

1

00:00:00,000 --> 00:00:08,480

WKYC in Cleveland, Cleveland, Cleveland, Cleveland, Cleveland.

2

00:00:08,480 --> 00:00:26,720

And it's 7-8145-15, our contact topic this evening, sightings of UFOs.

3

00:00:26,720 --> 00:00:32,040

The number 7-814515 here on contact, the sightings of UFOs, as you know from time to

4

00:00:32,040 --> 00:00:38,640

time here on the contact, we group around our table people who have an interest in not

5

00:00:38,640 --> 00:00:41,200

only in UFOs but also in investigating UFOs.

6

00:00:41,200 --> 00:00:47,600

And they've all told me that 1965 indeed was a banner year as far as sightings of flying

7

00:00:47,600 --> 00:00:49,120

saucers goes.

8

00:00:49,120 --> 00:00:53,200

More UFOs may not have been seen but it's the fact that more sightings were reported

9

00:00:53,200 --> 00:00:55,920

anyway to various UFO report centers across the country.

10

00:00:55,920 --> 00:01:00,320

So tonight on contact, well you're about the rise in the number of flying saucers being

11

00:01:00,320 --> 00:01:04,040

seen around the Cleveland area and also around the country.

12

00:01:04,040 --> 00:01:08,160

And if you indeed have seen one, let us know about it by calling 7-814515.

13

00:01:08,160 --> 00:01:12,200

We'll also be answering your questions, taking your comments and exchanging conversation

14

00:01:12,200 --> 00:01:15,800

with you on the topic of sightings of UFOs.

15

00:01:15,800 --> 00:01:19,880

In the contact studio this evening will be Mr. Rick Hilberg, one of the directors of the

16

00:01:19,880 --> 00:01:25,400

American UFO Committee, the editor of UFO Magazine, Alan Manick, head of the UFO Report

17

00:01:25,400 --> 00:01:30,080

Center for Cleveland Ufology Project and Earl Neff, lecturer on flying saucers and a member

18

00:01:30,080 --> 00:01:31,520

of NICAP.

19

00:01:31,520 --> 00:01:37,760

On the contact line to Pennsylvania, Mr. George Fawcett, active member of NICAP and of APRO

20

00:01:37,760 --> 00:01:38,760

organization.

21

00:01:38,760 --> 00:01:44,440

And later on joining us after 11 o'clock will be WKYC weatherman and announcer Ken Goodman.

22

00:01:44,440 --> 00:01:48,880

About two years ago, a little over two years ago I guess it was, Ken Goodman here on this

23

00:01:48,880 --> 00:01:54,800

program told us about I guess one of the best descriptions of a UFO sighting that he was

24

00:01:54,800 --> 00:01:56,600

involved in that I have ever heard.

25

00:01:56,600 --> 00:02:01,800

So we've asked Ken Goodman to join us again after his 11 o'clock or 11-10 weather forecast

26

00:02:01,800 --> 00:02:05,200

up here in the studio and re-describe that event that happened at Fort Jackson, South

27

00:02:05,200 --> 00:02:06,480

Carolina to you.

28

00:02:06,480 --> 00:02:10,160

If you'd like to be reserving your place on the line, the area code for those of you

29

00:02:10,160 --> 00:02:16,160

outside the state of Ohio is 216, the number 7-814515.

30

00:02:16,160 --> 00:02:19,960

Now before we get into a general discussion and get some of your comments, I'd like to

31

00:02:19,960 --> 00:02:23,200

hear from a panelist both here and on the contact line.

32

00:02:23,200 --> 00:02:27,400

First the head of the UFO report center for Cleveland Ufology Project, Mr. Allen Manick.

33

00:02:27,400 --> 00:02:28,400

Good evening, Harv.

34

00:02:28,400 --> 00:02:29,400

Good evening.

35

00:02:29,400 --> 00:02:34,440

The Cleveland Ufology Project is a non-profit fact finding group organized for the purpose

36

00:02:34,440 --> 00:02:39,160

of gathering data, study and analysis and dissemination of information pertaining to

37

00:02:39,160 --> 00:02:41,160

aerial phenomena.

38

00:02:41,160 --> 00:02:47,040

1965 was perhaps the banner year in ufology as far goes.

39

00:02:47,040 --> 00:02:54,640

We've had many sightings, an average of 7.7 unconfirmed sightings of aerial objects.

40

00:02:54,640 --> 00:02:59,600

Perhaps the biggest one last year and perhaps the biggest one or the major report was 9

41

00:02:59,600 --> 00:03:01,160

October 1965.

42

00:03:01,160 --> 00:03:03,040

That's October 9th.

43

00:03:03,040 --> 00:03:08,720

Reports came through to report center number of 2340861 and the telephone was ringing off

44

00:03:08,720 --> 00:03:09,720

its hook.

45

00:03:09,720 --> 00:03:12,920

8.45 p.m. the first phone call came through.

46

00:03:12,920 --> 00:03:15,360

It came from Wade Avenue in Cleveland.

47

00:03:15,360 --> 00:03:19,040

The second phone call came through from Vega, the third from West 61st in Lorraine.

48

00:03:19,040 --> 00:03:21,520

We saw a trend.

49

00:03:21,520 --> 00:03:26,560

Before the night was over, and the night meaning 12.45 in the evening and the next morning,

50

00:03:26,560 --> 00:03:29,400

42 phone calls came in, all reporting the same object.

51

00:03:29,400 --> 00:03:31,040

These people did not know each other.

52

00:03:31,040 --> 00:03:33,520

These people all report the same thing.

53

00:03:33,520 --> 00:03:39,880

Many of these people sent in pictures of it as drawings, not actual photos.

54

00:03:39,880 --> 00:03:42,200

The night was a very drizzly night.

55

00:03:42,200 --> 00:03:43,940

It was cold.

56

00:03:43,940 --> 00:03:45,140

We called Hopkins Airport.

57

00:03:45,140 --> 00:03:50,060

The Hopkins Airport checked with us was 2,200 feet, the level of air.

58

00:03:50,060 --> 00:03:54,980

The rain was a very bad drizzle, like I said before, and this object was underneath it.

59

00:03:54,980 --> 00:03:59,260

K-Sinstitute Technology was also informed.

60

00:03:59,260 --> 00:04:02,840

Radio stations WKYC were also informed.

61

00:04:02,840 --> 00:04:07,420

The object was actually round disc shaped object with a superstructure on top.

62

00:04:07,420 --> 00:04:11,000

The lights were of revolving order or sequential in order.

63

00:04:11,000 --> 00:04:13,480

Everyone had the same story of this.

64

00:04:13,480 --> 00:04:15,860

Everything was seen protruding from this object.

65

00:04:15,860 --> 00:04:20,800

These people were standing, either waiting for buses, being driven by cars or in automobiles

66

00:04:20,800 --> 00:04:23,580

standing outside, but they saw this object.

67

00:04:23,580 --> 00:04:27,380

The most important thing about this object, that at arms length, it was the size of a

68

00:04:27,380 --> 00:04:28,380

fountain pen.

69

00:04:28,380 --> 00:04:31,760

That's roughly about four and a half to five inches in diameter at arms length, which would

70

00:04:31,760 --> 00:04:33,860

have to be low.

71

00:04:33,860 --> 00:04:38,460

What other sightings that you had at the reports throughout 1965 were outstanding, at least

72

00:04:38,460 --> 00:04:39,780

as far as you're concerned?

73

00:04:39,800 --> 00:04:43,960

Well, really the most outstanding was when I just reported on, but we've had many reports

74

00:04:43,960 --> 00:04:47,120

of objects that were confirmed to be unidentified.

75

00:04:47,120 --> 00:04:52,000

For the simple reason, people have tracked these things from, say, Chagrin Falls, Wycliffe.

76

00:04:52,000 --> 00:04:57,760

We get another report call from West Side of Cleveland, all with the same type of object.

77

00:04:57,760 --> 00:05:03,680

Checking with the satellites, the Air Force, Hopkins Airport, Berk Lakefront, we have no

78

00:05:03,680 --> 00:05:05,880

and Weather Report, naturally.

79

00:05:05,900 --> 00:05:09,460

We have no other confirmation of this, but of the research part of it.

80

00:05:09,460 --> 00:05:12,300

The main project is, like I said, gathering data.

81

00:05:12,300 --> 00:05:17,620

Most of the reports that come into the Youthful Report Center, do they check out to be authentic

82

00:05:17,620 --> 00:05:20,580

or do they wind up being something that's explainable?

83

00:05:20,580 --> 00:05:24,140

I'm glad you asked that, because many people say that we're a bunch of nuts and we take

84

00:05:24,140 --> 00:05:25,140

in anything.

85

00:05:25,140 --> 00:05:28,340

We do take all calls, by the way.

86

00:05:28,340 --> 00:05:32,180

Most of them are stars or the satellites or an aircraft.

87

00:05:32,180 --> 00:05:33,460

We can confirm these.

88

00:05:33,460 --> 00:05:36,960

But the ones that are not confirmed, I mean, are definitely, there is some shape to them

89

00:05:36,960 --> 00:05:38,440

other than aircraft.

90

00:05:38,440 --> 00:05:39,440

There are not satellites.

91

00:05:39,440 --> 00:05:42,200

They prove to be not inversions.

92

00:05:42,200 --> 00:05:45,760

These have to be going down as what we call or we classify as unknown.

93

00:05:45,760 --> 00:05:48,680

And how many totally were in Cleveland during 65?

94

00:05:48,680 --> 00:05:50,360

You mentioned, I believe, that I didn't get the number.

95

00:05:50,360 --> 00:05:52,360

We have an average of 7.8 a month.

96

00:05:52,360 --> 00:05:53,360

7.8 a month.

97

00:05:53,360 --> 00:05:54,360

Right.

98

00:05:54,360 --> 00:05:55,360

And this is a high.

99

00:05:55,360 --> 00:05:56,360

Yes, it is.

100

00:05:56,360 --> 00:05:58,120

What about 85, 90 for the whole year?

101

00:05:58,120 --> 00:05:59,120

At least, yes.

102

00:05:59,120 --> 00:06:00,480

All right, we'll get to your questions.

103

00:06:00,480 --> 00:06:04,580

7.8 1-4515 very shortly.

104

00:06:04,580 --> 00:06:09,500

On the contact line to Pennsylvania, an active member of Nightcap and of April, and a Returnee

105

00:06:09,500 --> 00:06:13,420

here to contact him, and to join us about a year ago, and we had a very exciting program

106

00:06:13,420 --> 00:06:14,420

with him at that time.

107

00:06:14,420 --> 00:06:18,740

We'd like for him to bring us up to date on, in his own opinion, what's new in sightings

108

00:06:18,740 --> 00:06:19,740

on UFOs.

109

00:06:19,740 --> 00:06:20,740

Mr. George Bossett.

110

00:06:20,740 --> 00:06:21,740

Mark, 1965 was a bad year.

111

00:06:21,740 --> 00:06:22,740

And when you speak of flying solstice or identify flying objects, they're both the same thing.

112

00:06:22,740 --> 00:06:23,740

Just, you know, the same thing.

113

00:06:23,740 --> 00:06:30,740

Just names that are given by the Air Force and by the people who accept them as common

114

00:06:30,740 --> 00:06:31,740

terminology.

115

00:06:31,740 --> 00:06:37,240

But the Air Force, according to the report I received the other day, had around 800 sightings

116

00:06:37,240 --> 00:06:41,240

that they admitted, and about 19 or 20 they couldn't explain.

117

00:06:41,240 --> 00:06:49,240

The National Investigations in Washington, which is doing a tremendous job on this, had

118

00:06:49,240 --> 00:06:53,240

over 2,500 sightings of which 400 were very substantial.

119

00:06:53,240 --> 00:07:00,240

Now, what was more interesting to me was the report and Look magazine, February the 22nd,

120

00:07:00,240 --> 00:07:06,040

1966 issue, which dealt with the sightings up in Vector, New Hampshire, where over 60

121

00:07:06,040 --> 00:07:11,160

eyewitnesses reported a cigar-shaped object with blinking red lights on it that came down

122

00:07:11,160 --> 00:07:17,740

and landed and chased police automobiles and other pedestrians down the road outside the

123

00:07:17,740 --> 00:07:20,860

small towns and the big cities also up in New Hampshire.

124

00:07:20,860 --> 00:07:25,660

And this was documented by a newspaper man and written up in many magazines.

125

00:07:25,660 --> 00:07:31,740

And we found it very interesting because this was not published till February the 22nd of

126

00:07:31,740 --> 00:07:32,740

1966.

127

00:07:32,740 --> 00:07:36,420

And we had a sighting right here in Bethlehem, Pennsylvania of an automobile chase on December

128

00:07:36,420 --> 00:07:42,240

the 10th with an identical sighting with the round red lights around the outer edge.

129

00:07:42,240 --> 00:07:47,540

And same time, about three weeks later, there was a moving photograph taken of these objects

130

00:07:47,540 --> 00:07:53,180

out in Arizona, one of the other Midwestern states, identical description in color.

131

00:07:53,180 --> 00:07:56,180

This was one of the better sightings here in Pennsylvania.

132

00:07:56,180 --> 00:08:02,500

And as a result of over, for the past 18 months, we've received over 80 reports of landings,

133

00:08:02,500 --> 00:08:05,060

40 photographs being taken.

134

00:08:05,060 --> 00:08:09,100

And I know at least 48 to 50 magazine articles have been published on the subject.

135

00:08:09,100 --> 00:08:11,020

It was about a year.

136

00:08:11,020 --> 00:08:15,700

And here in Pennsylvania, New Jersey, we started a Pennsylvania New Jersey Two-State UFO Study

137

00:08:15,700 --> 00:08:16,700

Group.

138

00:08:16,700 --> 00:08:23,420

And we now have over 123 members, pilots, astronomers, amateur scowl doctors, you might say, also

139

00:08:23,420 --> 00:08:28,300

doctors and lawyers and people from all walks of life who are vitally interested in this

140

00:08:28,300 --> 00:08:29,300

phenomenon.

141

00:08:29,300 --> 00:08:35,340

Just recently, several weeks ago over in New Jersey, above the Wanaki Reservoir, a round

142

00:08:35,340 --> 00:08:40,340

lighting object came down and cast a nine foot circle on the lake, Reservoir.

143

00:08:40,340 --> 00:08:44,780

This object was seen by approximately 200 spectators, including the civilian defense

144

00:08:44,780 --> 00:08:49,540

director, the mayor of the city, the city editor, the state police.

145

00:08:49,540 --> 00:08:54,100

And then the object moved over the local high school building and hovered for a moment.

146

00:08:54,100 --> 00:08:58,260

They turned to the lake, the reservoir, and had to bend around this area for two hours,

147

00:08:58,260 --> 00:09:00,660

shot straight up with tremendous noise.

148

00:09:00,660 --> 00:09:06,500

This report was widely reported in newspapers here in Pennsylvania, New Jersey.

149

00:09:06,500 --> 00:09:10,100

The next day, the Air Force said that the object which had gone through these maneuvers

150

00:09:10,100 --> 00:09:15,780

and made this tremendous noise and had cast a searchlight beam down on the lake was the

151

00:09:15,780 --> 00:09:17,660

result of the planet Venus.

152

00:09:17,660 --> 00:09:22,580

Now, how well you can get, I don't know, but some of the explanations are far more fantastic

153

00:09:22,580 --> 00:09:24,220

than what's been seen.

154

00:09:24,220 --> 00:09:28,420

The only other thing I'd like to mention here is that we feel like here in the Pennsylvania

155

00:09:28,420 --> 00:09:33,380

we have established a definite correlation to many of the power failures and blackouts

156

00:09:33,380 --> 00:09:36,300

when these unidentified flying objects have occurred.

157

00:09:36,300 --> 00:09:41,980

We feel like that these electromagnetic force fields that evidently surround these objects

158

00:09:41,980 --> 00:09:48,260

have tremendous radiation effects and can't stall automobile engines, aircraft motors,

159

00:09:48,260 --> 00:09:50,060

as well as giant power stations.

160

00:09:50,060 --> 00:09:55,740

And during the northeast blackout, as well as other blackouts in Nevada and down in Brazil

161

00:09:55,740 --> 00:10:00,700

and up in Canada and other places, it has been documented many times, and even in Mexico

162

00:10:00,700 --> 00:10:06,420

and Texas, that unidentified flying objects happened present when power failure is occurring.

163

00:10:06,420 --> 00:10:10,980

So we've had a big year and a lot of excitement up and down the east coast as well as across

164

00:10:10,980 --> 00:10:13,180

the country and around the world.

165

00:10:13,180 --> 00:10:16,780

Mr. George Fossett on the Countdown Glyné 2, Pennsylvania, you'll get your chance to ask

166

00:10:16,780 --> 00:10:21,660

your questions of Mr. Fossett and my other guests and to make your own observations on

167

00:10:21,660 --> 00:10:24,900

sightings of unidentified flying objects.

168

00:10:24,900 --> 00:10:30,980

The number is 7-814515, area code if you're calling long distances, 216.

169

00:10:30,980 --> 00:10:35,820

Another Returnee here on contact is good to have you back again on a UFO roundtable type

170

00:10:35,820 --> 00:10:38,340

program, sightings of UFOs.

171

00:10:38,340 --> 00:10:43,340

One of the directors of the American UFO Committee and an editor for UFO Magazine, Rick Hilberg.

172

00:10:43,340 --> 00:10:45,780

Go to be back, Harv.

173

00:10:45,780 --> 00:10:50,420

As Mr. Fossett and the others in the studio did mention, 1965 was indeed a banner year

174

00:10:50,420 --> 00:10:52,380

for UFO reports.

175

00:10:52,380 --> 00:10:58,620

The main flap, which is a large number of UFO sightings, started in July and probably

176

00:10:58,620 --> 00:11:05,380

one of the most spectacular cases ever was reported on July 3rd when Mario John Barrera,

177

00:11:05,380 --> 00:11:11,300

who is a commander of a Chilean base in an article, radioed to his defense minister that

178

00:11:11,300 --> 00:11:16,340

there was something real causing electromagnetic interference on their apparatus.

179

00:11:16,340 --> 00:11:20,380

And in Buenos Aires, the Navy issued a communique saying that the object had been photographed

180

00:11:20,380 --> 00:11:22,880

at Argentina's base.

181

00:11:22,880 --> 00:11:29,580

This object was lens shaped and was yellow, red, and green and the colors would alternate.

182

00:11:29,580 --> 00:11:33,820

A Chilean corporal took the pictures, but they were in total darkness.

183

00:11:33,820 --> 00:11:39,460

About this time the photos should be developed and we're waiting to see any results.

184

00:11:39,460 --> 00:11:45,460

After that on the 11th of July in Portugal, strange objects were sighted in Portugal and

185

00:11:45,460 --> 00:11:46,460

the Azores.

186

00:11:46,460 --> 00:11:51,820

The Azores, an object stopped electromagnetic clocks.

187

00:11:51,820 --> 00:11:58,020

The first reported object appeared near the northern city of a porto where a man, Emmanuel

188

00:11:58,020 --> 00:12:03,420

Fernandes and his wife first saw something like a luminous flattened balloon.

189

00:12:03,420 --> 00:12:07,300

Fernandes, who was an employee of the Fishermen's Union, said that the strange object at first

190

00:12:07,300 --> 00:12:11,540

looked like a flattened balloon, but then when they both watched it looked like a plate,

191

00:12:11,540 --> 00:12:14,140

a typical disc shaped report.

192

00:12:14,140 --> 00:12:20,580

It was luminous, it was red, it stopped at a rather high altitude for three minutes

193

00:12:20,580 --> 00:12:24,780

and then it sped off at an incredible velocity.

194

00:12:24,780 --> 00:12:32,820

In South Carolina on July 12th, a UFO was reported by two gentlemen in a car.

195

00:12:32,820 --> 00:12:38,020

It was low, it was described as real bright, it flew alongside of their car.

196

00:12:38,020 --> 00:12:44,100

Right here in the Cleveland area in Pepper Pike on again July 12th, Mrs. William Carahus

197

00:12:44,100 --> 00:12:49,420

and her 11-year-old son Grant saw a brilliant UFO hovering over Shaker Boulevard.

198

00:12:49,420 --> 00:12:53,780

It was cigar shaped and metallic.

199

00:12:53,780 --> 00:12:59,540

And in Ohio, Pennsylvania, West Virginia and Maryland on the 12th of July, a gigantic

200

00:12:59,540 --> 00:13:03,100

unidentified flying object was sighted and photographed.

201

00:13:03,100 --> 00:13:07,220

The expert said it was a weather balloon, but if it was a balloon no one was able to

202

00:13:07,220 --> 00:13:08,980

find out where it came from.

203

00:13:08,980 --> 00:13:13,820

The FAA, which usually is informed on such matters, said that it had no balloons up at

204

00:13:13,820 --> 00:13:18,380

that time and the only one that day was launched at Tyra, Texas, which couldn't have been over

205

00:13:18,380 --> 00:13:19,380

the area.

206

00:13:19,380 --> 00:13:21,740

There were many reports.

207

00:13:21,740 --> 00:13:28,780

A Fred Kirsted at the Akron-Canton satellite tracking station said it was definitely Venus.

208

00:13:28,780 --> 00:13:32,420

The FAA said they didn't know what it was.

