing that seems to be about the UFO belief is that they also are depending

578

00:44:28,080 --> 00:44:33,080

on probability but they have no evidence at all and they treat probability as though

579

00:44:33,080 --> 00:44:34,080

it were fact.

580

00:44:34,080 --> 00:44:39,080

The fact is we have no evidence at all that we've had visitors from outer space.

581

00:44:39,080 --> 00:44:44,080

Nor ships ever landed, been photographed, we've never found any wreckage, we've never

582

00:44:44,080 --> 00:44:47,080

found any bones of these little men.

583

00:44:47,080 --> 00:44:53,080

They have no evidence and it seems to me so foolish for a person to believe these things

584

00:44:53,080 --> 00:44:55,080

until he can have some proof.

585

00:44:55,080 --> 00:45:01,080

And Dr. Menzel and I in our book were trying to treat the thing reasonably and to say that

586

00:45:01,080 --> 00:45:02,080

these things happen.

587

00:45:02,080 --> 00:45:07,080

You do have these peculiar circumstances but they're a question of interpretation but you

588

00:45:07,080 --> 00:45:12,080

can't find a positive verdict either way until you have all the facts.

589

00:45:12,080 --> 00:45:17,080

The students in Dr. Menzel's class on the times that I attended his class when he was

590

00:45:17,080 --> 00:45:24,080

speaking on unidentified flying objects criticized Dr. Menzel for not having a scientific attitude.

591

00:45:24,080 --> 00:45:28,080

Now I know that he is one of the world's great scientists but when it comes to the unidentified

592

00:45:28,080 --> 00:45:34,080

flying objects he does say that he believes that he can explain all of these on a basis

593

00:45:34,080 --> 00:45:36,080

of natural phenomena.

594

00:45:36,080 --> 00:45:43,080

And the students who had sightings of their own to have these dismissed by Dr. Menzel

595

00:45:43,080 --> 00:45:48,080

as saying well it was probably workman's lunch bag that was flying through the air or it was

596

00:45:48,080 --> 00:45:54,080

probably a spider web when they knew they had not seen a workman's lunch bag or a spider web

597

00:45:54,080 --> 00:45:59,080

made them make these statements that his approach was not a scientific one.

598

00:45:59,080 --> 00:46:01,080

Well I'm afraid he may have been being facetious.

599

00:46:01,080 --> 00:46:06,080

If you had caught him in a serious mood he would consider the facts very seriously and

600

00:46:06,080 --> 00:46:11,080

try to find a reasonable explanation but even then he would have said probably.

601

00:46:11,080 --> 00:46:12,080

Yes well I did.

602

00:46:12,080 --> 00:46:15,080

I recorded Dr. Menzel on both of these.

603

00:46:15,080 --> 00:46:20,080

I have two hours of recording and I even gave him a duplicate copy of the recordings that

604

00:46:20,080 --> 00:46:21,080

I made.

605

00:46:21,080 --> 00:46:26,080

Now I know that he is very sincere and he believes that all of these can be explained on a basis

606

00:46:26,080 --> 00:46:35,080

of natural phenomena and he gives some very plausible explanations but I do feel that

607

00:46:35,080 --> 00:46:36,080

there is enough evidence.

608

00:46:36,080 --> 00:46:43,080

Thousands of these sightings that have been made by people who I think some are just as

609

00:46:43,080 --> 00:46:49,080

capable of making observations as Dr. Menzel and also of drawing conclusions and therefore

610

00:46:49,080 --> 00:46:54,080

I would have to conclude that there is a probability that some of these cannot be explained on a

611

00:46:54,080 --> 00:46:55,080

basis of natural phenomena.

612

00:46:55,080 --> 00:46:58,080

I think we simply don't know all the answers.

613

00:46:58,080 --> 00:47:04,080

The point that strikes me is that you say there is no evidence at all and my guests this evening

614

00:47:04,080 --> 00:47:10,080

say that there is some evidence in fact a good deal of evidence so here are two very very

615

00:47:10,080 --> 00:47:11,080

separate opinions.

616

00:47:11,080 --> 00:47:16,080

There is no shading on either side it seems to me and one does wonder well here we go.

617

00:47:16,080 --> 00:47:19,080

One side says no evidence and the other side says no.

618

00:47:19,080 --> 00:47:21,080

It's a question of what you define as evidence.

619

00:47:21,080 --> 00:47:23,080

That's basic.

620

00:47:23,080 --> 00:47:24,080

Well thanks very much.

621

00:47:24,080 --> 00:47:26,080

Well what is your definition of evidence?

622

00:47:26,080 --> 00:47:28,080

I think that would be most important so.

623

00:47:28,080 --> 00:47:32,080

Well primarily something you could weigh, measure or photograph.

624

00:47:32,080 --> 00:47:37,080

Well there have been people who have submitted photographs which were some people considered

625

00:47:37,080 --> 00:47:38,080

to be authentic.

626

00:47:38,080 --> 00:47:42,080

I know that others say that they have been falsified and they have ridiculed them.

627

00:47:42,080 --> 00:47:49,080

There have also been some metals that have been tested and assayed and this I consider

628

00:47:49,080 --> 00:47:55,080

to be evidence and I believe that if you will consider this to be evidence that there is

629

00:47:55,080 --> 00:48:01,080

some evidence now to be able to prove that this was from a spaceship that was from outer

630

00:48:01,080 --> 00:48:05,080

space is that would take some doing.

