

1

00:00:00,000 --> 00:00:07,000

Major Keel is a graduate of the U.S. Naval Academy, Annapolis.

2

00:00:07,000 --> 00:00:12,000

You're an aircraft and balloon pilot.

3

00:00:12,000 --> 00:00:17,000

You're a pilot.

4

00:00:17,000 --> 00:00:21,000

You're a pilot.

5

00:00:21,000 --> 00:00:24,000

You're a pilot.

6

00:00:24,000 --> 00:00:29,000

Major Keel is a graduate of the U.S. Naval Academy, Annapolis.

7

00:00:29,000 --> 00:00:32,000

You're an aircraft and balloon pilot in the Marines.

8

00:00:32,000 --> 00:00:36,000

You were a lecturer, author of four books about UFOs.

9

00:00:36,000 --> 00:00:38,000

Is that right? That's correct.

10

00:00:38,000 --> 00:00:42,000

And you are currently the director of NICAP.

11

00:00:42,000 --> 00:00:44,000

NICAP.

12

00:00:44,000 --> 00:00:48,000

Yes, National Investigations Committee on Aerophenomena.

13

00:00:48,000 --> 00:00:52,000

The National Investigations Committee on Aerophenomena, NICAP.

14

00:00:52,000 --> 00:00:58,000

Okay, Colonel Brian is a graduate of Princeton, a former special assistant to the secretary of the Air Force.

15

00:00:58,000 --> 00:01:01,000

Air Force, what did I say, Air Force?

16

00:01:01,000 --> 00:01:04,000

I was in it for four years. Can you imagine that? I'm mispronouncing it already.

17

00:01:04,000 --> 00:01:10,000

A distinguished magazine editor and writer, and he's an editor for Town and Country Saturday Evening Post.

18

00:01:10,000 --> 00:01:13,000

So you know that these gentlemen are not just,

19

00:01:13,000 --> 00:01:16,000

I saw one over there, mind that.

20

00:01:16,000 --> 00:01:19,000

Well, there goes another one.

21

00:01:19,000 --> 00:01:24,000

That's not that time. These are distinguished gentlemen who really believe that there are such things as

22

00:01:24,000 --> 00:01:28,000

extraterrestrial explorations of our planet.

23

00:01:28,000 --> 00:01:30,000

That's correct. You really believe that?

24

00:01:30,000 --> 00:01:36,000

We agree with the Air Force. They have a top secret conclusion that these thousands of optics have been seen by pilots,

25

00:01:36,000 --> 00:01:40,000

and, in fact, by radar are real, and they're superior to anything we have,

26

00:01:40,000 --> 00:01:43,000

so there's, from somewhere, there's just a little head of us.

27

00:01:43,000 --> 00:01:46,000

You agree with that statement? There. Completely.

28

00:01:46,000 --> 00:01:49,000

Always. Always, always.

29

00:01:49,000 --> 00:01:53,000

Well, you charge that the Air Force has been suppressing information,

30

00:01:53,000 --> 00:01:55,000

deliberately withholding back facts about...

31

00:01:55,000 --> 00:01:59,000

Oh, that's right. They have an order, Air Force Regulation 200,

32

00:01:59,000 --> 00:02:05,000

which orders anyone in the Air Force to withhold information unless they're okayed by headquarters.

33

00:02:05,000 --> 00:02:13,000

Well, the information about... I was a pilot in the Air Force for four years.

34

00:02:13,000 --> 00:02:16,000

Well, it was Apollo 3, which took me a year to learn how.

35

00:02:16,000 --> 00:02:22,000

That's all right. That's the right time. The right length of time.

36

00:02:22,000 --> 00:02:27,000

And I never heard anything about... I never heard anybody ever tell me that if I spotted something,

37

00:02:27,000 --> 00:02:29,000

I couldn't tell anybody about it.

38

00:02:29,000 --> 00:02:31,000

Well, what time was that? What year?