209

00:13:32,420 --> 00:13:37,980

On the 17th of July in Uruguay, a youth said he saw a four-legged object touch down for

210

00:13:37,980 --> 00:13:44,260

two minutes in broad daylight on a beach just out across from the River Platte.

211

00:13:44,260 --> 00:13:49,580

He was quoted as saying that it shot skyward in a blinding flash when a tug tutored its

212

00:13:49,580 --> 00:13:50,580

siren.

213

00:13:50,580 --> 00:13:57,540

In Anaheim, California on July 21, a woman and her 13-year-old son reported that they

214

00:13:57,540 --> 00:14:01,780

saw a round color-changing UFO in the skies over Orange County.

215

00:14:01,780 --> 00:14:08,380

This is Stefan Palo, said the object was first spotted by your son at about 8.55 p.m. when

216

00:14:08,380 --> 00:14:11,380

he was playing at Maxwell Park.

217

00:14:11,380 --> 00:14:15,820

They went outside and saw the object traveling in a straight line to the northwest.

218

00:14:15,820 --> 00:14:18,700

It gave a white glow, but it slowly changed colors.

219

00:14:18,700 --> 00:14:22,460

It had arms of light, like rays.

220

00:14:22,460 --> 00:14:29,340

The big sighting, which made the headlines all across the nation, happened on July 31

221

00:14:29,340 --> 00:14:34,540

and August 1 and 2 and onward.

222

00:14:34,540 --> 00:14:39,780

Unidentified blips were spotted on the radar screen at the Wichita Weather Bureau, and which

223

00:14:39,780 --> 00:14:44,980

confirmed the presence of unidentified flying objects in the southwestern part of the country.

224

00:14:44,980 --> 00:14:49,900

After that, visual sightings came in from Texas, New Mexico, Oklahoma, and Kansas.

225

00:14:49,900 --> 00:14:54,460

The Oklahoma Highway Patrol, said the Tinker Air Force Base at Oklahoma City, was tracking

226

00:14:54,460 --> 00:14:57,140

as many as four on radar.

227

00:14:57,140 --> 00:15:01,980

And Tinker, to this day, refused to confirm or deny the report.

228

00:15:01,980 --> 00:15:07,220

A Wichita Weatherman said he tracked them at different times between 2 and 6 a.m., mostly

229

00:15:07,220 --> 00:15:09,820

on the south side of the city, he said.

230

00:15:09,820 --> 00:15:12,540

And again, I quote, I don't know what we've got here.

231

00:15:12,540 --> 00:15:16,860

It looks about the size of a sessioner on the screen.

232

00:15:16,860 --> 00:15:23,140

A spokesman at McConnell Air Force Base confirmed that the FAA had tracked them, but noted that

233

00:15:23,140 --> 00:15:28,140

the FAA radar covers only a 30-mile radius, while the Weather Bureau covers all of Kansas.

234

00:15:28,140 --> 00:15:30,460

So indeed, something was spotted.

235

00:15:30,460 --> 00:15:34,540

Deputy Sheriff Everett Tucker of Wellington, Kansas, said he and his wife saw one about

236

00:15:34,540 --> 00:15:37,560

4.50 a.m., moving rapidly to the north.

237

00:15:37,560 --> 00:15:40,580

He said it had a red vapor trail behind it.

238

00:15:40,580 --> 00:15:46,260

And sightings of four mysterious craft in a diamond formation came from Chickasha, Cushing,

239

00:15:46,260 --> 00:15:48,580

Shawnee, and Chandler, Oklahoma.

240

00:15:48,580 --> 00:15:53,820

Police officers there in their patrol car sighted them, and they changed altitude and

241

00:15:53,820 --> 00:15:59,500

colors from red to white to blue-green, and they seemed to move from side to side at times.

242

00:15:59,500 --> 00:16:03,500

These are just a few of the many objects reported in 1965.

243

00:16:03,500 --> 00:16:05,980

And we'll get to more reports during 1965.

244

00:16:05,980 --> 00:16:10,260

In just a moment, and you'll meet my fourth guest here at the Context Studio.

245

00:16:10,260 --> 00:16:15,380

This is 8C with airline hostess Ella Tallya cruising high above the Atlantic at 600 miles

246

00:16:15,380 --> 00:16:16,380

an hour.

247

00:16:16,380 --> 00:16:19,580

So would it make you mad if a mean little kid kept biting your leg as you walked up

248

00:16:19,580 --> 00:16:20,580

the aisle?

249

00:16:20,580 --> 00:16:24,180

No, I'd just have him to go play outside.

250

00:16:24,180 --> 00:16:27,780

Would it make you mad if a passenger spilled hot coffee all over you?

251

00:16:27,780 --> 00:16:32,860

No, I'd just scream and apologize for being in his way.

252

00:16:32,860 --> 00:16:37,460

Suppose you bought a new 66 Chevrolet and found you could have saved \$300 at Humphrey

253

00:16:37,460 --> 00:16:39,060

Central right from the start.

254

00:16:39,060 --> 00:16:40,860

Would that make you mad?

255

00:16:40,860 --> 00:16:41,860

My?

256

00:16:41,860 --> 00:16:44,420

Would that make me mad?

257

00:16:44,420 --> 00:16:48,980

Save time, save steps, save money on your new Chevrolet right from the start at 7001

258

00:16:48,980 --> 00:16:49,980

Euclid Avenue.

259

00:16:49,980 --> 00:16:54,340

Humphrey Central is a big dealership that will save you important dollars on your new

260

00:16:54,340 --> 00:16:55,340

Chevrolet.

261

00:16:55,340 --> 00:16:57,260

Don't make a doubtful deal elsewhere.

262

00:16:57,260 --> 00:17:00,300

Make the best deal at Humphrey Central 7001 Euclid.

263

00:17:00,300 --> 00:17:03,220

Or a Chevrolet, bested every way.

264

00:17:03,220 --> 00:17:05,500

Humphrey Central's Chevrolet.

265

00:17:05,500 --> 00:17:08,980

Humphrey Central is Chevrolet in Cleveland.

266

00:17:08,980 --> 00:17:13,180

Sightings of unidentified flying objects are a contact topic this evening.

267

00:17:13,180 --> 00:17:16,060

I've been doing some reading today of different articles.

268

00:17:16,060 --> 00:17:23,100

One, I guess that one of the TV camera men downstairs saved for me by Jacques Vallée,

269

00:17:23,100 --> 00:17:28,220

a Frenchman who is a scientist here in America, I guess was in the last October or so issue

270

00:17:28,220 --> 00:17:29,220

of a true magazine.

271

00:17:29,220 --> 00:17:33,740

It was one of the most fantastic accounts or collections of flying saucers that I've

272

00:17:33,740 --> 00:17:34,740

ever seen.

273

00:17:34,740 --> 00:17:39,100

Here's a scientist who has scientifically tabulated the sightings that he considers at least possible

274

00:17:39,100 --> 00:17:40,900

and come to some conclusions.

275

00:17:40,900 --> 00:17:45,540

You'll perhaps get to discuss some of those conclusions as to where they come from and

276

00:17:45,540 --> 00:17:47,180

what they're doing a little later on.

277

00:17:47,180 --> 00:17:53,140

Perhaps you have your own viewpoint, which you'll get a chance to express at 7814515.

278

00:17:53,140 --> 00:17:57,260

Let me also say before you meet my next guest that a little later on about an hour from

279

00:17:57,260 --> 00:17:58,580

now we'll have a tape interview.

280

00:17:58,580 --> 00:18:02,940

I did this afternoon with a very respected gentleman, if you're a Civil War buff or have

281

00:18:02,940 --> 00:18:07,300

read the book Andersonville, which won the Pulitzer Prize some years ago.

282

00:18:07,420 --> 00:18:13,140

I talked with the author of that book, Mr. McKinley Cantor, down in Sarasota, Florida

283

00:18:13,140 --> 00:18:14,460

earlier today.

284

00:18:14,460 --> 00:18:21,660

And he reports, and this is a well-respected, dignified man of letters, a quite fascinating

285

00:18:21,660 --> 00:18:28,020

account of his own sighting of a flying saucer and some viewpoints about UFOs also being

286

00:18:28,020 --> 00:18:29,020

discussed.

287

00:18:29,020 --> 00:18:30,020

Well, we'll have that a little later on.

288

00:18:30,020 --> 00:18:31,020

Let me remind you one.

289

00:18:31,020 --> 00:18:34,460

This is WKYC Cleveland, Ohio, NBC in Cleveland.

290

00:18:34,460 --> 00:18:36,500

Viewpoints of UFOs are our contact topic this evening.

291

00:18:36,500 --> 00:18:40,740

And now our fourth guest here in the Contact Studio, lecturer on flying saucers and member

292

00:18:40,740 --> 00:18:43,420

of NYCAP, Earl Nett.

293

00:18:43,420 --> 00:18:44,420

Thank you, Harb.

294

00:18:44,420 --> 00:18:46,260

I'm delighted to be back again.

295

00:18:46,260 --> 00:18:52,740

As you remember, we started this Ufology roundtable segment of contact back on October 4th, 1962,

296

00:18:52,740 --> 00:18:59,060

and two weeks ago when you had John Forron and the lawman was discussing it, I was at

297

00:18:59,060 --> 00:19:06,780

home listening with one ear writing furiously to get down to Waynesburg to the college to

298

00:19:06,780 --> 00:19:10,500

lecture the next night, and I was very disappointed I couldn't be here, but I enjoyed every moment

299

00:19:10,500 --> 00:19:11,500

of it.

300

00:19:11,500 --> 00:19:12,500

Has it been that long?

301

00:19:12,500 --> 00:19:13,500

Four years almost?

302

00:19:13,500 --> 00:19:14,500

Almost four years.

303

00:19:14,500 --> 00:19:15,500

And I still haven't seen one.

304

00:19:15,500 --> 00:19:18,900

But I thought it was one of the greatest programs I've ever heard.

305

00:19:18,900 --> 00:19:20,980

My reactions all over have been the same.

306

00:19:20,980 --> 00:19:25,180

Downstate in Pittsburgh, everywhere, they said we've never heard anything as convincing

307

00:19:25,180 --> 00:19:26,940

as what John Forron's done.

308

00:19:26,940 --> 00:19:33,140

And I might say that the picture that is the lead picture in the Look magazine of February

309

00:19:33,140 --> 00:19:40,380

the 22nd is also the lead picture in March issue of Pageant magazine.

310

00:19:40,380 --> 00:19:46,660

And this particular picture, having been taken by James Lucci of Beaver Falls, where I'm

311

00:19:46,660 --> 00:19:52,100

going to be speaking, by the way, on the 25th of this month, the college down there, I was

312

00:19:52,100 --> 00:19:56,740

the first to show this picture publicly at Carnegie Music Hall on October 8th, and yet

313

00:19:56,740 --> 00:19:58,620

it was just taken on August the 8th.

314

00:19:58,620 --> 00:20:00,380

It's a tremendous picture.

315

00:20:00,380 --> 00:20:07,500

And as Mr. Fuller said the other night, this picture of the UFO is even more brilliant

316

00:20:07,500 --> 00:20:13,180

than the big full moon in the distance as it was photographed through the camera.

317

00:20:13,180 --> 00:20:17,500

These young men had out there that night as they were trying to photograph the moon.

318

00:20:17,500 --> 00:20:21,980

And the parts that come down from the UFO and the part that goes back from the UFO as

319

00:20:21,980 --> 00:20:29,340

it's traveling are apparently some form of ray that only the sensitive emulsion of the

320

00:20:29,340 --> 00:20:30,900

film picks up.

321

00:20:30,900 --> 00:20:39,340

I would like to say that one UFO skeptic plus one good UFO sighting, in my way of thinking,

322

00:20:39,340 --> 00:20:41,580

equals another UFO believer.

323

00:20:41,580 --> 00:20:46,260

And this again was proven the other night when Mr. Fuller was on.

324

00:20:46,260 --> 00:20:48,260

Seeing is believing.

325

00:20:48,260 --> 00:20:52,260

In fact, the late Dr. Wilbert Smith, who is in charge of Canada's project, Magnet, similar

326

00:20:52,260 --> 00:20:57,660

to our blue book, and it goes under different names now, said that he's quite certain that

327

00:20:57,660 --> 00:21:04,220

if a person, any place on the globe, would watch the sky for 30 consecutive hours, he

328

00:21:04,220 --> 00:21:07,340

would see an unidentified flying object.

329

00:21:07,340 --> 00:21:12,300

And recently, Chan Thomas, the authority on cataclysmic changes, said, if anyone wants

330

00:21:12,300 --> 00:21:16,900

to really see a flying saucer, they should go out there in the night sky, looking at

331

00:21:16,900 --> 00:21:20,500

the night sky, and fix their eyes upon a star.

332

00:21:20,500 --> 00:21:25,420

And as you watch this, you'll see, perhaps, activity around that star.

333

00:21:25,420 --> 00:21:29,260

I think that's probably one of the best ways of actually looking for UFOs.

334

00:21:29,260 --> 00:21:30,540

I've never looked for them.

335

00:21:30,540 --> 00:21:37,180

In fact, if it wasn't for our report centers and notification, we wouldn't, half the time,

336

00:21:37,180 --> 00:21:38,420

know what's going on up there.

337

00:21:38,420 --> 00:21:42,180

But one person sees it and then we immediately notify the others.

338

00:21:42,180 --> 00:21:47,500

I think it might be interesting to mention a few of the classic cases for those people

339

00:21:47,500 --> 00:21:52,300

who perhaps have never listened to this show if there are any of those.

340

00:21:52,300 --> 00:21:58,340

And of course, starting back with Kenneth Arnold, citing that was back on June 24th of

341

00:21:58,340 --> 00:22:01,580

47, he was a Boise, Idaho flyer.

342

00:22:01,580 --> 00:22:05,420

He was a businessman and had his own plane.

343

00:22:05,420 --> 00:22:08,020

He was over the Grand Teton Mountains.

344

00:22:08,020 --> 00:22:14,620

We saw up ahead of him, quite a distance ahead, nine silver objects.

345

00:22:14,620 --> 00:22:21,420

He referred to them as though they were saucers skipping along or a stone skipping over the

346

00:22:21,420 --> 00:22:22,420

water.

347

00:22:22,420 --> 00:22:25,680

He didn't actually refer to them as saucer in shape.

348

00:22:25,680 --> 00:22:32,780

But back in the 1800s, a farmer did refer to something he had seen as saucer in shape.

349

00:22:32,780 --> 00:22:40,260

And I'm not going to mention these necessarily in any particular order, but Thomas Mantell,

350

00:22:40,260 --> 00:22:48,740

Captain Thomas Mantell, to be exact, on January the 7th in 1948 was down near the Fort Knox

351

00:22:48,740 --> 00:22:49,740

spot.

352

00:22:49,740 --> 00:22:56,900

It was a government air force based, to be exact, when he was notified and his wingmen

353

00:22:56,900 --> 00:22:59,940

were notified that there was something up there in the air and they should go up and

354

00:22:59,940 --> 00:23:01,900

see what it was.

355

00:23:01,900 --> 00:23:06,300

This was the unfortunate incident when the captain lost his life.

356

00:23:06,300 --> 00:23:11,820

There was disintegration of the plane and the air force later made a very ridiculous

357

00:23:11,820 --> 00:23:19,260

claim again as they have many times since that he was chasing a planet.

358

00:23:19,260 --> 00:23:24,220

Well Thomas Mantell, as I think I mentioned once before on this program, was a friend

359

00:23:24,220 --> 00:23:27,980

of a friend of mine who was in Air Force Intelligence at the time.

360

00:23:27,980 --> 00:23:34,740

And Mantell was a very fine flyer and he didn't have an hallucination, nor did his wingmen.

361

00:23:34,740 --> 00:23:40,140

And then there's the case of the Lubbock lights, 18 lights that were seen by not only Carl

362

00:23:40,140 --> 00:23:44,220

Hart Jr., who was fortunate enough to have a camera with him and shoot the pictures,

363

00:23:44,220 --> 00:23:48,420

a couple of them, but four scientists from Texas also were there.

364

00:23:48,420 --> 00:23:51,620

And that was in the summer of 1951.

365

00:23:51,620 --> 00:23:53,900

And then there was the Captain Killian case.

366

00:23:53,900 --> 00:23:59,060

And I feel very interested in this particular case because I myself was fortunate enough

367

00:23:59,060 --> 00:24:01,660

to play a small part in it.

368

00:24:01,660 --> 00:24:09,420

Captain Killian and five other pilots in 1959 were flying their particular courses and Killian

369

00:24:09,420 --> 00:24:13,340

as a route brought him to Detroit.

370

00:24:13,340 --> 00:24:17,820

The man I interviewed in the middle of the night called out of bed and went over to the

371

00:24:17,820 --> 00:24:22,980

airport to interview him was Captain A.D. Yates.

372

00:24:22,980 --> 00:24:26,460

He had come here from Newark, New Jersey to Cleveland.

373

00:24:26,460 --> 00:24:30,820

And he was very reluctant to mention anything to me at first.

374

00:24:30,820 --> 00:24:35,580

In fact, I was very highly screened by some individuals in the room there.

375

00:24:35,580 --> 00:24:40,860

And later I asked why I wasn't being given the opportunity to interview him.

376

00:24:40,860 --> 00:24:42,900

And they said, well, you haven't enough credentials.

377

00:24:42,900 --> 00:24:46,780

Well, up until then, no one had asked me for any credentials.

378

00:24:46,780 --> 00:24:52,300

So I said, well, if he's the man I think he is, I'll show you just one bit of information

379

00:24:52,300 --> 00:24:54,220

that I think will bring him forth.

380

00:24:54,220 --> 00:24:55,900

This was the NICAP card.

381

00:24:55,900 --> 00:25:02,260

I had many cards with me that I could have shown, but I felt this was adequate.

382

00:25:02,260 --> 00:25:06,540

And then he came out after he had, first of all, asked if I would be willing to answer

383

00:25:06,540 --> 00:25:07,860

three more questions.

384

00:25:07,860 --> 00:25:11,820

Apparently, I answered them to his satisfaction.

385

00:25:11,820 --> 00:25:19,260

And I later learned that this gentleman with 41 other men and women, Air Force people,

386

00:25:19,300 --> 00:25:26,820

I mean pilots and stewardesses, I should say, for commercial lines, were members of a group

387

00:25:26,820 --> 00:25:29,460

down in Newark, New Jersey, something like NICAP.

388

00:25:29,460 --> 00:25:34,660

They were very eager to get this information across to the others in the group, but didn't

389

00:25:34,660 --> 00:25:37,300

want any publicity through the papers.

390

00:25:37,300 --> 00:25:40,060

And he was so afraid that I might be a newspaper reporter.

391

00:25:40,060 --> 00:25:45,500

Well, this was the case where the six pilots flying their different courses had for 45

392

00:25:45,580 --> 00:25:50,460

minutes all seen three objects in the sky.

393

00:25:50,460 --> 00:25:56,700

Later, when Killian came to Detroit, he was videotaped by Frank Edwards, who was with

394

00:25:56,700 --> 00:26:01,540

us here, you remember, a year or two ago, and an NICAP board member.

395

00:26:01,540 --> 00:26:07,220

And this was very interesting because now we have this in-picture form still in his

396

00:26:07,220 --> 00:26:08,860

record of what he stated.

397

00:26:08,860 --> 00:26:14,500

However, he was silenced following that experience by his own plane company because they told

398

00:26:14,500 --> 00:26:18,260

him, if you ever mentioned this again publicly, they would fire him.

399

00:26:18,260 --> 00:26:24,100

Now, when the Air Force stated that this was the Belt of Orion, this was a great insult

400

00:26:24,100 --> 00:26:29,140

to these men because after all, flyers certainly know the Belt of Orion.

401

00:26:29,140 --> 00:26:33,900

And then when that didn't gel, they had other explanations.

402

00:26:33,900 --> 00:26:34,900

And so it went.

403

00:26:34,900 --> 00:26:42,980

Now, in February of the 21st, 1958, in Trindade Island down in South America, was a very

interesting

404

00:26:42,980 --> 00:26:47,660

case that would take a long time to tell, but photographs were taken.

405

00:26:47,660 --> 00:26:53,020

And Kenneth Hoffman in the local scene we have gone into on occasion, and of course,

406

00:26:53,020 --> 00:26:54,020

I wouldn't want to miss...

407

00:26:54,020 --> 00:26:55,020

This was the minister.

408

00:26:55,020 --> 00:26:58,420

The minister, yes, from the Grace Lutheran Church.

409

00:26:58,420 --> 00:27:03,820

And of course, I wouldn't want to just want to quickly say that in Washington, 1952, was

410

00:27:03,820 --> 00:27:09,060

a great sighting over our nation's capital, and White House, and the Sun Times of Chicago

411

00:27:09,060 --> 00:27:14,340

Daily, had the big screaming headlines, Saucer Fleet on U.S. radar.

412

00:27:14,340 --> 00:27:18,660

Well, we'll get to your questions for my guest both in the studio and on the line coming

413

00:27:18,660 --> 00:27:22,780

up in just a moment on sightings of unidentified flying objects.

414

00:27:22,780 --> 00:27:23,780

Hi.

415

00:27:23,780 --> 00:27:24,780

Hi.