631

00:48:05,080 --> 00:48:06,080

I would admit that.

632

00:48:06,080 --> 00:48:08,080

Mrs. Boyd this is Walter Webb here.

633

00:48:08,080 --> 00:48:11,080

I wanted to just make a comment on the book.

634

00:48:11,080 --> 00:48:17,080

I think you and Dr. Menzel have done a good job in explaining away the lights.

635

00:48:17,080 --> 00:48:23,080

I think many of those do turn out to be stars and planets but the theories begin to be a

636

00:48:23,080 --> 00:48:29,080

little stretched out, a little far fetched it seems to me when you get objects that are

637

00:48:29,080 --> 00:48:31,080

large and seen at close range.

638

00:48:31,080 --> 00:48:35,080

Now this is where I think you and Dr. Menzel have maybe gone a little astray.

639

00:48:35,080 --> 00:48:37,080

What in particular?

640

00:48:37,080 --> 00:48:42,080

Well I can't think of any offhand but there were some, well I'll see, there was the French

641

00:48:42,080 --> 00:48:44,080

Angel hair cases.

642

00:48:44,080 --> 00:48:45,080

Remember that?

643

00:48:45,080 --> 00:48:46,080

Yes.

644

00:48:46,080 --> 00:48:53,080

And I think I commented on this in a letter to Dr. Menzel but he left out, left out a

645

00:48:53,080 --> 00:48:57,080

complete description of the objects that were seen.

646

00:48:57,080 --> 00:49:02,080

I don't know why he did this unless it was to sort of make it a little easier to fit his

647

00:49:02,080 --> 00:49:03,080

theory.

648

00:49:03,080 --> 00:49:04,080

Oh no, no, no.

649

00:49:04,080 --> 00:49:07,080

It must have been some kind of oversight maybe we didn't have the evidence.

650

00:49:07,080 --> 00:49:08,080

I don't know.

651

00:49:08,080 --> 00:49:10,080

I don't recall the details.

652

00:49:10,080 --> 00:49:12,080

Come around to the observatory sometime.

653

00:49:12,080 --> 00:49:13,080

Let's talk it over.

654

00:49:13,080 --> 00:49:16,080

Good, I'm glad to see we, at least our guests are talking it over.

655

00:49:16,080 --> 00:49:19,080

Thank you so much for calling us tonight Mrs. Boyd.

656

00:49:19,080 --> 00:49:20,080

Nice having you on our program.

657

00:49:20,080 --> 00:49:25,080

Our number is Algonquin 45678 and the controversy wages on.

658

00:49:25,080 --> 00:49:27,080

Gentlemen, let's take another phone call.

659

00:49:27,080 --> 00:49:28,080

This is Bob Kennedy.

660

00:49:28,080 --> 00:49:29,080

You're in contact.

661

00:49:29,080 --> 00:49:30,080

You're on the air.

662

00:49:30,080 --> 00:49:31,080

Hello Mr. Kennedy.

663

00:49:31,080 --> 00:49:32,080

Yes ma'am.

664

00:49:32,080 --> 00:49:33,080

I'm during your program immensely.

665

00:49:33,080 --> 00:49:34,080

Why, thank you so much.

666

00:49:34,080 --> 00:49:38,080

I just want to say that last summer my husband and I, we lived in East Boston.

667

00:49:38,080 --> 00:49:40,080

We saw five of something.

668

00:49:40,080 --> 00:49:42,080

We weren't sure what it was.

669

00:49:42,080 --> 00:49:47,080

And they flew over the airport real fast.

670

00:49:47,080 --> 00:49:51,080

And I was wondering, doesn't Radar spot these things?

671

00:49:51,080 --> 00:49:52,080

Good question.

672

00:49:52,080 --> 00:49:53,080

Thank you for calling.

673

00:49:53,080 --> 00:49:56,080

Let's check with Major Keyhode down there in Virginia.

674

00:49:56,080 --> 00:49:58,080

Major, what about Radar spotting UFO?

675

00:49:58,080 --> 00:50:05,080

There are a couple of other cases Bob, where Radar has not only tracked UFOs,

676

00:50:05,080 --> 00:50:09,080

but has shown them maneuvering.

677

00:50:09,080 --> 00:50:15,080

And these UFOs have been simultaneously confirmed visually by observers on the ground,

678

00:50:15,080 --> 00:50:19,080

at airports, in towers, and in airplanes in the area.

679

00:50:19,080 --> 00:50:26,080

Now the odd part about this is that many times people think Radar can be at fault.

680

00:50:26,080 --> 00:50:29,080

But when you have an absolute instantaneous confirmation,

681

00:50:29,080 --> 00:50:33,080

and when more than one Radar sets triangulates,

682

00:50:33,080 --> 00:50:35,080

helps to triangulate a position,

683

00:50:35,080 --> 00:50:38,080

and shows these things exactly where they're seen visually,

684

00:50:38,080 --> 00:50:40,080

there isn't any question about it.

685

00:50:40,080 --> 00:50:45,080

There's something solid we've seen because the Mirage answer will not explain a way such triangulation.

686

00:50:45,080 --> 00:50:48,080

Now by triangulation, you mean two Radars at separate spots,

687

00:50:48,080 --> 00:50:50,080

record something, and they cross?