39

00:02:31,000 --> 00:02:40,000

My pilot training class was 57.0, which means I got my wings in 1957, and I flew through 61.60.

40

00:02:40,000 --> 00:02:44,000

Well, the order was in effect then, but it wasn't probably circulated widely.

41

00:02:44,000 --> 00:02:48,000

Oh. We have a copy of it, just in case you're curious to see it.

42

00:02:48,000 --> 00:02:51,000

Mr. Crane, you know your producer has seen one. Did you know that?

43

00:02:51,000 --> 00:02:54,000

My producer has seen one?

44

00:02:54,000 --> 00:02:59,000

First of all, it's not my... I think you told him about Mr. Norman Clement of our staff.

45

00:02:59,000 --> 00:03:00,000

Yes?

46

00:03:00,000 --> 00:03:05,000

Who, A, is not my producer, forgive me, I didn't know.

47

00:03:05,000 --> 00:03:08,000

And B, is a little weird.

48

00:03:08,000 --> 00:03:15,000

He is just a little bit funny.

49

00:03:15,000 --> 00:03:18,000

You know what I mean, so I know.

50

00:03:18,000 --> 00:03:22,000

Are we humor? I mean, we don't... As a matter of fact, if he's around,

51

00:03:22,000 --> 00:03:28,000

he may be coming out to get me, or they may be coming to get him.

52

00:03:28,000 --> 00:03:35,000

Okay, do we show the slides first, or do we have the commercial first? What's the plan?

53

00:03:35,000 --> 00:03:39,000

We have got pictures. What are you doing? We have the commercial first.

54

00:03:39,000 --> 00:03:41,000

That's his letter.

55

00:03:41,000 --> 00:03:45,000

We have some pictures of some... You know, you figure it out.

56

00:03:45,000 --> 00:03:48,000

We've got some pretty strange pictures to show you in about a minute from right now.

57

00:03:48,000 --> 00:03:53,000

Okay, we're going to show you some slides, photos of the kind of aerial phenomena we're talking about.

58

00:03:53,000 --> 00:03:56,000

It's up to you make up your own mind, all the UFOs,

59

00:03:56,000 --> 00:04:01,000

kneecap supply this with them, and the thighcap.

60

00:04:01,000 --> 00:04:05,000

I like kneecap better, you know that?

61

00:04:05,000 --> 00:04:09,000

That's a much, much catchier way of, you know, however.

62

00:04:09,000 --> 00:04:12,000

And I think they'll show up pretty well on your TV.

63

00:04:12,000 --> 00:04:17,000

First, this is a picture taken May 11, 1950, by Paul Trent in McKinville, Oregon.

64

00:04:17,000 --> 00:04:21,000

It was examined and published by Life Magazine, and Life described them as an honest individual,

65

00:04:21,000 --> 00:04:25,000

and said the negative appeared to be untampered with.

66

00:04:25,000 --> 00:04:29,000

Here's another picture taken by... Here's another picture.

67

00:04:29,000 --> 00:04:34,000

Here's another picture taken by Paul Trent, the famous Paul Trent in Oregon.

68

00:04:34,000 --> 00:04:37,000

Okay, August 1951, the next page.

69

00:04:37,000 --> 00:04:39,000

I can even use those clickers, you know that?

70

00:04:39,000 --> 00:04:41,000

I can slide shows, change the slide.

71

00:04:41,000 --> 00:04:46,000

Okay, August 1951, one of the most famous American UFO sightings in Lubbock, Texas.

72

00:04:46,000 --> 00:04:53,000

The photo was taken by Carl Hart Jr. of a V-shaped light formation known as the Lubbock Lights.

73

00:04:53,000 --> 00:04:57,000

The Air Force said it was light reflected from a high-flying bird.

74

00:04:57,000 --> 00:04:59,000

That's pretty weird.

75

00:04:59,000 --> 00:05:09,000

Okay, here's an official U.S. Coast Guard photo taken by Shell Alpert in the Salem, Massachusetts Coast Guard Station in 1952.