416

00:27:24,780 --> 00:27:25,780

Don't you ever smile?

417

00:27:25,780 --> 00:27:26,780

Only on my new job at Revco.

418

00:27:26,780 --> 00:27:27,780

Lady, I'm Larry O'Leary.

419

00:27:27,780 --> 00:27:28,780

Larry, the Laughters O'Leary.

420

00:27:28,780 --> 00:27:29,780

The world's champion, yes.

421

00:27:29,780 --> 00:27:30,780

Right.

422

00:27:30,780 --> 00:27:40,860

Smacked me in the teeth with the unused portion of any product and I'm in heaven.

423

00:27:40,860 --> 00:27:50,380

In other words, you only smile when people complain and want their money cheerfully refunded?

424

00:27:50,380 --> 00:27:51,380

Right.

425

00:27:51,380 --> 00:27:53,380

A really indignant complaint can be sheer poetry.

426

00:27:53,380 --> 00:27:56,780

Well, how are the complaints going for you at Revco?

427

00:27:56,780 --> 00:27:59,020

No, I'm a little disappointed.

428

00:27:59,020 --> 00:28:03,260

I figured with that great written money back guarantee I'd really get a workout.

429

00:28:03,260 --> 00:28:08,300

But you know, Revco products are manufactured under rigid controls for highest quality and

430

00:28:08,300 --> 00:28:10,900

prices are 30 to 50 percent lower.

431

00:28:10,900 --> 00:28:16,100

Revco goes so far out of its way to satisfy people, they're just earning up dissatisfied

432

00:28:16,100 --> 00:28:17,980

customers at Revco.

433

00:28:17,980 --> 00:28:20,140

I don't get a chance to fulfill myself.

434

00:28:20,140 --> 00:28:22,140

Oh, it must be very frustrating.

435

00:28:22,140 --> 00:28:27,860

23 minutes now before 11 o'clock, I have a number of questions I'd like to get into

436

00:28:27,860 --> 00:28:31,380

with my guests based on what they've said already, but let me defer to you and take

437

00:28:31,380 --> 00:28:32,380

some of your calls first.

438

00:28:32,380 --> 00:28:33,380

It's 7814515.

439

00:28:33,380 --> 00:28:34,380

There you go.

440

00:28:34,380 --> 00:28:35,380

216, you are in contact.

441

00:28:35,380 --> 00:28:36,380

Go ahead, please.

442

00:28:36,380 --> 00:28:37,380

Yes, I have a question and a statement that I'd like to make.

443

00:28:37,380 --> 00:28:38,380

All right.

444

00:28:38,380 --> 00:28:39,380

And my question is that in one of the November issues of the Time Magazine, it was concerning

445

00:28:39,380 --> 00:28:40,380

with the New York Power Blackout.

446

00:28:40,380 --> 00:28:41,380

Yeah.

447

00:28:41,380 --> 00:28:42,380

In one of the pictures up in the right hand corner, I think it's a little bit of a bit

448

00:28:42,380 --> 00:28:43,380

of a bit of

449

00:28:43,380 --> 00:28:44,380

bit of a bit

450

00:28:44,380 --> 00:28:45,380

of a bgm.

451

00:28:45,380 --> 00:28:46,380

Let me just interrupt a second.

452

00:28:46,380 --> 00:28:50,960

If anybody at home listening has a copy, this is November 19th issue of 1965, the gentleman's

453

00:28:50,960 --> 00:28:53,900

referring to and it's about page 37.

454

00:28:53,900 --> 00:28:55,120

Go ahead, sir.

455

00:28:55,120 --> 00:29:08,360

Yes, in one of the pictures, I noticed up in the upper left corner, there's an 11.

456

00:29:08,360 --> 00:29:10,360

Go ahead sir.

457

00:29:10,360 --> 00:29:19,360

Yes, in one of the pictures, I noticed up in the upper right-hand corner, I think it is, there's an elliptical shaped object.

458

00:29:19,360 --> 00:29:25,360

If you have the issue there, it's quite distinguishable from any of the stars.

459

00:29:25,360 --> 00:29:27,360

Yeah, I have it right here in front of me.

460

00:29:27,360 --> 00:29:31,360

Yes, I was wondering if any of your guests were familiar with this.

461

00:29:31,360 --> 00:29:35,360

I know Earl has seen this, I guess, Alan. You and Rick have also seen this.

462

00:29:35,360 --> 00:29:37,360

Yes, we have.

463

00:29:37,360 --> 00:29:41,360

George, are you familiar with the picture the gentleman was talking about?

464

00:29:41,360 --> 00:29:51,360

Yes, I'm particularly interested in this viewpoint because of the blackout connection that I have been one of the first groups, I guess, to mention the possible connection and the more probable connection.

465

00:29:51,360 --> 00:30:00,360

Because the number of sites that occurred over New York and Canada, Pennsylvania and New Jersey, which are still coming into my house right here in eastern Pennsylvania,

466

00:30:00,360 --> 00:30:10,360

related to the blackout, where not only was this object photographed in Provision Time magazine, but Jet Plains was sent over Manhattan to chase the object.

467

00:30:10,360 --> 00:30:18,360

Oh, well this aspect of it, I want to hear from you in just a minute or so. Let me just say, and

then hear from my guests what they have to say, that I noticed this two weeks ago,

468

00:30:18,360 --> 00:30:28,360

when we did the program of Lawman and Flying Saucers, and I was turning the page and I see this thing which obviously looks like something of a flying saucer nature up there.

469

00:30:28,360 --> 00:30:36,360

I've read the caption down below, and there's no mention of it, whatever in the caption, it just says, a view southwest from the Time Life Building, 20 minutes after the blackout, so forth.

470

00:30:36,360 --> 00:30:45,360

No mention of this object that jumps off of the page into the middle of your eyeball and you cannot miss it, and yet there's no explanation whatsoever.

471

00:30:45,360 --> 00:30:51,360

So I call time in New York City to find out, and I talk to a picture editor up there and I said, well what's the story?

472

00:30:51,360 --> 00:30:59,360

Here this picture is and there's obviously something that could be misconstrued perhaps as a flying saucer, no mention of it.

473

00:30:59,360 --> 00:31:07,360

He said, well we don't know, you have to ask the photographer. So I tried to get a hold of the photographer, author, Rickerby, and the body did get his number, but I hasten to say, I forgot about it.

474

00:31:07,360 --> 00:31:14,360

I meant to call him before the broadcast tonight and did not love to get the story. Now that's my own experience with it, which is nothing. Any of you, Earl?

475

00:31:14,360 --> 00:31:17,360

I can tell you quite a little about it if you let me harm.

476

00:31:17,360 --> 00:31:19,360

I'll let you.

477

00:31:19,360 --> 00:31:21,360

Right.

478

00:31:21,360 --> 00:31:29,360

Arthur Rickerby of Life Magazine made this photograph and it was reproduced as we say in time.

479

00:31:29,360 --> 00:31:46,360

I guess I was one of the first perhaps to write to him, and I was very pleased to receive from Amy Mushher writing for the editors a very nice three stanza poem, which was not done in duplicate.

480

00:31:46,360 --> 00:31:57,360

This was a genuine typewritten little poem and I wish I had brought it with me. It's cute as a dickens, but at the last, the last line says, no, it's not Mars, but Venus.

481

00:31:57,360 --> 00:32:15,360

Now, my friend of mine, Mrs. Dean Deal from Lime, Ohio on the November the 14th, mailed me a letter, airmail, and in this on the second paragraph, it says, a pilot, Weldon Ross of Syracuse, New York reported to the Syracuse newspaper,

482

00:32:15,360 --> 00:32:29,360

Evening Standard, that on the night of the Northeast blackout at the time the blackout started, he saw, and this is in quotes, a huge fireball over the main clay Niagara power line near clay, New York.

483

00:32:29,360 --> 00:32:44,360

He saw flashes of fire. Item continued that clay had earlier been pinpointed as the possible center and source of the electrical failure, but officials had checked it immediately and found no evidence before a pilot made this report.

484

00:32:44,360 --> 00:32:57,360

Now, another friend of mine, Mr. Larry Moyers of Akron from the Flying Saucer Investigations

Committee there called Mr. Arthur Riccobay and spoke to him on the phone.

485

00:32:57,360 --> 00:33:07,360

And Riccobay said, well, it's possible, this is the photographer, he said it's possible it could be a lens refraction, but it wasn't.

486

00:33:07,360 --> 00:33:09,360

Had he noticed it in his negative?

487

00:33:09,360 --> 00:33:18,360

No, well, yes, he had noticed in the negative, but he said in answer to a number of questions, it could be this, it could be that, but each time he'd say, but it wasn't.

488

00:33:18,360 --> 00:33:32,360

So then Mr. Moyers said, could it have been a UFO? He said, possibly. And then Mr. Moyers said, did you notice this object in the sky when you took this very beautiful shot of the blackout of New York?

489

00:33:32,360 --> 00:33:43,360

He said, no, I did not. Then I wrote a letter to Mr. Roger Pangeaquet of Geneva, Switzerland. He was very concerned about this.

490

00:33:43,360 --> 00:33:55,360

And later in the evening when we go into this detector, this is the one that he invented, UFO detector, he wrote to me, can you possibly furnish me a copy of this immediately?

491

00:33:55,360 --> 00:34:04,360

So I did, I sent him an entire magazine and he's even photographed it and here's one of the slides he's returned to me and thanking me for it.

492

00:34:04,360 --> 00:34:15,360

But he says it's one of the very fine UFOs and is similar to the one he has sent me from both Australia and from Spain. They look identical.

493

00:34:15,360 --> 00:34:28,360

How can he, without reservation, say this is one of the finest UFOs? That's a firm, affirmative answer. Now this is a picture and it's easy to say it could be a UFO, but can he say it is?

494

00:34:28,360 --> 00:34:41,360

Well, he went into great detail telling that the UFO was an elliptical object and that the force fields coming from it formed the two cones, the one above and the one below.

495

00:34:41,360 --> 00:34:48,360

In other words, here's... That's purely supposition though. He doesn't know that. He's saying it could be. It could be force fields. They could be force fields, yes.

496

00:34:48,360 --> 00:35:03,360

But what he is saying is that on numerous occasions UFOs have been spotted, have been photographed and when they were, this particular effect was given like in the one down in Beaver Falls that the eye does not see.

497

00:35:03,360 --> 00:35:17,360

Now these force fields apparently are not visible to our human eyes. But it was interesting to me that he said he had picked up four of the magazines in Europe and took them home and he said, I was deceived.

498

00:35:17,360 --> 00:35:26,360

They were all black and whites. In other words, this is the Atlantic issue that they get over there and where we have beautiful color in ours, they get them purely in black and white. The copies are the same, however.

499

00:35:26,360 --> 00:35:48,360

But I thought it was interesting that this should happen to have aroused his interest. Here's a man who belongs to seven organizations. He writes for the British Flying Saucer Review. He is an engineer. He is the president of the big Panjake company over there in Switzerland and not just a casual observer.

500

00:35:48,360 --> 00:35:52,360

All right, Adlin, you don't think about this same picture?

501

00:35:52,360 --> 00:36:03,360

Well, yes, I'm not going to make any claims for it. Is there isn't. But there's one thing that there is a good claim that there isn't a flying saucer and that is an entangulation and with maps and this is done with coordinate systems.

502

00:36:03,360 --> 00:36:08,360

This object indefinitely in all appearances is in the same exact place as the planet Venus.

503

00:36:08,360 --> 00:36:09,360

It is?

504

00:36:09,360 --> 00:36:10,360

Yes, it is.

505

00:36:10,360 --> 00:36:13,360

The same exact place that Venus was at that night at that time?

506

00:36:13,360 --> 00:36:25,360

Yes, but there's one thing. If you look at the lights on the street there, they are blur. And so is the planet Venus. But this looks like, and it all probably is a light refraction of either a light in the street or the planet Venus.

507

00:36:25,360 --> 00:36:27,360

I will not make a claim for it of being a flying saucer.

508

00:36:27,360 --> 00:36:30,360

George Saucer or Rick?

509

00:36:30,360 --> 00:36:42,360

I'd like to just say that we had reports here over East and Pennsylvania of objects moving towards New Jersey. Then they flew into New Jersey News that night, had reports of objects moving from there towards New York.

510

00:36:42,360 --> 00:36:50,360

Then the sightings by the pilot over at Syracuse, New York and near the power lines where the object was also located by some of the other people on the ground.

511

00:36:50,360 --> 00:37:01,360

And then since that time, sightings have cropped up all up and down the east coast that particular night. And some of these objects not only in the air but very close to the ground, tree top level.

512

00:37:01,360 --> 00:37:19,360

And going back into history of blackouts, one occurred back in August 17, 1959 down in Brazil where an engineer radioed in, phoned in to the chief headquarters of the power plant that his sub-station had been put out of action by an unidentified flying object flying over the ground.

513

00:37:20,360 --> 00:37:25,360

And in the meantime, he told them that it was headed towards the main plant, the power plant.

514

00:37:25,360 --> 00:37:31,360

And the chief engineer went outside and saw it come over and when it came over the power plant, the power was off there for several hours.

515

00:37:31,360 --> 00:37:52,360

That was in 1959. Then in 1962, the Air Force submitted their radar and had tracked an object moving from New York all the way out to Utah where it landed outside a power station at Eureka, Utah, and sorted out the power station for at least an hour before they restored power there.

516

00:37:52,360 --> 00:38:03,360

And this was when the object landed nearby and then the object took off and was chased by jet planes out towards California and exploded somewhere above California according to the newspaper reports.

517

00:38:03,360 --> 00:38:21,360

George, I'm going to ask you on this. On this specific picture though, in Time Magazine, page 37, November 19, let me just ask you and Rick also, your opinion, based on what you know, based on what you've seen, what information you have, do you think it is an unidentified flying object or a flying saucer?

518

00:38:21,360 --> 00:38:25,360

I have not seen the photograph, my sir, so that lets me up.

519

00:38:25,360 --> 00:38:36,360

I myself have not formed any opinion. I have the knowledge that there is sometimes a lens refraction which creates images of this kind.

520

00:38:36,360 --> 00:38:50,360

The part that rather confuses me just now is what Alan just mentioned a few moments ago about Venus because I recall earlier, Al, that you had checked the New York skyline, the buildings, etc.

521

00:38:50,360 --> 00:39:01,360

And against the position north, south, east, and so forth. And at that time you had mentioned to me that Venus was close but not there. Have you recently rechecked?

522

00:39:01,360 --> 00:39:08,360

No. It was in that vicinity, or the elevation of this picture being taken has to be taken in effect. It could all probably have been this.

523

00:39:08,360 --> 00:39:10,360

I was just wondering what your change of...

524

00:39:10,360 --> 00:39:14,360

And you know, many pictures, we've got many pictures on our files that show light refractions, claiming it's UFO.

525

00:39:14,360 --> 00:39:15,360

That look like this.

526

00:39:15,360 --> 00:39:19,360

Right, but then again, some that you do photograph that do look like this picture.

527

00:39:19,360 --> 00:39:26,360

Exactly. I don't know for a while myself if it is a genuine UFO or not. I was merely reporting what I had learned from Switzerland.

528

00:39:26,360 --> 00:39:27,360

Rick, what do you think?

529

00:39:27,360 --> 00:39:32,360

Well, I tell you, along with the Elm Annik, I believe that it is a planet Venus. I'd also like to ask...

530

00:39:32,360 --> 00:39:33,360

That large?

531

00:39:33,360 --> 00:39:40,360

Well, since it was a time exposure, Earl, now you have to take that into consideration now. If you'll notice the window lights were blurred.

532

00:39:40,360 --> 00:39:45,360

And some of the auto headlights were blurred. And also the object could have been blurred.

533

00:39:45,360 --> 00:39:51,360

And since it is quite a bright light source, it's possible that it could appear to be a UFO.

534

00:39:51,360 --> 00:39:53,360

I tend to agree with Al that it is Venus.

535

00:39:53,360 --> 00:39:57,360

Do you agree, though, that it's a jet plane on the next page?

536

00:39:57,360 --> 00:40:01,360

Definitely. It's either a helicopter, a jet plane, I'm not sure.

537

00:40:01,360 --> 00:40:03,360

Did you see that, Earl?

538

00:40:03,360 --> 00:40:04,360

Now, sit up closer. Go ahead, Rick.

539

00:40:04,360 --> 00:40:06,360

Yeah, I'd like to ask George for a set of questions. George?

540

00:40:06,360 --> 00:40:07,360

Yes.

541

00:40:07,360 --> 00:40:13,360

Now, you mentioned that on the night of the Blackout, you had received reports from New Jersey and Pennsylvania.

542

00:40:13,360 --> 00:40:17,360

Now, what sources do these come from, from people calling in your group or what?

543

00:40:17,360 --> 00:40:27,360

Some of these sources were the first one, the original one, was of two young boys who reported a large, round, reddish-orange object to the voice of the people.

544

00:40:27,360 --> 00:40:31,360

WST radio here in eastern Pennsylvania.

545

00:40:31,360 --> 00:40:36,360

And they said it was moving towards the east and towards the New Jersey, towards Filmsburg, New Jersey.

546

00:40:36,360 --> 00:40:45,360

Then, from the newspaper account that appeared in the Flimington, New Jersey newspaper, a couple of days later, a couple reported that they had watched an object that night,

547

00:40:45,360 --> 00:40:49,360

just proud to, and doing the Blackout, moving towards New York.

548

00:40:49,360 --> 00:40:53,360

And this was headed towards New York in a more or less direct, straight line.

549

00:40:53,360 --> 00:40:59,360

Now, it seemed to have been directed also towards Syracuse in that direction near the...

550

00:40:59,360 --> 00:41:03,360

I can't think right now the name of the airport there, but I know that there are power lines.

551

00:41:03,360 --> 00:41:10,360

In fact, the pilot himself reported that he saw the object, and he was sure the object was very near the power lines running into New York.

552

00:41:10,360 --> 00:41:14,360

All right, we're going to move along. Take that next call at 7814515.

553

00:41:14,360 --> 00:41:19,360

If you're calling long distance, the area code 216, sightings of unidentified flying objects.

554

00:41:19,360 --> 00:41:23,360

This is Harold Morgan. You're in contact. Go ahead, please.

555

00:41:23,360 --> 00:41:25,360

May we have your question, please?

556

00:41:25,360 --> 00:41:32,360

Yes, sir. I have a question on this object that I have spotted on several occasions.

557

00:41:32,360 --> 00:41:36,360

And I was wondering if possibly one of the gentlemen there in the studio could help me out.

558

00:41:36,360 --> 00:41:41,360

Yes, sir. I'll take that call. What did the object look like, and when did you first see it?

559

00:41:41,360 --> 00:41:46,360

Well, actually, I've seen it over a long period of months since last summer.

560

00:41:46,360 --> 00:41:48,360

What did it appear like, sir?

561

00:41:48,360 --> 00:41:52,360

Well, to the naked eye, it just looks like a giant bright star.

562

00:41:52,360 --> 00:41:54,360

Where do you see it?

563

00:41:54,360 --> 00:41:58,360

Actually, it's in the northeast part of the sky.

564

00:41:58,360 --> 00:41:59,360

And where do you live?

565

00:41:59,360 --> 00:42:07,360

I live on the west side, and upon looking at it with the naked eye, it looks like a real bright star.

566

00:42:07,360 --> 00:42:18,360

But I have observed it with powerful binoculars and a telescope, and under observation in this manner, it has a red light,

567

00:42:18,360 --> 00:42:26,360

and it flashes. And then, on other times when I have observed this object, it is just a constant red light.

568

00:42:26,360 --> 00:42:30,360

And you say this is in the northeast, you see this object?

569

00:42:30,360 --> 00:42:31,360

Right, in the northeast.

570

00:42:31,360 --> 00:42:34,360

It's just a stationary object?

571

00:42:34,360 --> 00:42:35,360

Yes.

572

00:42:35,360 --> 00:42:36,360

And you've viewed it too?

573

00:42:36,360 --> 00:42:43,360

This is the thing that is very puzzling to me. It remains stationary, so it couldn't be a plane or a weather satellite or anything else.

574

00:42:43,360 --> 00:42:45,360

What time of the night do you see this object, sir?

575

00:42:45,360 --> 00:42:51,360

Well, I've observed it many different times. I've seen this not one time, I've seen it numerous times.

576

00:42:51,360 --> 00:42:58,360

Now, my next door neighbor is a member of many UFO organizations. He's an active member.

577

00:42:58,360 --> 00:43:01,360

Well, what is the elevation of the object? Can you give that?

578

00:43:01,360 --> 00:43:03,360

Well, see, that's hard to say really.

579

00:43:03,360 --> 00:43:05,360

Well, see, there isn't quite no...

580

00:43:05,360 --> 00:43:06,360

It's a hundred feet, though.

581

00:43:06,360 --> 00:43:10,360

For me, it would be hard to judge, but it would be several hundred feet.

582

00:43:10,360 --> 00:43:12,360

Do you mean any given night? You can go out there and there it is?

583

00:43:12,360 --> 00:43:17,360

No, not any given night, but I have seen it on different nights and at different times of the night.

584

00:43:17,360 --> 00:43:23,360

Well, sir, when you see it the next time, you call 234-0861 and we'll try to get a triangulation on the object.