688

00:50:50,080 --> 00:50:53,080

There's one interesting thing about this.

689

00:50:53,080 --> 00:50:59,080

Air Force Regulation 200-2 has a provision in there for classifying,

690

00:50:59,080 --> 00:51:05,080

as either confidential or secret, Radar Scope photos which show UFOs.

691

00:51:05,080 --> 00:51:08,080

Now those things, as soon as they take the photographs of the Radar Scope,

692

00:51:08,080 --> 00:51:12,080

which shows these things maneuvering, or following various patterns,

693

00:51:12,080 --> 00:51:15,080

they are classified, you can't get them.

694

00:51:15,080 --> 00:51:19,080

And there have been many of these, taken, the Air Force has many of them in their files,

695

00:51:19,080 --> 00:51:25,080

and that's one of the bits of evidence to which Mrs. Boyd apparently was not,

696

00:51:25,080 --> 00:51:28,080

well she wasn't allowed to see, in documents either.

697

00:51:28,080 --> 00:51:32,080

Many of those things are underwrapped, and people can then ask about them,

698

00:51:32,080 --> 00:51:36,080

and they can politely say, I'm sorry, that's not available.

699

00:51:36,080 --> 00:51:38,080

Our contact is tonight here in the studio,

700

00:51:38,080 --> 00:51:41,080

Street or Stewart-Wald Webb on our long distance line from Virginia,

701

00:51:41,080 --> 00:51:45,080

Major Donald Keyhole, and we'll be back with more phone calls in just a moment.

702

00:51:45,080 --> 00:51:49,080

And vicinity clear and cool tonight with low readings in the mid-40s inland,

703

00:51:49,080 --> 00:51:51,080

and in the upper 30s along the coast.

704

00:51:51,080 --> 00:51:55,080

Tomorrow's going to be partly cloudy, with a chance of scattered showers by evening,

705

00:51:55,080 --> 00:52:01,080

highest temperatures again in the 70s, winds picking up to southwest 15 to 20 miles an hour,

706

00:52:01,080 --> 00:52:05,080

and the present WBC temperature is 73 degrees.

707

00:52:05,080 --> 00:52:09,080

Say, how long has it been since you rode a cable car in San Francisco?

708

00:52:09,080 --> 00:52:14,080

Well you know, that's just one of the memorable things that you can do on a western adventure vacation with TWA.

709

00:52:14,080 --> 00:52:19,080

You can visit exciting Disneyland, sit around a campfire at night out in the desert,

710

00:52:19,080 --> 00:52:21,080

and share the fun in Las Vegas.

711

00:52:21,080 --> 00:52:26,080

When you fly TWA, you're on vacation the same day your vacation begins,

712

00:52:26,080 --> 00:52:30,080

because TWA jets take you to California in just a few short hours.

713

00:52:30,080 --> 00:52:36,080

And you can see a brand new movie on the way by in-flight motion pictures in either first class or coach.

714

00:52:36,080 --> 00:52:39,080

The cost of your vacation in the west is less than you may think,

715

00:52:39,080 --> 00:52:43,080

especially when you travel on TWA's family travel plan.

716

00:52:43,080 --> 00:52:48,080

On certain days of the week you can save 25% of each fare for your wife and children,

717

00:52:48,080 --> 00:52:52,080

and low cost jet coach as well as in first class.

718

00:52:52,080 --> 00:52:56,080

Make this your year for a wonderful vacation in California and the west.

719

00:52:56,080 --> 00:53:03,080

For free TWA vacation literature, call TWA, see your travel agent, or write to TWA Adventures,

720

00:53:03,080 --> 00:53:06,080

Box 103, Boston 34.

721

00:53:06,080 --> 00:53:10,080

A quick reminder tomorrow night on contact we'll be talking about the John Burt's Society.

722

00:53:10,080 --> 00:53:14,080

We'll be talking about it with a gentleman who has just published a book on this organization called,

723

00:53:14,080 --> 00:53:18,080

The John Burt Society Anatomy of Protest.

724

00:53:18,080 --> 00:53:23,080

His name is Jay Allen-Broyles, our contact guest tomorrow night at 6.30.

725

00:53:23,080 --> 00:53:26,080

This is Bob Kennedy, you're in contact now, you're on the air.

726

00:53:26,080 --> 00:53:27,080

Hello?

727

00:53:27,080 --> 00:53:28,080

Hi Bob.

728

00:53:28,080 --> 00:53:29,080

Yes sir.

729

00:53:29,080 --> 00:53:31,080

I've got three very quick questions for Major Keogh.

730

00:53:31,080 --> 00:53:35,080

Okay, and then at this point I'm going to limit the questions from here on out to only two,

731

00:53:35,080 --> 00:53:38,080

because we have so many phone calls, we'll never get to them.

732

00:53:38,080 --> 00:53:41,080

So if you can give us the three quick questions, sir, and we'll have the major answer.

733

00:53:41,080 --> 00:53:50,080

Mr. Cedric Ailingham and Mr. George Adamsky, two fairly well known amateur astronomers.

734

00:53:50,080 --> 00:53:54,080

Are either of these fellows, well I guess amateur astronomers make some astronomers in a way.

735

00:53:54,080 --> 00:53:56,080

I suppose anyone can be an amateur astronomer.

736

00:53:56,080 --> 00:53:57,080

As long as I have a telescope in the backyard.