76

00:05:09,000 --> 00:05:15,000

He watched bright lights in the sky, watched them for a few seconds more, called in another Coast Guard'sman,

77

00:05:15,000 --> 00:05:17,000

and then took this picture.

78

00:05:17,000 --> 00:05:23,000

In 1964, the Coast Guard added this note to their caption on the picture saying they have no further information

79

00:05:23,000 --> 00:05:30,000

or explanation to add concerning this photograph and no official opinion as to the identity or origin of the lights.

80

00:05:30,000 --> 00:05:33,000

Now, here's a surprise. Take a look at this.

81

00:05:33,000 --> 00:05:39,000

This photograph was published in the official organ of the Royal Air Force, the RAF Flying Review,

82

00:05:39,000 --> 00:05:47,000

which the magazine said seemed one of the few photographs of UFOs that does appear to be authentic.

83

00:05:47,000 --> 00:05:59,000

This photograph was taken in Royal, France in 1954, and it looks identical with a Paul Trent photo we already showed you taken thousands of miles away four years earlier.

84

00:05:59,000 --> 00:06:05,000

Let's go back and show you the Paul Trent picture, the one before that.

85

00:06:05,000 --> 00:06:09,000

The one before. We can't do it.

86

00:06:09,000 --> 00:06:11,000

Well, all right.

87

00:06:11,000 --> 00:06:13,000

Good.

88

00:06:13,000 --> 00:06:20,000

Now, here are a couple of pictures that were taken in 1957 over Fujisawa in Japan.

89

00:06:20,000 --> 00:06:24,000

NICAP isn't very strong on these, right, Major? You don't touch right.

90

00:06:24,000 --> 00:06:27,000

You feel they're the most dubious of the samples that you brought,

91

00:06:27,000 --> 00:06:30,000

but we thought we'd include them anyway to spell out the time.

92

00:06:30,000 --> 00:06:37,000

Here's a long-awaited shot of a Japanese capsule sighting, and here's a close-up of it.

93

00:06:37,000 --> 00:06:39,000

That could be anything, you know that?

94

00:06:39,000 --> 00:06:40,000

It certainly could.

95

00:06:40,000 --> 00:06:41,000

That could really be anything.

96

00:06:41,000 --> 00:06:43,000

Okay, back to our country.

97

00:06:43,000 --> 00:06:53,000

Here's a photograph taken on the Pacific Coast near San Pedro, California on December 1957 by radio officer T. Fogle aboard the British ship SS Ramsey.

98

00:06:53,000 --> 00:07:03,000

And a series of pictures taken off Brazil, the Trinidadis Islands, as the unidentified flying object was in motion.

99

00:07:03,000 --> 00:07:10,000

These pictures were taken by a marine photographer on a Brazilian ship participating in the International Geophysical Year.

100

00:07:10,000 --> 00:07:12,000

I can hardly see anything there.

101

00:07:12,000 --> 00:07:16,000

Oh, I see, up in the corner. Okay.

102

00:07:16,000 --> 00:07:19,000

I see. Oh, look at those. There's a whole bunch of them.

103

00:07:19,000 --> 00:07:21,000

There's only one of them.

104

00:07:21,000 --> 00:07:25,000

Oh, I'm looking at the clouds. I just thought I spotted four of them.

105

00:07:25,000 --> 00:07:28,000

It's contagious. I think that's enough, right?

106

00:07:28,000 --> 00:07:30,000

Oh, wait a minute. There's one I do want to show you.

107

00:07:30,000 --> 00:07:32,000

Can you skip down to slide number 16?

108

00:07:32,000 --> 00:07:35,000

Can you cut through the chain to slide number 16?

109

00:07:35,000 --> 00:07:39,000

That's not it.

110

00:07:39,000 --> 00:07:42,000

Okay, now this is interesting.