585

00:43:23,360 --> 00:43:29,360

And right now, I can see that there's nothing there. There's no star. That's that bright in that northeastern sky right now.

586

00:43:29,360 --> 00:43:34,360

If it was overhead, I would call it the planet Jupiter, but even a star's move, you know, fifteen degrees an hour.

587

00:43:34,360 --> 00:43:36,360

What does your next door neighbor say about it?

588

00:43:36,360 --> 00:43:37,360

Has you seen it?

589

00:43:37,360 --> 00:43:38,360

Pardon me?

590

00:43:38,360 --> 00:43:39,360

Has you seen it?

591

00:43:39,360 --> 00:43:45,360

Yes, many times I've seen it and I went to the door and got him outside with me and he is the one that has the telescope.

592

00:43:45,360 --> 00:43:47,360

And you see it through the telescope?

593

00:43:47,360 --> 00:43:54,360

Yes, we have observed it and because it is so luminous, so bright, you can't determine any definite shape to it.

594

00:43:54,360 --> 00:43:55,360

I see, all right.

595

00:43:55,360 --> 00:43:58,360

And he has taken this information to meetings with him and...

596

00:43:58,360 --> 00:43:59,360

Which meetings?

597

00:43:59,360 --> 00:44:02,360

Well, he's a member of APRO and...

598

00:44:02,360 --> 00:44:05,360

Yes, we have meetings locally here once a month.

599

00:44:05,360 --> 00:44:11,360

Every third Saturday at the Congress savings bank building in Plama.

600

00:44:11,360 --> 00:44:13,360

Well, I don't believe it has been with a national...

601

00:44:13,360 --> 00:44:14,360

Well, this is...

602

00:44:14,360 --> 00:44:18,360

...the northern hemisphere. This has been a local club of which there are probably twenty or thirty members.

603

00:44:18,360 --> 00:44:25,360

All right, so I'd like to have you call 234-0861. The next time you see this object and we'll put a triangulation on it. We also have telescopes.

604

00:44:25,360 --> 00:44:26,360

I see.

605

00:44:26,360 --> 00:44:34,360

All right, so thank you very much for calling. The number 7814515. We'll take that next call coming up on sightings of UFOs in just a moment.

606

00:44:36,360 --> 00:44:43,360

Some guys have it. Yeah, yeah, yeah. Some guys never will.

607

00:44:44,360 --> 00:44:50,360

Some guys have it. Yeah, yeah, yeah. Some guys never will.

608

00:44:51,360 --> 00:44:58,360

Yardly, yardly, black label, disabled.

609

00:44:58,360 --> 00:45:04,360

Some guys never will.

610

00:45:05,360 --> 00:45:11,360

Some guys never will.

611

00:45:12,360 --> 00:45:21,360

Some guys never will.

612

00:45:21,360 --> 00:45:28,360

Go where the action is with black label after she feels like a flung surf like cool like

613

00:45:28,360 --> 00:45:34,360

a live slap it on she'll get the message hardly black label for guys who've got it.

614

00:45:34,360 --> 00:45:38,360

Six minutes now before 11 o'clock if you're calling long distance especially those of you

615

00:45:38,360 --> 00:45:44,360

let me throw out the invitation tonight and then you've the 30 odd states that received

616

00:45:44,360 --> 00:45:51,360

the signal of WKYC that if you in your own locale have seen or heard of close second

617

00:45:51,360 --> 00:45:55,360

hand information about sightings of your own let us know tonight perhaps there are sightings

618

00:45:55,360 --> 00:46:00,360

that we have not heard of especially I guess we very few or at least I've heard of very

619

00:46:00,360 --> 00:46:06,360

few sightings down around the central south like Alabama, Mississippi, Tennessee any of

620

00:46:06,360 --> 00:46:09,360

you down there who have seen something let us know about it maybe we can correlate some

621

00:46:09,360 --> 00:46:15,360

information with members of NYCAP and Cleveland Ufology project and editors of UFO magazine

622

00:46:15,360 --> 00:46:18,360

that we have here in the studio as well as George Bossette on the line.

623

00:46:18,360 --> 00:46:23,360

Let's have that next call at 7814515 I didn't mention if you are calling long distance it's

624

00:46:23,360 --> 00:46:26,360

216 this is Harv Morgan you're in contact.

625

00:46:26,360 --> 00:46:32,360

Does the UFO ever try to capture or shoot down these unidentified flying objects?

626

00:46:32,360 --> 00:46:34,360

Does the UFO try and shoot them down?

627

00:46:34,360 --> 00:46:35,360

UFO.

628

00:46:35,360 --> 00:46:40,360

Well you mean a UFO is an unidentified flying object you mean does it try to shoot each

629

00:46:40,360 --> 00:46:42,360

other down or what are you talking about?

630

00:46:42,360 --> 00:46:50,360

Well the people that the companies that are in charge of it to send up planes.

631

00:46:50,360 --> 00:46:53,360

You mean as the US government ever tried to shoot them down?

632

00:46:53,360 --> 00:46:54,360

Yeah.

633

00:46:54,360 --> 00:46:59,360

I can answer that question the US government had a shoot down order in 1952 but as far as

634

00:46:59,360 --> 00:47:01,360

we're concerned they never brought one down.

635

00:47:01,360 --> 00:47:07,360

Many people we have many cases where the object itself is proving to be a metallic or a material

636

00:47:07,360 --> 00:47:14,360

object was hit with bullets and also it debris that time but as far as they ever brought one

637

00:47:14,360 --> 00:47:17,360

down we have no answer.

638

00:47:17,360 --> 00:47:20,360

I was just going to say I was talking to the Air Force man just recently he's still in the

639

00:47:20,360 --> 00:47:25,360

force and I naturally won't mention his name or where he lives but I happen to be in contact

640

00:47:25,360 --> 00:47:30,360

with him and he said that the president is absolutely true that they are supposed to take

641

00:47:30,360 --> 00:47:35,360

their planes and hover over them and do whatever they can to get one right down and examine

642

00:47:35,360 --> 00:47:36,360

it of course.

643

00:47:36,360 --> 00:47:38,360

This is a ridiculous thing to do.

644

00:47:38,360 --> 00:47:43,360

By the way I might mention that speaking of these UFOs and their metallic substance and

645

00:47:43,360 --> 00:47:47,360

so forth when Major Keel was here on the Mike Douglas show last year he made a statement

646

00:47:47,360 --> 00:47:53,360

and it was printed in the Cleveland plane dealer and I had forgotten this but Nicholas Nester

647

00:47:53,360 --> 00:47:58,360

sent me this proof and I just got it in time for tonight's show and on the plane dealer's

648

00:47:58,360 --> 00:48:05,360

Monday August 10th 1964 page 18 he said this Keel was saying in his pursuit of UFO information

649

00:48:05,360 --> 00:48:09,360

Keel said he found the object can fly about 9,000 miles an hour that they are made of a

650

00:48:09,360 --> 00:48:15,360

strange metal capable of evaporating and that traces of radioactivity have been discovered

651

00:48:15,360 --> 00:48:17,360

where the ships were said to have landed.

652

00:48:17,360 --> 00:48:23,360

Now with all this in mind and the interest of the Air Force here is a statement credited

653

00:48:23,360 --> 00:48:28,360

to the Air Force by a writer of the Associated Press and I have this before me this was last

654

00:48:28,360 --> 00:48:30,360

April this thing came down.

655

00:48:30,360 --> 00:48:34,360

He said the conclusion of the Air Force is there is no evidence that there are alien

656

00:48:34,360 --> 00:48:40,360

interplanetary space vehicles under some form of intelligent control landing in the USA.

657

00:48:40,360 --> 00:48:46,360

Now as you know the Air Force conning us on this you mean the Air Force really believes

658

00:48:46,360 --> 00:48:49,360

that there are no such things as flying saucers?

659

00:48:49,360 --> 00:48:56,360

No they don't. There is Air Force regulation 200-2. There is Janet 146B which is the joint

660

00:48:56,360 --> 00:49:02,360

Army Navy Air Force publications and I personally know I was in the Air Force and I know personal

661

00:49:02,360 --> 00:49:06,360

friends that are still in the Air Force and that we are high officers and there is definitely

662

00:49:06,360 --> 00:49:10,360

something there and they are definitely concerned about it and they are definitely gathering

663

00:49:10,360 --> 00:49:15,360

material which is called Project Blue Book on the Wright-Patterson field right today.

664

00:49:15,360 --> 00:49:20,360

As a matter of fact in this respect let me mention that earlier as I mentioned that McKinley

665

00:49:20,360 --> 00:49:23,360

Cantor the author of Andersonville will be on the program during the course of the last

666

00:49:23,360 --> 00:49:29,360

hour I talked to him earlier in the day reporting that he has seen a flying saucer. He also passes

667

00:49:29,360 --> 00:49:33,360

along some quite interesting information about the just recently retired Air Force General

668

00:49:33,360 --> 00:49:40,360

Curtis LeMay and the statements that General LeMay had made sort of off the record to McKinley

669

00:49:40,360 --> 00:49:45,360

Cantor and I think that will surprise you. It certainly surprised me, a retired Air Force

670

00:49:45,360 --> 00:49:49,360

General making some of the statements he did concerning flying saucers. Our time is just

671

00:49:49,360 --> 00:49:53,360

about up for right now. We will have time to take more calls. We will take more calls than ever

672

00:49:53,360 --> 00:49:57,360

during the course of the next hour here on Contact. If you would like to be reserving your place on the

673

00:49:57,360 --> 00:50:05,360

line the number is 7814515. The area code for those of you calling long distance is 216.

674

00:50:05,360 --> 00:50:08,360

We are trying something different tomorrow night. Let me just take a moment that I have here to

675

00:50:08,360 --> 00:50:14,360

remind you about it. Of course frequently on Friday nights we have a sound off contact. When you

676

00:50:14,360 --> 00:50:19,360

get a chance to call in and sound off on well virtually anything you'd like to talk about. I won't argue

677

00:50:19,360 --> 00:50:23,360

with you all the time. Sometimes we'll get into a devil's advocate position on just to be ornery

678

00:50:23,360 --> 00:50:27,360

taking the outside of something that you'd like to talk about. But tomorrow night we'll try something

679

00:50:27,360 --> 00:50:33,360

a little bit different. Contact, contacts you portion. Oh yes we'll be taking some of your calls

680

00:50:33,360 --> 00:50:37,360

as usual. You can call in tomorrow night but we'll also be making some calls to those of you who

681

00:50:37,360 --> 00:50:42,360

over the course of the past years have been dropping us some mail and maybe voicing some strong

682

00:50:42,360 --> 00:50:47,360

opinions. We'll be calling some of you who have been writing in tomorrow night. Sort of a reverse

683

00:50:47,360 --> 00:50:52,360

contact. Sounding you out on what you had to write about. That's tomorrow night here on Contact.

684

00:50:52,360 --> 00:50:57,360

We'll get back together with Rick Hilberg, George Fossette and Alan Manick and Earl Naff and being

685

00:50:57,360 --> 00:51:04,360

joined very shortly by WKYC weatherman Ken Goodman. Back together following the news at 7814515

686

00:51:04,360 --> 00:51:09,360

on WKYC Cleveland, Ohio NBC in Cleveland. It's 11 o'clock.

687

00:51:09,360 --> 00:51:18,360

WKYC in Cleveland, Cleveland, Cleveland, Cleveland.

688

00:51:18,360 --> 00:51:38,360

The number is 7814515. Ufology 1966. Well he's going to replace Mark and Howard when they go on

vacation I guess.

689

00:51:38,360 --> 00:51:45,360

Yes. Thank you Ken. And we'll have another Ken join us very soon on the UFO program here tonight.

690

00:51:45,360 --> 00:51:50,360

Ken Goodman WKYC weatherman will be dropping in with an experience that happened to him a number of years ago

691

00:51:50,360 --> 00:51:56,360

and I found it quite amazing, quite moving. We'll also be listening to Mr. McKinley Cantor, the author of

692

00:51:56,360 --> 00:52:03,360

Andersonville and the author of the Newer book that came out a few months ago, the story of General Curtis LeMay.

693

00:52:03,360 --> 00:52:09,360

Right now let's take some calls for my guests, Earl Naff, Alan Manick, Rick Hilberg and on the contact line to

694

00:52:09,360 --> 00:52:16,360

Pennsylvania, Mr. George Fossett. Let's have that next caller. 7814515 puts you in contact.

695

00:52:16,360 --> 00:52:17,360

Hello? Yes.

696

00:52:17,360 --> 00:52:22,360

First of all I'd like to say that this question was directed to any member of the panel tonight.

697

00:52:22,360 --> 00:52:23,360

Okay.

698

00:52:23,360 --> 00:52:31,360

Well on your previous contact shows on UFO, the description has been, most many of them have had the description of a

699

00:52:31,360 --> 00:52:38,360

force field, whether it be magnetic or ionized or something like that. And when people see these, I'd like to know

700

00:52:38,360 --> 00:52:41,360

what does a force field look like?

701

00:52:41,360 --> 00:52:44,360

What does a force field look like? Well can you see it, isn't it?

702

00:52:44,360 --> 00:52:46,360

No, no, no.

703

00:52:46,360 --> 00:52:54,360

Well on your, one of your previous shows you had a woman think it's from North Carolina somewhere, said she saw an ionized force field.

704

00:52:54,360 --> 00:53:04,360

This was, this was a Madeleine road of her from Silver Spring, Maryland and she was seeing quite a number of things that night I think.

705

00:53:04,360 --> 00:53:05,360

Yes.

706

00:53:05,360 --> 00:53:11,360

In fact I've never seen some of the things that I asked to see that night as I recall. We asked her to send us some information, some pictures and all like this and she

707

00:53:11,360 --> 00:53:13,360

you know, because she wouldn't, she never had it.

708

00:53:13,360 --> 00:53:21,360

I've written her several letters with enclosed stamped address, don lopes and all, but have never received anything and frankly I don't know when a person is

709

00:53:21,360 --> 00:53:26,360

telling something like she was telling last night why she wouldn't support it with positive evidence.

710

00:53:26,360 --> 00:53:27,360

Rick?

711

00:53:27,360 --> 00:53:44,360

Well this is Rodefer, express the opinion that UFOs come from underground caves and the man who started this all, his name is Richard Shaver and he started it in one of the science fiction magazines in the 40s and curiously enough this man was in a mental institution.

712

00:53:44,360 --> 00:53:47,360

So I wouldn't put too much stock into that story.

713

00:53:47,360 --> 00:53:57,360

I heard this from other sources though that there are some people who yes indeed believe that they've only come from under the earth but there's one theory isn't it, that they come, there was a whole civilization under the north pole.

714

00:53:57,360 --> 00:54:00,360

That's the doctor Bernard.

715

00:54:00,360 --> 00:54:01,360

Bernard yes.

716

00:54:01,360 --> 00:54:07,360

It's the same thing as Shaver, Deros and Demos and whatever.

717

00:54:07,360 --> 00:54:08,360

Who does that know either?

718

00:54:08,360 --> 00:54:10,360

All right so does that answer your question?

719

00:54:10,360 --> 00:54:11,360

Yes sir, thanks very much.

720

00:54:11,360 --> 00:54:12,360

Yes George?

721

00:54:12,360 --> 00:54:14,360

Let me interrupt just one second.

722

00:54:14,360 --> 00:54:34,360

I think it's not so important sometimes what people see is what happens when the objects are around related to force fields where people report as I've mentioned earlier programs heat burns, electric shock, temporary paralysis, dizziness and evasion, the loss of the ability to swallow properly, complete blackouts at times.

723

00:54:34,360 --> 00:54:41,360

Because of being too near these objects, even above the automobiles and the sky overhead, are you on the ground?

724

00:54:42,360 --> 00:54:56,360

As far as the blackouts of the lights and the dimouts of the radios, we've heard a great deal about this but are you satisfied as youthful investigators that these things actually happen Alan?

725

00:54:56,360 --> 00:55:03,360

Yes it has definitely proved that it has happened when UFO activity was in the area especially low UFOs.

726

00:55:03,360 --> 00:55:10,360

In one case they broke the headlines in the Cleveland papers here and very large headlines in the Hallman Air Base in 1957.

727

00:55:10,360 --> 00:55:14,360

This was heard around the country and in fact around the world where it stopped many automobiles.

728

00:55:14,360 --> 00:55:15,360

Is that right?

729

00:55:15,360 --> 00:55:19,360

Yes sir, at least there were 40 of them I guess and people were standing out there watching.

730

00:55:19,360 --> 00:55:34,360

I think that if I recall correctly the newscaster here was telling me just recently when he came in near the studio before we were on the air that what his name was down at 11 o'clock at night on television.

731

00:55:34,360 --> 00:55:35,360

Oh, on our station?

732

00:55:35,360 --> 00:55:36,360

Virgil Downey.

733

00:55:36,360 --> 00:55:48,360

Yes, Virgil was telling me that when he was in the service he saw a man who had, his car had stalled and several cars ahead of this gentleman had stalled as well.

734

00:55:48,360 --> 00:56:02,360

And this man was interrogated at great length and by the time the day was over he was then hospitalized and he said if he'd ever see one of these or had his auto affected by one of these again he'd never report it.

735

00:56:02,360 --> 00:56:08,360

Sure, let's do a front-end as many calls as possible in the next few minutes so we can play that interview that I had earlier today with Mr. McKinnon to Catterl.

736

00:56:08,360 --> 00:56:11,360

Mrs. Harold Morgan, you're in contact. Go ahead please.

737

00:56:11,360 --> 00:56:41,360

Yes, I'd like to know the names of several U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller  
U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller  
U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller  
U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller U-Foller  
U-Foller U-Foller U-Foller

738

00:56:41,360 --> 00:56:49,980

May, when I was interested, May, write Cleevin UFology project at 6434 Emery Drive, EMORY Drive

739

00:56:49,980 --> 00:56:54,580

6434 Emery Drive Cleevin 44142

740

00:56:55,020 --> 00:57:00,360

And we'll be glad to mail you out some free literature and tell you about our publication and also  
our meeting place and what takes place at our meetings.

741

00:57:00,360 --> 00:57:03,100

We have fine films and slides, many lectures.

742

00:57:03,100 --> 00:57:04,960

Any other organizations, Rick?

743

00:57:04,960 --> 00:57:08,720

summer the third annual congress of scientific ufologists will be held in

744

00:57:08,720 --> 00:57:09,680

cleveland

745

00:57:09,680 --> 00:57:13,280

uh... you might uh... the listeners i hope will mark this on their calendar

746

00:57:13,280 --> 00:57:17,280

because on june twenty-fifth from two p m two eleven p m

747

00:57:17,280 --> 00:57:20,280

at the valley for senior high school auditorium

748

00:57:20,280 --> 00:57:23,700

we will have people lecturing from all parts of the country mister gray

749

00:57:23,700 --> 00:57:24,700

barker

750

00:57:24,700 --> 00:57:27,040

uh... author of the best-selling book

751

00:57:27,040 --> 00:57:30,680

uh... mister jim moseley the editor of sauce news mister gordon evans well

752

00:57:30,680 --> 00:57:31,680

known new york

753

00:57:31,680 --> 00:57:33,560

science and you fall lecture

754

00:57:33,560 --> 00:57:37,080

and if you're interested in receiving information about the congress as to the

755

00:57:37,080 --> 00:57:38,040

dates

756

00:57:38,040 --> 00:57:40,040

uh... time and prices

757

00:57:40,040 --> 00:57:44,280

just uh... right to post office box twenty seven oh eight two seven oh eight

758

00:57:44,280 --> 00:57:45,760

cleveland eleven

759

00:57:45,760 --> 00:57:49,760

for all about uh... any organization well i'd i'd like to be when you mention

760

00:57:49,760 --> 00:57:52,920

jim's mostly here i don't know if i should take the time right now i guess

761

00:57:52,920 --> 00:57:56,200

many calls is possible right now we get into what i know you want to do

762

00:57:56,200 --> 00:57:59,800

like that's a good organization in washington fifteen thirty six connecticut

763

00:57:59,800 --> 00:58:03,720

avenue northwest fifteen thirty six thirty six connecticut avenue

764

00:58:03,720 --> 00:58:09,120

washington thirty six dc and all you put down our capital letters and i see a p

765

00:58:09,120 --> 00:58:09,960

price

766

00:58:09,960 --> 00:58:13,300

but let's just put down the letter seven eight one four five one five and that

767

00:58:13,300 --> 00:58:16,560

puts you in contact right now go ahead please

768

00:58:16,560 --> 00:58:20,680

uh... i heard it when it comes to the full of the effort taken on the moon from

769

00:58:20,680 --> 00:58:22,880

observatory overworld at

770

00:58:22,880 --> 00:58:25,440

they have from actually uh...

771

00:58:25,440 --> 00:58:26,440

the important

772

00:58:26,440 --> 00:58:28,920

uh... for the great activity of the moon from

773

00:58:28,920 --> 00:58:31,320

officers

774

00:58:31,320 --> 00:58:32,440

that maybe

775

00:58:32,440 --> 00:58:35,160

sometimes they have for a great fleet of thoughts of the moon

776

00:58:35,160 --> 00:58:36,040

and um...