737

00:53:57,080 --> 00:53:58,080

Oh you need us a telescope.

738

00:53:58,080 --> 00:54:05,080

Okay, well we just wanted to clear up, because Mr. Adamsky is a fellow that takes weekend flights and flying saucers, etc. right?

739

00:54:05,080 --> 00:54:10,080

Right, both these people have supposedly spoken and,

740

00:54:10,080 --> 00:54:14,080

filmed people from Mars and Venus.

741

00:54:14,080 --> 00:54:21,080

And my first question is whether or not any of these photographs have ever been found to be authentic.

742

00:54:21,080 --> 00:54:28,080

Question number two in Major Keogh's last book, which was the Flying Saucer Conspiracy,

743

00:54:28,080 --> 00:54:38,080

he mentioned that in the 1950s a bridge on the moon had been discovered, which they had called the Moon Bridge.

744

00:54:38,080 --> 00:54:45,080

My second question was if there has been any further information or investigation on this bridge.

745

00:54:45,080 --> 00:54:46,080

Alright sir.

746

00:54:46,080 --> 00:54:57,080

And the third quick question, is there any organization that the average citizen like myself could join to receive more information on the UFOs?

747

00:54:57,080 --> 00:54:58,080

Join NICAP.

748

00:54:58,080 --> 00:54:59,080

NICAP.

749

00:54:59,080 --> 00:55:00,080

How simple is that?

750

00:55:00,080 --> 00:55:04,080

Sure you can join the organization that all of our guests this evening are members of.

751

00:55:04,080 --> 00:55:09,080

NICAP National Investigation Committee on Aerial Phenomenon, and we'll give you the address.

752

00:55:09,080 --> 00:55:11,080

Once we talk with Major Keogh, again Major?

753

00:55:11,080 --> 00:55:12,080

Yes.

754

00:55:12,080 --> 00:55:13,080

Alright.

755

00:55:13,080 --> 00:55:16,080

The first two gentlemen named are pretty well known to us.

756

00:55:16,080 --> 00:55:20,080

I'm sorry, but we simply cannot accept their reports.

757

00:55:20,080 --> 00:55:29,080

Mr. Adamsky and a number of cases have made reports which we have found to be contrary to facts.

758

00:55:29,080 --> 00:55:40,080

As far as the photographs are concerned, the Olingham photo is still to be seen and it merely shows that the back of a man from some other world walking away from the camera,

759

00:55:40,080 --> 00:55:43,080

well it could be the back of anyone for that concern.

760

00:55:43,080 --> 00:55:57,080

Now the Adamsky photos, which are supposed to be a very active spaceship, have been examined by very careful photographers and experts in this field and none of them have accepted them.

761

00:55:57,080 --> 00:56:13,080

Now one of these is Mr. Frank Edwards, the noted TV commentator, and he on the air told Mr. Adamsky that the pictures were fake and that he would be glad to have him sue him at any time for saying so.

762

00:56:13,080 --> 00:56:16,080

And nobody has come forth with any suit.

763

00:56:16,080 --> 00:56:24,080

And no matter, aside from that, that angle, I don't think that you can accept evidence of this kind to simply not back up.

764

00:56:24,080 --> 00:56:26,080

The films don't stand up.

765

00:56:26,080 --> 00:56:34,080

Now the second question about the moon bridge, that was given to us by a British astronomer, an expert on the moon,

766

00:56:34,080 --> 00:56:44,080

deciding of the screen structure or something up there which appeared like a bridge across this area was confirmed in this country by a number of astronomers.

767

00:56:44,080 --> 00:56:52,080

Most of them are known as amateurs, which means they may have been astronomers for 30 years, but they don't get paid for it.

768

00:56:52,080 --> 00:56:59,080

Most of the government agencies have denied that there is such a structure there, but something

rather had appeared in that area.

769

00:56:59,080 --> 00:57:09,080

Now the third question, anyone who is interested in obtaining information, particularly in regard to this seven year report which we are about to put out,

770

00:57:09,080 --> 00:57:23,080

can get this by writing to NICAP, NICAP, National Investigations Committee on Aerophenomena, short NICAP 1536 Connecticut Avenue, Washington DC.

771

00:57:23,080 --> 00:57:30,080

This is an organization of citizens all over the country and in about 25 foreign countries,

772

00:57:30,080 --> 00:57:38,080

Cyrus, military men, pilots, astronomers, observers, people of all types, professions and traits and so on.

773

00:57:38,080 --> 00:57:45,080

And it's headed by a board of governors, some of the rear admirals, Carlton and so forth on down, scientists, technicians.

774

00:57:45,080 --> 00:57:50,080

When I said on down, I wasn't downgrading people who are up to the rank of rear admirals.

775

00:57:50,080 --> 00:57:57,080

And they examine these cases and these things are analyzed, the cases reports from veteran observers,

776

00:57:57,080 --> 00:58:02,080

and you finally reach a conclusion. The conclusion by the majority of the board has been so far.

777

00:58:02,080 --> 00:58:09,080

These are the two real and other intelligent control. And some very amazing information will come out in this report within the next few weeks.

778

00:58:09,080 --> 00:58:19,080

As again, anyone who is interested or anyone who has a citing report that he has been keeping under wraps, we would like very much to have at this same address.

779

00:58:19,080 --> 00:58:23,080

All right. Our WBZ contact number is Hong Kong when 45678.