111

00:07:42,000 --> 00:07:52,000

An aircraft company that we cannot name took this picture as a promotion picture for this airplane, the B-57, but they never published it.

112

00:07:52,000 --> 00:07:59,000

And the reason why they never published it is because in the upper right-hand corner, there is something that showed up on the print of the picture,

113

00:07:59,000 --> 00:08:03,000

which you can't see in this picture, which we'll show you right now.

114

00:08:03,000 --> 00:08:09,000

This is a blow-up of the upper right-hand corner of that picture of the B-57 airplane.

115

00:08:09,000 --> 00:08:18,000

And this picture was only recently submitted to MyCap, which estimates that it was taken between

1958 and 1960.

116

00:08:18,000 --> 00:08:21,000

Okay, that's enough.

117

00:08:21,000 --> 00:08:26,000

I think this has more weight to it than all the photographs that you might show.

118

00:08:26,000 --> 00:08:36,000

The official Air Force Intelligence sketch based on 3,000 reports was described, UFO, was just disc-shaped objects,

119

00:08:36,000 --> 00:08:40,000

apparently metallic, which can maneuver speeds up to thousands of miles an hour.

120

00:08:40,000 --> 00:08:43,000

Now that was circulated secretly to all Air Force intelligence agencies.

121

00:08:43,000 --> 00:08:48,000

It's the very same time the Air Force stated they had no idea what these things looked like.

122

00:08:48,000 --> 00:08:49,000

Okay.

123

00:08:49,000 --> 00:08:54,000

That not only proves the secrecy, but also that they have a very good idea what these things are.

124

00:08:54,000 --> 00:09:00,000

Well, all I can tell you, all I can reiterate again is that for the four years that I was in the Air Force and a pilot,

125

00:09:00,000 --> 00:09:03,000

and I had a secret clearance and all the rest of it, I never...

126

00:09:03,000 --> 00:09:12,000

Well, now, one thing you don't realize, probably this document here, the UFO alienates, is based on an eight-year investigation.

127

00:09:12,000 --> 00:09:18,000

The Board of Governors in MyCap includes admiral, journalist, colonels, scientists, technicians, pilots,

128

00:09:18,000 --> 00:09:21,000

and over 200 experts in this field.

129

00:09:21,000 --> 00:09:25,000

Many of them have said, sightings, we've investigated over 5,000.

130

00:09:25,000 --> 00:09:32,000

At least a thousand of these represent airline pilots on every major airline, all the services in the United States,

131

00:09:32,000 --> 00:09:34,000

tower operators, missile tractors.

132

00:09:34,000 --> 00:09:39,000

All of these people saw something and sometimes the radar tracking confirmed the visual.

133

00:09:39,000 --> 00:09:40,000

Professional astronomers, too, Misha.

134

00:09:40,000 --> 00:09:41,000

That's right.

135

00:09:41,000 --> 00:09:42,000

Professional astronomers?

136

00:09:42,000 --> 00:09:43,000

Yes, professional astronomers.

137

00:09:43,000 --> 00:09:47,000

That's very interesting, and I'll tell you why that's interesting and I've been it from right now.

138

00:09:47,000 --> 00:09:52,000

Okay, we've heard about UFOs or whatever they are, and I'm going to be neutral for a minute or two more.

139

00:09:52,000 --> 00:10:00,000

However, you mentioned astronomers, reputable astronomers have corroborated your sightings and your document evidences.

140

00:10:00,000 --> 00:10:05,000

I would like to introduce to you now, to my audience, Dr. I.M. Leavitt.

141

00:10:05,000 --> 00:10:07,000

Dr. Leavitt, would you come out here please?

142

00:10:07,000 --> 00:10:13,000

Have you met these gentlemen before?

143

00:10:13,000 --> 00:10:14,000

Thank you.

144

00:10:14,000 --> 00:10:21,000

All right, Dr. Leavitt is the director, gentlemen, the director of the Fells Planetarium in Philadelphia,

145

00:10:21,000 --> 00:10:25,000

probably one of the most famous planetarium in planetarium.