777

00:58:36,040 --> 00:58:37,160

that the moon

778

00:58:37,160 --> 00:58:39,440

to the news of the base by other

779

00:58:39,440 --> 00:58:41,740

things might have been before we ever

780

00:58:41,740 --> 00:58:45,600

had the intention of photographing the moon or studying about it too

781

00:58:45,600 --> 00:58:49,400

there was never actually any saucers seen on the moon uh... some there were

782

00:58:49,400 --> 00:58:51,680

claims of some from amateur

783

00:58:51,680 --> 00:58:55,440

uh... strong as but the actual strong or ht wilkins of england

784

00:58:55,440 --> 00:58:59,280

uh... his job was nothing more than the moon and he has made uh... very many

785

00:58:59,280 --> 00:59:00,480

calculations

786

00:59:00,480 --> 00:59:03,160

uh... professor and jesset past professor

787

00:59:03,160 --> 00:59:07,040

uh... made a lot of us are studies on the moon and there is to be activity but

788

00:59:07,040 --> 00:59:07,940

uh... it is

789

00:59:07,940 --> 00:59:09,840

unconfirmed yet as to what it is

790

00:59:09,840 --> 00:59:11,880

provably activity yes

791

00:59:11,880 --> 00:59:15,840

proved to be activity well activity as far as light sources are different ways

792

00:59:15,840 --> 00:59:19,800

are creators being either produced or shattered or something taking place on

793

00:59:19,800 --> 00:59:21,600

the moon yet which could be natural

794

00:59:21,600 --> 00:59:25,040

not right rather than than uh... manner creature made for now right

795

00:59:25,040 --> 00:59:26,760

right absolutely

796

00:59:26,760 --> 00:59:29,040

are you pretty well collected all four of you

797

00:59:29,040 --> 00:59:34,360

semi-satisfied that no there's no life on the moon no you're not satisfied

798

00:59:34,360 --> 00:59:35,320

no

799

00:59:35,320 --> 00:59:39,160

that's right now i don't believe that any life is we know it and by the way this

800

00:59:39,160 --> 00:59:41,920

is what the news media covers all the time you'll let me say

801

00:59:41,920 --> 00:59:45,160

life as we know it well we don't know about life as we don't know it but this is

802

00:59:45,160 --> 00:59:46,560

only supposition

803

00:59:46,560 --> 00:59:49,520

but uh... as far as uh... life as we know it

804

00:59:49,520 --> 00:59:52,480

well we're gonna be on the moon someday and as we know it from some other world

805

00:59:52,480 --> 00:59:53,360

could be there now

806

00:59:53,360 --> 00:59:57,600

but with all of the the photographic evidence we've had from

807

00:59:57,600 --> 00:59:58,480

the moon

808

00:59:58,480 --> 01:00:02,380

that shows no sign of life as we do or don't know it

809

01:00:02,380 --> 01:00:05,920

or no conditions where life could prevail as we do or don't know it

810

01:00:05,920 --> 01:00:07,040

well we're still not satisfied

811

01:00:07,040 --> 01:00:11,160

no we're not because there's just too much and also that back part of the moon

812

01:00:11,160 --> 01:00:13,560

with the two-thirds that we do not see

813

01:00:13,560 --> 01:00:17,900

uh... and now with the bridge uh... and the bridge uh... well there's

814

01:00:17,900 --> 01:00:20,860

a lot of controversy on that bridge it could be either a natural phenomena or

815

01:00:20,860 --> 01:00:22,660

somebody that was formed there because

816

01:00:22,660 --> 01:00:26,060

i guess uh... during the studies of this uh... moon and they've been studying it

817

01:00:26,060 --> 01:00:29,140

for two or three hundred years now two two hundred fifty years

818

01:00:29,140 --> 01:00:30,220

and uh...

819

01:00:30,220 --> 01:00:34,020

there's certain spots that are appearing on the moon which shouldn't be

820

01:00:34,020 --> 01:00:37,540

well i just like to mention that even the task well if that life which is uh...

821

01:00:37,540 --> 01:00:40,820

maybe up to three or four hundred uh... five hundred miles up

822

01:00:40,820 --> 01:00:43,660

according to several photographs that they have taken they've found no it's

823

01:00:43,660 --> 01:00:46,060

a life on the home plate yet and

824

01:00:46,060 --> 01:00:51,020

these moon quotes which has gone down to the south land is if you can believe everything the Russians say

825

01:00:51,020 --> 01:00:55,020

it's too early to say because remember they said the same thing about the matter of four

826

01:00:55,020 --> 01:00:56,980

first of no life no canals

827

01:00:56,980 --> 01:01:01,020

uh... it's just not the right place for life and yet just recently this has been

828

01:01:01,020 --> 01:01:05,100

reputed by many astronomers a particular colloquial convoin

829

01:01:05,100 --> 01:01:07,580

who says that uh... he has discovered

830

01:01:07,580 --> 01:01:11,780

uh... in the photographs the canals that were long years ago sketched by astronomers

831

01:01:11,780 --> 01:01:15,980

through their own personal observations because Ellen said there was much controversy about this

832

01:01:15,980 --> 01:01:17,740

well let's get to the next call

833

01:01:17,740 --> 01:01:21,060

7814515 puts you in contact

834

01:01:21,060 --> 01:01:22,180

go ahead please

835

01:01:22,180 --> 01:01:23,180

hello

836

01:01:23,180 --> 01:01:26,420

i would like to ask this

837

01:01:26,420 --> 01:01:31,380

since the Air Force hasn't made any statements concerning the presence of UFOs

838

01:01:31,380 --> 01:01:33,740

could it possibly be

839

01:01:33,740 --> 01:01:37,460

that these sightings are being conducted by our country

840

01:01:37,460 --> 01:01:40,900

and maybe for some reason the government isn't ready

841

01:01:40,900 --> 01:01:42,500

to be decent

842

01:01:42,500 --> 01:01:47,700

any information because it seems to me the Air Force must know or it doesn't know

843

01:01:47,700 --> 01:01:49,140

and if it doesn't know

844

01:01:49,140 --> 01:01:51,180

maybe it doesn't want to admit it

845

01:01:51,180 --> 01:01:58,420

well they've made statements as far as that goes the statement is that uh... to their knowledge there is no such thing as a flying saucer

846

01:01:58,420 --> 01:02:01,580

I mean this is a paraphrase but in essence that's what they mean

847

01:02:01,580 --> 01:02:03,180

but i know they have

848

01:02:03,180 --> 01:02:04,860

have said that

849

01:02:04,860 --> 01:02:06,220

and uh...

850

01:02:06,220 --> 01:02:10,060

I don't like fields where they have one of the big

851

01:02:10,060 --> 01:02:13,820

yes well we believe here at the Cleveland Uphology Project especially in

852

01:02:13,820 --> 01:02:18,820

uh... you can take a nightcap at American UFO committee and the rest of the major organizations of the country

853

01:02:18,820 --> 01:02:23,020

um... that we actually feel that there is enough information now

854

01:02:23,020 --> 01:02:24,020

to be said

855

01:02:24,020 --> 01:02:25,340

one way or the other

856

01:02:25,340 --> 01:02:28,580

that as far as they're admitting it they will not admit it openly

857

01:02:28,580 --> 01:02:29,620

but uh...

858

01:02:29,620 --> 01:02:34,060

I can't say secret either because there's too much documented evidence too many people we know

859

01:02:34,060 --> 01:02:35,900

too many things too many regulations

860

01:02:35,900 --> 01:02:41,020

the point is this the well and that they could could be these flying saucers be our own experiments

861

01:02:41,020 --> 01:02:41,900

no

862

01:02:41,900 --> 01:02:43,940

we shoot them down if they were

863

01:02:43,940 --> 01:02:45,740

have we shot them down that we know

864

01:02:45,740 --> 01:02:46,240

of

865

01:02:46,240 --> 01:02:52,040

i mean would we have a shoot down order to shoot them down if they were our own and if they're our own

866

01:02:52,040 --> 01:02:57,340

uh... we've only been off the ground some sixty years on the right brothers got us off the ground in planes

867

01:02:57,340 --> 01:03:00,720

and these have been seen for many many many years right

868

01:03:00,720 --> 01:03:04,180

I think we could be totally shoot them down if it wasn't i mean

869

01:03:04,180 --> 01:03:07,180

i mean we don't shoot our own people down

870

01:03:07,180 --> 01:03:09,060

who knows if any people in them

871

01:03:09,060 --> 01:03:15,100

well in this kind of government that we have it's hard enough to keep a secret as almost uh... any political party can tell you in a

872

01:03:15,100 --> 01:03:20,520

secret like this if it were being engaged in by our government is administration's change from

873

01:03:20,520 --> 01:03:24,660

republican to democrat and so forth and the reporters being as nosy as they are

874

01:03:24,660 --> 01:03:28,820

I have to say that purely a personal opinion that would be virtually impossible

875

01:03:28,820 --> 01:03:30,060

for this government

876

01:03:30,060 --> 01:03:31,660

to keep something under wraps

877

01:03:31,660 --> 01:03:34,380

uh... that long it was miracle enough that

878

01:03:34,380 --> 01:03:37,300

the Manhattan Project the uh... atomic bomb

879

01:03:37,300 --> 01:03:42,300

was kept a secret for the brief comparatively brief part of time that it was

880

01:03:42,300 --> 01:03:45,460

too many blabbermouths and too many political acts is to grind between the two parties

881

01:03:45,460 --> 01:03:51,180

well you know i i'm on the issue of things i'm not talking against them i'd like to let them see them because they really

882

01:03:51,180 --> 01:03:54,780

could scare the dickens out of me sometimes and

883

01:03:54,780 --> 01:03:55,580

uh... there is this

884

01:03:55,580 --> 01:04:00,020

I just went through my mind though could it be our own or security reasons or maybe

885

01:04:00,020 --> 01:04:02,380

I don't know that uh...

886

01:04:02,380 --> 01:04:04,900

they're not our own because they've been

887

01:04:04,900 --> 01:04:08,140

they've been watching these uh... these actual records go back and

888

01:04:08,140 --> 01:04:09,740

as far back as we can permit

889

01:04:09,740 --> 01:04:14,340

and the same kind the same type of sightings are explained the same way in the science and

890

01:04:14,340 --> 01:04:17,620

so-called top men of the world at that time

891

01:04:17,620 --> 01:04:21,260

all proved that these things don't exist yet this is before our country is even born

892

01:04:21,260 --> 01:04:23,540

well one time the air force uh...

893

01:04:23,540 --> 01:04:25,340

tried to claim that they uh...

894

01:04:25,340 --> 01:04:29,380

they had the UFOs they were government weapons this was about in nineteen fifty five

895

01:04:29,380 --> 01:04:31,700

i think it was in u.s. news and world report

896

01:04:31,700 --> 01:04:35,660

they broke a story saying that soon the air force will have flying saucers

897

01:04:35,660 --> 01:04:39,580

and the craft uh... depicted with the saucer shaped object with some sort of

898

01:04:39,580 --> 01:04:43,700

uh... louvers on it and it said it would fly at all kinds of speeds and altitudes

899

01:04:43,700 --> 01:04:47,540

and in about nineteen fifty nine when the thing was finally developed by the avro

900

01:04:47,540 --> 01:04:48,420

company

901

01:04:48,420 --> 01:04:52,100

and later by uh... believe any c a scientist only got about two feet off the

902

01:04:52,100 --> 01:04:54,620

ground to be able to get a few inches

903

01:04:54,620 --> 01:04:56,300

it could have got about the curve

904

01:04:56,300 --> 01:04:57,820

wheeler on the hanger every day

905

01:04:57,820 --> 01:04:58,820

it got off the ground

906

01:04:58,820 --> 01:05:02,900

what's the next call of the grant seven eight one four five one five that puts

907

01:05:02,900 --> 01:05:04,660

you in contact

908

01:05:04,660 --> 01:05:05,860

go ahead please

909

01:05:05,860 --> 01:05:09,380

you have in the studio a couple of gentlemen who are members of the

910

01:05:09,380 --> 01:05:11,100

cleveland u-project

911

01:05:11,100 --> 01:05:13,380

yes and i would like to know

912

01:05:13,380 --> 01:05:15,500

what they have done to help

913

01:05:15,500 --> 01:05:19,460

my cap on that campus beyond the organization of the thing to bring this

914

01:05:19,460 --> 01:05:23,700

before the public by holding open congressional hearings

915

01:05:23,700 --> 01:05:27,180

and uh... the organization trying to bring this before the public uh...

916

01:05:27,180 --> 01:05:29,620

aren't any of the other organizations uh...

917

01:05:29,620 --> 01:05:30,900

uh... advocating that

918

01:05:30,900 --> 01:05:34,780

and not that i know of

919

01:05:34,780 --> 01:05:37,540

i disagree with your point sir go ahead

920

01:05:37,540 --> 01:05:38,620

what's your point sir

921

01:05:38,620 --> 01:05:42,620

i would like to know what these days there is an article appearing in the saucer news

922

01:05:42,620 --> 01:05:45,100

from nineteen sixty six issue

923

01:05:45,100 --> 01:05:48,300

where one of the members alamemic

924

01:05:48,300 --> 01:05:51,020

is a uh... signatory of the article

925

01:05:51,020 --> 01:05:54,300

this is james mosley edition

926

01:05:54,300 --> 01:05:57,140

right now just for the benefit of our listeners who are not uh... flying

927

01:05:57,140 --> 01:06:00,660

saucer rights this is also uses what this is the official publication of the

928

01:06:00,660 --> 01:06:04,140

saucer and unexplained selects your events research society with the sounds

929

01:06:04,140 --> 01:06:06,500

impressive and i'm not going to think about the saucer news

930

01:06:06,500 --> 01:06:08,820

isn't that a private organization

931

01:06:08,820 --> 01:06:12,980

and this is a private publication by james mosley if i'm not mistaken in my

932

01:06:12,980 --> 01:06:16,580

ideas yes the correct me if i know the organization is a local new york group

933

01:06:16,580 --> 01:06:19,220

but the uh... publication is actually separate

934

01:06:19,220 --> 01:06:22,860

but if you read my name under their friend you've noticed the other the other

935

01:06:22,860 --> 01:06:26,300

names of the two and we're all banding together this is something new

936

01:06:26,300 --> 01:06:27,940

it took two years to form this

937

01:06:27,940 --> 01:06:30,780

no one's ever done this and we're trying to do it we're going to try to form this

938

01:06:30,780 --> 01:06:32,060

group together

939

01:06:32,060 --> 01:06:35,660

and we're publishing information this is the main purpose of it

940

01:06:35,660 --> 01:06:37,540

is giving this information to the public

941

01:06:37,540 --> 01:06:41,940

this is not answering my question my question is what have you as leader of

942

01:06:41,940 --> 01:06:46,300

the clever your father's project done to help make up all we can do is forward

943

01:06:46,300 --> 01:06:49,060

the information across to make up and that's what we're doing

944

01:06:49,060 --> 01:06:53,580

what i have personally done through the many years as a member of my cap from

945

01:06:53,580 --> 01:06:55,380

its uh... inception

946

01:06:55,380 --> 01:07:00,020

is work very closely with major keyhole in fact major key was even turned

947

01:07:00,020 --> 01:07:04,060

lectures over to me when he couldn't keep them which is a great honors to me

948

01:07:04,060 --> 01:07:04,940

personally

949

01:07:04,940 --> 01:07:08,820

uh... seems to me that we must move along here on uh... in terms of time we have

950

01:07:08,820 --> 01:07:12,060

so much left that would like to broadcast here tonight one of the access to

951

01:07:12,060 --> 01:07:15,380

grind it seems to let's clear away some of the clouds and get down to what we're

952

01:07:15,380 --> 01:07:16,500

talking about

953

01:07:16,500 --> 01:07:19,180

one of the items in this uh... magazine

954

01:07:19,180 --> 01:07:20,460

suggests

955

01:07:20,460 --> 01:07:24,140

uh... if i read this correctly that the seven thousand five hundred dollars a

956

01:07:24,140 --> 01:07:29,420

year paid by nackab two major keyhole might better be spent elsewhere

957

01:07:29,420 --> 01:07:33,260

that uh... major keyhole perhaps is outlived is usefulness as far as nackab

958

01:07:33,260 --> 01:07:36,660

is concerned and let's take this money and give it to somebody else to uh...

959

01:07:36,660 --> 01:07:38,020

do a more active

960

01:07:38,020 --> 01:07:41,500

uh... job is this uh... proper representation of the essence of the

961

01:07:41,500 --> 01:07:42,380

suggestion

962

01:07:42,380 --> 01:07:47,380

uh... yes that's what i have in mind but my question is this

963

01:07:47,380 --> 01:07:51,100

uh... what have these members contributed financially to nackab now i am

964

01:07:51,100 --> 01:07:55,060

very well acquainted with nackab i know the job that nackab is trying to do i

965

01:07:55,060 --> 01:07:58,900

know the sacrifices of major keyhole that is made

966

01:07:58,900 --> 01:08:03,020

uh... to help this along and where would nackab be without major keyhole

967

01:08:03,020 --> 01:08:06,940

where would nackab be without the people

968

01:08:06,940 --> 01:08:10,460

uh... major keyhole has dedicated himself

969

01:08:10,460 --> 01:08:12,260

uh... for many many years

970

01:08:12,260 --> 01:08:15,740

i don't know that if you get seventy five cents a year or seven thousand five

971

01:08:15,740 --> 01:08:19,260

hundred and i'm not concerned he's done a tremendous job he used to be in five

972

01:08:19,260 --> 01:08:21,340

figures and he's taken an awful beating

973

01:08:21,340 --> 01:08:23,180

he's been to the youthful what

974

01:08:23,180 --> 01:08:25,140

billy mitchell was to the plane

975

01:08:25,140 --> 01:08:29,100

right i'm sorry we can't get more deeply into this uh... right

976

01:08:29,100 --> 01:08:32,900

let i guess among certain uh... people involved with flying saucer but we do

977

01:08:32,900 --> 01:08:36,420

have so very much to do yet tonight i'm very sorry so we must take the next

978

01:08:36,420 --> 01:08:38,300

call because we have two more things to more

979

01:08:38,300 --> 01:08:39,580

major items to bring you

980

01:08:39,580 --> 01:08:41,820

let's have a nice call this is our morning contact

981

01:08:41,820 --> 01:08:44,660

uh... i was reading several years ago

982

01:08:44,660 --> 01:08:48,020

in a book i believe by major keyhole

983

01:08:48,020 --> 01:08:52,140

referring to an incident uh... in the western half of the united states perhaps

984

01:08:52,140 --> 01:08:53,780

arizona or nevada

985

01:08:53,780 --> 01:08:58,620

where a flying saucer was reputed to a land landed and uh...

986

01:08:58,620 --> 01:09:02,980

this was covered up by the air force and the area was roped off

987

01:09:02,980 --> 01:09:04,260

uh...

988

01:09:04,260 --> 01:09:08,140

uh... i knew the reporter evidently uh... gave this story to major keyhole if

989

01:09:08,140 --> 01:09:09,300

i'm not mistaken

990

01:09:09,300 --> 01:09:14,100

and uh... he was able to bypass these roadblocks go over this hill and watch

991

01:09:14,100 --> 01:09:18,020

the uh... air force officials looking at this uh... saucer

992

01:09:18,020 --> 01:09:21,980

loading it into a van and perhaps taking it to a warehouse which is supposed to be

993

01:09:21,980 --> 01:09:24,020

near washington somewhere

994

01:09:24,020 --> 01:09:27,660

well sir i can clarify that that came out of a book called the uh... behind the

995

01:09:27,660 --> 01:09:30,260

behind the flying saucer by fidel a colleague yes

996

01:09:30,260 --> 01:09:32,780

and uh... nightcap never made any claim to this

997

01:09:32,780 --> 01:09:34,260

there has been uh...

998

01:09:34,260 --> 01:09:36,220

repeatedly on and off uh...

999

01:09:36,220 --> 01:09:40,100

uh... suggestions at the uh... right that is in project blue book does have a

1000

01:09:40,100 --> 01:09:43,500

saucer in color dot but there is no uh... outside proof of it

1001

01:09:43,500 --> 01:09:46,220

for his thank you for calling will take some more calls at seven eight one four

1002

01:09:46,220 --> 01:09:49,500

five one five i did mention two major items would like to uh...

1003

01:09:49,500 --> 01:09:52,540

get to and that is to reports of

1004

01:09:52,540 --> 01:09:55,100

very good uh... flying saucer sightings

1005

01:09:55,100 --> 01:09:59,060

can goodman just join us double key white c tb and answer and whether man

1006

01:09:59,060 --> 01:10:02,980

yet a sighting that occurred some years ago to tell us i guess about two and a

1007

01:10:02,980 --> 01:10:04,860

half years ago we'd like to have repeated

1008

01:10:04,860 --> 01:10:07,300

for so i'd like to end the rest of my guess here

1009

01:10:07,300 --> 01:10:09,620

to hear a conversation that i had earlier

1010

01:10:09,620 --> 01:10:10,420

this evening

1011

01:10:10,420 --> 01:10:12,340

with mister mckinney catar

1012

01:10:12,340 --> 01:10:16,140

and mister uh... catar is the author of anderson bill the future prize winning

1013

01:10:16,140 --> 01:10:20,380

book a few years ago is also the author co-author with general christmas may

1014

01:10:20,380 --> 01:10:21,420

of the story

1015

01:10:21,420 --> 01:10:23,060

of christmas may that appeared

1016

01:10:23,060 --> 01:10:24,700

now just a couple of months ago

1017

01:10:24,700 --> 01:10:28,020

i thought to intercept and ask him if you would uh... explain that to us a

1018

01:10:28,020 --> 01:10:28,820

little bit about

1019

01:10:28,820 --> 01:10:32,100

uh... some of the flying saucer events that have touched his life

1020

01:10:32,100 --> 01:10:35,020

uh... you know what i mean to know that the article

1021

01:10:35,020 --> 01:10:35,940

that uh...