780

00:58:23,080 --> 00:58:29,080

Just a quick reminder that this portion of contact is being brought to you in cooperation with Boston University.

781

00:58:29,080 --> 00:58:32,080

Let's take another phone call. Bob Kennedy, you're in contact. You're on the air.

782

00:58:32,080 --> 00:58:48,080

This is Nelson Hayes. Unlike Mrs. Boyd, I am somewhat less charitable in my view of the possibility that all of these sightings can be explained as natural phenomena.

783

00:58:48,080 --> 00:58:58,080

Specifically, I'm concerned about, and this is what I'd like your guest to comment on, the number of people, and I wouldn't recommend them,

784

00:58:58,080 --> 00:59:09,080

who have in one way or another profited through publicity or through money by publicizing the existing terrifying sources.

785

00:59:09,080 --> 00:59:17,080

There is, for example, one man who publishes a magazine exclusively devoted to this and he makes a living from it.

786

00:59:17,080 --> 00:59:35,080

I'm reminded of other frauds and fallacies such as the TARDIS giant, or Ron Hubbard's Dianetics, various mispolice, misconceptions that have been foisted over public for, as I say, publicity and profit.

787

00:59:35,080 --> 00:59:43,080

The fact that a man publishes a magazine for profit concerning a certain field certainly should not condemn him for doing that.

788

00:59:43,080 --> 00:59:50,080

We have hundreds of scientific publications that are published for profit and they do deal with scientific subjects.

789

00:59:50,080 --> 00:59:57,080

Can you condemn those people because they are making money from it simply because they are dealing with a scientific subject?

790

00:59:57,080 --> 01:00:03,080

Do you condemn this one man for the same reason that he's published it for profit? Should he do it for non-profit?

791

01:00:03,080 --> 01:00:13,080

No, of course not. I'm being allowed now to answer this question. In this case, however, the individual involved had been a publisher of a science fiction magazine.

792

01:00:13,080 --> 01:00:25,080

He wrote to death a story based on materials supposedly supplied to him by someone concerning the existence of a law civilization.

793

01:00:25,080 --> 01:00:36,080

Mrs. Lyle Boyd herself is a science fiction writer and she has published this book. No doubt it was published for profit, not just to make a declaration of what they believe.

794

01:00:36,080 --> 01:00:45,080

And I'm sure I at least hope that they are making a profit. It's an interesting book and I think it should be read. Are you going to condemn her because she wants to make a profit from her activity?

795

01:00:45,080 --> 01:00:51,080

No, let's get this clear. I am talking about people who essentially either make a living from this.

796

01:00:51,080 --> 01:00:56,080

Right. I'm sure that Mrs. Boyd has made a living from her science fiction writing.

797

01:00:56,080 --> 01:01:00,080

Well, I'm sure as a matter of fact she hasn't. But that is not the end of it.

798

01:01:00,080 --> 01:01:05,080

Well, I think she's living and I have met her and she seemed to be living fairly well from all I could see.

799

01:01:05,080 --> 01:01:13,080

And science fiction writing for Mrs. Boyd is an avocation. Certainly it's not her vocation. But this is not the point I'm trying to make.

800

01:01:13,080 --> 01:01:27,080

What I'm trying to make is the desire obviously of many people to publicize supposed sightings for the purpose of getting their names in the paper or for getting on the radio or on television.

801

01:01:27,080 --> 01:01:33,080

If they're in the business of publication or if they are in the business of publishing, then it seems to me that that is their business.

802

01:01:33,080 --> 01:01:40,080

If they were to turn down the sightings, they would be very foolish. It seems to me plain idiots.

803

01:01:40,080 --> 01:01:52,080

Well, what I'm trying to open here is the question as to whether any of these people who supposedly

have seen flying saucers are deliberately fabricating.

804

01:01:52,080 --> 01:01:55,080

I think this is an essential question.

805

01:01:55,080 --> 01:02:05,080

Well, there are hundreds of thousands of documented sightings that have been reported and tens of thousands, I would say, that have been investigated.

806

01:02:06,080 --> 01:02:15,080

And there must be a lot of crackpots in the world if all of these people are making these just for fraud or for publicity's sake.

807

01:02:15,080 --> 01:02:19,080

I can't believe that there are that many crazy people in the world who are out in the streets.

808

01:02:19,080 --> 01:02:24,080

Now, if these were coming from institutions, I would understand it more easily.

809

01:02:24,080 --> 01:02:29,080

But it seems to me that these people are simply revealing what they have seen.

810

01:02:29,080 --> 01:02:41,080

And for every person who is making a profit from it, I would say that you could find a thousand sightings and publications of sightings where the person is making no profit, has nothing whatsoever to gain from it.

811

01:02:41,080 --> 01:02:55,080

I think the gentleman's point was not that necessarily all of these people were in it for the sheer profit, but that there would possibly be a percentage of people who were continuing to keep UFO before the public because it did give them a rather lucrative livelihood.

812

01:02:55,080 --> 01:03:17,080

Well, the UFO's subject is before the public and they're not trying to keep it before the public, they're simply trying to reflect a situation that exists and it seems to me they're doing that in the same way that a scientific publication or a biological publication or a medical publication or a news publication keeps the news before the public or keeps the subject that they are interested in before the public.