146

00:10:25,000 --> 00:10:28,000

Planetarium, but the people in New York will hate you for this, you know that.

147

00:10:28,000 --> 00:10:32,000

Well, the hating planetarium is a nice planetarium, too.

148

00:10:32,000 --> 00:10:33,000

I'm glad you put up that.

149

00:10:33,000 --> 00:10:39,000

I'm just accrediting you, Dr. and Dr. Leavitt is the director of the Fells down in Philadelphia,

150

00:10:39,000 --> 00:10:41,000

which is a most distinguished planetarium.

151

00:10:41,000 --> 00:10:47,000

And what do you think about all the pictures you just saw and all the evidence in the Major Keyholes book UFO?

152

00:10:47,000 --> 00:10:58,000

Well, I haven't had very much chance to go through this book, but from what I have, there are some very striking examples of taking too much for granted.

153

00:10:58,000 --> 00:11:02,000

Astronomers have seen them in the book we list, too.

154

00:11:02,000 --> 00:11:05,000

Clyde Tombaugh, Seymour Hess.

155

00:11:05,000 --> 00:11:08,000

Clyde Tombaugh did not say he saw a flying saucer.

156

00:11:08,000 --> 00:11:10,000

He said he saw something.

157

00:11:10,000 --> 00:11:14,000

Seymour Hess also said, I saw something.

158

00:11:14,000 --> 00:11:19,000

Now, no one is going to say to you that you do not see anything to go.

159

00:11:19,000 --> 00:11:25,000

To do that is to say the 5,000 people are so who have contributed to this book,

160

00:11:25,000 --> 00:11:29,000

except for those who plant the Liberate Hoaxes and there are those.

161

00:11:29,000 --> 00:11:32,000

Those people are suffering from hallucinations.

162

00:11:32,000 --> 00:11:33,000

We will not say that.

163

00:11:33,000 --> 00:11:36,000

They are seeing something, but what we are saying is,

164

00:11:36,000 --> 00:11:40,000

you describe precisely what you saw in great detail,

165

00:11:40,000 --> 00:11:46,000

and the chances are we can tell you what this was, is the operation of a natural law.

166

00:11:46,000 --> 00:11:56,000

The Air Force has done this in Project Blue Book, and I think 97% of the sightings have been identified and have been explained as the operation of a natural law.

167

00:11:56,000 --> 00:12:02,000

And of course, the first thing, the people who are fostering saucers and who would like to believe,

168

00:12:02,000 --> 00:12:12,000

this may be extraterrestrial life, will say, well, it is not the 97%, I am thinking about it as the 3%.

169

00:12:12,000 --> 00:12:23,000

And my answer to that is it was 99.99, and 49.99, they would say it is that 101%,

170

00:12:23,000 --> 00:12:26,000

that is the bunch that we are talking about, not the others.

171

00:12:26,000 --> 00:12:30,000

And so in an argument like this, you cannot lose.

172

00:12:30,000 --> 00:12:34,000

You must say, these people are seeing something, and the scientists will say,

173

00:12:34,000 --> 00:12:37,000

tell us what you are seeing precisely.

174

00:12:37,000 --> 00:12:40,000

Well, I mean, cut through because we do have a time problem, doctor.

175

00:12:40,000 --> 00:12:47,000

In all your years of looking at pictures, and most of astronomy today is studying photographs, is it not?

176

00:12:47,000 --> 00:12:49,000

Well, in my case, studying the sky.

177

00:12:49,000 --> 00:12:51,000

Okay, and looking at the sky, looking at the sky.

178

00:12:51,000 --> 00:12:52,000

Precisely.

179

00:12:52,000 --> 00:12:58,000

And discussing astronomy and phenomenon with all of your colleagues, have you ever, in your entire career,

180

00:12:58,000 --> 00:13:07,000

ever come across an instance that would lead you to believe that there was an object manufactured on some other planet?