1022

01:10:35,940 --> 01:10:39,660

used to be a doting commas now uh... you know what made you change is that since

1023

01:10:39,660 --> 01:10:41,620

you uh... had not

1024

01:10:41,620 --> 01:10:43,460

seem what that point

1025

01:10:43,460 --> 01:10:45,340

well i said i had

1026

01:10:45,340 --> 01:10:50,500

contested money to make a very interesting other

1027

01:10:50,500 --> 01:10:52,940

i didn't think that

1028

01:10:52,940 --> 01:10:56,140

that i was a dotting commas at the time

1029

01:10:56,140 --> 01:11:00,820

but i had been a long time ago and then the evidence just seemed to mount up

1030

01:11:00,820 --> 01:11:01,500

there were

1031

01:11:01,500 --> 01:11:02,900

people

1032

01:11:02,900 --> 01:11:06,060

in a position to recognize

1033

01:11:06,060 --> 01:11:07,060

that uh...

1034

01:11:07,060 --> 01:11:10,260

these things they observe are out of the ordinary

1035

01:11:10,260 --> 01:11:12,380

i could not ignore their testimony

1036

01:11:12,380 --> 01:11:15,780

we've had these people were qualified to know at least what they saw

1037

01:11:15,780 --> 01:11:16,940

exactly

1038

01:11:16,940 --> 01:11:21,620

what about your incident? how did your sighting come about of the UFO?

1039

01:11:21,620 --> 01:11:24,860

well i've described that all in this article

1040

01:11:25,860 --> 01:11:28,420

i just went down on the beach

1041

01:11:28,420 --> 01:11:31,420

in the very early evening

1042

01:11:31,420 --> 01:11:32,740

and uh...

1043

01:11:32,740 --> 01:11:35,060

i just drove down there

1044

01:11:35,060 --> 01:11:36,340

take a little walk

1045

01:11:36,340 --> 01:11:40,700

my editor and his wife were here from New York

1046

01:11:40,700 --> 01:11:44,300

we'd all been out together somewhere and come back to the house and they were

1047

01:11:44,300 --> 01:11:45,500

eating cocktails

1048

01:11:45,500 --> 01:11:47,820

i just thought i'd take a little stroll down the beach

1049

01:11:47,820 --> 01:11:49,180

i went down

1050

01:11:49,180 --> 01:11:53,660

looked to the southwest and here was this thing hanging in the sky

1051

01:11:53,660 --> 01:11:56,660

what was the distance from you approximately?

1052

01:11:56,660 --> 01:11:59,980

i had the slightest idea because it didn't know the size

1053

01:11:59,980 --> 01:12:02,380

but i knew it was motionless because

1054

01:12:02,380 --> 01:12:07,140

it didn't run advancing toward me because it didn't get any larger

1055

01:12:07,140 --> 01:12:10,620

it wasn't receding at the time

1056

01:12:10,620 --> 01:12:14,500

because it didn't get any smaller and it moved neither to right nor left

1057

01:12:14,500 --> 01:12:16,060

it was absolutely motionless

1058

01:12:16,060 --> 01:12:17,580

just uh... sat there

1059

01:12:17,580 --> 01:12:23,580

it looked like a half or a third of a top half of a third of a tangerine

1060

01:12:23,580 --> 01:12:24,780

although uh...

1061

01:12:24,780 --> 01:12:31,780

there i had to see that there was a slight risk across the bottom

1062

01:12:31,780 --> 01:12:34,780

i could just barely make that

1063

01:12:34,780 --> 01:12:37,780

did it have any uh... legs or these protrusions?

1064

01:12:37,780 --> 01:12:39,380

no it's too far away to

1065

01:12:39,380 --> 01:12:42,380

discover anything like that it was high in the air

1066

01:12:42,380 --> 01:12:47,660

how i don't know i guess there was a thing down to its relationship with the trees

1067

01:12:47,660 --> 01:12:50,340

on a point of land where it was

1068

01:12:50,340 --> 01:12:51,940

and then uh...

1069

01:12:51,940 --> 01:12:54,340

the next morning i used the instruments to

1070

01:12:54,340 --> 01:12:55,180

determine

1071

01:12:55,180 --> 01:12:57,340

the height of which it appeared

1072

01:12:57,340 --> 01:13:00,460

it was 11 degrees above the horizon

1073

01:13:00,460 --> 01:13:06,460

as for the compass reading the bearing would have been anywhere from 187 to 192

1074

01:13:06,460 --> 01:13:08,460

did anyone else see this with you?

1075

01:13:08,460 --> 01:13:10,580

there was an old doctor

1076

01:13:10,580 --> 01:13:13,580

who came out to face the next door

1077

01:13:13,580 --> 01:13:15,860

and he had rented a house there

1078

01:13:15,860 --> 01:13:18,620

and i ran down to

1079

01:13:18,620 --> 01:13:19,660

the old man

1080

01:13:19,660 --> 01:13:22,900

i pointed wildly and said look back to a look

1081

01:13:22,900 --> 01:13:25,860

and uh...

1082

01:13:25,860 --> 01:13:28,860

he looked wildly around the sky and

1083

01:13:28,860 --> 01:13:30,620

uh...

1084

01:13:30,620 --> 01:13:31,820

then he saw it

1085

01:13:31,820 --> 01:13:35,140

and i said what's that?

1086

01:13:35,140 --> 01:13:38,780

he tried to adjust his old eyes to this thing he said why uh...

1087

01:13:38,780 --> 01:13:40,020

isn't that

1088

01:13:40,020 --> 01:13:44,020

too airplane-free feeling in the mid air?

1089

01:13:44,020 --> 01:13:46,060

because apparently

1090

01:13:46,060 --> 01:13:49,020

he judged this as uh...

1091

01:13:49,180 --> 01:13:54,380

dark on the surface of this orange metallic object

1092

01:13:54,380 --> 01:13:58,660

the way you get any round surface you know and reflect sun on it

1093

01:13:58,660 --> 01:14:00,180

uh... the uh...

1094

01:14:00,180 --> 01:14:04,180

part that's brightest and shiny will be in the middle

1095

01:14:04,180 --> 01:14:07,780

matter of fact if you've got a beautiful woman's knee

1096

01:14:07,780 --> 01:14:09,040

with her

1097

01:14:09,040 --> 01:14:12,580

poli-glot looks that way you'll notice when you draw it or

1098

01:14:12,580 --> 01:14:13,540

observe it

1099

01:14:13,540 --> 01:14:14,780

that the

1100

01:14:14,780 --> 01:14:17,820

the round part of the object

1101

01:14:17,820 --> 01:14:18,820

here is you

1102

01:14:18,820 --> 01:14:20,540

on the curved surface

1103

01:14:20,540 --> 01:14:22,340

is shiny and brightest

1104

01:14:22,340 --> 01:14:25,340

you'll notice that too

1105

01:14:25,340 --> 01:14:28,980

too old to be where it's at

1106

01:14:28,980 --> 01:14:31,260

anyway

1107

01:14:31,260 --> 01:14:36,140

i said he had two airplanes refuting in the middle and they headed in opposite directions

1108

01:14:36,140 --> 01:14:38,700

he said yeah i guess they are

1109

01:14:38,700 --> 01:14:42,340

and then that moment he started to move

1110

01:14:42,340 --> 01:14:43,100

was uh...

1111

01:14:43,100 --> 01:14:47,260

unbelievable speed i've never seen any object where it was fast

1112

01:14:47,420 --> 01:14:50,420

from a typically still position to uh...

1113

01:14:50,420 --> 01:14:51,420

it just took off

1114

01:14:51,420 --> 01:14:53,860

uh... drawing into

1115

01:14:53,860 --> 01:14:56,860

pie into the southwest

1116

01:14:56,860 --> 01:14:59,500

and

1117

01:14:59,500 --> 01:15:01,500

another

1118

01:15:01,500 --> 01:15:03,940

neighbor appeared on the beach

1119

01:15:03,940 --> 01:15:07,140

my friend Dorothy Smith right beyond

1120

01:15:07,140 --> 01:15:12,340

and i screamed Dorothy Dorothy and started to order and before i could tell her that

1121

01:15:12,340 --> 01:15:14,340

hundred yards ago

1122

01:15:14,340 --> 01:15:16,820

uh... it was entirely gone

1123

01:15:17,140 --> 01:15:18,540

in your mind uh...

1124

01:15:18,540 --> 01:15:22,540

while you were seeing this and and and i have to try to discredit you know your

1125

01:15:22,540 --> 01:15:24,540

own credibility

1126

01:15:24,540 --> 01:15:27,540

i had believed that it is this

1127

01:15:27,540 --> 01:15:29,100

i thought what i'd like to

1128

01:15:29,100 --> 01:15:30,420

i know

1129

01:15:30,420 --> 01:15:34,220

for sure i just don't have to take anybody else's workforce

1130

01:15:34,220 --> 01:15:38,060

i had of course been loudly thought my house to try to uh...

1131

01:15:38,060 --> 01:15:42,020

get my wife and uh... my editor his wife

1132

01:15:42,020 --> 01:15:49,020

uh... the editor of the late time

1133

01:15:49,020 --> 01:15:51,020

i had to hide it

1134

01:15:51,020 --> 01:15:56,020

and i'm making cocktails and laughing and talking and i couldn't hear me at all

1135

01:15:56,020 --> 01:15:57,300

now uh...

1136

01:15:57,300 --> 01:16:00,020

you've seen your article in the popular science that you took this uh...

1137

01:16:00,020 --> 01:16:03,020

information to an air force colonel at mcdill seal it by time

1138

01:16:03,020 --> 01:16:04,580

i was a friend of mine

1139

01:16:04,580 --> 01:16:05,700

it was his reaction

1140

01:16:05,700 --> 01:16:07,980

and of course he believed it

1141

01:16:07,980 --> 01:16:08,580

he did

1142

01:16:08,580 --> 01:16:11,380

yeah that's my good cry

1143

01:16:11,540 --> 01:16:15,140

you see the rancid file in the air force

1144

01:16:15,140 --> 01:16:16,100

uh...

1145

01:16:16,100 --> 01:16:16,820

i know

1146

01:16:16,820 --> 01:16:23,500

a lot of people flyers who believe it may exist in the ufo

1147

01:16:23,500 --> 01:16:26,020

there's a policy

1148

01:16:26,020 --> 01:16:27,260

that would seem to

1149

01:16:27,260 --> 01:16:29,780

indicate

1150

01:16:29,780 --> 01:16:34,780

a high command

1151

01:16:34,780 --> 01:16:38,260

put down a structure

1152

01:16:38,420 --> 01:16:40,100

information

1153

01:16:40,100 --> 01:16:42,100

evaluation

1154

01:16:42,100 --> 01:16:44,100

general to me

1155

01:16:44,100 --> 01:16:45,260

denied that

1156

01:16:45,260 --> 01:16:47,340

to me and denied an impasse

1157

01:16:47,340 --> 01:16:48,900

that there's ever been

1158

01:16:48,900 --> 01:16:49,940

any policy

1159

01:16:49,940 --> 01:16:50,940

down

1160

01:16:50,940 --> 01:16:52,940

by the chief of staff or

1161

01:16:52,940 --> 01:16:55,940

any board or anyone at the pedicab

1162

01:16:55,940 --> 01:16:59,340

what about this uh... thing that uh... so many of the

1163

01:16:59,340 --> 01:17:06,100

diehard uh... ufologists talk about this uh... order two or two point two or something like that that uh...

1164

01:17:06,100 --> 01:17:07,620

makes it a little

1165

01:17:08,500 --> 01:17:12,660

against the regulations for them to speak to anyone concerning flying saucers

1166

01:17:12,660 --> 01:17:13,660

anyone in the ufo

1167

01:17:13,660 --> 01:17:18,420

well naturally you're going to get involved in something that may be classified

1168

01:17:18,420 --> 01:17:20,340

that's a very good order

1169

01:17:20,340 --> 01:17:22,060

because uh...

1170

01:17:22,060 --> 01:17:26,660

there are classified things that have been made public there are planes that

1171

01:17:26,660 --> 01:17:29,260

from time to time that are under wraps

1172

01:17:29,260 --> 01:17:31,060

and uh...

1173

01:17:31,060 --> 01:17:35,980

you just can't have an easy conversation on this subject

1174

01:17:35,980 --> 01:17:39,740

there was a time when I was with myself a top secret

1175

01:17:39,740 --> 01:17:40,740

and uh...

1176

01:17:40,740 --> 01:17:44,020

uh... was working as a technical shop for the air

1177

01:17:44,020 --> 01:17:45,580

chief of staff

1178

01:17:45,580 --> 01:17:47,220

that was back in the uh...

1179

01:17:47,220 --> 01:17:49,580

ran a big day

1180

01:17:49,580 --> 01:17:53,060

but i wouldn't discuss uf always with anyone

1181

01:17:53,060 --> 01:17:54,180

because i didn't

1182

01:17:54,180 --> 01:17:55,100

be guilty of

1183

01:17:55,100 --> 01:17:57,980

human unrelentingly divulging some

1184

01:17:57,980 --> 01:17:59,420

classified material

1185

01:17:59,420 --> 01:18:00,620

that's what i was surprised you

1186

01:18:00,620 --> 01:18:04,420

uh... you mentioned uh... colonel McCoy and you mentioned uh... general to me

1187

01:18:04,420 --> 01:18:06,420

the client

1188

01:18:06,420 --> 01:18:08,460

the client for space

1189

01:18:08,460 --> 01:18:11,420

uh... formerly

1190

01:18:11,420 --> 01:18:15,860

for several years ago he was killed up there

1191

01:18:15,860 --> 01:18:19,140

but according to what organizations like nikep say

1192

01:18:19,140 --> 01:18:23,460

uh... these officers cannot speak and yet they did speak to you

1193

01:18:23,460 --> 01:18:24,860

uh...

1194

01:18:24,860 --> 01:18:28,780

i think i see the reason why though on on second thought now uh... we have not

1195

01:18:28,780 --> 01:18:31,780

related yet that uh... this uh... setting of yours

1196

01:18:31,780 --> 01:18:35,220

was back in nineteen fifty four and this order probably has come down since

1197

01:18:35,220 --> 01:18:38,780

that time

1198

01:18:38,780 --> 01:18:41,780

that order may have been promulgated

1199

01:18:41,780 --> 01:18:43,140

later state

1200

01:18:43,140 --> 01:18:45,220

but at that time

1201

01:18:45,220 --> 01:18:46,740

you were getting a pretty rough

1202

01:18:46,740 --> 01:18:49,180

from these people to project blue book

1203

01:18:49,180 --> 01:18:53,060

the project blue book was the uh... official air force investigation into

1204

01:18:53,060 --> 01:18:54,620

other type of objects wasn't it?

1205

01:18:54,620 --> 01:18:57,060

yeah, these people up at the right path

1206

01:18:57,060 --> 01:18:57,700

now

1207

01:18:57,700 --> 01:18:58,220

um...

1208

01:18:58,220 --> 01:19:02,980

i told him that i said to mike, well here's what i saw this day and he says

1209

01:19:02,980 --> 01:19:04,860

what do you want to make out a report

1210

01:19:04,860 --> 01:19:08,140

and i said hell no, i don't want some character coming around and telling me i saw the planet

1211

01:19:08,140 --> 01:19:10,060

venus or something you know

1212

01:19:10,060 --> 01:19:12,980

and i knew that well i hadn't seen the planet venus

1213

01:19:12,980 --> 01:19:16,460

i mean i've seen it but i knew that it was this

1214

01:19:16,460 --> 01:19:19,340

what did your wife think about the sighting when you told her?

1215

01:19:19,340 --> 01:19:21,300

what did your wife think about the sighting when you told her?

1216

01:19:21,300 --> 01:19:24,780

it's been extremely jealous all these years since because she hasn't seen it

1217

01:19:24,820 --> 01:19:27,220

but at the beginning did she kind of uh... what kind of a...

1218

01:19:27,220 --> 01:19:30,700

well at the end of the week we both we've discussed it many times

1219

01:19:30,700 --> 01:19:33,460

uh... after i

1220

01:19:33,460 --> 01:19:34,700

uh...

1221

01:19:34,700 --> 01:19:40,940

dropped a part of the way from the job so that i wouldn't be unwittingly divulging anything

classified to her

1222

01:19:40,940 --> 01:19:42,700

and we discussed uh...

1223

01:19:42,700 --> 01:19:46,100

for a long while i wouldn't talk about solace at all, i like it

1224

01:19:46,100 --> 01:19:47,780

uh... talk about what

1225

01:19:47,780 --> 01:19:49,180

was this thing that i saw?

1226

01:19:49,180 --> 01:19:52,900

you know, i wouldn't get into any general discussion

1227

01:19:52,980 --> 01:19:55,900

as i say, i was working for the airteam at the time

1228

01:19:55,900 --> 01:19:59,220

and i didn't want to break into security

1229

01:19:59,220 --> 01:20:02,100

as Mr. McKenna Lee Catter, the author of Andersonville

1230

01:20:02,100 --> 01:20:07,380

the Pulitzer Prize winning book and the conversation we had earlier today about his experience in sighting a flying saucer

1231

01:20:07,380 --> 01:20:09,180

we will talk about several other

1232

01:20:09,180 --> 01:20:14,420

uh... aspects of unidentified flying objects, a way of chance to play for you

1233

01:20:14,420 --> 01:20:17,020

at a later broadcast on flying saucers

1234

01:20:17,020 --> 01:20:22,300

right now let's get to some of those calls, wedding on the contact line, because we still have that fascinating story that i've heard before

1235

01:20:22,300 --> 01:20:24,180

a couple of years ago, i'd like for you to hear it

1236

01:20:24,180 --> 01:20:25,340

from Ken McBittman

1237

01:20:25,340 --> 01:20:31,100

but to those of you who have been waiting, let's have your calls right now, a quick reminder this is WKYC Cleveland, Ohio, NBC

1238

01:20:31,100 --> 01:20:33,180

and Cleveland, this is Harb Morgan, you're in contact

1239

01:20:33,180 --> 01:20:38,900

please tell me, have you ever heard of the Bermuda triangle?

1240

01:20:38,900 --> 01:20:39,420

yes

1241

01:20:39,420 --> 01:20:41,020

i was reading a book

1242

01:20:41,020 --> 01:20:44,660

i think it's called Invisible Horizons by Vincent Gattis

1243

01:20:44,660 --> 01:20:47,940

and it says in the book it says draw a line from Florida to Bermuda

1244

01:20:47,940 --> 01:20:51,500

and then it says in there from Bermuda to Puerto Rico

1245

01:20:51,540 --> 01:20:53,380

and i'll throw it back to Florida

1246

01:20:53,380 --> 01:20:56,580

and it has many disurrences of airplanes

1247

01:20:56,580 --> 01:20:59,620

and it has one on December 5th 1945

1248

01:20:59,620 --> 01:21:02,380

at 2pm, 2pm, 1pm

1249

01:21:02,380 --> 01:21:08,300

this is 5pm, TBM, Avenger torpedo bombers took off

1250

01:21:08,300 --> 01:21:10,060

and uh...

1251

01:21:10,060 --> 01:21:16,060

then the first word came from them at 3.45pm and they thought that they were going to have instructions to land

1252

01:21:16,060 --> 01:21:19,660

but the towers, but the people in the plane

1253

01:21:19,740 --> 01:21:23,100

they said, this is an emergency

1254

01:21:23,100 --> 01:21:25,780

and they said, we seem to be off course, we cannot see land

1255

01:21:25,780 --> 01:21:27,380

we cannot see land

1256

01:21:27,380 --> 01:21:30,460

and the guy in the tower says, what is your position?

1257

01:21:30,460 --> 01:21:34,820

the radio is powered back, we are not sure about the position, we cannot see

1258

01:21:34,820 --> 01:21:37,180

just where we are, we seem to be lost

1259

01:21:37,180 --> 01:21:40,100

then they asked, assume, then the people in the tower

1260

01:21:40,100 --> 01:21:44,220

total applied to assume, bring, do, west, the tower, instruct it

1261

01:21:44,220 --> 01:21:48,580

and then, but the guy in the plane he says, we don't know which way is west

1262

01:21:48,700 --> 01:21:52,620

he says, everything is wrong, strange, we cannot be sure of any direction

1263

01:21:52,620 --> 01:21:54,820

even the ocean doesn't look at all

1264

01:21:54,820 --> 01:21:55,940

and when did this happen?

1265

01:21:55,940 --> 01:21:58,340

December 5th 1945

1266

01:21:58,340 --> 01:21:59,580

it was at...