813

01:03:18,080 --> 01:03:23,080

Gentlemen, we'll continue our discussion in just a moment. Our numbers are Gokwin 4, 5, 6, 7, 8.

814

01:03:23,080 --> 01:03:37,080

A quick reminder this Thursday night on Contact, we're going to be talking about the activity in Cuba, the activity that is supposed to be coming up this week, the activity that has already taken place for the increased activity that will be taking place as of Wednesday.

815

01:03:37,080 --> 01:03:41,080

We'll be talking about that with two gentlemen from Alpha 66.

816

01:03:41,080 --> 01:03:51,080

That'll be coming up Thursday night on Contact. Our next phone call in just a moment, but if you're planning a trip to the fabulous New York World's Fair, well, have you tried making hotel reservations?

817

01:03:51,080 --> 01:03:58,080

It's a fact that many who have tried are finding it difficult to be guaranteed reservations. Now, here's a suggestion with a guarantee.

818

01:03:58,080 --> 01:04:06,080

World's Fair Tours Incorporated offers an all-expense package plan weekend tours that you just cannot match yourself.

819

01:04:06,080 --> 01:04:21,080

Think of it. Round-trip rail transportation from Boston, two nights at the air-conditioned Hotel New Yorker, transportation to the fair, two admissions to the fair, an hour-and-a-half glass topped bus tour of the fair, a thrilling monorail ride, baggage gratuities and taxes.

820

01:04:21,080 --> 01:04:35,080

Yes, a full delightful weekend at the fair, and this complete package costs just \$45 per person.

Not only is this \$45 lower than you could arrange for yourself, but this is the way to be certain of hotel reservations.

821

01:04:35,080 --> 01:04:47,080

You can reserve right now for the May 15th and May 29th weekend by calling Hubbard 20060. That's Hubbard 20060. Operators are waiting for your call.

822

01:04:47,080 --> 01:04:59,080

For full information, without obligation, call Hubbard 20060 or write for a free brochure describing the special World's Fair package tour for just \$45 to box 103 Boston 34 Massachusetts.

823

01:04:59,080 --> 01:05:12,080

Remember, you can call for reservations on the May 29th weekend, and there'll be other weekends coming up throughout the summer. So you call for information, the number Hubbard 20060 or write box 103 Boston 34.

824

01:05:12,080 --> 01:05:15,080

This is Bob Kennedy. You're on contact now. You're on the air.

825

01:05:15,080 --> 01:05:17,080

Hello, Bob. I'd like to ask two questions.

826

01:05:17,080 --> 01:05:18,080

Yes, sir?

827

01:05:18,080 --> 01:05:25,080

The first one is, do the jets that try to intercept these unidentified flying objects, are they specially equipped with cameras or anything like that?

828

01:05:25,080 --> 01:05:26,080

All right, sir. What's your other question?

829

01:05:26,080 --> 01:05:35,080

Second of all, does the government itself, not the Air Force, employ people to cover the world and find out information about any sightings or anything?

830

01:05:35,080 --> 01:05:38,080

All right, five. Thank you so much for calling. Major Keyhole.

831

01:05:38,080 --> 01:05:48,080

Well, the first question about jets. Some of them have gun cameras. Not all jet interceptors have that equipment, but many of them do.

832

01:05:48,080 --> 01:06:01,080

And a number of them have been able to take pictures of objects they were pursuing. Those with any detail have not been released. We've seen several that show around objects at some distance ahead of the jets.

833

01:06:01,080 --> 01:06:15,080

This is a second question. The Air Force is to sign the responsibility of investigating UFOs. However, according to Major C.R. Hart, who was the spokesman on UFOs some time ago, about a year ago,

834

01:06:15,080 --> 01:06:29,080

the Air Force employs the services of scientists in many government agencies. It has access to all laboratories for example, evaluating material and analyzing it.

835

01:06:29,080 --> 01:06:43,080

It uses the FBI to check up on the people, find out whether they're reputable witnesses and so on. So you could say that there are thousands of people in the United States government who do take part in this UFO investigation.

836

01:06:43,080 --> 01:06:46,080

All right, this is Bob Kennedy. You're in contact. You're on the air.

837

01:06:46,080 --> 01:06:49,080

Thank you. I'd like to ask Mr. Webb this question if I may.

838

01:06:49,080 --> 01:06:50,080

Sure.

839

01:06:50,080 --> 01:07:00,080

Could you tell me if during our lifetime that we will ever witness a large-scale meeting of these, of our own human beings with these outer space creatures?

840

01:07:00,080 --> 01:07:02,080

All right, Walter.

841

01:07:02,080 --> 01:07:18,080

Well, I suppose it's possible if you go along with the theory that they're interplanetary or interstellar spacecraft. Perhaps from the looks of it now, they seem to be landing when they land, sort of in out-of-the-way places with the purpose of not having open contact with us.

842

01:07:18,080 --> 01:07:26,080

Perhaps they're waiting until we can meet them on their own level. We certainly have a long way to go. We haven't even achieved a trip to the moon.

843

01:07:26,080 --> 01:07:38,080

Now, perhaps they might extend the hand of greeting out to us after we have proven that we can land

on another object in space. It might not even be the moon. It might have to be the planet Mars, let's say.

844

01:07:38,080 --> 01:07:44,080

And then we can perhaps show that we can do this in peace. Perhaps then they might want to contact us.

845

01:07:44,080 --> 01:07:47,080

Do you feel this will happen in your lifetime?