181

00:13:07,000 --> 00:13:08,000

And now in our...

182

00:13:08,000 --> 00:13:15,000

Well, it is not only that I do, and I have never seen it, but I don't know of a single astronomer, other than those two,

183

00:13:15,000 --> 00:13:19,000

and there must be several thousand of them in the country who have seen one,

184

00:13:19,000 --> 00:13:22,000

and you must recall that these people look in the sky every night.

185

00:13:22,000 --> 00:13:27,000

I do, I run an observatory, and I take several hundred people up occasionally,

186

00:13:27,000 --> 00:13:31,000

and I have a point-out constellation, and if there should be a star that doesn't belong there,

187

00:13:31,000 --> 00:13:34,000

I can tell you that there should be a star missing.

188

00:13:34,000 --> 00:13:37,000

I can also tell you that it's a prominent one.

189

00:13:37,000 --> 00:13:38,000

A star has never seen...

190

00:13:38,000 --> 00:13:40,000

Well, it's kind of scary, wouldn't it?

191

00:13:40,000 --> 00:13:46,000

Anyway, this has never happened, but should there be a gap where there should be a star?

192

00:13:46,000 --> 00:13:50,000

The chances are, I would know, for I know the constellation very well.

193

00:13:50,000 --> 00:13:51,000

What you're reacting to...

194

00:13:51,000 --> 00:13:54,000

I'd like to say there are far more than two, doctor.

195

00:13:54,000 --> 00:13:56,000

You're simply not equated with one.

196

00:13:56,000 --> 00:13:57,000

I'm not taking what is in the...

197

00:13:57,000 --> 00:13:58,000

Just tell me, please.

198

00:13:58,000 --> 00:14:02,000

You said that Dr. Hess did not say he saw a UFO heat.

199

00:14:02,000 --> 00:14:06,000

We have a report from him in which he says he saw a powered disk.

200

00:14:06,000 --> 00:14:09,000

If you want to see it, we've got a show to you.

201

00:14:09,000 --> 00:14:12,000

There was another planetarium up in Boston, a hidden planetarium,

202

00:14:12,000 --> 00:14:17,000

one of their staff, Mr. Walter Webb, has a sighting up there which is reported to us.

203

00:14:17,000 --> 00:14:18,000

Dr. James Bartlett...

204

00:14:18,000 --> 00:14:20,000

But what did he report that he reported?

205

00:14:20,000 --> 00:14:22,000

He reported a sighting of a plane.

206

00:14:22,000 --> 00:14:26,000

He reported an object moving at tremendous speed under intelligent control,

207

00:14:26,000 --> 00:14:30,000

making maneuvers, blasters, and titers of anything.

208

00:14:30,000 --> 00:14:31,000

Well, this is...

209

00:14:31,000 --> 00:14:34,000

We have, as I would like to continue, I mean, doctor.

210

00:14:34,000 --> 00:14:35,000

It is...

211

00:14:35,000 --> 00:14:37,000

Well, you are going to build up such a case by the time you are finished.

212

00:14:37,000 --> 00:14:39,000

I'll never know where I want to go.

213

00:14:39,000 --> 00:14:41,000

That's you and the very well, right?

214

00:14:41,000 --> 00:14:42,000

I am just patient.

215

00:14:42,000 --> 00:14:43,000

In any case...

216

00:14:43,000 --> 00:14:44,000

In any case...

217

00:14:44,000 --> 00:14:45,000

Well, as many as much as possible.

218

00:14:45,000 --> 00:14:47,000

I'm not going to get in here, either, right?

219

00:14:47,000 --> 00:14:49,000

Come on, I'm the leader out here.

220

00:14:49,000 --> 00:14:51,000

Follow the leader gang.

221

00:14:51,000 --> 00:14:55,000

Simon says that we only have a minute left.

222

00:14:55,000 --> 00:14:56,000

I know.

223

00:14:56,000 --> 00:14:57,000

I was trying to get half of it.