1267

01:21:59,580 --> 01:22:05,420

see, this was at the Naval Air Station in Fort Lauderdale, Florida

1268

01:22:05,420 --> 01:22:08,620

alright, so it was the essence of your question then, do the panelist here believe it?

1269

01:22:08,620 --> 01:22:09,420

yes

1270

01:22:09,420 --> 01:22:11,420

alright, let's check it out, George Fussett

1271

01:22:11,420 --> 01:22:15,500

well, the only thing I can say hard is that it's a well known fact that they

1272

01:22:15,620 --> 01:22:21,220

like the silent alien article, they disturb the magnetic field, which is from 30,000 feet up

1273

01:22:21,220 --> 01:22:24,420

they can disturb radio and TV

1274

01:22:24,420 --> 01:22:28,300

they have been known to have affected magnetic direction finders

1275

01:22:28,300 --> 01:22:31,300

and air direction finders also compasses

1276

01:22:31,300 --> 01:22:33,300

what about this Bermuda Triangle?

1277

01:22:33,300 --> 01:22:36,300

no, no, I read the article, the book just the other day

1278

01:22:36,300 --> 01:22:41,300

and I think he's done a tremendous job of documenting many of the plane that disappearances

1279

01:22:42,100 --> 01:22:47,100

and ships also in the Bermuda Triangle due to some kind of, I won't say, creek of nature

1280

01:22:47,100 --> 01:22:51,100

but due to some of the same characteristics that are observed when UFOs are near too

1281

01:22:51,100 --> 01:22:56,100

and do you connect the UFOs to these incidents, Alan?

1282

01:22:56,100 --> 01:23:01,100

well, I would have to because it was seen in the area at one time, I think it was in 47 or 48

1283

01:23:01,100 --> 01:23:03,100

where there was one in the area

1284

01:23:03,100 --> 01:23:07,100

and assistant, I guess there have been many planes, but not 17 at all, isn't it, Earl?

1285

01:23:07,100 --> 01:23:09,100

17 as far as I know

1286

01:23:09,900 --> 01:23:11,900

this is our Morgan contact

1287

01:23:11,900 --> 01:23:13,900

go ahead, please

1288

01:23:13,900 --> 01:23:18,900

how do you determine when these UFOs came from Venus

1289

01:23:18,900 --> 01:23:21,900

and what planets they came from?

1290

01:23:21,900 --> 01:23:24,900

this is, I guess, a question, really, a person's opinion

1291

01:23:24,900 --> 01:23:27,900

let's do a quick opinion poll right around here, Rick

1292

01:23:27,900 --> 01:23:30,900

it's just hard to say, they could be from another solar system

1293

01:23:30,900 --> 01:23:32,900

they could be from Mars, they could be from anywhere

1294

01:23:32,900 --> 01:23:34,900

Alan?

1295

01:23:34,900 --> 01:23:38,900

we're not making any claims where they're from, but they're definitely, we believe, extraterrestrial

1296

01:23:39,700 --> 01:23:43,700

when we go into space, we're going to the moon first, then to Mars, then to Venus, we hope

1297

01:23:43,700 --> 01:23:48,700

and so naturally, if something's coming into our area here

1298

01:23:48,700 --> 01:23:52,700

they're probably going to use those as stopping off spaces before they come here

1299

01:23:52,700 --> 01:23:55,700

so therefore they may be from beyond our solar system

1300

01:23:55,700 --> 01:23:58,700

merely using Mars or Venus or the moon before they get here

1301

01:23:58,700 --> 01:24:00,700

what do you think?

1302

01:24:00,700 --> 01:24:03,700

the different descriptions of the human beings that have been seen near the Arctic

1303

01:24:03,700 --> 01:24:06,700

in the Arctic and outside the Arctic home to ground

1304

01:24:06,700 --> 01:24:09,700

I'm not going to indicate that perhaps they come from many various races

1305

01:24:09,700 --> 01:24:13,700

beyond the home planet, but let's remember, even on our home planet here

1306

01:24:13,700 --> 01:24:17,700

we have Mitzitz and Duolks and Tigmis and some people who seem to be giants

1307

01:24:17,700 --> 01:24:19,700

compared to Mickey Ruth

1308

01:24:19,700 --> 01:24:24,700

yeah, but I just want to extend to reason that they would be sending those that depart so far from the norm

1309

01:24:24,700 --> 01:24:29,700

rather than life as it really is in a normal state

1310

01:24:29,700 --> 01:24:33,700

well, they seem to be humanoid and appearance and they do have eyes

1311

01:24:33,700 --> 01:24:37,700

they do have arms and legs and the focus bodies so to speak and heads

1312

01:24:37,700 --> 01:24:41,700

and they have certainly curious and they certainly are courageous

1313

01:24:41,700 --> 01:24:45,700

they certainly brave and certainly have a lot of intelligence behind it

1314

01:24:45,700 --> 01:24:47,700

let's have a next caller, it's 7814515

1315

01:24:47,700 --> 01:24:49,700

quickly this is Howard Morgan, contact

1316

01:24:49,700 --> 01:24:55,700

hello, I was a few years ago I came into contact with a book about flying saucers

1317

01:24:55,700 --> 01:25:02,700

and in this book there was a bunch of claims by people who had said they had seen saucers

1318

01:25:02,700 --> 01:25:06,700

and seen the people and gone in on for rides and these ships

1319

01:25:06,700 --> 01:25:12,700

and I was wondering if your organization has validated or investigated any of these reports

1320

01:25:12,700 --> 01:25:14,700

was that book by George Adamski?

1321

01:25:14,700 --> 01:25:16,700

I have no idea, it was quite a while ago

1322

01:25:16,700 --> 01:25:22,700

no contactee to the best of our knowledge has ever been able to prove his point

1323

01:25:22,700 --> 01:25:29,700

and this has been what we have believed here in the CUP, the Nephology Project

1324

01:25:29,700 --> 01:25:31,700

and Icap believes that, APRO believes it

1325

01:25:31,700 --> 01:25:37,700

I don't mean to disprove the fact that men like Lonnie Zamora, Socorro, New Mexico

1326

01:25:37,700 --> 01:25:41,700

the patrolmen didn't see creatures, yes creatures have been seen many times

1327

01:25:41,700 --> 01:25:44,700

but that doesn't mean that they talk in high German

1328

01:25:44,700 --> 01:25:46,700

all right, we'll have more calls coming up very shortly

1329

01:25:46,700 --> 01:25:49,700

it's 7814515, let me take just a short break

1330

01:25:49,700 --> 01:25:52,700

while you're reserving your place on the line

1331

01:25:52,700 --> 01:25:56,700

to bring in a good friend of mine, a fellow who last visited here on contact

1332

01:25:56,700 --> 01:25:59,700

I guess about two and a half years ago and at that time

1333

01:25:59,700 --> 01:26:03,700

I don't know, I'm still a skeptic girl after all these years

1334

01:26:03,700 --> 01:26:08,700

I've never seen one of these things, you call it what you will, a flying saucer

1335

01:26:08,700 --> 01:26:12,700

an unidentified flying object, but to me personally

1336

01:26:12,700 --> 01:26:18,700

when I've heard with these ears from people that I know of or see with my own eyes

1337

01:26:18,700 --> 01:26:22,700

I think the two most convincing experiences, let me put it in that category

1338

01:26:22,700 --> 01:26:26,700

the first one was from the experiences that I've heard was from Reverend Kenneth Hoffman

1339

01:26:26,700 --> 01:26:32,700

the Lutheran minister here in town and from another Kenneth, Ken Goodman

1340

01:26:32,700 --> 01:26:34,700

Ken, I'm glad you could take time to come up here and join us

1341

01:26:34,700 --> 01:26:37,700

and I wish that for the sake of the listeners that perhaps didn't hear it a couple of years ago

1342

01:26:37,700 --> 01:26:41,700

could you just briefly relate to me what happened to you and when and where

1343

01:26:41,700 --> 01:26:45,700

as I said two and a half years ago when I was on the show

1344

01:26:45,700 --> 01:26:48,700

I never really mentioned this to many people because it's the same old thing

1345

01:26:48,700 --> 01:26:51,700

well, what was he trying to do, he put somebody on so I kept it very quiet

1346

01:26:51,700 --> 01:26:54,700

my wife didn't even know about it for some time until one night I mentioned a lot that we discussed it

1347

01:26:54,700 --> 01:26:56,700

so you are a secretish

1348

01:26:56,700 --> 01:27:00,700

and I'm also very skeptical and I can see why people don't really believe these things exist

1349

01:27:00,700 --> 01:27:05,700

and if you recall that night that I was here, another gentleman was relating his story of a sighting

1350

01:27:05,700 --> 01:27:10,700

and I made the comment to him right on the air, I said, you know, I'm sitting here and I told you my sighting

1351

01:27:10,700 --> 01:27:14,700

and yet when you sit there and tell me your sighting, I tend not to want to believe you

1352

01:27:14,700 --> 01:27:16,700

that's kind of the same

1353

01:27:16,700 --> 01:27:23,700

well, it happened back in 1952 about February when I was in the Army taking basic training at Fort Jackson, South Carolina

1354

01:27:23,700 --> 01:27:30,700

I never did much as far as any readings about UFOs and at that time they were beginning to sight quite a few of them

1355

01:27:30,700 --> 01:27:36,700

this particular sighting occurred, I would imagine about 4.30 in the morning it was still very dark

1356

01:27:36,700 --> 01:27:42,700

the entire regiment, our training regiment was getting ready to board trucks to go out to the firing range

1357

01:27:42,700 --> 01:27:44,700

4.30 in the morning?

1358

01:27:44,700 --> 01:27:46,700

yeah, we get up early down there

1359

01:27:46,700 --> 01:27:52,700

and we were all lined up on this road more or less at a rest position waiting for the trucks to arrive

1360

01:27:52,700 --> 01:27:58,700

and it was a very clear night, not too many stars out and we were just sitting around showing the fat mostly

1361

01:27:58,700 --> 01:28:02,700

and a couple of sat in the nose up in the sky there was this bright light

1362

01:28:02,700 --> 01:28:05,700

well at first it was so far off it appeared to be just a star

1363

01:28:05,700 --> 01:28:09,700

then it began to move just a bit and we figured, well, it's another airliner

1364

01:28:09,700 --> 01:28:12,700

nothing much to do but look at the stars and sky anyhow

1365

01:28:12,700 --> 01:28:18,700

well the strange thing about this one was that all of a sudden still a very small object in the sky stopped suddenly

1366

01:28:18,700 --> 01:28:25,700

and this again attracted our attention to keep focused on it as I say a regiment of men were there

1367

01:28:25,700 --> 01:28:32,700

and we have later checked out a couple of these fellows who said that they will verify the fact that this was the sighting that we had seen that night

1368

01:28:32,700 --> 01:28:35,700

this we did about a year and a half ago with one of the UFO members here

1369

01:28:35,700 --> 01:28:42,700

at any rate the object would then again move, it would be very erratic, it would go up, it would go down to the left, to the right

1370

01:28:42,700 --> 01:28:46,700

and as it did these particular maneuvers it kept getting closer and closer

1371

01:28:46,700 --> 01:28:52,700

and we started sort of guessing what it might be, maybe it's a new helicopter or something of that nature

1372

01:28:52,700 --> 01:28:56,700

but the erratic movement of it was so fast that it couldn't have been a helicopter

1373

01:28:56,700 --> 01:29:01,700

and it kept up with this intense bright light that they always say the flying saucers have

1374

01:29:01,700 --> 01:29:07,700

and it got much closer to us and it finally got to the point as I say continuing with these erratic maneuvers

1375

01:29:07,700 --> 01:29:12,700

were just holding still for several seconds but it was out there the total time I guess maybe ten minutes

1376

01:29:12,700 --> 01:29:15,700

it was hard to judge, you stand there with these chills running up and down your spine

1377

01:29:15,700 --> 01:29:18,700

and you begin to realize this has got to be a flying saucer

1378

01:29:18,700 --> 01:29:25,700

and it pulled out, I would say from where we are in the studio here at 6 in Rockwell to the terminal tower building

1379

01:29:25,700 --> 01:29:27,700

which was probably several thousand feet up

1380

01:29:27,700 --> 01:29:28,700

they got that close to you?

1381

01:29:28,700 --> 01:29:33,700

Yeah, it was rather close to the point where you could actually see portholes in it

1382

01:29:33,700 --> 01:29:37,700

and this was really the clincher that you had to believe this was a flying saucer

1383

01:29:37,700 --> 01:29:41,700

it was the oval shaped type thing, the saucer shape

1384

01:29:41,700 --> 01:29:44,700

and the four or five portholes were very discernible

1385

01:29:44,700 --> 01:29:49,700

there was the light brighter inside the portholes than the actual glow of the saucer itself

1386

01:29:49,700 --> 01:29:53,700

they were very very bright lights in it so the portholes did stand out well

1387

01:29:53,700 --> 01:29:56,700

and then it did a rather strange thing

1388

01:29:56,700 --> 01:30:00,700

and if you recall perhaps after the program or while the program was still in progress

1389

01:30:00,700 --> 01:30:06,700

the last time I was here I hadn't known about the fact that other people made this similar type of sighting

1390

01:30:06,700 --> 01:30:11,700

a bright search light sent a beam down from the bottom of the ship

1391

01:30:11,700 --> 01:30:14,700

and it would blink on and off

1392

01:30:14,700 --> 01:30:17,700

and it was a real weird thing to sit there and just watch this thing

1393

01:30:17,700 --> 01:30:22,700

and then all of a sudden for no reason at all other than the fact that I guess it wanted to go

1394

01:30:22,700 --> 01:30:28,700

it turned into a red glow and all we could figure after it left was the fact that it had turned directly opposite from us

1395

01:30:28,700 --> 01:30:34,700

and we saw the evidently jet type exhaust because it turned into this reddish orange ball

1396

01:30:34,700 --> 01:30:38,700

and within just a split second just like that it was gone

1397

01:30:38,700 --> 01:30:43,700

and right out of sight it moved at such fantastic speed we just discounted any facts that it could have been something from this planet

1398

01:30:43,700 --> 01:30:49,700

because at that time and even since then I've yet to hear of any plane or any type object that we have

1399

01:30:49,700 --> 01:30:54,700

and that was back in 52 up to this present date that could possibly go that fast or sit still in air

1400

01:30:54,700 --> 01:30:57,700

and move as erratic as that one did

1401

01:30:57,700 --> 01:31:00,700

so our only assumption was that it had to be a flying saucer

1402

01:31:00,700 --> 01:31:03,700

You were outside the barracks or you were already out at the campsite

1403

01:31:03,700 --> 01:31:06,700

We were outside behind the barracks on a roadway

1404

01:31:06,700 --> 01:31:08,700

it's an area known as Tank Hill in Fort Jackson

1405

01:31:08,700 --> 01:31:10,700

We know it very well

1406

01:31:10,700 --> 01:31:12,700

I was stationed there myself

1407

01:31:12,700 --> 01:31:14,700

It's the highest elevation in the area

1408

01:31:14,700 --> 01:31:18,700

and from there you get a good view of almost the entire countryside all the way over to Columbia

1409

01:31:18,700 --> 01:31:22,700

and it seemed to be centered more between Jackson and Columbia

1410

01:31:22,700 --> 01:31:24,700

Fort Jackson and Columbia, South Carolina

1411

01:31:24,700 --> 01:31:27,700

but it was close enough that we could actually see these portholes we saw in the morning

1412

01:31:27,700 --> 01:31:28,700

People that were dark?

1413

01:31:28,700 --> 01:31:29,700

Oh yeah

1414

01:31:29,700 --> 01:31:30,700

Portholes were lit up inside

1415

01:31:30,700 --> 01:31:32,700

The inside of the ship was lit

1416

01:31:32,700 --> 01:31:36,700

and the light beaming through the portholes was brighter than the actual glow of the saucer itself

1417

01:31:36,700 --> 01:31:40,700

and I guess the reason it went is we started to get a daybreak about that time

1418

01:31:40,700 --> 01:31:43,700

and while it was just beginning to get a little light in the sky

1419

01:31:43,700 --> 01:31:44,700

he just took off

1420

01:31:44,700 --> 01:31:46,700

How many people are actually...

1421

01:31:46,700 --> 01:31:47,700

1,500, didn't you?

1422

01:31:47,700 --> 01:31:48,700

Yeah, 1,500

1423

01:31:48,700 --> 01:31:52,700

It was a training regiment which would probably be anywhere from 1,000 to 1,500 men out there

1424

01:31:52,700 --> 01:31:53,700

That's good enough confirmation

1425

01:31:53,700 --> 01:32:00,700

This is why Professor Charles Manning, the astrophysicist said it's one of the finest cases can he's ever heard of

1426

01:32:00,700 --> 01:32:03,700

What about the immediate group of men though right around you

1427

01:32:03,700 --> 01:32:06,700

Now you were standing in the cluster of how many men gabbing and...

1428

01:32:06,700 --> 01:32:09,700

Oh I guess there were about four or five of us in this one particular group

1429

01:32:09,700 --> 01:32:11,700

I was a platoon leader, platoon sergeant at the time

1430

01:32:11,700 --> 01:32:13,700

and I had my squad leaders with me

1431

01:32:13,700 --> 01:32:16,700

and we were just... of course everybody was looking at it, sort of dumbfounded

1432

01:32:16,700 --> 01:32:18,700

What kind of conversation was going on between you?

1433

01:32:18,700 --> 01:32:20,700

Just like the thing, what is it?

1434

01:32:20,700 --> 01:32:21,700

What can it be?

1435

01:32:21,700 --> 01:32:22,700

Has it got to be a flying saucer?

1436

01:32:22,700 --> 01:32:24,700

Because at that time there were a lot of sightings

1437

01:32:24,700 --> 01:32:25,700

but we were sort of out of it

1438

01:32:25,700 --> 01:32:28,700

but when you're in basic training you don't read newspapers and things like that

1439

01:32:28,700 --> 01:32:29,700

You didn't know what was happening to me

1440

01:32:29,700 --> 01:32:31,700

We were already coming, we were like, yeah

1441

01:32:31,700 --> 01:32:35,700

but that was a general talk like it's just unbelievable

1442

01:32:35,700 --> 01:32:37,700

that we here could see a flying saucer

1443

01:32:37,700 --> 01:32:40,700

You may hear of other people seeing it and never think you'll ever see one

1444

01:32:40,700 --> 01:32:41,700

and then when the time comes

1445

01:32:41,700 --> 01:32:44,700

like I say, all you do is get these chills going up and down your back

1446

01:32:44,700 --> 01:32:46,700

and when I hear these other stories about people

1447

01:32:46,700 --> 01:32:49,700

this fellow that you just now had

1448

01:32:49,700 --> 01:32:51,700

When he was talking about sighting it

1449

01:32:51,700 --> 01:32:54,700

I could feel the chills going up and down my back again

1450

01:32:54,700 --> 01:32:55,700

because I know what he went through

1451

01:32:55,700 --> 01:32:56,700

because if you ever see one

1452

01:32:56,700 --> 01:32:58,700

you get the weirdest feeling you ever had

1453

01:32:58,700 --> 01:33:01,700

because you know this thing's got to be from way out there

1454

01:33:01,700 --> 01:33:02,700

and you just don't...

1455

01:33:02,700 --> 01:33:06,700

it's always impossible to comprehend that there can be life outside of our own system

1456

01:33:06,700 --> 01:33:08,700

that could come here and if they wanted to

1457

01:33:08,700 --> 01:33:09,700

easily destroy us

1458

01:33:09,700 --> 01:33:11,700

because they have a machine that can get here like that

1459

01:33:11,700 --> 01:33:14,700

they sure must have the weapons to do whatever they want to do

1460

01:33:14,700 --> 01:33:17,700

but evidently it must be very peaceful and just checking us out

1461

01:33:17,700 --> 01:33:19,700

and that's about the way it looks

1462

01:33:19,700 --> 01:33:20,700

What was the follow up now?

1463

01:33:20,700 --> 01:33:21,700

Of course you're getting the truck

1464

01:33:21,700 --> 01:33:23,700

because this thing doesn't just vanish from your mind

1465

01:33:23,700 --> 01:33:25,700

you throw it in your mind and the rest of that day

1466

01:33:25,700 --> 01:33:26,700

and days to follow

1467

01:33:26,700 --> 01:33:29,700

What sort of conclusions did the guys come to?

1468

01:33:29,700 --> 01:33:33,700

There really wasn't much of a conclusion with the situation

1469

01:33:33,700 --> 01:33:35,700

The guys just sort of talked about it a little bit

1470

01:33:35,700 --> 01:33:37,700

but you get wrapped up in your basic training

1471

01:33:37,700 --> 01:33:39,700

you know you get up at 4 o'clock in the morning

1472

01:33:39,700 --> 01:33:42,700

you don't go to bed till midnight or 1 or 2

1473

01:33:42,700 --> 01:33:44,700

and it sort of goes out of the picture pretty quick

1474

01:33:44,700 --> 01:33:47,700

whether the officers involved around the area

1475

01:33:47,700 --> 01:33:49,700

made any report of it or not, I don't know

1476

01:33:49,700 --> 01:33:51,700

but nothing ever was said anymore about it

1477

01:33:51,700 --> 01:33:53,700

it was just quiet and that was it

1478

01:33:53,700 --> 01:33:55,700

No one reported it to the...