846

01:07:48,080 --> 01:08:05,080

Well, that's a good question. I really don't know. I think a lot of it has to do with how our government and the governments of the world treat them. As we've all pointed out here tonight, we seem to give every intention of hostile activity ourselves.

847

01:08:05,080 --> 01:08:14,080

If these creatures do exist and if they do come from outer space, now this man from New York State said that they were taking samplings of the earth.

848

01:08:14,080 --> 01:08:24,080

M.A. Michel in his book called Flying Saucers in the Straight Line Mystery made a study of the sightings that had been made in Europe, particularly in France.

849

01:08:24,080 --> 01:08:35,080

And he discovered that when there was a sighting at one place in France, usually the same day or very shortly thereafter, oftentimes the same day, there would be a sighting in various parts of France.

850

01:08:35,080 --> 01:08:46,080

And if you drew a line from the place where the sighting was reported in one area to the sighting in another, you would find that it made a straight line right across France and part of Europe.

851

01:08:46,080 --> 01:09:04,080

And then a very interesting part of his theory is that when there would be a group of sightings again, that the group of sightings, when they were lined up, the second group of sightings would intercept the first group of sightings,

852

01:09:04,080 --> 01:09:12,080

so that there was an actual intersection of those two, which would seem to indicate that they were making a survey of the earth.

853

01:09:12,080 --> 01:09:23,080

And it could be that they are trying to find out things about the earth and observing and do not want to make too much of a contact with us until they know whether or not we are going to be hostile to them,

854

01:09:23,080 --> 01:09:33,080

because I believe that they have been fired on at times and they have been chased and if they exist

and if they are intelligent, certainly they want to know more about us

855

01:09:33,080 --> 01:09:37,080

before they contact us in such a way that would be a danger for them.

856

01:09:37,080 --> 01:09:41,080

This is Bob Kennedy. You're on contact. You're on the air. Hello?

857

01:09:41,080 --> 01:09:42,080

Hello?

858

01:09:42,080 --> 01:09:43,080

Yes.

859

01:09:43,080 --> 01:09:46,080

I have a bulletin in front of me from NYCAP. I'm a NYCAP member.

860

01:09:46,080 --> 01:09:47,080

All right.

861

01:09:47,080 --> 01:09:55,080

And it says that ABC TV is planning a national series of feature programs on UFOs and has requested NYCAP's help.

862

01:09:55,080 --> 01:10:00,080

Now, I was wondering, it just tells vaguely here what the date of this program will be.

863

01:10:00,080 --> 01:10:07,080

I was wondering if Major Kehoe could kind of fill me in on who's sponsoring this and what the more definite date will be.

864

01:10:07,080 --> 01:10:09,080

All right, sir. Fine. Major Kehoe?

865

01:10:09,080 --> 01:10:20,080

Well, it isn't completely worked out. ABC asked us if we would cooperate and we certainly would with them or any other network or any independent station.

866

01:10:20,080 --> 01:10:28,080

They said they would start the series as quickly as possible. They're working on it. They're getting a lot of information and as soon as possible,

867

01:10:28,080 --> 01:10:31,080

I will have them make an announcement of the date ahead of time.

868

01:10:31,080 --> 01:10:36,080

But I don't think it'll be within the next two weeks. It's probably to be sometime after that.

869

01:10:36,080 --> 01:10:39,080

Gentlemen, we'll continue our discussion and just a moment.

870

01:10:39,080 --> 01:10:44,080

And a reminder that the past portion of contact has been brought to you in cooperation with Boston University.

871

01:10:44,080 --> 01:10:56,080

This is Bob Kennedy. You're in contact now. You're on the air.

872

01:10:56,080 --> 01:10:57,080

Hello, Bob.

873

01:10:57,080 --> 01:10:58,080

Yes, sir.

874

01:10:58,080 --> 01:10:59,080

This is Chris Paywood out in Needham.

875

01:10:59,080 --> 01:11:00,080

Yes.

876

01:11:00,080 --> 01:11:03,080

And I'd like to ask a question about my science teacher, Mr. Flynn.

877

01:11:03,080 --> 01:11:10,080

He claims that within 20 years, approximately, that we will be destroyed by other intelligent beings,

878

01:11:10,080 --> 01:11:14,080

either by contamination or else by antimatter.

879

01:11:14,080 --> 01:11:19,080

And he definitely claims that we will not see the turn of the century. I wonder if one of your guests could comment on this.

880

01:11:19,080 --> 01:11:22,080

Okay, I'm sure your science teacher, Mr. Flynn, would like very much to comment on that.

881

01:11:22,080 --> 01:11:26,080

Whether or not he said this in the classroom, I hope you're not kidding us here, fella.

882

01:11:26,080 --> 01:11:32,080

Because it could be kind of embarrassing for Mr. Flynn, if not, well, we'll offer Mr. Flynn equal time some night if it's not true.

883

01:11:32,080 --> 01:11:35,080

But gentlemen, do you have any feelings on this particular one?

884

01:11:35,080 --> 01:11:39,080

Well, as far as I have been able to determine from my reading of the structure of the atom,

885

01:11:39,080 --> 01:11:45,080

I don't think that we're in any danger from the destruction from antimatter as such.

886

01:11:45,080 --> 01:11:51,080

And not in our lifetime or in any foreseeable time in the future.