224

00:14:57,000 --> 00:14:58,000

So, I'll...

225

00:14:58,000 --> 00:14:59,000

No, well...

226

00:14:59,000 --> 00:15:01,000

But I just want to ask the comical number one, is you're...

227

00:15:01,000 --> 00:15:02,000

You have a...

228

00:15:02,000 --> 00:15:04,000

This is a non-profit organization, is it, right?

229

00:15:04,000 --> 00:15:05,000

Washington, D.C.

230

00:15:05,000 --> 00:15:08,000

And we have thousands of reports from people who have had a go-up...

231

00:15:08,000 --> 00:15:09,000

You'll send over.

232

00:15:09,000 --> 00:15:10,000

...to the joint organization.

233

00:15:10,000 --> 00:15:11,000

Oh, no.

234

00:15:11,000 --> 00:15:12,000

Fifty-five years ago.

235

00:15:12,000 --> 00:15:13,000

Fifty-five years ago.

236

00:15:13,000 --> 00:15:14,000

I'm thinking that five dollars.

237

00:15:14,000 --> 00:15:16,000

Well, we run in the red custody.

238

00:15:16,000 --> 00:15:20,000

And also, major, you know, you were a good part of your own life.

239

00:15:20,000 --> 00:15:23,000

You were a good part of your own living by writing books and talking about...

240

00:15:23,000 --> 00:15:24,000

No, I'm saucers.

241

00:15:24,000 --> 00:15:25,000

I lost money on this.

242

00:15:25,000 --> 00:15:27,000

You know that I have written a lot of...

243

00:15:27,000 --> 00:15:30,000

I wish I got your fee for this true story magazine.

244

00:15:30,000 --> 00:15:33,000

I'm going to flood it, but I sure wish I got your fee for that.

245

00:15:33,000 --> 00:15:35,000

Well, I won a little bit of money.

246

00:15:35,000 --> 00:15:36,000

I think, Dr. Lee...

247

00:15:36,000 --> 00:15:38,000

Fifteen years ago, and here's another one.

248

00:15:38,000 --> 00:15:41,000

No, I made a lot of money on two articles from fifteen years ago.

249

00:15:41,000 --> 00:15:42,000

What did you say, Colonel?

250

00:15:42,000 --> 00:15:45,000

I said, I think the doctor's getting a little off the subject.

251

00:15:45,000 --> 00:15:46,000

Now, Tom's running out of money.

252

00:15:46,000 --> 00:15:47,000

Yeah, I know.

253

00:15:47,000 --> 00:15:48,000

Thank you.

254

00:15:48,000 --> 00:15:49,000

Thank you.

255

00:15:49,000 --> 00:15:50,000

Thank you.

256

00:15:50,000 --> 00:15:51,000

Thank you.

257

00:15:51,000 --> 00:15:52,000

Thank you.

258

00:15:52,000 --> 00:15:53,000

Thank you.

259

00:15:53,000 --> 00:15:54,000

Thank you.

260

00:15:54,000 --> 00:15:55,000

Thank you.

261

00:15:55,000 --> 00:15:56,000

Don't you get paid for working too?

262

00:15:56,000 --> 00:16:05,000

Oh, yes, but I'm trying to point out, if you get paid to this, can you view it as an

263

00:16:05,000 --> 00:16:08,000

objectively as someone who is completely divorced from this?

264

00:16:08,000 --> 00:16:10,000

This is a question which I have.

265

00:16:10,000 --> 00:16:13,000

Dr. Lee, of course, it's only a minor thing.

266

00:16:13,000 --> 00:16:16,000

I have a bachelor of science degree, which doesn't match yours, of course.

267

00:16:16,000 --> 00:16:19,000

But I regard myself as a very careful reporter.

268

00:16:19,000 --> 00:16:26,000

I have examined and interrogated over 400 pilots, four pilots and American pilots.