1479

01:33:55,700 --> 01:33:56,700

what is it, CIC or whatever?

1480

01:33:56,700 --> 01:33:57,700

Evidently not

1481

01:33:57,700 --> 01:33:58,700

No one in our area did

1482

01:33:58,700 --> 01:34:01,700

No, we just boarded our trucks when they came up and took off

1483

01:34:01,700 --> 01:34:03,700

and figured if the officers wanted to know about it

1484

01:34:03,700 --> 01:34:04,700

why that's their prerogative

1485

01:34:04,700 --> 01:34:07,700

we just sort of... as a trainee you start to say out of it

1486

01:34:07,700 --> 01:34:09,700

And there were no corroborating reports from civilians

1487

01:34:09,700 --> 01:34:11,700

they in the Columbia, South Carolina papers?

1488

01:34:11,700 --> 01:34:13,700

No, I can say we didn't read any papers

1489

01:34:13,700 --> 01:34:15,700

we had no papers up in there

1490

01:34:15,700 --> 01:34:17,700

and there may have well been

1491

01:34:17,700 --> 01:34:21,700

because I recall later on hearing reports

1492

01:34:21,700 --> 01:34:24,700

especially in 52 and 53 of a lot of flying saucer sightings

1493

01:34:24,700 --> 01:34:25,700

throughout the southeast

1494

01:34:25,700 --> 01:34:28,700

so this could have just been another saucer that came along

1495

01:34:28,700 --> 01:34:31,700

Now to show you how very little communication

1496

01:34:31,700 --> 01:34:34,700

sometimes there is even at the same camp

1497

01:34:34,700 --> 01:34:36,700

as I told you two and a half years ago

1498

01:34:36,700 --> 01:34:39,700

at the exact same time that Ken saw this flying saucer

1499

01:34:39,700 --> 01:34:44,700

I was news director of the Army radio station at Fort Jackson

1500

01:34:44,700 --> 01:34:47,700

on the very week, the very days, the very months

1501

01:34:47,700 --> 01:34:49,700

that this thing took place

1502

01:34:49,700 --> 01:34:51,700

and I didn't hear an lotta about it

1503

01:34:51,700 --> 01:34:53,700

and you would think that they're on the camp

1504

01:34:53,700 --> 01:34:55,700

that certainly you would hear something about it

1505

01:34:55,700 --> 01:34:57,700

but apparently the news just doesn't get around

1506

01:34:57,700 --> 01:34:59,700

there was no blackout as far as that's concerned

1507

01:34:59,700 --> 01:35:00,700

I don't think was there

1508

01:35:00,700 --> 01:35:02,700

Do you believe? You'd blackout?

1509

01:35:02,700 --> 01:35:04,700

No, I wouldn't think so

1510

01:35:04,700 --> 01:35:06,700

I just don't know why it wouldn't have been reported

1511

01:35:06,700 --> 01:35:09,700

evidently it's a funny situation

1512

01:35:09,700 --> 01:35:11,700

usually when your troops are waiting out on the roadway anyhow

1513

01:35:11,700 --> 01:35:13,700

the officers are never there

1514

01:35:13,700 --> 01:35:14,700

I don't know if you've ever noticed that

1515

01:35:14,700 --> 01:35:16,700

they find some place to speak on here

1516

01:35:16,700 --> 01:35:18,700

nothing, so it may have been a case where

1517

01:35:18,700 --> 01:35:20,700

really nobody of any importance

1518

01:35:20,700 --> 01:35:23,700

saw it to report to somebody

1519

01:35:23,700 --> 01:35:26,700

you see and for anybody in a basic training unit

1520

01:35:26,700 --> 01:35:27,700

for honor of the Lieutenant's team

1521

01:35:27,700 --> 01:35:29,700

I saw a flying saucer

1522

01:35:29,700 --> 01:35:31,700

you know, you just really don't do it

1523

01:35:31,700 --> 01:35:33,700

and everybody sort of relies on the other guy to have done it

1524

01:35:33,700 --> 01:35:35,700

let John do it, you know, I don't want to be

1525

01:35:35,700 --> 01:35:37,700

involved in it

1526

01:35:37,700 --> 01:35:39,700

I'm so glad we got a chance to re-hear this story

1527

01:35:39,700 --> 01:35:41,700

because as it happened at the time

1528

01:35:41,700 --> 01:35:43,700

two and a half years ago when we talked about it

1529

01:35:43,700 --> 01:35:45,700

I recorded the program that night

1530

01:35:45,700 --> 01:35:47,700

and I looked the other day all over trying to find that

1531

01:35:47,700 --> 01:35:49,700

version of Ken Goodman's story

1532

01:35:49,700 --> 01:35:51,700

of the time that he saw a UFO

1533

01:35:51,700 --> 01:35:53,700

so we could play it on the air and I couldn't find it

1534

01:35:53,700 --> 01:35:56,700

and now we've got it on tape again, we can use it for years and years and years to come

1535

01:35:56,700 --> 01:35:58,700

Ken, there's an interesting note there

1536

01:35:58,700 --> 01:36:00,700

I wanted whatever happened to some of the men in my

1537

01:36:00,700 --> 01:36:02,700

outfit over there because it was a funny situation

1538

01:36:02,700 --> 01:36:04,700

I was a trainee platoon sergeant

1539

01:36:04,700 --> 01:36:06,700

I was the only official staff sergeant in basic training at the time

1540

01:36:06,700 --> 01:36:08,700

having been a reservist I went into active duty

1541

01:36:08,700 --> 01:36:10,700

as a sergeant and had to go through basic

1542

01:36:10,700 --> 01:36:12,700

and this young fellow who was my assistant

1543

01:36:12,700 --> 01:36:14,700

my assistant platoon leader

1544

01:36:14,700 --> 01:36:16,700

I better not mention his name

1545

01:36:16,700 --> 01:36:18,700

because I guess you really shouldn't have said anything about it

1546

01:36:18,700 --> 01:36:20,700

but he is now a captain in the Army

1547

01:36:20,700 --> 01:36:22,700

it was two years ago

1548

01:36:22,700 --> 01:36:24,700

and one of the UFO members here

1549

01:36:24,700 --> 01:36:26,700

what is his gentleman's name again

1550

01:36:26,700 --> 01:36:28,700

Brian Acres

1551

01:36:28,700 --> 01:36:30,700

I gave him the list of men, about four of them

1552

01:36:30,700 --> 01:36:32,700

that I thought would be pretty much in the know

1553

01:36:32,700 --> 01:36:34,700

in the Army

1554

01:36:34,700 --> 01:36:36,700

he got a lot of people who weren't and this fellow was pretty bright

1555

01:36:36,700 --> 01:36:38,700

and I figured he'd be one of the fellows that could relate a good

1556

01:36:38,700 --> 01:36:40,700

great collection of the story

1557

01:36:40,700 --> 01:36:42,700

and he did, he wrote back to Brian

1558

01:36:42,700 --> 01:36:44,700

he said he was now a captain

1559

01:36:44,700 --> 01:36:46,700

but I believe in the letter, I didn't see the letter

1560

01:36:46,700 --> 01:36:48,700

Brian has it, he showed it to me Ken

1561

01:36:48,700 --> 01:36:50,700

but I don't think he could make any sworn statement

1562

01:36:50,700 --> 01:36:52,700

could he or could he not?

1563

01:36:52,700 --> 01:36:54,700

well this one letter confirmed what you said

1564

01:36:54,700 --> 01:36:56,700

whether they confirm it then that he had seen the sighting with us

1565

01:36:56,700 --> 01:36:58,700

we just have a few moments left

1566

01:36:58,700 --> 01:37:00,700

and I'd like to take some calls for any of my guests

1567

01:37:00,700 --> 01:37:02,700

including the guest you just heard

1568

01:37:02,700 --> 01:37:04,700

Ken Goodman

1569

01:37:04,700 --> 01:37:06,700

now before we take that next call very quickly

1570

01:37:06,700 --> 01:37:08,700

we had planned something else tonight

1571

01:37:08,700 --> 01:37:10,700

we had some of the ingredients to build this show with tonight

1572

01:37:10,700 --> 01:37:12,700

and one of the most important greetings

1573

01:37:12,700 --> 01:37:14,700

of course being your telephone calls

1574

01:37:14,700 --> 01:37:16,700

we want to make full use of your calls

1575

01:37:16,700 --> 01:37:18,700

we have a UFO detector

1576

01:37:18,700 --> 01:37:20,700

at least Earl Nath claims it is a UFO detector

1577

01:37:20,700 --> 01:37:22,700

now Earl

1578

01:37:22,700 --> 01:37:24,700

on the next UFO program we do

1579

01:37:24,700 --> 01:37:26,700

I want to go into this much more

1580

01:37:26,700 --> 01:37:28,700

how it works and everything

1581

01:37:28,700 --> 01:37:30,700

but just could you give me a little quick thumbnail sketch of it

1582

01:37:30,700 --> 01:37:32,700

and then let me hear

1583

01:37:32,700 --> 01:37:34,700

I have not heard how this thing

1584

01:37:34,700 --> 01:37:36,700

goes off or alarms or whatever it does

1585

01:37:36,700 --> 01:37:38,700

quickly this is

1586

01:37:38,700 --> 01:37:40,700

10 centimeters square

1587

01:37:40,700 --> 01:37:42,700

in our measurement I'd say roughly

1588

01:37:42,700 --> 01:37:44,700

four inches square

1589

01:37:44,700 --> 01:37:46,700

it's a plastic box, clear plastic box

1590

01:37:46,700 --> 01:37:48,700

hard plastic

1591

01:37:48,700 --> 01:37:50,700

on the top of it there's a north and south

1592

01:37:50,700 --> 01:37:52,700

indicator

1593

01:37:52,700 --> 01:37:54,700

and as I receive it now

1594

01:37:54,700 --> 01:37:56,700

I am turning the lid around

1595

01:37:56,700 --> 01:37:58,700

this enables me

1596

01:37:58,700 --> 01:38:00,700

to free the needle that's inside

1597

01:38:00,700 --> 01:38:02,700

the needle inside is like

1598

01:38:02,700 --> 01:38:04,700

a

1599

01:38:04,700 --> 01:38:06,700

compass needle

1600

01:38:06,700 --> 01:38:08,700

and there's a buzzer in here

1601

01:38:08,700 --> 01:38:10,700

and a little tiny red ball

1602

01:38:10,700 --> 01:38:12,700

you notice this little ball here Ken

1603

01:38:12,700 --> 01:38:14,700

and when the current

1604

01:38:14,700 --> 01:38:16,700

is turned on

1605

01:38:16,700 --> 01:38:18,700

there's a little 9 volt battery here

1606

01:38:18,700 --> 01:38:20,700

that will last a couple of years I say

1607

01:38:20,700 --> 01:38:22,700

and if the needle

1608

01:38:22,700 --> 01:38:24,700

which is like a compass needle

1609

01:38:24,700 --> 01:38:26,700

is placed north and south

1610

01:38:26,700 --> 01:38:28,700

through the north and south

1611

01:38:28,700 --> 01:38:30,700

if a UFO goes over ahead

1612

01:38:30,700 --> 01:38:32,700

not an airplane but only something that has

1613

01:38:32,700 --> 01:38:34,700

electromagnetic force fields around it

1614

01:38:34,700 --> 01:38:36,700

this will activate this little needle

1615

01:38:36,700 --> 01:38:38,700

and in turn

1616

01:38:38,700 --> 01:38:40,700

the

1617

01:38:40,700 --> 01:38:42,700

ball here that's on this wire

1618

01:38:42,700 --> 01:38:44,700

will slide from the vibration from the one end to the other

1619

01:38:44,700 --> 01:38:46,700

so if you're not home

1620

01:38:46,700 --> 01:38:48,700

and you've come home and you've seen that the ball has

1621

01:38:48,700 --> 01:38:50,700

moved you get pretty angry

1622

01:38:50,700 --> 01:38:52,700

probably you might shoot yourself

1623

01:38:52,700 --> 01:38:54,700

when you are home can you hear anything

1624

01:38:54,700 --> 01:38:56,700

oh yes very definitely and I'll just activate it

1625

01:38:56,700 --> 01:38:58,700

for you now artificially

1626

01:39:02,700 --> 01:39:04,700

it sounds like a Model T

1627

01:39:04,700 --> 01:39:06,700

and this

1628

01:39:06,700 --> 01:39:08,700

sound then emanates

1629

01:39:08,700 --> 01:39:10,700

if you're home you're in the next room and you have this thing set up

1630

01:39:10,700 --> 01:39:12,700

and if a UFO

1631

01:39:12,700 --> 01:39:14,700

goes off anywhere within what range

1632

01:39:14,700 --> 01:39:16,700

would you say?

1633

01:39:16,700 --> 01:39:18,700

home a good long distance you cannot place this

1634

01:39:18,700 --> 01:39:20,700

directly near a

1635

01:39:20,700 --> 01:39:22,700

big metallic surface

1636

01:39:22,700 --> 01:39:24,700

in other words keep it out pretty much in the open

1637

01:39:24,700 --> 01:39:26,700

or away from metal windows

1638

01:39:26,700 --> 01:39:28,700

or something of that kind

1639

01:39:28,700 --> 01:39:30,700

alright well next time we'll have a chance to go in

1640

01:39:30,700 --> 01:39:32,700

and explain this a little bit more and maybe talk

1641

01:39:32,700 --> 01:39:34,700

about the man who invented it

1642

01:39:34,700 --> 01:39:36,700

right now let's think one of the very quick calls

1643

01:39:36,700 --> 01:39:38,700

before we have to sign off this is heart Morgan you're in contact

1644

01:39:38,700 --> 01:39:40,700

go ahead please

1645

01:39:40,700 --> 01:39:42,700

hello I'd like to report a sighting

1646

01:39:42,700 --> 01:39:44,700

of a man who was just last Saturday

1647

01:39:44,700 --> 01:39:46,700

on 26th I was coming out of

1648

01:39:46,700 --> 01:39:48,700

a back of a drug store in Willowick

1649

01:39:48,700 --> 01:39:50,700

off of Line Street

1650

01:39:50,700 --> 01:39:52,700

and it appeared to me that somebody was shooting

1651

01:39:52,700 --> 01:39:54,700

off firecrackers and I happened to take

1652

01:39:54,700 --> 01:39:56,700

a second look at it and this thing worked like it was

1653

01:39:56,700 --> 01:39:58,700

rising

1654

01:39:58,700 --> 01:40:00,700

from the ground in the back of two houses

1655

01:40:00,700 --> 01:40:02,700

or I would say approximately

1656

01:40:02,700 --> 01:40:04,700

200 foot away

1657

01:40:04,700 --> 01:40:06,700

and as I looked closer I thought it was a

1658

01:40:06,700 --> 01:40:08,700

Roman camera or something and I was

1659

01:40:08,700 --> 01:40:10,700

saying things and I didn't want to believe

1660

01:40:10,700 --> 01:40:12,700

what I was saying but as I looked at it

1661

01:40:12,700 --> 01:40:14,700

it was going up very slow

1662

01:40:14,700 --> 01:40:16,700

and it seemed to hover about

1663

01:40:16,700 --> 01:40:18,700

the street light

1664

01:40:18,700 --> 01:40:20,700

height and it was shooting off

1665

01:40:20,700 --> 01:40:22,700

I didn't see no...

1666

01:40:22,700 --> 01:40:24,700

only that high about 10 feet off the ground you mean?

1667

01:40:24,700 --> 01:40:26,700

yes and then it was like hovering there

1668

01:40:26,700 --> 01:40:28,700

and then it went up very very slowly

1669

01:40:28,700 --> 01:40:30,700

and

1670

01:40:30,700 --> 01:40:32,700

I didn't see no cigar shape

1671

01:40:32,700 --> 01:40:34,700

or anything like this it was sort of a disc shape

1672

01:40:34,700 --> 01:40:36,700

I couldn't see

1673

01:40:36,700 --> 01:40:38,700

the actual disc but you could see

1674

01:40:38,700 --> 01:40:40,700

an outline of how the

1675

01:40:40,700 --> 01:40:42,700

you know the shell or the sparks

1676

01:40:42,700 --> 01:40:44,700

was coming out of it

1677

01:40:44,700 --> 01:40:46,700

and what was this exactly?

1678

01:40:46,700 --> 01:40:48,700

the shell or the sparks were

1679

01:40:48,700 --> 01:40:50,700

coming down at a late angle

1680

01:40:50,700 --> 01:40:52,700

where was this and what part of Cleveland

1681

01:40:52,700 --> 01:40:54,700

was it? in Norwick

1682

01:40:54,700 --> 01:40:56,700

I'd like to know if there were any more sayings

1683

01:40:56,700 --> 01:40:58,700

of this thing and this was approximately

1684

01:40:58,700 --> 01:41:00,700

quarter to ten minutes

1685

01:41:00,700 --> 01:41:02,700

to ten last Saturday night

1686

01:41:02,700 --> 01:41:04,700

I know there wasn't but

1687

01:41:04,700 --> 01:41:06,700

the object you're referring to

1688

01:41:06,700 --> 01:41:08,700

was a small type object

1689

01:41:08,700 --> 01:41:10,700

this could definitely be

1690

01:41:10,700 --> 01:41:12,700

a ball type lightning object

1691

01:41:12,700 --> 01:41:14,700

but I'm not certain about it

1692

01:41:14,700 --> 01:41:16,700

well I at first I thought

1693

01:41:16,700 --> 01:41:18,700

I looked at it and it was there

1694

01:41:18,700 --> 01:41:20,700

all I would say about

1695

01:41:20,700 --> 01:41:22,700

five to six seconds

1696

01:41:22,700 --> 01:41:24,700

and then

1697

01:41:24,700 --> 01:41:26,700

I thought it was maybe an optical illusion

1698

01:41:26,700 --> 01:41:28,700

or a light reflection

1699

01:41:28,700 --> 01:41:30,700

and then

1700

01:41:30,700 --> 01:41:32,700

the

1701

01:41:32,700 --> 01:41:34,700

all of a sudden it's just like I saw

1702

01:41:34,700 --> 01:41:36,700

a right

1703

01:41:36,700 --> 01:41:38,700

angle and off in the distance

1704

01:41:38,700 --> 01:41:40,700

I saw another shell or a sparks

1705

01:41:40,700 --> 01:41:42,700

and then it was gone

1706

01:41:42,700 --> 01:41:44,700

well I'm sorry sir we won't have time to get any more

1707

01:41:44,700 --> 01:41:46,700

of an answer from any of our other guests

1708

01:41:46,700 --> 01:41:48,700

because that is our time for this evening

1709

01:41:48,700 --> 01:41:50,700

my apologies first

1710

01:41:50,700 --> 01:41:52,700

those I'll be waiting on the land who could not get your call answered

1711

01:41:52,700 --> 01:41:54,700

or your statements heard

1712

01:41:54,700 --> 01:41:56,700

my special thanks to George Fawcett on the contact line

1713

01:41:56,700 --> 01:41:58,700

to Pennsylvania

1714

01:41:58,700 --> 01:42:00,700

in the contact studio Rick Hilberg

1715

01:42:00,700 --> 01:42:02,700

one of the directors of American UFO committee

1716

01:42:02,700 --> 01:42:04,700

and then the head of UFO report center

1717

01:42:04,700 --> 01:42:06,700

for the Cleveland U-POLOGY project

1718

01:42:06,700 --> 01:42:08,700

and Earl Knap lecturer on flying saucers

1719

01:42:08,700 --> 01:42:10,700

and a member of NYCAP

1720

01:42:10,700 --> 01:42:12,700

and also my thanks to

1721

01:42:12,700 --> 01:42:14,700

a late joiner Ken Goodman WKYC TV

1722

01:42:14,700 --> 01:42:16,700

and weatherman for relating his experience

1723

01:42:16,700 --> 01:42:18,700

of 1952 to us

1724

01:42:18,700 --> 01:42:20,700

in which a large number of people were involved

1725

01:42:20,700 --> 01:42:22,700

in that setting

1726

01:42:22,700 --> 01:42:24,700

and to Mr. McKinley Catter

1727

01:42:24,700 --> 01:42:26,700

of Florida now the author of

1728

01:42:26,700 --> 01:42:28,700

Andersonville for telling us his experience

1729

01:42:28,700 --> 01:42:30,700

with a flying saucer

1730

01:42:30,700 --> 01:42:32,700

how can we hear that UFO

1731

01:42:34,700 --> 01:42:36,700

next time

1732

01:42:36,700 --> 01:42:38,700

next time we'll have a chance to go more

1733

01:42:38,700 --> 01:42:40,700

into the UFO detector here on contact

1734

01:42:40,700 --> 01:42:42,700

produced by Bob Conroy

1735

01:42:42,700 --> 01:42:44,700

engineering by Gerald L. Smith

1736

01:42:44,700 --> 01:42:46,700

this is WKYC Cleveland, Ohio

1737

01:42:46,700 --> 01:42:48,700

NBC in Cleveland

1738

01:42:48,700 --> 01:42:50,700

tomorrow night a sound off night here on contact

1739

01:42:50,700 --> 01:42:52,700

and I hope at that time you will be

1740

01:42:52,700 --> 01:42:54,700

in contact

1741

01:42:54,700 --> 01:42:56,700

this is Harb Morgan, good night