887

01:11:51,080 --> 01:11:54,080

This is Bob Kennedy. You're in contact. You're on the air.

888

01:11:54,080 --> 01:12:04,080

Good evening. Could one of your guests tell me if any of the people who have sighted these objects have been found to have ESP or any other extraordinary sensory powers,

889

01:12:04,080 --> 01:12:11,080

which would make these things more visible to them than to people without these powers?

890

01:12:11,080 --> 01:12:15,080

Alright, ma'am. Fine. Maybe we'll ask Major Kehoe about one. How about that, Major?

891

01:12:16,080 --> 01:12:26,080

Well, we've had a few reports from people who seem to be solid citizens who have apparently ESP to a certain extent,

892

01:12:26,080 --> 01:12:33,080

and they've reported being aware of UFO approaches before they actually landed and were sighted.

893

01:12:33,080 --> 01:12:36,080

Now, we have never been able to prove any of these cases.

894

01:12:36,080 --> 01:12:47,080

However, I would say that 95% or even 99% of the verified factual evidence we have comes from trained aerial observers like the pilots,

895

01:12:47,080 --> 01:12:50,080

and the four tractors, and others that I mentioned while we go.

896

01:12:50,080 --> 01:12:56,080

Now, this isn't discrediting people with ESP, but because it is such a controversial subject,

897

01:12:56,080 --> 01:13:02,080

we have not used any of those reports in our forthcoming seven-year analysis.

898

01:13:02,080 --> 01:13:05,080

Okay, sir. Bob Kennedy, you're in contact. You're on the air.

899

01:13:05,080 --> 01:13:12,080

Yes, sir. My name is Joe Boudina, and I'm heading East Coast Advertising boss in Massachusetts.

900

01:13:12,080 --> 01:13:16,080

Yes, that's everyone's knife for free commercial messages now. What's yours?

901

01:13:16,080 --> 01:13:23,080

Yes, and see, one of our trademarks under which we are operating is Skylight.

902

01:13:23,080 --> 01:13:40,080

And to reply to Mr. Hayes, a major keyhole, and if you are interested in members of this, you know, who are operating with the UFO and identify flying objects,

903

01:13:40,080 --> 01:13:54,080

and actually to bring the technical subject up to date, before we fly, in other words, we are flying aircraft, which has a special sign underneath the aircraft,

904

01:13:54,080 --> 01:13:57,080

and we're spelling a commercial message in nighttime.

905

01:13:57,080 --> 01:13:58,080

Uh-huh.

906

01:13:58,080 --> 01:14:04,080

And you mean it's like an aircraft that goes around with a message in lights underneath it, huh?

907

01:14:04,080 --> 01:14:11,080

This is something new which just came out a couple years ago, and I'm a technical director of this whole operation.

908

01:14:11,080 --> 01:14:14,080

Yeah, and you think that some people might be seeing this and assuming it's a UFO?

909

01:14:14,080 --> 01:14:16,080

Possibly, yes.

910

01:14:16,080 --> 01:14:18,080

Well good. Where does this thing fly around now? What are you?

911

01:14:18,080 --> 01:14:28,080

Well, not right now, but we are operating from the Manchester and Massachusetts area along an airport.

912

01:14:28,080 --> 01:14:40,080

I have seen some of these planes with the night lights, and they are quite spectacular. The lights will come on and go off, and there are some people who are excited by them.

913

01:14:40,080 --> 01:14:54,080

I think though that if anyone is close enough to them that they get a good look at it, that they wouldn't be in any doubt in their mind, but what these were from some place on Earth and readily recognizable as being advertising.

914

01:14:54,080 --> 01:14:56,080

Mr. Bodino, I think you might recall me.

915

01:14:56,080 --> 01:15:05,080

Last summer I made a study of these reports, and I called your firm up, and you were very helpful in this, and some of the reports did turn out to be these skylight advertising planes.

916

01:15:05,080 --> 01:15:07,080

In fact, I saw a number of them myself.

917

01:15:07,080 --> 01:15:13,080

Gentlemen, we have just about run out of time. I'd like to say to Major Keyhole, thank you so much for joining us tonight down there in Virginia Major.

918

01:15:13,080 --> 01:15:14,080

It's been a great pleasure.

919

01:15:14,080 --> 01:15:26,080

And I hope after this report comes out that you're able to make a trip up to Boston. We'd like to have you across the table from us some evening in person, and we'll discuss this report and talk about this fascinating subject once again of UFO.

920

01:15:26,080 --> 01:15:27,080

We'd like to very much.

921

01:15:27,080 --> 01:15:34,080

Okay, well, let's evade then. Maybe in a month or so we'll have you up here. Get that report out. We'll be very interested in seeing. Send us a copy, please.

922

01:15:34,080 --> 01:15:36,080

Okay, thank you so much.

923

01:15:36,080 --> 01:15:40,080

Walt Webb, thank you again for joining us tonight on Contact and Streeter Stewart.

924

01:15:40,080 --> 01:15:44,080

Thank you for being our guest and taking time out from your busy duties with WBC News.

925

01:15:44,080 --> 01:15:54,080

Tonight we've been talking about UFO. Tomorrow night on Contact we'll be talking about the John Burt Society Anatomy of Protest, the title of a book by J. Alan Royles.

926

01:15:54,080 --> 01:15:57,080

Contact is produced by Squire D. Rushnell.