269

00:16:26,000 --> 00:16:29,000

We have signed reports on almost 1,000 of them.

270

00:16:29,000 --> 00:16:34,000

They include reports by astronomers, and I would challenge you to come down to our organization

271

00:16:34,000 --> 00:16:35,000

sometime.

272

00:16:35,000 --> 00:16:39,000

We will show you these records, and if you can explain them satisfactorily, and the Air Force

273

00:16:39,000 --> 00:16:43,000

can, we will disband our organization.

274

00:16:43,000 --> 00:16:48,000

We have one more minute for a comment on this, a few seconds.

275

00:16:48,000 --> 00:16:49,000

Okay.

276

00:16:49,000 --> 00:16:56,000

You know, for someone to sit here and say, we can prove everything, is to say that there's

277

00:16:56,000 --> 00:16:58,000

no more necessity for research.

278

00:16:58,000 --> 00:17:04,000

Now, there are aerial phenomenon taking place, of which we have no knowledge, simply because

279

00:17:04,000 --> 00:17:10,000

we have not yet discovered what the basic laws, the natural laws of which these operate.

280

00:17:10,000 --> 00:17:15,000

And so there could be many of these things which happen cited by intelligent people,

281

00:17:15,000 --> 00:17:22,000

by people of integrity, and this is right, except for one thing, and that is that it is still

282

00:17:22,000 --> 00:17:26,000

the operation of a natural law, perhaps a natural law, which we do not understand at the moment.

283

00:17:26,000 --> 00:17:30,000

Doctor, did you ever hear of Ed and Laurie Chilling Carter, formerly the CIA?

284

00:17:30,000 --> 00:17:32,000

He was the chairman of our board.

285

00:17:32,000 --> 00:17:34,000

He was on our board for five years.

286

00:17:35,000 --> 00:17:40,000

He issued a statement that these things were real, that they were under intelligent control.

287

00:17:40,000 --> 00:17:46,000

It was a dangerous situation because several times there have been garrables of the strategic

288

00:17:46,000 --> 00:17:49,000

air command when these things were mistaken for Soviet attack.

289

00:17:49,000 --> 00:17:51,000

Well, that could be a danger.

290

00:17:51,000 --> 00:17:56,000

Scrambling our Air Forces to run after something could be a danger, especially if there's nothing there.

291

00:17:56,000 --> 00:17:59,000

These things have been picked up on radar repeatedly.

292

00:17:59,000 --> 00:18:02,000

Well, let me have just shaped objects seen at the same time.

293

00:18:02,000 --> 00:18:07,000

Before we attribute all sorts of things to the Air Force, let me conclude, we're out of time.

294

00:18:07,000 --> 00:18:12,000

I want to thank you gentlemen all for all I conclude by just we contacted the Air Force.

295

00:18:12,000 --> 00:18:19,000

And this is from Major Mastin Jax, who is the Pentagon UFO Project Officer.

296

00:18:19,000 --> 00:18:27,000

The Air Force has a responsibility for the air defense of the United States and is also interested in aerial phenomena.

297

00:18:27,000 --> 00:18:41,000

In 16 years of tracking down reports, 9,000 of them, not one, repeat not one, has ever turned out to be a threat to American security,

298

00:18:41,000 --> 00:18:48,000

or an example of advanced technology, nor of interplanetary or extraterrestrial origin.

299

00:18:48,000 --> 00:18:50,000

I just want to throw that in.

300

00:18:50,000 --> 00:18:54,000

Not for any special, that's eluded in any way.

301

00:18:54,000 --> 00:19:00,000

That's an official policy which has been carried out that we have on our board, the former monitor of the entire project,

302

00:19:00,000 --> 00:19:05,000

and he says that for years the Air Force has been hiding things from the world.

303

00:19:05,000 --> 00:19:07,000

In any case, it was interesting, right?

304

00:19:07,000 --> 00:19:08,000

Right?

305

00:19:08,000 --> 00:19:10,000

Right!
